The most recent analysis of performance against these sub-targets was published in DFID's Autumn Performance Report in December 2004; this is available in both hard copy in the Library of the House of Commons and electronically on DFID's website (www.dfid.gov.uk). Updated assessments of performance against all the PSA targets and sub-targets will be provided in DFID's Departmental Report 2005, which we expect to be published in late April.

Mr. Bercow: To ask the Secretary of State for International Development (1) what recent progress has been made towards the Public Service Agreement target to develop evidence-based, innovative approaches to international development; [219581]

(2) what recent progress has been made towards the Public Service Agreement target to reduce poverty in North Africa; [219595]

(3) what recent progress has been made towards the Public Service Agreement target to reduce poverty in the Middle East; [219596]

(4) what recent progress has been made towards the Public Service Agreement target to reduce poverty in the Caribbean; [219597]

(5) what recent progress has been made towards the Public Service Agreement target to reduce poverty in Latin America; [219598]

(6) what recent progress has been made towards the Public Service Agreement target to reduce poverty in Central Asia; [219599]

(7) what recent progress has been made towards the Public Service Agreement target to reduce poverty in Europe. [219600]

Hilary Benn: The Department for International Development's 2003–2006 Public Service Agreement includes the following two objectives:

Objective III—reduce poverty in Europe, Central Asia, Latin America, the Caribbean, the Middle East and North Africa.

Objective V—Develop evidence based, innovative approaches to international development.

There are no specific PSA targets attached to DFID's work under these two objectives, and therefore progress is not assessed in the same way as for the five targets. Nonetheless, DFID provides details of its work in these areas in its annual Departmental Reports, which are available in the Library of the House of Commons and on DFID's website (www.dfid.gov.uk). An updated analysis of DFID's performance in these areas will be provided in DFID's Departmental Report 2005, which we expect to be published in late April.

UN Millennium Ecosystem Assessment

Norman Baker: To ask the Secretary of State for International Development what contribution his Department has made to the United Nations Millennium Ecosystem Assessment and what use he expects to make of the Assessment once it is published; and if he will make a statement. [218905]

Hilary Benn: The Department for International Development (DFID) welcomes the forthcoming publication of the Millennium Ecosystem Assessment (MA), the first public release of which will be at the end of March. We will look for opportunities to publicise the launch of this report internally to DFID staff.

The MA focuses on ecosystem services and how changes in ecosystem services affect human well-being. Building on this, the MA will identify policy, institutional, or technological changes that could not only improve the management of ecosystems, but also contribute to development and to long-term sustainability.

DFID has been involved in consultations with a number of MA working groups, providing comments and suggestions on the draft stages of the report. DFID also funded two co-ordinating lead authors through the provision of financial support to the International Institute for Environment and Development. One of the main financial contributors to the MA process has been the Global Environment Facility (GEF) to which the UK is currently contributing £103 million over four years from 2002. The UK is the fourth largest donor to the GEF.

DFID uses the results and recommendations of reports such as the MA to inform thinking on issues of poverty-environment linkages and the continual development and improvement of tools to support work to integrate environmental considerations into development co-operation. DFID is particularly interested in the findings of the MA that seek to highlight effective policies and interventions that respond to environmental challenges while bringing financial and livelihood benefits to the poor. Examples of these options include payment for ecosystem services such as catchment management and forest certification schemes.

DFID will also be encouraging those agencies involved in commissioning the report, including the Food and Agriculture Organisation and the Secretariats of the Conventions (in particular the Convention on Biodiversity and the Framework Convention on Climate Change), to use the analyses and results of this major study to inform their future policy and implementation work.

WORK AND PENSIONS

Alzheimer's Disease

Mr. McGrady: To ask the Secretary of State for Work and Pensions if he will provide those who suffer from Alzheimer's Disease with entitlement to disability living allowance from the date of their diagnosis. [219425]

Maria Eagle: No. Entitlement to disability living allowance is not linked to particular disabling conditions. It depends on either the extent to which a severely disabled person has long-term personal care needs and/or walking difficulties as a result of their disabilities, or on whether a person has a progressive disease from which their death in consequence of that disease can reasonably be expected within six months. In either case, there is no entitlement to the allowance for periods before the date on which a claim for it is made.

Benefit Payments (Angus)

Mr. Weir: To ask the Secretary of State for Work and Pensions how many people are in receipt of each state benefit in total in the *(a)* Kirriemuir West, *(b)* Kirriemuir East, *(c)* Brechin West, *(d)* Brechin North Esk, *(e)* Westfield and Dean, *(f)* Forfar West, *(g)* Forfar Central, *(h)* Forfar East, *(i)* Brechin South Esk, *(j)* Montrose Ferrydean, *(k)* Montrose Central, *(l)* Montrose West, *(m)* Montrose Hillside, *(n)* Forfar South, *(o)* Letham and Friockheim, *(p)* Arbirlot and Hospitalfield, *(q)* Keptie, *(r)* Arbroath North, *(s)* Brothock, *(t)* Hayshead and Lunan, *(u)* Harbour and *(v)* Cliffburn wards of Angus council. [218155]

Mr. Pond: The information is in the table.

Benefit case loads at ward level within Angus local authority: August 2003

	Income support	Jobseeker's allowance	Attendance allowance	Disability living allowance	Incapacity benefit	State pension	Minimum income guarantee	Pension credit[1]
Kirriemuir West	75	50	90	170	125	845	95	175
Kirriemuir East	135	70	115	170	195	845	160	265
Brechin West	80	55	105	150	115	970	130	195
Brechin North Esk	110	65	120	170	160	925	135	235
Westfield and Dean	100	50	85	175	170	735	90	160
Forfar West	85	40	140	160	125	905	200	270
Forfar Central	105	50	135	155	145	810	150	250
Forfar East	145	60	105	200	200	815	155	255
Brechin South Esk	155	80	70	145	165	530	110	185
Montrose Ferryden	165	130	95	160	155	725	130	200
Montrose Central	145	145	140	170	190	875	185	290
Montrose West	140	80	100	170	150	865	125	190
Montrose Hillside	100	75	60	170	155	645	100	155
Forfar South	140	60	85	115	130	655	95	170
Letham and Friockheim	85	50	85	170	180	805	95	170
Arbirlot and Hospitalfield	120	80	90	150	145	805	95	145
Keptie	100	80	120	190	155	905	170	265
Arbroath North	80	65	70	145	145	630	90	130
Brothock	295	140	85	260	275	585	140	230
Hayshead and Lunan	150	80	80	210	220	655	125	195
Harbour	290	170	200	310	335	840	315	415
Cliffburn	210	145	140	220	240	750	195	290

[1] Pension credit caseload relates to December 2004.

Notes:

1. All wards based on census wards—those boundaries current as at April 2003.
2. All benefit case loads at ward level are rounded to a multiple of five to protect the confidentiality of individual claimants.
3. Pension credit replaced MIG in October 2003.
4. Minimum income guarantee is defined as income support claimants and/or partners aged 60 or over.
5. Income support claimants are defined as claimants aged under 60 who do not have a partner aged 60 or over.
6. Incapacity benefit case load includes severe disablement allowance claimants.
7. Housing benefit and council tax benefit data are not available at local authority ward level.

DWP Information Directorate, 100 per cent. data August 2003

Child Support Agency

Mr. Webb: To ask the Secretary of State for Work and Pensions how many applicants there were for the post of Chief Executive of the Child Support Agency; where and when the post was advertised; and what the cost of advertising the post was. [218910]

Mr. Pond *[holding answer 2 March 2005]:* There were 56 applicants. The post of Chief Executive, Child Support Agency was advertised in *The Sunday Times* on 12 and 19 December 2004 and 9 January 2005 at a total cost of £19,500 plus VAT.

Disability Living Allowance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many claimants of disability living allowance receive carers allowance to look after another person. [219395]

Maria Eagle: As at August 2004, there were 23,700 disability living allowance recipients who were also receiving carer's allowance.

Notes:

1. Figure taken from a 5 per cent. sample and therefore subject to sampling error.
2. Number has been rounded to the nearest hundred.
3. Only DLA cases in payment have been included.

Source:

DWP Information Centre, 5 per cent. samples

EU Committees

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Technical Committee on Information Processing met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217888]

Mr. Pond: The EU Technical Commission met in Brussels on 23–24 September 2003 and 2–3 December 2003 (during the Italian presidency), 3–4 March 2004 and 24–25 May 2004 during the Irish presidency) and on 29–30 September 2004 and 24 November 2004 (during the Dutch presidency).

Officials from DWP attended all meetings accompanied by an Information Technology (IT) Consultant from Electronic Data Services (EDS), which is the Department's IT service provider.

The DWP officials were from International Pension Centre (part of the Pension Service) which is responsible for UK administration of the EU Social Security Co-ordination Regulations (Regulations 1408/71 and 574/72). The principal area of interest of the TC is to modernise the implementation of these regulations, particularly through the use of IT. The UK supports this objective, designed to produce efficiency savings and improve service to customers. An official from the Department of Health attended the meetings on 24–25 May 2004, 24–30 September 2004 and 24 November 2004.

A series of Command Papers on prospects for the EU—Cm 6174 laid in April 2004, Cm 6310 laid in September 2004 and Cm 6450 laid in February 2005, cover the periods of the above presidencies and are available in the Library and on the Foreign and Commonwealth Office (FCO) website at www.fco.gov.uk/commandpapers.

Financial Assistance Scheme

Mr. Waterson: To ask the Secretary of State for Work and Pensions pursuant to the written statement of 22 February 2005, *Official Report*, columns 16–18WS on the Financial Assistance Scheme, what estimate he has made of the cost of providing benefits *(a)* in full, *(b)* at the level that will be provided by the Pension Protection Fund and *(c)* at 80 per cent. of the core pension entitlement, but with the same minimum and maximum benefit cut-off as applies to the Pension Protection Fund, to (i) all the members of the schemes potentially eligible for the Financial Assistance Scheme listed and (ii) the 15,000 occupational pension scheme members who will be covered by the Financial Assistance Scheme provisions for those within three years of retirement age. [212304]

Malcolm Wicks: No such estimates have been made.

NORTHERN IRELAND

Inward Investment

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many visits to Northern Ireland by potential inward investors have been organised by his Department in the past four years; and how many of these have been to South Down. [219424]

Mr. Gardiner: In the period 1 April 2001 to 31 January 2005 Invest NI organised 551 visits by potential investor companies to Northern Ireland. Of these, 373 included site visits to a number of parliamentary constituencies, with 15 viewing sites in the constituency of South Down.

Public Service Pensions

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will make a statement on the Government's proposed changes to the local government pension scheme and the retirement age of school teachers; and what assessment was made of the consequent effect upon job prospects for newly qualified teachers. [217726]

Mr. Gardiner: The Department of the Environment will be consulting on proposed changes to the local government pension scheme in Northern Ireland in the near future. This scheme covers education and library board staff and support staff in some schools but does not extend to school teachers.

The Department of Education considers the review of the Northern Ireland Teachers' Superannuation Scheme (NITSS) as an opportunity for modernisation in a way that scheme members will value and also secures the long-term affordability of the scheme. We have therefore embarked upon a major consultation with interested parties, including individual teachers, to give them an opportunity to comment on a range of issues related to the future of the NITSS.

In particular, the Department is looking at ways of increasing the flexibilities available to teachers over the way in which they plan for their retirement because the more attractive and flexible the NITSS is as a benefit to the membership, the greater the contribution it will make to recruitment of newly qualified teachers and retention of existing members.

The consultation document can be found at www.deni.gov.uk

Targets

Mr. George Osborne: To ask the Secretary of State for Northern Ireland how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215833]

Mr. Paul Murphy: I refer the hon. Member to the answer given by my hon. Friend the Financial Secretary to the Treasury on 21 February 2005, *Official Report*, column 75W.

Because of uncertainties surrounding political developments in Northern Ireland at the time, it was not possible for the Northern Ireland Office to publish its first PSA until the 2000 Spending Review.

Water Service

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the cost has been of the two consultation exercises on water reform in Northern Ireland; and what the *(a)* operational and *(b)* staffing costs of the Water Reform Unit have been from the exercise. [219427]

Mr. Spellar: Total non-staffing expenditure incurred in respect of the 2003 public consultation on options for the reform of water and sewerage services in Northern Ireland amounted to £120,000. Total non-staffing costs in respect of the public consultation on the Integrated Impact Assessment of proposals for Water Reform, which concludes on 4 March 2005, have not been finalised, but are expected to be in the order of £90,000.

Figures in relation to staffing costs of the Water Reform Unit in respect of these consultations could be provided only at disproportionate cost.

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many people are employed in the Water Service, broken down by *(a)* professional engineer, *(b)* technical and *(c)* administrative grades; how many there were in (i) 1998 and (ii) 2000; and how many staff have been made redundant in the Water Service in the last year, broken down by position and grade in each category. [219428]

Mr. Spellar: The Chief Executive of Water Service (Mrs. Katharine Bryan) has been asked to write to the hon. Gentleman in response to this question.

Letter from Mrs. Katharine Bryan to Mr. Eddie McGrady, dated 4 March 2005:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question about how many people are employed in the Water Service, broken down by *(a)* professional engineer, *(b)* technical and *(c)* administrative grades; what the figures were in (i) 1998 and (ii) 2000; and how many staff have been made redundant in the Water Service in the last year broken down by types of positions and grade in each category (219428). I have been asked to reply as the issue falls within my responsibility as Chief Executive of Water Service.

The information is not readily available in the form requested but details of the staffing levels in the 4 main staff disciplines in Water Service are set out in the following table.

Discipline	Number of staff at 31 March 1998	Number of staff at 31 March 2000	Number of staff at 31 January 2005
Professional and technology	589	579	528
Scientific	62	66	64
Administrative	397	396	444
Industrial	1,157	1,072	930
Total	2,205	2,113	1,966

No Water Services staff were made redundant in the last year.

Mr. McGrady: To ask the Secretary of State for Northern Ireland if he will extend the consultation period in respect of the integrated impact assessment which was due to conclude on 4 March. [219426]

Mr. Spellar: The publication of Water Service's second Asset Management Plan does not provide grounds for extending the 14-week consultation period on the Water Reform Programme Integrated Impact Assessment which ends on 4 March 2005.

HEALTH

A & E Services (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Health how many people in *(a)* Chorley and *(b)* Preston used accident and emergency services in each of the last three years. [213909]

Miss Melanie Johnson: The information is not collected in the format requested. The information shown in the following table relates to the Lancashire teaching hospitals national health service trust, which serves Chorley and Preston. Data before 2002 relates to the two predecessor organisations—Chorley and South Ribble NHS trust and Preston acute hospitals NHS trust—which merged to form the Lancashire teaching hospitals NHS trust on 1 August 2002.

Attendances at accident and emergency departments at Lancashire teaching hospitals NHS trust

	Quarter	Total A and E attendances at Lancashire teaching hospitals NHS trust [1]
2004–05	2	27,637
2004–05	1	27,944
2003–04	4	24,898
2003–04	3	24,581
2003–04	2	27,235
2003–04	1	26,883
2002–03	4	23,757
2002–03	3	23,733
2002–03	2	26,272
2002–03	1	26,322

[1] Lancashire teaching hospitals includes both Royal Preston hospital and Chorley and South Ribble district general hospital. Separate data for the two hospital sites on attendances is only available prior to 2002–03.

Department of Health dataset QMAE.

2001–02

Quarter	Trust	Total A and E attendances
4	Chorley and South Ribble NHS trust	11,007
4	Preston Acute Hospitals NHS trust	14,115
3	Chorley and South Ribble NHS trust	11,442
3	Preston Acute Hospitals NHS trust	14,422
2	Chorley and South Ribble NHS trust	12,118
2	Preston Acute Hospitals NHS trust	15,289
1	Chorley and South Ribble NHS trust	12,502
1	Preston Acute Hospitals NHS trust	15,095

Source:
Department of Health dataset QMAE.

Abortion (Essex)

Mr. Rosindell: To ask the Secretary of State for Health how many doctors specialising in abortion procedure there are in the Romford and Havering constituencies. [219370]

Dr. Ladyman: The information requested is not held centrally.

Alcohol-related Hospital Admissions (Children)

Sarah Teather: To ask the Secretary of State for Health how many children aged between 11 and 15 years were admitted to hospital in *(a)* Greater London and *(b)* each London health authority owing to alcohol-related problems in each year since 2002–03. [220173]

Dr. Ladyman: Data are collected as counts of finished in-year admissions where there was a primary diagnosis or cause code for alcohol-related diseases.

The table shows the number of cases by strategic health authorities (SHAs) in London, followed by a sum of the total, which constitutes the total for London.

Counts of finished in-year admissions where there was a primary diagnosis or cause code for alcohol related diseases—age at admission: 11 to 15 years—national health service hospitals in London strategic health authorities

SHA		2002–03	2003–04
Q04	North West London	54	86
Q05	North Central London	66	63
Q06	North East London	58	80
Q07	South East London	59	69
Q08	South West London	122	140
Total	London SHAs	359	438

Notes:
1. Alcohol-related diseases
These are defined by a primary diagnosis of mental and behavioural disorders due to alcohol (ICD10 code F10), alcoholic liver disease (K70) or toxic effect of alcohol (T51) or a cause code of accidental poisoning by and exposure to alcohol (X45).
2. Finished in-year admissions
A finished in-year admission is the first period of in-patient care under one consultant within one healthcare provider, excluding admissions beginning before 1 April at the start of the data year. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

Avian Flu

Mr. Laurence Robertson: To ask the Secretary of State for Health what assessment she has made of the threat posed to public health in the UK by avian flu; and if she will make a statement. [219284]

Miss Melanie Johnson: I refer the hon. Member to the reply I gave on 1 March 2005, *Official Report*, column 1080W.

Care Homes

Mr. Burns: To ask the Secretary of State for Health what research his Department has conducted into the viability of full cost recovery of regulatory costs for care homes; and whether the information collected is publicly available. [220226]

Dr. Ladyman: This issue is dealt with in a full regulatory impact assessment, which will be published shortly, alongside the relevant regulations. Copies will be placed in the Library and will be available on the Department's website.

Children's Weight

Tim Loughton: To ask the Secretary of State for Health what the average *(a)* weight and *(b)* waist size was of children in each of the last 10 years. [214820]

Miss Melanie Johnson *[holding answer 8 February 2005]:* Figures from the Health Survey for England for the average weight for children are shown in the table. Children have been included in the survey since 1995. No data on children's waist circumference has been collected as a raised waist circumference has only recently been identified as a risk factor for children.

Children's mean weight, by survey year, age and sex, children aged 0–15 with valid weight measurement

Age rounded to nearest integer

Cruse Bereavement Care

Lady Hermon: To ask the Secretary of State for Health what funding was made available by his Department to Cruse Bereavement Care in each of the past five years for which figures are available; and what plans he has to increase the funding. [219768]

Ms Rosie Winterton: The Department has provided Cruse Bereavement Care with funding over a number of years under the Section 64 General Scheme. Details of awards over the last five years are shown in the table.

Award	*Amount*
Development of regional support network	£150,000 over three years from 1997
Equal opportunities officer project	£100,500 over three years from 1997
Development of regional support for bereaved people and Cruse volunteers	£120,000 over three years from 1998
Quality care in bereavement	£180,000 over three years from 1999
Bereavement care—improving access	£176,000 over three years from 2000
Promoting bereavement awareness	£90,000 over three years from 2001
Service delivery plan to meet client need	£150,000 over three years from 2002
Cruse practice manual	£25,000 over one year from 2002
Core funding	£125,000 over three years from 2003
Bereavement training programme	£138,000 over three years from 2004
Core funding (top up)	£80,000 over one year from 2005

The Department has no current plans to increase funding to Cruse. However Cruse, in common with other voluntary and community sector organisations, is able to apply for funding from the Department's Section 64 Scheme and any other Government funding streams.

DEHP Plasticiser

Mr. Dhanda: To ask the Secretary of State for Health if he will make a statement on the resolution by the European Parliament to restrict DEHP plasticiser in medical devices. [218986]

Ms Rosie Winterton: The Government are aware of the European Parliament Resolution on the European Environment and Health Action Plan 2004–2010, which refers to the restriction of Di (2-ethylhexyl) phthalate (DEHP) in medical devices except where such a restriction would have a negative impact on medical treatment. Medical devices are placed on the European Market in accordance with the provisions of the Medical Devices Directive. In meeting the relevant essential safety requirements, manufacturers must make an assessment that any risks are outweighed by the clinical benefits and that evidence of such benefits are provided.

The Medicines and Healthcare products Regulatory Agency (MHRA) which is the body in the United Kingdom with oversight for the Medical Devices Directive, has ensured that appropriate manufacturer's representative bodies are fully aware of the implications of the directive as they apply to DEHP-containing medical devices.

The Agency is also aware of, and is encouraging, manufacturers' efforts to find alternative material to phthalates, looking at ways of limiting exposure to DEHP and gaining a better understanding of DEHP toxicity

Dentistry

Sir Paul Beresford: To ask the Secretary of State for Health pursuant to the answer of 10 February 2005, *Official Report*, column 1688W, on dentistry, how many dentists returned to NHS dentistry from a career break between *(a)* April 2001 to March 2002, *(b)* April 2002 to March 2003 and *(c)* April 2003 to March 2004. [219380]

Ms Rosie Winterton *[holding answer 1 March 2005]:* 46 dentists returned to national health service dentistry and were members of the "Keeping In Touch" scheme between April 2003 and March 2004. Data is not available for the previous two years.

Sir Paul Beresford: To ask the Secretary of State for Health pursuant to the answer of 10 February 2005, *Official Report*, column 1688W, on dentistry, and the answer to my hon. Friend the Member for Westbury (Dr. Murrison) on 9 February 2005, *Official Report*, column 1620W, on the "Keeping in Touch" scheme, what information he collects on the number of whole-time equivalent dentists being recruited as a result of the "Keeping in Touch" scheme. [219382]

Ms Rosie Winterton *[holding answer 1 March 2005]:* The Department collects information from the retaining and returning adviser in the dental postgraduate deanery on the dentist's date of return to work, the primary care trust where the dentist is working and the number of sessions worked.

Mr. Rosindell: To ask the Secretary of State for Health if he will make a statement on dental registration rates. [217609]

Ms Rosie Winterton: I refer the hon. Member to the reply I gave to the hon. Member for Meriden (Mrs. Spelman) on 22 February 2005, *Official Report*, column 486W. We are undertaking the most far-reaching reforms to national health service dentistry since 1948, in order to make NHS dentistry more attractive to dentists.

Drug Rehabilitation

Dr. Cable: To ask the Secretary of State for Health what the budget is for drug rehabilitation in 2004–05; what allocation he has made up to 2007–08; and if he will make a statement. [216744]

Miss Melanie Johnson: The pooled drug treatment budget for 2004–05 and the allocated funding up until 2007–08 is shown in the table.

	Amount (£ million)
2004–05	253.4
2005–06	299.4
2006–07	423.8
2007–08	478.4

It is estimated that an additional £200 million mainstream funding is being spent on drug treatment in 2004–05, but we are not able to estimate the mainstream spend in future years.

These figures incorporate all six treatment modalities. These are day care; general practitioner prescribing; specialist prescribing; residential rehabilitation; in-patient detoxification and structured counselling. We do not have specific spend figures by individual treatment type.

Dr. Iddon: To ask the Secretary of State for Health pursuant to the statement by the Parliamentary Under-Secretary of State for the Home Department in the Standing Committee on the Drugs Bill on 3 February 2005, fifth sitting, *Official Report*, column 155, what progress has been made by *(a)* his Department and *(b)* the national treatment agency in advising (i) general practitioners and (ii) other prescribers to consider using opiate substitutes other than methadone. [217073]

Miss Melanie Johnson: A decision to use buprenorphine or opiates other than methadone for opiate substitution treatment requires knowledge and understanding of the use of these drugs in the management of addiction, as well as their limitations. Such treatment would normally be initiated by a specialist or a general practitioner with additional competence in this area of practice.

To support effective prescribing of a range of opiates, the Department has issued the clinical guidelines, "Drug misuse and dependence—guidelines on clinical management" (1999). The Department issued additional guidance on the availability of buprenorphine by instalment dispensing in 2001. In addition, the Department has funded the training of 800 GPs in a range of substitute opiates through funding of the Royal College of General Practitioners certificate course between 2002 and 2005.

The national treatment agency (NTA) for substance misuse has produced clinical guidance, "Prescribing services for drug misusers" (Research into practice briefing No. 2, January 2003), that includes a review of the evidence base concerning a range of pharmacological treatments for drug misusers, including alternative opiate substitute drugs. Further clinical guidance, "Injectable heroin (and injectable methadone)—potential roles in drug treatment" (May 2003), also gives advice on alternatives to methadone substitution therapy.

East Elmbridge and Mid Surrey PCT

Chris Grayling: To ask the Secretary of State for Health what proportion of spending on acute services by the East Elmbridge and Mid Surrey primary care trust was spent at *(a)* Epsom and St. Helier, *(b)* Guildford, *(c)* Kingston, *(d)* East Surrey and *(e)* St. Peter's hospitals in each of the last three years. [219407]

Ms Rosie Winterton: The information requested is not collected centrally.

Chris Grayling: To ask the Secretary of State for Health how many people have become obese in the East Elmbridge and Mid Surrey primary care trust area in each of the past three years. [219447]

Ms Rosie Winterton: The information requested is not collected centrally.

Food Labelling

Helen Southworth: To ask the Secretary of State for Health what progress has been made towards achieving a clear and simple contents labelling system for all prepared foods that includes essential nutritional information and an indicator of high, medium or low value in respect of fat sugar and salt content; and if he will make a statement. [218605]

Miss Melanie Johnson: The recently published White Paper, "Choosing Health", contains a commitment to introduce a straightforward system of front of pack "signpost" food labelling that will help consumers to make healthier choices more easily.

In November, the Food Standards Agency published the results of the qualitative phase of research to identify the preferred format for a signposting system. It is now planning quantitative research on the preferred formats, and will be consulting stakeholders on the study design shortly. The research is expected to include at least one format that rates the fat, saturated fat, sugar and salt contents of the food as "high", "medium" or "low".

Health Services (North Durham)

Mr. Kevan Jones: To ask the Secretary of State for Health how many nurses there were in North Durham *(a)* in 2001 and *(b)* on the latest date for which figures are available. [214457]

Miss Melanie Johnson: The information requested is shown in the table. Data are supplied at strategic health authority (SHA) level as practice nurse data are not available by trust for 2001.[1]

National health service hospital and community health services: Qualified nursing, midwifery and health visiting staff including practice nurses[1] in the County Durham and Tees Valley SHA area by organisation 30 September each specified year

Department of Health non-medical workforce census.

Department of Health general and personal medical services statistics.

Hospital Debt

Mr. Edward Davey: To ask the Secretary of State for Health how many hospitals in England are in debt; by how much in each case; and if he will make a statement. [217527]

Mr. Hutton: The information requested has been placed in the Library.

We have taken debt to mean the cumulative break-even position as reported in the final accounts of national health service trusts. We do not collect information at individual hospital level.

Imported Medicine

Mr. Rosindell: To ask the Secretary of State for Health how much medicine the Government imported in the last year for which figures are available. [219368]

Ms Rosie Winterton: In 2003, the United Kingdom world trade in pharmaceuticals was valued at £11.941 million for exports and £8.378 million for imports, which created a crude trade balance surplus of £3.563 million.

This information is collected and published by Her Majesty's Customs and Excise.

Ministerial Visits

Keith Vaz: To ask the Secretary of State for Health what plans he has to visit Leicester general hospital. [220095]

Ms Rosie Winterton: There are no current plans in my official diary to undertake a visit to Leicester general hospital. Should a request to do so be received in the Department, it will be given full consideration.

Mobile Phones

Dr. Stoate: To ask the Secretary of State for Health what his Department's advice is on mobile phone use by under-16s. [217699]

Miss Melanie Johnson: I refer my hon. Friend to the reply I gave to my hon. Friend the Member for Stroud (Mr. Drew) on 18 January 2005, *Official Report*, column 876W.

Independent Sector Treatment Centres

Mr. Dobson: To ask the Secretary of State for Health how many contracts the NHS has entered into with private diagnostic and treatment centres. [213756]

Mr. Hutton *[holding answer 3 February 2005]:* A capacity planning exercise was undertaken to identify the capacity needed by the national health service to continue to drive down waiting times for patients and to meet waiting time targets. The need for procurement from the independent sector arose following that exercise. Ten contracts for independent sector treatment centres (ISTCs) have been signed to date with seven remaining. Full business cases, confirming the activity to be commissioned from the independent sector have been signed off by primary care trust boards, as have final agreements. The local NHS is expected to manage referrals to ensure that extra capacity available from ISTCs is used.

Parliamentary Questions

Mr. Burns: To ask the Secretary of State for Health when he will provide a substantive reply to question reference 215855, tabled for answer on 10 February. [220083]

Ms Rosie Winterton: I answered the hon. Member on 2 March 2005, *Official Report*, column 1226W.

Prosecutions (Non-entitlement to Treatment)

David Davis: To ask the Secretary of State for Health how many cases of civil action have been brought forward by the Counter Fraud and Security Management Service and its predecessors against those suspected of getting free treatment from the NHS to which they are not entitled since 1997; and how many of those cases have resulted in successful prosecution. [217438]

Ms Rosie Winterton *[holding answer 24 February 2005]:* The penalty charge was introduced in August 2001 as a civil fine for patients who wrongly obtain help with national health service charges for themselves or someone else. The penalty is five times the amount owed, up to a maximum of £100, plus the original unpaid NHS charge. If the penalty charge is not settled within 28 days from the date of posting, a surcharge will be applied. The surcharge is calculated as 50 per cent, of the penalty charge.

Since the penalty charge was introduced, 164,133 penalty notices have been issued. Up to 9,000 cases are currently going through the debt recovery process. 9,954 cases have already been dealt with by judgments in county court. The rest have been paid or concluded without recourse to court proceedings. Repeat offenders are subject to criminal prosecution where that is appropriate.

Five patients have been prosecuted under section 29 of the Health Act 1999 for obtaining free NHS treatment to which they were not entitled.

The number of prosecutions is low as the penalty charge is found to be the most cost-effective way of dealing with high-volume but low-value fraud.

Renal Services

Dr. Gibson: To ask the Secretary of State for Health (1) what plans his Department has to audit the implementation of the Renal National Service Framework; [212331]

(2) whether the measurable benchmarks set out in the Kidney Alliance/British Renal Society's Criteria for Success document will be utilised by the Healthcare Commission to audit the Renal National Service Framework. [212333]

Ms Rosie Winterton: It is the role of the independent Healthcare Commission to assess whether health organisations' plans include programmes to deliver national service frameworks. The development of a national audit around the national service framework for renal services fits within that programme of work. The use of particular tools for assessments is a matter for the Commission.

Dr. Gibson: To ask the Secretary of State for Health what action he is taking to increase the number of haemodialysis patients with permanent vascular access as opposed to catheters to 80 per cent. [212334]

Ms Rosie Winterton: We launched part one of the national service framework (NSF) for renal services in 2004. It sets standards and identifies markers of good practice for kidney dialysis and transplantation. Standard 3 of the NSF identifies arteriovenous fistulas as the best form of long-term vascular access. It is for primary care trusts commissioning renal services to set priorities for local action based on the standards, quality requirements and markers of good practice set out in the NSF for renal services. We are supporting delivery through various programmes and national health service pilots, including two work force pilots focused on the organisation of vascular access surgery. When this work is complete, the results will be shared with the NHS.

Residential Rehabilitation

Mrs. Curtis-Thomas: To ask the Secretary of State for Health what his Department's targets are for the number of residential rehabilitation places over the next three years. [212337]

Miss Melanie Johnson: The Department has not set targets for the numbers of residential rehabilitation places in each of the next three years.

The National Treatment Agency have conducted a needs assessment for Tier 4 Services, which includes residential rehabilitation, and this will be reporting this year. The findings of this assessment will be used to inform future service development.

Sickness Absence

Mr. Hammond: To ask the Secretary of State for Health what steps his Department is taking to reduce the numbers of sick days taken by staff in the Department. [216532]

Ms Rosie Winterton: About two-thirds of the Department's staff have no recorded sickness absence, but, as part of the work we are currently undertaking on maximising attendance and managing absence the Department is considering the findings of the report on "Implementing the recommendations of Managing Attendance in the Public Sector" alongside other leading research to ensure best practice.

Smoking

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the percentage of adults aged 16 and over who have smoked in each year since 1975, broken down by gender. [218124]

Miss Melanie Johnson: The prevalence of cigarette smoking is shown in the table.

Prevalence of cigarette smoking among people aged 16 and over, by gender in England: 1976 to 2003

	Men	*Women*	*All persons*
Unweighted data			
1976	45	37	41
1978	44	36	40
1980	42	36	39
1982	37	32	35
1984	35	32	33
1986	34	31	32
1988	32	30	31
1990	31	28	29
1992	29	27	28
1994	28	25	26
1996	28	27	28
1998	28	26	27
Weighted data			
1998	29	26	28
2000	29	25	27
2001	28	25	27
2002	27	25	26
2003	27	24	25

Note:
Until 2000, questions on smoking were asked biannually in the General Household Survey.
Source:
Office for National Statistics—"Living in Britain: Results from the 1993 and 2003 General Household Surveys". Available at www.statistics.gov.uk/ghs.

Mrs. Ellman: To ask the Secretary of State for Health what assessment he has made of the impact of smoking on health in Liverpool. [217122]

Miss Melanie Johnson *[holding answer 21 February 2005]:* The estimated percentages of deaths attributable to smoking in primary care trusts (PCTs) in Liverpool are shown in the table. The total figures for England are given for comparison.

Estimated percentages of all deaths attributable to smoking in Liverpool PCTs

Percentage

PCT	*Male*	*Female*	*All persons*
Central Liverpool	27	18	22
North Liverpool	28	21	24
South Liverpool	24	15	19
England	22	72	77

Note:
The percentage is based on the annual average estimate of smoking-attributable mortality across 1998–2002 and the observed number of deaths from all causes, all ages for 2002.

Source:
Information in the table is from the data underlying the publication of "The Smoking Epidemic in England, November 2004"—The Health Development Agency (HDA). Available on the HDA website at www.hda.nhs.uk/html/improving/smoking_epidemic.html.

Staff Identity Passes

Mr. George Osborne: To ask the Secretary of State for Health what the cost of producing a staff identity pass was in the Department on the latest date for which figures are available; and how many staff identity passes have been reported lost or stolen in each year since 1997. [215084]

Ms Rosie Winterton: The cost of materials in replacing a departmental staff identity pass is approximately £2.15 plus value added tax.

Records of the number of staff identity cards reported lost or stolen are not available for the period requested.

HOME DEPARTMENT

Animal Experimentation

Mr. Dhanda: To ask the Secretary of State for the Home Department if he will estimate the impact of the Human Genome Project on *(a)* the total number of animals, *(b)* the number of genetically modified mice and *(c)* the number of genetically modified primates, that will be used in the next few years. [218611]

Caroline Flint: It is assumed that the question refers to animals used in scientific procedures. It is not possible to estimate the total number of genetically modified animals that will be used in that way over the next few years as a result of the Human Genome Project. That will be largely dependent on strategic research and funding decisions by the funding councils and the private sector, and the nature and quality of the resulting scientific proposals. Any impact the Human Genome Project does have may be offset by a reduction in the use of non-genetically modified animals.

During 2003—the latest year for which figures are available—genetically modified animals were used in 764,000 regulated scientific procedures representing 27 per cent. of all procedures for 2003 compared with 26 per cent. in 2002 and 8 per cent. in 1995. Rodents—nearly all mice—were used in 98 per cent. of these procedures. It is likely that this trend of a gradually increasing use of such animals over the last decade will continue as advances in genetic science open up new avenues of research, and this may well include work arising from the Human Genome Project.

At present there is no use of genetically modified non-human primates licensed under the Animals (Scientific Procedures) Act 1986, and we do not expect that to change in the foreseeable future. Any applications for licences to conduct such work would be referred for advice to the Animal Procedures Committee.

Whatever the impact of the Human Genome Project, we will continue, in administering the 1986 Act, to license use of animals only when we consider there is no alternative, and then only when both the number of animals to be used and any resulting suffering are minimised.

Child Poverty

Vera Baird: To ask the Secretary of State for the Home Department what steps his Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020 and *(b)* halving it by 2010; and if he will make a statement. [219345]

Paul Goggins *[holding answer 2 March 2005]:* The Home Office is supporting the Treasury in meeting the ambitious targets this Government have set on child poverty. Children born into poverty are more likely to be victims of crime and more likely to offend. The Child Poverty Review highlighted the strong associations between youth crime, parental crime and child poverty.

In order to tackle the poor outcomes associated with child poverty, and to improve the life chances of poor children, the Home Office has invested in a number of prevention programmes for children at risk of involvement in crime or substance misuse.

To break the cycle of youth offending and deprivation, the Home Office Strategic Plan includes a commitment to increase youth crime prevention programmes. This includes multi-agency Youth Inclusion and Support Panels, targeting high-risk, children and their families, providing them with support and improving their access to mainstream services. It also includes the Youth Inclusion Programme, which targets the 13 to 16-year-olds most at risk of crime in 72 of the most deprived neighbourhoods. The numbers of both will be increased by 50 per cent. by 2008. We have also increased the coverage of the Intensive Supervision and Surveillance Programme (ISSPs).

Children living in poverty are a key risk group for substance misuse. We are targeting young people in the most deprived neighbourhoods at risk of substance misuse through "Positive Futures", a national sports-based social inclusion programme aimed at marginalised 10 to 19-year-olds. Positive Futures aims to "have a positive influence on participants' substance misuse, physical activity and offending behaviour". The Positive Futures projects have proved successful in building relationships, engaging and providing developmental opportunities for young people living in deprived areas.

Correspondence

Sarah Teather: To ask the Secretary of State for the Home Department when he will reply to the letter dated 14 October 2004 from the hon. Member for Brent, East regarding Ms Varsha Edeis. [215630]

Caroline Flint: I replied to the hon. Member's letter on 22 February 2005.

Criminal Justice Intervention Panels

Ross Cranston: To ask the Secretary of State for the Home Department how the National Offender Management Service will interrelate with the Criminal Justice Intervention Panels; and what impact on crime rates he expects to result from such interrelation. [203544]

Paul Goggins: The Drug Interventions Programme (formerly Criminal Justice Interventions Programme) is a critical part of the Government's national strategy for tackling drugs. Its implementation is being phased and delivery at a local level is through community-based Criminal Justice Integrated Teams (CJITs) which adopt a case management approach to offer access to drug treatment and support for drug misusing offenders.

With the creation of the National Offender Management Service (NOMS) we envisage the drugs case manager acting as the link to and, in some areas, provider of drug treatment services. Regional Offender Managers will be responsible for ensuring that effective links are established within their regions between offender managers and CJITs. This will avoid duplication and ensure a fully integrated package of support and management for drug misusing offenders before, during and after sentence.

Research shows that engaging offenders in drug treatment significantly reduces offending and impacts on crime. The successful co-operation of the Drug Interventions Programme and NOMS will contribute to the planned overall reduction of 15 per cent. in offences recorded by the British Crime Survey by the end of 2007–08.

Drug Seizures

Mr. Oaten: To ask the Secretary of State for the Home Department what baseline figures will be used to measure his Department's targets to increase the proportion of *(a)* heroin seized from 10 per cent. in 2003 to 16 per cent. in 2006 and *(b)* cocaine seized from 21 per cent. to 26 per cent. in 2006, as set out on page 85 of the Home Office Strategic Plan 2004 to 2008; and if he will make a statement. [214982]

Caroline Flint: The Home Office HMCE PSA 3 of increasing the proportion of heroin seized from 10 per cent. in 2003 to 16 per cent. in 2006 and cocaine from 21 per cent. to 26 per cent. is based upon the following Customs and Excise information.

(a) Heroin

The taking out of 3,379 kg of heroin in 2001–02.

The targets for 2003–04 through to 2005–06 for heroin then are as follows:

	Kilograms
2003–04	4,000
2004–05	4,600
2005–06	5,300

(b) Cocaine

The taking out of 10,930 kg of cocaine in 2001–02.

The targets for 2003–04 through to 2005–06 for cocaine then is as follows:

	Kilograms
2003–04	12,000
2004–05	12,600
2005–06	13,200

Extradition Treaty

Andrew Mackinlay: To ask the Secretary of State for the Home Department when he expects that the US Congress will ratify the amendment to the extradition treaty between the US and the United Kingdom; on what basis the United Kingdom has agreed to fulfill its obligations under the amended treaty prior to ratification by the US; and if he will make a statement. [217776]

Caroline Flint *[holding answer 1 March 2005]:* The extradition treaty signed between the US and the UK in 2003 is a completely new treaty, and requires the advice and consent of the US Senate Foreign Relations Committee before it can be ratified by the US Government. We have been advised by the US State Department that, although the Committee has a heavy schedule, the US State Department has asked it to consider the treaty at the earliest possible time.

Some of the important, modernising provisions of the new treaty were given effect in the Extradition Act 2003 (and are therefore available generally in extradition, and are not linked solely to the US-UK treaty.) Secondary legislation was required under the new Act to designate all our extradition partners for the purposes of extradition to those states. The United States was, of course, included in that legislation.

Inquests

Vera Baird: To ask the Secretary of State for the Home Department how many days on average in *(a)* 2003 and *(b)* 2004 (i) coroners, (ii) deputy coroners and (iii) assistant deputy coroners in the north-east region sat on inquests. [212090]

Paul Goggins: This information is not available.

National Probation Service

John McDonnell: To ask the Secretary of State for the Home Department what proportion of the budget for the National Probation Service for 2005–06 will provide for the additional employment of front-line staff. [218438]

Paul Goggins: The 42 local probation boards have been provided with an extra £20 million for the recruitment of extra staff to fund the full year effect of staff recruited in 2004–05 and to commence the recruitment of a further 1,000 staff in 2005–06. This amounts to approximately 37 per cent. of the probation boards' increase in budget for 2005–06.

John McDonnell: To ask the Secretary of State for the Home Department how many staff were employed in each probation area on 31 December 2004, broken down by grade; and how many vacancies there were on that date, broken down by grade. [218439]

Paul Goggins: The requested information will not be available until April 2005. Data as at 30 September 2004 is the most recent available, and is provided in the tables.

John McDonnell: To ask the Secretary of State for the Home Department how many probation staff he expects will be employed in each probation area in England and Wales by 30 March 2006, broken down by grade. [218440]

Paul Goggins: The information requested is as follows:

By March 2006, it is anticipated that there will be more than 21,000 probation staff, an increase of at least 1,880 (9.8 per cent.) on the 19,120 FTE employed at 30 September 2004.

It is not possible to provide this information by area or grade at the present time.

John McDonnell: To ask the Secretary of State for the Home Department if he will make a statement on the performance of the National Probation Service in meeting its targets for *(a)* 2003–04 and *(b)* April to September 2004. [203406]

Paul Goggins: The performance of the National Probation Service (NPS) in meeting its targets for 2003–04 and April to September 2004 is set out in the table.

	2003–04		April to September 2004–05		
Performance measure	Target	Achieved	Target	Achieved	Percentage point change
Enforcement within 10 days (percentage)	90	77	90	85	+8
Compliance	70	63	70	65	+2
Compliance including orders allowed to continue (Target = 70 per cent.)	—	—	70	79	—
Offending Behaviour Programme Completions	15,000	13,136	7,500	6,827	—
Percentage	—	88	—	91	+3
ECP completions	—	—	11,850	17,518	—
Percentage	—	—	—	148	—
DTTO starts	9,000	8,519	6,078	4,847	—
Percentage	—	95	—	80	-15
Basic Skills Starts	16,000	14,971	11,520	13,353	—
Percentage	—	94	—	116	+29
Basic Skills Awards	4,000	2,815	2,960	3,302	+44
Percentage	—	70	—	112	—
Sickness (days)	9	12.3	9	11.5	−0.8
Victims contacted (percentage)	85	91	85	[1]93	+2

[1] April-June 2004

The figures illustrate the real improvement that the NPS has achieved on most of its main service delivery targets.

It should be noted that the targets for:

DTTOs have increased from 9,000 to 13,000

Basic Skills starts have increased from 16,000 to 32,000

Basic Skills completions have increased from 4,000 to 8,000

The results for the first six months are very promising and show that the NPS can achieve all of its targets this year, provided that the good work done so far is maintained across all the 42 areas.

John Austin: To ask the Secretary of State for the Home Department what percentage of probation staff in England and Wales were from ethnic minorities in the year ended March 2003. [204004]

Paul Goggins *[holding answer 15 December 2004]:* The information requested is as follows:

The percentage of probation staff from black and minority ethnic groups at the year ended March 2003 was 10.1 per cent. A further 4.0 per cent. of staff did not have their ethnicity recorded.

John Austin: To ask the Secretary of State for the Home Department how many probation board members are from ethnic minorities; and how many were from ethnic minorities in March 2001. [204005]

Paul Goggins: *[holding answer 15 December 2004]:* The information requested is as follows:

Probation board members—England and Wales

	Number	*Percentage of total number of board members*
April 2001[1]	78 (of 531)	14.7
December 2004	79 (of 599)	13.2

[1] The information supplied is from April 2001, the date when board members were appointed to the National Probation Service. Prior to this date, no information is available.

John Austin: To ask the Secretary of State for the Home Department what percentage of senior probation officers are from ethnic minorities. [204006]

Paul Goggins *[holding answer 15 December 2004]:* The information requested is as follows:

The percentage of senior probation officers from black and minority ethnic groups as at 31 December 2003 was 10.8 per cent. of staff within that grade. A further 4.2 per cent. of senior probation officers did not have their ethnicity recorded.

Julie Morgan: To ask the Secretary of State for the Home Department whether the Home Office has conducted stress surveys amongst staff in the probation service in England and Wales. [204132]

Paul Goggins: The National Probation Directorate has not conducted stress surveys amongst staff in the probation service in England and Wales. However, a number of probation areas may have conducted such surveys.

The National Probation Directorate has been working closely with the local employers, trade unions and the Health and Safety Executive to deliver a first class health and safety policy to the National Probation Service.

A recent study carried out by the Work Foundation on behalf of the Cabinet Office identified the working relationship between the National Probation Directorate, Employers and Trade Unions in developing the Health and Safety Strategy as National Best Practice.

As part of the strategy, the National Probation Directorate has recently published a stress policy to be adopted by areas that is considered by the trade unions, employers and the Health and Safety Executive as a best practice model. This policy was created in accordance with the Health and Safety Executives launch of the Stress Management Standards in November 2004.

Julie Morgan: To ask the Secretary of State for the Home Department on how many occasions during 2003–04 the *(a)* National Probation Service's and *(b)* local probation area bullying and harassment policies were invoked. [204133]

Paul Goggins: There is no National Probation Service national bullying and harassment policy as such. The National Probation Service comprises forty-two probation boards that are bodies corporate in their own right and the employers of all staff working for that Board.

The National Negotiating Council of the National Probation Service which comprises representatives of the employers, trade unions and National Probation Directorate issued a "model" harassment and bullying policy that the individual Boards might wish to introduce. Boards are free to adopt the "model" policy or to develop a policy of their own.

The National Probation Directorate does not monitor the number of grievances or allegations of bullying or harassment made within the employing Boards as these are matters for the employer i.e. the individual Board.

Mr. Drew: To ask the Secretary of State for the Home Department what steps will be taken to improve morale within the National Probation Service. [204890]

Paul Goggins: In 2003–04 attrition rates within the National Probation Service (NPS)—the number of staff who leave the NPS, not including those who transfer within the service—stood at 8 per cent. for professional staff and 15 per cent. for support staff. This is well below the national average across the public sector. At the same time, the NPS has experienced little difficulty in recruitment, with total staff numbers rising by over 5,000 since 1997.

The performance of the NPS, which is another good indicator of morale, has undergone a sustained period of improvement since 2001.

Each probation area will receive a significant budget increase in 2005, with around 2,000 new members of staff to be recruited over the course of the year. This reflects the commitment the Government have to effective community supervision and will make a real difference to the management of offenders.

We will continue to encourage constructive dialogue with probation staff in order to ensure that they are fully engaged in the future development of the National Offender Management Service.

Immigration

Tom Cox: To ask the Secretary of State for the Home Department what checks are made by his Department of whether non-European Union citizens who enter the United Kingdom *(a)* take-up illegal employment and *(b)* live on benefits. [219761]

Mr. Browne: Nationals of countries outside the European Economic Area who are subject to immigration control are examined by the Immigration Service on arrival in the United Kingdom to establish whether they qualify for leave to enter under the Immigration Rules. Certain nationalities require prior entry clearance at British diplomatic posts overseas. Checks are carried out into the cases of individual non-EEA nationals who have entered the United Kingdom where there is particular reason to suspect they are committing immigration offences or breaching their conditions of stay. Enforcement operations against illegal migrant working and suspected benefit fraud are intelligence-led, and in some cases involve joint action with other Government Departments.

Overseas Bribery

Mr. Hancock: To ask the Secretary of State for the Home Department if he will place in the Library the minutes of the meeting that took place on 27 October between his officials and the Confederation of British Industry at which legislation on overseas bribery was discussed. [201648]

Paul Goggins: This was an informal meeting in the context of a visit from officials of the Government of the Netherlands who were seeking to learn from UK experience in the implementation of anti-bribery legislation. No minutes were made by the Home Office.

Police IT

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what progress has been made in the integration of police IT systems. [218616]

Caroline Flint: My right hon. Friend the Member for Sheffield, Brightside (Mr. Blunkett) announced on 22 June 2004 that the Government accepted the recommendations of Sir Michael Bichard's report following the Soham murders, including the introduction of a national IT system to support police intelligence. Work on introducing a national information-sharing system, safeguarding the future of the central information services currently provided by the Police National Computer, and implementing the business process changes in the police service required to make the new systems effective is being taken forward under the IMPACT Programme. As an interim solution, a National Nominal Index (NNI) gives police forces access to data held by the Criminal Records Bureau's Interim Police Local Cross-Check (I-PLX) system, which flags which forces hold information in specified systems about an individual. The NNI is currently being piloted in three forces and will be rolled out to other forces during 2005. The aim is to complete the IMPACT Programme by March 2007.

Prisoners (Resettlement)

Sandra Gidley: To ask the Secretary of State for the Home Department what steps are taken to involve families in the arrangements for the resettlement of prisoners upon their release; and what plans he has to change the system. [217112]

Paul Goggins: The Government recognise that helping to keep families together during sentence can contribute to successful resettlement and is firmly committed to promoting family ties. The Prison Service has a statutory obligation to encourage and assist prisoners to maintain contacts with their families and the wider community. It has strengthened its partnership with the voluntary and community sector, recognising the invaluable contribution it makes to services to families. There are now over 100 visitor centres and conditions have improved significantly in recent years, with more prisons adopting an imaginative approach in providing for extended family visits and play areas for children. The Assisted Prison Visits Scheme, funded by the Prison Service, also provides help with travel costs to prisoners' families and partners.

Prisoners' families are involved in sentence planning at certain establishments, where family members and outside probation staff are invited to attend sentence planning boards, in preparation for release. Family members are also invited to attend post-course reviews following the completion of offending behaviour programmes such as PASRO, a cognitive behavioural programme for substance misusers. The DfES Offenders' Learning and Skills Unit also supports a range of family literacy and parenting programmes within prisons, working closely with the voluntary sector to provide support to prisoners and their families.

The Government are seeking to develop a more strategic approach to engaging the children and families of offenders, both to maintain family ties and to support resettlement. Work is being taken forward under the Reducing Re-offending National Action Plan to establish best practice within a regional pathfinder. This is being taken forward in partnership with a wide range of voluntary and statutory organizations. In support of this collaborative working, the Probation Service is developing a national framework for working effectively with children and families of offenders.

Prison Staff

Mrs. Gillan: To ask the Secretary of State for the Home Department (1) how many prison officers and staff *(a)* were tested for HIV/Aids and *(b)* tested positive for HIV/Aids, following an incident in which they were injured (i) in each year since 1997 and (ii) from 1 January to 1 December; [203714]

(2) how many prison officers and staff were waiting on 6 December for the outcome of a test for HIV/Aids following an incident in prison in which they were injured. [203715]

Paul Goggins *[holding answer 13 December 2004]:* The Prison service does not hold information on the number of prison officers or staff tested for Aids/HIV or the results of any such tests. This information is confidential to the member of staff and is not normally available to the Prison Service.

Mr. Laurence Robertson: To ask the Secretary of State for the Home Department what discussions he has had with prison governors about the ability of prison officers to carry out front-line duties beyond the age of 60 years; and if he will make a statement. [218187]

Paul Goggins: The Prison Service has been involved in a range of discussions with prison governors and their representatives on the ability of prison officers to work beyond the age of 60, through the formal Whitley Council structure as well as in other forums. These discussions continue. Prison Officers are currently able to work beyond the age of 60 in exceptional circumstances where the Governor is satisfied that retention is necessary to meet the overriding needs of the Service.

Serious Organised Crime Agency

Mr. Edward Davey: To ask the Secretary of State for the Home Department whether the proposed objectives of the Serious Organised Crime Agency have changed since the decision to establish it. [218359]

Caroline Flint: The proposed objective for the Serious Organised Crime Agency continues to be to reduce the harm caused by serious organised crime to the United Kingdom, as set out in the Government White Paper, "One Step Ahead: A 21st Century Strategy to Defeat Organised Crime", published on 29 March 2004.

Mr. Edward Davey: To ask the Secretary of State for the Home Department what costs have been incurred in the establishment of the Serious Organised Crime Agency to date; and what estimate he has made of the total costs. [218361]

Caroline Flint: Costs incurred within the 2004–05 financial year towards the establishment of the Serious Organised Crime Agency have been met from within the existing Home Office budget. Costs to be incurred within 2005–06 will be funded from a transition budget of up to £13.5 million resource and £10 million capital agreed as a result of SR 2004.

Sexual Assaults

Mr. Battle: To ask the Secretary of State for the Home Department what plans he has to extend the network of sexual assault referral centres to *(a)* Leeds and *(b)* Yorkshire. [218660]

Paul Goggins: Plans are under way to develop a Sexual Assault Referral Centre (SARC) in Leeds which would provide forensic examination and link in with the support and counselling offered by the STAR (Surviving Trauma After Rape) project. STAR was established in 1994 by the Police and the four health authorities in West Yorkshire to provide co-ordinated support and counselling for victims of sexual assault. In addition, I understand that the voluntary and community sector are considering developing a SARC in Halifax.

We are committed to increasing the number of SARCs in England and Wales and Home Office funding from the Victims Fund is to be made available for the establishment of new SARCs in 2005–06. Projects in Leeds and in Yorkshire will be invited to apply for grants along with all other areas of England and Wales. Details of the application process will be made available in March.

Unpaid Fines

Sandra Gidley: To ask the Secretary of State for the Home Department how many prisoners were imprisoned because of *(a)* unpaid fines and *(b)* uncompleted community orders in each year since 1997. [217110]

Paul Goggins: The number of persons received into prison establishments in default of payment of a fine in each year from 1997 to 2003 is as follows:

	Number
1997	6,336
1998	5,374
1999	3,727
2000	2,476
2001	1,453
2002	1,192
2003	1,250

Information for 2004 is available only to 30 November at present, during which period there were 1,719 receptions of fine defaulters into prison establishments, as recorded on the Prison Service IT system.

The available information on persons imprisoned for uncompleted community orders is for persons[1] sentenced to immediate custody following breach of a community sentence[2] and is as follows:

[1] Includes a person more than once if sentenced to immediate custody for a breach of more than one type of community sentence on the same day.

[2] Includes probation orders (community rehabilitation orders from April 2001), supervision orders (but not available for 1997–99), community service orders (community punishment orders from April 2001), attendance centre orders, combination orders (community punishment and rehabilitation orders from April 2001), curfew orders, reparation orders (from June 2000), action plan orders (from June 2000) and drug treatment and testing orders (from October 2000). It does not include referral orders (from April 2002).

	Number
1997	7,205
1998	6,401
1999	7,573
2000	8,317
2001	8,094
2002	9,071
2003	9,526

Statistics for persons sentenced in 2004 are due for publication later this year.

Victim Support (Greater London)

Tom Cox: To ask the Secretary of State for the Home Department what recent assessment he has made of the effectiveness of the victim support scheme in the Greater London area. [206184]

Paul Goggins: The Greater London area is not serviced by one individual Victim Support scheme. Victim

Support services are organised by individual London boroughs and the London Crown Court Witness Service is managed by Victim Support's National Office.

The Home Office assesses the effectiveness of individual Victim Support schemes by monitoring the outcomes of area inspections, undertaken by Victim Support's Quality and Standards Department. Several London boroughs and the London Crown Court Witness Service have been reviewed since the new inspection process was introduced in 2003. Victim Support's inspection reports are public documents and can be viewed on their website.

The Home Office also reviews Victim Support's statistical information for the Metropolitan area on an annual basis. In 2003–04 Victim Support schemes and Witness Services in the Metropolitan area received a total of 236,683 referrals. The community-based services made 249,905 successful contacts and achieved a personal contact rate which exceeded the national average.

Visas

Mr. Frank Field: To ask the Secretary of State for the Home Department when he expects to reply to the request from the Visa Section of the Foreign and Commonwealth Office for the clearance of Mr. Abdulazeem Morsy (GV100/102307/DL) to enter the UK. [219387]

Mr. Browne: The information requested was forwarded electronically to the Visa Section of the British Embassy in Khartoum on 1 March 2005.

Written Answers to Questions

Monday 7 March 2005

INTERNATIONAL DEVELOPMENT

Asian Tsunami

Mr. Hancock: To ask the Secretary of State for International Development what recent discussions he has had with countries affected by the Asian tsunami regarding the sexual exploitation of children left *(a)* orphaned and *(b)* otherwise vulnerable, by the disaster; and what assistance the Government have given to help combat sexual exploitation of vulnerable children. [219717]

Mr. Gareth Thomas: DFID has talked at length with affected governments and humanitarian agencies operating on the ground to ensure that the needs of all vulnerable groups are adequately met. In particular, DFID is supporting programmes through the United Nations Children Fund (UNICEF). This includes £2,250,000 to UNICEF's Child Protection programmes in Indonesia and Sri Lanka. This programme includes assessments of the needs of children, the monitoring of vulnerable groups and advocacy on behalf of children with the relevant government bodies. DFID has also provided £400,000 to the Save the Children Fund's programme in Sri Lanka that includes child protection activities.

DFID continues to monitor the situation, and its country offices are retaining strong links to non-governmental organisations and United Nations agencies as we move into the recovery phase.

Malawi

Tom Brake: To ask the Secretary of State for International Development what representations he has received from the Malawi Government on the time scale for commencement of funds for the six-year health programme. [218045]

Hilary Benn: DFID has been clear that UK aid under the new six-year programme will be available from the beginning of the UK 2005–06 financial year. No representations have been received about the time scale for the commencement of payments. DFID spending on health in Malawi in financial year 2004–05 on existing commitments to Government and NGO programmes will be £11 million and is expected to increase by 50 per cent. with the new programme in 2005–06 and subsequent years.

DFID signed a Memorandum of Understanding with the Ministry of Health and other collaborating partners, Norway/SIDA and the World Bank on 29 October 2004, and an exchange of letters on DFID's health sector support on 9 December 2005. An initial disbursement of funds into the Donor Pool to support the Sector Wide Approach was made in December by Norway/SIDA. DFID is due to add its disbursement into this pool on 1 April 2005, once agreement is reached on a plan of action to reform Central Medical Stores.

TRANSPORT

Metrolink (Manchester)

Mr. Stringer: To ask the Secretary of State for Transport when he will determine the bid for the upgrading of phases 1 and 2 of Manchester's Metrolink. [220394]

Mr. McNulty: We are discussing the bid in detail with the Greater Manchester Passenger Transport Executive and will make a decision as soon as we are able to.

Transport Projects

Mr. Yeo: To ask the Secretary of State for Transport what major transport projects have been approved in the last year, broken down by parliamentary constituency. [215839]

Mr. Darling: The major local authority schemes (outside London) listed in Table 1 were approved fully during the course of 2004:

Table 1: Full approval

Scheme	*Constituency*
Rugeley Eastern Bypass	Cannock Chase
A167 Chilton Bypass	Sedgefield
A158 Partney Bypass	Louth and Horncastle
Cradley Heath Town Centre Strategy	Halesowen and Rowley Regis
Sunderland Southern Radial Route	Sunderland S
Barnstaple Western Bypass	North Devon
South Lowestoft Relief Road	Waveney
A429 Barford Bypass	Warwick and Leamington
Stoke Hammond and Linslade Bypass, Bucks	Buckingham South West Bedfordshire
Northfield Regeneration Route, Birmingham	Birmingham Northfield

Table 1: Full approval

Scheme	*Constituency*
West Midlands Red Route	Wolverhampton North East Wolverhampton South West Wolverhampton South East Walshall North Aldridge-Brownhills Walshall South Dudley North West Bromwich West/ East Birmingham Perry Barr Birmingham Erdington Sutton Coldfield Dudley South Stourbridge Halesowen and Rowley Regis Warley Birmingham Edgbaston Birmingham Ladywood Birmingham Hodge Hill Birmingham Yardley Birmingham Sparkbrook and Small Heath Birmingham Northfield Birmingham Selly Oak Birmingham Hall Green Solihull Meriden
North West Taunton	Taunton

Wolverhampton Centre access Interchange	Wolverhampton North East Wolverhampton South West Wolverhampton South East
Derby Inner Ring Road Maintenance	Derby North Derby South
Plymouth A386 Northern Corridor Improvements, Park and Ride	Plymouth Sutton Plymouth Devonport
Salisbury Integrated Transport Package	Salisbury

The major local authority schemes (outside London) listed in Table 2 were provisionally approved during the course of 2004. These schemes are approved with conditions, the main ones being that costs do not increase, statutory and consultative procedures are completed satisfactorily and their designs and appraisal do not change significantly.

Table 2: Provisional Approval

Edge Lane West, Liverpool	Liverpool Wavertree Liverpool West Derby
Bexhill To Hastings Link Road	Hastings and Rye Bexhill and Battle
Sittingbourne Northern Developer Route	Sittingbourne and Sheppey
Watford Junction	Watford
Castle ford Interchange	Pontefract and Castleford
Copnor Bridge, Portsmouth	Portsmouth South

The schemes listed in Table 3 were added to the Highway Agency's targeted programme of improvements during 2004.

A453 Widening (M1 J24 to A52 Nottingham)	North West Leicestershire Rushcliffe Nottingham South

Decisions on road projects in London have been devolved to the London Mayor.

Unmanned Aerial Vehicles

Mr. Simon Thomas: To ask the Secretary of State for Transport *(a)* how many and *(b)* what types of unmanned aerial vehicles have been licensed to operate over land in civilian airspace by the Civil Aviation Authority in each of the last five years. [220167]

Charlotte Atkins: To date, the Civil Aviation Authority has not issued any Certificates of Airworthiness to unmanned aerial vehicles (UAVs).

TRADE AND INDUSTRY

Business Regulatory Costs

Mr. Liddell-Grainger: To ask the Secretary of State for Trade and Industry what plans she has to review the cost of regulation to businesses. [217347]

Nigel Griffiths: Previous budgets have taken measures to reduce the costs of regulation to business. For instance our flat rate VAT scheme has helped cut payments for up to 700,000 businesses.

Our raising the mandatory audit threshold has helped up to 219,000 businesses save up to £270 million per annum. Our abolition of automatic fines for VAT have helped too—in 1996–97 this cost business £99 million.

Future budgets can be expected to provide further help.

Russian Economic Forum

Mr. Simmonds: To ask the Secretary of State for Trade and Industry whether *(a)* she and *(b)* a representative from her Department will be meeting the Russian Federation's Minister of Energy and Industry during his visit to London to address the Russian Economic Forum in London on 10 to 12 April. [219500]

Mr. Mike O'Brien: My right hon. Friend the Secretary of State for Trade and Industry, met Viktor Khristenko, the Russian Federation's Minister of Energy and Industry, in June during a visit to Moscow. Also, the Director-General Energy met Mr. Khristenko in Moscow in November. The Department is hoping that a further meeting can be arranged with the Secretary of State the next time Mr. Khristenko visits London. This could be during the Russian Economic Forum in London on 10 to 12 April but there could be an earlier meeting. The general position is that DTI Ministers are happy to meet Ministers from the Russian Federation on matters of mutual interest whenever opportunities arise and diaries permit.

UK Economy

Mr. Byrne: To ask the Secretary of State for Trade and Industry in which industries the UK enjoys a significant comparative advantage relative to *(a)* the US, *(b)* China, *(c)* India and *(d)* EU accession countries. [219440]

Mr. Alexander: I am not aware of any analysis that would show in which industries all these countries enjoy a significant comparative advantage relative to each other. However estimates of revealed comparative advantage suggest that the following countries especially specialise in the following sectors:

UK: Financial and insurance, creative and media, aerospace and pharmaceuticals

USA: Aerospace

China: Clothing, textiles, household goods especially brown and white electronic goods, accessories such as suitcases, watches, jewellery, tableware.

I am not aware of an analysis for India and the EU accession countries.

PRIME MINISTER

Annual Report

Mr. Amess: To ask the Prime Minister when he plans to publish the Government's Annual Report. [220504]

The Prime Minister: I refer the hon. Member to the answer I gave my hon. Friend the Member for Pendle (Mr. Prentice) on 12 July 2001, *Official Report*, column 638W.

Intercept Evidence

Mr. Lilley: To ask the Prime Minister pursuant to his oral answer of 23 February, *Official Report*, column 302, on intercept evidence, when he saw the advice received by the Leader of the Opposition when he was Home Secretary. [220241]

The Prime Minister: It is a matter of public record that there have been a number of reviews of intercept as evidence, including under the previous administration. None of these recommended a change in the law.

Iraq

Llew Smith: To ask the Prime Minister whether minutes were made of each meeting his special advisers held with the Attorney-General in March 2003 on the preparation of legal advice on the legality of engaging in military action against Iraq. [219448]

The Prime Minister: The meeting which the Attorney-General held with Lord Falconer and Baroness Morgan on 13 March 2003 did not discuss the preparation of legal advice on the legality of engaging in military action against Iraq. I refer the hon. Members to the answer given by my noble Friend the Attorney-General (Lord Goldsmith) to Baroness Hanham on 28 February 2005, *Official Report*, column WA1 and the answer given by my noble Friend the Leader of the House of Lords (Baroness Amos) to Earl Attlee on 7 September 2004, *Official Report*, columns WA96–97.

Adam Price: To ask the Prime Minister which members of the Cabinet were shown the full text of the Attorney-General's legal advice on the legality of the war of 7 March 2003. [212314]

Mr. Simon Thomas: To ask the Prime Minister what criteria he used in making his decision on whether to show the full advice from the Attorney-General on military action in Iraq to every member of his Cabinet. [219512]

The Prime Minister: I refer the hon. Members to the answer I gave my hon. Friend the Member for Birmingham, Selly Oak (Lynne Jones) on 28 February 2005, *Official Report*, column 923W.

Legal Advice

Mr. Simon Thomas: To ask the Prime Minister whether he is required under the Ministerial Code of Conduct to show full legal advice received from the Attorney-General relating to matters before the Cabinet to each member of the Cabinet. [219511]

The Prime Minister: Section 1 of the Ministerial Code provides guidance to Ministers on the conduct of Cabinet Business, and advice received from the Law Officers.

September 11

Mr. Meacher: To ask the Prime Minister (1) what representations he has received from the families of British victims of September 11 2001 concerning the investigation of *(a)* the events that took place in New York, Washington DC and Pennsylvania on that day and *(b)* the circumstances leading to those events; and if he will make a statement; [220254]

(2) what representations he has made to President Bush concerning the investigation of the events of September 11 2001; and if he will make a statement. [220255]

The Prime Minister: I received over 7,000 letters following the September 11 terrorist attacks, including some from the families of British victims. A number of these raised the US Government investigation into those attacks and the circumstances leading to them. The Government have had extensive discussions with the US Government, at many levels, about circumstances surrounding the events of 11 September 2001.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Biodiversity

Mrs. Helen Clark: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact termination of the EU Life Nature Fund would have on her Department's ability to meet its public service agreement target of achieving favourable conditions for 95 per cent. of sites of special interest in England by 2010. [200579]

Mr. Bradshaw: It has not yet been possible to make an assessment of the impact because the European Commission has yet to provide member states with answers to detailed questions about their proposals, including the scope of the proposed LIFE+ Regulation to replace the LIFE Nature Regulation.

Moreover, applications for funding under Life Nature are made by a variety of organisations. I am unable to say which among those with responsibility for aspects of SSSI condition have been expecting to rely on a Life Nature contribution in taking this forward.

Countryside Access

Mr. Pike: To ask the Secretary of State for Environment, Food and Rural Affairs whether the transitional arrangements which will be put in place when section 53 of the Countryside and Rights of Way Act 2000 is implemented will require surveying authorities to process to a conclusion all applications for definitive map modification orders on their registers at the cut-off date. [216913]

Alun Michael: There is provision for regulations in section 56(2) of the Countryside and Rights of Way Act 2000 to allow the making of transitional provisions and savings in respect of applications outstanding at the time of the cut-off date.

It is our intention that the regulations under section 56 will provide that all applications entered on the register at the cut-off date will be processed to their conclusion by the surveying authority.

Global Warming

Mr. Greg Knight: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of possible benefits arising from global warming in respect of *(a)* lower energy costs and *(b)* higher crop yield. [218965]

Mr. Morley *[holding answer 2 March 2005]:* The information is as follows:

(a) The UK's energy projections take account of the effect of increasing temperatures on energy demand, although we have not identified the impact separately. We are not aware of any detailed studies of the potential for higher temperatures to reduce energy usage globally, although space heating and cooling are both key users of energy, so rising temperatures, whilst reducing winter heating requirements, will lead to increased use of air conditioning, which will counteract and possibly outweigh any gains.

(b) A study entitled Impacts of Climate Change on Agriculture was carried out for Defra in 2004 by the Institute of Grassland and Environmental Research (IGER). Among its findings, the study demonstrated that warmer temperatures resulting from climate change will increase the potential growing season of arable and other crops, earlier sowings will be possible, and crops will grow and ripen faster. In particular, maize will have a higher yield potential in an extended growing season.

GM Crops

Joan Ruddock: To ask the Secretary of State for Environment, Food and Rural Affairs when the final results of the winter oilseed rape field scale evaluations will be published; in what form they will be published; and whether her Department will consult stakeholders before responding to the results. [219527]

Mr. Morley *[holding answer 3 March 2005]:* The results from the farm-scale evaluations of winter oilseed rape are expected to be published in the journal "The Proceedings of the Royal Society" on 21 March 2005. On that day the Scientific Steering Committee, which oversaw the evaluations, and members of the research consortium, who undertook the research, will present the results at an open meeting at the Royal Institution in London. Details of the event are available through the Defra website. The committee is also arranging for a non-technical summary to be published on the same day; this will be available both as a free publication and to download from Defra's website.

The Government intend to refer the results to the Advisory Committee on Releases to the Environment for advice on their implications. ACRE is proposing to hold an open meeting on 25 May 2005 at which it will take evidence to assist it with formulating the advice required for our response to the results. Details of this event will be finalised shortly and placed on Defra's website. There will also be provision on the web for stakeholders to submit evidence for ACRE's consideration.

Green Taxes

Mr. Hayes: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the effects of EFTA Surveillance Authority Decision No. 148/04/COL of 30 June 2004, 2004/C 319/08, OJ C319 of 23 December 2004, on the ability of EU states to adjust green taxes under single market competition provisions. [215238]

Dawn Primarolo: I have been asked to reply.

The Government support effective control of distortive state aids within the Single Market. The Government have been active in using environmental taxes, along with other approaches, to achieve environmental outcomes and do not believe that the EFTA Surveillance Authority decision alters the ability of the UK and other EU member states to make changes to their environmental taxes within the scope of the EU state aid rules.

Planning Inspectorate

Mr. Oaten: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the consistency guidelines produced by the Planning Inspectorate that relate to rights of way and definition map orders; how they may be amended; and who monitors their accuracy. [220471]

Alun Michael: The Planning Inspectorate has produced a document entitled "Definitive Map Orders: Consistency Guidelines". These guidelines were developed in consultation with rights of way inspectors and Defra's rights of way policy division. The Rights of Way Review Committee and, more recently, various rights of way user groups have been consulted over the content of the guidelines. The Inspectorate, in conjunction with Defra, continues to monitor and update the guidelines as changes in legislation and case law make this necessary. Any individual or group that considers that a change to the guidelines is necessary can alert the Planning Inspectorate or Defra's rights of way policy division to this need.

Targets

Mr. Bercow: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what recent progress has been made towards the Public Service Agreement target to protect society from the impact of animal diseases; [219978]

(2) what recent progress has been made towards the Public Service Agreement target to improve the health and welfare of kept animals; [219979]

(3) what recent assessment she has made of whether the Public Service Agreement target to reduce the spread of bovine TB to new parishes to below the incremental trend of 17.5 confirmed new instances per annum by the end of 2008 will be met; [219980]

(4) what recent assessment she has made of whether the Public Service Agreement target to eradicate BSE by 2010 will be met; [219981]

(5) what recent assessment she has made of whether the Public Service Agreement target to reduce the prevalence of scrapie infection by 40 per cent. from 0.33 per cent. to 0.20 per cent. by 2010 will be met; [219982]

(6) what recent assessment she has made of whether the Public Service Agreement target to eliminate fuel poverty in vulnerable households in England by 2010 will be met; [219983]

(7) what recent progress has been made towards the Public Service Agreement target to care for the natural heritage; [219984]

(8) what recent progress has been made towards achieving the Public Service Agreement target of moving towards a 20 per cent. reduction in carbon dioxide emissions below 1990 levels by 2010; [219985]

(9) what recent assessment she has made of whether the Public Service Agreement target to reduce greenhouse gas emissions to 12.5 per cent. below 1990 levels by 2010 will be met; [219986]

(10) what recent progress has been made towards the Public Service Agreement target to increase the use of energy saving technologies; [219987]

(11) what recent progress has been made towards the Public Service Agreement target to lead the integration of environment policies across Government and internationally; [219988]

(12) what recent progress has been made towards the Public Service Agreement targets to protect and improve the *(a)* rural, *(b)* urban, *(c)* marine and *(d)* global environment; [219989]

(13) what recent progress has been made towards the Public Service Agreement targets to deliver more customer-focused farming; [219990]

(14) what recent progress has been made towards the Public Service Agreement target to promote sustainable, diverse, modern and adaptable farming through domestic and international action; [219991]

(15) what recent progress has been made towards the Public Service Agreement target to promote a sustainable, competitive and safe food supply chain; [219992]

(16) what recent progress has been made towards the Public Service Agreement target to improve the accessibility of services for rural people; [219993]

(17) what recent progress has been made towards the Public Service Agreement target to deliver the UK's World Summit on Sustainable Development commitments in the areas of *(a)* sustainable consumption, *(b)* sustainable production, *(c)* biodiversity, *(d)* oceans, *(e)* fisheries and *(f)* agriculture; [219994]

(18) what recent assessment she has made of whether the Public Service Agreement target to increase the electronic service delivery capability to Common Agricultural Policy payments to 95 per cent. by 31 March will be met; [219995]

(19) what recent assessment she has made of whether the Public Service Agreement target to reduce the unit cost of administering Common Agricultural Policy payments by 10 per cent. by 2004–05 will be met; [219996]

(20) whether the Public Service Agreement target to reduce the time taken to clear up cases of poor welfare in farmed animals by 5 per cent. by March 2004 was met; [219997]

(21) what recent assessment she has made of whether the Public Service Agreement target to reduce the annual incidence of BSE to less than 30 cases by 2006 will be met; [219998]

(22) what recent progress has been made towards achieving the Public Service Agreement target to improve air quality by meeting the National Air Quality strategy objectives for carbon monoxide, lead, nitrogen dioxide, particles, sulphur dioxide, benzene and 1–3 butadiene; [219999]

(23) what recent progress has been made towards achieving the Public Service Agreement target to protect the public's interest in relation to environmental impacts and health; [220000]

(24) whether the Public Service Agreement target to reduce fuel poverty among vulnerable households by improving the energy efficiency of 600,000 homes between 2001 and 2004 was met; [220001]

(25) what recent assessment she has made of whether the Public Service Agreement target to enable 25 per cent. of household waste to be recycled or composted by 2005–06 will be met; [220002]

(26) what recent progress has been made towards the Public Service Agreement targets to promote *(a)* sustainable management and *(b)* the prudent use of natural resources domestically and internationally. [220003]

(27) what recent progress has been made towards the Public Service Agreement target to enable enhanced EU funding for rural development; [220004]

(28) what recent progress has been made towards the Public Service Agreement target to enable enhanced EU funding for environmental conservation; [220005]

(29) what recent progress has been made towards the Public Service Agreement target to secure Common Agricultural Policy reforms; [220006]

(30) what recent progress has been made towards the Public Service Agreement target to increase agriculture's gross value added per person; [220007]

(31) what recent progress has been made towards the Public Service Agreement target to deliver more competitive and sustainable farming; [220008]

(32) what recent assessment she has made of whether the Public Service Agreement target to reduce the gap in productivity between the least well performing quartile of rural areas and the English median by 2006 will be met; [220009]

(33) what recent progress has been made towards the Public Service Agreement target to enhance opportunity in rural areas; [220010]

(34) what recent progress has been made towards the Public Service Agreement target to tackle social exclusion in rural areas; [220011]

(35) what recent assessment she has made towards the Public Service Agreement target to open up public access to mountain, moor, heath and down by the end of 2005 will be met; [220012]

(36) what recent assessment she has made of whether the Public Service Agreement target to bring 95 per cent. of all nationally important wildlife sites into favourable condition by 2010 will be met; [220013]

(37) what recent progress has been made towards the Public Service Agreement target to reverse the long-term decline in the number of farmland birds by 2020; [220014]

(38) what recent progress has been made towards the Public Service Agreement target to preserve biological diversity; [220015]

(39) what recent progress has been made towards the Public Service Agreement target to promote sustainable development across Government and the country; [220016]

(40) what recent progress has been made towards the Public Service Agreement target to make the countryside attractive and enjoyable for all; [220017]

(41) what recent progress has been made towards the Public Service Agreement target to deliver thriving economies and communities in rural areas; [220018]

(42) what recent progress has been made towards the Public Service Agreement target to promote economic prosperity through sustainable farming, fishing, food, water and other industries that meet consumers' requirements. [220019]

Alun Michael: The Department provides regular performance updates against its outstanding Public Service Agreement targets through its annual Departmental Report and its Autumn Performance Report published in spring and autumn respectively. The 2004 versions, which are the most recently published, are available in the House Libraries and online at:

http://www.defra.gov.uk/corporate/deprep/default.htm

A short summary of progress against our 2002 Spending Review targets can be found in Appendix 4 of the reports, with more detailed information available in Chapter 2.

The Department also gives regular updates on its performance via HM Treasury's website at:

http://www.hm-treasury.gov.uk/performance/DEFRA.cfm

Defra's 2005 Departmental Report is due for publication late spring/early summer 2005.

Village Halls

Ms Walley: To ask the Secretary of State for Environment, Food and Rural Affairs what funding streams are available for village hall facility improvements; and if she will make a statement. [218609]

Alun Michael: Funding for village halls has traditionally come from local and charitable sources, with only a relatively small amount of support from central Government. Indeed, the amount of central funding assisting village halls now is very much higher than it was in the seventies, eighties and nineties. Since its inception in 1995, the Community Fund of the National Lottery has provided grants to the value of more than £138 million to around 4,500 village hall projects and the Millennium Fund supported over 500 village halls and urban community centres to the value of nearly £100 million. National funding sources including the Big Lottery Fund will continue to make an important contribution; but this must supplement and not be seen as a substitute for local leadership and fund-raising.

The variety of public funding includes the following:

Defra: Rural Enterprise Scheme; Village Halls Loan Fund; Aggregates Levy Sustainability Fund; Landfill Tax Credit Scheme.

National Lottery Funds: Big Lottery Fund; Awards for All.

Local authorities provide grants in addition to the Parish Council precept and the access available from Parish Council to the Public Works Loan Board.

The above information refers only to the public funding which is available to supplement local fund-raising and donations which have always been the main source of finance for village halls.

Indirect sources of public funds to supplement private donations include Gift Aid, and some limited VAT reduction.

CULTURE, MEDIA AND SPORT

Betting Terminals

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport (1) what legal advice the Government have received on the legality of fixed odds betting terminals in high street locations; [220194]

(2) what legal advice the Gaming Board has received on the legality of fixed odds betting terminals in high street locations. [220195]

Mr. Caborn: Legal advice given to the Department on this matter will be subject to legal professional privilege, and confidential as a result. I believe the same would be true for any advice received by the Gaming Board.

I would, however, refer the hon. Member to paragraphs 1.24–1.25 of the Board's Report for 2003–04, which noted the uncertainty about the legal status of fixed odds betting terminals, as a matter of public record. The Report was laid in the House on 14 July 2004 and copies are available in the Libraries of both Houses.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport if she will estimate *(a)* the number of fixed odds betting terminals in operation and *(b)* the number of locations in town centres where fixed odds betting terminals are operating. [220196]

Mr. Caborn: We estimate that there are currently about 24,000 fixed odds betting terminals in operation, but are not in a position to estimate the number of betting shops located in town centres rather than elsewhere.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what estimate her Department has made of the average amount of money lost per head on fixed odds betting terminals each week. [220197]

Mr. Caborn: We have made no such estimate. The only information available is included in the draft report prepared for the Association of British Bookmakers by Europe Economics, which indicates, on the basis of interviews with a sample of betting shop customers, that their average weekly spend on all forms of gambling (including using fixed odds betting terminals) is between £50 and £60.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the total amount spent in the last week for which figures are available on *(a)* fixed odds betting terminals and *(b)* the national lottery. [220198]

Mr. Caborn: Information about total weekly spend on fixed odds betting terminals is not available. National lottery sales for the week 20–26 February were £93,135,739.

Miss Kirkbride: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the percentage of problem gamblers who attribute their problems mainly to fixed odds betting terminals. [220199]

Mr. Caborn: The information so far available on the relationship between problem gambling and use of fixed odds betting terminals (FOBTs) is contained in the draft of an independent report undertaken for the Association of British Bookmakers by Europe Economics, who are currently considering comments on it by two independent experts who reviewed it at the Department's request. The report does not provide a firm basis for estimating the percentage sought, but it indicates that, on the basis of a sample of 7,845 people who bet or gamed (excluding bingo) at least once a month, 48 used FOBTs at least once a month. It also notes that 29 people (0.4 per cent. of the total sample) could be classified as problem gamblers, but concludes that while nearly all participated in more than one form of gambling the numbers involved were too small to permit meaningful further analysis.

Departmental Policies

Mr. Jim Cunningham: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical evidence relating as closely as possible to Coventry, South constituency, the effects in the constituency of changes to her Department's policies since 1997. [219820]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Coventry, South since 2 May 1997.

In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. One school sport partnership involving three School Sport Co-ordinators and 15 Primary Link teachers is based in Coventry, South. It has received a Sport England grant of £327,310. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Coventry, South have benefited from two Sport England Community Capital Lottery grants totalling £562,787, two Sport England Active Sports Lottery grants totalling £1,665,612 and a further two awards worth £905,655 in total from the £108 million investment in innovative sports facilities through the Active England programme.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 funding to Arts Council England, West Midlands increased from £5.6 million to £32.5 million, including from 1 April 2003, funding to major national arts organisations in the West Midlands.

In 2005–06 the total Arts Council England, West Midlands investment in regularly funded organisations will be £35.4 million. Coventry, South has benefited from grants to arts organisations and individuals, including the Belgrade Theatre and Arts and Media Training which is based in Coventry.

Since September 2004, schools in Coventry, South have been included in the second phase of the Creative Partnerships programme which began in 2002. Creative Partnerships aims to give school children and their teachers the opportunity to explore their creativity by working on sustained projects with creative organisations and individuals, including artists, theatre companies, dance studios, museums, orchestras, film-makers and historic buildings. Funding of £65 million was allocated for the period 2002–05 to develop Creative Partnerships, and the programme will receive at least a further £86 million in 2005–08.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Coventry, South will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Coventry, South also benefits in the museum sector from Renaissance in the Regions.

Coventry Arts and Heritage is a partner in the West Midlands regional hub, which, as a Phase 1 hub, received priority funding; it received £0.8 million in the 2003–04 financial year for Renaissance, with a further £0.62 million from the Education Strategy Fund. The total grant for the period 2003–06 will be £7.11 million from Renaissance and £3.14 million from the Education Strategy Fund, totalling £10.25 million. Of this money, Coventry Arts and Heritage has been allocated £1,068,075 to deliver Coventry's contribution to the West Midlands Hub's two-year plan.

In addition, the collections of the Coventry Transport Museum have been designated by Museums, Libraries and Archives Council as being a pre-eminent collection of national or international importance. The museum has received £445,000 through the Designated Challenge Fund, which is financed by DCMS, to improve interpretation and displays levering a substantial amount of investment from European funds and a huge commitment from the council to support the museum's work.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries have contributed to the general success of film-making and television activity in the Coventry, South area. Screen West Midlands has provided lottery funding to a number of film-related activities in the constituency including the Warwick Arts Centre and the Blink Film Festival Coventry.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in the Coventry, South constituency with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 5,715.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11 pm on new year's eve to 11 am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Coventry, South, a greater say in the regulation of gambling in their area.

Tourism in Coventry, South has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including Advantage West Midlands. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Coventry, South.

English Heritage has awarded grants worth £265,168 to Coventry, South since May 1997, including £100,000 to 119–123 Spon Street and £97,414 to 123a/123b Upper Spon Street in 2001.

In common with all those in the United Kingdom, the public library branches in Coventry, South are connected to the internet through the People's Network which was funded through a £120 million lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community and informal learning value of public libraries. Councils within the West Midlands area including Coventry city council have recognised this value and as part of a consortium took part in an initiative called Multinet, the result of which was to enable the participating public library authorities to enjoy the benefits of high bandwidth networking technology. Coventry's central library, which resides in the Coventry, South constituency, was one of the beneficiaries of the project's overall award of £324,439 from the DCMS/Wolfson Public Libraries Challenge Fund in 1999–2000.

The DCMS/Wolfson Public Libraries Challenge Fund has also supplied an award of £124,761 in 2001–02 towards the Caring with Books initiative in the West Midlands. This entailed building relationships with books and reading between foster families, public care institutes and many of the 7,000 children currently in public care across the West Midlands, including the Coventry area.

Information from the national lottery distributors indicates that since 2 May 1997 Coventry, South has benefited from over 347 awards totalling over £55 million. Of these, 43 awards worth just under £5 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Mrs. Humble: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as closely as possible to the Blackpool, North and Fleetwood constituency, the effect of her Department's policies and actions on the constituency since *(a)* 1997 and *(b)* 2001. [219786]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Blackpool, North and Fleetwood since 2 May 1997.

In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. One school sport partnership involving eight School Sport Co-ordinators and 35 Primary Link teachers is based in Blackpool, North and Fleetwood. It has received a Sport England grant of £327,570. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities since 1997. Sports facilities in Blackpool, North and Fleetwood have benefited from two Sport England Community Capital Lottery grants totalling £514,330.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £67 million in 2004–50. Between 1998–99 and 2003–04 funding to Arts Council England, North West increased from £7.6 million to £19.6 million including from 1 April 2003, funding to major national arts organisations in the North West. In 2005–06, the total Arts Council England North West investment in the

region will be £28.4 million. Blackpool, North and Fleetwood has benefited from grants to arts organisations and individuals in the North West, including the Blackpool Grand and the North West Disability Arts Forum.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Blackpool, North and Fleetwood will be among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries have contributed to the general success of film-making and television activity in the Blackpool, North and Fleetwood area. A considerable amount of television has been filmed in and around Blackpool since 1997, including the forthcoming television drama "Blackpool" and the comedy series "Max and Paddy". The film "Frozen" was filmed in Fleetwood at the end of 2003 and beginning of 2004. This film was launched at the London Film Festival last November and has just won the prize for best cinematography and the Audience Award at the Slamdance Film Festival in the US.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Blackpool, North and Fleetwood with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 7,800.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11pm on new year's eve to 11am on new year's day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Blackpool, North and Fleetwood, a greater say in the regulation of gambling in their area.

Tourism across the country has benefited from Government-funded marketing and development activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and its successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Blackpool and Fleetwood. In April 2003, the Regional Development Agencies were given strategic responsibility for tourism in the regions, from which Blackpool and Fleetwood have benefited. In 2003, Blackpool borough council was one of six local authorities to participate in a pilot scheme to promote the Fitness for Purpose initiative to help drive up tourism accommodation standards.

English Heritage has awarded grants worth £505,500 to Blackpool, North and Fleetwood since 2 May 1997, including £379,000 to North Shore Methodist Church, Blackpool from 2002 to 2004 and £126,500 to Wyre borough council for the Fleetwood Heritage Economic Regeneration Scheme from 2002 to 2004.

In common with all those in the United Kingdom, the public library branches in Blackpool, North and Fleetwood are connected to the internet through the People's Network which was funded through a £120 million Lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community and informal learning value of public libraries. Councils in the Northwest area including Blackpool borough council have recognised this value and took part in an initiative called Blackpool Community Network, the result of which was to enable the participating public library service to give public access to a large range of IT facilities in 12 libraries, including Internet Access and MS Office applications. Public libraries in Blackpool North and Fleetwood constituency were among those benefiting from the overall project award of £52,000.

The DCMS/Wolfson Public Libraries Challenge Fund has also supplied an award of £178,297 in 2001–02, towards the Smile initiative in Lancashire. This entailed setting up reader development activities aimed at children and young people who have learning difficulties and their families. These activities were supported by the development of 15 multi-media collections and a specially designed website. A proportion of this award was of benefit to the library service in Fleetwood.

Information from the National Lottery distributors indicates that since 2 May 1997 Blackpool, North and Fleetwood has benefited from 177 awards totalling over £5.2 million. Of these, 45 awards worth over £2 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Licensing Fees (Amateur Sports Clubs)

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport (1) how many representations the Department has received on the proposed increase in licensing fees for amateur sports clubs; and what response the Department has made; [219521]

(2) what representations she has received from the Central Council for Physical Recreation on the proposed increases in licensing fees for amateur sports clubs. [219522]

Mr. Caborn *[holding answer 3 March 2005]:* There were 97 responses to the consultation on fee levels to be set by the Secretary of State under the Licensing Act 2003 from sports clubs and their representative bodies, including the Central Council for Physical Recreation. We considered the views expressed to us by all respondents including those of sports clubs. On balance we concluded from the evidence that we had underestimated costs of the new regime and that it would be necessary to increase the fee levels generally. We set out our reasons for increasing the fee levels in detail most recently during the debate in the Second Standing Committee on Delegated Legislation on 23 February 2005.

Regional Sports Boards

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport if she will list *(a)* the budgets and *(b)* the operating costs for each of the Regional Sports Boards in the last year for which figures are available. [219520]

Mr. Caborn *[holding answer 3 March 2005]:* Details of the 2004–05 budget for the public expenditure (Exchequer and lottery) of Sport England's regional offices are given in the table.

£000

	Awards distributed	*Direct delivery costs*	*Other running costs*	*Total*
East	9,128	39	989	10,156
East Midlands	14,868	44	1,041	15,953
London	12,802	60	1,066	13,927
North East	11,915	46	930	12,891
North West	26,849	74	1,249	28,172
South East	14,514	51	1,333	15,899
South West	10,394	38	952	11,384
West Midlands	13,183	46	1,061	14,290
Yorkshire	9,054	44	1,022	10,120

Sports' Reviews

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport if she will list reviews of sport which are in progress *(a)* which she has initiated and *(b)* to which the Department is contributing; and when she expects each to report. [219523]

Mr. Caborn *[holding answer 3 March 2005]:* In July 2004, my right hon. Friend the Chancellor of the Exchequer and my right hon. Friend the Secretary of State asked Lord Carter to undertake an independent review of funding for sport. The report is expected to be published shortly.

In 2004, the Football Association (FA) commissioned a structural review of the organisation. The Department expects to be consulted as part of the review. The review's Independent Chairman, Lord Burns, is expected to report to the FA in summer 2005.

The Cabinet Office's Regulatory Impact Unit is carrying out a review—of which the Department is co-sponsor—of funding of school and community sport. The report is expected to be published later this month.

TREASURY

Asset Transfers

Mr. Cousins: To ask the Chancellor of the Exchequer whether the transfer of resources to Inland Revenue and Customs and Excise to reflect transfers of office assets from the Treasury in central London will require additional cost savings to be made by those Departments. [220379]

Dawn Primarolo: The annual efficiency savings target of £507 million, to be achieved by 2007–08, was set in the 2004 Spending Review and applies to the integrated Revenue and Customs department. The changes to bring the Eastern end of the Government Offices Great George Street onto the Revenue and Customs balance sheets, as set out in the 2004–05 Spring Supplementary Estimates, do not affect this target.

Child Trust Funds

Mr. George Osborne: To ask the Chancellor of the Exchequer how many separate items of literature have been sent to parents of children entitled to child trust funds; how many parents have received these to date; how many more are expected to receive them by 5 May; and what the planned cost is of the production and postage of all items of literature about child trust funds to 5 May. [219797]

Mr. Timms: Three items of literature have been issued to parents of children eligible for the Child Trust Fund. A letter was sent in November 2004 to let parents know they would be contacted shortly about the Child Trust Fund and that there would be no need to make a claim. Detailed information packs and vouchers to open a Child Trust Fund account started to be sent out in January 2005.

The Inland Revenue will have sent these items to around 1.6 million parents of eligible children by the beginning of May 2005.

The planned cost of production and postage of these items is approximately £2,200,000.

Mr. George Osborne: To ask the Chancellor of the Exchequer what *(a)* the cost to date and *(b)* the planned cost to May of the Government's advertising campaign for child trust funds is. [219868]

Mr. Timms: Total media spend on advertising the Child Trust Fund including any related media buying fees and VAT for the period January to March 2005 inclusive is approximately £3.75 million.

Plans for April are currently being worked on and have not yet been finalised.

Economic Growth

Chris Ruane: To ask the Chancellor of the Exchequer what the quarterly growth rates were for each of the last 17 years. [219895]

Dawn Primarolo: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. Chris Ruane, dated 4 March 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question requesting quarterly growth rates for each of the last 17 years. (219895)

The quarterly growth rates for the chained volume measure of GDP at market prices and GDP at current market prices for each of the last 17 years are shown in the attached table, which I am also placing in the House of Commons Library.

Quarterly growth rates for chained volume measure of GDP at market prices and GDP at current market prices, 1988–2004

		Chained volume measure of GDP at market prices	GDP at current market prices
1988	Q1	1.6	3.0
1988	Q2	0.5	2.2
1988	Q3	1.4	3.5
1988	Q4	0.7	3.1
1989	Q1	0.3	2.0

2004	Q2	1.0	1.5
2004	Q3	0.5	0.8
2004	Q4	0.7	1.4

Employment Statistics

Sarah Teather: To ask the Chancellor of the Exchequer what the rate of *(a)* unemployment, *(b)* long-term unemployment and *(c)* youth unemployment in each borough of London has been in each year since 1997; and how many individuals this represented in each case. [212371]

John Healey: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Ms Sarah Teather, dated 7 March 2005:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment. (212371)

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. The attached three tables show the levels and rates for the unemployed, long-term unemployed, and youth unemployment for each of the Greater London boroughs.

These estimates from the LFS are, as with any sample survey, subject to sampling variability.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas. The attached three tables show

the annual average number of JSA claimants resident in each of the London boroughs for each year from 1997 to 2004. This table also shows corresponding figures for JSA claimants aged 18–24 years and the total claiming for over 12 months.

Since the information in these tables is so extensive, copies have been placed in the House of Commons Library.

Mr. Willetts: To ask the Chancellor of the Exchequer what the average percentage change in lone parent employment was between *(a)* 1992 and 1997 and *(b)* 1998 and 2003. [219552]

John Healey: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. David Willetts, dated 7 March 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about lone parents in employment. (219552)

The attached table shows the information requested, based on estimates from the Labour Force Survey (LFS).

These estimates from the LFS are, as with any statistical sample survey, subject to sampling variability.

Lone parents[1] in employment 1992 to 2003

Three month periods ending May	*Period*	*Lone parents in employment (Thousand)*	*Change (Thousand)*	*Percentage change*	*Annual average percentage change[2]*
1992	1992 to 1997	572	145	25.3	4.6
1997	1997 to 2003	716	234	32.6	4.8
1998	1998 to 2003	788	162	20.5	3.8
2003	—	950	—	—	—

[1] Defined as people who are not married or cohabiting with dependent children aged 0–15 or 16–18 and in full-time education.
[2] Annual average percentage changes calculated as annualised percentage increases over the relevant periods.
Source:
ONS Labour Force Survey

EU Partnership Projects

Kate Hoey: To ask the Chancellor of the Exchequer if he will list partnership projects with the institutions of the EU for which UK Government provided funding in the past two financial years. [218786]

Mr. Timms: A large number of lines within the European Communities' Budget support activities that are co-financed by member states. Examples include projects supported by the Union's Structural Funds, Trans-European Networks, and Police and judicial co-operation in criminal matters (AGIS) programmes. Individual Government departments are responsible for projects undertaken with EC Budget co-financing and the Government do not keep a centralised record of those which take place in the UK.

Gershon Report

Annabelle Ewing: To ask the Chancellor of the Exchequer how much and what percentage of the savings identified by the Gershon Report relate to *(a)* UK-wide expenditure, *(b)* Great Britain-wide expenditure, *(c)* Scotland only expenditure, *(d)* England only expenditure, *(e)* Wales only expenditure, *(f)* Northern Ireland only expenditure, *(g)* England and Wales expenditure and *(h)* other spending; and if he will make a statement. [212354]

Mr. Boateng: The remit for Sir Peter Gershon's review did not include the spending of the devolved Administrations. Where spending is not devolved, Sir Peter's report does not allocate savings to specific areas of the country.

Income Tax

Mr. Willetts: To ask the Chancellor of the Exchequer what his estimate is of income tax liabilities in the latest financial year for which figures are available, broken down by *(a)* gender and *(b)* 10-year age bands. [220438]

Dawn Primarolo: I refer the hon. Member to table 3.2 "Distribution of median and mean income by age range and sex, 2002–03" on the Inland Revenue website http://www.inlandrevenue.gov.uk/stats/income_distribution/tables3_2.pdf

Job Creation

Keith Vaz: To ask the Chancellor of the Exchequer what the employment rate is; and what assessment he has made of the trend in the level of job creation in the last five years. [220296]

Mr. Timms: The current working age employment rate in the UK is 74.9 per cent. Over the last five years, employment levels have grown by 315,000 jobs a year on average, a growth rate of 1 per cent., and UK employment levels are at a record high.

National Insurance

Jon Trickett: To ask the Chancellor of the Exchequer if he will make a statement on the payment of national insurance by sub-postmasters. [220374]

Dawn Primarolo: The remuneration of a sub-postmaster is liable to Class 1 NICs as earnings from an office. When he or she runs a business in addition to the post office, they are also self-employed and therefore liable to pay Class 2 and Class 4 contributions up to an annual maximum. Changes, effective from April 2003, provide that where sub-postmasters include their salary in the profits from the retail business they will no longer pay Class 4 NICs on their earnings from the post office.

Palestine

Mr. Jim Cunningham: To ask the Chancellor of the Exchequer what role his Department is taking in international attempts to facilitate economic regeneration in Palestine. [219693]

Mr. Timms: The Chancellor takes a keen interest in the economic aspects of the Middle East Peace Process and the economic regeneration of the Palestinian Territories. The Chancellor has held meetings with the Finance Minister of the Palestinian Authority and Israel, the World Bank and key private sector participants. The Treasury works closely with DFID and the FCO and the International Financial Institutions on the economic aspects of the regeneration of the Palestinian Territories.

Residence Changes

Mr. Willetts: To ask the Chancellor of the Exchequer what percentage of the population changed residence in each year since 1979. [219557]

John Healey: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. David Willetts, dated 7 March 2005:

As National Statistician and Registrar General for England and Wales, I have been asked to reply to your recent question asking what percentage of the population changed residence in each year since 1979. (219557)

The Census obtains information about address changes in the year before the Census. The percentages of people who were listed as having changed address in the 1981, 1991 and 2001 Censuses are given in the table below.

All people—England and Wales

	All people	*Percentage of these who changed address in the year before the Census*
1981	48,521,596	9.45
1991	49,890,277	9.69
2001	52,041,916	12.18

Sources:
Table 2 in Census 1981 National Migration Great Britain part 2 (10% Tables), table 2 in 1991 Census Migration Great Britain part 2 (10% Tables) and Table KS24 Census 2001 National report for England and Wales part 2

The 1981 data has been taken from Table 2 in "Census 1981 National Migration Great Britain Part 2 (10% Tables)". The 1991 data has been taken from Table 2 in "1991 Census Migration Great Britain Part 2 (10% Tables)". The 2001 data has been taken from KS24 in the "Census 2001 National Report for England and Wales Part 2". All of these publications are available in the House of Commons Library.

Data are not available for the other years requested. While ONS produces estimates for internal migration, the main data source used only records the number of moves based on patients moving across Former Health Service Authority boundaries, patients changing their doctor and re-registering. Therefore many local moves are not recorded in this administrative source. This reason means that the percentage of the population moving cannot be calculated from these data.

Stamp Duty

Annabelle Ewing: To ask the Chancellor of the Exchequer if he will estimate the revenue impact for each of the next five years of raising the stamp duty threshold in Scotland to *(a)* £100,000, *(b)* £120,000 and *(c)* £150,000. [212355]

John Healey: A reliable estimate of the revenue impact of raising the stamp duty threshold is not available for countries and regions within the UK.

Tax Credits

Mr. Drew: To ask the Chancellor of the Exchequer why people are being advised not to contact their hon. Member if they have sought the adjudication route to deal with a tax credit query. [219785]

Dawn Primarolo: The Inland Revenue's Code of Practice 1 'Putting things right' explains their procedure for handling complaints. It is neither their policy nor practice to advise claimants not to contact their MP.

Mr. Connarty: To ask the Chancellor of the Exchequer what estimate he has made of the impact of the child tax credit on the income levels of the poorest 20 per cent. of families. [220177]

Dawn Primarolo: Chart 5.1 of the Pre Budget Report 2004 (Cm 6408) shows that as a result of tax credits the average gains to families with children in the bottom two deciles of the overall income distribution will be about £37 per week by 2005. It would not be particularly meaningful to separate the impact of child tax credit from working tax credit, as together they form an integrated system of financial support.

Mr. Frank Field: To ask the Chancellor of the Exchequer in how many of the cases in 2004–05 where the Inland Revenue contacted child care providers to verify the details that had been provided by the claimant, the child care element of child tax credit was *(a)* reduced and *(b)* stopped. [220242]

Dawn Primarolo: The information requested will not be available until later this year.

Mr. Frank Field: To ask the Chancellor of the Exchequer if he will introduce a specific tax credit for volunteers during the year of the volunteer. [220085]

Dawn Primarolo: The Home Secretary and the Chancellor have asked Ian Russell, Chief Executive Officer of Scottish Power plc, to propose a new national framework for youth volunteering. His review is due to report to the Chancellor of the Exchequer and Home Secretary shortly. The issue of financial support for volunteers is being tackled as part of that review.

Mrs. May: To ask the Chancellor of the Exchequer on what basis his Department estimated the cost of increasing the subsidy rate in the child care element of the working tax credit from 70 per cent. to 80 per cent. in the pre-Budget report 2004. [219803]

Dawn Primarolo: The cost of increasing the proportion of eligible childcare costs covered from 70 per cent. to 80 per cent. was derived using the Department's tax-benefit model, which uses 2002–03 Family Resources Survey calibrated to tax credits administrative data. The figures are consistent with our latest December 2004 administrative data.

UK Population (Immigration)

Sir John Stanley: To ask the Chancellor of the Exchequer what estimate he has made of the likely increase in the population of the UK as a result of immigration in all forms over the next 30 years. [219750]

Mr. Timms: The latest (2003-based) population projections by the Government Actuary's Department (GAD) were published in September 2004. A note

detailing the impact of the assumed level of net migration on projected population growth over the 28 year period from 2003 to 2031 is available from the GAD website at http://www.gad.gov.uk/Population/2003/methodology/mignote.htm.

EDUCATION AND SKILLS

14–19 Reform

Mr. Willis: To ask the Secretary of State for Education and Skills what the total cost was of the working group on 14–19 reform chaired by Sir Mike Tomlinson; and how much was spent on *(a)* research and *(b)* administration costs. [219800]

Mr. Stephen Twigg: The cost of the working group on 14–19 reform, chaired by Sir Mike Tomlinson, was some £1.3 million over the period of 18 months. This figure includes the cost of research, much of which was undertaken by members themselves. In addition, the running costs of the departmental staff supporting the working group amounted to some £400,000.

Broadband Access (Coventry)

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what percentage of *(a)* primary and *(b)* secondary schools in Coventry South have broadband internet access. [218969]

Mr. Stephen Twigg *[holding answer 3 March 2005]:* By the end of December 2004, 100 per cent. of primary and secondary schools had broadband connections in Coventry LEA. This compares to 69 per cent. primary schools, 99 per cent. secondary schools and 72 per cent. all schools in England with high speed broadband connections. We are on track to connect all schools by 2006.

Class Sizes

Sarah Teather: To ask the Secretary of State for Education and Skills what the average class size in *(a)* primary schools and *(b)* secondary schools was in 2004 in (i) Greater London and (ii) each Greater London borough. [220176]

Mr. Stephen Twigg: The information requested is shown in the table.

Maintained primary and secondary schools[1]: Average class size taught by one teacher[2]—January 2004 by London local education authorities

	Average class size	
	Maintained primary	*Maintained secondary*
London	26.6	21.8
Inner London	26.2	22.2
Camden	27.0	20.6
City of London	29.5	[3]
Hackney	26.1	22.7
Hammersmith and Fulham	25.2	22.6
Haringey	27.4	21.2
Islington	25.7	22.9
Kensington and Chelsea	26.0	22.0
Lambeth	25.7	22.0
Lewisham	25.8	21.9
Newham	27.3	23.8
Southwark	25.5	23.2
Tower Hamlets	26.0	22.9
Wandsworth	25.9	22.1
Westminster	25.9	20.0
Outer London	26.8	21.6
Barking and Dagenham	25.8	21.4
Barnet	27.0	20.3
Bexley	27.5	22.4
Brent	27.3	21.1
Bromley	27.2	21.0
Croydon	27.1	22.9
Ealing	26.5	22.7
Enfield	27.9	21.0
Greenwich	25.7	21.6
Harrow	26.3	23.0
Havering	27.1	22.0
Hillingdon	26.5	21.0
Hounslow	26.1	21.3
Kingston upon Thames	27.0	20.9
Merton	25.4	24.1
Redbridge	27.5	20.6
Richmond upon Thames	26.6	24.3
Sutton	27.6	20.8
Waltham Forest	26.1	22.9

[1] Includes middle schools as deemed.

Classroom Assistants

Sarah Teather: To ask the Secretary of State for Education and Skills how many *(a)* part-time and *(b)* full-time classroom assistants were (i) recruited and (ii) employed in each London borough in 2004. [220183]

Mr. Stephen Twigg: Information on the number of teaching assistants recruited annually is not collected centrally.

The following table provides the full-time equivalent number of teaching assistants employed in each London local education authority in January 2004. (Separate totals for full and part-time teachers are not available).

Full-time equivalent number of teaching assistants in maintained nursery, primary, secondary, special and pupil referral units—January 2004

	Number
City of London	10
Camden	550
Greenwich	750
Hackney	610
Hammersmith and Fulham	360
Islington	520
Kensington and Chelsea	270
Lambeth	720
Lewisham	620
Southwark	900
Tower Hamlets	1,070
Wandsworth	590

Full-time equivalent number of teaching assistants in maintained nursery, primary, secondary, special and pupil referral units—January 2004

	Number
Westminster	330
Barking and Dagenham	560
Barnet	850
Bexley	550
Brent	560
Bromley	540
Croydon	950

Cross-border Tracking

Mr. Martyn Jones: To ask the Secretary of State for Education and Skills what cross-border tracking of children in education takes place between English and Welsh local education authorities. [220231]

Mr. Stephen Twigg *[holding answer 4 March 2005]:* My Department has developed a secure data transfer site for schools and local education authorities, called 'School to School'. In co-operation with the Department for Training and Education in Wales, this facility has been available to Welsh schools and local education authorities since May 2004, thus enabling them to track cross-border movements of pupils. My Department does not itself track such movements.

Departmental Policies

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills if she will set out, with statistical evidence relating as closely as possible to Coventry South constituency, the effects on the constituency of changes to her Department's policies since 1997. [219821]

Mr. Stephen Twigg: The Coventry South constituency lies within Coventry local education authority. The most recent Key Stage 2 and GCSE and equivalents Achievement for pupils attending schools in Coventry South are given in the following tables.

Key Stage 2 Achievements of 11-year-old pupils attending schools in the Coventry South constituency—Percentage of pupils gaining level 4 and above

	1997	2004	Percentage point improvement 1997 to 2004
Coventry South—English[1]	60	76	16
Coventry South—Maths[1]	59	70	11
National average—English[2]	63	78	15
National average—Maths[2]	61	74	13

[1] Pupils attending schools in Coventry South constituency.

[2] The average for all schools in England (including independent schools).

GCSE and equivalents[1] Achievement of 15-year-old pupils[2] attending schools in the Coventry South Constituency

Percentage of 15-year-olds gaining	1997	2004	Percentage point improvement 1997 to 2004
Coventry South—5 + A*-C	39.6	47.8	8.2
Coventry South—5 + A*-G	83.9	85.8	1.9
National average—5+ A*-C	45.1	53.7	8.6
National average—5+ A*-G	87.0	88.8	1.8

[1] For 2004 only results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. Prior to 2004 results are based on GCSEs and GNVQs only.

[2] As standard the results reported relate to pupils aged 15 at the start of the academic year, i.e. 31 August, and therefore reaching the end of compulsory education at the end of the school year.

At national level, standards have improved across all key stages. The Primary and Key Stage 3 National Strategies, together with the measures we have taken to help schools in the toughest areas are continuing to deliver better results.

Further information by constituency, is provided within the Department's "In Your Area" website available at http://www.dfes.gov.uk/inyourarea. Where information is not available at the constituency level it has been provided at local education authority level.

This website allows users to access key facts and local information about education and skills based on postcodes. The data available within the site offers comparisons between 1997 and the latest available year and covers five geographies. These are parliamentary constituency, ward, local authority district, local education authority and Government Office region. England figures are also provided.

The information available within the website is grouped in a number of broad categories including Literacy and Numeracy at age 11, Literacy and Numeracy at age 14, GCSE/GNVQ results, Pupils with Special Educational Needs, School Initiatives, School Workforce, School Funding and Resources, Children's Social Services, Early Years, Class Sizes, Post-16, Higher Education and Adult Education.

Additional information could be provided only at disproportionate cost. However, my Department is investigating ways in which we can disseminate more

information about the effects of our policies at a local level. The In Your Area website will be further developed over the coming months to include additional information about Adult Education, School Funding, School Initiatives, School Performance, School Workforce and Post 16.

Mr. Sheerman: To ask the Secretary of State for Education and Skills if she will set out, with statistical information relating as directly as possible to Huddersfield constituency, the effects on Huddersfield of her Department's policies and actions since 2 May 1997, with particular reference to *(a)* exam results, *(b)* university applications, *(c)* teaching staff numbers and *(d)* school funding. [216877]

Mr. Stephen Twigg: The Huddersfield constituency lies within Kirklees local education authority. The most recent Key Stage 2 and GCSE and equivalents achievement for pupils attending schools in Huddersfield are given in the following tables:

(a) Examination results:

Key Stage 2 achievements of 11-year-old pupils attending schools in the Huddersfield constituency

Percentage of pupils gaining level 4 and above	1997	2004	Percentage point improvement 1997–2004
Huddersfield—English[1]	51	68	17
Huddersfield—Maths[1]	51	66	15
National average—English[2]	63	78	15
National average—Maths[2]	61	74	13

[1] Pupils attending schools in Huddersfield constituency.

[2] The average for all schools in England (including independent schools).

GCSE and equivalents[1] achievement of 15-year-old pupils[2] attending schools in the Huddersfield constituency

Percentage of 15-year-olds gaining	1997	2004	Percentage point improvement 1997–2004
Huddersfield—5+ A*-C	33.5	40.5	7.0
Huddersfield—5+ A*-G	81.4	86.2	4.8
National average—5+ A*-C	45.1	53.7	8.6
National average—5+ A*-G	87.0	88.8	1.8

[1] For 2004 only results incorporate GCSEs, GNVQs and a wide range of other qualifications approved pre-16. Prior to 2004 results are based on GCSEs and GNVQs only.

[2] As standard the results reported relate to pupils aged 15 at the start of the academic year i.e. 31 August and therefore reaching the end of compulsory education at the end of the school year.

(b) University applications:

Applications are not held at constituency level. The available information is taken from the Universities and Colleges Admissions Service (UCAS) and covers 18 to 20-year-old applicants accepted through UCAS to full-time first degree and HND courses.

18 to 20-year-old applicants accepted through UCAS to full-time undergraduate courses at UK institutions

	1996/97	2003/04	Increase (percentage)
Kirklees LEA	1,368	1,754	28
National (England)	170,016	218,640	29

Source:
Universities and Colleges Admissions Service (UCAS)

(c) Teaching staff:

FTE[1] of regular qualified teachers in primary and secondary schools in England[2]

	Primary			Secondary		
	1997	2004	difference	1997	2004	difference
Huddersfield constituency[3]	350	340	-10	300	320	20
Kirklees LEA[4]	1,600	1,650	50	1,540	1,620	80
England[4]	190,000	195,100	5,100	189,430	211,000	21,570

[1] FTE—Full Time Equivalent is the total number of full-time teachers plus the equivalent number of part-time teachers based on the proportion of the full-time rate that they are employed.

[2] The position at January of each year, includes Middle Schools as deemed.

Note:
Figures are rounded to the nearest 10.

(d) School funding:

Real terms[1] funding per pupil aged 3 to 19

	1997/98	2004/05	Change since 1997 £ Real	Change since 1997 Percentage Real
Kirklees LEA	2,770	3,790	1,020	37
Yorkshire and the Humber	2,770	3,750	990	36
National	2,900	3,850	950	33

[1] Real terms figures are based on GDP deflators as at 30 June 2004 (2003–04 prices).

Notes:

1. 2004–05 and 2003–04 figures are provisional as some grants have not yet been finalised/audited. Updates will be available in the autumn.

2. Figures reflect education Standard Spending Assessment/ Education Formula Spending settlement (all sub-blocks) plus revenue grants in DfES departmental Expenditure Limits relevant to EFS pupils aged 3 to 19.
3. Figures exclude Education Maintenance Allowance and grants not allocated at LEA level and the pensions transfer to EFS and Learning and Skills Council for 2003–04 and 2004–05.
4. The pupil numbers used are those underlying the SSA/EFS settlement calculations plus PLASC 3yos maintained pupils, estimated 3 to 4-year-olds funded through state support in maintained and other educational institutions where these are not included in the SSA pupil numbers.
5. 1997–98 figures for LEAs subject to local government reorganisation in that year have been estimated, pro-rata to their post LGR figures.
6. Figures are rounded to the nearest 10 so may not sum.

At national level, standards have improved across all key stages. The Primary and Key Stage 3 National Strategies, together with the measures we have taken to help schools in the toughest areas are continuing to deliver better results.

Further information by constituency, is provided within the Department's 'In Your Area' website available at http://www.dfes.gov.uk/inyourarea. Where information is not available at the constituency level it has been provided at local education authority level.

This website allows users to access key facts and local information about education and skills based on postcodes. The data available within the site offers comparisons between 1997 and the latest available year and covers five geographies. These are Parliamentary constituency, Ward, Local Authority District, Local Education Authority and Government Office Region. England figures are also provided.

The In Your Area website will be further developed over the coming months to include additional information about Adult Education, School Funding, School Initiatives, School Performance, School Workforce and Post 16.

Education

Martin Linton: To ask the Secretary of State for Education and Skills what steps she has taken to increase the number of teachers in state schools in Battersea. [218523]

Mr. Stephen Twigg: We are committed to improving recruitment and retention of teachers. Nationally, there are around 29,000 more qualified teachers working in schools than there were in 1997. In Wandsworth, the latest statistics show that teacher vacancies have fallen from 3.8 per cent. in 2002 to 2.1 per cent. in 2004.

We have put in place a number of measures nationally to improve recruitment and retention. For example, graduates training to teach receive bursaries of up to £6,000; and new teachers of shortage subjects receive golden hellos of up to £4,000 on starting teaching.

In London, the London Challenge seeks to make London a world leader for secondary education, including making London one of the most attractive places to teach. Significant changes have been made, including the introduction of a new inner London pay scale. For example, an experienced classroom teacher at the start of the upper pay scale in London now earns £34,851, compared to £29,385 outside London. From April 2004, teachers working in London have been able to apply for interest-free equity loans of up to £100,000, through the London Challenge Key Teacher Homebuy scheme, in order to be able to afford a home in London.

The Chartered London Teacher status is now available to teachers working in London. It rewards the skills and expertise of London teachers and provides a one-off payment of £1,000 for those who achieve the status, and provides recognition of professional achievement that teachers will carry with them throughout their careers. And a new 'Preferred Supply Agency' list has been established to make it easier for Headteachers to access agencies which endeavour to provide better trained teachers and better value for money.

Furthermore, London Challenge is funding a teacher recruitment project, to offer a free teacher recruitment service to London schools in challenging circumstances for September 2005. Through this project, GOL are working with Battersea Technology College. GOL has already met with the head teacher to discuss staffing needs and is creating a pool of candidates for vacant posts. Currently, the staffing picture across Battersea in both primary and secondary schools is stable.

Mr. Lepper: To ask the Secretary of State for Education and Skills what the budget was for the Brighton and Hove local education authority in each year since 1997–98. [220109]

Mr. Stephen Twigg: The information requested is only available from 2000–01 onwards and is contained within the following table.

Brighton and Hove LEA's total net revenue education budget [1] since 2000–01 [2]

	Total Education Revenue Expenditure [3] (£)
2000–01	88,085,000
2001–02	95,533,000
2002–03	100,379,000
2003–04	106,061,000
2004–05	113,247,000

[1] Financial data is drawn from the net column of the Total Education Revenue Expenditure line of the Section 52 Budget Statement (Table 1) submitted by Brighton and Hove LEA to the department
[2] Section 52 budget data has only been collected since financial year 2000–01.
[3] Figures are as reported by the LEA in cash terms rounded to the nearest £1,000.

Mr. Lepper: To ask the Secretary of State for Education and Skills how many children were in classes of 31 or more in infant schools and infant classes in primary schools in Brighton and Hove in each year since 1996–97. [220110]

Mr. Stephen Twigg: The information requested is shown in the table.

Maintained primary schools [1]: number of pupils in key stage 1 classes of 31 or more pupils taught by one teacher—1997 to 2004

Position in January each year

	Brighton and Hove local education authority		
		Number of pupils in classes of 31 or more	
	Total pupils in all classes	*Number of pupils*	*Percentage of pupils [2]*
1997[3]	22,141	10,130	45.8
1998	7,080	3,422	48.3
1999	6,988	2,811	40.2
2000	6,709	2,262	33.7
2001	6,517	408	6.3
2002	6,432	0	0.0
2003	6,353	32	0.5
2004	6,795	31	0.5

[1] Includes middle schools as deemed.

[2] Percentage of pupils in those classes expressed as a percentage of pupils in all classes taught by one teacher.

[3] Before Local Government Reorganisation (was East Sussex LEA).

Source:

Annual Schools' Census

Mr. Lepper: To ask the Secretary of State for Education and Skills how many full-time equivalent teachers were working in maintained schools in Brighton and Hove in each year since 1996–97. [220111]

Mr. Stephen Twigg: The information requested has been published in the Statistics of Education, School Workforce in England Volume, 2004 edition, annex table A2 refers. A copy of this publication has been placed in the House of Commons Library. Alternatively it is available at the following URL: www.dfes.gov.uk/rsgateway/DB/VOL/v000554/index.shtml

Mr. Lepper: To ask the Secretary of State for Education and Skills how much capital funding was allocated to schools in Brighton and Hove in each year since 1996–97. [220159]

Mr. Stephen Twigg: The following table sets out the total capital resources allocated to Brighton and Hove local education authority, and schools in its area, since 1997. Information is not held centrally for 1996–97 when Brighton and Hove was part of East Sussex LEA. Decisions on how resources should be invested in schools are taken by the local education authority in accordance with locally prepared asset management plans.

£000

LEA	*Brighton and Hove*
1997–98	3,926
1998–99	4,467
1999–2000	6,139
2000–01	8,161
2001–02	29,193
2002–03	6,856
2003–04	7,338
2004–05	13,357

Notes:

1. 2001–02 figures includes Private Finance Initiative credits of £24.5 million
2. 2004–05 figures include Targeted Capital Funding of £6.8 million

Further Education (Funding)

Mr. Jim Cunningham: To ask the Secretary of State for Education and Skills what the funding gap is between school sixth forms and further education colleges; and what plans her Department has to reduce the funding spending gap. [219897]

Dr. Howells: In 2002/03 the difference between the AS/A2 base rates for school sixth forms and further education colleges was 10.5 per cent.

At the 2002 Spending Review a record funding increase for the FE sector was delivered. The increased funding enabled the Learning and Skills Council to deliver a 4.5 per cent. increase in funding rates in 2003/04 for all colleges that agreed development plans. In the same year, school sixth form funding rates increased by 3 per cent.—resulting in a narrowing of the funding gap to 9 per cent. FE colleges that delivered against their plans received a further 5 per cent. increase in funding rates for 2004/05 compared with a 4 per cent. increase for schools—a further narrowing of the gap to 8 per cent. We expect a similar step in funding rates in 2005/06, further reducing the gap to 7 per cent.

Our policy has been to raise the level of funding for colleges, as and when we are able to secure the resources to do so.

Qualifications

Sarah Teather: To ask the Secretary of State for Education and Skills what percentage of pupils in *(a)* Greater London and *(b)* each London borough left school with no qualifications in 2004. [220182]

Mr. Stephen Twigg: The table shows the proportion of pupils aged 15 at the start of the 2003/04 school year who did not achieve any passes at GCSE and other qualifications approved pre-16 (including entry level qualifications) in each London LEA.

Government Office Region local education authority	*Number of 15-year-old pupils[1]*	*Percentage of 15-year-old pupils[1] achieving no passes at GCSE and equivalents*
London	73,425	3.7
Camden	1,429	3.9
Hackney	1,283	2.5
Hammersmith and Fulham	1,184	3.0
Haringey	2,164	7.3
Islington	1,411	4.4
Kensington and Chelsea	579	4.7
Lambeth	1,370	2.5
Lewisham	2,294	3.7
Newham	3,137	1.8
Southwark	2,057	5.0
Tower Hamlets	2,468	3.0

Government Office Region local education authority	Number of 15-year-old pupils[1]	Percentage of 15-year-old pupils[1] achieving no passes at GCSE and equivalents
Wandsworth	1,868	4.6
Westminster	1,400	4.1
Barking and Dagenham	1,956	4.2
Barnet	3,549	4.1
Bexley	3,075	2.6
Brent	2,645	3.2
Bromley	3,618	3.1
Croydon	3,619	3.1
Ealing	2,682	2.5
Enfield	3,431	3.5
Greenwich	2,524	4.6
Harrow	2,222	2.7
Havering	3,068	2.3
Hillingdon	2,933	5.9
Hounslow	2,642	3.6
Kingston upon Thames	1,480	3.3
Merton	1,595	6.4
Redbridge	3,016	2.1
Richmond upon Thames	1,486	3.2
Sutton	2,628	2.9
Waltham Forest	2,612	6.5

[1] Aged 15 at the start of the 2003/04 academic year, ie. 31 August 2003.
[2] Including attempts and achievements by these pupils in previous academic years.

School Medical Facilities

Bob Russell: To ask the Secretary of State for Education and Skills what requirement there is for medical facilities at *(a)* junior schools, *(b)* secondary schools and *(c)* further education establishments to be staffed. [209266]

Margaret Hodge: The Education (School Premises) Regulations 1999 require every school to have a room appropriate and readily available for use for medical and dental examination and treatment and for the caring of sick or injured pupils. How these are staffed is a matter for local determination. For example, medical and dental examination and treatment will be done by local health professionals under local NHS arrangements, while school staff (such as a first aider) may care for a sick or injured pupil. Further Education sector institutions, as independent corporations, are responsible for the health and safety of their learners and they are responsible for determining what medical facilities or accommodation they need to have in place. The Learning and Skills Council is accountable for ensuring that FE institutions with which it contracts have in place effective arrangements for ensuring the health and safety of learners.

School Toilets

Dr. Palmer: To ask the Secretary of State for Education and Skills if she will discuss with the Office for Standards in Education extending its powers of inspection to cover school toilets for pupils; and if she will make a statement. [212338]

Mr. Stephen Twigg: The draft framework for inspection, intended to take effect from September 2005, provides among other things, for the care, advice, guidance and other support provided to safeguard welfare, promote personal development and achieve high standards. This includes the arrangements made by a school to care for pupils, and promote and monitor their health and well-being.

The minimum number of toilets for pupils in maintained schools is controlled by the Education (School Premises) Regulation 1999. Local education authorities are responsible for ensuring compliance with the regulations. The condition of the facilities is a matter for the school's head teacher and governors as they are responsible for cleaning and maintenance.

Specialist Schools

Dr. Tonge: To ask the Secretary of State for Education and Skills what proportion of secondary schools in London have applied for specialist status. [218991]

Mr. Stephen Twigg *[holding answer 7 March 2005]:* Including schools that were designated from the last round in October 2004 as 2005 starters, there are now 262 specialist schools in London which is around 64 per cent. of London secondary schools. In the last round (October 2004) 33 applications were received from London schools of which 23 were successful and 10 did not meet the standard. The next application round is in March 2005.

Surveys

Mr. Gibb: To ask the Secretary of State for Education and Skills what the cost was to her Department of *(a)* the 2003 PISA survey and *(b)* the 2003 TIMSS survey. [219319]

Mr. Stephen Twigg: The release of information related to contract costs for PISA and TIMSS would prejudice commercial interests during the current procurement exercises for PISA 2006 and TIMSS 2007. I am therefore withholding this information until contracts for both of these studies are in place. This is envisaged to be the end of April 2005 for PISA 2006 and the end of the current calendar year for TIMSS 2007, at which time the information can be disclosed. However, the participation costs between 2002 and 2005 payable to the international co-ordinating bodies, OECD in the case of PISA and IEA in the case of TIMSS, were:

£372,755.18 for PISA;

£114,214.56 for TIMSS.

Targets

Mr. Bercow: To ask the Secretary of State for Education and Skills (1) whether the Public Service Agreement target for 85 per cent. of 11-year-olds to achieve Level 4 or above and 35 per cent. to achieve Level 5 or above in maths and English by 2004, was met; [219203]

(2) what recent assessment she has made of whether the Public Service Agreement target to reduce the number of schools in which fewer than 65 per cent. of 11-year-olds achieve Level 4 by 40 per cent. will be met by 2006; [219204]

(3) what recent assessment she has made of whether the Public Service Agreement target for 85 per cent. of 14-year-olds to achieve Level 5 or above in English, maths and ICT, will be met by 2007; [219205]

(4) what recent assessment she has made of whether the Public Service Agreement target for 80 per cent. of 14-year-olds to achieve Level 5 or above in science, will be met by 2007; [219206]

(5) what recent assessment she has made of whether the Public Service Agreement target to reduce significantly the number of schools in which fewer than 60 per cent. of 14-year-olds achieve Level 5 or above, will be met by 2007; [219207]

(6) what recent assessment she has made of whether the Public Service Agreement target for 90 per cent. of pupils to reach Level 4 in maths and English by age 12, will be met by 2007; [219208]

(7) what recent assessment she has made of whether the Public Service Agreement target for 85 per cent. of 11-year-olds to achieve Level 4 or above in maths and English by 2006, will be met; [219267]

(8) what recent assessment she has made of whether the Public Service Agreement target for 50 per cent. of pupils in all schools to achieve Level 5 or above in each of English, maths and science by 2008, will be met; [219268]

(9) what recent assessment she has made of whether the Public Service Agreement target to increase the proportion of those aged 16 who get qualifications equivalent to five GCSEs at grades A* to C by two percentage points each year on average between 2002 and 2006, will be met; [219211]

(10) whether the Public Service Agreement target for 2004 of at least 20 per cent. of pupils in all schools achieving qualifications equivalent to five GCSEs at grades A* to C, was met; and what recent assessment she has made of whether the target for 2006 of 25 per cent. achieving such qualifications, will be met. [219212]

Mr. Stephen Twigg: The Department publishes progress against all its outstanding public service agreement targets (PSAs) in its annual departmental report and autumn performance report. Progress against PSAs was most recently reported in the 2004 autumn report, published in December 2004, together with the Department's assessment towards achievement of the targets. A copy of the report is available from the House of Commons Library.

The Spending Review 2002 PSA target for 90 per cent. of pupils to reach level 4 in maths and English by age 12 by 2007 was not assessed in the autumn performance report. In 2004, provisional data shows 82 per cent. of pupils aged 12 achieved level 4 and above in English, and 78 per cent. of pupils aged 12 achieved level 4 and above in maths.

The Spending Review 2004 PSA target for 50 per cent. of pupils in all schools to achieve level 5 or above in each of English, maths and science by 2008 was not assessed in the autumn performance report. Progress towards this target will be published in a Statistical First Release on 17 March.

The Spending Review 2004 PSA target of at least 20 per cent. of pupils in all schools achieving five or more GCSEs or equivalent at grades A*-C was not assessed in the autumn performance report. Figures published on 13 January 2005 show that in 2004, 71 schools had less than 20 per cent. of pupils achieving 5 or more A*-C at GCSE—compared with 112 in 2003 and 361 in 1997. The amended figure for the percentage of pupils achieving five or more GCSEs or equivalent at grades A*-C in 2004 is 53.7 per cent.

Mr. Bercow: To ask the Secretary of State for Education and Skills whether the Public Service Agreement target to increase the proportion of 19-year-olds who achieve qualifications equivalent to five GCSEs at grades A* to C by three percentage points between 2002 and 2004 was met; and what recent assessment she has made of whether the target for 2006 to increase the proportion by a further three percentage points will be met. [219213]

Mr. Stephen Twigg: A Statistical First Release published on 24 February showed that the target for a three percentage points increase in the proportion of 19-year-olds achieving qualifications equivalent to 5 GCSEs at grades A* to C had not been met. This is a disappointing result, though this was a very challenging target and there are signals from other sources that we are making some progress. This reinforces the importance of the radical proposals for 14–19 year old education announced in the recent White Paper on 14–19 education.

Achieving the 2006 target of a further three percentage points will be tough but achievable because of continuing improvement in attainment at 16 as well as our major investment in key reforms such as education maintenance allowances (EMAs) and apprenticeships.

Mr. Bercow: To ask the Secretary of State for Education and Skills whether the public service agreement target to make significant progress year on year to reduce rates of non-completion in higher education was met in 2004. [219256]

Dr. Howells: Information on non-completion rates is published annually by the Higher Education Statistics Agency (HESA). The latest figures, which show that rates have decreased since 1997, are given in the table.

Projected non-completion rates[1] in English HEIs—students on full-time first degree courses

Students starting courses in:[2]	*Non-completion rate (percentage)*
1997	16.1
1998	15.8
1999	15.9
2000	15.0
2001	14.1

[1] HESA use a method of projection applied to the cohort of students starting full-time first degree courses in a particular year, based on the assumption that they will move through the system in the same way as current students.

[2] The majority of these students will be on three-year degree courses, so that those entering in 2001 will be scheduled to complete their courses in 2004.

Source:

"Performance Indicators in Higher Education", published by HESA.

Mr. Bercow: To ask the Secretary of State for Education and Skills what the estimated cost to public funds is of achieving the public service agreement target to increase participation in higher education towards 50 per cent. of those aged 18 to 30 years. [219258]

Dr. Howells: The majority of the funding made available to the HE sector in England will contribute towards the target to increase participation in higher education. So, too, does funding provided outside of the HE sector which delivers improved attainment in pre-HE learning.

The following table sets out the details of the funding available to the Higher Education Funding Council for England (HEFCE) for the three year period from 2005–06. This gives annual increases in total recurrent grant for teaching of £255/208/209 million and for research of £133/95/90 million. Costs beyond 2007–08 will be dependant on the outcome of the forthcoming spending review.

Financial year: all figures (except the unit of teaching funding which is £ real terms) are £ million in cash terms

	2005–06	*2006–07*	*2007–08*
(a) SR2004 outcome recurrent resources for HEFCE and TTA[1]	4,594	4,817	5,039
(b) Of which HEFCE[2]	4,339	4,547	4,753
(c) Public contributions to fees[3]	434	n/a	n/a
(d) Student contributions to fees[3]	508	n/a	n/a
Total (a+c+d)	5,536		
(f) Recurrent resources for research[4]	1,204	1,299	1,389
Resources for capital grants:			
(g) IT and other capital	442	468	472
(h) Research	207	236	266
(i) Cost of capital and depreciation[5]	-7	-7	-7
Total HEFCE (b+f+g+h+i)	6,186	6,544	6,874
Student numbers (FTEs in thousands)[6]	1,185	1,209	1,232
Real terms unit of funding for teaching[7]	3,490	3,490	3,490

[1] The amounts set out above are the council's resource budgets. They represent the maximum amount of resource that the council may consume in pursuance of the priorities agreed with the Department for the spending review period. The 2007–08 budget includes £9.5 million departmental end-year flexibility planned to be carried forward from 2005–06 and 2006–07. Figures are net of a £67/69/70 million transfer of AHRB resources.

[2] Figures assume a baseline transfer of £255/270/286 million to the TTA. The resources for each year include funding of £18 million from the Department of Health for clinical academicians' pay and £5 million funding transferred to HEFCE for the dance and drama scheme.

[3] Figures on the contribution to fees include students to be funded through the TTA.

[4] The resources exclude funding from DTI and OST for the Science Research Innovation Fund and HE Innovations Fund.

[5] Capital costs and depreciation are part of the council's resource budgets and the maximum amount of resources it may consume. The amounts shown are subject to review and will be discussed further with the council.

[6] Student numbers are net of students to be funded through the TTA.

[7] Figures are in 2003–04 prices rounded to nearest £10. The real terms level of funding for teaching costs are derived from the total level of recurrent resources available to HEFCE to support teaching (ie excluding research, capital and postgraduate stipends), full-time equivalent numbers of students estimated using the "whole year count" methodology discussed with HEFCE and the GDP deflators published by HM Treasury on 3 December 2004.

Undergraduates (Bankruptcy)

Sarah Teather: To ask the Secretary of State for Education and Skills how many undergraduate students in Greater London declared themselves bankrupt in 2004; and if she will make a statement. [220174]

Dr. Howells: 68 student loan borrowers, whose awarding local education authority is in the Greater London area, notified the Student Loans Company of bankruptcy orders made against them in 2004. This figure includes both graduates and undergraduate borrowers.

University Admissions

Mr. Clappison: To ask the Secretary of State for Education and Skills pursuant to the answer of 18 January 2005, *Official Report*, column 858W on university admissions, whether the review of benchmarks for university admissions has commenced; and when the review will be completed. [219695]

Dr. Howells: I have asked the Performance Indicators Steering Group (PISG) (the body responsible for approving the content and methodology of the Performance Indicators (PIs) and associated benchmarks) to consider the potential for improvements to the way the current PIs can be presented. The PISG will be undertaking this work during this summer. I will look at any improvements that the PISG consider need to be made, in advance of the next annual publication in autumn 2005.

DEFENCE

Army Legal Services

Mr. Soames: To ask the Secretary of State for Defence what the structure is of the Army Legal Services (ALS); how many people are employed by the ALS; and what its duties are. [218049]

Mr. Caplin: Army Legal Services (ALS) is a branch of the Adjutant General's Corps. Its all-officer staff (currently 99) are solicitors or barristers, qualified in England and Wales, Scotland or Northern Ireland. Director Army Legal Services is a Major General. The duties of ALS are to provide military legal advice to the Army, be responsible for the conduct of all prosecutions before Army courts-martial and to provide legal advice to Service personnel and their families, where no other source of legal assistance is readily available.

Citizenship Applications

Miss McIntosh: To ask the Secretary of State for Defence for what reasons the Army does not sponsor applications from UK armed forces' personnel from elsewhere in the Commonwealth who wish to apply for dual or full British citizenship. [208858]

Mr. Caplin: Immigration policy is a matter for the Home Office. British citizenship is not a requirement of service in the British Army. Whether a British Army soldier of Commonwealth nationality seeks to apply for naturalisation as a British citizen during their service is entirely a private matter.

Deaths in Service

Mr. McNamara: To ask the Secretary of State for Defence pursuant to the answer of 7 February 2005, *Official Report*, column 1254W, on military death (Amesbury), in what non-work related circumstances service personnel may be in control of a Saxon armoured vehicle on a public thoroughfare. [217802]

Mr. Caplin: Service personnel may only drive official vehicles during the course of their duties.

Defence Analytical Services Agency

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget the Defence Analytical Services Agency spent in Scotland in *(a)* monetary terms and *(b)* as a percentage of the total personnel budget in (i) 2003–04 and (ii) 2002–03; and if he will make a statement. [214751]

Mr. Caplin: As the Defence Analytical Services Agency does not employ any staff in Scotland, none of its personnel budget is spent there.

Defence Employment (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how many people worked for the Pay and Personnel Agency *(a)* in 2003–04 and *(b)* on the latest date for which figures are available; how many were employed in Scotland in each case; and what the personnel costs of the agency (i) were in 2003–04 and (ii) are expected to be in 2004–05. [215945]

Mr. Caplin: The Pay and Personnel Agency (PPA) employed 790 full-time equivalent staff in 2003–04. The figures are published in UK Defence Statistics 2004 at Table 2.6. PPA's personnel costs are contained in the agency's annual report and accounts for 2003–04, a copy of which is in the Library of the House. Our annual report and accounts for 2003–04 can also be viewed on our external website www.ppa.mod.uk and the main MOD website www.mod.uk/index.shtml

In 2004–05 the number of people expected to be working for the PPA is 800. The personnel costs in 2004–05 are expected to be £15.15 million. The final figures will appear in the annual report for 2004–05 which will be formally laid before the House before the summer recess at which time copies will be made available in the House of Commons Library and again on the PPA and MOD websites. The Pay and Personnel Agency had no staff working in Scotland in either 2003–04 or 2004–05.

Defence Expenditure (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year from 1997–98 to 2001–02 the RAF Training Group Defence Agency spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each year; and if he will make a statement. [215910]

Mr. Caplin: The following table details the civilian personnel employed by Training Group Defence Agency (TGDA) in Scotland. Details of Service personnel employed in this location are not held centrally and could be provided only at disproportionate cost. However, local figures for financial year 2004–05 indicate that there are no more than approximately 60 Service personnel employed by TGDA in Scotland.

	Personnel budget[1] spent in Scotland £ million	*Percentage of total TGDA personnel budget*	*TGDA civilian personnel employed in Scotland*
1997–98	2.260	1.4	30
1998–99	2.368	1.0	40
1999–2000	2.477	1.0	40
2000–01	2.588	1.0	40
2001–02	2.725	0.9	40

[1] Personnel budget includes salary, training, travel and subsistence and consumable costs.

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for financial years *(a)* 2001–02, *(b)* 2000–01, *(c)* 1999–2000, *(d)* 1998–99 and *(e)* 1997–98 the Defence Housing Executives spent in Scotland in (i) monetary terms and (ii) as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each year; and if he will make a statement. [216281]

Mr. Caplin: The Defence Housing Executive (DHE) was formed in 1999 and figures are only available from that date. Expenditure on personnel costs for DHE Scotland are given as follows; broken down as requested:

Serial (a)	*1*	*2*	*3*
Financial year (b)	*1999–2000*	*2000–01*	*2001–02*
Personnel Expenditure (£ million) *(c)*	1.852	1.860	1.854
Percentage of Department Personnel Budget *(d)*	0.02	0.02	0.02
Number of full-time equivalent personnel working in DHE Scotland *(e)*	110	100	100

The number of personnel given in column *(e)* represent full-time equivalents (aggregating part-time posts) and not the actual number of people employed.

Angus Robertson: To ask the Secretary of State for Defence how much and what percentage of its personnel budget for financial years *(a)* 2001–02, *(b)* 2000–01, *(c)* 1999–2000, *(d)* 1998–99 and *(e)* 1997–98 (i) the Defence Estates Agency, (ii) the Defence Dental Agency and (iii) the Defence Communications Services Agency spent in Scotland; how many personnel were employed by each Agency in Scotland in each year; and if he will make a statement. [216720]

Mr. Caplin: The figures for personnel budget spend for each agency, and staff figures, are shown in the following table.

	Personnel budget in Scotland			
Financial year	*(£ million)*	*Percentage of total personnel budget*	*Staff employed in Scotland*[1]	
Defence Estates (DE)				
2001–02	[2]3.440	7.53	Civilian	90
			Service	5
2000–01	[2]2.637	6.86	Civilian	80
			Service	1
1999–2000	[2]321	6.64	Civilian	70
			Service	0
1998–99	[2]1.244	3.92	Civilian	70
			Service	0
1997–98	[3]—	[3]—	Civilian	80
			Service	[3]—
Defence Dental Agency (DDA)				
2001–02	1.848	5	Civilian	10
			Service	41
2000–01	1.244	5	Civilian	10
			Service	[3]—
1999–2000	1.557	5	Civilian	10
			Service	[3]—
1998–99	0.939	3	Civilian	[4]—
			Service	[3]—
1997–98	[3]—	[3]—	Civilian	[4]—
			Service	[3]—
Defence Communications Services Agency (DCSA)				
2001–02	[3]—	[3]—	Civilian	100
			Service	[3]—
2000–01	[3]—	[3]—	Civilian	60

1999–2000	[3]—	[3]—	Civilian	20
			Service	[3]—
1998–99	[3]—	[3]—	Civilian	[4]—
			Service	[3]—
1997–98	[3]—	[3]—	Civilian	[3]—
			Service	[3]—

[1] Civilian staff figures are provided by Defence Analytical Services Agency (DASA) and are quoted in full-time equivalent (FTE) terms, and based on new definitions agreed in 2004. Part-time staff hours are therefore counted proportionately to normal conditioned hours. Unless indicated otherwise, figures indicate staff strength at the start of each financial year. Service personnel figures for Scotland are not held centrally; however, where local figures are available these have been shown. It should be noted that the purpose of collating staff figures, and the statistical method of measurement, may vary between individual agencies and DASA.

[2] The personnel costs of the Defence Estates Agency includes salaries, performance pay or bonuses, overtime, allowances, social security costs and other pension costs but excludes the cost of early retirements.

[3] The Defence Communication Services Agency was formed in April 1998; therefore figures for 1997–98 cannot be provided.

[4] fewer than 5.

[5] not known, or available only at disproportionate cost.

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for financial years *(a)* 2001–02, *(b)* 2000–01, *(c)* 1999–2000, *(d)* 1998–99 and *(e)* 1997–98 the Defence Aviation Repair Agency spent in Scotland (i) in monetary terms and (ii) as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland; and if he will make a statement. [217238]

Mr. Ingram: DARA was launched on 1 April 1999.

The table shows the personnel budget spend and number of personnel employed in Scotland in the Defence Aviation Repair Agency by Financial Year since 1999.

Financial year	*Personnel budget in Scotland (£ million)*	*Percentage of total personnel budget spent in Scotland*	*Staff employed in Scotland*[1]
2001–02	[2]10.141	[2]7.90%	Civilian 370
			Service 0[2]
2000–01	[3]—	[3]—	Civilian 360
			Service 0[2]
1999–2000	[3]—	[3]—	Civilian 340
			Service 0[2]

[1] Civilian staff personnel figures are provided by the Defence Analytical Services Agency (DASA) and are quoted in full-time equivalent (FTE) terms. Figures indicate staff strength at the start of each financial year and are based on the new definition of civilian personnel which came into effect on 1 April 2004.

[2] Information provided by the Defence Aviation Repair Agency from locally held records.

[3] Not known, or available only at disproportionate cost.

Both civilian and Service personnel data by Agency are collated annually at 1 April and presented in Table 2.6 of UK Defence Statistics, a copy of which is held in the House of Commons Library. Further information on personnel figures is also available on the DASA website at www.dasa.mod.uk.

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for financial years *(a)* 2001–02, *(b)* 2000–01, *(c)* 1999–2000, *(d)* 1998–99 and *(e)* 1997–98 the Defence Clothing Integrated Project Team spent in Scotland (i) in monetary terms and (ii) as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland; and if he will make a statement. [217239]

Mr. Ingram: The Defence Clothing Integrated Project Team, which formed in April 2001, had no expenditure on personnel in Scotland for 2001–02. Its predecessor, the Defence Clothing and Textiles Agency (DCTA), had no expenditure on personnel in Scotland in 1998–99, 1999–2000 and 2000–01.

Local records held on the Defence Clothing and Textiles Agency (DCTA) indicate that there was an overall personnel budget in 1997–98 of £11.8 million of which approximately £1.3 million was spent in Scotland, equating to about 11 per cent. of its budget. Of the 550 full-time equivalent civilian personnel in the Defence Clothing and Textiles Agency (DCTA) in 1997–98, 40 were employed in Scotland.

Both civilian and Service personnel data by Agency are collated annually at 1 April and presented in Table 2.6 of UK Defence Statistics, a copy of which is held in the House of Commons Library. Further information on personnel figures is also available on the DASA website at www.dasa.mod.uk.

Defence Service Agencies (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year since 1997–98 the Army Personnel Centre spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each case; and if he will make a statement. [215455]

Mr. Caplin: Staff costs and staff numbers are included in the Annual Report and Accounts for the Army Personnel Centre, copies of which are held in the Library of the House. The proportion of staff based outside Scotland is less than one percent.

Departmental Estate

Mr. Steen: To ask the Secretary of State for Defence how many acres of vacant, dormant, unused and under-utilised land are owned by his Department; and if he will estimate the number of homes that could be built on the land if it was made available. [219680]

Mr. Caplin *[holding answer 3 March 2005]:* Ministry of Defence Land and property in excess of 9,635 acres (3,900 hectares) has been identified as surplus to operational requirements. Given favourable planning frameworks, this amount of land could accommodate between 16,000 to 20,000 new homes over the next decade. It is possible that there are other dormant, vacant or under-utilised MOD sites that have not been declared surplus to operational requirements. The future of such sites will be considered as part of the Department's estate rationalisation studies.

Departmental Records Office (Hayes)

John McDonnell: To ask the Secretary of State for Defence how many agency staff commissioned by TNT have been dismissed from working on the Departmental records office site at Bourne Avenue, Hayes on the grounds of drug abuse on site in the last nine months. [220247]

Mr. Caplin: TNT have a strict policy of zero tolerance for drug and alcohol abuse, and random searches of staff entering and leaving the Hayes site are carried out by TNT's security personnel. Two members of TNT's agency staff have been dismissed because they were found in possession of an illegal substance. Five further members of the agency staff have had their employment with TNT terminated because they were suspected of such possession. However, drug abuse on the Hayes site was not substantiated in any of these cases.

Geneva Conventions

Sir Menzies Campbell: To ask the Secretary of State for Defence whether further investigations are taking place in relation to alleged breaches of the Geneva Convention arising out of Operation Ali Baba; and if he will make a statement. [210701]

Mr. Hoon *[holding answer 27 January 2005]:* No criminal investigations are taking place into alleged breaches of the Geneva Convention in relation to Operation Ali Baba although administrative action in relation to potential breaches of the Army's values and standards remains a possibility.

Gulf War-related Illnesses

Tony Cunningham: To ask the Secretary of State for Defence what medical testing is available for veterans claiming Gulf War-related illnesses. [220490]

Mr. Caplin: In order to adjudicate a claim for a War Pension, a diagnosis of the claimed condition is required. In claims where entitlement is awarded, an up to date description of the accepted condition is necessary to determine the correct assessment of disablement. Wherever possible this information is obtained from service medical documents, a report from a claimant's General Practitioner, relevant hospital case notes or a report from the Gulf Veterans' Medical Assessment Programme in cases where a veteran has been referred to this unit by a General Practitioner.

In those cases where these sources of evidence do not provide the necessary information, a medical examination report, specialist report or audiological report is requested. These reports are based on the results of the clinical history and examination, together with non-invasive tests of function such as pure tone audiometry or simple tests of respiratory function where appropriate. More invasive tests such as blood tests, endoscopy and X-rays are not sanctioned for the purpose of adjudicating claims for war pensions.

Any Gulf veteran who has concerns about their health may be referred by their doctor to the Gulf Veterans' Medical Assessment Programme where they will be interviewed and given a full medical examination.

Tony Cunningham: To ask the Secretary of State for Defence how many claims of Gulf War-related illnesses are waiting to be processed. [220491]

Mr. Caplin: This information is not available in the format requested and could be provided only at disproportionate cost.

Iraq

Tom Cox: To ask the Secretary of State for Defence how much financial compensation has been paid to Iraqi citizens for damage done to Iraqi property as a result of the actions undertaken by British military forces in Iraq; and if he will make a statement. [212307]

Mr. Ingram: The Ministry of Defence has paid approximately £183,000 since cessation of hostilities on 1 May 2003 on compensation claims relating to property damage in Iraq as a result of incidents involving members of HM forces.

Mr. Hoyle: To ask the Secretary of State for Defence (1) if he will list *(a)* armoured regiments and *(b)* artillery regiments that have been deployed in Iraq in an infantry role since the end of hostilities; what the reasons for deployment in this role was in each case; and what assessment he has made of the potential risks of using armoured regiments in an infantry role; [219062]

(2) what the training time is for artillery and armoured units to *(a)* re-role in an infantry role and *(b)* revert to their original roles. [219063]

Mr. Ingram: Details of Royal Armoured Corps and Royal Artillery units that have deployed in an infantry role in Iraq since the end of hostilities are set out in the following table. It is not unusual for non-infantry units to deploy in an infantry role as every soldier in the British Army is trained as infanteer first, and as a specialist second. Such units would not, however, primarily be deployed in an infantry role during war fighting operations. My hon. Friend may be assured that there is assessed to be no increased risk in deploying such units in this role and that they receive the same pre-deployment training as Infantry Battalions. All units, upon return from an 'out of role' operational tour, will undertake a routinely planned training programme designed to bring it back up to competency in its specialism. The duration of such a training programme will vary according to an individual unit's specialism.

Arm (a)	*Unit (b)*	*Date (c)*
Royal Artillery		
	40th Regiment Royal Artillery	July 2003 to November 2003
	26th Regiment Royal Artillery	November 2003 to May 2004
	1st Regiment Royal Horse Artillery	May 2004 to November 2004
	4th Regiment Royal Artillery	November 2004
Royal Armoured Corps		
	2nd Royal Tank Regiment	June 2003 to November 2003
	Queens Royal Hussars	November 2003 to May 2004
	Queens Royal Lancers	May 2004 to November 2004
	Royal Dragoon Guards	November 2004

Missile Defence

Norman Baker: To ask the Secretary of State for Defence what discussions have taken place between the US and UK about RAF Menwith Hill becoming a component of the American Missile Defence System; and if he will make a statement. [218904]

Mr. Hoon: There has been no request from the United States to use facilities at RAF Menwith Hill for missile defence purposes. The position remains as set out in my answer of 26 April 2004, *Official Report*, column 727W, to the hon. Member.

Parachutists

Mr. Hoyle: To ask the Secretary of State for Defence how many members of the parachute battalions are in receipt of parachute pay. [219049]

Mr. Caplin: Figures for the members of parachute battalions in receipt of parachute pay are as follows:

Number of members of the three parachute battalions in receipt of parachute pay as at the 1 January 2005

Parachute battalion	*Number receiving parachute pay*
1st Battalion the Parachute Regiment	540
2nd Battalion the Parachute Regiment	515
3rd Battalion the Parachute Regiment	505

Notes:
1. The figures quoted are as at 1 January 2005 and are for UK Regular Trained Army Officers and Soldiers only and therefore exclude TA, Mobilised Reserves, Full Time Reserve Service, Gurkhas and Home Battalions of the Royal Irish Regiment.
2. The figures do not include officers and soldiers in the Parachute Regiment that are serving outside the battalion, or personnel from other cap badges that are attached to the battalion. The officer element excludes personnel with the rank of colonel and above.
3. All figures have been rounded to the nearest 5.

RAF

Mr. Rosindell: To ask the Secretary of State for Defence what the drop-out rate for 16 to 24-year-olds from the Royal Air Force has been in each year since 1997. [212359]

Mr. Caplin: The outflow of 16 to 24-year-olds from the Royal Air Force for each year since 1997 is as follows:

	Percentage outflow rate
1997–98	7.1
1998–99	7.5
1999–2000	7.0
2000–01	7.9
2001–02	7.2
2002–03	6.8
2003–04	7.2

Figures are based on all outflow from the untrained and trained start strength and intake for RAF regular personnel aged 16 to 24 for each financial year. They exclude Full Time Reserve Service and mobilised reserves personnel.

Figures on outflows by age are published annually in Tri-Service Publication (TSP) 19 'Intake to and Outflow from UK Regular Forces'.

Mr. Rosindell: To ask the Secretary of State for Defence how many RAF recruits in 2004 were from *(a)* London and *(b)* Essex. [212360]

Mr. Caplin: In financial year 2004–05, the number of personnel who applied to join the RAF at Armed Forces Career Offices located in London and Essex, and were subsequently recruited, are set out in the following table:

	London	*Essex*
Officers and non-commissioned aircrew	13	3
Other ranks	26	25

Regiments

Mr. Hoyle: To ask the Secretary of State for Defence (1) how many representations he has received supporting the separate future of each of the three regiments due to merger into the Kings, Lancashire and Border Regiment; [219060]

(2) which *(a)* Ministers, *(b)* officials and *(c)* members of the Army Board (i) visited and (ii) met with representatives of each of the three regiments to discuss the merger into the Kings, Lancashire and Border Regiment. [219061]

Mr. Ingram: As I have made clear in my previous answers to the hon. Member, the process of infantry restructuring involved a wide-ranging and detailed consultation exercise with the infantry being invited to express their views on how the restructuring should be implemented. As part of that process, Colonels Commandant of the Divisions of Infantry represented their views to the Executive Committee of the Army Board both in writing and in person.

I am not aware that any officials have met representatives of the regiments to which the hon. Member refers, but both the Defence Secretary and I have met representatives of various regiments and regimental associations. In addition I have received numerous representations from hon. Members and members of the public in support of all our infantry regiments.

Trident

Mr. Salmond: To ask the Secretary of State for Defence if he will allow independent monitors to test for radioactive contamination at the Trident nuclear base on the Clyde. [218343]

Mr. Weir: To ask the Secretary of State for Defence (1) whether testing for radioactive contamination takes place at sites up to *(a)* one mile, *(b)* five miles and *(c)* 20 miles from the Trident nuclear base on the Clyde; [218354]

(2) what the current level of radioactive contamination in the *(a)* water, *(b)* air and *(c)* land around the Trident nuclear base on the Clyde is. [218352]

Mr. Hoon: Routine independent sampling for radioactive contamination around HM Naval Base Clyde is carried out annually by the Scottish Environment Protection Agency (SEPA) and involves a wide range of tests on air and land samples at numerous sites up to five miles from the naval base. These tests are environmentally diverse and involve rigorous scientific testing of the entire terrain. The results are published annually in SEPA's Radioactivity in Food and Environment Report, which is available on their website at www.sepa.org.uk. The latest available report, which was published in 2003, verifies that existing discharge arrangements between SEPA and the Ministry of Defence provide effective control over the levels of radioactivity that are discharged into the environment. No tests are carried out of water samples, as this source would not yield a reliable indication of the impact of contamination.

As an additional measure, the MOD carries out its own annual routine air and land samples, the results of which are published in the Marine Environmental Radioactivity Surveys at Nuclear Submarine Berths report (ISBN 11773019X). The latest version was published in December 2004 and is available from www.tso.co.uk.

CABINET OFFICE

Alcohol Policies

Mr. Austin Mitchell: To ask the Minister for the Cabinet Office if he will publish the report, "Alcohol Policies", produced in 1979 by the Central Policy Review Staff. [217727]

Mr. Miliband: In common with other Cabinet Office records, the report will be considered for transfer to the National Archives after 30 years. The 1979 report is due to be transferred to the National Archives in 2010.

Civil Servants

Kate Hoey: To ask the Minister for the Cabinet Office when he expects to issue guidance on the conduct of civil servants during and in the period leading up to the referendum on the European Constitution; and who will be responsible for enforcing the guidance. [218853]

Mr. Miliband: I refer my hon. Friend to the answer I gave my hon. Friend the Member for Hornchurch (John Cryer) on 18 January 2005, *Official Report*, column 899W.

Sarah Teather: To ask the Minister for the Cabinet Office how many civil servants were *(a)* suspended and *(b)* sacked in each year since 2001 for gross professional misconduct; and in which Department each was employed. [220237]

Mr. Miliband: Information on the numbers of civil servants who were suspended and sacked for gross professional misconduct is not collected centrally.

Sarah Teather: To ask the Minister for the Cabinet Office how many civil servants were *(a)* suspended and *(b)* sacked in each year since 2001 under suspicion of breaching the Official Secrets Act 1989; and in which department each was employed. [220238]

Mr. Miliband: Information on the numbers of civil servants who were suspended and sacked for breaching the Official Secrets Act 1989 is not collected centrally.

DEPUTY PRIME MINISTER

Business Rates

Mr. Hammond: To ask the Deputy Prime Minister what the total subsidy provided by central Government to fund the transitional regime in respect of business rates was for the period 2000–01 to 2004–05. [219506]

Mr. Raynsford: The 2000 transitional scheme was designed to be revenue neutral but the Exchequer has had to make good the shortfall in revenue as follows:

	£ million
2000–01	415
2001–02	262
2002–03	41
2003–04	111
2004–05	[1]59

[1] Estimated

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister what the average Band D level of council tax was in *(a)* 1997–98 and *(b)* 2004–05 in (i) two-tier local government areas, (ii) unitary councils in England, (iii) Metropolitan boroughs and (iv) London boroughs. [217877]

Mr. Raynsford: The information requested is shown in Table 2.2f of "Local Government Financial Statistics, England, No. 15 2004", a copy of which is available in the Library of the House. The table can also be found at http://www.local.odpm.gov.uk/finance/stats/lgfs/lgfs15/tables/lgfs15-2-2f.xls.

Design

Alan Howarth: To ask the Deputy Prime Minister who the ministerial design champion for his Department is. [215645]

Yvette Cooper: I am the ministerial design champion for the Office of the Deputy Prime Minister, as established under my right hon. Friend the Prime Minister's Better Public Buildings Initiative in 2000.

High Hedges

Mr. Horam: To ask the Deputy Prime Minister whether he expects antisocial behaviour legislation relating to high hedges to be implemented before Easter. [219694]

Phil Hope: I refer the hon. Member to the answer given to the hon. Member for Solihull (Mr. Taylor) on 1 March 2005, *Official Report*, column 1127W.

Housing (Fylde)

Mr. Jack: To ask the Deputy Prime Minister what consultations are being conducted between the management of the Northern Way and local authorities in Fylde on targets for future house building; and when they began. [220265]

Keith Hill: The regional spatial strategy for the North West is currently being reviewed by the North West Regional Assembly. Key elements of this review will be the appropriate level of housing provision in the region and links with the Northern Way.

Housing Stock

Lynne Jones: To ask the Deputy Prime Minister which local authorities in England have decided their stock options appraisal in favour of *(a)* stock transfer, *(b)* arm's length management organisation, *(c)* private finance initiative and *(d)* stock retention by the council; how many homes each authority has in each case; which authorities have yet to advise his Office of their intentions; and how many homes they own in each case. [220451]

Keith Hill: 58 local authorities have had whole stock Options Appraisals signed off by the relevant Government Office. The tables, made available in the Library of the House, show which options they have chosen.

192 local authorities were subject to the requirement to have an Options Appraisal signed off by the relevant Government Office. Other authorities will have chosen an option prior to the introduction of this requirement.

Some local authorities have opted for more than one solution for their stock and they are listed separately, with the options they have chosen, in the mixed model table available in the Library of the House. Private Finance Initiative (PFI) is never a whole stock solution, and so authorities who have chosen PFI are also found in this table.

Local Government

Mr. Drew: To ask the Deputy Prime Minister what the 20 least populous lower tier local authorities in England are, measured by population per hectare; what the average annual earnings per capita in each of those local authorities was in the last year for which figures are available; what the Band D council tax is in 2004–05 in each of those authorities; and what percentage of average annual earnings Band D council tax represents in each authority. [220676]

Mr. Raynsford: The information requested is tabled as follows. The table includes the 24 least populous lower tier local authorities under the definition used in the question so as to include all authorities with an average at the lower level threshold of 0.8 people per hectare.

	Population per hectare[1]	*Mean gross annual earnings in 2004*[2]	*Average Band D area council tax for 2004–05*	*Average Band D area council tax for 2004–05 as a percentage of mean gross annual earnings in 2004*
Eden	0.2	16,507	1,227	7.4
Berwick-upon-Tweed	0.3	12,329	1,254	10.2
Tynedale	0.3	20,134	1,268	6.3
Alnwick	0.3	17,285	1,259	7.3

	Population per hectare[1]	Mean gross annual earnings in 2004[2]	Average Band D area council tax for 2004–05	Average Band D area council tax for 2004–05 as a percentage of mean gross annual earnings in 2004
Teesdale	0.3	21,891	1,242	5.7
Ryedale	0.3	17,919	1,215	6.8
Richmondshire	0.4	20,782	1,219	5.9
South Shropshire	0.4	17,517	1,264	7.2
West Devon	0.4	n/a	1,255	n/a
Craven	0.5	19,176	1,199	6.3
West Somerset	0.5	20,115	1,177	5.9
Torridge	0.6	16,964	1,203	7.1
Hambleton	0.6	22,716	1,128	5.0
South Lakeland	0.7	23,362	1,237	5.3
North Cornwall	0.7	16,887	1,144	6.8
Cotswold	0.7	23,166	1,206	5.2
West Lindsey	0.7	18,445	1,152	6.2
Allerdale	0.8	19,121	1,222	6.4
East Lindsey	0.8	18,213	1,085	6.0
Mid Devon	0.8	19,569	1,240	6.3
Kennet	0.8	23,277	1,171	5.0
Castle Morpeth	0.8	20,950	1,292	6.2
Herefordshire	0.8	17,371	1,178	6.8
North Devon	0.8	16,828	1,234	7.3

n/a = not available, because the earnings figure for West Devon is unreliable.
[1] Population figures are ONS mid-year estimates for 2003.
[2] Figures for all employee jobs where the person has been in post for at least a year, taken from the 2004 ONS Annual Survey of Hours and Earnings (including supplementary information). The figures are for residents of the area shown.

Local Government Finance

Mr. David Atkinson: To ask the Deputy Prime Minister if he will list those local authorities for whom the revenue budget settlement for 2005–06 has been based on 1991 Census data; and if he will make a statement. [218373]

Mr. Raynsford: The main indicators used in the Formula Spending Share formulae are the population estimates. The population estimates from mid-2001 onwards have been based on the 2001 Census. They are then adjusted for births, deaths and both internal and external migration. The population estimates used in the Local Government Finance Settlements from 2003–04 onwards have been based on the 2001 Census.

The formulae also use other socio-demographic indicators derived from the Census, for example population sparsity and population density. 1991 Census data is used for these other indicators in the 2005–06 Formula Spending Share formulae for Education, Personal Social Services, Police, Highway Maintenance and Environmental, Protective and Cultural Services. This Census data is not used in either the Fire or the Capital Financing Formula Spending Share formulae, and is therefore not used in the calculation of RSG for single service fire authorities only, i.e. LFEPA, metropolitan fire authorities and combined shire fire authorities.

I announced on 21 July 2004 that we would not be amending the other socio-demographic indicators to incorporate 2001 Census data in the 2005–06 settlement (21 July 2004, *Official Report*, column 30WS). This is because it would have been technically incorrect to have simply introduced the data without first amending the statistical models underlying the Formula Spending Share formulae. Changing the formulae in this way would have broken the formula freeze that we have introduced to provide funding stability for authorities. Further research is being undertaken on the formula changes needed to incorporate the 2001 Census data into the Formula Spending Share formulae.

The Office of the Deputy Prime Minister will be consulting local authorities during the summer of 2005 on the formulae for the 2006–07 settlement.

London Safety Plan

Mr. Dismore: To ask the Deputy Prime Minister how many responses to the public consultation that the London Fire and Civil Defence Authority has conducted on the Draft London Safety Plan *(a)* supported and *(b)* opposed the proposals; and if he will make a statement. [219787]

Mr. Raynsford: I understand the London Fire and Emergency Planning Authority's 12 week consultation on the Draft London Safety Plan ended on Monday 7 February 2005. Responses from stakeholders are currently being analysed and will be reported to the Authority meeting on 17 March 2005, at which time the Authority will consider the final Plan in the light of the views expressed.

Select Committee Report

Mr. Drew: To ask the Deputy Prime Minister if he will make a statement on progress with the implementation of the recommendations of the Ninth Report of session 2003–04 of the Committee on the Office of the Deputy Prime Minister: Housing, Planning, Local Government and the Regions; and if he will make a statement. [220691]

Mr. Raynsford: The Government's response to the Committee's recommendations was set out in Cm 6321, presented to the House on 11 October. Copies are available in the Library of the House. The response said that the Committee's report would be a valuable input

to the independent inquiry by Sir Michael Lyons into local government funding. The response also said that, in view of that inquiry, it would not be appropriate for the Government to take a final view on many of the Committee's conclusions and recommendations at that stage.

Targets

Mr. Bercow: To ask the Deputy Prime Minister (1) what recent progress has been made towards achieving the public service agreement target to promote better policy integration nationally, regionally and locally; [219179]

(2) what recent progress has been made towards achieving the public service agreement target to work with Departments to help them meet their public service agreement floor targets for neighbourhood renewal and social inclusion; [219180]

(3) what recent progress has been made towards achieving the public service agreement target to reduce the persistent gap in growth rates between the English regions over the long-term; [219183]

(4) what recent progress has been made towards achieving the public service agreement target to improve the delivery and value for money of local services by introducing comprehensive performance assessments and action plans; [219184]

(5) what recent progress has been made towards achieving the Public Service Agreement target to secure progressive improvements in local authorities' scores in performance assessments; [219185]

(6) whether the public service agreement target to secure overall annual improvements in the cost effectiveness of local services by 2 per cent. or more was met in 2004; [219186]

(7) what recent assessment he has made of whether the public service agreement target to assist local government in achieving 100 per cent. capability in electronic delivery of priority services in ways that customers will use will be met by 2005; [219187]

(8) what recent progress has been made towards achieving the public service agreement target to achieve a better balance between housing availability and the demand for housing in all English regions while protecting valuable countryside around our towns, cities and in the green belt and the sustainability of existing towns and cities; [219188]

(9) what recent assessment he has made of whether the public service agreement target for all local planning authorities to have completed local development frameworks by 2006 will be met; [219189]

(10) what recent assessment he has made of whether the public service agreement target for all local planning authorities to perform at or above best value targets for development control by 2006 will be met; [219190]

(11) what recent assessment he has made of whether the public service agreement target to bring all social housing into decent condition by 2010 will be met; [219191]

(12) what recent assessment he has made of whether the public service agreement target to increase the proportion of private housing in decent condition occupied by vulnerable groups by 2010 will be met; [219192]

(13) what recent progress has been made towards achieving the public service agreement target to deliver better services; [219193]

(14) what recent progress has been made towards achieving the public service agreement target to promote high-quality, customer-focused services; [219195]

(15) what recent assessment he has made of whether the public service agreement target to reduce the number of accidental fire-related deaths in the home by 20 per cent. by 2010 will be met; [219198]

(16) what recent assessment he has made of whether the public service agreement target to reduce the number of deliberate fires by 10 per cent. by 2010 will be met; [219199]

(17) what assessment he has made of his Department's success in meeting the public service agreement target to provide the opportunity by the end of this Parliament for a referendum on regional government in regions where there is a demand for it. [219233]

Yvette Cooper: Performance against all the Office of the Deputy Prime Minister's public service agreement (PSA) targets are reported in our departmental reports. Since 2002, performance has also been reported in our autumn performance reports. For these PSA targets, set during the 2002 spending review, the most recent assessment of progress was published in the autumn performance report 2004 (Cm 6421, published December 2004). The next assessment will be given in the Office of the Deputy Prime Minister's annual report for 2004–05, due to be published in spring 2005.

The SDA targets, revised in 2003, for accidental fire related deaths and deliberate fires were reported against in the Office of the Deputy Prime Minister's annual report 2004 and will next be reported against in the 2005 annual report. From April 2005, these SDA targets have been included in a new PSA target adopted under the 2004 spending review and will then be reported against in both the future autumn performance and annual reports.

Mr. Bercow: To ask the Deputy Prime Minister (1) what recent progress has been made towards achieving the public service agreement target to narrow the gap in health, education, crime, worklessness, housing and liveability outcomes between the most deprived areas and the rest of England by 2010; [219181]

(2) what recent progress has been made towards achieving the public service agreement target to make sustainable improvements in the economic performance of all English regions by 2008; [219182]

(3) what recent assessment he has made of whether the public service agreement target to improve the effectiveness and efficiency of local government in leading and delivering services to all communities by 2008, will be met; [219200]

(4) what recent assessment has been made towards achieving the public service agreement target to ensure that the planning system delivers sustainable development outcomes at national, regional and local levels; [219201]

(5) what recent progress has been made towards achieving the public service agreement target to lead the delivery of cleaner, safer and greener public spaces. [219202]

Yvette Cooper: These public service agreement (PSA) targets, set during the 2004 spending review do not become live until April 2005. The Office of the Deputy Prime Minister shall report progress against these targets in our autumn performance report for 2005, and then in subsequent annual and autumn performance reports.

Work began last year preparing for the Office of the Deputy Prime Minister's new and revised PSA targets and technical notes, setting out how we were to measure progress against these targets. These have been published on the Office of the Deputy Prime Minister's website at: (http://www.odpm.gov.uk/stellent/groups/odpm_about/documents/divisionhomepage/031997.hcsp).

The Office of the Deputy Prime Minister has also recently published its five-year plans, Sustainable Communities: People Places and Prosperity (Cm 6425) and Sustainable Communities: Homes for All (Cm 6424), which set out how we will be tackling major challenges over the next five years.

Mr. Bercow: To ask the Deputy Prime Minister (1) what recent progress has been made towards achieving the Public Service Agreement target to devolve decision making to the most effective level; [219194]

(2) what recent progress has been made towards achieving the Public Service Agreement target to clarify the roles and functions of local government and its relationship with central Government. [219197]

Mr. Raynsford: These are both elements of the Office of the Deputy Prime Minister's Strategic Priority 4 which is underpinned by PSA targets 1 and 4. The case for greater devolution both to and through councils is being taken forward in the work that we are undertaking on the development of a 10-year vision for local government, which picks up the recommendations of the report produced last year by HM Treasury and the Prime Minister's Delivery Unit on devolving decision making. We have published a number of discussion papers, including proposals for piloting local area agreements, and we intend to publish a further document on the development of a new performance framework shortly.

Water Mills

Ms Walley: To ask the Deputy Prime Minister in what circumstances planning permission may be given for water mills to provide renewable energy where they are located in green belt areas. [220544]

Keith Hill: "Planning Policy Guidance note 2: Green Belts" (PPG2) sets out the Government's policies on development in the green belt. Most forms of development are regarded as inappropriate development in the green belt (and by definition harmful). It would be for an applicant to show that very special circumstances existed which clearly outweighed the harm that inappropriate development would cause. PPG2 sets out the forms of development that would be not inappropriate in the green belt. Water mills are not among these.

"Planning Policy Statement 22: Renewable Energy" advises that very special circumstances which might outweigh the harm caused by inappropriate development in the green belt could (and it will depend on the facts of the case) include the wider environmental benefits associated with increased production of energy from renewable sources.

NORTHERN IRELAND

Housing

Mr. McNamara: To ask the Secretary of State for Northern Ireland what progress has been made with investigations established to examine the actions of the Accounting Officer of the Housing Executive in relation to the absence of proper contract procedures. [219518]

Mr. Spellar: There have not been any investigations, nor are any planned, in relation to the absence of proper contract procedures within the Northern Ireland Housing Executive.

The House of Commons Committee of Public Accounts Report "Housing the Homeless" (Twenty first Report of Session 2003/04) referred to a specific contract concerning the removal and storage of furniture for the homeless households. The Housing Executive fully acknowledged the shortcomings in the procurement of the particular contract and has fundamentally changed its contract policy and procedures to reflect Government's Constructing Excellence programme.

Invest Northern Ireland

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the total investment by Invest Northern Ireland in each Northern Ireland parliamentary constituency was in each of the last five years. [219817]

Mr. Gardiner: The following table provides information relating to offers made to clients by parliamentary constituency area during the five years up to end March 2004. Included is the total amount of planned investment to which these offers contributed. Invest NI's information is provided for the years 2002–03 and 2003–04. Information prior to 2002–03 is based on funding provided by two of Invest NI's legacy agencies—the Industrial Development Board and the Local Enterprise Development Unit.

Parliamentary constituency	1999–2000 Number of offers	1999–2000 Assistance (£)	1999–2000 Investment[1] (£)	2000–01 Number of offers	2000–01 Assistance (£)	2000–01 Investment[1] (£)
Belfast East	97	15,849,537	91,916,715	49	1,607,142	5,587,276
Belfast North	111	4,372,363	13,098,466	47	11,735,957	25,691,738

[1] Investment totals include assistance offered.
[2] 'Yet to be determined' relates to offers made to businesses which have not as yet determined a precise location.

Note:
An additional £21,211,335 was offered in 2002–03 that could not be allocated by area.
Figures for 2003–04 remain provisional until the publication of the Invest NI Annual Report 2003–04.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the total Northern Ireland Tourist Board investment in each Northern Ireland parliamentary constituency was in each of the last five years. [219818]

Mr. Gardiner: Information requested in relation to funding provided by Northern Ireland Tourist Board (NITB) is provided in the following table:

£

Constituency	2000	2001	2002	2003	2004	Total
Across all constituencies and cross-border[1]	76,143	54,740	34,842	101,934	101,558	369,216

[1] This relates to projects which bridges more than one parliamentary constituency.

An additional £8,621,404 was provided during the period 2000–04 but could not be allocated by parliamentary constituency.

Financial assistance to accommodation projects was funded by the NITB up until March 2002. Since April 2002 this assistance has been administered through Invest NI.

Neighbourhood Renewal Programme

Lady Hermon: To ask the Secretary of State for Northern Ireland how many *(a)* applications and *(b)* expressions of interest have been received by the Belfast Regeneration Office in relation to the Neighbourhood Renewal Programme; how many of these applications or expressions of interest have been received from (i) North Belfast, (ii) South Belfast, (iii) East Belfast and (iv) West Belfast; which groups have applied for funding; how much funding has been applied for in each case; and what the total budget available for each is. [212328]

Mr. Spellar: The following table gives details of the number of applications/expressions of interest, received by Belfast Regeneration Office, made under Neighbourhood Renewal Phase I & II. A more detailed table giving details of each individual group who has applied, in each of the areas, has been placed in the Library. It should also be noted that the total budget available for each of the constituencies is still under consideration.

Area	Number of Applications received under Phase I of NR	Total amount applied (£)	Number of Applications/ Expressions of Interest received under Phase II of NR	Total amount applied (£)
North	6	81,066.26	69	10,228,292.05
South	2	29,340.17	27	6,324,318.08
East	10	208,148.55	39	4,872,585.25
West	24	756,372.02	168	19,210,113.39

SOLICITOR-GENERAL

Iraq

Richard Ottaway: To ask the Solicitor-General whether she has read the legal opinion on the case for war in Iraq. [219698]

The Solicitor-General: As the Prime Minister explained in a written reply on 9 March 2004, *Official Report*, column 1433W to my hon. Friend the Member for Blaenau Gwent (Llew Smith) it is established practice not to disclose details of the circulation of papers to Ministers.

Mr. Tyrie: To ask the Solicitor-General whether the Attorney-General provided written advice that the invasion of Iraq could be illegal. [219754]

The Solicitor-General: The advice given by the Attorney-General on the legality of the use of force against Iraq is described in paragraphs 378–386 of the Report of the Butler Review of Intelligence on Weapons of Mass Destruction. The Attorney-General set out his view that the use of force would be lawful in a written answer in Parliament on 17 March 2003.

HEALTH

Agency Nurses (Sussex)

Mr. Soames: To ask the Secretary of State for Health how much money the Brighton and Sussex University Hospitals NHS Trust paid for agency nurses in each year since 2002. [219055]

Ms Rosie Winterton: The Department does not collect separate expenditure information on agency nurses.

The table shows expenditure by the Brighton and Sussex University hospitals national health service trust on non-NHS nursing, midwifery and health visiting staff for 2002–03 and 2003–04 (the latest year for which data is available).

	Expenditure (£)
2002–03	8,086,450
2003–04	6,236,799

Source:

Annual financial returns of the Brighton and Sussex University hospitals NHS trust.

Ambulance Service

Chris Grayling: To ask the Secretary of State for Health what assessment he has made of the proposed restructuring of its ambulance service by Westcountry Ambulance Trust. [219412]

Ms Rosie Winterton: I am aware that the Westcountry Ambulance Service National Health Service Trust is currently considering ways to improve and modernise the service it provides. The Department has not made any assessment of the proposed restructuring. In line with our policy of Shifting the Balance of Power, the responsibility for the provision of ambulance services rests with local ambulance trusts and it is for local trusts to ensure that these services meet the needs of their local communities.

Cancer

Mr. Baron: To ask the Secretary of State for Health pursuant to his statement of 30 November 2004, *Official Report*, column 528, on the fall in the premature death rate from cancer since 1997, if he will list the figures from which this statement was derived for each year since 1985. [216332]

Miss Melanie Johnson *[holding answer 21 February 2005]:* Cancer mortality rates in England for people aged under 75 are shown in the table. The figures are averaged over three-year periods and indicate the number of deaths from cancer each year for every 100,000 of the population aged under 75.

The 12.2 per cent. reduction in cancer mortality rates was arrived at by calculating the difference between the 1995–97 baseline figure and the latest available figures (2001–03). This figure is then divided into the baseline figure, thus showing the percentage reduction.

Data period	*Three-year average data*
1984–86	160.95
1985–87	159.42
1986–88	158.85
1987–89	158.37
1988–90	157.29
1989–91	155.53
1990–92	153.78
1991–93	151.32
1992–94	148.35
1993–95	146.80
1994–96	144.36
1995–97	141.24
1996–98	138.51
1997–99	134.97
1998–2000	132.12
1999–2001	128.83
2000–02	126.55
2001–03	124.06

Note:
Data from 1993 onwards are not directly comparable with data from 1992 and earlier years due to changes in coding.
Source:
Office for National Statistics mortality data.

Dr. Gibson: To ask the Secretary of State for Health what policies his Department has in place for supporting employees with cancer. [218585]

Ms Rosie Winterton: All employees of the Department who are ill, including any staff with cancer, are supported through the Department's occupational health and rehabilitation policies. These policies can include counselling, re-arranging work, introducing flexible or home working or transfer to a different post.

Cardiac Care (Essex)

Mr. Rosindell: To ask the Secretary of State for Health how many trained medical *(a)* doctors and *(b)* nurses specialising in cardiac care there are in Romford and Havering hospitals. [219364]

Dr. Ladyman: Data is collectively held on medical staff within the cardiology speciality at Barking, Havering and Redbridge hospitals national health service trust, which operates in Romford and Havering. This data is shown in the table.

Hospital, public health medicine and community health services (HCHS):medical staff within the cardiology specialty in Barking, Havering and Redbridge hospitals NHS trust

As at 30 September 2003	*Numbers (headcount)*
Barking, Havering and Redbridge RF4 Hospitals NHS trust	5

Source:
Department of Health medical and dental workforce census.

Children's Hospices

Jeff Ennis: To ask the Secretary of State for Health (1) how much NHS funding has been allocated to children's hospices in each year since 1997; and what estimate he has made of the proportion of the total children's hospice funding that represented in each year; [219661]

(2) many children's hospices there are in England; and how many of them receive *(a)* funding and *(b)* the majority of their funding through the NHS; [219662]

(3) how many children's hospices receive less than 10 per cent. of their core funding from the NHS. [219663]

Dr. Ladyman: There are currently 35 children's hospices registered with the Healthcare Commission in England. The Department does not collect information on hospice funding. I supplied my hon. Friend with the most up-to-date estimate we have of the proportion of total children's hospice funding that came from the national health service in my reply to him of 16 September 2004, *Official Report*, column 1760W.

Children's hospice services are funded from a number of sources, including services commissioned by primary care trusts on the basis of their assessment of children's needs and their priorities. There is no upper limit to the amount of funding which the NHS can provide.

In our ongoing dialogue with representatives of children's hospices, the Department continues to encourage them to engage actively with local NHS bodies over the contribution that hospices can make to the overall pattern of palliative care they commission for children and young people in their localities.

Cleaning Costs

Mr. George Osborne: To ask the Secretary of State for Health what the costs of cleaning the Department were in each year since 1997. [213783]

Ms Rosie Winterton: The cost of the Department's cleaning contract in each year from 1997 is shown in the table.

	Cost £
1997–98	941,243.60
1998–99	751,185.20
1999–2000	871,286.10
2000–01	924,290.60
2001–02	873,940.70
2002–03	923,718.00
2003–04	883,721.70
2004–05	734,586.10

Complementary and Alternative Health Care

Charles Hendry: To ask the Secretary of State for Health what his policy is on general practitioners prescribing complementary and alternative medicine and treatments. [220268]

Miss Melanie Johnson *[holding answer 4 March 2005]:* National health service access to complementary and alternative medicine is a matter for local clinical judgement, based on the available evidence. It is, therefore, a matter for the general practitioner to decide if a specific treatment should be made available to a patient.

Dentistry

Sir Paul Beresford: To ask the Secretary of State for Health how many pieces of guidance his Department has issued to primary care trusts (PCTs) in the last year regarding targets that need to be met for signing up dentists to the personal dental services contract; what action he will take against those PCTs who fail to meet the 25 per cent. target; and what discussions his Department has had with PCT chief executives about this target. [218297]

Ms Rosie Winterton *[holding answer 25 February 2005]:* By this April, we anticipate that, across England as a whole, 25 per cent. of dental practices will have moved to the personal dental service (PDS). We have not set any targets for primary care trusts, but have been very encouraged by the numbers of dentists who, at their own volition, have sought to move to the PDS scheme in order to gain advanced benefit of the new contractual arrangements which we are to introduce to national health service dentistry by April 2006.

Sir Paul Beresford: To ask the Secretary of State for Health what research his Department has conducted into *(a)* the NHS-private mix and *(b)* the age of dentists moving over to the personal dental service contract. [218308]

Ms Rosie Winterton *[holding answer 25 February 2005]:* Data are not collected on the split between national health service and private patients.

The number and age ranges of dentists with open personal dental service (PDS) contracts as at 31 December 2004 is shown in the table.

Personal dental service (PDS) by age as at 31 December 2004

Age	*Dentists*
<25	53
25–29	537
30–34	566
35–39	560
40–44	570
45–49	523
50–54	388
55–59	212
60+	139
All PDS dentists	3,548

Mr. Drew: To ask the Secretary of State for Health how many dental practices are accepting new *(a)* children, *(b)* pensioner and *(c)* adult NHS patients, broken down by primary care trust. [217164]

Ms Rosie Winterton: Summary figures for dental practice in England, which were extracted from the nhs.uk website on 10 February 2005, are shown in the table. Figures at primary care trust level have been placed in the Library. Information is not available for practices accepting pensioners, but most adults exempt from charges are exempt on the grounds of low income.

Groupings	*Total*
Registering children aged 0–18 for national health service treatment	3,699
Registering charge-exempt adults for NHS treatment	2,758
Registering charge-paying adults for NHS treatment	2,412

Some practices are registering more than one category of patient.

Departmental Policies

Mr. Jim Cunningham: To ask the Secretary of State for Health if he will set out, with statistical evidence relating as closely as possible to Coventry, South constituency, the effects on the constituency of changes to his Department's policies since 1997. [219822]

Dr. Ladyman: The Government have put in place a programme of national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded considerable benefits for the Coventry, South constituency. For example:

At the end of December 2004, the number of people waiting more than nine months for inpatient treatment within the Coventry primary care trust (PCT) has fallen to 0, from 437 in June 2002.

At the end of December 2004, the number of patients waiting over 13 weeks for outpatient treatment within Coventry PCT has fallen to 134, from 3,441 in June 2002.

In June 2003, at University Hospitals Coventry and Warwickshire NHS Trust, 86.3 per cent. of patients spent less than four hours in Accident and Emergency from arrival to admission, transfer or discharge. Figures for September 2004 show an improvement to 97.4 per cent.

Between September 1997 and June 2004, the number of consultants at University Hospitals Coventry and Warwickshire NHS Trust has increased from 126 to 228. Between September 1997 and September 2003 the number of nurses has increased from 1,538 to 2,087.

Between September 2001 and June 2004, the number of general medical practitioners within Coventry PCT has increased from 185 to 198.

Figures for December 2004 show that all patients within Coventry PCT are able to be offered an appointment with a general practitioner within two working days and a primary care professional within one working day.

Work has started on a £379 million private finance initiative scheme at Walsgrave Hospital. Some parts of the new hospital are open already. The scheme is due to be completed in 2006.

A £40 million Local Improvement Finance Trust project, including a number of primary care centres across Coventry, has been approved. There is also a new walk-in centre in Coventry.

Geraint Davies: To ask the Secretary of State for Health if he will set out, with statistical evidence relating as closely as possible to the Croydon, Central constituency, the effects of changes to departmental policy since 1997 on the Croydon Central constituency. [219296]

Dr. Ladyman: The Government have put in place a programme for national health service investment and reform since 1997 to improve service delivery in all parts of the United Kingdom. There is significant evidence that these policies have yielded benefits for the Croydon, Central constituency. For example:

At the end of December 2004, the number of people waiting more than nine months for In-patient treatment within Croydon Primary Care Trust (PCT) fell to one, from 733 in June 2002.

At the end of September 2004, the number of patients, waiting over 13 weeks for out-patient treatment within Croydon PCT has fallen to 566, from 1,420 in June 2002.

Figures for June 2002 show that 67.5 per cent. of patients within Croydon PCT are able to be offered an appointment with a primary care professional within two working days, in December 2004 the figure was 100 per cent.

In June 2003, at Mayday Healthcare NHS Trust 82.8 per cent. of patients spent less than four hours in accident and emergency from arrival to admission, transfer, or discharge. Figures for September 2004 show an improvement to 94.7 per cent.

In the Croydon local authority area, death rates from cancer per 100,000 population have fallen to 164.6 in 2003, from 196.5 in 1997.

In the Croydon local authority area, death rates from coronary heart disease per 100,000 population have fallen to 104.5 in 2003, from 120.5 in 1997.

Between September 1997 and June 2004, the number of consultants at Mayday Healthcare NHS Trust has increased from 79 to 110.

In September 2001, figures show 180 general practitioners within Croydon PCT. Figures for June 2004 show an increase to 225.

In September 2002, figures show 153 dentists within Croydon PCT. Figures for September 2004 show an increase to 161.

For 2004–05, Croydon PCT received an allocation of £324 million an increase in cash terms of 9.8 per cent.

At Mayday Hospital the £22 million Jubilee Ward opened in December 2004. It houses 306 new beds and a day care facility with four full size operating theatres and 18 recovery beds.

Digital Hearing Aids (Gloucester)

Mr. Dhanda: To ask the Secretary of State for Health what funding has been allocated to help improve the delivery time for digital hearing aids in Gloucester. [218670]

Ms Rosie Winterton: In 2004–05, Gloucester Hospitals National Health Service Foundation Trust has received £472,000 through the modernising hearing aid services programme to sustain its modernised hearing aid service, and to implement capacity initiatives such as public private partnership schemes.

This funding is in addition to the historical audiology funding which is locally determined.

Disabled Facilities Grant

Mr. McNamara: To ask the Secretary of State for Health (1) what input he has had to the review of the disabled facilities grant; [218840]

(2) what assessment he has made of the health benefits of accessible housing for *(a)* children with disabilities, *(b)* adults with disabilities and *(c)* family carers of disabled people; [218841]

(3) what financial allocation his Department makes to vital housing adaptations for disabled adults and children; and how much has been allocated in the past three years. [218842]

Dr. Ladyman: The Department of Health is working with the Office of the Deputy Prime Minister (ODPM) and the Department for Education and Skills as one of the three Government Departments undertaking the review of the disabled facilities grant. The ODPM is the lead Department in the review.

The Department of Health has not made any specific assessment of the benefits of accessible housing. However, we have commissioned a piece of work on the outcomes and costs of community based care for people with learning disability and mental health problems, which includes accommodation issues.

The Department of Health makes no direct financial allocations for housing adaptations. Primary care trusts and social service departments make funding decisions regarding minor adaptations to peoples' homes and equipment services. Since 9 June 2003, all community equipment loaned or given to people is free of charge, as are adaptations costing under £1,000 (minor adaptations) provided by councils. This change was brought about by regulations associated with the Community Care (Delayed Discharges) Act 2003.

Housing authorities are allocated funding by the ODPM for disabled facilities grants in order to fund adaptations to individuals' houses.

Distalgesic and Co-proxamol Prescriptions

Dr. Pugh: To ask the Secretary of State for Health (1) what advice is given to general practitioners who are unwilling or discouraged from re-issuing prescriptions for distalgesic and Co-proxamol; [218451]

(2) what advice his Department gives with regard to the prescription of distalgesic and Co-proxamol. [218452]

Ms Rosie Winterton: The Committee on Safety of Medicines (CSM) having considered all the available evidence, including the results of a public request for information, has advised that co-proxamol should be withdrawn from the market on the grounds that the benefits of co-proxamol are not considered to outweigh the risks. The Licensing Authority has accepted this advice and a public announcement on the decision to withdraw co-proxamol was made on Monday 31 January. The Marketing Authorisation holders have agreed to withdraw co-proxamol over an extended period of time in order to allow long term users an opportunity to adopt suitable alternative pain management strategies.

There are a number of alternatives to co-proxamol for managing pain and the CSM has issued advice on pain management options to assist prescribers together with their individual patients, in choosing appropriate pain management strategies. This guidance also refers to a number of sources of additional advice including the British National Formulary, which is sent to all doctors and pharmacists.

The CSM's overview of alternative analgesic options was communicated though the Chief Medical Officer's public health link to all health care professionals, accompanying the communication on the withdrawal of co-proxamol and is available on the Medicines and Healthcare products Regulatory Agency's website (www.mhra.gov.uk). Copies have been placed in the Library.

East Elmbridge and Mid Surrey PCT

Chris Grayling: To ask the Secretary of State for Health how many non-clinical staff are employed by the East Elmbridge and Mid Surrey Primary Care Trust. [219403]

Ms Rosie Winterton: The most recent figures for the number of non-clinical staff employed by the East Elmbridge and Mid Surrey Primary Care Trust (PCT) is shown in the table.

National health service hospital and community health services: All specified medical and non-medical staff by main staff group in East Elmbridge and Mid-Surrey PCT as at 30 September 2003

	Headcount
5KP total	1,593
Professionally qualified clinical staff total	743
All general medical practitioners[1]	188
Qualified nursing, midwifery and health visiting staff	388
Of which:	
Practice nurses	73
Qualified scientific, therapeutic and technical (STT)staff	167
Of which:	
Qualified allied health professionals (AHPs)	121
Other qualified STT staff	46
Support to clinical staff total	291
Support to doctors and nurses	220
Support to STT staff	71
Of which:	
Support to AHPs	28
Support to other STT staff	43
NHS infrastructure support total	505
Practice staff (excluding practice nurses[2])	414
Central functions	21
Managers and senior managers	70
Other staff or those with unknown classification	54

[1] All practitioners include GMS unrestricted principals, PMS contracted general practitioners, PMS salaried GPs, restricted principals, assistants, GP registrars, salaried doctors (Para 52 SFA), PMS other, GP retainers, flexible career scheme GPs and GP returners.

[2] Practice staff (excluding practice nurses) includes direct patient care, administrative and clerical and other.

Department of Health non-medical workforce census.

Department of Health general (QMS) and personal (PMS) medical services statistics.

Chris Grayling: To ask the Secretary of State for Health what proportion of the total budget of the East Elmbridge and Mid Surrey Primary Care Trust was spent on administration in each of the last three years. [219405]

Ms Rosie Winterton: The percentage of total operating expenditure spent on administration by the East Elmbridge and Mid Surrey Primary Care Trust (PCT) is shown in the table. The PCT was established on 1 April 2002. Therefore, figures are only available for two years.

	Percentage
2002–03	2.8
2003–04	1.7

Source:

Audited summarisation schedules of the East Elmbridge and Mid Surrey PCT: 2002–03 and 2003–04.

Chris Grayling: To ask the Secretary of State for Health how much the East Elmbridge and Mid Surrey Primary Care Trust owes to the NHS Bank. [219406]

Ms Rosie Winterton: To assist in financial recovery, Surrey and Sussex strategic health authority (SHA) has received £90 million from the NHS Bank over the past three years. The SHA advises that East Elmbridge and Mid Surrey Primary Care Trust has not received any of the £90 million.

Epilepsy

Helen Jones: To ask the Secretary of State for Health how many specialist epilepsy nurses have been working in the NHS in each of the last five years for which figures are available. [219739]

Mr. Hutton *[holding answer 3 March 2005]:* The information requested is not collected centrally.

FSA Eat Well Campaign

Mr. Burstow: To ask the Secretary of State for Health how much was spent on the Food Standards Agency Eat Well campaign; and how much of this money was spent on each aspect of expenditure on the campaign. [218171]

Miss Melanie Johnson: I have been advised by the Food Standards Agency (FSA) that a total of £64,999 has been spent on the FSA's campaign to promote the "eatwell" website (February 2005), www.eatwell.gov.uk, to a total targeted audience of 2.5 million people. This total splits as follows:

Design work and print: £23,646

Inserts in four targeted women's magazines (Woman, Woman's Own, Now and Hello whose readers demonstrate medium/high internet usage): £40,531

Mailings to health promotion units, dieticians and nutritionists and colleges: £822.

GP Service (Southend)

Mr. Amess: To ask the Secretary of State for Health how many people have registered with general practitioners in Southend in each year since 1997. [219431]

Dr. Ladyman: The Department does not collect information on the numbers of people newly registered with general practitioners. Information is collected only on the total number of patients registered. This is shown in the table.

Patients of unrestricted principals and equivalents (UPEs)[1] for specified organisations: 1997–2003

numbers (headcount)

		of which:	
	Essex	*Southend-on-Sea Primary Care Trust*	*Southend-on-Sea Primary Care Group*
	Q03	5AK	4KH89
1997	1,603,543	n/a	n/a
1998	1,618,117	n/a	n/a
1999	1,640,784	n/a	173,529
2000	1,648,879	n/a	174,881
2001	1,641,100	174,263	n/a
2002	1,646,695	173,457	n/a
2003	1,690,519	177,522	n/a

[1] UPEs include general medical service (QMS) unrestricted principals, personal medical service (PMS) contracted GPs and PMS salaried GPs.

Note:

2003 Patient data has been revised from previously published figures.

Data as at 1 October 1997–99 and 30 September 2000–03.

n/a = not applicable.

Meat Imports

David Taylor: To ask the Secretary of State for Health (1) what procedures the Food Standards Agency has in place to ensure that meat imported into the UK from EU countries is fit for human consumption; [219004]

(2) what representations the Food Standards Agency has received in the last three years concerning imports from or via the EU, with particular reference to the standards of hygiene and inspection in operation in abattoirs. [219005]

Miss Melanie Johnson: European Union (EU) Hygiene Directives regulate intra-community trade in meat and meat products and these apply uniformly across the EU. Directive 89/662 places the onus on the originating member state to ensure that meat for intra-community trade is compliant with EU legislation and fit for human consumption. The receiving member state may only carry out non-discriminatory spot checks. To that end, meat received into the United Kingdom from other member states is subject to the same inspection requirements as domestically produced meat, although there are additional checks in licensed meat plants for the presence of specified risk material in imported beef and sheep meat.

The Food Standards Agency has received a number of representations seeking reassurance that meat sent to the UK from other member states and from third countries complies with legislative and food safety requirements.

Mr. Alan Milburn

Dr. Julian Lewis: To ask the Secretary of State for Health what inquiries he has made into payments made to the right hon. Member for Darlington by companies involved in major commercial deals with the NHS; and if he will make a statement. [220234]

Mr. Hutton *[holding answer 4 March 2005]:* None. Any arrangements between my right hon. Friend and commercial companies are subject to the ministerial code and to the requirement on all hon. Members to make appropriate declarations in the Register of Members' Interests.

Mr. W. A. Wood

Mr. John Taylor: To ask the Secretary of State for Health if he will make a statement on the position of Mr. W. A. Wood of Solihull on the waiting list for hearing appliances with Birmingham Heartlands and Solihull Hospital Hearing Department. [218374]

Dr. Ladyman: Birmingham Heartlands and Solihull National Health Service Trust has advised Mr. Wood of his appointment.

NICE Appraisal

Mr. Havard: To ask the Secretary of State for Health what guidance has been issued on the use by NHS trusts of treatments within a class of treatments during the period of the appraisal of that class of treatments by the National Institute for Clinical Excellence; and what steps are taken to ensure that guidance is followed. [219014]

Ms Rosie Winterton: Health Service Circular 1999/176, issued in August 1999, indicates that national health service bodies should continue with local arrangements for the managed introduction of new technologies where guidance from the National Institute for Clinical Excellence (NICE) is not available at the time the technology first becomes available. These arrangements should involve an assessment of the available evidence on clinical effectiveness.

Following the Department's "Shifting the Balance of Power" initiative, responsibility for local health services lies with the local NHS. It is now for primary care trusts, in partnership with strategic health authorities and other local stakeholders, to plan, develop and improve services for local people in accordance with national standards that include following NICE guidance.

Paddington Health Campus

Mr. Page: To ask the Secretary of State for Health what steps have been taken to address the shortcomings in the management of the Paddington Health Campus Project identified in the National Audit Office, Treasury and Department of Health Review of September 2004. [220327]

Mr. Hutton *[holding answer 4 March 2005]:* Since the publication of the review, revised project management governance structures have been set up to strengthen the management and oversight of the project team, and ensure there is proper accountability to the strategic health authority and the Department. The governance of the project, and the strength and skill set of the project team is kept under constant review.

Mr. Page: To ask the Secretary of State for Health for what reasons the land arrangement set out in the December 2004 outline business case for the Paddington Health Campus was rejected by his Department. [220328]

Mr. Hutton *[holding answer 4 March 2005]:* The Department did not reject the land proposal set out in the December 2004 outline business case (OBC). As part of the process of testing the robustness of the OBC, the Department questioned the overall value for money of the land transaction. This challenge resulted in a counter proposal being put forward, which involved Westminster city council undertaking land swaps with the private sector property developer, Paddington Development Corporation Ltd. This counter offer is currently being evaluated by the Paddington Health Campus project team. The result of this evaluation is scheduled to be with the Department by the middle of March.

Mr. Page: To ask the Secretary of State for Health whether it remains the intention that the Paddington Health Campus will have 1,088 in-patient NHS beds. [220329]

Mr. Hutton *[holding answer 4 March 2005]:* The outline business case for the Paddington Health Campus submitted to the Department in December 2004 included provision for 923 in-patient beds. This is made up of 835 national health service in-patient beds and 88 private beds. This figure compares with an earlier estimate of 1,088 in-patient beds made in 2003. In the intervening time, the Paddington Health Campus has been subjected to a major review of the clinical needs. This review had a major focus on activity that could be redistributed into the community in line with recent NHS policy. It is a reflection on the success of that review, and the commitment of local primary care trusts to take on the activity, that bed numbers have reduced.

Mr. Page: To ask the Secretary of State for Health what assessment he has made of the accuracy of the outturn costs of the Paddington Health Campus Project set out in the outline business case of December 2004. [220330]

Mr. Hutton *[holding answer 4 March 2005]:* The outline business case for the Paddington Health Campus project is currently being evaluated by the Department. This evaluation includes a robust testing of the accuracy and affordability of the costings underpinning the business case.

Prostate Cancer Treatment

Keith Vaz: To ask the Secretary of State for Health what plans he has to increase expenditure on treatment of prostate cancer. [219334]

Miss Melanie Johnson: Funding for cancer services is included in primary care trust (PCT) baselines. It is for PCTs, in partnership with strategic health authorities and other local stakeholders, to determine how best to use their funds to meet national and local priorities. Their decisions need to be based on the specialised knowledge they have of the local community, this includes the need for treatment of prostate cancer in their area. 80 per cent., of funding is devolved to PCT level.

There are a number of initiatives under way to improve treatment of prostate cancers as set out in "Making Progress on Prostate Cancer", published in November 2004. PCTs will need to take any funding implications of these initiatives into account. Copies of "Making Progress on Prostate Cancer" are available in the Library.

Keith Vaz: To ask the Secretary of State for Health how long the waiting time is for treatment for prostate cancer at the Leicester General Hospital; and what the equivalent time was in 2004. [219333]

Dr. Ladyman: The information requested is not available in the format requested. Data is not available centrally on waiting times for all cancer patients. A two week out-patient waiting time standard from urgent general practitioner referral with suspected cancer to first out-patient appointment with a specialist was introduced in 2000.

At the University Hospitals of Leicester national health service trust in the last quarter, quarter 2 of 2004–05, 100 per cent. of urgent referrals for suspected urological cancers, including prostate cancer, were seen within two weeks of urgent referral by their GP. The same performance was achieved for quarter 2 of 2003–04.

The NHS cancer plan sets out our strategy to reduce waiting times for cancer patients. From 2005, all cancer patients will wait a maximum of one month from diagnosis to treatment and two months from urgent referral for suspected cancer to treatment except for a good clinical reason or through patient choice. Data on achievement of NHS cancer plan waiting times targets are published for strategic health authorities and trusts on the Department's website at http://www.performance.doh.gov.uk/cancerwaits/.

Publicity

Mr. Laws: To ask the Secretary of State for Health what the total expenditure by his Department on *(a)* advertising and *(b)* advertising and publicity was in (i) 1996–97, (ii) 1997–98 and (iii) 2003–04; and what the estimated cost of each will be in (A) 2004–05, (B) 2005–06, (C) 2006–07 and (D) 2007–08. [211688]

Ms Rosie Winterton: The table shows the expenditure on major information campaigns and advertising commissioned by the Department's communications directorate for the financial years 1995–96 to 2004–05 (estimated). The figures include the costs of campaign-related publishing, television, radio, poster, newspaper and magazine advertising.

There have been a number of new campaigns since 1999–2000. These include:

Tobacco control—1999–2000

Flu immunisation—2000–01

Social care/worker recruitment—2001–02

Sexual health—2002–03 to date.

The tobacco control campaign was launched in December 1999. Expenditure has increased from £15.5 million (total campaign) in 1999–2000 to £27.5 million (estimated) in 2004–05 as shown in the table.

£ million

Financial year	*Total campaign expenditure (all campaigns)*	*Tobacco control campaign*	*Advertising expenditure (all campaigns)*	*Tobacco control campaign*
1996–97	15.13	—	2.50	—
1997–98	6.63	—	2.04	—
1998–99	22.96	—	8.53	—
1999–2000	35.97	15.5	15.17	6.18
2000–01	25.32	13.73	20.80	8.97
2001–02	37.23	12.3	20.41	7.79
2002–03	34.85	11.56	23.13	7.87
2003–04	52.35	23.83	38.98	17.76
2004–05 (estimated)	49.40	27.5	37.48	25.00

Future expenditure has not been decided yet.

Treatment Abroad (NHS Funding)

Tom Cox: To ask the Secretary of State for Health how many patients living in the London borough of Wandsworth have had operations or other medical treatments funded by the NHS in European countries in each of the last three years. [218202]

Dr. Ladyman: Under the London patient choice overseas treatment direct referral scheme, no such patients have been referred by the national health service for treatment overseas in the last three years. Treatments in other countries of the European Economic Area for United Kingdom residents may also be publicly funded through the co-ordination arrangements in Regulation (EEC) 1408/71 eg via the E111 scheme for temporary visitors and the E112 referral arrangements. Data on these patients' UK area of residence are not separately recorded centrally.

Waiting Times (Mental Illness)

Chris McCafferty: To ask the Secretary of State for Health what the median waiting time is for a patient with a mental health illness to receive an initial out-patient appointment with a consultant, following referral by a general practitioner. [218759]

Ms Rosie Winterton: Information on the median waiting times for an outpatient appointment with a mental illness consultant is shown in the table.

Out-patient provider and commissioner waits for mental health specialities—June 2004 to December 2004: provider only

	Waited (seen)				
	Quarter	*Month*		*Middle of list*	*Median (weeks)*
2004–05	1	June	Provider	14,972	2.95
2004–05	2	September	Provider	14,441	2.87
2004–05	3	December	Provider	14,736	2.71
2004–05	1	June	Commissioner	9,476	2.88
2004–05	2	September	Commissioner	9,591	2.75

Aggregated specialties:
710—Mental illness
711—Child and adolescent psychiatry
712—Forensic psychiatry
713—Psychotherapy
715—Old age psychiatry

Waiting Times (Rochdale)

Mrs. Fitzsimons: To ask the Secretary of State for Health what the average waiting time for surgery for patients in Rochdale was in *(a)* 1997 and *(b)* 2004. [217370]

Miss Melanie Johnson: The information requested is shown in the table.

Inpatient waiting list and time bands figures for the following trusts: fourth quarter ending March of each year

Month end	*Unit name*	*Estimated median waiting time (months)*
1997	Oldham NHS trust	4.30
1997	Rochdale Healthcare NHS Trust	4.08
1997	North Manchester Healthcare NHS Trust	4.08
1997	Bury Healthcare NHS Trust	3.25
2004	Pennine Acute Hospitals NHS Trust	2.78
December 2004[1]	Pennine Acute Hospitals NHS Trust	1.93

[1] Please note changes in the time bands for this quarter.

Department of Health KH07.

CONSTITUTIONAL AFFAIRS

Asylum and Immigration

Mr. McLoughlin: To ask the Parliamentary Secretary, Department for Constitutional Affairs what measures he is taking against legal advisers facilitating unfounded claims for *(a)* asylum and *(b)* applications for work permits. [219840]

Mr. Lammy: The Government take this matter very seriously. The Office of the Immigration Services Commissioner (OISC) and the Law Society, which regulate immigration advisers, have a duty to ensure that advisers act properly.

Since they became fully operational in May 2001, the OISC has successfully prosecuted 30 illegal advisers, refused registration applications from 126 would-be advisers and withdrawn regulation from a further 20.

The Law Society has put in place a raft of measures to ensure that immigration advisers are acting properly, ranging from investigations to referral to the Solicitors Disciplinary Tribunal.

Child Support

Mr. Kidney: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on progress in assisting Jane Green, the constituent of the hon. Member for Stafford, in securing the payment of child support for her daughter from the father in Tobago. [219312]

Mr. Lammy: The United Kingdom is a signatory to several international conventions for the cross-border recovery of maintenance, including the recognition and enforcement of existing maintenance decisions made by courts in the UK. Trinidad and Tobago is not a signatory to any of these conventions.

The UK's arrangement with Trinidad and Tobago in this field is based on what is often referred to as the "Commonwealth scheme", which dates back to 1920 and effectively operates on the basis that the judicial systems of Commonwealth countries are—in general—sufficiently similar to allow maintenance orders made in the courts of one jurisdiction to be registered and enforced in the courts of another jurisdiction. Since there is no treaty regulating these arrangements, however, there is no formal mechanism by which the authorities of the initiating jurisdiction can put pressure on the authorities of the receiving jurisdiction if things go wrong or if a lengthy delay occurs.

This particular application was to register and enforce an English maintenance order in Trinidad and Tobago, and the application was first made in February 2002. The Trinidad and Tobago authorities acknowledged the application in October 2002, and the Department has forwarded correspondence and sent follow-up letters and email reminders to the authorities in Trinidad and Tobago at approximately two-month intervals ever since.

The Trinidad and Tobago authorities have responded at various times with hearing dates that were subsequently adjourned, and—in June 2003—with news that the respondent had lodged an appeal against the English order being registered and enforced in Trinidad and Tobago. The last information received from the Trinidad and Tobago authorities was that a date was awaited for the matter to come before the Court of Appeal.

The Office of the Prime Minister of Trinidad and Tobago is aware of our concern at the significant delays that have occurred in this case, but my Department is unable to intervene in the affairs of Trinidad and Tobago, nor to insist on a timeframe in which this matter should be resolved.

Officials in my Department do continue, however, to seek clarification from the Trinidad and Tobago authorities of the present state of the matter, and in particular the grounds of the respondent's appeal and whether a date has been set for the appeal hearing.

More generally, efforts are under way internationally to improve the system of dealing with cross-border maintenance claims. The UK is taking an active part in this work, and we would hope that as many countries as possible are able to join in the new treaty arrangements in this area, once they are established.

In the meantime, I shall be happy to write to the hon. Member with further details of my Department's efforts on behalf of his constituent.

FOREIGN AND COMMONWEALTH AFFAIRS

Arms Exports (EU Code of Conduct)

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 21 December 2004, *Official Report;* column 171WS, on EU Code of Conduct on Arms Exports, what legal remedy through *(a)* national courts and *(b)* the European Court of Justice exists if an EU member state breaches the Code of Conduct. [219735]

Mr. Straw *[holding answer 3 March 2005]:* The domestic consequences of a member state breaching its obligations under the EU Code of Conduct on Arms Exports will depend upon its national laws. For the UK, I refer the right hon. and learned Gentleman to the written statement of 21 December 2004, *Official Report,* column 171WS. The EU Code of Conduct on Arms Exports is not justiciable in the European Court of Justice.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 21 December 2004, *Official Report,* column 171WS, on EU Code of Conduct on Arms Exports, what legal remedy exists if a supplier in an EU member state breaches the current arms embargo. [219736]

Mr. Straw *[holding answer 3 March 2005]:* The EU embargo on the sale of arms to China reflects a political commitment by member states. It sets a high common standard for all member states' assessment of applications to export all items on the EU Common Military List. All EU member states have incorporated the Code of Conduct into their export licensing procedures, according to their national laws. There is no common interpretation of this commitment among member states. In the UK, exporters are required to seek a licence before exporting controlled goods or technology. A licence will not be issued if approval would be inconsistent with, inter alia, the UK's interpretation of the China embargo. The UK's interpretation of the embargo was set out by the then Minister of State at the Foreign and Commonwealth Office, the late Derek Fatchett, in a reply on 3 June 1998, *Official Report,* columns 240–41 to my hon. Friend the Member for Gedling (Vernon Coaker). The legal penalty under the Export Control Act 2002 for exporting controlled goods or technology without a licence may be imprisonment for up to 10 years. I am sending the information the right hon. and learned Gentleman requested on penalties which apply in other member states and placing a copy in the Library of the House.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the written ministerial statement of 21 December 2004, *Official Report*, column 171WS, on EU Code of Conduct on Arms Exports, whether the Code of Conduct will forbid the export to China of *(a)* machine guns, *(b)* large calibre weapons, *(c)* bombs, *(d)* torpedoes, *(e)* rockets, *(f)* missiles, *(g)* ammunition, *(h)* military aircraft, *(i)* helicopters, *(j)* vessels of war, *(k)* armoured fighting vehicles, *(l)* command and control systems and *(m)* logistics management systems. [219737]

Mr. Straw *[holding answer 3 March 2005]:* The EU Code of Conduct sets a high standard for all member states' assessment of applications to export all item on the EU Common Military List. All EU member states have incorporated the Code of Conduct into their export licensing procedures, according to their national laws. The list includes all the items listed in the question, although some helicopters and logistics management systems may be purely for civil use, and therefore not licensable. To ask what specific equipment the code 'forbids' is to misunderstand the way it functions. The code obliges member states to refuse to license the export of any item on the list if, inter alia, there is a clear risk that it might be used for internal repression, aggressively against another country, or to assert by force a territorial claim. There is also a provision in the code which provides for denial of export licences for equipment which may affect "the national security of the UK, of territories whose external relations are the UK's responsibility, and of allies, EU member states and other friendly countries". The code applies to exports to China and all other countries, and has proved effective since its inception in 1998. It is the criteria in the Code of Conduct, rather than the Arms Embargo on China, which have formed the basis for the clear majority of the licence refusals made by EU member states in respect of China.

Attorney-General (Iraq Advice)

Annabelle Ewing: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he had a role in the *(a)* framing, *(b)* drafting and *(c)* drawing up of the parliamentary answer given by the Attorney-General on 17 March 2003 on Iraq. [218592]

Mr. Rammell: My right hon. Friend the Foreign Secretary had no role in the framing, drafting and drawing up of the Parliamentary Answer given by the Attorney-General on 17 March 2003 on Iraq.

Bolivia

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the Bolivian Congress's decision to charge former Bolivian President Gonzalo Sanchez de Lozada and members of his former cabinet with genocide. [218961]

Mr. Rammell: We are aware that former President of Bolivia, Gonzalo Sanchez de Lozada and members of his cabinet are charged with genocide. We believe this is an internal affair and a matter for Bolivian authorities. We trust that the case will be pursued with full respect for the due process of the rule of law.

China (Arms Embargo)

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has held with the US Administration on the lifting of the EU's arms embargo on China; what the US's position was; and if he will make a statement. [220361]

Mr. Rammell: I refer the hon. Member to the reply I gave on 20 January 2005, *Official Report*, columns 1055–56W to the hon. Member for Ruislip-Northwood (Mr. Wilkinson).

Craig Murray

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what redundancy package was negotiated with Mr. Craig Murray; and whether confidentiality clauses were included. [218578]

Mr. Alexander: Mr. Murray applied for early severance from the Foreign and Commonwealth Office (FCO) in accordance with the terms of the FCO's current programme to reduce its staff numbers. The terms for all early departures, including Mr. Murray's, are those laid down under standard Cabinet Office-approved rules. No officer who has departed under these terms has been asked to agree any confidentiality clauses. It would not be appropriate for us to go into the detail of the terms received by individuals.

Democratic Republic of the Congo

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the attack on UN peacekeepers in the Ituri region of the Democratic Republic of the Congo; and what additional help the British Government plans to offer in support of peace-keeping activities there. [220270]

Mr. Mullin: We condemn the attack on a patrol of Bangladeshi peacekeepers in Ituri province by local militias and offer our condolences to the families of those killed. We remain determined to support the United Nations in ensuring that those responsible are brought to justice.

An additional UK officer will shortly be seconded to the UN peacekeeping force (MONUC). The Ministry of Defence are also making a contribution to training staff at the newly-established divisional headquarters in Kisangani. We await the UN Secretary-General's next report on the Democratic Republic of Congo and will carefully consider its recommendations on additional support that might be required to continue to improve MONUC's effectiveness.

Departmental Staff

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs how many people are employed in the FCO Services: Visits section; and what training they received in advance of taking up their position. [219276]

Mr. Rammell: There are 34 full-time staff and 43 part-time contract staff employed in Foreign and Commonwealth Office (FCO) Services: Visits. The part-time contract staff are Liaison Officers and Interpreters employed on a visit by visit basis to accompany the visitors to their official appointments.

On joining FCO Services: Visits, all staff receive full on the job training from experienced colleagues covering all elements of the role.

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs how individuals were recruited by the FCO Services: Visits section in the last year for which figures are available. [219277]

Mr. Rammell: In the last year all Foreign and Commonwealth Office Services: Visits vacancies have been filled from within the Foreign and Commonwealth Office.

Europe Day

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans his Department has made for the celebration of Europe Day on 9 May. [212383]

Mr. Alexander *[holding answer 3 March 2005]:* The Foreign and Commonwealth Office has no plans to celebrate Europe Day.

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs what budget his Department has allocated for the celebration of Europe Day on 9 May. [212384]

Mr. Alexander *[holding answer 3 March 2005]:* The Foreign and Commonwealth Office has not allocated a budget for the celebration of Europe Day.

Mr. Brady: To ask the Secretary of State for Foreign and Commonwealth Affairs which Ministers in his Department will be involved in activities to mark or celebrate Europe Day on 9 May. [212385]

Mr. Alexander *[holding answer 3 March 2005]:* Ministers' plans for involvement in activities to celebrate Europe Day are not yet confirmed.

Falklands

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what the situation is regarding air links between the Falkland Islands and the South American mainland; and if he will make a statement; [219811]

(2) how many charter flights operate to the Falkland Islands using Argentine airspace, for the purposes of cruise ship passenger exchange. [219814]

Mr. Straw *[holding answer 4 March 2005]:* No charter flights currently operate between the Falkland Islands and the South American mainland. Charter flights between the Falkland Islands and the South American mainland have been halted since the end of 2003, when the Argentine Government stopped granting permission for charter flights to the Falkland Islands to use Argentine airspace. The scheduled LAN Chile flight is not affected by discussions over charter flights and continues to operate on a weekly basis between Southern Chile and the Falkland Islands.

I also refer the right hon. and learned Gentleman to the reply given by my hon. Friend the Parliamentary Under-Secretary of State at the Foreign and Commonwealth Office (Mr. Rammell) to my hon. and learned Friend the Member for Redcar (Vera Baird) on 3 March 2005, *Official Report*, columns 1381–82W.

Iraq

Mr. Edward Davey: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received regarding the export of oil from the Iraqi port of Khor al-Amaya in January and February 2003; and if he will make a statement. [217502]

Mr. Rammell: Under the UN sanctions regime, Iraq was not permitted to export oil from the Khor al-Amaya terminal. In February 2003 the UK mission to the UN in New York was informed that several tankers had evaded the US-led Multinational Interception Force which was tasked with upholding sanctions against Iraq and entered the Iraqi port of Khor al-Amaya. This was reported to the relevant UK authorities and shared with the US.

Israel

Lynne Jones: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli authorities on the extension of the Nationality and Entry into Israel Law (Temporary Order) prohibiting residents or citizens of Israel who are married to residents of the Occupied Territories from living in Israel with their spouses. [218216]

Mr. Rammell: We are concerned about the extension to the Citizenship and Entrance to Israel Law, which was made on 31 January, and its impact on Arab Israelis and Palestinians from the Occupied Territories. We have raised our concerns with the Israeli Government over this law, including with our EU partners on 21 July 2004. We will continue to monitor the situation and make appropriate representations.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning *(a)* the assassination of two members of the Al Asqa brigade and *(b)* the killing by shooting of children in Kuta Dahil, Bertniya Sabn al-Rjoub and Ratah during the ceasefire declared between Israel and Palestine. [218720]

Mr. Rammell: We recognise Israel's right to defend itself against terrorism but it must act in accordance with international law. In this context we have made representations at every level to the Israeli authorities raising our concerns regarding the disproportionate use offered by the Israeli defence forces in Gaza, and the number of civilian casualties, particularly children, which have resulted from their actions. We have not made specific representations concerning the cases detailed by the hon. Member.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what representations he has made to the Israeli Government concerning *(a)* the

planned construction of a new settlement, Gvast Wan Bethlehem, *(b)* the new settlement on Jayyous Village land in Qalqilya and *(c)* the planned expansion of the Alfei Menashe settlement in Qalqilya; [218721]

(2) what representations he has made to the Israeli Government concerning the expansion of *(a)* the Betan Unit settlement and *(b)* the Hat Homa settlement in Bethlehem district; [218722]

(3) whether he plans to take action against the Israeli Government following their refusal to abide by the International Court of Justice ruling on the separation barrier. [218724]

Mr. Rammell: We have made frequent representations to the Israeli Government expressing our concern over continued settlement activity and the routing of the separation barrier. While Israel has a legitimate right to defend itself against terrorist attacks, we consider construction of the barrier on occupied land to be unlawful and we note that this was also the conclusion of the International Court of Justice in its Advisory Opinion. We have also made clear our view that settlements are illegal under international law. The Roadmap requires that Israel freeze all settlement expansion and dismantle outposts erected since March 2001.

The barrier and settlements were raised most recently by my right hon. Friend the Baroness Symons of Vernham Dean during her meeting with the Israeli ambassador on 22 February. The British embassy in Tel Aviv has also made representations to the Israeli Government on construction in Jayyous. We have not made representations on the other individual settlements specified.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning the evacuation and dismantling by the Israeli army of Israeli settler outposts in the West Bank. [218723]

Mr. Rammell: We believe that settlement expansion is a major obstacle to the peace process. We welcome Prime Minister Sharon's commitment in the Roadmap to freeze construction in settlements and to dismantle settlement outposts that are illegal even under Israeli law. We expect to see these commitments met. The Israeli Government are currently working on both mapping the outposts and investigating the legal framework for evacuating them. We are monitoring their work closely.

IT (Disciplinary Procedures)

Mr. George Osborne: To ask the Secretary of State for Foreign and Commonwealth Affairs how many staff in his Department have *(a)* received official warnings and *(b)* faced disciplinary procedures following breaches of IT policy in each year since 1997. [205805]

Mr. Alexander: Breaches of IT policy have been monitored periodically since April 2003. Between April and December 2003, 69 staff received official warnings. Between January and December 2004, 36 staff received official warnings. These warnings form part of the Foreign and Commonwealth Office disciplinary process.

Kenya

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what support the Government have given to Kroll in its work to recover moneys obtained through corruption in Kenya. [218458]

Mr. Mullin: None. I understand that Kroll has been engaged by the Government of Kenya. Neither the Government of Kenya nor the company have sought our assistance in identifying or recovering corruptly obtained money or assets in the UK.

Kyrgyzstan

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK is taking to promote a democratic and pluralistic society in Kyrgyzstan. [219013]

Mr. Rammell: We work closely both bilaterally and through the EU and the Organisation for Security and Co-operation in Europe (OSCE) to support a variety of projects aimed at promoting a democratic and pluralistic society in Kyrgyzstan. We similarly encourage the Kyrgyz Government publicly and privately towards this end. In January this year, our Ambassador publicly expressed support for the election-related work of the OSCE in Kyrgyzstan.

In the build-up to the recent elections we supported a range of projects including several voter education campaigns, exit polling, training for independent domestic election observers and promoting open dialogue between Government officials and NGOs. Through the UN Development Programme we also contributed to updating the Kyrgyz Central Election Committee's electronic voter system.

We have also supported the ombudsman and other projects on the media, rights of the child, OSCE police reform and alternatives to the use of prison.

Kyrgyzstan is a focal country for the Department for International Development (DfID). Through their £3.35 million development programme, DfID engage with the Government on several policy areas including governance and anti corruption. Kyrgyzstan has also signed up to the Extractive Industries Transparency Initiative which aims to promote Government and corporate accountability in the extractive industries.

Ministerial Visits

Chris Grayling: To ask the Secretary of State for Foreign and Commonwealth Affairs what factors determined his Department's selection of Lahore and Gujarat for inclusion in the itinerary of his 2005 South Asia tour; and what the cost was of including those destinations in the tour. [220566]

Mr. Straw: I visited Lahore at the longstanding invitation of the Pakistani Foreign Minister Khurshid Kasuri, with whom I had a working dinner; the guests at which included a wide range of senior representatives from business, Government and the media. I also used the visit to deliver a keynote speech to an invited audience of over 200 in Pakistan's second largest city. The additional cost of the Lahore element was £14,116.

I visited Gujarat in Pakistan's Punjab province to pursue consular and visa objectives, and to develop further the important people to people links between that part of Pakistan and the Pakistani communities in the UK. I was hosted in Gujarat by the Chief Minister of Punjab, whose home town it is, and I used the opportunity to develop my links with this important political family. The additional cost of the Gujarat element was £1,307.

Chris Grayling: To ask the Secretary of State for Foreign and Commonwealth Affairs what rules apply to the conduct of Ministers in the selection of foreign destinations for ministerial visits. [220567]

Mr. Straw: All arrangements for overseas travel by Ministers are in accordance with the ministerial code.

Chris Grayling: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact on the UK Muslim community of the scheduling of Ministerial visits to Lahore and Gujarat. [220605]

Mr. Straw: As is usual in respect of ministerial visits, no formal assessment has been made of the impact on the British Muslim community of my recent visit to Lahore and Gujarat in Pakistan, but it appears to have been well received by both the central and provincial governments, and by the media in Pakistan.

Chris Grayling: To ask the Secretary of State for Foreign and Commonwealth Affairs who in his Department took the decision to include Lahore and Gujarat in the itinerary of his recent visit to South Asia. [220607]

Mr. Straw: I made the decision to visit Lahore and Gujarat in Pakistan, as I had to visit Islamabad, taking into account advice from officials.

Public Diplomacy Unit

Mr. Hopkins: To ask the Secretary of State for Foreign and Commonwealth Affairs within what Directorate in his Department the Public Diplomacy Unit is based; and what the remit of the Unit is. [218646]

Mr. Straw: The Public Diplomacy Group of the Foreign and Commonwealth Office (FCO) forms part of the Directorate for Strategy and Information. The remit of the Group is to influence positively foreign perceptions of the UK, in line with FCO strategic priorities and to strengthen the FCO's relationships with Parliament, Whitehall, the British Council, the BBC World Service and the devolved administrations, and its outreach to civil society.

Mr. Hopkins: To ask the Secretary of State for Foreign and Commonwealth Affairs what the budget for the Public Diplomacy Unit *(a)* is in 2004–05 and *(b)* was in 2003–04; and how many staff work in the Public Diplomacy Unit. [218652]

Mr. Straw: The budget for the Public Diplomacy Group of the Foreign and Commonwealth Office is £15,768,100 in the current financial year and was £15,534,494 in 2003–04. 63 staff are employed in the Group.

Uganda

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports he has received relating to the commissioning by President Museveni of members of the paramilitary Kalangala Action Plan Youth Brigade for the purpose of intimidating the opposition in Uganda. [218265]

Mr. Mullin: We have heard reports of the reactivation of the Kalangala Action Plan Youth Brigade, which according to Uganda's own Parliament was implicated in violence during the 2001 elections. We have raised our concerns with the Ugandan authorities, who have assured us that any illegal activity will be handled by the police. We shall take a close interest in the activities of this group.

Uzbekistan

Dr. Cable: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps he has taken to investigate alleged human rights abuse in Uzbekistan. [219281]

Mr. Rammell: We remain disturbed by reports of human rights abuses in Uzbekistan and have consistently made clear to the Uzbek Government the extent of our concern.

On 1 March 2005 I drew to the attention of the Uzbek ambassador our concern at reports that Uzbekistan continued in 2004 to execute those prisoners on death row with appeals lodged with the UN Human Rights Committee.

As we prepare to assume the Presidency of the EU, we will look to remain actively—and where necessary critically—engaged on questions of economic and political governance, including human rights, in Uzbekistan and Central Asia as a whole.

Venezuela

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent assessment he has made of the relationship between Venezuela and the United States of America, with particular reference to the effects of arms purchases by Venezuela from Russia. [218960]

Mr. Rammell: Bilateral relations between Venezuela and the US are a matter for the two countries concerned.

Venezuela has stated its intention to purchase a number of assault rifles from Russia for use by army reservists. Venezuela is committed to the politically binding United Nations Programme of Action to Prevent, Combat and Eradicate the Illicit Trade in Small Arms and Light Weapons adopted in July 2001. Under this Programme of Action Venezuela has a right to import weapons for its self-defence and security. It is also required to ensure that these weapons are properly stored and managed and that proper records are kept.

Zimbabwe

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions have taken place between the Government and *(a)* the

US Administration, *(b)* EU member states and *(c)* the South African Government on the forthcoming parliamentary elections in Zimbabwe. [218962]

Mr. Mullin: We regularly discuss the situation in Zimbabwe with the US Administration, our EU partners and the South African Government. Our immediate priority remains free and fair elections on 31 March.

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what discussions have taken place between the Government and the UN regarding election monitoring in Zimbabwe; [218963]

(2) what discussions have taken place between the Government and the Southern African Development Community regarding election monitoring in Zimbabwe. [218978]

Mr. Mullin: We are in regular touch with the UN Secretariat and the members of the Southern African Development Community over the election in Zimbabwe. We want Zimbabwe to honour in full its commitment to the Southern African Development Community electoral principles.

We also want Zimbabwe to invite a wide range of international observers, including the UN; they have made clear they do not intend to do so. These actions speak for themselves.

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Chinese Government concerning the recent shipment of assault rifles, military vehicles, riot equipment and tear gas to Zimbabwe. [219896]

Mr. Straw *[holding answer 4 March 2005]:* The Government regularly discusses export control and counter-proliferation issues with the Chinese Government. In January 2005 officials participated in an EU-China export controls seminar, and later this month a Chinese delegation will travel to the UK to continue this cooperation. These talks stress the importance of taking account of the use to which strategic exports are to be put in the country of final destination and the importance of refusing exports where there is a clear risk that they might be used for internal repression. The Government has not to date raised with China the specific shipment that the right hon. and learned Gentleman refers to. But the Government would not approve export of goods which might be used for internal repression or external aggression, or where we were concerned that equipment would be re-exported and used for these purposes. We have serious concerns about the export of arms to Zimbabwe, a country with a track record of armed internal repression. It is also a further indictment of the skewed priorities of the Mugabe regime if they believe arms purchases of this kind matter more than relieving the woeful humanitarian situation.

WORK AND PENSIONS

APW Pension Scheme

Mr. Chidgey: To ask the Secretary of State for Work and Pensions whether the additional voluntary contributions which some APW scheme members paid will be combined with ordinary scheme benefits in order to calculate a person's benefits for the purposes of deemed buyback. [218996]

Malcolm Wicks *[holding answer 3 March 2005]:* In order to judge whether some of the Deemed Buyback conditions are met, three figures have to be calculated:

(a) the scheme must calculate the amount of scheme rights that are actually available in respect of this member;

(b) the scheme then calculates how much this would be if the scheme had been funded to the level of the statutory minimum funding requirement;

(c) the Inland Revenue calculate the amount required to restore State Scheme rights to the level they would have been had the person never been contracted-out.

In order to take advantage of the Deemed Buyback process, the full amount of scheme rights that are actually available in respect of the member held by the scheme must be paid over to the Inland Revenue before the member is restored into State Earnings Related Pension Scheme/State Second Pension. This includes voluntary contributions which are held by the scheme.

The full amount of cash in the scheme should be paid to the Inland Revenue because Deemed Buyback works by giving a member more SERPS than the payment represents. It would not be appropriate for a scheme member to keep some of the funds held in the scheme and thus give them a larger subsidy than needed at the expense of the taxpayer.

Alternatively, as Deemed Buyback is one of a number of options available to a member for securing their accrued rights, they may decide it is in their best interest to keep their voluntary contributions and scheme rights and, for example, use them to secure an annuity.

Mr. Waterson: To ask the Secretary of State for Work and Pensions pursuant to the Oral Statement of the Minister of State for Pensions on 22 February 2005, *Official Report*, column 22WH, on APW Pension Scheme, from which pension schemes data returns were received in relation to the Financial Assistance Scheme but do not appear to be eligible for assistance under the scheme; for what reason each is not eligible; and how many members are affected *(a)* in total and *(b)* in each scheme. [219697]

Malcolm Wicks: The majority of those schemes referred to were ineligible for inclusion on the list of schemes potentially eligible for the FAS because insufficient information, in some cases including information on the solvency position of the employer, had been provided. Omission from the list does not determine whether those schemes will or will not be qualifying pension schemes for the purposes of the FAS, nor therefore whether members of those schemes will or will not qualify for assistance. Schemes will be given the opportunity of providing further information in due course. It would therefore be inappropriate at this stage to publish the information requested.

Benefits

Mr. Willetts: To ask the Secretary of State for Work and Pensions how much his Department spent on *(a)* male and *(b)* female recipients of (i) the basic state pension, (ii) SERPS and (iii) pension credit. [219559]

Malcolm Wicks: The information is in the table.

£ million

Expenditure 2003–04	*Male*	*Female*
Basic state pension	16,872	22,907
SERPS	4,694	1,984
Pension credit	1,981	2,812

Notes:

1. Figures are for Great Britain and rounded to the nearest million.

2. Expenditure is taken from departmental accounting systems, while the data to divide this between male and female recipients is taken from a 5 per cent. sample of benefit records and is subject to a degree of sampling variation.

3. Expenditure on pension credit includes minimum income guarantee for April to September 2003.

4. Benefit expenditure forecast information is published on the Internet at: http://www.dwp.gov.uk/asd/asd4/expenditure.asp

Child Support Agency

David Hamilton: To ask the Secretary of State for Work and Pensions how many cases in Midlothian have been submitted to the Child Support Agency since its inception; and how many cases in Midlothian are before the agency now. [218255]

Mr. Pond: The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to my hon. Friend with the information requested.

Letter from Doug Smith to Mr. David Hamilton, dated 7 March 2005:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many cases in Midlothian have been submitted to the Child Support Agency since its inception; and how many cases in Midlothian are before the Agency now.

I am unable to answer this question, as the Agency does not record information at this level.

I can however tell you that the number of cases for which Scotland and North Eastern Business Unit is currently responsible totals around 240,000. Of these cases around 110,000 have been registered on the new computer system; approximately 65,000 of these cases are being dealt with under the new legislation and 45,000 under the old legislation. In addition around 130,000 are currently old scheme cases on the old computer system.

Miss McIntosh: To ask the Secretary of State for Work and Pensions what estimate he has made of the number of parents who contribute to the upkeep and maintenance of their children through the Child Support Agency do not have access to their children; and if he will make a statement. [218667]

Mr. Pond: The information is not available.

Mr. Webb: To ask the Secretary of State for Work and Pensions how many risk mitigation plans the Child Support Agency has prepared in each of the last four years. [218912]

Mr. Pond *[holding answer 2 March 2005]:* The administration of the Child Support Agency is a matter for the Chief Executive, Mr. Doug Smith. He will write to the hon. Member with the information requested.

Letter from Doug Smith to Mr. Steve Webb, dated 7 March 2005:

In reply to your recent Parliamentary Question about the Child Support Agency the Secretary of State promised a substantive reply from the Chief Executive.

You asked the Secretary of State for Work and Pensions, how many risk mitigation plans the Child Support Agency has prepared in each of the last four years.

The Child Support Agency's approach to risk management supports that recommended by the Department for Work and Pensions. This has entailed building the systematic consideration and management of risks into existing core business functions whilst managing risks at all levels within the business. To this end both the volume and content of the mitigation plans held within the Agency remain fluid. Plans are subject to regular review and updating as the business changes and risks are identified, managed or eventually closed. The Agency's high level risk process are referred to within both our externally published Business Plan and our Annual Report and Accounts. Agency high level risks are monitored/reviewed monthly through the Agency's Business Information Bulletin. We will arrange for the Agency's Business Information Bulletins to be made available in the Library.

Departmental Policies

Mr. Jim Cunningham: To ask the Secretary of State for Work and Pensions if he will set out, with statistical evidence relating as closely as possible to the Coventry, South constituency, the effects in Coventry, South of changes to his Department's policies since 1997. [219692]

Jane Kennedy: We have undertaken a fundamental overhaul of the welfare system, transforming it to an active system that fights poverty, creates opportunity and helps people become self-sufficient and independent.

Since 2001, the Government have significantly extended and improved civil rights for disabled people in areas such as employment, education, access to goods and services and transport. Disabled people in Coventry, South will have benefited from these improvements in disability rights. Similarly, families with severely disabled 3 and 4-year-old children who are unable, or virtually unable to walk will have benefited from the Government's decision to lower the minimum age entitlement to the higher rate mobility component of disability living allowance from April 2001, while older and less well off carers have gained extra help through the provisions within the National Carers Strategy.

In 2002–03 we estimate there were around 10 million adults (22 per cent.) and 0.7 million children (5 per cent.) in Great Britain likely to be covered by the provisions of the Disability Discrimination Act (DDA).

The figures can be broken down to regional level which shows that 21 per cent. of adults and 6 per cent. of children in the West Midlands region are likely to be covered by the provisions of the DDA.

Information on the numbers of customers in Coventry, South who are in receipt of disability living allowance (DLA) and attendance allowance (AA) is in the table.

Coventry, South

Operational year	*DLA/AA recipients*
2001	6,100
2002	6,600
2003	7,000
2004	7,100

Source:
DWP Information Centre. Figures are rounded to the nearest 100 and are from a 5 per cent. sample at 31 August each year.

Through Jobcentre Plus, we are promoting work as the best form of welfare for people of working age. The number of people in work is at historically high levels of over 28.5 million; in Coventry, South, the proportion in employment has risen to 68.4 per cent.

Our new deals have helped lone parents, the young unemployed, the long-term unemployed, disabled people, the over 50s and partners of unemployed people to move from benefit into work. Nationally over 1.2 million people have been helped into work by the new deals, with 1,970 in Coventry, South alone.

Significant progress has been made in eradicating child poverty and the latest figures (for 2002–03) show that, in the UK, there were over half a million fewer children in relative low income than there were in 1996–97. Since 2001–02 incomes for lone parents in receipt of benefit have risen by more than prices or the cost of living. In April 2005 the child allowance rate in income support for a child up to 18-years-old will have been increased by 40 per cent. since 2001–02. Child rates in income support and jobseeker's allowance are also being increased above inflation in April 2005 in line with child tax credit upratings. All of this has benefited 2,400 families in Coventry, South.

We want all pensioners to have a decent and secure income in retirement and to share fairly in the rising prosperity of the country and our first priority has been to help the poorest pensioners. The Government will be spending nearly £10 billion more in 2004–05 (in 2004–05 prices) on pensioners as a result of measures introduced since 1997, with around half going to the poorest third.

Our reforms include the State second pension, which helps more future pensioners build up better pensions, especially carers. Pension credit, introduced from October 2003, provides a contribution to a guaranteed minimum income for those aged 60 and over and, for the first time, those over aged 65 and over may be rewarded for savings and income. As of December 2004, around 4,690 pensioners in Coventry, South are receiving pension credit, with an average award of £44.55 per week.

We know that older people are disproportionately affected by fuel poverty. This winter (2004–05) we have again made available a winter fuel payment of £200 for each eligible household with someone aged 60 or over and £300 to those with someone aged 80 or over to help with their fuel bills. Additionally, for this year, eligible households with someone aged 70 or over will receive the one-off 70+ payment of £100 to help with living expenses including council tax bills. It is paid with the winter fuel payment.

The constituency data on winter fuel payments and the additional 80+ annual payment is available in the Library.

Since 1997 single pensioners and pensioner couples have seen a real terms increase in their basic state pension of 7 per cent. and 8 per cent., respectively. Some 16.1 thousand pensioners in Coventry, South have benefited from this increase.

Disabled People (Battersea)

Martin Linton: To ask the Secretary of State for Work and Pensions how many people with disabilities in Battersea have returned to work in each of the last seven years. [218519]

Jane Kennedy: Information on the number of disabled people who have benefited from the new deal programmes in Battersea is shown in the following table.

Number of disabled people who have entered work through the following new deal programmes in Battersea; new deal for young people; new deal 25 plus; new deal for lone parents; new deal 50 plus

	Individuals into work
October 1997-September 1998	0
October 1998-September 1999	30
October 1999-September 2000	30
October 2000-September 2001	30
October 2001-September 2002	20
October 2002-September 2003	40
October 2003-September 2004	20
Total	170

Notes:
1. New deal for partners information is only available at national level.
2. New deal for young people started in January 1998; new deal 25 plus started in July 1998; new deal for lone parents started in October 1998; new deal 50 plus started in April 2000.
3. New deal 50 plus information relates to the number of new deal 50 plus employment credit starts to March 2003. Information on the number of new deal 50 plus recorded job entries from April 2003 to September 2004 is not available at constituency level.
4. Numbers are rounded to the nearest 10.

Source:
New Deal Evaluation Database

Information on the new deal for disabled people is not available at constituency level so information has been provided for the Lambeth, Southwark and Wandsworth Jobcentre Plus district.

Number of disabled people who have entered work through the new deal for disabled people (NDDP) in the Lambeth, Southwark and Wandsworth Jobcentre Plus district

	Individuals into work
July 2001–September 2001	0
October 2001–September 2002	30
October 2002–September 2003	130
October 2003–September 2004	240
Total	400

Notes:
1. NDDP individuals into work figures relate to the number of individuals gaining NDDP job broker jobs and individuals gaining NDDP Jobcentre Plus jobs.
2. The NDDP programme is available to people in receipt of a disability or health related benefit and started in July 2001.
3. Numbers are rounded to the nearest 10.

Source:
New Deal Evaluation Database

In addition to new deal there are a number of programmes such as Access to Work, Work Preparation and WORKSTEP designed to help disabled people return to work. Details of the number of people helped to return to work through these programmes is not available at constituency or Jobcentre Plus district level.

Jobcentre Plus also offers interviews with a personal adviser to all disabled people making new or repeat claims to qualifying benefits to ensure they are aware of the help and opportunities available to them.

Financial Assistance Scheme

Mr. Waterson: To ask the Secretary of State for Work and Pensions what estimate he has made of the costs incurred by schemes in making data returns in relation to the Financial Assistance Scheme (FAS), broken down between those *(a)* that are on the list of those potentially eligible for inclusion in the FAS and *(b)* that are not. [219651]

Malcolm Wicks: No such estimate has been made. In practice the cost of providing the information requested will vary depending on the quality and availability of individual scheme records. Recognising this, we have sought to keep our requirements to a minimum and are very grateful for the extensive co-operation we have received from independent trustees scheme administrators and the assistance in kind provided by the pensions industry.

Five-year Strategy

Mr. Willetts: To ask the Secretary of State for Work and Pensions if he will provide the figures on which the percentage national off-flow rates illustrated in Figure 13 on Page 46 of his Department's Five Year Strategy were based. [215531]

Maria Eagle: The information is in the following table.

Four month incapacity benefit off-flow rate

	National			*Phase 1 pathways areas*		
Month of claim	*Claims in month*	*Number leaving within four months*	*Percentage leaving within four months*	*Claims in month*	*Number leaving within four months*	*Percentage leaving within four months*
2002						
April	52,600	10,100	19	2,200	500	21
May	53,200	9,800	18	2,300	500	21
June	49,000	10,100	21	2,200	500	22
July	54,300	11,300	21	2,300	500	23
August	50,800	8,900	18	2,300	400	19
September	52,200	9,700	19	2,300	500	20
October	54,500	10,100	19	2,400	500	20
November	54,800	12,400	23	2,400	600	24

April	48,200	8,300	17	2,100	600	26
May	46,500	7,800	17	2,000	500	26
June	49,100	8,900	18	2,200	600	27
July[1]	48,900	9,200	19	2,100	600	27
August[1]	46,400	8,100	18	2,000	500	26

[1] Figures for July and August are provisional and are likely to be updated as more data becomes available.

Note:

The figures are produced from the Department's Working Age Statistical Database (WASD). WASD does not include a proportion of short-term incapacity benefit claims; therefore the off-flow rates presented will be lower than actual rates. However, trends over time and comparisons between areas will be consistent.

Intensive Activity Pilot

Mr. Boswell: To ask the Secretary of State for Work and Pensions if he will list the private sector contractors supplying services relating to the intensive activity period pilot scheme for those aged between 50 and 59 years, broken down by jobcentre office areas. [220468]

Jane Kennedy: The information is in the table.

Private sector contractors in pilot locations—new deal intensive activity 50–59 pilot

Jobcentre Plus district	*Training providers*
Calderdale and Kirklees	CMS Vocational Training Limited Direct Training Limited S and S Training Services
Coventry and Warwickshire	CWT Focus Pathways JHP Group Limited Solutions (also known as Workworld).
East Lancashire	Training 2000 Limited
Essex	Seetec Business Technology Centre Limited
Hampshire	Bennington Training Services
The Marches	Training and Contracting Services Vale Training and Development
Dorset and Somerset	Paragon Training
Suffolk	Pelcombe Training Limited Seetec Business Technology Centre Limited
Derbyshire	Seetec Business Technology Centre Limited Spire
Highlands, Islands and Clyde Coast	Microcom (Glasgow) Limited Nevis Training Centre
Ayrshire, Dumfries, Galloway and Inverclyde	Lowland Training Services Limited Microcom (Glasgow) Limited

Notes:
1. The pilot is also operating in Bridgend, Leicestershire and Gateshead. There are no private sector providers in these locations.
2. Some providers may not yet have provided services to pilot participants, but may be required to do so during the pilot.

Job Centres (Dorset)

Mr. Chope: To ask the Secretary of State for Work and Pensions if he will ensure that the job centres at *(a)* Blandford, *(b)* Bridport, *(c)* Christchurch, *(d)* Poole and *(e)* Wareham are open on a full-time basis to provide services for the public; and if he will make a statement. [212341]

Jane Kennedy *[holding answer 3 March 2005]:* The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from Mr. Jeremy Groombridge to Mr. Christopher Chope, dated 7 March 2005:

The Secretary of State has asked David Anderson, Chief Executive of Jobcentre Plus, to reply to your question about the service provided by the Job Centres at Blandford, Bridport, Christchurch, Poole and Wareham. I am replying on behalf of David Anderson, as one of the Directors of the Jobcentre Plus Board. At present all these offices provide services for the public on a full-time basis.

Jobcentre Plus is continuously reviewing arrangements for service delivery in order to ensure that we provide value for money and take account of the new ways customers access our services. The need for face-to-face facilities for jobsearch and other aspects of our business has been superseded in many instances by new business processes and the use of information technology. For example, over the last 12 months we have seen an increase of over 40 per cent. in the number of hits on our jobsearch website. Encouraging our customers to use these new channels enables us to focus on those customers who need greatest help, through the intervention of personal advisers.

It would be inappropriate to speculate on any future review of delivery sites. However, I can assure you that should local managers determine that changes are required to local service delivery arrangements then local stakeholders would be fully consulted before any changes take place.

I hope that this is helpful.

Means-tested Benefits

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the cost of incapacity benefit and other means-tested benefits paid to incapacity benefit recipients was in the last year for which figures are available. [219397]

Maria Eagle *[holding answer 4 March 2005]:* The information is in the following table.

Benefit expenditure on incapacity benefit recipients 2003–04

	£ million
Incapacity benefit	6,718
Severe disablement allowance	763
Income support	3,679
Housing benefit	2,188
Council tax benefit	444
Total	13,791

Notes:
1. All figures have been rounded to the nearest million pounds.
2. Figures for income support, housing benefit and council tax benefit include expenditure for people receiving incapacity benefit credits and a small amount of money paid to disabled people who do not receive incapacity benefit or severe disablement allowance.
3. Figures do not include pension credit, housing benefit and council tax benefit paid to people between the ages of 60 and 64.
4. Figures exclude severe disablement allowance for people over state pension age.
5. Figures may not sum due to rounding

Source:
DWP expenditure tables.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions what the cost of income support for claimants of the disability premium and other means-tested benefits which are drawn by these claimants was in the last year for which figures are available. [219398]

Mr. Pond *[holding answer 4 March 2005]:* It is not possible to accurately state the cost of income support, housing benefit or council tax benefit for claimants of the disability premium. The available information is in the table.

Income related benefit expenditure for people under 60 years of age and classed as long-term sick or disabled

	£ million
Income support	4,621
Housing benefit	3,009
Council tax benefit	660
Total	8,290

Notes:
1. All figures have been rounded to the nearest million pounds.
2. Figures quoted are for 2003–04 are estimated outturn.

Source:
DWP expenditure tables—pre-Budget report 2004.

Pathways to Work

Paul Holmes: To ask the Secretary of State for Work and Pensions what proportion of claimants within the Pathways to Work pilots have completed five compulsory work focussed interviews. [214632]

Maria Eagle: Just under one fifth of customers expected to have participated in the repeat work focused interviews process are recorded as attending five repeat work focused interviews by the end November 2004. A proportion of customers are likely to have had one or more of their WFIs deferred or waived.

Pension Credit

Mr. Willetts: To ask the Secretary of State for Work and Pensions how many people receiving pension credit have earnings. [219702]

Malcolm Wicks: As at August 2004, the latest date for which this information is available, there were 21,300 households in Great Britain in receipt of pension credit in which the claimant or a partner was receiving earnings. These households comprised 35,000 individuals.

Notes:
1. Figures are rounded to the nearest hundred.
2. Figures are based on a 5 per cent. sample and are therefore subject to a degree of sampling variation.
3. Individuals may include a small number of partners under the age of 60.
4. For couples, earnings are either the claimant's or the partners' earnings.

Source:
IAD Information Centre, Department for Work and Pensions, 5 per cent. sample.

Pensioners

Mr. Hepburn: To ask the Secretary of State for Work and Pensions what assistance his Department provides to pensioners during the coldest winter months. [219665]

Malcolm Wicks: Winter fuel payments are available to people aged 60 or over who are ordinarily resident in the UK. These payments of £200 are paid to all eligible households. Households which include people aged 80 or over can receive an extra payment of £100. Over 11 million payments are made automatically each year.

In addition, cold weather payments provide extra help towards heating costs for the poorest and most vulnerable members of our society, including pensioners receiving pension credit, in periods of exceptionally cold weather.

The cold weather payment is made automatically to people awarded pension credit when the average temperature is recorded as, or forecast to be, 0 degrees Celsius or below over seven consecutive days at the weather station linked to the customer's postcode. Savings are not taken into account and cold weather payments are paid in addition to winter fuel payments.

In 2003–04 a total of 418,000 cold weather payments were made, to pensioners and other vulnerable groups, worth £3.5 million.

Pneumoconiosis etc. (Workers' Compensation) Act

David Hamilton: To ask the Secretary of State for Work and Pensions how many people in Midlothian were paid compensation under the Pneumoconiosis etc. (Workers' Compensation) Act 1979 in *(a)* 2003 and *(b)* 2004. [220073]

Jane Kennedy: The information is not available in the format requested. The available information is that during the period April 2003 to March 2004, a total of 1,501 awards were made in Great Britain. Of these 255 were made to people resident in Scotland. During the period April 2004 to February 2005 the total awards were 1,422, of which 220 were made to Scottish residents.

Special Advisers

Mr. Tyrie: To ask the Secretary of State for Work and Pensions if he will list the occasions between 31 March 2003 and 31 March 2004 when special advisers attended meetings with external representatives at which Ministers were not present. [210551]

Maria Eagle: From time to time special advisers hold meetings with a wide range of external representatives in their official capacity. All such meetings are conducted in accordance with the requirements of the Code of Conduct for Special Advisers.

Specifically, in so far as records are kept, the Department's special advisers met with:

A range of different media representatives on 29 June 2003, 23 July 2003, 24 July 2003, 3 November 2003, 11 December 2003 and 5 February 2004.

Policy specialists for other countries on 14 July 2003 and 3 September 2003.

Representatives of the Social Market Foundation on 19 August 2003 and 22 September 2003.

Representatives of Institute of Public Policy Research on 4 November 2003.

A union representative on 13 October 2003.

A Deputy Minister of the National Assembly for Wales on 5 February 2004.

Sure Start (Battersea)

Martin Linton: To ask the Secretary of State for Work and Pensions how many mothers have received the Sure Start maternity grant in the Jobcentre Plus district which includes Battersea. [218525]

Mr. Pond: Battersea is included in the Jobcentre Plus district of Lambeth, Southwark and Wandsworth. This district was created for Social Fund purposes in January 2004.

Sure Start maternity grants made in Lambeth, Southwark and Wandsworth Jobcentre Plus district

	Number of awards
2003–04 January to March	1,162
2004–05 April to January	3,650

Notes:
1. Data are given for all awards, irrespective of whether the award was made to the mother or her partner.
2. Data for 2003–04 include awards made in January 2004 which covered the relevant area before the district was formally created for Social Fund purposes.

DWP Social Fund Policy, Budget and Management Information System

HOME DEPARTMENT

Special Constables

14. **Bob Spink:** To ask the Secretary of State for the Home Department if he will make a statement on the work of special constables. [219843]

Ms Blears: Special constables are a vital part of our modern police service. They work with regular police officers and community support officers to reduce crime, disorder and anti—social behaviour by providing high visibility patrols and public reassurance. Last week I took part in the national specials weekend to raise awareness of the vital and valuable work of specials.

Religious Incitement

15. **Mrs. Humble:** To ask the Secretary of State for the Home Department what powers he has to limit the availability of anti-Semitic and extreme anti-Israel incitement on the internet. [219844]

Fiona Mactaggart: There are a number of incitement offences in law which provide protection against anti-Semitic and extreme anti-Israel incitement. In particular, this includes the incitement to racial hatred offence in the Public Order Act 1986 which makes it an offence to use threatening, abusive or insulting words or behaviour with intention or likelihood that hatred would be stirred up on the grounds of colour, race, nationality or ethnic or national origins.

The legal position is that what is illegal off-line is illegal on-line, so, provided that the elements of the offence are made out, a prosecution for incitement to racial hatred could be taken for words or behaviour published on the internet.

Custody Suites

16. **Dr. Cable:** To ask the Secretary of State for the Home Department what assessment he has made of the overall availability and capacity of custody suites in police stations. [219846]

Caroline Flint: The Department does not keep central records of the availability and capacity of police custody suites. This is an operational matter for police chief constables.

Asylum and Immigration

17. **John Robertson:** To ask the Secretary of State for the Home Department what assessment he has made of the integration of asylum seekers into local communities in Glasgow. [219847]

Mr. Browne: My hon. Friend will appreciate that the people who know best are local agencies and authorities in Glasgow. The Scottish Refugee Council works to bring asylum seekers, refugees and local people together to improve their communities and this work has been commended in an independent report by the Scottish Centre for Research on Social Justice entitled "Building Bridges: Local Responses to the Resettlement of Asylum Seekers in Glasgow". I would commend its contents to him. I would like to mention as well, the work undertaken by Glasgow city council since 2000 and I very much hope the partnership between MASS and the council will continue. Partnership working to provide an effective system of support for asylum seekers is essential, not only for asylum seekers but also to ensure continued community cohesion.

20. **Mr. Heathcoat-Amory:** To ask the Secretary of State for the Home Department how many measures the UK has opted into under title IV of the EC treaty covering visas, asylum, immigration and movement of persons. [219850]

Mr. Browne: The Government's position remains unchanged since 1999 when the treaty of Amsterdam, including our title IV protocol came into effect. The UK retains the right to opt in to EU asylum and immigrations measures. Where measures are in our interest we will opt in.

To date, our records show that we have opted in to:

Eight measures related to Dublin and Eurodac arrangements which enable us to return asylum seekers to the European Union member state responsible for determining their claim;

11 negotiating mandates for European Community readmission agreements with third countries and four resulting readmission agreements that have been finalised to date. The aim of these agreements is to facilitate the return of third country nationals who do not or no longer have a basis to remain in the territory of member states;

Four minimum standards measures in the field of asylum, which the UK already adheres to;

11 measures on illegal immigration contributing to increased security of the European Union's borders;

Two measures relating to the format of visas.

22. **Gregory Barker:** To ask the Secretary of State for the Home Department what recent assessment he has made of measures he has taken to control *(a)* illegal immigration and *(b)* unfounded asylum claims. [219852]

Mr. Browne: The measures we have taken to secure our border, including deploying new detection technology, increasing the number of juxtaposed control locations and expanding the airline liaison network, have had a significant impact on both illegal immigration and asylum intake.

(a) An indication of our success in combating illegal entry is the fall by 65 per cent. of clandestine entry in Kent in 2003 compared with 2002. This fall has continued in 2004 with a 44 per cent. decrease in clandestines in Kent in 2004 compared to 2003.

In addition carriers at ALO locations during 2004 have denied over 30,000 passengers boarding.

(b) The measures taken have also resulted in a fall in asylum applications. Between October and December 2004 asylum applications were 22 per cent. lower than the same period in 2003 and 68 per cent. lower than the peak of October 2002.

Note:

Statistics on clandestine entry are based on locally collated figures and may be subject to change.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what change there has been to the average time taken to process initial asylum applications in each year since 2000. [216798]

Mr. Browne: Information on the timeliness of initial decisions on new substantive cases is published quarterly on the Home Office website at http://www.homeoffice.gov.uk/rds/immigration1.html.

David Davis: To ask the Secretary of State for the Home Department what plans he has to introduce compulsory testing of immigrants for *(a)* HIV and *(b)* tuberculosis. [217437]

Mr. Charles Clarke *[holding answer 24 February 2005]:* As we made clear in our five year strategy for asylum and immigration 'Controlling our borders: Making migration work for Britain' (Cm 6472), our approach to the prevention of the communication of diseases through migration is based on expert advice on protecting the nation's health. We will accordingly target health screening for tuberculosis in high-risk areas at the entry clearance stage; those who are diagnosed with it would then need to seek treatment at home before being allowed to enter the UK.

HIV, unlike tuberculosis, is not airborne, so the public health issues it raises are different. However, the case for extending routine health checks to diseases other than tuberculosis is kept under review.

Antisocial Behaviour

18. **Miss McIntosh:** To ask the Secretary of State for the Home Department what plans he has to visit the Vale of York to discuss problems relating to antisocial behaviour. [219848]

Ms Blears: There are no current plans for Home Office Ministers to visit the Vale of York to discuss antisocial behaviour.

However, my right hon. Friend the Home Secretary visited Hambleton and Thirsk on February 11 2005.

Whilst he was there he visited the Clock Project in Thirsk, a youth drop-in centre with multi agency support linked to antisocial behaviour and to "prevent and deter" strand of the Prolific and Priority Offenders Strategy.

He also met with manager and chair of the Hambleton Community Safety Partnership.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what redress victims of antisocial behaviour have if they feel the police or local authority are not responding to their concerns. [219330]

Ms Blears: The police and local authorities are key partners in reducing crime and disorder in their local area. They will be signatories and supporters of strategies and interventions to tackle antisocial behaviour. These strategies should be widely advertised so that local people can understand the work that the police and local authorities are undertaking and what they can expect by way of action.

Section 12 of the Anti-social Behaviour Act 2004 introduced a duty on all social landlords to publish policies and procedures by December 2004 on how they intend to tackle antisocial behaviour. These policies and procedures should be made available so that tenants as well as the wider community know what they can expect from social landlords.

If a victim of antisocial behaviour is not satisfied with the response they have received from a local agency then they should seek further clarification via the established routes which have been set out locally for dealing with such issues, in some instances this might be by way of an established complaints procedure.

They might also wish to seek advice and support from their local elected representative.

Mr. Soames: To ask the Secretary of State for the Home Department if he will make a statement on steps his Department is taking to tackle antisocial behaviour in Sussex. [218168]

Ms Blears: The Government's TOGETHER campaign helps local people and agencies to tackle and not tolerate antisocial behaviour.

TOGETHER applies across all England and Wales including the hon. Members constituency.

All Sussex's 13 Crime and Disorder Reduction Partnerships (CDRPs) have appointed an antisocial behaviour co-ordinator. All CDRPs were awarded £25,000 for antisocial behaviour in 2004–05 and have used this to recruit a co-ordinator.

Hastings has been chosen as a Together Action Area, which will pilot new approaches and become an example of best practice in tackling antisocial behaviour. Hastings will also look to develop new ways of involving members of the public in the drive to tackle antisocial behaviour.

84 ASBOs have been issued across Sussex since 1999.

Brighton and Hove and Worthing have all had winners of the Home Office 'Taking a Stand' Awards.

Hamas

19. **Huw Irranca-Davies:** To ask the Secretary of State for the Home Department what recent consideration has been given to listing Hamas as a proscribed international group. [219849]

Mr. Charles Clarke: The military wing of Hamas (Hamas IDQ) was proscribed in March 2001. Decisions to proscribe and deproscribe are and will continue to be taken only after the most careful consideration and on the basis of the best possible security and other appropriate advice. That will remain the basis for all decisions in the future.

Prison Population

21. **David Taylor:** To ask the Secretary of State for the Home Department how many people were in prison on 1 March *(a)* 1975, *(b)* 1985, *(c)* 1995 and *(d)* 2005; and if he will make a statement. [219851]

Paul Goggins: The figures for years requested, as at 28 February , are:

	Number
1975	39,364
1985	[1]45,080
1995	[2]50,409
2005	75,354

[1] Plus 9 in police cells.
[2] Plus 162 in police cells.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what his policy is on reducing the prison population. [219708]

Paul Goggins: The Government believe that prison should be reserved for serious, dangerous, and seriously persistent offenders. For other less serious offenders, tough community based sentences offer a much better alternative than short custodial sentences which can be ineffective in preventing re-offending.

But it is for the courts to determine who needs to go to prison. The Government have not set any target for reducing the size of the prison population. The latest prison population projections indicate prison numbers will increase over the next five years. To allow for this we are building capacity up to nearly 80,000 by January 2006.

Abuse (False Allegations)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions in the last five years the police have enforced a criminal sanction against an individual who has made a false allegation of abuse. [219316]

Paul Goggins: Defendants charged for making false allegations are likely to be proceeded against for "perverting the course of justice". It is not possible from the information held on the Home Office Court Proceedings database to identify from the number of defendants proceeded against for "perverting the course of justice", what number were for false allegations of abuse, as the circumstances of the offence are not collected centrally.

Crime (Essex)

Mr. Amess: To ask the Secretary of State for the Home Department (1) how many burglaries have been reported to *(a)* Essex police and *(b)* Southend police in each year since 1997; and how many reports led to a (i) prosecution and (ii) conviction; [208279]

(2) how many vehicle thefts have been reported to *(a)* Essex police and *(b)* Southend police in each year since 1997; and how many reports led to a (i) prosecution and (ii) conviction; [208593]

(3) how many assaults have been reported to *(a)* Essex police and *(b)* Southend police in each year since 1997; and how many reports led to (i) prosecution and (ii) conviction; [208594]

(4) how many violence against the person offences have been reported to *(a)* Essex police and *(b)* Southend police in each year since 1997; and how many reports led to (i) prosecution and (ii) conviction; [208596]

(5) how many violent crimes have been reported to *(a)* Essex police and *(b)* Southend police in each year since 1997; and how many reports led to (i) prosecution and (ii) conviction; [208597]

(6) how many sexual offences have been reported to *(a)* Essex police and *(b)* Southend police in each year since 1997; and how many reports led to (i) prosecution and (ii) conviction; [208598]

(7) how many robberies have been reported to *(a)* Essex police and *(b)* Southend police in each year since 1997; and how many reports led to a (i) prosecution and (ii) conviction; [208639]

(8) how many *(a)* fraud and *(b)* forgery offences have been reported to (i) Essex police and (ii) Southend police in each year since 1997; and how many reports led to a (A) prosecution and (B) conviction. [208642]

Ms Blears: The available information is given in the tables. Tables 1 and 2 give the number of offences recorded by the police in the Essex police force area and the Southend Crime and Disorder Reduction Partnership (CDRP) area. Recorded crime data is published on a financial year basis and data at CDRP level is only available for six key offences for 1999–2000 and 2000–01 but for all offences from 2001–02.

Tables 3 and 4 give the number of defendants proceeded against and found guilty in the Essex police force area and South East Essex petty sessional area. Court proceedings data is published on a calendar year basis. Data for 2004 will not be available until the autumn.

Because recorded crime deals with offences and court proceedings deals with defendants, the two data sets are not directly comparable.

Table 1: Offences recorded by the police by various offence types, 1997–98 to 2001–02

Number of offences

	Burglary	*Theft of a vehicle*	*Common assault*	*Violence against the person*	*Violent crime*[1]	*Sexual offences*	*Robbery*	*Fraud*	*Forgery*

Car Thefts

Tom Cox: To ask the Secretary of State for the Home Department how many car thefts have taken place in each of the last three years within the Greater London area. [218203]

Ms Blears: The available information is for the London region. The number of recorded offences of theft of a vehicle are as follows:

	Number
2001–02	62,492
2002–03	58,739
2003–04	55,384

Community Support Officers

Mr. Amess: To ask the Secretary of State for the Home Department (1) how many times in each year since their inception *(a)* Essex and *(b)* Southend community support officers have used the power to maintain and enforce a cordoned area established under the Anti-Terrorism, Crime and Security Act 2001; [209474]

(2) how many times in each year since their inception *(a)* Essex and *(b)* Southend community support officers have used their power to request a name and address for fixed penalty offences and offences that cause injury, alarm and distress to another person or damage or loss of another's property; [209477]

(3) how many times in each year since their inception *(a)* Essex and *(b)* Southend community support officers have used their power to request the name and address of a person acting in an antisocial manner; [209478]

(4) how many times in each year since their inception *(a)* Essex and *(b)* Southend community support officers have used their power to save life or limb, or to prevent serious damage to property; [209479]

(5) how many times in each year since their inception *(a)* Essex and *(b)* Southend community support officers have used their power to seize vehicles used to cause alarm and distress; [209480]

(6) how many times in each year since their inception *(a)* Essex and *(b)* Southend community support officers have used their powers to (i) require the removal of abandoned vehicles, (ii) stop vehicles for the purpose of a road check, (iii) stop and search vehicles and remove items carried by drivers or passengers under the Anti-terrorism, Crime and Security Act 2001 and items carried by pedestrians, (iv) regulate traffic for the purpose of escorting abnormal loads and (v) stop a vehicle for emissions testing; [209481]

(7) how many times in each year since their inception *(a)* Essex and *(b)* Southend community support officers have used their power to request a person to stop drinking in a designated public area and to surrender open containers of alcohol; [209482]

(8) how many times in each year since their inception *(a)* Essex and *(b)* Southend community support officers have used their powers to (i) confiscate alcohol from a young person and (ii) confiscate cigarettes and tobacco products from a young person; [209483]

(9) how many fixed penalty notices for dog fouling, littering and riding on footpaths have been issued by *(a)* Essex and *(b)* Southend community support officers in each year since their inception. [209475]

Ms Blears: The information requested is not available. It is for the chief constable of Essex police to determine the duties of community support officers in Essex and to designate under the relevant legislation which powers they may exercise.

Tom Cox: To ask the Secretary of State for the Home Department how many community support officers were employed in the London borough of Wandsworth in each of the last three years. [218205]

Ms Blears: The information for the number of community support officers in the Wandsworth borough Operational Command Unit has been provided by the Commissioner of Police of the Metropolis (Sir Ian Blair QPM) and is set out in the table.

Year (as at 31 March)	Number of community support officers
2003	7
2004	34
2005 (1 March)	[1]32

[1] Wandsworth has been allocated a total of 44 Community Support Officers by 31 March 2005.

Martin Linton: To ask the Secretary of State for the Home Department how many community support officers are working in Wandsworth; and how many there will be in April 2005. [218517]

Ms Blears: I am told by the Commissioner of Police of the Metropolis (Sir Ian Blair QPM) that the Wandsworth borough Operational Command Unit had 32 community support officers (CSOs) on 1 March and that it is the intention that the borough should have 44 CSOs by 31 March 2005.

The allocation of CSOs to each of the London borough Operational Command Units is a matter for the Commissioner to decide.

Crime Statistics (Leicester, South)

Mr. Gill: To ask the Secretary of State for the Home Department how many *(a)* crimes, *(b)* burglaries, *(c)* thefts and *(d)* vehicle-related crimes were reported to the police in Leicester, South in each year since 1997. [217986]

Ms Blears: The available information is given in the tables. Leicester, South comes within the Leicester Crime and Disorder Reduction Partnership (CDRP) area and data at CDRP level has only been collected from 1999–2000.

Table 1 gives figures for burglary and vehicle-related thefts for the Leicester CDRP from 1999–2000 to 2001–02. Figures for all crime and other thefts were not collected during these periods.

Table 2 gives all the figures requested for 2002–03 and 2003–04. Because of the introduction of the National Crime Recording Standard in April 2002, figures from this date are not directly comparable with those for earlier years.

Table 1: Offences recorded by the police in the Leicester Crime and Disorder Reduction Partnership area 1999–2000 to 2001–02

Number of offences

	Burglary	*Vehicle related thefts*
1999–2000	4,287	8,489
2000–01	3,391	7,349
2001–02	3,317	7,774

Note:
The data in this table is prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 2: Offences recorded by the police in the Leicester Crime and Disorder Reduction Partnership area 2002–03 and 2003–04

Number of offences

	2002–03	*2003–04*
Total crime[1]	48,357	47,376
Burglary	3,379	3,077
Theft[2]	4,532	4,271
Vehicle related thefts	8,056	6,558

[1] Relates to all offences recorded in the Leicester CORP.
[2] Excluding vehicle-related thefts.

Note:
The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Criminal Cases Review Commission

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the progress of the Criminal Cases Review Commission in identifying issues for possible reform of criminal law, procedure and practice. [218656]

Paul Goggins: Based on its casework experience the Commission submitted its view on partial defences to murder to the Law Commission during its consultation exercise; and has drawn to the attention of the Home Office a technical aspect of sentencing law following revocation of parole licences which has given rise to several references. There are a number of proposals for the possible reform of criminal law, procedure and practice which the Criminal Case Review Commission (CCRC) has drawn to our attention where progress has been made, but where an appropriate legislative vehicle is awaited to implement the changes.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the results of the liaison between the Criminal Cases Review Commission and the Historical Abuse Appeals Panel. [218657]

Paul Goggins: This is an internal matter for the Commission. I understand there have been several meetings between representatives of the Commission and the Historical Abuse Appeals Panel. Relevant issues have been discussed and a protocol for co-operation between the two organisations has been drafted.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what impact the Cannings case has had on the type of evidence the Criminal Cases Review Commission uses to justify a referral of a case to the Court of Appeal. [218712]

Paul Goggins: This judgment has had no impact, as such, on the type of evidence used to justify a referral, but the decision is of course applied by the Commission whenever it is appropriate to do so.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether the Criminal Cases Review Commission's section 17 powers will be extended to Scotland. [218715]

Paul Goggins: We are aware of the Criminal Cases Review Commission's concerns on this issue. At their request we are considering this matter along with a number of other legislative issues raised by the Commission.

Departmental Policies

Geraint Davies: To ask the Secretary of State for the Home Department if he will set out, with statistical evidence relating as closely as possible to the Croydon Central constituency, the effects of changes to departmental policy since 1997 on the Croydon Central constituency. [219298]

Fiona Mactaggart: The Government has put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Croydon central constituency, as well as for all parts of the UK.

For example, between March 1997 and September 2004, the number of police officers in the Metropolitan Police Force increased by 3,434 from 26,677 to 30,111. The Government's introduction of community support officers (CSOs) in 2002 has put 1,889 CSOs on Metropolitan Police Force streets to tackle crime and antisocial behaviour. Between 1997 and 2003–04, the Metropolitan Police Force Area has seen a reduction in recorded domestic burglary crimes of 23 per cent. and in recorded vehicle crimes of one per cent.

The Metropolitan Police Service (MRS) will receive £1,927.8 million in general grants for 2005–06, an increase of 5.81 per cent. (£105.8 million) over 2004–05. The MPS also gains around £4.2 million from the Amending Report for 2003–04, bringing the overall increase to 6.04 per cent. General grants funding to the MPS has increased by 28 per cent. between 1997–98 and 2005–06. In addition to general grants, the MPS will also receive around £207 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the Police Authority and the chief constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder Reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering Government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Five CCTV projects in the Croydon CDRP area received a total of £964,986 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £2.16 million has been allocated to Croydon CDRP under these initiatives. A further £2.5 million has been provided over the two years 2003–04 and 2004–05 to the Home Office Regional Director in London for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in Croydon set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In Croydon a total of 27 antisocial behaviour orders have been issued as of 1 March 2005. Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp

Tackling Drug Misuse is a priority of this Government and its policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government has invested substantially in measures to reduce the harms caused by illegal drugs, focusing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. Croydon has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drug Interventions Programme. In 2003–04 the allocation for Croydon Drug Action Team amounted to £2.11 million, rising to £3.44 million in 2004–05. Details of action taken to tackle drugs in the Croydon central constituency can be obtained from the Croydon Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams

The Government is working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the futurebuilders fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk

This year, 2005, is the year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found at www.yearofthevolunteer.org

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08 available on the Home Office website at http://www.homeoffice.gov.uk

Mr. Sedgemore: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to Haltemprice and Howden constituency, the effects on Haltemprice and Howden of his Department's policies and actions since 2 May 1997. [216022]

Fiona Mactaggart: The Government have put in place policies in the areas of crime reduction, antisocial behaviour, policing and active communities that are yielding considerable benefits for the Haltemprice and Howden constituency, as well as for all parts of the UK.

For example, between March 1997 and March 2004, the number of police officers in the Humberside police force increased by 186 from 2,045 to 2,231. Following the Government's introduction of Community Support Officers (CSOs) in 2002, Humberside is in the process of recruiting 22 CSOs to tackle crime and antisocial behaviour on Humberside streets. Between 1997 and 2003–04, Humberside has seen a reduction in recorded domestic burglary crimes of 27 per cent. and in recorded vehicle crimes of 18 per cent.

Humberside Police Force will receive £118.9 million in general grants for 2005–06, an increase of 3.75 per cent. (£4.3 million) over 2004–05. Humberside benefits from the decision to provide a funding floor of 3.75 per cent. If the funding formula had been strictly applied, the Force would have received £0.7 million less. Humberside also gains around £0.2 million from the Amending Report for 2003–04, bringing the overall increase to 3.95 per cent. General grants funding to Humberside has increased by 27 per cent. between 1997–98 and 2005–06. In addition to general grants, Humberside will also receive around £8 million in specific grants funding for targeted initiatives and capital provision in 2005–06. The distribution of resources locally is a matter for the Police Authority and the Chief Constable.

As crime prevention requires action across communities, every area has had a local Crime and Disorder Reduction Partnership (CDRP) since 1998 which brings together the police, health services, drugs agencies and council and community representatives to decide how to prevent and deter crime and antisocial behaviour.

The Crime Reduction Programme (CRP) was a pioneering government intervention programme which ran for three years from April 1999 in England and Wales and took an evidence-based approach to crime reduction. Grants of over £340 million were allocated to over 1,470 projects, including CCTV, under 20 initiatives that formed part of the programme. Five CCTV projects in the East Riding CDRP area (which includes the Haltemprice and Howden constituency) received a total of £467,568 from the CRP.

Since 2001, successive initiatives have provided direct funding to each of the 376 Crime and Disorder Reduction Partnerships in England and Wales. These initiatives include Communities Against Drugs, the Safer Communities Initiative, the Small Retailers in Deprived Areas scheme and the Building Safer Communities Fund. Since 2001, a total of £1.05 million has been allocated to East Riding CDRP under these initiatives. A further £1.8 million has been provided over the two years 2003–04 and 2004/05 to the Home Office Regional Director in the Yorkshire and the Humber for CDRP capacity building across the region.

It is estimated that out of a million active offenders, 100,000 have three or more convictions and are responsible for half of all crime. There is a Prolific and other Priority Offenders (PPO) scheme in East Riding of Yorkshire set up to target those offenders who cause a disproportionate amount of crime, disorder and antisocial behaviour in the community.

The Government's Crime Reduction Website provides further information on the work being done to reduce crime across the country, including information about action and results in local areas. It is available at http://www.crimereduction.gov.uk.

New legislation has given local agencies a raft of powers, from antisocial behaviour orders to local dispersal orders and crack house closure powers, to work with local people to tackle antisocial behaviour and nuisance. In East Riding of Yorkshire a total of 19 antisocial behaviour orders are currently issued (at February 2005). Local contacts for tackling antisocial behaviour can be found on http://www.together.gov.uk/authority.asp .

Tackling Drug Misuse is a priority of this Government and its policy is set out in the 10 year National Drug Strategy launched in 1998 and updated in December 2002. (A copy of the Updated Drug Strategy 2002 is held in the Library.) Under this, the Government have invested substantially in measures to reduce the harms caused by illegal drugs, focussing on the four strands of:

reducing the supply of illegal drugs;

preventing young people from becoming problematic drug users;

providing effective treatment to all who need it; and

reducing drug-related crime.

Direct annual funding nationally to tackle drug misuse amounted to £1,244 million in 2003–04, rising to £1,344 million in 2004–05. East Riding of Yorkshire has seen a significant increase in direct funding for tackling drugs, in particular for drug treatment services and the throughcare and aftercare elements of the Drugs Intervention Programme. In 2003–04 the allocation for East Riding of Yorkshire Drug Action Team amounted to £1.3 million, rising to £1.8 million in 2004–05. Details of action taken to tackle drugs in the Haltemprice and Howden constituency can be obtained from the East Riding of Yorkshire Drugs Action Team, for contact details see http://www.drugs.gov.uk/Links/DrugActionTeams.

The Government are working to ensure that citizens, communities and the voluntary sector are more fully engaged in tackling social problems, and there is more equality of opportunity and respect for people of all races and religions. Active community participation in England has increased by 1.5 million people between 2001 and 2003. Charities have been supported more effectively, and £125 million is being invested across the country through the 'futurebuilders' fund in voluntary and community organisations that help provide valuable public services. Advice on ways to engage local people in helping their communities is available on the Active Citizenship Centre website http://www.active-citizen.org.uk.

This year, 2005, is the year of the Volunteer which is being delivered by the Home Office in partnership with Community Service Volunteers and Volunteering England. This will include a whole range of events in

local communities across the country that aim to celebrate the contribution which volunteers make to the quality of people's lives, and encourage more people to volunteer. We are particularly keen to encourage young people, black and minority ethnic groups, those with no qualifications and disabled people to get involved. More details can be found atwww.yearofthevolunteer.org .

Detailed information on the impact of Home Office policies across the full range of responsibilities is set out in the Home Office Annual Report and in the Strategic Plan for 2004–08, available on the Home Office website at http://www.homeoffice.gov.uk.

Gaelic Language

Mr. Alan Reid: To ask the Secretary of State for the Home Department what his Department's policy is on the use of the Gaelic language; and what plans his Department has to prepare and implement a Gaelic language scheme. [217095]

Fiona Mactaggart: Action to support the Gaelic language is primarily the responsibility of Scottish Ministers.

The Home Office attaches great importance to the promotion and protection of the Gaelic language in line with the UK's obligations under the European Charter for Regional and Minority Languages.

The Gaelic Language (Scotland) Bill currently before the Scottish Parliament does not extend statutory obligations on UK public bodies in Scotland in relation to the preparation or implementation of Gaelic language plans. However, UK departments and public bodies which operate in Scotland may—like comparable Scottish public bodies—have a role to play in facilitating the use of the language.

The Home Office has been working closely with colleagues in the Scotland Office and the Scottish Executive on the role our department can play, voluntarily, in securing the status of Gaelic.

Illegal Immigrants (Albanians)

Tom Cox: To ask the Secretary of State for the Home Department how many Albanian nationals have been deported from the United Kingdom in each of the last three years. [219760]

Mr. Browne: The latest available information on the number of Albanian nationals removed from the UK as a result of deportation action in each of the last three years is shown in the table.

Albanian nationals deported from the UK, 2002 to 2004 [1,2]

	Total
2002	n/a
2003	2
2004[2]	8

n/a = Information not available.

[1] These figures are based on management information and are not National Statistics.

[2] Data for 2004 are provisional.

Infectious Diseases (UK Entrants)

David Davis: To ask the Secretary of State for the Home Department how many *(a)* asylum seekers, *(b)* tourists and *(c)* immigrants entering the UK were tested for (i) tuberculosis, (ii) HIV and (iii) hepatitis in each year since 1997; and what proportion tested positive in each case. [217742]

Mr. Charles Clarke: Referral statistics are not collected routinely for all ports of entry. However we have obtained the statistics shown in the table for tuberculosis checks at Heathrow and Gatwick from the bodies which carry out the checks there. These statistics cover all passengers who are routinely referred.

	Heathrow		*Gatwick*	
	Referrals for tuberculosis check	*Tuberculosis cases identified*[1]	*Referrals for tuberculosis check*	*Tuberculosis cases identified*[1]
1997–98	65,188	100	n/a	—
1998–99	72,079	119	n/a	—
1999–2000	88,079	119	267	1
2000–01	108,170	89	773	15
2001–02	148,619	94–138	3,548	36
2002–03	164,635	98–173	1,882	22
2003–04	175,039	92–205	1,705	8

[1] Figures given may not be strictly comparable because of changes in definitions used by the health control unit at the airport. Where ranges are given, they reflect the fact that the unit does not always receive confirmation from a hospital that what the unit has identified as a case of TB on the basis of a chest x-ray is a case.

Inquests (Teesside)

Vera Baird: To ask the Secretary of State for the Home Department for how many days in *(a)* 2003 and *(b)* 2004 the (i) coroner, (ii) deputy coroner and (iii) assistant deputy coroner for Teesside sat on inquests. [212064]

Paul Goggins: This information is not available.

Vera Baird: To ask the Secretary of State for the Home Department what the salaries of the *(a)* coroner, *(b)* deputy coroner and *(c)* assistant deputy coroner of Teesside were on 1 December 2004. [212091]

Paul Goggins: The information is not held centrally. Coroners' salaries are determined by the relevant local authority which in this case is Middlesbrough borough council.

Internet Pornography

Mr. Hancock: To ask the Secretary of State for the Home Department what plans he has to bring forward further proposals to control access to violent pornography on the internet. [202240]

Paul Goggins: We understand the public concern about the availability of extreme and obscene material on the internet. We are currently considering how the law relating to pornographic material featuring violence and sexual abuse could be strengthened.

Mistaken Identity

Mr. Dalyell: To ask the Secretary of State for the Home Department how many cases of mistaken identity in relation to cases brought to prosecution he has been informed of in each of the last five years. [220340]

Paul Goggins: It is not possible from the Home Office Court Proceedings database to identify, from the number of defendants who were acquitted or had their case dismissed at court, those which involved mistaken identity, as the reasons behind the acquittal or dismissal are not collected.

Mobile Phones

Martin Linton: To ask the Secretary of State for the Home Department how many drivers have been stopped by police for driving while using a mobile phone in *(a)* London and *(b)* England since the ban came into force. [218529]

Ms Blears: Information collected centrally on the new offence of driving while using a hand held mobile phone relates to police action by written warning, fixed penalty notice and court proceedings. It does not cover all stops for the offence, some of which may result in advice or an oral warning. Data for 2003 will be available in late March 2005.

Use of a hands free mobile phone is not part of the new offence.

National Offender Management Service

Mr. Gerrard: To ask the Secretary of State for the Home Department under what legal authority regional offender managers under the National Offender Management Service structure are *(a)* taking responsibility for parts of the National Probation Service's budget in 2005–06 and *(b)* allowed to employ staff. [218793]

Paul Goggins: The Regional Offender Managers are civil servants and as such can exercise the Secretary of State's functions, which include making financial provision for local probation boards to perform their role. As civil servants they do not employ staff but can manage other civil servants.

Police Numbers

Mr. Webb: To ask the Secretary of State for the Home Department how many full-time equivalent police officers there are per 1,000 residents of *(a)* England, *(b)* Avon and Somerset police area and *(c)* south Gloucestershire; and how many there were in (i) 1979 and (ii) 1997. [218009]

Ms Blears *[holding answer 24 February 2005]:* The latest information on police strength wards published in Home Office Statistical Bulletin number 13/04 "Police Service Strength England and Wales, 31 March 2004".

The requested information is given in the following table.

	Police officer strength	*Strength per 100,000 population*
31 March 2004[1]		
England	130,988	264
Avon and Somerset	3,417	229
South Gloucestershire[2]	267	108
31 March 1997		
England	118,459	242
Avon and Somerset	2,989	204
South Gloucestershire[2]	—	—
31 March 1979		
England	103,574	224
Avon and Somerset	2,825	212
South Gloucestershire[2]	—	—

[1] Not comparable with previous years data. Includes staff on career breaks and maternity/paternity leave.
[2] Figures for south Gloucestershire not collected before 31 March 2002.

Police Training

Dr. Cable: To ask the Secretary of State for the Home Department what estimate he has made of the average cost of employing, training and developing a probationary police constable in the last year for which figures are available. [216739]

Ms Blears: Her Majesty's Inspectorate of Constabulary have estimated that the average salary, training and development costs of a probationary police constable up to independent patrol (which is normally 31 weeks after joining a force) in 2003–04 were £27,048. This figure includes salary costs of £13,993 per probationary police constable for that period and training and development costs of £13,055.

Information about the associated costs for recruitment, supervision, accommodation, information technology etc is not collated centrally and could be obtained only at disproportionate cost.

Prison Statistics

Mrs. Gillan: To ask the Secretary of State for the Home Department when the annual prison statistics for 2003 will be published; and what factors have determined the timescale for publication. [219517]

Paul Goggins: The Home Office statistical bulletin 'Offender management caseload statistics 2003' was published on 9 December 2004. This bulletin replaces the annual publications 'Prison statistics England and Wales' and 'Probation statistics England and Wales'. A copy of the publication is available in the Library, and is supplemented by further tables on the Home Office website at http://www.homeoffice.gov.uk/rds/omcs.html

Prison System

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment his Department has made of public attitudes to prison and its alternatives. [212336]

Paul Goggins: The Home Department conducts its own assessments of public attitudes to prison and its alternatives through its own research such as the British Crime Survey, and through the consideration of other research and representations.

Prison/Employer Links

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what plans his Department has to encourage links between prisons and local employers. [212319]

Paul Goggins: The National Offender Management Service is developing a joint prison probation strategy for establishing and maintaining links with employers. These links are focused on sectors that have significant labour shortages nationally and regionally, such as construction, catering, industrial cleaning, utilities, sports and fitness, driving and distribution. Opportunities are also being explored in horticulture and information communication technology. These sectors were identified following consultation with the Confederation of British Industry, Jobcentre Plus and Sector Skills Council.

The Prison Service is taking the lead on a cross Government work programme for engaging with employers which has been agreed by the Employment, Training and Education Sub-Board of the Reducing Re-offending Programme Board. This work programme includes officials from the National Offender Management Service (NOMS), the Probation Service, Jobcentre Plus, the Department for Education and Skills (DfES) and the Learning and Skills Council. National and local employers will be invited to be involved as the work programme develops. Its aim is to build on existing work to encourage employers to contribute to the training of offenders and to commit to the recruitment of those who achieve an agreed level of skills.

At a local level, employer links are being developed and maintained through the Heads of Learning and Skills and Resettlement Managers in establishments. They work closely with Jobcentre Plus, Learning and Skills Councils and voluntary organisations to involve employers in work and training programmes for prisoners and to encourage them to recruit prisoners on their release. From April 2005 the Learning and Skills Councils will assume responsibility for the skills training of all offenders, and will be seeking to meet local labour market needs. This will increase opportunities for linking with employers at a local level.

The Prison Service is currently developing an employer database, holding information on employers who are willing and able to offer work to ex-offenders. This will enable prison to access information about employment opportunities in their local area, and also nationally to assist prisoners who are held at establishments outside their home areas.

Prisoners (Art)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures his Department is taking to ensure that different parties involved in the arts work closely together to increase the range, quantity and quality of activities for prisoners. [212320]

Paul Goggins: Activities being undertaken by arts organisations in prisons and the community are well documented for all key stakeholders in the Directory of Arts Activities in Prisons, which has been produced annually by the Unit for Arts and Offenders with financial support from the Department for Education and Skills. The Unit also produces a regular e-mail newsletter for arts organisations working with offenders, hosts a Forum for Arts and Offenders and provides training to artists wanting to work with prisoners. The Unit for Arts and Offenders will be members of the newly formed National Offender Management Service (NOMS) Voluntary and Community Sector Advisory Group.

Arts for offenders are supported through the curriculum in prisons and through financial support provided centrally to several national arts organisations to actively promote arts activities in prisons. Most prisons now have a Head of Learning and Skills, funded by the Department for Education and Skills, and they will determine the part that arts activities and arts organisations can play within the establishment. At a major prison Arts conference last year to celebrate and promote arts activities for offenders, a guide was launched for Heads of Learning and Skills and Managers in the Voluntary Sectors on provision of voluntary sector activities in prisons. This includes a consistent and joint approach to joint working on setting up, monitoring and evaluating the effectiveness of provision.

Prisons

Mrs. Gillan: To ask the Secretary of State for the Home Department how many prison officers and staff have *(a)* been tested for tuberculosis and *(b)* tested positive for tuberculosis (i) in each year since 1997 and (ii) between 1 January and 1 December. [203712]

Paul Goggins *[holding answer 13 December 2004]:* This information is not held centrally and can be obtained only at a disproportionate cost.

Mrs. Gillan: To ask the Secretary of State for the Home Department (1) what assessment his Department has made of the effects of the recruitment moratorium by Her Majesty's Prison Service; [218147]

(2) when the decision was made by Her Majesty's Prison Service to introduce a recruitment moratorium; [218148]

(3) how long the recruitment moratorium by Her Majesty's Prison Service will continue. [218149]

Paul Goggins: The Prison Service introduced a managed recruitment ban on 6 December 2004. The need for the ban to continue has been recently reviewed and the Prison Service has now decided that from 1 April 2005, recruitment can recommence in order to fill vacancies. An evaluation of the effects of the ban is currently being assessed but it has successfully contributed toward the reduction of the projected overspend by the Prison Service for 2004–05 to a level where the ban will only need to remain in place for the remainder of this financial year.

Since January 2005, establishments have been required to report monthly on the impact of the ban to assess operational pressures. The imposed ban was not an absolute freeze on recruitment and was not intended to prevent the filling of vacancies that, if left unfilled, could compromise the safety and security of establishments.

Mrs. Gillan: To ask the Secretary of State for the Home Department when he will publish the 2003 Prisoner Resettlement Survey. [218196]

Paul Goggins: The 2003 Prisoner Resettlement Survey 2003 was published on 24 February 2005.

Dr. Vis: To ask the Secretary of State for the Home Department for what reasons cookery classes in Bullwood Hall prison have been discontinued. [218220]

Paul Goggins: Cookery classes for prisoners have not been stopped at Bullwood Hall prison. All education classes at Bullwood Hall took place in a building known as the activity centre. Asbestos has been found in areas of this building and work is currently under way to ensure its safe removal by specialist contractors. While this work is carried out, the cookery class and other classes continue to take place in other areas of the prison.

Dr. Vis: To ask the Secretary of State for the Home Department how many women have been transferred from Holloway prison to Cookham Wood prison in the last six months; and what the reasons were for the transfers. [218221]

Paul Goggins: Between 30 July 2004 and 18 February 2005, 79 prisoners were transferred from Holloway prison to Cookham Wood prison and young offender institution.

Of these, 77 were routine allocations from a local prison serving the courts to a training prison and two were for disciplinary reasons.

Dr. Vis: To ask the Secretary of State for the Home Department what steps he is taking to improve conditions at Cookham Wood Prison. [218222]

Paul Goggins: Over the last 12 months Cookham Wood has successfully implemented a performance improvement plan and has implemented most of the recommendations made by Her Majesty's Chief Inspector of Prisons in her report of an inspection of the prison which was published on 6 February 2004. This has contributed to a significant improvement in conditions across the prison.

Mr. Oaten: To ask the Secretary of State for the Home Department what the cost of mandatory drug testing programmes in prisons was in each of the last five years; and if he will make a statement. [218861]

Paul Goggins: The central costs of the mandatory drug testing programme in the last five years are given in the following table.

	£ million
1999–2000	1.8
2000–01	1.8
2001–02	1.6
2002–03	1.4
2003–04	1.4

Mr. Norman: To ask the Secretary of State for the Home Department in how many prisons the population was in excess of the certified normal accommodation on the latest date for which figures are available. [219839]

Paul Goggins: As at 28 February 2005, 78 prisons were operating with a population above their in-use certified normal accommodation (CNA) level. This is the uncrowded capacity of the establishment. All prisons were operating within their useable operational capacity, which is the total number of prisoners that an establishment can hold taking into account control, security and the proper operation of the planned regime.

The Government have increased the number of prison places by around 17,000 since 1997 to the current useable operational capacity of 76,600. We plan to increase this by a further 3,800 to around 80,400 in 2007.

Probation Service

Mrs. Helen Clark: To ask the Secretary of State for the Home Department by what mechanisms the future arrangements for the governance of the probation service will protect the employment rights and status of staff. [205314]

Paul Goggins: Any changes in the future governance of the probation service will take full account of the need to comply with employment protection provisions, both contractual and legislative. Any proposals will also be the subject of full consultation with the recognised trade unions.

Mrs. Helen Clark: To ask the Secretary of State for the Home Department whether *(a)* the Probation Pay and Rewards Review and *(b)* the joint agreement on workload prioritisation will be implemented prior to further organisational changes for the Probation Service in England and Wales. [205316]

Paul Goggins: I remain committed to the implementation, in 2005, of a negotiated, affordable, modernised pay and reward structure for he National Probation Service (NPS).

The workload measurement tool (WMT) is currently being piloted with the possibility of a third metropolitan area joining the pilot. Decisions about the implementation of the workload measurement tool across the NPS will not be taken without determining that the tool is "fit for purpose" in relation to the requirements of orders imposed under the Criminal Justice Act 2003. The project will also be the subject of a full financial appraisal and a detailed business case will need to be established. This current phase of work is scheduled for completion by April 2005.

The Probation Boards' Association and the NPS' trade unions are all represented on the WMT's Project Board and are aware of the time scales associated with the project.

Research and Development

Mrs. Anne Campbell: To ask the Secretary of State for the Home Department what *(a)* his Department's expenditure and *(b)* the expenditure of each agency for which his Department is responsible on research and development relating to UK university departments and research centres was in each year between 2001–02 and 2003–04. [206995]

Fiona Mactaggart: It is not possible to provide the information requested in respect of the core Home Office and its agencies. While it is possible to provide total expenditure on third party suppliers an analysis by supplier or category of supplier cannot be provided without additional investigation and at disproportionate cost.

The Home Office currently sponsors the following agencies:

Criminal Records Bureau

Probation Service

Prison Service

United Kingdom Passport Service

Only the core Home Office and Passport Service have recorded expenditure on R and D within the period covered by the question and these figures have been provided in response to separate questions.

Sentencing

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the punishments available for those found to have perverted the course of justice. [207343]

Paul Goggins: Perverting the course of justice is a common law offence, so there is no set maximum or minimum penalty available to the court. Common law offences are ones which are not embodied in statute; they consist of rules of law based upon common custom and usage, and on judicial judgments.

In 2003, 1,391 persons were found guilty of perverting the course of justice. 608 (43.7 per cent.) received a custodial sentence and the average sentence length was 8.8 months. Further information is given in the table.

Persons proceeded against and those found guilty of offences of perverting the course of justice, by outcome—England and Wales

Number of persons

	2002	*2003*
Sex	T	T
Persons proceeded against	2,646	2,396
Persons found guilty	1,549	1,391
Sentence breakdown		
Absolute/conditional discharge	43	53
Fine	39	43
Average fine amount (£)	438	789
Community sentence	683	636
Fully suspended sentence	44	46
Immediate custody	737	608
Average[1] custodial sentence length (months)	7.0	8.8
Otherwise dealt with	3	5

[1] Excluding life sentences (one imposed on a male in 2003) Figures relate to persons where the offence was their principal offence.

Source:
RDS-NOMS

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will re-examine the arrangements for *(a)* detention and *(b)* treatment of offenders with mental health problems. [213356]

Paul Goggins: The Government are doing a great deal to ensure that offenders with mental health problems are not sent to prison inappropriately. The operation of court diversion schemes and the development of wider sentencing options, coupled with the further development of other mental health services, are closing gaps in community care and reducing the number of such offenders who reach the courts.

Mental health services within prisons are improving significantly as a result of new investment that has been put into the development of NHS mental health in-reach services. The NHS Plan (2000) commitments for 2004 have been successfully met. No prisoner with a serious mental illness now leaves prison without a care plan, and 300 additional staff have been employed. NHS mental health in-reach investment will reach £20 million a year by 2005–06 so that in-reach type services are available to every prison in England and Wales, currently 94 in-reach teams are in operation.

There is a firm commitment to ensure that people who are too ill to remain in prison are transferred to hospital. Tighter regular monitoring has been introduced to identify prisoners who have been waiting unacceptably long periods for transfer to hospital. A protocol has been issued setting out what must be done when a prisoner has been waiting for a hospital place for more than three months following acceptance by the NHS. Both have brought about an improvement. 721 prisoners were transferred to hospital in 2003, an increase of 12 per cent. on the 2002 figure of 644. The Prison Service, the joint Prison Health team, the National Institute for Mental Health in England (NIHME), and the commissioners and providers of NHS hospital services are working together to establish a national waiting time limit for transfers between custodial settings and hospitals.

The Mental Health Bill includes provisions to enable more flexible use to be made of mental health services for offenders. Community disposals are permitted for offenders who can safely be treated without detention and secure beds are released for those who need them. Public protection has also been improved by the development of assessment and treatment services for dangerous offenders with severe personality disorders.

Sexual Violence (Legal Advice)

Vera Baird: To ask the Secretary of State for the Home Department (1) how many specialist sexual violence legal advice lines are funded by his Department in *(a)* England and Wales and *(b)* the North East; [215687]

(2) if he will increase the number of specialist sexual violence legal advice lines funded by his Department in England and Wales. [215688]

Paul Goggins: At present the Home Office does not fund any specialist sexual violence legal advice lines.

However, an additional £4 million funding over two years from the new Victims Fund is being used to support the development of services for victims of sexual offending. Ministers have recently approved funding in 2004–05 for 45 organisations in the voluntary and community and statutory sectors providing services to victims of sexual violence. Some of the successful applicants provide specialist telephone helpline services. All successful applicants have been notified and a list of grants awarded from the Victims Fund will be published in due course.

Targets

Mr. Bercow: To ask the Secretary of State for the Home Department what recent progress has been made towards the public service agreement target to improve the level of public confidence in the criminal justice system. [219111]

Paul Goggins: Public confidence in the criminal justice system (CJS) is assessed using questions in the British crime survey. Latest data shows that the proportion of people who believe the CJS is effective in bringing people who commit crimes to justice has increased to 42 per cent. (year to September 2004) from a baseline of 39 per cent. (2002–03).

Terrorism (Arrests)

Lynne Jones: To ask the Secretary of State for the Home Department pursuant to the oral answer of 23 February 2005, *Official Report*, column 301, how many of those arrested post-11 September 2001 in connection with terrorist activity were *(a)* released without charge, *(b)* charged, and with what crimes, *(c)* convicted and given custodial sentences, *(d)* convicted and given non-custodial sentences and *(e)* candidates for deportation. [219361]

Ms Blears: Statistics provided to the Home Office by the Police on arrests and charges from 11 September 2001 until 31 December 2004 under the Terrorism Act 2000 are on the Home Office website at www.homeoffice.gsi.gov.uk/terrorism/. (These are compiled from recent police records and are therefore subject to change as cases go through the system.)

Key facts and statistics:

Police records show that from 11 September 2001 until 31 December 2004, 701 people were arrested under the Terrorism Act 2000.

Charges:

119 of these were charged under the Act. Of these, 45 were also charged with offences under other legislation.

135 were charged under other legislation. This includes charges for terrorist offences that are already covered in general criminal law such as murder, grievous bodily harm and use of firearms or explosives.

Convictions:

17 Individuals have been convicted of offences under the Terrorism Act.

Other information:

The following table gives the outcome for those not covered above:

Outcome	*Number*
Transferred to immigration authorities	59
On bail to return	22
Cautioned	7
Dealt with under mental health legislation	7
Awaiting extradition	1
Returned to prison service custody	1
Released without charge	351

More detailed information is not held by the Home Office.

Home Office Research Development and Statistics publish a Command Paper and supplementary volumes of criminal statistics annually. A breakdown of prosecutions and convictions under the Terrorism Act 2000 for 2001, 2002 and 2003 are in the accompanying tables. Figures for 2004 will not be available until later in the year.

Number of defendants proceeded against at magistrates courts, found guilty and sentenced at all courts for offences under the Terrorism Act 2000, England and Wales 2001[1]

Offence description	*Statute*	*Proceeded against*	*Found guilty*	*Sentenced*
Relating to membership of proscribed organisations	Terrorism Act 2000, Sec. 11	3	—	—
Wearing any item of dress in support of a proscribed organisation	Terrorism Act 2000, Sec. 13a	—	—	—
Wears, carries or displays any article in support of a proscribed organisation	Terrorism Act 2000, Sec. 13b	—	—	—
Contributions towards acts of terrorism	Terrorism Act 2000, Sec. 15–18 and 22	1	—	—
Failure to disclose knowledge or suspicion of acts of terrorism	Terrorism Act 2000, Sec. 19	—	—	—
Failure to leave a cordoned area immediately when ordered to do so by a constable in uniform	Terrorism Act 2000, Sec.36(1)*(a)*	—	—	—
Failure to leave premises, which abut or are wholly or partially within a cordoned area, immediately if ordered to dos o by a constable in uniform	Terrorism Act 2000 Sec.36(1)*(b)*	—	—	—
Failure of driver or person in charge of a vehicle which is in a cordoned area to immediately move the vehicle if ordered to do so by a constable in uniform.	Terrorism Act 2000 Sec.36*(c)(d)(e)*	—	—	—
Contravention or a prohibition or restriction order made by a constable in uniform to a cordoned area.	Terrorism Act 2000 Sec.36*(f)*	—	—	—
Making any disclosure likely to prejudice an investigation about acts of terrorism or failing to disclose information about acts of terrorism.	Terrorism Act 2000 Sec. 36	—	—	—
Failure to stop (Power to stop and search vehicles and pedestrians)	Terrorism Act 2000 Sec. 43, 44 and 47(1)*(a)(b)*(2)	1	—	—
Wilful obstruction (Power to stop and search vehicles and pedestrians)	Terrorism Act 2000, Sec. 43, 44 and 47(1)*(c)* and (2)	—	—	—
Failure to move vehicle when ordered to do so by a constable in uniform, (vehicle had been permitted to remain at rest in contravention of any prohibition or restriction)	Terrorism Act 2000, Sec. 48 and 51(2)	—	—	—

Number of defendants proceeded against at magistrates courts, found guilty and sentenced at all courts for offences under the Terrorism Act 2000, England and Wales 2001[1]

Offence description	*Statute*	*Proceeded against*	*Found guilty*	*Sentenced*
Leaves a vehicle, or permits a vehicle to remain at rest, on a road in contravention of a prohibition or restriction.	Terrorism Act 2000 Sec. 48 and 51(1)	—	—	—
Provides instruction; invites another to receive instruction in weapon training.	Terrorism Act 2000 Sec. 54	1	—	—
Directing terrorist training.	Terrorism Act 2000 Sec. 56	—	—	—
Collect, record or possession of information or articles likely to be of use to Terrorists.	Terrorism Act 2000 Sec. 57 and 58	—	—	—
Failure to furnish information when required by examining officer.	Terrorism Act 2000 Sch.7(5)*(a)* and (18)	—	—	—
Failure to produce either a valid passport or identifying document when required by examining officer	Terrorism Act 2000 Sch7(5)*(b)* and (18)	—	—	—
Failing to declare or produce any relevant documents when required by examining officer.	Terrorism Act 2000 Sch.7(5)*(c)(d)* and (18)	—	—	—
Failing to submit to search by examining officer or person acting on his/her behalf.	Terrorism Act 2000 Sch.7(7)(8) and (18)	—	—	—
Failing to complete and produce an embarkation card when required to by examining officer.	Terrorism Act 2000 Sch.7(16) and (18)	—	—	—
Wilfully obstructing a constable in the execution of his duty in a cordoned area	Terrorism Act 2000 Sch.5 Sec.36(1)(2)	—	—	—
Wilfully obstructing or seeking to frustrate the object of a search in a cordoned area	Terrorism Act 2000 Sch.5(1–3)	—	—	—
Total		6	—	—

[1] These data are on the principal offence basis.

RDS—Office for Criminal Justice Reform, Home Office IOS: 079–05

Ticket Sales

Pete Wishart: To ask the Secretary of State for the Home Department (1) what assessment he has made of the number of fraudulent sales in 2004 of tickets for music events *(a)* by street based ticket touts and *(b)* on the internet; [220319]

(2) what assessment he has made of the effectiveness of legal provisions in dealing with *(a)* the fraudulent sale of music event tickets online and *(b)* misrepresentations of the number of tickets for a music event available for sale online; and if he will make a statement. [220320]

Paul Goggins: We have not made an assessment of the number of fraudulent sales of tickets for music events.

The fraudulent sale of goods is currently covered by the offence of 'obtaining property by deception' in section 15 of the Theft Act 1968. In 2004, the Government issued a consultation paper on fraud law reform. Under the Government's proposals, this behaviour would constitute a fraud by false representation. The Government plans to take forward these proposals when parliamentary time permits.

Traffic Enforcement Officers

John Thurso: To ask the Secretary of State for the Home Department how many *(a)* traffic enforcement officers, *(b)* traffic wardens and *(c)* council parking attendants were operating in each police authority area in each year since 2002–03. [218213]

Ms Blears: Information on traffic enforcement officers and council parking attendants is not collected centrally. The statistics for traffic wardens are given in the table.

Traffic wardens by police force area: 2002–03 and 2003–04

Number of wardens

Force	*2002–03*	*2003–04*

Warwickshire	9	8

Traffic wardens by police force area: 2002–03 and 2003–04

Number of wardens

Force	*2002–03*	*2003–04*
West Mercia	15	13
West Midlands	74	72
West Yorkshire	98	85
Wiltshire	7	5
Total	2,108	1,688

Violent Crime

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures he plans to introduce to reduce the level of violent crime. [218791]

Paul Goggins: British Crime Survey figures—the most reliable long-term indicator of underlying trends in violence—indicate that the level of violent crime has fallen by 36 per cent. since 1995, when there was a peak of over 4 million violent incidents, and by 26 per cent. since 1997.

The Government have taken action to ensure better policing and better prevention and protection against crime. At the end of August 2004, there were nearly 140,000 police officers in service, an all-time record. The Street Crime Initiative, launched in 2002 in 10 police force areas to tackle robbery, secured a 17 per cent. reduction in robberies in those areas in the first year. The levels of robbery have continued to fall, with the number of recorded robberies in the year to September 2004 down by 13 per cent. compared to the previous 12 month period.

Nevertheless, the Government continue to take the issue of violent crime and the impact it has on people's lives very seriously. That is why we have introduced a number of measures to tackle violent crime, and will continue to do so.

Almost half of all violent crime is alcohol-related and the Home Office, jointly with the Department of Health, are tackling this through the Alcohol Harm Reduction Strategy which was announced on 15 March 2004. There have since been two Alcohol Misuse Enforcement Campaigns led by the Home Office and the Association of Chief Police Officers, the first in 92 police areas in the summer of 2004 and the second in 180 police areas during the Christmas and new year period.

The two campaigns focused on tackling violent and disorderly behaviour by drunken troublemakers and the illegal sale and consumption of alcohol by under-18s. During the most recent campaign, the police and their partners visited over 31,000 licensed premises, carried out "sting" operations in nearly 1,000 of these, issued over 4,000 fixed penalty notices for alcohol-related offences, made over 6,000 arrests and confiscated alcohol from over 2,800 adults and juveniles. Further campaigns of this kind will be held.

We are also running the Tackling Violent Crime Programme in six police force areas. This programme aims to help local areas reduce violent crime and improve local partnership working.

On 21 January we published a number of proposals in a consultation document, "Drinking Responsibly". These include the introduction of:

"Alcohol Disorder Zones", with costs recovered from the pubs and bars which cause the most disorder;

an immediate 24-hour banning order on the sale of alcohol for premises found to be persistently selling alcohol to underage drinkers; and

"Drinking Banning Orders" for persons issued with three fixed penalty notices or three alcohol or disorder-related convictions, excluding them from pubs and bars within a specified period for a fixed period of time.

We are also taking action against other types of violent crime. The fight against domestic violence will be reinforced in July 2005 when the Domestic Violence, Crime and Victims Act 2004 takes effect. Courts will have greater powers to protect victims of domestic violence against further harassment by being able to issue restraining orders, even when a defendant has not been convicted.

Finally, we recognise the damaging impact of hate crime on community cohesion and public perceptions of safety. We have introduced proposals to make incitement to religious hatred a criminal offence under the Serious and Organised Crime and Police Bill.

Young Offenders

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures *(a)* are in place and *(b)* he plans to introduce to ensure early intervention and preventive measures designed to reduce the number of young people receiving custodial sentences. [219358]

Paul Goggins: We have introduced a range of measures across England and Wales to improve early intervention and the response to offending.

The youth justice agencies have been completely reorganised to improve delivery, through establishment of the Youth Justice Board for England and Wales and multi-agency youth offending teams in all local areas.

For under 10s we have introduced the child safety order, parenting contracts and parenting orders. The parenting measures also extend to over 10s.

For over 10s who offend we have introduced structured reprimands and final warnings; and for those who go to court the referral order with restorative justice panels, reparation order and action plan order. The Youth Justice Board has developed the intensive supervision and surveillance programme, which provides a strict and closely monitored regime for prolific and serious young offenders who might otherwise receive a custodial sentence.

We have also published our proposals to focus sentencing more clearly on the prevention of offending, by strengthening the range of community sentence interventions and introducing a specific intensive supervision and surveillance order.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he plans to take to reduce the number of young people released from custody who re-offend within two years. [219359]

Paul Goggins: Most young people who are sentenced to custody receive a detention and training order (DTO). The DTO is a two-part sentence, the first half spent in custody and the second in the community. The intention is to work with the young people during their time in custody to tackle their offending behaviour and to prepare them for life after release. The second (community) part of the order seeks to build on what has been begun, particularly by providing educational, training or employment opportunities. Youth offending teams (YOTs) are involved in both parts of the order and are responsible for putting in place the interventions during the community part.

The Youth Justice Board (YJB) is working to enhance community interventions and to strengthen continuity between the two parts of the order. Young people who receive custodial sentences tend to be those with a high risk of reoffending, but the integrated approach embodied in the DTO seeks to give them the best chance of turning away from offending and making a positive contribution to the community.

Youth Offending Teams

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he plans to take to improve the understanding of youth offending teams of their role. [219318]

Paul Goggins: The Youth Justice Board (YJB) oversees the operation of the youth justice system, including ensuring that Youth Offending Teams (YOTs) understand their role and how best to carry it out. It has established a performance management framework, designed to ensure local services work together to prevent children and young people from offending in the first place and to reduce the risk of further re-offending by existing offenders. It has introduced effective practice principles based on research evidence of what works in reducing offending and this is being rolled out across England and Wales. This is being supported and underpinned by the development of a National Qualification Justice professionals. The YJB is committed to ensuring that 80 per cent. of the youth justice workforce has benefited from professional training by March 2006.

The YJB has also been working worked closely with the antisocial behaviour unit in the Home Office to ensure that YOTS along with their local authority partners and the police put in place targeted prevention programmes aimed at diverting children and young people from antisocial and sub criminal activity. The YJB has developed guidance for YOTS for dealing with antisocial behaviour issues, which is due to be published shortly. Also the forthcoming draft Youth Justice Bill proposes to clarify the YOTS' role in supporting Antisocial behaviour initiatives.

Written Answers to Questions

Tuesday 8 March 2005

TRANSPORT

Community Railways (Lancashire)

5. **Mr. Jack:** To ask the Secretary of State for Transport if he will make a statement on the development of community railways in Lancashire. [220406]

Mr. McNulty: The Strategic Rail Authority published a Community Rail Development Strategy in November last year. The Strategy aims to involve local communities in the development of their lines, to increase patronage and to reduce the costs of the lines so that they will be sustainable for the longer term. Under the Strategy, seven lines in Lancashire have been selected for Community Rail designation.

Trunk Roads (Sussex)

17. **Tim Loughton:** To ask the Secretary of State for Transport how much his Department has spent on trunk road improvements in Sussex since 1997. [220418]

Mr. Jamieson: Since 1997 we have spent £28.9 million on major trunk road improvements, in Sussex. Information on expenditure on smaller trunk road improvements is not available.

Bus Services

19. **Mrs. Anne Campbell:** To ask the Secretary of State for Transport what steps he is taking to ensure that bus users are properly consulted about changes to the provision of bus services in their area. [220420]

Mr. McNulty: Regulations require the operator of a local bus service to provide the traffic commissioner and the local authority with at least 56 days notice of any change. We encourage all parties to work together to ensure the interests of passengers and the community are taken into account.

Paddy Tipping: To ask the Secretary of State for Transport what financial support he has made available for improved bus services in *(a)* Nottinghamshire and *(b)* England in the last four years. [220407]

Mr. McNulty: In the period 2000–01 to 2003–04, the Department made available to English local authorities a total of £305 million in bus grants of which £5.43 million was allocated to Nottinghamshire.

Bus services throughout England will also have benefited from the Department's bus service operators grant and support for local transport capital expenditure.

Tonnage Tax

Mr. Wareing: To ask the Secretary of State for Transport what recent discussions he has had in respect of the tonnage tax. [220410]

Mr. Jamieson: I have had several discussions recently with many of our social partners on this important topic. I am aware of the lobby of Parliament today that has been organised by the RMT union, and I have had the opportunity to meet their representatives in four different forums in the last three months to discuss tonnage tax. This includes my meeting on 22 February with the RMT parliamentary group which my hon. Friend attended.

Road Humps

John Mann: To ask the Secretary of State for Transport when he next expects to re-issue guidance on the use of road humps. [220415]

Mr. Jamieson: Current guidance remains good advice, and local authorities can design schemes that fit local circumstances. The Department aims later this year to publish a local transport note on the design and effectiveness of traffic calming measures including road humps, drawing together existing research and guidance.

Regional Air Services

Mr. Carmichael: To ask the Secretary of State for Transport if he will make a statement on public service obligations for regional air services. [220419]

Mr. McNulty: The Air Transport White Paper set out the Government's readiness to impose Public Service Obligations (PSOs) in certain limited circumstances in order to guarantee a minimum level of air services from UK regional airports to London.

Last year DfT consulted with stakeholders to clarify the circumstances in which this policy might be implemented. The consultation closed last November and officials are now analysing all views expressed both in the responses and meetings. Copies of the consultation responses and a short report summarising them have been posted on the DfT website.

A64

Mr. Greenway: To ask the Secretary of State for Transport if he will make a statement on the evaluation study on the economic and environmental impact of dualling the A64 in North Yorkshire. [219516]

Mr. Jamieson: I am expecting to receive the full report of the study from the Highways Agency shortly. Once I have carefully considered the conclusions and recommendations I will make a decision on the best way forward.

Berwick upon Tweed Railway Station

Mr. Greg Knight: To ask the Secretary of State for Transport for what reason and upon whose authority the entrance doors to Berwick upon Tweed railway station were closed to the public on Sunday 27 February at a time when the station was supposed to be open to the public and trains were stopping there. [219901]

Mr. McNulty: The station was locked due to an error on the part of GNER staff, and resulted in a 30 minute delay for passengers wanting to travel on the 0940 departure. GNER arranged for an additional stop to be made by the next train passing through the station.

I understand that this was an isolated incident, and that GNER have publicly apologised for the inconvenience caused to passengers.

Channel Tunnel (Freight Traffic)

Mr. Greg Knight: To ask the Secretary of State for Transport what restrictions there are on the volume of freight traffic using the channel tunnel; what the reasons are for each restriction; and what restrictions are in place at the request of the French Government. [220465]

Mr. McNulty: There are no restrictions in place on the volume of freight traffic using the channel tunnel.

Dangerous Cargoes

Norman Baker: To ask the Secretary of State for Transport (1) if he will list the dangerous or harmful cargoes known to have been lost overboard in UK waters since 1 January 1990 which are not thought to have been recovered; [220601]

(2) if he will list the packages containing dangerous or harmful goods found in UK waters since 1 January 1997, broken down by *(a)* date, *(b)* source, *(c)* nature of the incident giving rise to the deposit of the package in the waters and *(d)* location; [220602]

(3) what reporting requirements there are in respect of the loss overboard *(a)* within UK waters and *(b)* from UK registered vessels of dangerous or harmful goods. [220603]

Mr. Jamieson *[holding answer 7 March 2005]:* Any vessel involved in a pollution event within UK controlled waters as defined by the Merchant Shipping (Prevention of Pollution) (Limits) Regulations 1996 must immediately contact Her Majesty's coastguard and report the identity and position of the ship; the port of departure and next port of call; the number of people onboard; the date, time and details of the incident; and a contact point for further information about the cargo.

UK ships involved in an incident outside UK controlled waters but within Europe must report to the appropriate state responsible for the geographical area.

Data on reported discharges of dangerous or harmful cargoes (including oil) as defined by the internationally agreed Marine Pollution (MARPOL) Convention is collated by the Advisory Committee on Protection of the Sea (ACOPS) on behalf of the Maritime and Coastguard Agency (MCA). ACOPS collects data in addition to that reported to the coastguard. The data available is extensive and diverse, and I am placing copies of the annual ACOPS reports from 1990 into the House Library.

Norman Baker: To ask the Secretary of State for Transport how many incidents there have been since 1 May 1997 of *(a)* anthrax and *(b)* other goods of military origin being washed up on UK shores, broken down by (i) date of reporting, (ii) nature and volume of the material and (iii) origin and retrieval points of the material. [220604]

Mr. Jamieson *[holding answer 7 March 2005]:* This information is not available in the form requested other than at disproportionate cost. However, I can confirm that there have been no reported incidents involving anthrax since 1 May 1997. In the same period, there have been 349 reports to Her Majesty's coastguard in relation to goods categorised as suspected ordnance (which might or might not be of military origin) found washed ashore, floating at sea, or discovered by fishermen.

First Great Western Link

Mr. Boris Johnson: To ask the Secretary of State for Transport (1) what representations he has received from the Thames Valley Chamber of Commerce concerning First Great Western Link's new timetable for the Thames Valley area; [220365]

(2) what assessment he has made of the impact First Great Western Link's new timetable for the Thames Valley area has had on local businesses; [220366]

(3) what plans he has to *(a)* reduce overcrowding and *(b)* improve punctuality on the Henley-Twyford-Paddington line. [220367]

Mr. McNulty: No representations have been received from the Thames Valley Chamber of Commerce. Timetable changes on services to and from London Paddington were consulted on by the Strategic Rail Authority in early 2004. The majority of stakeholders recognised the benefits of the overall package of measures, although there was no specific assessment of the impact of the changes on local businesses. On 31 January First Great Western Link (FGWL) enhanced the 0727 Twyford-London Paddington service by increasing it from a five-carriage train to a 10-carriage Adelante train to reduce crowding. FGWL have also recently seen a slight improvement in overall punctuality. Both the Strategic Rail Authority and FGWL are continuing to monitor the performance of the timetable.

Mr. Boris Johnson: To ask the Secretary of State for Transport if he will meet First Great Western Link, the Strategic Rail Authority and interested hon. Members to discuss timetabling of services in the Thames Valley area. [220368]

Mr. McNulty: I have already agreed to meet the hon. Gentleman and his hon. Colleague from Maidenhead on 10 March 2005. Further meetings with relevant parties will be arranged as necessary.

Local Transport Plans

Mr. Hancock: To ask the Secretary of State for Transport what formula will be used to calculate the financial allocations in the Local Transport Plans 2006–11; and if he will make a statement. [219551]

Charlotte Atkins: A formula is used to allocate most of the capital highways maintenance funding between local authorities. This formula considers the size and condition of the road networks and the size of the bridge stock, for which local highway authorities are responsible.

The Department is also developing a formula to represent local transport pressures, such as road casualties and local public transport patronage, for possible use in influencing financial allocations for integrated transport block schemes. Subject to the satisfactory completion of development work, the Department proposes to consult with local authorities on this formula later this year.

M1

Mr. Greg Knight: To ask the Secretary of State for Transport for what reasons the M1 Motorway near junction 18 was closed on 21 February; upon whose authority; whether a heavy goods vehicle was involved; and if he will make a statement. [219899]

Mr. Jamieson: The southbound carriageway was closed by Northamptonshire police following an incident involving a car and a heavy goods vehicle. The HGV shed its load of heavy concrete blocks and the closure was needed to deal with the build up of traffic and enable the road to be cleared by large, specialised recovery crews, in order to remove the hazard to road users. Traffic was diverted off the motorway at Junction 18.

M42

Mr. Greg Knight: To ask the Secretary of State for Transport when he expects the M42 to be free of *(a)* roadworks and *(b)* lane closures. [219566]

Mr. Jamieson: Work is currently being carried out in connection with two pilot projects on the M42, both of which are designed to improve journey reliability. Between Junctions 3A and 7 the Active Traffic Management scheme, involving the installation of signs, signals and detector loops in the road surface designed to improve information to drivers and improve traffic flow, is on programme to be complete by the end of April 2005. There will be a need for limited lane closures during the summer whilst message signs and CCTV systems are commissioned.

On the northbound carriageway between Junctions 10 and 11, signs are being installed in connection with a project to prevent HGVs from overtaking on an uphill section of the motorway and causing delays. This work is being carried out at off-peak times and does not involve lane closures and is also due for completion by April.

Manchester Metrolink

Mr. Yeo: To ask the Secretary of State for Transport (1) how much has been spent in total so far on preparatory work for the Manchester Metrolink extension; [220645]

(2) how much has been spent on the acquisition of *(a)* land and *(b)* buildings in connection with the Manchester Metrolink extension; [220648]

(3) how much has been spent on demolition costs so far in connection with the Manchester Metrolink extension. [220650]

Mr. Darling: The Department has provided some £170 million. Around £80 million was for Greater Manchester Passenger Transport Executive (GMPTE) to buy the concession for the operation of Metrolink. This has continuing value to generate revenue for GMPTE and give them control over the network. The rest has been for advanced works (i.e. utility diversions); around £32 million has been provided for the buying of property (including demolition) and land, some of which may still be required for the package that GMPTE now develop.

Mr. Yeo: To ask the Secretary of State for Transport what the projected cost of the Manchester Metrolink extension scheme was *(a)* when it was first announced and *(b)* currently. [220649]

Mr. Darling: I refer to my written statement to the House of 16 December 2004.

Motorway Accidents (HGVs)

Mr. Greg Knight: To ask the Secretary of State for Transport in what percentage of accidents occurring on motorways resulting in a motorway closure a heavy goods vehicle was involved in each of the last five years; and if he will make it his policy to collect and publish such figures annually. [219900]

Mr. Jamieson: Based on the major incidents reported to the Highways Agency over the last 12 months that resulted in a full carriageway closure of the motorway, approximately 50 per cent. of those incidents have involved, but were not necessarily caused by, heavy goods vehicles.

The Highways Agency is taking over responsibility for certain aspects of incident management on motorways from the police over the next twelve months. As part of this process data relating to incidents will be systematically collected by the Highways Agency. No decision has yet been made about which aspects of that data would be routinely published.

Newhaven Port

Mr. Waterson: To ask the Secretary of State for Transport how many *(a)* vehicles and *(b)* passengers passed through the port of Newhaven in the most recent period for which figures are available. [219653]

Mr. Jamieson: The numbers of vehicles and passengers passing through the port of Newhaven in 2003, the latest year for which information is available, were as follows:

	Thousand
Road goods vehicles	34
Unaccompanied trailers	3
Passenger cars	90
Passengers	397

Road Building

Mr. Yeo: To ask the Secretary of State for Transport what the average cost is of building one mile of new *(a)* motorway, *(b)* dual carriageway and *(c)* conventional two lane road. [220641]

Mr. Darling: The average cost of building one mile of new *(a)* motorway is £24 million per mile, *(b)* dual lane carriageway is £13 million per mile, *(c)* conventional two lane road is £8 million per mile.

In considering the cost of a new road there are many variables, including the difference between urban or rural areas, a new route or an improvement of an existing network. These can result in significant differences in the cost for a similar standard. Factors such as quality of

land, site geology, drainage, environmental mitigation, traffic management or restricted access can also have a large impact on cost.

The averages costs quoted above are taken from roads constructed by the Highways Agency and include elements for structures, land, compensation, design and site supervision, but not future inflation.

Road Traffic Volume

John Thurso: To ask the Secretary of State for Transport what estimate he has made of percentage change for road traffic volumes by *(a)* 2010, *(b)* 2015 and *(c)* 2020. [218210]

Mr. Jamieson: Projections of road traffic were published in July 2004 in the White Paper 'The Future of Transport'. Estimates of the percentage change on 2000 levels for 2010, 2015 and 2025 are shown in the table as follows.

	England, Percentage change on 2000
2010	26
2015	31
2025	40

A good deal of uncertainty is attached to all forecasts and the numbers should be treated as indicative.

Safety Cameras

Dr. Tonge: To ask the Secretary of State for Transport what discussions he has had with the Highways Agency concerning safety cameras on the *(a)* A205 and *(b)* A316 in Richmond Park constituency. [212316]

Mr. Jamieson: None. The A205 and the section of the A316 inside London form part of the Greater London Authority Road Network—now known as the Transport for London Road Network—and are the responsibility of the Mayor and Transport for London. This includes the siting of safety cameras. Further information concerning the safety cameras on these roads may be obtained from:

Keith Ollier
Director of Street Management
Transport for London
Windsor House
42–50 Victoria Street
London SW1H 0TL

Sarah Teather: To ask the Secretary of State for Transport how much revenue has been raised in fines imposed as a result of speed cameras in Greater London in each year since 2001. [220185]

Mr. Jamieson: This information is available for 2001 and 2002 in the following table and has been provided by the Home Office. I am advised by my right hon. Friend the Home Secretary that his Department's available information relates to the amount of fines ordered to be paid following speed offences detected by camera, not all of which may have been be paid. This information is available for the calendar years 2001 to 2002, for the Metropolitan and City of London police forces combined. Home Office information for 2003 will be available shortly.

Fines ordered to be paid as a result of speeding offences detected by cameras[1] within Greater London[2]: 2001–2002

	2001	*2002*
Fines from fixed penalties		
Number of tickets[3]	52,100	54,100
Estimated fines (£)	3,128,600	3,243,200
Fines following court proceedings		
Number of fines	4,500	5,100
Total amount of fine (£)	513,700	516,500
Average fine[4]	114	102

[1] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[2] The Metropolitan and City of London police combined.
[3] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.
[4] Paid i.e. no further action.

Speed Limits

Mr. Hammond: To ask the Secretary of State for Transport whether his Department is assessing the merits of introducing variable speed limits on roads other than motorways. [216616]

Mr. Jamieson: Variable speed limits have been successful in easing congestion and improving traffic flow on sections of the motorway network such as on the M25.

Local Highway Authorities have the powers to introduce variable speed limits under section 84 of the Road Traffic Regulation Act 1984. The most common use of a variable speed limit other than on motorways is to reduce traffic speeds outside schools particularly at school opening and closing times.

However there are significant signing and enforcement costs associated with the implementation of variable speed limits on roads other than motorways. Past experience has also shown that, unlike on motorways, they achieve only a slight reduction in vehicle speeds in these circumstances.

Traffic Accidents (Essex)

Mr. Amess: To ask the Secretary of State for Transport how many traffic accidents in which charges were brought in *(a)* Essex and *(b)* Southend-on-Sea in each year since 1997 resulted in (i) conviction and (ii) acquittal. [220310]

Mr. Jamieson: The information requested is not available.

Trust Ports

Mr. Chope: To ask the Secretary of State for Transport how much each trust port classified as a public corporation borrowed for 2003–04; and what the estimated level of borrowing by each such port is for 2004–05. [218688]

Mr. Jamieson *[holding answer 28 February 2005]:* The latest information available in published accounts for financial years ending either on 31 December 2003 or 31 March 2004 in respect of existing outstanding borrowings is as follows.

	£000
Bridlington	333
Dover	4,963
Falmouth	100
Harwich	36,000
London	7,058
Milford Haven	6,311
Poole	932
Shoreham	357
Total	56,054

Published figures for 2004–05 are not available but from information gathered from the ports we are aware of planned borrowing amounting to £10.7 million.

Vehicle Registrations

Mr. Byrne: To ask the Secretary of State for Transport whether the Driver and Vehicle Licensing Agency maintains records of the number of vehicle registrations by *(a)* street, *(b)* polling district, *(c)* postcode and *(d)* ward. [220074]

Mr. Jamieson: This information is not routinely available. Vehicles are registered to the name and address of the keeper, and each record can be accessed via the vehicle registration number only. Through special scans of the record it would be possible for DVLA to identify vehicles registered to specific streets and postcodes. However, these are only normally carried out to assist police inquiries. There is no link between vehicles and the polling district or ward in which the address is situated.

CABINET OFFICE

Civil Servants (Northern Ireland)

23. **Mr. Trimble:** To ask the Minister for the Cabinet Office whether home civil servants who obtain posts in the Northern Ireland civil service and Northern Ireland civil servants who obtain posts in the home civil service retain their salary, pension and leave entitlements on transfer. [220424]

Mr. Miliband: Pay and leave entitlements in cases of transfer are negotiated on an individual basis within the relevant Department's framework. The terms may vary depending on the type of transfer involved which may be a secondment, loan or permanent transfer.

There are no significant differences between the pension schemes for the Northern Ireland and home civil service and individuals can transfer their pension rights between the two schemes. As both schemes are members of the Public Sector Transfer Club previous service will be fully recognised for pension purposes if the individual transfers their benefits on club terms.

Public Engagements

25. **Mr. Gray:** To ask the Chancellor of the Duchy of Lancaster if he will list his public engagements since 1 February in relation to the co-ordination of Government policy. [220426]

Mr. Milburn: Since 1 February I have undertaken various visits, speeches, media appearances and held meetings with a variety of organisations and individuals.

Lone Parents

26. **Phil Sawford:** To ask the Chancellor of the Duchy of Lancaster if he will make a statement on the co-ordination of Government policy in relation to lone parents. [220427]

Mr. Milburn: The whole Government are working to provide new opportunities for loan parents, whether to improve child care or help to find a job. I can report to the House that since 1998, the new deal for lone parents has helped 300,000 lone parents into work.

Ministerial Posts

27. **Mr. Hoban:** To ask the Chancellor of the Duchy of Lancaster what recent communications he has had from the National Audit Office in respect of requests for information about the overall cost of his post. [220428]

Mr. Milburn: The National Audit Office has contacted the Cabinet Office in respect of correspondence it has received about the cost of my office. Information about the level of individual ministerial salaries is in the Library of the House. The overall cost of my office will be published in the 2004–05 Cabinet Office Annual Report and Resource Accounts.

WALES

Cancer

Dr. Gibson: To ask the Secretary of State for Wales what policies his Department has in place for supporting employees with cancer. [218583]

Mr. Touhig: The Wales Office has policies for providing support for its employees with ill health including cancer, as follows:

Managing attendance policy for managers to provide support in long term sickness cases and keeping in touch policy;

Special leave to cover doctors and hospital appointments;

Making adjustments to working hours, duties and practice;

Rehabilitation leave;

Sick Pay Entitlement of six months full pay and six months half pay;

Involvement of Occupational Health providers for advice and support;

Support for applications to BMI for ill health retirement and access to payments under the Civil Service Compensation Scheme (where appropriate);

Welfare services;

Network for Carers;

Health and Safety policy.

The Wales Office is provided with pay, ration and personnel services by the Department for Constitutional Affairs and support for these policies is given by that department.

English Hospitals (Treatment of Welsh Patients)

Miss McIntosh: To ask the Secretary of State for Wales what recent discussions he has had with the National Assembly for Wales Secretary for Health on the treatment in English hospitals of patients resident in Wales. [220205]

Mr. Hain: My Ministerial colleague, the hon. Member for Islwyn (Mr. Touhig) and I have had a number of discussions recently with the Assembly Health Minister when we covered a range of issues.

Discussions are also on-going between the Welsh Assembly and the Department of Health on cross border issues.

A joint protocol was launched last month, which was developed to provide guidance and clarify responsibilities to commissioners and health professionals. It will ensure that patients understand the implications of accessing healthcare across the border.

SOLICITOR-GENERAL

Consultants

John McDonnell: To ask the Solicitor-General what the total expenditure of the Crown Prosecution Service on external consultants was in *(a)* 2002, *(b)* 2003 and *(c)* 2004 broken down by directorate; and what the cost of employing external consultants is expected to be in (i) 2004–05, (ii) 2005–06, (iii) 2006–07 and (iv) 2007–08 broken down by directorate. [218198]

The Solicitor-General: The Crown Prosecution Service (CPS) employs the services of external consultants to bring in special skills and expertise or to cover gaps in staff resources and/or where an independent assessment is needed.

The following table provides a breakdown of expenditure by each headquarters directorate for financial years 2001–02 to 2003–04 and the expected costs of employing external consultants in financial years 2004–05 and 2005–06.

It is not possible to provide forecasts for the following years as detailed expenditure plans for those years have yet to be agreed. Future expenditure on external consultants is expected to continue to decrease. The aggregate expenditure of CPS areas has been included to ensure completeness.

£000

	2001–02	*2002–03*	*2003–04*	*2004–05*[1]	*2005–06*[1]

[1] Forecast

Criminal Justice System (Military)

Mr. Gordon Prentice: To ask the Solicitor-General if the Attorney-General will re-assess his role in the operation and application of the criminal justice system as it relates to the military. [218423]

The Solicitor-General: In the Attorney-General's Statement (14 June 2004, *Official Report, House of Lords*, columns WS22–24) he set out the role of the military prosecuting authorities, which act independently of the military chain of command. They are subject to the general superintendence of the Attorney-General.

The court martial system was established under the Army Act 1955 and is the responsibility of the Secretary of State for Defence. The Attorney's role relates to prosecutions brought by the military service prosecuting authorities. The Attorney-General will not be re-assessing his role in this regard.

Crown Prosecution Service (Essex Pilot)

Mr. Amess: To ask the Solicitor-General, if she will make a statement on the *(a)* operation and *(b)* outcome of the pilot scheme attaching Crown Prosecution Service officers to police officers; in which police authorities the pilots are being conducted; and in which districts in Essex the pilot is being conducted. [209524]

The Solicitor-General: I refer the hon. Member to the answer I gave on 17 January 2005, *Official Report*, column 666W.

The outcome of the pilot scheme was that significant benefits to the whole criminal justice system were identified, principally that with full roll out of the statutory scheme up to 30,000 more offences could be brought to justice per year.

Statutory charging is now operating in:

West Yorkshire and Kent from 17 May 2004;

South Yorkshire from 24 May 2004;

Cleveland from 4 June 2004;

Lancashire from 15 June 2004;

Northumbria from 28 June 2004;

Avon and Somerset, and Nottinghamshire from 5 July 2004;

Humberside from 31 August 2004;

Greater Manchester from 6 September 2004;

Thames Valley from 14 September 2004;

Merseyside from 4 October 2004;

London from 1 November 2004; and West Midlands from 9 November 2004.

Pilot schemes in CPS Essex have now been superseded by shadow charging schemes, as they have in the remaining 29 criminal justice areas. This is operating at Colchester, Chelmsford, Southend, Basildon, Grays and Harlow police stations. When Essex moves to

statutory charging during 2005, there will be three additional charging suites with crown prosecutors based at Rayleigh, Braintree and Clacton-on-Sea.

Environmental Crime

Miss McIntosh: To ask the Solicitor-General what guidance she has provided to the Crown Prosecution Service on legislative provisions introduced since 1997 which availed a reversal of the burden of proof in environmental crimes; and if she will make a statement. [216737]

The Solicitor-General: The Crown Prosecution Service does not generally prosecute in cases of environmental crime.

Like all prosecuting authorities, the Crown Prosecution Service carefully monitors developments in criminal cases involving challenges to reverse burdens. Where appropriate, it issues guidance, or revisions to guidance, on reverse burden cases to its prosecutors.

The CPS issued guidance circulars to its prosecutors following the decision of the Judicial Committee of the House of Lords in "Lambert" and, more recently, the decision of the Court of Appeal in "Attorney General's Reference (No. 1 of 2004)." It also used its internal newsletter to notify prosecutors of the decisions of the courts in "Lynch v DPP; Attorney General's Reference (No. 4 of 2002); Sheldrake v DPP." None of these cases have concerned legislative provisions introduced since 1997 which availed a reversal of the burden of proof in environmental crimes.

Iraq (Legal Advice)

Llew Smith: To ask the Solicitor-General what the reasons were for the choice of Professor Greenwood of the London School of Economics to be invited to contribute to the drafting of the legal advice prepared by the Attorney-General on the legal basis for taking military action to invade Iraq in March 2003. [219796]

The Solicitor-General: Professor Christopher Greenwood QC is an expert in the field of international law in the United Kingdom. He has advised the Government on issues of international law on many occasions, including, for example, in relation to proceedings commenced against the UK in the International Court of Justice by the FRY (Serbia and Montenegro) in 1999, which sought to challenge the legality of the military action in Kosovo.

Professor Greenwood did not contribute to the drafting of the Attorney-General's advice on the legality of the use of force against Iraq. As I set out in my reply to the right hon. and learned Member for North-East Fife (Sir Menzies Campbell) on 29 March 2004, *Official Report*, column 1147W, no non-Governmental experts or lawyers were asked to advise the Attorney-General on whether the conflict in Iraq was lawful. Professor Greenwood was instructed to assist in relation to legal issues arising from the Iraq conflict, including the preparation of the Attorney-General's statement to Parliament on 17 March 2003.

Mobile Phone Offences

Mr. Amess: To ask the Solicitor-General how many prosecutions there have been in *(a)* England and Wales, *(b)* Essex and *(c)* Southend for the offence of driving while using a hand-held mobile phone since the introduction of the law. [214024]

The Solicitor-General: The Crown Prosecution Service Compass Case Management System (CMS) can provide, with effect from February 2004, a record of specific offences which were the subject of a court hearing, and of the number of such offences. These records indicate that, during the period of February 2004 to December 2004, CPS Essex handled prosecutions in respect of three offences under s110 (1) Road Vehicles Construction and Use Regulations 1986, of which one was dealt with by Southend Criminal Justice Unit. Of these three, one pleaded guilty, one was convicted by the magistrates court and one was acquitted by the magistrates court. In the same period, the Crown Prosecution Service handled prosecutions in respect of 197 offences nationally.

Please note this offence can be dealt with by a fixed penalty notice issued by the Police. These proceedings are not included in the above figures.

Overseas Corruption Investigation

Malcolm Bruce: To ask the Solicitor-General what discussions the SFO has had with the Home Office with regard to whether the new Serious Organised Crime Agency SOCA will play a role in investigating overseas corruption. [219294]

The Solicitor-General: The Serious Fraud Office has not held any discussions with the Home Office in respect of the potential role of the Serious Organised Crime Agency in investigating allegations of overseas corruption.

Malcolm Bruce: To ask the Solicitor-General whether the SFO has decided to open a domestic investigation into the allegations of overseas bribery on the Nigerian LNG project at Bonny Island. [219295]

The Solicitor-General: The SFO has not commenced a domestic investigation into allegations of overseas bribery in relation to the Nigerian LNG project at Bonny Island.

Mutual legal assistance continues to be provided by the SFO to the authorities of the USA and France. The situation will continue to be monitored with a view to determining whether a domestic investigation into this matter is appropriate.

Malcolm Bruce: To ask the Solicitor-General if she will list the police forces from which the SFO is getting assistance with overseas bribery investigations. [219300]

The Solicitor-General: Of the three cases of overseas corruption currently under investigation, the Ministry of Defence Police are providing assistance on two cases. To date no police force has formally appointed to the third case.

Malcolm Bruce: To ask the Solicitor-General how many full investigations into allegations of overseas bribery the SFO are undertaking. [219301]

The Solicitor-General: The SFO is currently conducting three investigations where allegations of overseas corruption may constitute an element of the case.

Malcolm Bruce: To ask the Solicitor-General how many vetting investigations into allegations of overseas bribery the Serious Fraud Office is currently overtaking. [219302]

The Solicitor-General: Thirteen referrals where allegations of overseas corruption may constitute an element of the referral are currently subject to the SFO vetting process.

Malcolm Bruce: To ask the Solicitor-General what recent assessment she has made of whether the Serious Fraud Office has sufficient resources to investigate allegations of overseas bribery. [219303]

The Solicitor-General: Of the three cases of overseas corruption currently under investigation, one has to date no police force formally appointed to it. The Ministry of Defence police are providing assistance on two cases.

Malcolm Bruce: To ask the Solicitor-General how many investigations into overseas bribery the Serious Fraud Office estimates that it is able to undertake in any one financial year. [219304]

The Solicitor-General: The SFO is unable to provide an estimate because it is unclear how many referrals of this type of offence will be annually passed to the SFO.

The SFO does not allocate staff resource by category of offence.

Rape/Sexual Assault

Vera Baird: To ask the Solicitor-General how the No Witness No Justice programme interacts with the work of sexual assault referral centres. [215576]

The Solicitor-General: Sexual assault referral centres (SARCs) provide a co-ordinated service to victims in the immediate aftermath of rape or other sexual assault. victims receive medical attention and counselling, and can have a forensic examination and report the rape/sexual assault to the police if they so choose. There are 13 SARCs across England and Wales.

As part of the no witness, no justice programme, witness care units (WCUs) were established. They provide a single point of contact for victims and witnesses to turn to for information and support from the point of charge until the conclusion of the case. By the end of March this year, there will be 81 such units nationally, and at least one covering each CPS Area. By the end of this year, there will be 165 such units covering all of England and Wales.

That SARCs and WCUs complement each other in helping place the victim at the heart of the criminal justice system.

Special Advocates

Keith Vaz: To ask the Solicitor-General how many Special Advocates have resigned; and how many are in office. [220090]

The Solicitor-General: Two special advocates have resigned. There are thirteen in office.

Keith Vaz: To ask the Solicitor-General when she received the letter of resignation of Ian Macdonald QC as a Special Advocate; and when she replied to the letter. [220089]

The Solicitor-General: Ian Macdonald's letter of 17 December tendering his resignation as special advocate with effect from 20 December was received by the Attorney-General on 21 December 2004. The Attorney-General replied on 21 December 2004.

TREASURY

Alcohol-related Deaths (Tyne and Wear)

Mr. Cousins: To ask the Chancellor of the Exchequer in how many deaths in each local authority area in Tyne and Wear alcohol use was recorded as a contributory factor since 2000; and how many of those deaths were in those aged under 30 years. [220399]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Jim Cousins, dated 8 March 2005:

As National Statistician, I have been asked to reply to your recent question asking for how many deaths in each local authority area in Tyne and Wear, alcohol use was recorded as a contributory factor since 2000; and how many of those deaths were in those aged under 30 years. (220399)

The latest year for which figures are available is 2003. The attached table shows the numbers of deaths among residents of local authorities in the former metropolitan county of Tyne and Wear where the underlying cause of death indicated a condition directly related to alcohol use in the years 2000 to 2003. During this four year period, six of these deaths in the former metropolitan county of Tyne and Wear were of people aged under 30.

The ONS definition of alcohol-related deaths only includes those causes regarded as being most directly due to alcohol consumption. Apart from deaths due to accidental poisoning with alcohol, this definition excludes external causes of death, such as road traffic deaths and other accidents, and alcohol-related suicides and homicides. Estimates of the annual total number of deaths in which alcohol has played a role can therefore vary widely depending on the criteria used. The definition used by ONS allows for consistent comparisons over time for those deaths where a clear association with alcohol consumption can generally be assumed.

Alcohol-related deaths[1] by local authority in the former metropolitan county of Tyne and Wear area,[2] 2000–03[2,3]

Number

Local authority	*2000*	*2001*	*2002*	*2003*
Gateshead	27	31	23	38
Newcastle upon Tyne	44	32	48	44
North Tyneside	30	28	22	33
South Tyneside	17	19	28	31
Sunderland	53	38	44	45

[1] For the year 2000 the cause of death was defined using the International Classification of Diseases, Ninth Revision (ICD-9). The codes used by ONS to define alcohol-related deaths are listed below:
291—Alcoholic psychoses.
303—Alcohol dependence syndrome.

305.0—Non-dependent abuse of alcohol.
425.5—Alcoholic cardiomyopathy.
571—Chronic liver disease and cirrhosis.
E860—Accidental poisoning by alcohol.
For the years 2001–03 the International Classification of Diseases, Tenth Revision (ICD-10) was used. To maintain comparability with earlier years the following codes were used:
F10—Mental and behavioural disorders due to use of alcohol.
142.6—Alcoholic cardiomyopathy.
K70—Alcoholic liver disease
K73—Chronic hepatitis, not elsewhere classified.
K74—Fibrosis and cirrhosis of liver.
X45—Accidental poisoning by and exposure to alcohol.
The selection of codes to define alcohol-related deaths is described in:
Baker A and Rooney C (2003). Recent trends in alcohol-related mortality, and the impact of ICD-10 on the monitoring of these deaths in England and Wales. Health Statistics Quarterly 17, pp 5–14.
[2] Usual residents of these areas.
[3] Deaths occurring in each calendar year.

Council Tax Receipts

Mrs. Spelman: To ask the Chancellor of the Exchequer what estimate he has made of the change to council tax receipts in 2005–06 arising from the business rates revaluation in England. [219944]

Mr. Timms: The new non-domestic rating lists have been published and will take effect on rate bills from 1 April 2005. Revaluation has no impact on aggregate yield from business rates in real terms and is only one aspect of the local authority settlement and therefore will have no impact on council tax receipts in 2005–06.

Croydon, Central

Geraint Davies: To ask the Chancellor of the Exchequer if he will set out, with statistical evidence relating as closely as possible to Croydon Central, the effects of the Department's policies and actions on Croydon Central constituency since 1997. [220386]

Mr. Timms: The Government have put in place a broad programme of both macroeconomic and microeconomic reform since our election in 1997 designed to better the economic performance of all parts of the UK. Since these policies were implemented, the economic performance of the Croydon Central constituency has improved considerably. For example, since May 1997, claimant unemployment has fallen by 52 per cent., while long-term unemployment has fallen by 92 per cent. and long-term youth unemployment has fallen by 82 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at local authority ward level, taken from the 2001 census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk./.

Earnings

Chris Ruane: To ask the Chancellor of the Exchequer what the percentage change in earnings was in each region of the UK for 2003–04, in descending order. [219854]

Mr. Timms: The information requested falls within the responsibility of the National Statistician, I have asked him to reply.

Letter from Len Cook to Mr. Chris Ruane, dated 8 March 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the percentage change in earnings was in each region of the UK for 2003–04, in descending order. (219854)

Average earnings are estimated from the Annual Survey of Hours and Earnings (ASHE) and are provided for employees on adult rates of pay whose pay was unaffected by absence during the pay period, by their place of work. This is the standard definition used for ASHE tables. The ASHE does not collect data on the self-employed and people who do unpaid work.

I attach a table showing the percentage change for each region in the United Kingdom for full-time employees.

The ASHE, earned out in April of each year, is the most comprehensive source of earnings information in the United Kingdom. It has a one per cent sample of all employees.

The ASHE publication criteria ensure that all estimates are undisclosive. A number of estimates have been removed from the published tables for these reasons.

Weekly pay—gross (£)—for full-time employee jobs[1]: United Kingdom, 2004

Region	*Annual percentage change*
Mean earnings	
North East	6.6
Wales	5.4
Northern Ireland	5.2
North West	5.1
West Midlands	5.0
Yorkshire and the Humber	4.6
East	4.5
London	3.6
East Midlands	3.4
South West	3.4
South East	2.9
Scotland	2.9
Median earnings	
North East	7.1
Northern Ireland	6.6
Wales	6.2
West Midlands	5.1
North West	5.0
Yorkshire and the Humber	4.8
London	4.6
East	4.1
South East	3.8
Scotland	3.5
South West	3.3
East Midlands	2.8

[1] Employees on adult rates whose pay for the survey pay-period was not affected by absence.

Annual Survey of Hours and Earnings, Office for National Statistics.

Immigration

Mrs. Spelman: To ask the Chancellor of the Exchequer what estimate the Government has made of the change in levels of immigration by travellers from the Republic of Ireland into the UK over the last five years; and if he will make a statement. [219877]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mrs. Caroline Spelman, dated 8 March 2005:

As National Statistician, I have been asked to reply to your question regarding the levels of immigration by travellers from the Republic of Ireland into the UK over the last five years. (219877)

The phrase 'travellers from the Republic of Ireland' has been taken to refer to all those migrating from the Republic to the United Kingdom, not specifically to Irish Travellers who constitute a subgroup of the populations of both the Republic of Ireland and the UK.

The attached table shows the estimates of total migration between the two countries from 1999 to 2003, the latter of which is the most recent year for which estimates are available. The inflow estimates refer to migrants moving from the Republic of Ireland to the UK; the outflow estimates refer to those moving in the opposite direction; and the balance shows the net effect of these flows on the population of the UK. A migrant is defined as someone who changes his or her country of usual residence for a period of at least a year, so that the country of destination effectively becomes the country of usual residence.

We are unable to provide estimates for Irish Travellers as a population subgroup as we have no means of identifying them in the data sources used to make international migration estimates.

International migration between the United Kingdom and the Republic of Ireland

United Kingdom—Thousand

Time series 1999 to 2003	*Inflow*	*Outflow*	*Balance*
1999	8.3	19.0	-10.7
2000	5.8	16.0	-10.2
2001	5.2	14.3	-9.1
2002	5.1	13.1	-8.1
2003	5.0	13.1	-8.1

Source:
Estimates of migration between the United Kingdom and the Republic of Ireland are made using data primarily from the Irish Quarterly National Household Survey. They are agreed between the Irish Central Statistics Office and ONS.

Income Tax (Pensioners)

Mr. Cousins: To ask the Chancellor of the Exchequer if he will estimate the *(a)* number and *(b)* percentage of pensioner households paying income tax in the UK (i) in total and (ii) broken down by region and country of the UK in (A) 1997 and (B) 2004–05. [220274]

Dawn Primarolo: Estimates of *(a)* the number and *(b)* percentage of pensioner households paying income tax in (A) 1997 and (B) 2004–05 in the UK (i) in total and (ii) broken down by region and country is as follows.

	(A) 1997–98		*(B) 2004–05*	
	(a) Number (thousands)	*(b) Percentage*	*(a) Number (thousands)*	*(b) Percentage*
United Kingdom	2,880	47	3,360	55
England	2,420	48	2,810	55
North	175	44	215	54
Yorks and The Humber	230	41	280	50
East Midlands	180	41	215	51
West Midlands	230	43	255	49
East Anglia	110	44	140	55
Greater London	275	54	395	60
South East	635	55	660	61
South West	320	54	330	58
Wales	175	46	185	55
Scotland	250	46	300	55
Northern Ireland	35	30	60	47

Notes:
1. These figures have been estimated using HMT's tax and benefit model.
2. They relate to single and couple households where at least the head of the household is at state pension age or above. The do not include multi-tax unit households.
3. Figures for 2004–05 are based on the Family Resources Survey 2002–03; those for 1997–98 on the Expenditure and Food Surveys for 1995–96, 1996–97 and 1997–98.
4. Regional figures are Standard Statistical Regions.
5. All figures are rounded to nearest 5,000 households.

Micro-combined Heat and Power

Mr. Horam: To ask the Chancellor of the Exchequer what data he has from field trials concerning his intention to introduce a reduced rate of VAT for micro-combined heat and power units; what representations his Department has received from industry; and if he will make a statement. [220245]

Dawn Primarolo: The Government have stated their support in principle for a reduced VAT rate for micro-CHP, with any decision taking account of the ongoing field trials. As such, the Government continue to monitor the initial progress of the field trials, which are overseen by Defra and sponsored by the Carbon Trust in partnership with the Energy Saving Trust. The Treasury continues to discuss this issue with interested parties, and has received representations on this issue from industry and stakeholder groups.

Red Diesel

Ms Walley: To ask the Chancellor of the Exchequer what steps his Department is taking to extend the derogation for recreational boat users to buy red diesel under the European Energy Products Directive. [220543]

John Healey: I refer the hon. Member to my reply to the hon. Member for Orkney and Shetland (Mr. Carmichael) of 14 October 2004, *Official Report*, column 344W.

Regional Offices

Mrs. Spelman: To ask the Chancellor of the Exchequer (1) which *(a)* non-departmental public bodies and *(b)* executive agencies within the remit of his Department have regional offices based on the Government Offices for the Regions' regional structure; and when the regional offices were established in each case; [219903]

(2) what regional *(a)* bodies, *(b)* institutions, *(c)* taskforces, *(d)* panels, *(e)* offices and *(f)* organisations the Government have established since May 1997 which are the responsibility of his Department. [219906]

Mr. Timms: Non-departmental public bodies and agencies within the Chancellor's Department that have regional offices based on the Government Offices for the Regions' regional structure are listed in the following table.

With regard to the other parts of the hon. Lady's questions, none of the Chancellor's Departments or agencies is responsible for any such regional entities.

Agency/NDPB/Office	Government office in regions location	Established
Office of Government Commerce		
Alexandra House, Leeds	Yorkshire and Humberside	2000
Rosebery Court, Norwich	East	2000
Liver Building, Liverpool	North West	2001
National Savings and Investments		
Milburngate House, Durham	North East	1970
Mythorp Road, Blackpool	North West	1974
Office for National Statistics		
Trafalgar Road, Southport	North West	1988
Titchfield, Hampshire	South East	1962
Ashford Airport, Kent	South East	1996
Channel Tunnel Terminal, Kent	South East	2000
Eastern Docks Dover, Kent	South East	2002
Hamilton House, Harwich	East	2004
Manchester Airport, Manchester M90	North West	2004
Newcastle Airport, Newcastle upon Tyne, NE1 3BZ	North East	2004
Stansted Airport, Essex, CM24 1QW	East	2002
Gatwick Airport, West Sussex, RH6 0NP	South East	1999
Birmingham International Airport	West Midlands	2004

Teenage Pregnancies

Sarah Teather: To ask the Chancellor of the Exchequer how many teenage pregnancies there were in *(a)* Greater London and *(b)* each London borough in each year since 2002. [220181]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Sarah Teather, dated 8 March 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Question asking how many teenage pregnancies there were in *(a)* Greater London and *(b)* each London borough in each year since 2002. (220181)

The most recent year for which conception statistics are available is 2003. Figures for 2002 and 2003 are given in the attached table.

Under 18 conceptions numbers and rates in London, 2002–03

	2002[2]		2003[2]	
Area of usual residence	Number of conceptions	Conception rate[1]	Number of conceptions	Conception rate
London	6,512	52.0	6,500	51.1
Inner London	3,010	66.9	2,909	63.9
Camden	135	49.3	136	48.7
Hackney and City of London	303	75.3	276	69.3
Hammersmith and Fulham	137	62.0	117	51.7
Haringey	313	79.3	291	71.0

[2] Provisional

Note:
To protect confidentiality of individuals figures for City of London have been combined with Hackney.

Unemployment (Wales)

Chris Ruane: To ask the Chancellor of the Exchequer how many unemployed people there were in each parliamentary constituency in Wales in *(a)* December 1984, *(b)* December 1994 and *(c)* December 2004, listed in descending order according to the greatest drop between December 1984 and December 2004. [219893]

Mr. Timms *[holding answer 4 March 2005]:* The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Chris Ruane, dated 8 March 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question about unemployment in Wales. (219893)

Table 1 overleaf gives the estimates of the number of unemployed people, resident in each Parliamentary Constituency in Wales, for the twelve-month periods ending February 1997 and 2004. Comparable information is not available for earlier years.

Estimates are taken from the Office for National Statistics' (ONS) Labour Force Survey (LFS). As with any statistical sample survey, estimates from the LFS are subject to sampling variability.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas. Table 2 overleaf gives the number of JSA claimants resident in each Parliamentary Constituency in Wales ranked in descending order of the changes in the number between December 1996 to December 2004. Comparable information is not available for earlier years.

Table 1: Unemployed people resident in each parliamentary constituency in Wales, 1997 and 2004

	12 months ending February each year		
	1997	*2004*	*Change*
Wales	106,000	67,000	-39,000
Carmarthen West and South Pembrokeshire	5,000	2,000	-3,000
Merthyr Tydfil and Rhymney	4,000	1,000	-3,000
Newport West	4,000	2,000	-2,000
Preseli Pembrokeshire	4,000	2,000	-2,000
Wrexham	3,000	1,000	-2,000
Pontypridd	4,000	2,000	-2,000
Clwyd South	3,000	1,000	-2,000
Ynys Mon	3,000	1,000	-2,000
Rhondda	4,000	2,000	-2,000
Carmarthen East and Dinefwr	3,000	2,000	-1,000
Llanelli	3,000	2,000	-1,000
Caerphilly	3,000	2,000	-1,000
Aberavon	3,000	2,000	-1,000
Newport East	3,000	2,000	-1,000
Bridgend	3,000	2,000	-1,000
Conwy	2,000	1,000	-1,000
Caernarfon	2,000	1,000	-1,000
Monmouth	2,000	1,000	-1,000
Meirionnydd Nant Conwy	2,000	1,000	-1,000
Torfaen	3,000	2,000	-1,000
Vale of Clwyd	2,000	1,000	-1,000
Blaenau Gwent	3,000	2,000	-1,000
Clwyd West	2,000	1,000	-1,000
Alyn and Deeside	2,000	1,000	-1,000
Brecon and Radnorshire	2,000	1,000	-1,000
Ogmore	2,000	1,000	-1,000
Cardiff West	3,000	2,000	-1,000
Vale of Glamorgan	3,000	2,000	-1,000
Cardiff North	2,000	1,000	-1,000
Cynon Valley	2,000	2,000	0
Cardiff South and Penarth	3,000	3,000	0
Delyn	1,000	1,000	0
Swansea East	2,000	2,000	0
Montgomeryshire	1,000	1,000	0
Islwyn	2,000	2,000	0
Gower	1,000	1,000	0
Neath	2,000	2,000	0
Swansea West	2,000	3,000	1,000
Cardiff Central	2,000	3,000	1,000
Ceredigion	1,000	2,000	1,000

Note:

These estimates are based on very small sample sizes and are subject to a high degree of sampling variability. Changes from year to year, especially, should be treated with caution.

Jobcentre Plus administrative system

VAT Registrations (Tyne and Wear)

Mr. Cousins: To ask the Chancellor of the Exchequer how many VAT registrations there were in each local authority in Tyne and Wear in *(a)* 1999, *(b)* 2001 and *(c)* each year for which figures are available. [220397]

Dawn Primarolo: Customs and Excise do not collect data on the number of VAT registered businesses by local authority. However, information on the number of enterprises registered for VAT at the start of the year is available via the Small Business Service website at www.sbs.gov.uk. This can be used to give an indication of the size of the business population within Tyne and Wear. Table 1 shows the number of VAT registered enterprises in this area at the start of each year between 1999 and 2004.

Table 1

Local authority	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Gateshead	3,080	3,110	3,210	3,285	3,360	3,460
Newcastle upon Tyne	5,455	5,395	5,385	5,275	5,250	5,270
North Tyneside	2,695	2,770	2,830	2,860	2,925	2,985
South Tyneside	1,790	1,830	1,825	1,845	1,865	1,895
Sunderland	3,830	3,860	3,875	3,855	3,895	3,950
Total	16,850	16,965	17,120	17,120	17,295	17,560

NORTHERN IRELAND

Alzheimer's Disease

Lady Hermon: To ask the Secretary of State for Northern Ireland what discussions he has had with the Secretary of State for Health on the withdrawal from the NHS in Northern Ireland of certain Alzheimer's drugs following the recent recommendation by the National Institute for Clinical Excellence. [220462]

Angela Smith: I have had no discussions regarding the withdrawal of any drugs used in the treatment of Alzheimer's disease. Drugs in the generic categories Donepezil, Galantamine, Memantine and Rivastigmine remain available on Health Service prescription in Northern Ireland.

Lady Hermon: To ask the Secretary of State for Northern Ireland whether he intends to extend to Northern Ireland the recent National Institute for Clinical Excellence recommendations in relation to the withdrawal from the NHS of certain Alzheimer's drugs. [220463]

Angela Smith: Guidelines produced by the National Institute for Clinical Excellence (NICE) are only applicable to England and Wales and do not currently extend to Northern Ireland. Following completion of the NICE consultation on recommendations on the use of these drugs and the issue of their Final Appraisal Determination, the Department will then consider what local implications, if any, these final recommendations might have.

Clinical guidance on drugs and dementia, which is currently being produced by the locally based Clinical Resource Efficiency Support Team (CREST), will also be taken into account by the Department when considering local implications for the treatment of Alzheimer's disease.

Ards Borough (Planning)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will set out the number of *(a)* planning applications which have come before Ards borough council *(b)* which have come before Ards borough council with recommendation for refusal, *(c)* the number of site meetings which have been requested by Ards borough councillors and *(d)* the number of applications which have been overturned and given approval, each year for the past six years. [208979]

Angela Smith: The information requested is as follows.

	(a) Applications presented to Ards borough council[1]	*(b) Applications recommended for refusal*	*(c) Number of site meetings requested*[2]	*(d) Change of opinion to approval*
2000	859	304	[3]—	27
2001	961	392	[3]—	48
2002	1,023	327	[3]—	78
2003	1,092	295	246	118
2004	1,222	200	178	35

[1] For the years 2000–02 the figures have been collected electronically and as a result include deferred applications presented to council. For 2003 and 2004 a manual exercise was carried out and these figures relate to the number of planning applications taken to council with an initial opinion to refuse. Deferred applications are not included.

[2] Information on the number of site meetings requested is not routinely collected and extracting the information for the period from 1999 to 2002 would be at a disproportionate cost.

[3] Not available.

It is only possible to provide answers to parts a, b and d of the question for the last five years, as the information for previous years is not held electronically by the planning service. Information for 1999 could be obtained only at disproportionate cost.

There is no correlation between the data within a specific year. The data refers to the year in which (columns B and C) applications were presented to council and column D the year that the final approval decision was taken by the planning service. It cannot be assumed that the number of applications overturned in one year is directly related to the number of applications presented to council with a recommendation to refuse. Neither can it be assumed that the number of site meeting requested relates to the number of applications overturned and given approval. Due to the complexity of the planning process it can be a considerable time between the receipt of an application and a final decision being taken.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many site meetings have been requested by each member of Ards borough council, in relation to planning applications which have come before council with a recommendation for refusal in each year for the last six years. [208983]

Angela Smith: The Planning Service does not record or hold any information on which members have requested meetings or how many they may have requested.

Cannabis

Lady Hermon: To ask the Secretary of State for Northern Ireland how many *(a)* arrests and *(b)* cautions there have been in each police district command unit area in Northern Ireland for the (i) possession and (ii) sale of cannabis since its reclassification. [218224]

Mr. Pearson: The number of persons either arrested or cautioned by the Police Service of Northern Ireland for Class C drugs offences from 29 January 2004 to 31 January 2005 are detailed in the following tables.

Number of persons arrested for Class C offences by DCU

	29 January 2004 to 31 January		
	Offence		
DCU	Trafficking a class C drug	Possession of a class C drug	Total
Antrim	5	30	35

Civil Servants (Political Activity)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) what definition of political activity is given in guidance to Northern Ireland civil servants; [220617]

(2) what *(a)* guidelines and *(b)* restrictions are laid down for each grade of the Northern Ireland Civil Service in relation to (i) membership of a political party, (ii) holding office within a political party and (iii) other political activity. [220088]

Mr. Pearson: Definitions of political activity are contained in paragraphs 965–66 of the Political Activities Section of the Northern Ireland Civil Service Pay and Conditions of Service Code.

The guidelines and restrictions on political activity by Northern Ireland civil servants are contained in paragraphs 964 to 992 of the conduct section of the Northern Ireland Civil Service Pay and Conditions of Service Code. The restrictions are in place to ensure confidence in the impartial discharge of civil servants' duties, irrespective of the political persuasion of the Government of the day, while allowing staff the greatest possible freedom to participate in public affairs. The rules are concerned with political activities liable to give public expression to political views, rather than privately held beliefs and opinions.

Copies of the relevant paragraphs have been placed in the Library.

Contaminated Land (Carrickfergus)

Mr. Dodds: To ask the Secretary of State for Northern Ireland what decontamination work is being carried out by public bodies in Carrickfergus on *(a)* privately-owned land and *(b)* publicly-owned land. [220624]

Angela Smith: No decontamination work is currently being undertaken on either privately or publicly owned land. A precautionary approach is being taken by investigating the land of the former Courtaulds site. An inter-agency group has been established to assist with these investigations and provide public advice.

Cross-border Bodies

Lady Hermon: To ask the Secretary of State for Northern Ireland what the budget for each cross-border body is for 2005; and what the percentage change is from the previous year. [212329]

Mr. Pearson: The following table details of the budgets for the North South Implementation Bodies for 2005 and the percentage increases over the 2004 budgets. The figures quoted in the table for the Language Body are based on draft business plans provided by the agencies of the Language Body as the 2005 budget figures have not yet been agreed.

North/south implementation body	*2005 Budget £ million*	*Percentage increase on 2004*
Language body	[1]14.737	[1]0.92
Inter Trade Ireland	9.27	3.00
Special EU Programmes Body	2.195	8.66
Foyle, Carlingford and Irish Lights Commission	3.67	14.69
Waterways Ireland	34.16	7.76
Food Safety	6.16	1.32

[1] The 2005 budget figures for the Language Body have not yet been agreed.

Departmental Catering

Mr. George Osborne: To ask the Secretary of State for Northern Ireland how many departmental *(a)* canteens and *(b)* bars there are; and how much has been spent on the (i) running, (ii) staffing and (iii) supply costs of each in each year since 1997. [213615]

Mr. Pearson: The Northern Ireland Office has one in-house canteen and makes a contribution to another facility paid for jointly with other Northern Ireland Departments. The Department does not have any bars.

The costs of running the in-house facility for each year since 1998–99, including staffing and supply costs are detailed as follows. Our records for the years 1997–98 to 1999–2000 are not complete and therefore these costs have not been included.

£

	Total running cost	*Staff costs*	*Supply costs*
2000–01	29,992	13,151	13,748
2001–02	34,468	15,125	15,125
2002–03	38,529	14,071	19,028
2003–04	25,091	15,318	7,084

The contribution made to the costs of the private staff canteen facility was £57,810.00 in the year 2003–04. It would not be possible to extract the payments made in respect of this item from other payments relating to catering and hospitality for the years 1997–98 to 2002–03 except at disproportionate cost.

This answer relates only to the Northern Ireland Office and does not include information in respect of the 11 departments of the Northern Ireland Administration.

Doctors

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many consultant orthopaedic surgeons there were per head of population in the Province on the latest date for which figures are available. [220618]

Angela Smith: There are 0.23 consultant orthopaedic surgeons per 10,000 population employed by the Northern Ireland Health and Personal Social Services as at 31 December 2004.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many general practitioner registrars per head of population completed training in the Province in each of the last five years. [220620]

Angela Smith: The information requested is provided in the following table.

Total number of General Practitioner Registrars who completed training in Northern Ireland, 2000–04

	Headcount per 10,000 population
2004	0.27
2003	0.24
2002	0.21
2001	0.21
2000	0.22

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what plans he has to increase *(a)* the number of orthopaedic surgeons in the Province and *(b)* the number of operating sessions they devote to the NHS. [220621]

Angela Smith: The Department carries out an annual review of the consultant workforce in each of the hospital-based specialties, including orthopaedic surgery, and the numbers in training are adjusted to meet the assessed need, subject to available resources. There are currently 41 consultant orthopaedic surgeons in Northern Ireland. Investments in training orthopaedic surgeons in recent years have been with a view to increasing the number of consultants to at least 50 by 2010.

Those orthopaedic surgeons currently employed in the Province devote 137 operating sessions to the Health and Personal Social Services.

DOE Planning Service

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many planning applications were received by DOE Planning Service in Downpatrick for domestic properties on *(a)* Ballygelagh Road, Ardkeen, *(b)* Upper Ballygelagh Road, Ardkeen, *(c)* Tullycross Road, Ardkeen, *(d)* Lisbane Road, Ardkeen; and how many applications came before Ards borough council with recommendations for refusal that were subsequently overturned and granted approval in each year for the past 10 years. [208981]

Angela Smith: The information requested is as follows.

	Applications received by Downpatrick divisional planning office	*Applications presented for refusal*	*Applications overturned and given approval*
Ballygelagh Road			
2000	22	4	0
2001	11	5	1
2002	15	5	3
2003	14	12	2
2004	34	12	1
Lisbane Road			
2000	6	0	0
2001	4	2	0
2002	3	0	1
2003	4	2	0
2004	10	2	1
Tullycross Road			
2000	3	1	0
2001	3	1	0
2002	1	1	1
2003	1	0	0
2004	8	2	0
Upper Ballygelagh Road			
2000	3	2	0
2001	3	2	0
2002	1	3	0
2003	1	4	0
2004	8	5	3

It is only possible to provide information for the last five years, as the information for previous years is not held electronically by the Planning Service, and could be obtained only at disproportionate cost.

There is no correlation between the data within a specific year. The data refers to the year in which (column B) applications were received; (column C) applications were presented to council and (column D) the year that the final approval decision was taken by the planning service. It cannot be assumed that the number of applications overturned in one year is directly related to the number of applications presented to council with a recommendation to refuse. Due to the complexity of the planning process it can be a considerable time between the receipt of an application and a final decision being taken.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many planning applications have been received by DOE Planning Service for domestic properties in the Ards Peninsula, *(a)* in the five years prior to the publication of the draft Ards and Down Area Plan 2015 and *(b)* since its publication; how many applications in each case were brought before Ards borough council with a recommendation for refusal; and how many of these applications were subsequently overturned and given approval. [208982]

Angela Smith: The information requested is as follows.

Pre Draft Ards and Down Area Plan 2015 (1998–2002)

Number	*Description*	*Number*
1	Applications Received from 1 January 1998 until publication of the draft Plan	955
2	Of those in (1) above the number brought before Ards borough council with a Recommendation of Refusal by DOE Planning Service	159
3	Of those in (2) above the number which subsequently had an Approval Decision by the Department	[1] Not available

Post Draft Ards and Down Area Plan 2015 (2003-04)

Number	*Description*	*Number*
1	Applications Received post Plan up to December 2004	721
2	Of those in (1) the number brought before Ards borough council with a Recommendation of Refusal by the DOE Planning Service	124
3	Of those in (2) above the number which subsequently had an Approval Decision by the Department	[1] Not available

[1] It is only possible to provide information for parts A and B of the question as the information required in relation to the number of applications which subsequently had an approval decision is not held electronically by the Planning Service, and could be obtained only at disproportionate cost.

Note:

For the purpose of providing these figures the publishing date for the publication of the Ards and Down Area Plan has been taken as 1 December 2002.

Domestic Violence

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many non-molestation orders have been issued in Northern Ireland in each year since 1997. [220631]

Mr. Leslie: I have been asked to reply.

Non-molestation orders were introduced in April 1999 under Article 20 of the Family Homes and Domestic Violence (Northern Ireland) Order 1998. The figures show the number of non-molestation orders made each year since then.

	Number
1999	2,717
2000	3,439
2001	3,825
2002	4,191
2003	3,546
2004	[1]3,286

[1] The 2004 figures are provisional and are subject to statistical validation.

Prior to April 1999 personal protection and exclusion orders, granted under the Domestic Proceedings (Northern Ireland) Order 1980, served a similar function. The figures show the number of these orders made between 1997 and 1999.

	Number
1997	4,132
1998	4,139
1999	1,665

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many non-residential orders have been issued in Northern Ireland in each year since 1997. [220632]

Mr. Leslie: I have been asked to reply.

Occupation orders granted under Articles 11 to 19 of the Family Homes and Domestic Violence (Northern Ireland) Order 1998 were introduced in April 1999 and the figures show the number of orders made each year since then.

	Number
1999	1,147
2000	1,275
2001	1,538
2002	2,049
2003	1,496
2004	[1]1,196

[1] The 2004 figures are provisional and are subject to statistical validations.

Prior to April 1999 personal protection and exclusion orders, granted under the Domestic Proceedings (Northern Ireland) Order 1980, served a similar function. The figures show the number of these orders made between 1997 and 1999.

	Number
1997	4,132
1998	4,139
1999	1,665

Energy Costs

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how much each health trust in the Province spent on energy costs during the last year. [220694]

Angela Smith: Provisional figures for the Health and Social Services Trust expenditure on energy costs in the 2003–004 financial year are as follows.

Expenditure on energy costs by HSS Trust 2003–04[1]

Trust	*£000*[2]
Altnagelvin HSS Trust	745
Armagh and Dungannon HSS Trust	504
Belfast City Hospital HSS Trust	2,098
Causeway HSS Trust	726
Craigavon Area Hospital HSS Trust	1,033
Craigavon and Banbridge Community HSS Trust	226
Down Lisburn HSS Trust	1,165
Foyle HSS Trust	613
Green Park HSS Trust	655
Homefirst HSS Trust	984
Mater Infirmorum HSS Trust	428
Newry and Mourne HSS Trust	583
North and West Belfast HSS Trust	850
Royal Group of Hospitals HSS Trust	2,267
South and East Belfast HSS Trust	881
Sperrin Lakeland HSS Trust	1,117
Ulster Community and Hospital HSS Trust	1,168
United HSS Trust	1,055
Total Expenditure	17,098

[1] Provisional
[2] Year ended March 2004
Note:
Premises energy costs include oil, gas, electricity and other fuels.

Hyponatraemia-related Deaths

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether the independent inquiry into hyponatraemia-related deaths will be able to compel witnesses to co-operate. [220695]

Angela Smith: The inquiry into hyponatraemia-related deaths has been established under article 54 and schedule 8 of the Health and Personal Social Services (NI) Order 1972. Under this legislation John O'Hara QC, as chairman of the inquiry, has wide-ranging powers to require any person to attend and give evidence or to furnish information on any matter in question at the enquiry. Failure to comply is an offence punishable by a fine or imprisonment.

Illegal Cigarettes

David Burnside: To ask the Secretary of State for Northern Ireland what estimate he has made of the value of illegal cigarettes traded in the Province in each of the last three years. [219669]

John Healey: I have been asked to reply.

HM Customs and Excise does not estimate the value of illegal cigarettes at a Northern Ireland level.

The latest estimates of volume of illegal cigarettes for the UK as a whole is available in HM Customs and Excise's publication "Measuring and Tackling Indirect Tax Losses—2004," published alongside the Pre-Budget Report in December 2004, a copy of which is available in the House of Commons Library.

Illegal Drugs

David Burnside: To ask the Secretary of State for Northern Ireland what his most recent estimate is of *(a)* the size of the trade in illegal drugs in the Province and *(b)* the amount of money received from that activity by (i) the Provisional IRA, (ii) the INLA, (iii) the Official IRA, (iv) the UDA, (v) the UVF and (vi) other criminal gangs in the last three years. [220563]

Mr. Pearson: It is impossible to quantify the scale and total value of the trade in illegal drugs in Northern Ireland with any precision.

This year's Organised Crime Task Force Threat Assessment, launched in May 2004, clearly indicated that the INLA, UDA, UVF and LVF are all involved in the trafficking and supply of illegal drugs. It is not clear however what proportion of the illegal profits is passed on to those organisations or retained by individuals themselves.

The Independent Monitoring Commission's report of 4 November 2004 also provided an assessment of the criminal activities of paramilitary groups, including those involved in drugs dealing.

Illegal Fuel

David Burnside: To ask the Secretary of State for Northern Ireland what estimate he has made of the value of illegal red diesel being smuggled into the Province in the last three years. [219667]

John Healey: I have been asked to reply.

HM Customs and Excise's latest estimates of the revenue loss due to fuel fraud and cross-border shopping in Northern Ireland are available in HM Customs and Excise's Annual Report and Accounts published in December 2004.

At present, it is not possible to break down these estimates into the value of revenue lost through cross-border shopping or different types of fraud.

David Burnside: To ask the Secretary of State for Northern Ireland what estimate he has made of how many filling stations in the Province are selling illegal fuel. [219668]

John Healey: I have been asked to reply.

HM Customs and Excise's most recent assessment in 2002 was that of the fuel retail sites in Northern Ireland approximately one third sold predominantly illegal fuel, one third sold illegal fuel periodically and one third did not sell illegal fuel.

However, as a result of increased activity to target retail sites over the last two years' Customs are currently reviewing this assessment.

Murder Investigations

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what discussions he has had with the Chief Constable of Police in Northern Ireland on the possible involvement of the Provisional IRA in the murders of *(a)* Mr McCartney in Belfast and *(b)* Mr McGinley in Londonderry. [220452]

Mr. Pearson: My right hon. Friend the Secretary of State for Northern Ireland meets the chief constable and his security advisers on a regular basis to discuss a range of security matters.

Northern Area Plan

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland when he expects the Northern Area Plan to be published. [220442]

Angela Smith: The Planning Service is completing work on the draft Northern Area Plan with the aim of publishing the Plan as soon as possible and no later than the end of May 2005.

Parades

Mr. McNamara: To ask the Secretary of State for Northern Ireland what the outcome was of the inquiry undertaken by the Police Ombudsman in relation to the alleged breaches of determinations of the parades commission concerning parades in East Belfast on 1 July 2004. [218976]

Mr. Pearson: The Police Ombudsman has advised me that she has not undertaken an inquiry in relation to the alleged breaches of determinations of the parades commission concerning parades in East Belfast on 1 July 2004.

Pensions

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how proposed Government pension scheme changes will impact on pension scheme members in Northern Ireland; and if he will make a statement. [219816]

Mr. Pearson: It is assumed that this question is referring to the proposed changes to the pension schemes for civil servants, staff employed in the NHS and for teachers.

The Government announced in June 2003 that it intended to proceed with a proposal to make the normal age of retirement for public service pensions schemes 65 rather than 60 and that it intended to proceed with this through reviews of those schemes.

As a result, consultation on proposed changes for the main civil service pension scheme in Great Britain and the NHS and teachers schemes for England and Wales is currently underway. As the Principal Civil Service Pension Scheme for Northern Ireland, the Health and Personal Social Services Superannuation Scheme, and the Teachers Superannuation Scheme in Northern Ireland operate on a principle of parity with these schemes, the normal approach would be to introduce similar changes for Northern Ireland staff.

It is proposed that the new arrangements would take effect from April 2006, but that these would not be extended to existing staff before 2013. In addition, pension benefits earned before 2013 would be protected in full.

Police Secondments

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland if he will extend the personnel exchange and secondment arrangements announced on 21 February between the Police Service of Northern Ireland and the police force of the Irish Republic to *(a)* other parts of the United Kingdom and *(b)* other member states of the EU. [218658]

Mr. Pearson: I have no plans to extend those arrangements flowing from the Inter-Governmental Agreement on Policing Co-operation as arrangements already exist to facilitate the movement of police officers to other parts of the UK or other member states of the EU.

Under Section 27 of the Police (Northern Ireland) Act 1998, members of the Police Service of Northern Ireland can engage in temporary service with other police forces in Great Britain. Similarly, Section 8 of the Police (Northern Ireland) Act 2000 confers a power on the Policing Board, subject to the approval of the Secretary of State, for PSNI officers to provide advice and assistance to international organisations/institutions or any other person or body engaged outside the United Kingdom in carrying out policing related activities.

In addition, the Chief Constable of the Police Service of Northern Ireland also has the authority under Section 98(3) of the Police Act 1996 to assist other Chief Constables in the UK should there be special demands placed on their resources.

Provisional IRA

David Burnside: To ask the Secretary of State for Northern Ireland what his most recent assessment is of the scale of illegal distillation of spirits by the Provisional IRA in the Province. [219674]

John Healey: I have been asked to reply.

HM Customs and Excise has made no such assessment. The Northern Ireland Organised Crime Task Force's threat assessment and strategy document Confronting the Threat, which was published in May 2004, contains information on paramilitary involvement in organised crime. Copies of this document have been placed in the House of Commons Library.

David Burnside: To ask the Secretary of State for Northern Ireland what discussions he has had with the Justice Minister of the Irish Republic following his statement in February that Gerry Adams MPMLA and Martin McGuinness MPMLA were members of the Army Council of the Provisional IRA. [220235]

Mr. Pearson: My right hon. Friend the Secretary of State for Northern Ireland met with Mr. McDowell on 21 February at Hillsborough Castle for the signing of the Protocols between the PSNI and Garda Siochana, during which a number of matters were discussed. The Secretary of State also met with Mr. Ahern and Mr. McDowell at the recent British Irish Intergovernmental Conference where a variety of matters of mutual interest were discussed and these are included in the joint communiqué.

Psychiatric Illness Claims

Mr. McNamara: To ask the Secretary of State for Northern Ireland what progress has been made in settling post-traumatic stress disorder and other psychiatric illness claims against the Royal Ulster Constabulary and Police Service of Northern Ireland; what target he has drawn up for the maximum time to be taken in dealing with individual claims; and how many new claims have been submitted in each month since March 2001. [218970]

Mr. Pearson: The group action being taken by serving and retired members of the RUC and PSNI in respect of post-traumatic stress disorder claims is listed for hearing in November 2005. The chief constable has not set target times for dealing with individual claims but they will be dealt with expeditiously and in accordance with the time limits set by the courts.

The chief constable currently holds details of 3,363 claims which have been made since June 2001. However, the PSNI is unable to provide figures relating to the number of claims submitted on a monthly basis.

Road Accidents

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many accidents on Ballyquin Road, Limavady, County Londonderry, have been reported to DRD Roads Service within the past 10 years. [220441]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has been asked to write to the hon. Gentleman in response to this question.

Letter from Dr. Malcolm McKibbin to Mr. Gregory Campbell dated 8 March 2005:

You recently asked the Secretary of State for Northern Ireland a parliamentary Question asking how many accidents on Ballyquin Road, Limavady, County Londonderry, have been reported to DRD Roads Service within the past 10 years (220441). I have been asked to reply as the issue raised falls with my responsibility as Chief Executive of Roads Service.

With regard to accident statistics I should explain that the Police Service for Northern Ireland (PSNI) gathers road traffic injury collision information. Roads Service has access to this information for its own investigation purposes. We currently hold PSNI records for the B68 Ballyquin Road for the period January 1996 to February 2005. During that period there were 50 such injury collisions, including the recent double fatality at a bend on the road near Dungiven. .

Like the vast majority of the rural road network, Ballyquin Road was not designed to modern standards, though a number of improvement schemes have been carried out on the road over recent years, including the erection or bend warning signs at the double fatality accident location. However, the collision history along this road remains a cause for concern. We have, therefore, been analysing the nature and type of collisions along the road, with a view to delivering a package of measures designed specifically to reduce the number of collisions.

As a result of this work, a route action Collision Remedial Scheme (signs, white lines etc.) for the Ballyquin Road has been included in our programme of works for the next financial year. Detailed analysis of the route is underway and we are intending to complete the necessary design work for this scheme within the next few months. The bend referred to above will be given priority within the scheme, so that any suitable measures can be implemented at this location, as soon as possible. Any more major improvement proposals along the road (realigning of bends, improving sight distances, road widening etc.) would, of course, have to compete for funding with other worthwhile schemes within our Northern Division area.

You may also be interested to learn that we also intend to carry out some resurfacing work on the Ballyquin Road during the incoming financial year.

I hope this information is helpful.

Robert Laverty

Mr. Dodds: To ask the Secretary of State for Northern Ireland if he will make a statement on the investigation into the murder of Robert Laverty on 15 July 1972 in North Belfast. [218959]

Mr. Paul Murphy: The PSNI inform me that arrests have been conducted in respect of this matter. To date no persons have been made amenable for the murder of constable Laverty.

Sexual Abuse

Mr. Dodds: To ask the Secretary of State for Northern Ireland what Government resources are available to help the victims of sexual abuse in Northern Ireland. [220628]

Angela Smith: Health and Social Services Boards provide a range of medical and mental health services to victims of sexual abuse via the Health Trusts. These services include counselling, medical services provided in accident and emergency units and specialist genito-urinary unit services. Government Departments and other public sector bodies also provide funding to voluntary sector organisations, such as the Nexus

Institute, the Rape Crisis and Sexual Abuse Centre (NI), and Victim Support NI, which offer counselling and support services to victims/survivors.

The investigation of serious sexual offences and child abuse matters is the responsibility of the Care Units of the Police Service for Northern Ireland. The units are staffed by specially trained police officers and provide support to victims throughout investigations and subsequent court proceedings.

The policy of the Director of Public Prosecutions for Northern Ireland is that the Department will consider the proper interests of victims (and witnesses) at every stage in the criminal process. The Department takes practical steps to give effect to its policy on the treatment of victims, including ensuring that staff treat victims with sensitivity and understanding, ensuring that proper use is made of appropriate legal measures to assist victims to give evidence to courts and that victims are kept informed of significant developments in the case in which they have an interest.

Mr. Dodds: To ask the Secretary of State for Northern Ireland when he plans to announce the strategy to address sexual abuse in Northern Ireland. [220629]

Angela Smith: The development of a regional strategy to address sexual violence in Northern Ireland is being taken forward jointly by the Department of Health, Social Services and Public Safety and the Northern Ireland Office, in conjunction with other Departments and agencies whose responsibilities also encompass matters relating to sexual violence. It is proposed to publish a consultation document on the strategy in the summer of this year and to publish the final strategy in April 2006.

Mr. Dodds: To ask the Secretary of State for Northern Ireland what services are provided by the statutory sector to the victims of sexual abuse in each health and social services board area in Northern Ireland. [220630]

Angela Smith: The four Health and Social Services Boards in Northern Ireland provide a range of medical and mental health services through the Health Trusts in those areas. These services include counselling, medical services provided in accident and emergency units and specialist services in the genito-urinary unit. In addition, further counselling and support services are provided by the Boards through funding to Voluntary Sector Organisations like the Nexus Institute.

Smuggling (Livestock)

David Burnside: To ask the Secretary of State for Northern Ireland what assessment he has made of the scale of smuggling in livestock in the Province. [219670]

Mr. Pearson: I have no evidence of significant smuggling of livestock within the island of Ireland. Sheep and pigs can be traded freely, subject to European Union rules, which are actively enforced by the relevant authorities in both the Republic of Ireland and Northern Ireland. The export of cattle from Northern Ireland is prohibited under European Union rules though incentives to smuggle do exist. To prevent such smuggling there is close liaison between the enforcement authorities who share information and target action where necessary. Such action includes joint operations and following one such operation last year several prosecutions are pending. Other action taken includes the establishment of a central enforcement team within the Department of Agriculture and Rural Development's Veterinary Service, the targeting of cattle identification inspections and tightening the rules on movement of animals to ensure that the system of traceability is maintained.

Welfare Foods

Mr. Beggs: To ask the Secretary of State for Northern Ireland what plans the Government have to extend the welfare food scheme to Northern Ireland; and if he will make a statement. [220531]

Angela Smith: A welfare foods scheme, parallel to that which exists in Great Britain, has been in operation in Northern Ireland since 1940. The scheme has been reviewed and consultation is ongoing, throughout the UK, on draft regulations for the introductory phase of the Healthy Start voucher scheme in a defined area in England. The intention is to introduce the new scheme in Northern Ireland at the same time as the rest of the United Kingdom.

ELECTORAL COMMISSION

European Constitution

Kate Hoey: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what criteria the commission will apply when designating organisations for the EU constitution referendum. [218734]

Mr. Viggers: The Electoral Commission provided guidance on the designation process for the north east referendum held in November 2004. The commission has informed me that it is currently reviewing that guidance, and plans to publish specific guidance on the designation process for any referendum to be held following enactment of the European Union Bill by autumn 2005.

Kate Hoey: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission how the commission intends to regulate organisations that would be permitted participants in the referendum on the EU constitution that are *(a)* partially or *(b)* wholly funded by institutions of the European Union. [218735]

Mr. Viggers: By virtue of the provisions of section 117 of the Political Parties Elections and Referendums Act 2000 (PPERA), all participants who intend to spend over £10,000 campaigning in a referendum are required to register as 'permitted participants' with the Electoral Commission. Section 105 of the Act prohibits organisations that do not carry out their main business activities in the United Kingdom from being permitted participants.

PPERA also prohibits an organisation which is not eligible to be a permitted participant from making donations to a permitted participant, unless the total value of its donations to that participant is less than £200.

As regards the institutions of the European Union, I am informed by the Electoral Commission that it has already indicated that it does not regard the European Commission as falling into any of the categories of organisation that can be a permitted participant.

The Electoral Commission will review the statutory returns submitted by permitted participants in order to ensure that they have complied with the requirements of the legislation.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Avian Flu

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what steps are being taken to develop a vaccine to counter avian flu; and if she will make a statement. [219286]

Miss Melanie Johnson: I have been asked to reply.

The National Institute for Biological Standards and Control has secured an isolate of the current avian influenza virus strain and has produced a candidate vaccine virus using "reverse genetics" technology for use should this be required.

We are working closely with other countries, the World Health Organisation, the European Commission and manufacturers to ensure that a vaccine can be developed as quickly as possible after a pandemic flu strain emerges.

Cross-compliance

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs whether farmers will face penalties for failing to meet cross-compliance requirements; whether allowances will be made to farmers due to late information being supplied to them; and if she will make a statement. [218466]

Alun Michael: Cross-compliance requirements for the single payments scheme (SPS) apply from 1 January 2005. Three booklets outlining cross-compliance requirements, which reflect either existing law or represent good farming practice, were sent out to farmers in late 2004.

If SPS applicants do not comply with cross-compliance requirements, they may have their direct payments, including SPS, reduced in part or in total.

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs what inspection regime she has put in place for cross-compliance; and if she will make a statement. [218467]

Alun Michael: In considering possible options for the enforcement of cross-compliance, Defra's key concern has been to develop a flexible, cost-effective and proportionate enforcement apparatus which supports the Department's policy objectives as set out in the Strategy for Sustainable Farming and Food, based on the sustainable development of the industry, including taking account of the competitive position of agriculture in England compared with other UK and European farmers.

After careful consideration and close consultation with the relevant enforcement bodies and stakeholders, my right hon. Friend the Secretary of State, has charged the Rural Payments Agency (RPA) with overall responsibility to ensure cross compliance enforcement meets the Commission's minimum requirements in 2005, provides appropriate coordination of inspections and acts a single point of contact for all cross-compliance related farmer inquiries. The RPA will discharge this responsibility working in partnership with the various specialist enforcement bodies, such as the Environment Agency, who will be formally delegated to carry out inspections within their respective areas as required.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Management Committees of the Common Organisation of Agricultural Markets for Sugar met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217846]

Alun Michael: On average the EU's Sugar Management Committee meets around 18 times during each presidency period. These meetings take place in Brussels on Thursday afternoons and are attended by officials from Defra and additionally, as necessary, by officials from other UK Agriculture Departments or the Rural Payments Agency.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairshow many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU Committee on agricultural structures and rural development met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217873]

Alun Michael: The following meetings of the European Commission's committee on agricultural structures and rural development took place during the periods of *(a)* the Italian, *(b)* the Irish and *(c)* the Dutch presidencies.

(a) Italian presidency

23 July 2003
24 September 2003
22 October 2003
17 December 2003

(b) Irish presidency

28 January 2004
18 February 2004
24 March 2004
22 April 2004
11 May 2004
23 June 2004

(c) Dutch presidency

20 July 2004
22 September 2004
20 October 2004
19 November 2004
15 December 2004

Meetings of the Committee are held in Brussels, and are chaired by the Commission, not by a representative of the member state currently holding the presidency of the Council. The UK Government experts present at these committees are officials working on rural development issues under the current programme and policy on future programmes from 2007–13—usually the head of the EU policy branch in the Rural Development Division in Defra (Colin Macleod). Experts from the devolved administrations also attend when issues relating to their particular Rural Development Programmes are on the agenda.

Farm Waste Grants

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has for replacement of the Farm Waste Grants Scheme. [219309]

Alun Michael: Defra are considering whether to replace the Farm Waste Grants Scheme which ends on 31 March 2006. The scheme was introduced in 1996 for a seven year period when the first Nitrate Vulnerable Zones were designated under the EC Nitrates Directive.

New NVZ designations were made in October 2002 increasing the NVZ area in England from approximately 8 per cent. to 55 per cent. of the country. At the same time these designations were made, the 1996 scheme was extended to the new NVZs to assist farmers in meeting the manure handling and storage requirements under the NVZ Action programme. An announcement extending the scheme for a further two years was made on 30 September 2003.

As part of the Rural Strategy, Defra is currently introducing simplified and streamlined funding arrangements that replace the plethora of existing grant schemes. The new funding framework will be centred around three major flexible funds based on Defra's strategic priorities of natural resource protection, sustainable farming and food and sustainable rural communities.

Sickness Absence

Mr. Hammond: To ask the Secretary of State for Environment, Food and Rural Affairs what initiatives her Department is taking to reduce the numbers of sick days taken by staff in the Department. [216633]

Alun Michael: The Department is fully committed to the management of sickness absence and introduced a new Sickness Absence Management policy on 1 December 2004, which includes many of the best practices contained in the Report of the Joint Review by the Ministerial task Force for Health, Safety and Productivity and the Cabinet Office report on 'Managing Sickness Absence in the Public Sector' (November 2004). Defra's policy has the support of the Departmental Trade Unions and includes:

Welcome back discussions between line managers and staff returning from sickness absence, on each occasion of absence.

Prompts for action sent to managers when staff have accumulated 15 and 30 days sickness absence in a rolling 12 month period.

Dedicated professional advice from Human Resources to managers dealing with sickness absence cases.

Occupational Health referral options for managers who are concerned about the attendance of their staff.

The Department is also introducing a new electronic Human Resources Management system, which will produce real time management information on sickness absence.

Defra is supporting the recommendations made in the 'Managing sickness absence in the public sector' report, by taking part in a trial of more sensitive arrangements for the use of special/compassionate leave.

DEFENCE

12 Mechanised Brigade

Mr. Keith Simpson: To ask the Secretary of State for Defence what assessment he has made of the effectiveness of the radios of 12 Mechanised Brigade. [219526]

Mr. Ingram *[holding answer 3 March 2005]:* 12 Mechanised Brigade will deploy to Iraq in April with a mix of Bowman and Clansman radios. Our assessment is that this will provide robust communications for the brigade. Bowman will provide a significant increase in capability compared with the earlier Clansman system.

Aircraft Crashes

Mr. Arbuthnot: To ask the Secretary of State for Defence (1) if he will place in the Library a copy of the complete RAF Board of Inquiry into the crash of RAF Harrier aircraft GR7 ZG475 on 1 June 1995; [218160]

(2) if he will place in the Library a copy of the complete RAF Board of Inquiry into the crash of RAF Tornado F3 ZH558 on 8 July 1994; [218161]

(3) if he will place in the Library a copy of the complete RAF Board of Inquiry into the crash of a RAF Chinook HC1 helicopter ZA721 on 27 February 1987. [218780]

Mr. Caplin: I will write to the right hon. Member and place a copy of my letter in the Library of the House.

Camp Bucca

Mr. Tyrie: To ask the Secretary of State for Defence what assessment he has made of the performance of the Prisoner of War Registration Unit and the Prisoner Monitoring Team at Camp Bucca in ensuring that the UK met its obligations under the Geneva Convention. [219751]

Mr. Ingram: The Independent Committee of the Red Cross (ICRC) is the recognised international authority to scrutinise procedures and organisations within detention facilities in Iraq. The ICRC visited Camp Bucca during the period that it contained some internees for which the United Kingdom was responsible and we understand that they were content that UK obligations under the Geneva convention were met.

Defence Contracts (Chorley)

Mr. Hoyle: To ask the Secretary of State for Defence how many defence contracts have been given to companies in Chorley constituency since 1997; and what the value was in each year. [219037]

Mr. Ingram: Estimates of the number and value of contracts placed directly by MOD (excluding its Trading Fund Agencies) with companies in the Chorley constituency are as follows:

Financial year	*Number of contracts*	*Total contract value (£ million)*
1997–98	9	4.4
1998–99	14	110.4
1999–2000	17	137.6
2000–01	14	40.0
2001–02	16	5.9
2002–03	12	39.5
2003–04	7	3.8

Defence Service Agencies (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year since 1997–98 the Ministry of Defence police spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each case; and if he will make a statement. [215434]

Mr. Caplin: The information requested is shown as follows:

£ million

	Personnel budget	*Spend in Scotland*	*Percentage of budget*
1997–98	134.396	31.887	24
1998–99	130.135	27.382	21
1999–2000	139.132	32.777	24
2000–01	135.995	32.826	24
2001–02	134.682	36.790	27
2002–03	135.914	33.273	25
2003–04	143.406	34.427	24

The number of MOD Police Agency personnel employed in Scotland in each financial year since 1997–98 is shown as follows:

	MOD Police Agency personnel employed in Scotland
April 1997	960
April 1998	890
April 1999	890
April 2000	890
April 2001	870
April 2002	840
April 2003	820
April 2004	1,120
January 2005	1,310

Defence Spending (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for financial years *(a)* 2001–02, *(b)* 2000–01, *(c)* 1999–2000, *(d)* 1998–99 and *(e)* 1997–98 the Defence Bills Agency spent in Scotland (i) in monetary terms and (ii) as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland; and if he will make a statement. [217240]

Mr. Ingram: The Defence Bills Agency is based in Liverpool. It had no staff based in Scotland in 1997–98,1998–99,1999–2000, 2000–01 or 2001–02.

Both Civilian and Service personnel data by Agency are collated annually at 1 April and presented in Table 2.6 of UK Defence Statistics, a copy of which is held in the Library of the House. Further information on personnel figures is available on the DASA website at www.dasa.mod.uk

Departmental Documents

Mr. Keith Simpson: To ask the Secretary of State for Defence when he intends to publish an updated version of his Department's efficiency technical note. [217844]

Mr. Ingram: An updated Efficiency Technical Note is due to be published in the autumn.

East Timor

Mr. Drew: To ask the Secretary of State for Defence what military advice his Department is offering to the new Government of East Timor. [220852]

Mr. Ingram: Although the Ministry of Defence has previously provided military assistance to the Government of East Timor, we are not currently offering any formal military advice to them.

Gulf War-related Illnesses

Tony Cunningham: To ask the Secretary of State for Defence how many veterans who have had claims of Gulf War-related illnesses refused have appealed against the decision; and what the success rate has been. [220492]

Mr. Caplin: *[holding answer 7 March 2005]:* 132 veterans appealed against decisions that Gulf War-related illness conditions were not related to their service in the armed forces. Of these, 36 cases were allowed by the Pensions Appeal Tribunal (PAT).

221 veterans appealed against the level of assessment of disablement. 74 had their assessment increased after being heard at the PAT, 80 had their assessment upheld, six had their assessment reduced, 39 were cleared pre-appeal and 22 were withdrawn by the appellant.

Iraq

Mr. Hoyle: To ask the Secretary of State for Defence how much block leave is allocated to units *(a)* prior to an operational tour of Iraq and *(b)* on return from Iraq. [219064]

Mr. Caplin: There is no established regulation on the provision of 'block leave' prior to deployment on an operational tour. Many units do work a 'block leave' system in which the unit will stand-down as a whole. These periods may take place at the discretion of the commanding officer before an operational tour,

providing they do not conflict with the interests of the service and that there is sufficient time prior to deployment for leave to be taken.

Post operational tour leave and post operational detachment leave were introduced in recognition of the stresses and strains that operational deployments bring to both an individual and their family and friends. The general entitlement for all personnel returning from a tour in Iraq of six months is a minimum of 20 working days leave. However, the breakdown of this entitlement between additional post-operational leave and an individual's annual leave entitlement differs between the three services.

Military Aircraft Crashes

Mr. Arbuthnot: To ask the Secretary of State for Defence if he will place in the Library a copy of the complete RAF Board of Inquiry into the crash of a Tornado aircraft in Glen Ogle on 1 September 1994. [217295]

Mr. Caplin: I will place in the Library a copy of parts one to five of the Board of Inquiry (BoI) into the crash of a Tornado aircraft in Glen Ogle on 1 September 1994, together with a copy of the list of annexes to the BoI. The BoI papers have been declassified and redacted in accordance with the Data Protection Act 1998. A small amount of information at paragraph 19.n and 59.j of part two of the BoI papers, and some of the title of annex R in the list of annexes, has been withheld for security reasons, and information in paragraphs 22a, 34 and 46 of part two of the BoI papers have been withheld under the European Convention on Human Rights, Article 8 (Right to Respect for Private and Family Life), enabled by the Human Rights Act 1998.

Mutual Defence Agreeement

Alan Simpson: To ask the Secretary of State for Defence what estimate he has made of the annual costs associated with the operation of the 1958 Mutual Defence Agreement in each of the last 10 years. [220106]

Mr. Hoon: The annual costs associated with operating the 1958 Mutual Defence Agreement (MDA) would include not only the operating costs of the Atomic Control Office (London) and the Atomic Coordinating Office (Washington), but also the costs of any Ministry of Defence and AWE personnel spending significant parts of their time on work associated with the Agreement, the costs of visits to the US under the MDA and the costs of transfers of material. Such information over the past 10 years is not readily available in the form requested and could only be collated at disproportionate cost.

Naval Operational Strength

Mr. Amess: To ask the Secretary of State for Defence how many *(a)* frigates and *(b)* destroyers are operational. [220160]

Mr. Ingram: As at 3 March 2005, there are 23 frigates and destroyers currently available for tasking by CINCFLEET.

Near Air Misses (Worcestershire)

Sir Michael Spicer: To ask the Secretary of State for Defence if he will make an assessment on the safety of the Royal Air Force training flight path over the Air Ambulance Heliport at Strensham in Worcestershire. [219547]

Mr. Caplin *[holding answer 3 March 2005]*: There is no flight training path over or near the site of the Heliport at Strensham. The Strensham location lies within the UK low flying system and Class G airspace, within which the internationally recognised principle of "see and avoid" operates. Additionally, the site of the heliport is marked on low flying charts as a warning to pilots that helicopters are operating from there.

RAF

Mr. Rosindell: To ask the Secretary of State for Defence what the cost of Royal Air Force recruitment campaigns has been in each of the last five years. [212363]

Mr. Caplin: The overall marketing budgets, which cover recruitment advertising campaigns and general material promoting the Royal Air Force, for the previous four financial years are detailed in the following table.

Financial year	*Cost incurred (£ million)*
2000–01	5.390
2001–02	6.518
2002–03	8.125
2003–04	8.316

The most recent forecast for financial year 2004–05 is £9.100 million.

Mr. Rosindell: To ask the Secretary of State for Defence what effect the planned changes to the Royal Air Force will have on jobs in *(a)* London, *(b)* Essex and *(c)* the UK. [212365]

Mr. Caplin: My right hon. Friend the Minister of State for the Armed Forces announced on 9 December 2004 the outcome of the initial work on the drawdown of uniformed RAF manpower to around 41,000. Since then much work has been completed and the implementation has begun. Work on the impact of these changes on Ministry of Defence civilian jobs is also ongoing. However, it is not yet possible to say how individual jobs or their locations will be affected, but RAF and MOD civilian personnel will be kept informed of the changes as they develop.

Mr. Rosindell: To ask the Secretary of State for Defence what assessment he has made of the effect of planned changes to the funding of the Royal Air Force on UK national security. [212381]

Mr. Ingram: The Royal Air Force is not funded as an entity in its own right; instead we invest in defence as a whole. I am satisfied that the changes announced to the House by my right hon. Friend the Secretary of State for Defence on 21 July 2004, *Official Report*, columns 343–66 and set out in detail in Delivering Security in a Changing World—Future Capabilities (Cm 6269) will enhance the UK defences and security.

Reapprovals

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will list major project report projects that have been subject to re-approval since financial year 1997–98; and what the date of re-approval was in each case. [219039]

Mr. Ingram: I will write to the hon. Member and place a copy of my reply in the Library of the House.

Shoeburyness Ranges

Mr. Whittingdale: To ask the Secretary of State for Defence what research he has evaluated on the work carried out using radioactive materials at the Shoeburyness ranges as part of the original nuclear weapons programme; and what reports he has received on releases of radioactive material at the Shoeburyness ranges as part of the original nuclear weapons programme. [218571]

Mr. Caplin: The Ministry of Defence has just commenced a Land Quality Assessment (LQA) of the entire Shoeburyness site. It is expected that appropriate assessments of any historic radioactive contamination associated with the use of radioactive materials in support of the nuclear weapons programme will be conducted and reported upon as necessary as the LQA progresses. This work will build upon a Land Quality Statement, compiled in 1997, relating to areas of the Shoeburyness site formerly used for research in support of the nuclear weapons programme. The broad history of the part of Shoeburyness (AWE Foulness) formally used for these purposes is available in the report (ISSN 1478–7008) of a desk-top investigation published by English Heritage in 2004.

Textile Procurement

Mr. Hoyle: To ask the Secretary of State for Defence what discussions his Department has had with officials from the Department of Trade and Industry about the procurement of textiles. [219755]

Mr. Ingram: Ministry of Defence officials are in regular contact with officials in the Department for Trade and Industry on procurement issues, including textiles, and the Department is also represented on an inter-departmental committee chaired by my right hon. Friend the Secretary of State for Trade and Industry at which a range of public procurement issues are discussed.

Tsunami

Angus Robertson: To ask the Secretary of State for Defence pursuant to his Answer of 21 February, *Official Report* columns 113–14W, if he will make it his policy not to recover any costs, marginal or otherwise, from the Department for International Development in relation to the relief effort following the Indian Ocean earthquake and tsunami. [217947]

Mr. Ingram *[holding answer 24 February 2005]:* The Ministry of Defence and Department for International Development agreed at the outset that the extra costs of the military assistance requested by DfID, for which the MOD does not have a budget, would be reimbursed by DfID. This approach is in line with normal practice and consistent with Treasury guidance on interdepartmental services. The MOD's activity—the full costs of which are estimated to be some £14 million—was central to the delivery of relief and it is realistic to see its additional costs as within the scope of the relief effort. There is no intention to review the policy.

Angus Robertson: To ask the Secretary of State for Defence pursuant to his Answer of 21 February, reference 214418, what chargeable costs have arisen to date that are recoverable from the Department for International Development in relation to the relief effort following the Indian Ocean earthquake and tsunami. [217948]

Mr. Ingram *[holding answer 24 February 2005]:* The Ministry of Defence's extra costs reported to the end of January 2005 in relation to the relief effort following the Indian Ocean earthquake and tsunami amount to £1.7 million. All of this is related to costs for which MOD is not funded and which we would not otherwise have incurred. It is, therefore, recoverable from DfID as agreed at the outset and consistent with Treasury guidance on interdepartmental services. The full cost of MOD's activity in relation to this relief effort are estimated to be some £14 million.

DEPUTY PRIME MINISTER

Advertising Regulations (Lettings)

Mr. Cousins: To ask the Deputy Prime Minister in which areas special exemptions from the Control of Advertising Regulations have been requested to allow controls on letting boards for rented property; in which areas exemptions were granted; and for what reasons. [220398]

Keith Hill: Since May 2002 the Office of the Deputy Prime Minister received requests for directions restricting deemed consent for the display of estate agents' boards from Westminster city council, Brighton and Hove city council, Charnwood borough council and Leeds city council. All directions were granted under regulation 7 of the Town and Country Planning (Control of Advertisements) Regulations 1992, except for the direction for Leeds city council. We are currently considering the council's latest application. The directions that have been granted were to protect the visual amenity of residential areas of special quality from persistently high numbers of estate agents' boards and because there was no other way to effectively control the display of estate agents' boards.

Business Rates

Mrs. Spelman: To ask the Deputy Prime Minister pursuant to the Answer of 3 February 2005, *Official Report*, column 1078W, on business rates, what the estimated average business rates bill for 2005–06 is. [217854]

Mr. Raynsford: As made clear in my answer of 3 February 2005, *Official Report*, column 1078W, to the hon. Member, this information is not yet available.

Local Government Finance

Mr. Cousins: To ask the Deputy Prime Minister what *(a)* amount and *(b)* proportion of local government

revenue was accounted for by (i) revenue support grant, (ii) other grants and funds, (iii) national non-domestic rates and (iv) council tax in (A) England and (B) each council tax levying authority in England in 2004–05. [220273]

Mr. Raynsford: The information requested has been made available in the Library of the House.

All figures are shown in £000s and the amounts are as reported by the local authority.

The data are taken from outturn figures for 1997–98 to 2002–03 and budget estimates for 2003–04 and 2004–05.

Comparisons across years may not be valid due to changing local authority responsibilities.

Figures for Hounslow and Hillingdon are not separately identifiable from other costs and are not included in this table.

Rateable Values

Mr. Hammond: To ask the Deputy Prime Minister what the estimated total rateable value is of hereditaments in each Government office region in England outside London that have a rateable value of *(a)* under £5,000, *(b)* between £5,000 and £10,000, *(c)* between £10,000 and £14,999 and *(d)* over £14,999. [219507]

Mr. Timms: I have been asked to reply.

(a) The estimated total rateable value of the hereditaments in each Government office region in England outside London that have a rateable value under £5,000 is:

Region	*Under £5,000*
East Midlands	150,909,496
Eastern	172,772,783
North East	87,257,023
North West	274,490,364
South East	237,006,043
South West	213,339,097
West Midlands	190,722,327
Yorkshire and the Humber	203,247,248
Total (£)	1,529,744,381

(b) The estimated total rateable value of the hereditaments in each Government office region in England outside London that have a rateable value of between £5,000 and £10,000 is:

Region	*£5,000–£10,000*
East Midlands	203,602,969
Eastern	278,707,060
North East	103,134,068

London Parks

Mr. Edward Davey: To ask the Deputy Prime Minister how much each London borough council spent on maintaining London parks in each year since 1997. [219613]

Phil Hope: The amount each London borough council spent on parks and open spaces in each year since 1997 is tabled as follows:

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*2004–05*
Greater London Authority	—	—	—	0	0	0	1,649	1,814
City of London	1,392	1,304	1,245	1,170	1,218	1,332	1,384	1,475

Waltham Forest	2,364	2,335	2,164	2,771	2,144	1,801	2,265	2,667

Region	£5,000–£10,000
North West	336,834,925
South East	395,618,876
South West	264,303,423
West Midlands	270,025,555
Yorkshire and the Humber	246,707,566
Total (£)	2,098,934,442

(c) The estimated total rateable value of the hereditaments in each Government office region in England outside London that have a rateable value of between £10,001 and £14,999 is:

Region	£10,001–£14,999
East Midlands	144,152,558
Eastern	191,735,975
North East	68,060,946
North West	230,627,132
South East	292,638,414
South West	176,766,483
West Midlands	186,690,117
Yorkshire and the Humber	168,992,315
Total (£)	1,459,663,940

(d) The estimated total rateable value of the hereditaments in each Government office region in England outside London that have a rateable value of £15,000 or more is:

Region	£15,000 or more
East Midlands	2,184,656,602
Eastern	3,169,127,175
North East	1,176,740,618
North West	3,835,436,700
South East	5,293,329,799
South West	2,347,624,118
West Midlands	3,098,553,548
Yorkshire and the Humber	2,732,054,578
Total (£)	23,837,523,138

Mr. Hammond: To ask the Deputy Prime Minister what the estimated total rateable value is of all hereditaments in London that have a rateable value of (a) under £5,000, (b) between £5,000 and £10,000, (c) between £10,000 and £21,499 and (d) over £21,499. [219508]

Mr. Timms: I have been asked to reply.

(a) The estimated total rateable value of all hereditaments in London that have a rateable value of under £5,000 is £228,277,654.

(b) The estimated total rateable value of all hereditaments in London that have a rateable value of between £5,000 and £10,000 is £492,538,884.

(c) The estimated total rateable value of all hereditaments in London that have a rateable value of between £10,001 and £21,499 is £756,251,984.

(d) The estimated total rateable value of all hereditaments in London that have a rateable value of £21,499 or more is £9,073,749,318.

Mr. Hammond: To ask the Deputy Prime Minister how many hereditaments in each London borough have a rateable value of (a) under £5,000, (b) between £5,000 and £10,000, (c) between £10,000 and £21,499 and (d) over £21,499. [219509]

Mr. Timms: I have been asked to reply.

(a) The number of hereditaments in each London borough which have a rateable value of under £5,000 are:

Region	Under £5,000
Barking and Dagenham	1,626
Barnet	2,278
Bexley	1,820
Brent	2,456
Bromley	2,197

Mr. Hammond: To ask the Deputy Prime Minister how many hereditaments in each Government Office Region in England outside London have a rateable value of (a) under £5,000, (b) between £5,000 and £10,000, (c) between £10,000 and £14,999 and (d) over £14,999. [219510]

Mr. Timms: I have been asked to reply.

(a) The number of hereditaments in each Government Office Region in England outside London, that have a rateable value of under £5,000 are:

Region	Under £5,000
East Midlands	62,044
Eastern	74,207
North East	38,498
North West	115,191
South East	94,244
South West	92,279
West Midlands	81,866
Yorkshire and The Humber	85,116
Total	643,445

(b) The number of hereditaments in each Government Office Region in England outside London, that have a rateable value of between £5,000 and £10,000 are:

Region	£5,000-£10,000
East Midlands	28,549
Eastern	39,015
North East	14,403
North West	47,371
South East	55,142
South West	37,154
West Midlands	37,695
Yorkshire and The Humber	34,669
Total	293,998

(c) The number of hereditaments in each Government Office Region in England outside London, that have a rateable value of between £10,001 and £14,999 are:

Region	£10,001-£14,999
East Midlands	11,756
Eastern	15,647
North East	5,540
North West	18,790
South East	23,850
South West	14,419

Region	£10,001–£14,999
West Midlands	15,208
Yorkshire and The Humber	13,789
Total	118,999

(d) The number of hereditaments in each Government Office Region in England outside London, that have a rateable value of over £14,999 are:

Region	£15,000 or more
East Midlands	29,737
Eastern	41,919
North East	15,113
North West	51,901
South East	66,408
South West	34,622
West Midlands	42,766
Yorkshire and The Humber	36,402
Total	318,868

Southend Census Data

Mr. Amess: To ask the Deputy Prime Minister what representations he has received regarding the reliability of the 2001 Census data for Southend in setting the local government financial settlement for Southend. [220555]

Mr. Raynsford: The Office of the Deputy Prime Minister received two letters during the consultation period for the 2005–06 local government finance settlement, one from Southend-on Sea borough council and one from the hon. Member for Rochford and Southend, East. The later of these, queried the reliability of the 2001 Census data used in calculating population estimates for Southend.

Use Classes Order (Newcastle)

Mr. Cousins: To ask the Deputy Prime Minister if he will place in the Library the response of Newcastle upon Tyne city council to his recent consultation on changes to the use classes order. [220275]

Keith Hill: Consultation paper responses are not routinely deposited in the Libraries of the House. In this case, due to the high number of responses to the use classes order consultation (there were over 2,500 responses) the Office of the Deputy Prime Minister does not plan to publish them.

However, in view of my hon. Friend's question, the response of Newcastle city council's has been made available in the Library of the House.

HOME DEPARTMENT

Acceptable Behaviour Contracts

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of acceptable behaviour contracts. [219322]

Ms Blears: Acceptable Behaviour Contracts (ABCs) were first pioneered by the London borough of Islington with the Metropolitan police. Their successful model has been promoted by the Home Office and adopted across the rest of the country. They are voluntary agreements between a person who has been involved in antisocial behaviour and one or more local agencies. They are not statutory orders and we currently have no plans to place ABCs on a statutory basis.

The use of ABCs and other early interventions are crucial as they show communities, and potential perpetrators of antisocial behaviour, that action will be taken against those who behave in an antisocial manner.

Antisocial Behaviour

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of how voluntary organisations co-ordinate their work with local authorities to combat antisocial behaviour amongst young people. [219320]

Ms Blears: No assessment has been made however, we are aware that voluntary organisations are working closely with local authorities in many areas, for example, youth justice agencies like NACRO and Crime Concern are delivering local work with young people involved in antisocial behaviour and offending to support them to change their behaviour.

In addition, children's charities, such as Barnardos, provide support for young people to divert them from crime and antisocial behaviour.

NCH Action for Children works with a number of local authorities delivering support and intervention packages to tackle the problems of families who are on the cusp of eviction because of their behaviour.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment he has made of the effect of antisocial behaviour orders on the prison population of young offenders. [219323]

Ms Blears: From data reported to the Home Office we know that up to September 2004, 45 per cent. (1,728) of antisocial behaviour orders (ASBOs) were issued to juveniles. ASBOs were introduced in April 1999.

From breach data reported to the Home Office from June 2000 to December 2003, we know that 42 per cent. of ASBOs are breached. The breach rate for juveniles is 40 per cent.

Those breaching ASBOs are likely in many cases to be prolific offenders—evidenced by the fact that for those receiving custody, the majority were also sentenced at the same time for other offences.

The figures show that only 30 young people in total between 2000 and 2003 were sentenced to custody for breach of ASBO alone—in all other cases, they were convicted for other offences at the same time.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what representations he has received regarding inappropriate conditions on antisocial behaviour orders. [219328]

Ms Blears: An antisocial behaviour order (ASBO) is a civil order that protects the community from acts that cause or are likely to cause harassment, alarm or distress to one or more persons not of the same household. Orders often contain prohibitions that prohibit a person from carrying out certain acts and excluding them from certain places.

The most common behaviour tackled by ASBOs is general loutish and unruly conduct such as verbal abuse, harassment, assault, graffiti and excessive noise. The wide range of antisocial behaviour that a can be tackled by ASBOs and the ability to tailor the terms of the order to each specific case illustrates their flexibility.

It is for the courts to decide what prohibitions go into an order. Prohibitions should aim to cover the range of antisocial behaviour acts committed by the defendant and be specific to the behaviour.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps he plans to take to reduce the number of antisocial behaviour orders which are breached. [219332]

Ms Blears: From breach data reported to the Home Office from June 2000 to December 2003, we know that 42 per cent. of antisocial behaviour orders (ASBOs) are breached.

Breach rate is not an indication of failure. What it shows is that ASBOs have teeth and if people don't abide by them there are serious consequences.

Those breaching ASBOs are likely in many cases to be prolific offenders—evidenced by the fact that for those receiving custody, the majority were also sentenced at the same time for other offences.

The figures show that only 30 young people in total between 2000 and 2003 were sentenced to custody for breach of ASBO alone—in all other cases, they were convicted for other offences at the same time.

Individual support orders (ISOs) were introduced in May 2003 and can be attached to an ASBOs for juveniles (10 to 17) to direct the juvenile to activities that can address the underlying causes of the antisocial behaviour.

Parenting orders introduced in February 2004 can be attached to ASBOs issued to those aged 10 to 15.

Dr. Vis: To ask the Secretary of State for the Home Department how many children under 18 years old with learning difficulties have been given antisocial behaviour orders. [218219]

Ms Blears: Information is not collected centrally about the characteristics of persons issued with an antisocial behaviour order.

Anti-terrorism Measures

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department whether the Government plans to require buildings in metropolitan areas to use laminated glass to reduce the risk of mass civilian injury, in the case of domestic terrorist attack. [215351]

Mr. Charles Clarke: The Government have no plans to require buildings in metropolitan areas to use laminated glass although where organisations perceive their threat assessment to require it, advice and guidance is readily available to inform and support its use.

Community Support Officers

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department when the interim report on community support officers will be published. [219015]

Ms Blears: The interim report of the national evaluation of community support officers was published on 23 December 2004. It is available at http://www.policereform.gov.uk/publications/publications/index.html

Correspondence

Clare Short: To ask the Secretary of State for the Home Department when the right hon. Member for Birmingham, Ladywood will receive a substantive reply to the letter to UKvisas of 26 August 2004 regarding an application made by Mr. Abdul Wali, and sponsored by a constituent Mrs. Fatema Begum. [218958]

Mr. Mullin: I have been asked to reply.

UKvisas replied to my right hon. Friend on 28 February 2005.

Crime and Disorder Act

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how the work of social services departments is affected by their duty under section 17 of the Crime and Disorder Act to reduce crime and disorder; and if he will make a statement. [219317]

Ms Blears: Under section 17 of the Crime and Disorder Act 1998, local authorities have a statutory duty to have due regard to the likely effect of the exercise of their functions on, and the need to do all they reasonably can to prevent, crime and disorder in the local area.

With their responsibility for social care and welfare, social services departments in local authorities have a crucial role to play in tackling crime and antisocial behaviour. Social services meet their section 17 responsibilities in various ways, including caring for vulnerable children and adults who may be victims or perpetrators of crime and antisocial behaviour; identifying young people at risk of offending; providing support and guardianship to young people in the care system; and providing case conference input in antisocial behaviour cases.

Criminal Cases Review Commission

John McDonnell: To ask the Secretary of State for the Home Department what assessment he has made of the impact of the proposed staffing reductions in the Criminal Cases Review Commission on the investigation of and reporting on alleged miscarriages of justice. [213970]

Paul Goggins: The commission are undertaking a review of their casework management processes to increase efficiency and effectiveness. Any assessment of the likely effect of any staffing reductions would need to be seen in context.

Departmental Costs

Mr. George Osborne: To ask the Secretary of State for the Home Department how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213820]

Fiona Mactaggart: The Home Office policy will only permit the reimbursement of congestion charges when they have been incurred on official business, or where an individual has been awarded excess fares allowances as a result of a permanent compulsory transfer.

Reimbursement will only be made of the initial £5 charge upon production of a valid receipt. Penalty charges incurred as a result of late payments are not met by the Department.

The costs for congestion charges are not recorded separately on the accounting system and could only be determined by interrogating the paper claim records at disproportionate cost.

Dogs

David Davis: To ask the Secretary of State for the Home Department how many *(a)* visual deterrent dogs, *(b)* guard dogs, *(c)* police dogs, *(d)* tracker dogs, *(e)* anti-terrorist dogs, *(f)* riot control dogs, *(g)* explosives detection dogs, *(h)* explosives and firearms detection dogs, *(i)* drug detection dogs, *(j)* cadaver detection dogs, *(k)* arson detection dogs, *(l)* anti-hijack dogs and *(m)* illegal immigrant detection dogs have been employed on Her Majesty's Service in each year since 1997. [217741]

Mr. Charles Clarke: I understand from the Association of Chief Police Officers that there were 2,003 active police dogs as at December 2004. It is not possible to break down this figure to the level of detail requested. Police dogs are not necessarily trained for one purpose and are able to perform more than one activity.

Prior to 2004, data on the number of active police dogs was not collected.

Drink Driving

John Thurso: To ask the Secretary of State for the Home Department how many convictions for drink-driving resulted in custodial sentences in 2003 *(a)* in total and *(b)* broken down by police authority. [218214]

Ms Blears: Motoring offences data for 2003 will be published shortly.

Drug Offenders Report

David Davis: To ask the Secretary of State for the Home Department on what date he expects the statistical report Drug Offenders in England and Wales 2003 to be published; and if he will make a statement. [214322]

Mr. Charles Clarke: The report Drug Offenders in England and Wales 2003 was published on 1 March.

Education in Prisons

David Davis: To ask the Secretary of State for the Home Department (1) how many prisoners have *(a)* started, *(b)* completed and *(c)* dropped out of educational courses in prisons in each year since 1997; [217729]

(2) how many prisoners have received an educational qualification in each year since 1997. [217753]

Mr. Charles Clarke: The information requested on individual achievement is not collated centrally and could be collected from individual establishments only at disproportionate cost.

However, since 2000–01, the Offenders' Learning and Skills Unit and the Prison Service have collected information on participation and achievement at establishment level. Since 2000–01 the number of basic skills qualifications gained each year has been:

	Number of basic skills qualifications gained
2000–01	12,500
2001–02	16,000
2002–03	41,518
2003–04	46,517
2004–05 (to December 2004)	46,430

The number of work skills qualifications gained each year since 2000–01 was:

	Number of work skills qualifications gained
2000–01	n/a
2001–02	56,320
2002–03	89,201
2003–04	109,237
2004–05 (to December)	128,964

Immigration

David Davis: To ask the Secretary of State for the Home Department what progress has been made with the review of immigration and public health. [217435]

Mr. Charles Clarke *[holding answer 24 February 2005]:* The Cabinet Office has co-ordinated work between relevant Government Departments, including the Department of Health and the Home Office, to review imported infections and immigration. New measures to protect the public were announced in our five- year strategy for asylum and immigration 'Controlling our borders: Making migration work for Britain' (Cm 6472).

Infectious Diseases (UK Entrants)

David Davis: To ask the Secretary of State for the Home Department how many people are employed by the Government to test those entering the United Kingdom for tuberculosis; and at which ports of entry they are based. [217745]

Mr. Charles Clarke: The Department of Health advises that staff carrying out medical examinations at ports of entry in England are provided by the Health Protection Agency or the relevant primary care trust. Staff are not necessarily based full time on site at the port but may instead be on call when required. No figures are collected centrally on the number of staff involved. We understand that the position elsewhere in the United Kingdom is broadly similar.

Arrangements in Scotland, Wales and Northern Ireland are a matter for the administrations responsible for those parts of the United Kingdom.

At overseas posts, a number of medical referees are retained to advise entry clearance officers on medical reports obtained by prospective entrants. No figures are collected centrally on the number of referees involved.

Official Residences

Chris Grayling: To ask the Secretary of State for the Home Department if he will list the official residences for which his Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the current occupants make towards the running costs of each; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment at each was in 2003–04. [213613]

Mr. Charles Clarke: I refer the hon. Member to the answer given by the Prime Minister to him on 20 January 2004, *Official Report*, column 1037W.

The annual cost of running the property referred to varies from year to year. In the last complete year 2003–04 the total cost was £9,557 excluding security provision, site rent and capital charge for the leasehold interest. The occupier is responsible for meeting all expenditure on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, and *(d)* private telephone bills. There are no domestic or maintenance staff employed by the Department.

The cost of electricity and gas in 2003–04 was £433 and £1,786 respectively. These costs are met by the current occupier with effect from 31 December 2004. Information on cost of official phone calls can only be found at disproportionate cost.

The total capital and refurbishment expenditure in each of the last five years has been:

Capital and refurbishment expenditure

	£
2000–01	0
2001–02	73,240
2002–03	27,440
2003–04	0
2004–05	0

A major programme of cyclical refurbishment—the first for some years—was completed in late spring 2002.

This was needed to maintain the repair and value property and to deal with the impact of substantial flood and storm damage.

Overseas Students

Mr. Lazarowicz: To ask the Secretary of State for the Home Department how many appeals were made by international students who had their visa applications rejected in each of the last five years, broken down by visa issuing post. [218901]

Mr. Mullin: The number of appeals made by international students who had their application for entry clearance refused, and broken down by visa issuing post, over the last five calendar years, is as follows:

Student appeals received 2000–04

Parliamentary Questions

Mr. Damian Green: To ask the Secretary of State for the Home Department when he will reply to the questions, tabled by the hon. Member for Ashford on 2 December 2004, reference *(a)* 203020 and *(b)* 203021. [211747]

Ms Blears: I replied to the hon. Member on 1 February 2005, *Official Report*, column 840 (203020) and on 23 February 2005, *Official Report*, column 731 (203021).

Plea Bargaining

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if the Government will bring forward amendments to the Serious Organised Crime and Police Bill to ensure that plea bargaining will be exercised in a way that minimises the risk of miscarriages of justice. [218871]

Caroline Flint: The Serious Organised Crime and Police Bill includes building on the existing common law provisions relating to Queen's Evidence. Placing it on a statutory footing is intended to increase the use of Queen's Evidence while minimising the risk of miscarriages of justice. The Bill's provisions will increase the transparency of the process and provide for those who get a reduction in their sentence to be re-sentenced if subsequently it is discovered their co-operation was not genuine, both of which are significant additional safeguards.

Police

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to the answer of 12 January 2005, *Official Report*, column 547W, on police administrative staff, how many police forces accept the contents of the Police Staff Council Handbook as the minimum terms and conditions for their staff; how many forces have not adopted *(a)* some of and *(b)* all the contents of the Handbook in respect of staff terms and conditions; what the position is of the Hampshire force; and if he will make a statement. [210760]

Ms Blears: Adoption of the terms and conditions of the Police Staff Council (PSC) of England and Wales Terms and Conditions of Service Handbook is by voluntary agreement by individual forces. Forces can take account of the handbook in deciding on the terms and conditions for their staff in the light of force requirements and circumstances. Neither the Home Office nor the Employers' Organisation collect information about which of the provisions of the Handbook individual forces have chosen to incorporate in local terms and conditions of service.

Hampshire constabulary police staff contracts of employment are agreed by the force taking into consideration the Police Staff Council Handbook terms and conditions.

Mr. Hancock: To ask the Secretary of State for the Home Department pursuant to the answer of 12 January 2005, *Official Report*, column 547W, on police administrative staff, which police forces are not members of the Police Staff Council (PSC); if he will make it mandatory for participating forces to adopt the contents of the PSC handbook as the minimum terms and conditions for police staff employed by those forces; and if he will make a statement. [210762]

Ms Blears: I will write to the hon. Member and place a copy of my letter in the Library.

Mr. Amess: To ask the Secretary of State for the Home Department what plans he has to review the pay and conditions of police officers. [218277]

Ms Blears: The Government's plans for police reform are set out in the White Paper "Building Communities, Beating Crime". Chapter 4 of this paper contains our proposals for police workforce reform including those relating to police officers.

Police Vehicles

Mr. Amess: To ask the Secretary of State for the Home Department how many accidents involving police vehicles there have been in each year since 1997 in *(a)* Essex and *(b)* Southend. [218275]

Ms Blears: The available information is given in the table. Information on accidents involving police vehicles in Southend is not collected centrally.

Road traffic collisions on public roads in Essex in which police vehicles were involved

	Number of collisions
1997–98	396
1998–99	406
1999–2000	392
2000–01	446
2001–02	392
2002–03	414
2003–04	345

Ports of Entry (Security)

Mr. Bellingham: To ask the Secretary of State for the Home Department what steps he is taking to increase security at ports of entry. [219869]

Mr. Charles Clarke: We have already made significant improvements to the security of the border with;

the closure of the Red Cross centre in Sangatte;

the expansion of our juxtaposed controls, (the establishment of frontier control zones in key locations overseas to enable UK immigration officers to consider and decide the admissibility of passengers prior to embarkation for the UK);

the deployment of new detection technology;

and the expansion of our airline liaison network overseas.

These measures have had a significant impact both on deterring illegal immigration and reducing asylum intake.

In our five-year strategy we announced our intention to further improve border controls through initiatives such as a further expansion of the asylum liaison network and the introduction of iris biometric automated gates at our major ports. Also, all visa applicants will be fingerprinted by 2008, and pre-boarding checks of all persons entering and leaving the UK will be introduced through the e-borders programme.

Postage

Mr. George Osborne: To ask the Secretary of State for the Home Department how much has been spent on postage by the Department in each year since 1997. [215022]

Fiona Mactaggart: The table provides the total cost of postage for the Home Department since 1997. The table also expresses the total as a percentage of Home Office spend for the relevant year.

Postage costs

	£	Percentage
1997	1,166,810	0.018
1998	1,076,196	0.013
1999	1,228,042	0.015
2000	1,819,914	0.020
2001	3,049,765	0.03
2002	2,713,405	0.026
2003	2,653,684	0.025

Prisons

Mr. Beith: To ask the Secretary of State for the Home Department how many instructional officers serving in Her Majesty's prisons are on the old contract; and in which prisons they serve. [220244]

Paul Goggins: As at 28 February there were 32 instructional officers on the old contract serving in the following establishments:

Establishment	Number of instructional officers
Belmarsh	1
Channings Wood	1
Maidstone	1
Leyhill	1
Huntercombe	1
Featherstone	2
Kingston	2
Wandsworth	2
The Mount	7
Acklington	14

Mr. Beith: To ask the Secretary of State for the Home Department whether instructional officers in Her Majesty's prisons who have not signed up to the new contract are required to carry out escort duties in any prison. [220246]

Paul Goggins: No. One of the new terms and conditions introduced on 1 April 2003 for instructional officers, was that "instructional officers will escort prisoners as required by management once the activity has been risk assessed and a safe system of work applied". The terms and conditions for those instructional officers who decided not to accept the changes to working practices remain unchanged.

David Davis: To ask the Secretary of State for the Home Department(1) how many prison places are planned for each of the next five years; and what the projected prison population is for each of the next five years; [205384]

(2) how much prison capacity he expects to be available in each of the next five years. [217731]

Mr. Charles Clarke: As at 18 February 2005, the useable operational capacity for the prison estate was 76,527. It is anticipated that the operational capacity will be around 76,700 at 31 March 2005 and has the potential to reach 79,500 by 31 March 2006. In addition, planning for a programme of an additional 1,300 places has started. In the meantime, we continue to investigate options for providing further increases in capacity over the coming years and keep the number of prison places required under review.

Revised prison population projections were issued in January 2005. These new projections anticipate a prison population of between 76,500 and 86,000 in 2009. The National Offender Management Service will continue to monitor population movements, improve projections and keep prison capacity under review. Projected prison population for each of the next five years is presented in the Home Office Statistical Bulletin 01/05 (Prison Population Projections 2005–11, England and Wales). A copy of this bulletin has been placed in the House of Commons Library.

David Davis: To ask the Secretary of State for the Home Department what the average amount of time spent on purposeful activity per week broken down by individual prison has been in each year since 1997. [217751]

Mr. Charles Clarke: The average number of weekly purposeful activity hours for each establishment during each of the financial years since 1996–97 is shown in the table.

Establishment	1996–97	1997–98	1998–99	1999–2000	2000–01	2001–02	2002–03	2003–04	2004–05 to January

3. Hollesley Bay and Warren Hill began reporting separately in 2003–04.

David Davis: To ask the Secretary of State for the Home Department what definition of purposeful activity in prison he uses. [217752]

Mr. Charles Clarke: The Prison Service definition of purposeful activity for 2004–05 consists of a list of 29 categories of activity undertaken by prisoners that are regarded as purposeful. Broadly these comprise work, education, training, programmes to tackle offending behaviour, resettlement activity and physical education. Prisons report the total weekly purposeful activity hours they deliver by these categories of activity. The categories of activity are listed in the following table.

Purposeful activities

Activity group	*Activities Include:*
Education	
Induction Assessment	Basic skills screening assessments
Basic and Key Skills up to Level 2	All education categories can include private study or 'homework' by prisoners where this can be validated and an audit trail maintained
Education leading to accreditation	Education activity where prisoners are working towards a recognised qualification (but excluding education leading to basic skills qualifications categorised above)
Skills training leading to recognised national accreditation	Vocational construction and industrial training courses e.g. industrial cleaning, catering, motor mechanics, office skills, hairdressing, painting, construction, electrical
Physical Education	PE where physical education officers teach and supervise prisoners
Other education	Not categorised elsewhere, including library use of more than 30 minutes
Work	
Prison maintenance work	Support to works and maintenance staff around the prison
Wing cleaning work	Cleaning work on wings
Other prison cleaning and orderly work	Cleaning and orderly work around the prison other than on domestic wings
Industries/ production workshops (Prison Enterprise Services Workshops on regime monitoring system)	Employment in production or industrial workshops such as textiles tailors, laundries, plastics, woodwork contract services etc (Any workshop that is predominately production based)
Agricultural business	Employment in prison farms, market gardens
Gardens amenity	Employment on prison gardens
Kitchen	Preparation or serving of food in prison kitchens, hotplate/serveries or messes
Other occupations	Employment not categorised elsewhere, (e.g. clothing exchange store workers, administrative clerks, barbers, paid community work)
Resettlement	
Induction	Prison induction courses
Maintaining safe and secure environment	Primary objective of activity relates to institutional behaviour e.g. suicide awareness, anti bullying
Sentence planning, parole interviews, other assessments with the prisoner not categorised elsewhere	
Accredited Offending Behaviour Programmes (OBPs)	Key performance indicator accredited courses
Non accredited OBPs	Any other programmes not categorised elsewhere
Tackling substance abuse	Interviews, assessments, individual or grouped drug or alcohol programmes, including counselling, assessment, referral, advice and throughcare services (CARATS) assessments
IDPR	Inmate development and pre-release training
Other resettlement and offending behaviour activity not covered	Probation, personal officer, PLU officer work. Job club and other employment advice. Accommodation advice or information. Specialist work, including probation or Citizens Advice Bureau
Family, social	Visits, earned community visits, compassionate licence
Temporary release on resettlement licence	Count up to eight hours a day if the time has not been categorised elsewhere.
Other Purposeful Activities	
Health education clinics and promotion	Including for example, well-man clinics and cancer awareness sessions but excluding medical treatment.
Voluntary work	Including sessions with external agencies not covered elsewhere
Other facility licence not covered elsewhere	
Chaplaincy	All faith religious activities including services, classes, pastoral visits and organised prayers.
Recreational sporting activities	Activities organised in addition to the establishment. PE programme and supervised by non-PE staff.

Mr. Bill O'Brien: To ask the Secretary of State for the Home Department whether private sector prisons have access to *(a)* the Quantum IT infrastructure and *(b)* the e-OASys offender assessment system. [203380]

Paul Goggins: Private sector prisons do not currently have access to the Quantum IT infrastructure, although they do have access to the strategic Inmate Information System, and its local component, the Local Inmate Database System (LIDS), alongside their own IT provision.

In January 2005 limited access to the e-OASys offender assessment system was provided to all contracted establishments except HMP Wolds. It was not possible to provide this same level of access to HMP Wolds due to technical difficulties, but work in ongoing to rectify this problem.

Royal Family

Mr. Boris Johnson: To ask the Secretary of State for the Home Department whether it is his policy that exemption from registration should be granted for members of the royal family if compulsory registration were to be introduced. [218248]

Mr. Charles Clarke: Should compulsory registration for ID cards be introduced under the terms of the Identity Cards Bill currently before Parliament, Her Majesty the Queen would be exempt as the Bill is not binding on the Crown. Clause 41 of the Bill allows for exemptions and exceptions to be made in any order requiring compulsory registration. No decisions have yet been taken on what exemptions and exceptions may apply. Prior to any order requiring compulsory registration, people will register with the scheme when applying for documents such as passports which will be designated under powers contained within the Identity Cards Bill. Members of the royal family other than Her Majesty the Queen hold passports and would therefore join the scheme in the same way as members of the public.

Sham Marriages

David Davis: To ask the Secretary of State for the Home Department how many suspected sham marriages have been reported to his Department by registrars in each month since 1997; how many prosecutions have been brought; how many convictions have been obtained; and what penalties have been imposed. [214320]

Mr. Browne: Information is only available since section 24 of the Immigration and Asylum Act 1999 came into force requiring registrars to report suspicious marriages to the Immigration and Nationality Department (IND). In the last four years, IND has received the following number of reports:

	2001	*2002*	*2003*	*2004*	*2005*
January	22	75	110	364	166
February	41	67	159	420	—
March	57	76	210	458	—
April	52	65	201	386	—
May	94	95	176	329	—
June	68	87	195	317	—
July	67	109	242	239	—
August	55	86	172	212	—
September	68	107	260	250	—
October	82	171	259	205	—
November	78	140	323	183	—
December	68	127	377	215	—
Total	752	1,205	2,684	3,578	166

Since April 2002, over 110 individuals have been charged with a range of offences, including perjury, deception and conspiracy to defraud the Secretary of State. Data are not collected centrally on the number of prosecutions and convictions. There were at least 32 convictions last year in London and we understand that, where convictions have been obtained, sentences have ranged from six to 24 months.

Targets

Mr. George Osborne: To ask the Secretary of State for the Home Department how many targets have been set in each year since 1997 by the Department; and, of these, which have been *(a)* met, *(b)* nearly met, *(c)* not met, *(d)* changed and *(e)* dropped. [215794]

Mr. Charles Clarke: I refer to the answer given by the Financial Secretary to the Treasury on 21 February 2005, *Official Report*, column 75W.

Mr. Bercow: To ask the Secretary of State for the Home Department whether the Public Service Agreement target to reduce vehicle crime by 30 per cent. from 1998–99 levels by 2004 was met. [219101]

Ms Blears: The latest annual British Crime Survey estimates for 2003–04 (published in July 2004) show a 30 per cent. reduction in vehicle crime against the baseline of 1999 (British Crime Survey 2000). We will know whether this target has been met when the British Crime Survey estimates for 2004–05 are published in July 2005.

Terrorism

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what steps the Government have taken to combat the terrorist threat posed by United Kingdom citizens. [216549]

Mr. Charles Clarke: With the exception of the powers in Part 4 of the Anti- Terrorism, Crime and Security Act 2001, which are immigration powers applicable to foreign nationals, counter terrorism measures are aimed at terrorists, whatever their background, section of society or nationality they may come from.

The Home Office provides the law-enforcement and security agencies with the powers and funding they need to do their job. There are two main pieces of legislation which they use to fight terrorism: the Terrorism Act 2000 and the Anti-Terrorism, Crime and Security Act 2001 These Acts deliver UK-wide legislation that is effective in countering the threat we face from terrorism. The legislation includes measures to outlaw membership, support and fundraising for terrorist groups, seizure of terrorist cash and property, the creation of offences specific to terrorism at home and abroad, and special powers for terrorist investigations.

The Home Secretary introduced on 22 February a Bill—The Prevention of Terrorism Bill which contains new proposals for preventative control orders which are intended to disrupt and restrict individual's involvement in terrorist related activities. We are also looking at the scope for new terrorist related offences and other measures to bring suspected terrorists to justice. My hope is that we will be able to bring further legislative proposals on this as soon as time allows.

The Government have provided resources to finance a 50 per cent. increase in the size of the Security Service over the next three years. The bulk of these extra resources will go into counter- terrorism work. In 2005–06 dedicated ring fenced counter terrorism funding for the police service in England and Wales, including the Metropolitan police service, will amount

to £96 million revenue and £8 million capital. This is very nearly double the amount of the first dedicated counter-terrorism grants in 2002–03.

Combating the threat posed by terrorism does of course go beyond funding and legislation and it is important that we continue to build and develop partnerships at every level in accordance with our overall strategy—to prevent terrorism, to pursue terrorist networks, to protect the UK, its citizens and its critical infrastructure, and to plan for attacks in order to minimise their consequences. Our objective remains to reduce the threat from terrorism so that our people may continue to go about their business freely and with confidence.

Mr. Key: To ask the Secretary of State for the Home Department whether *(a)* British Retail Consortium and *(b)* the Institute of Grocery Distribution Emergency Planning Liaison Group have been invited to take part in terrorist incident response exercises; and if he will make a statement. [218697]

Ms Blears *[holding answer 1 March 2005]:* The Home Office runs a national programme of Counter Terrorist exercises to test the UK's response to terrorist incidents. Participation in these exercises by Government Departments, agencies and associated bodies depends on the content of the scenario for each exercise. To date, the scenarios have not required participation by these bodies. However, the Government is holding discussions on protective security with both the IGD and BRC.

Ticket Sales

Pete Wishart: To ask the Secretary of State for the Home Department what estimate he has made of the number of convictions in 2004 for ticket touting at football matches. [220318]

Paul Goggins: Information from the Home Office court proceedings database shows that in 2003, 74 individuals were found guilty of ticket touting at football matches in accordance with section 166 of the Criminal Justice and Public Order Act 1994 which makes it an offence for "an unauthorized person to sell, or offer or expose for sale, a ticket for a designated football match in any public place or place to which the public has access or, in the course of a trade or business, in any other place".

Statistics on convictions for 2004 will be published this autumn.

Under-age Driving

Mr. Todd: To ask the Secretary of State for the Home Department when he last reviewed penalties for under-age driving; and if he will make a statement. [219068]

Paul Goggins: The available information is contained in the table and gives the number of juveniles convicted of offences involving driving a motor vehicle in England and Wales, 2003.

Statistics on court proceedings for 2004 will be published in the autumn.

Number of juveniles found guilty at all courts for offences involving driving a motor vehicle, England and Wales 2003 [1,2]

Offence description	*Principal statute*	*Found guilty*
Manslaughter by driving	Common Law and Offences against the Person Act 1861 SS5, 9 and 10	10
Causing death by dangerous driving	Road Traffic Act 1988 S1 as amended by the Road Traffic Act 1991 S1 and CJA 1993S 67	11
Causing death by careless driving when under the influence of drink or drugs	Road Traffic Act 1988 S 3A as amended by the Road Traffic Act 1991 S3 and CJA 1993 S67	1
Causing bodily harm by furious driving	Offences against the Person Act 1861 S35	2
Aggravated taking of a vehicle	Theft Act 1968 S 12A as added by the Aggravated Vehicle Taking Act 1992 S1	1,684
Theft or unauthorised taking of a motor vehicle	Theft Act 1968 S1	281
Unauthorised taking of a motor vehicle or being carried knowing vehicle to have been taken or driven	Theft Act 1968 S 12A as amended by the Criminal Justice Act 1988 S37	2,987
Aggravated taking of a vehicle	Theft Act 1968 S 12A as added by the Aggravated Vehicle Taking Act 1992 S2	649
Dangerous Driving	Road Traffic Act 1988 S2 as amended by Road Traffic Act 1991 S2	799
Driving etc. after consuming alcohol or taking drugs	Road Traffic Act 1988 various sections	1,556
Careless driving	Road Traffic Act 1988 S4(1), 4(2)	618
Accident offences	Road Traffic Act 1988 S 170(4)	316
Driving licence related offences	Various sections under the Road Traffic Act 1988 , Motor Vehicles (Driving Licences) Regulations 1996 Reg 16, Public Passenger Vehicles Act 1981 S 66*(a)*, Road Traffic Offenders Act 1988 S 27(3)	3,466
Speed limit offences	Various sections under the Road Traffic Regulations Act 1984, Motor Vehicles (Speed Units on Motorways) Regs 1973, Parks Regulations (Amendment) Act 1926	216
Motorway offences (other than speeding)	Road Traffic Regulations Act 1984 S 17(4), Motorways Traffic (England and Wales) Regulations 1982	10
Neglect of traffic directions	Various section under the Road Traffic Act 1988, Traffic Signs Regulations and General Directions 1994 and Road Traffic Regulations Act 1984	107

[1] These data are on the principal offence basis.
[2] Juveniles being between 10 and 17 years old.

PRIME MINISTER

Government Strategies

Mrs. Spelman: To ask the Prime Minister what *(a)* five-year strategies and *(b)* 10-year (i) strategies and (ii) plans his Government have published since 1997. [219883]

The Prime Minister: Departmental strategies and plans are a matter for individual departments, and are available in the Libraries of the House.

Intelligence and Security Committee

Andrew Mackinlay: To ask the Prime Minister for what reason details of the occasions and frequencies of meetings and visits of the Intelligence and Security Committee are not placed in the public domain; and if he will place such details in the public domain in the future. [220874]

The Prime Minister: Details of the occasions and frequency of Intelligence and Security Committee meetings are a matter for the Committee, as is the decision not to place these details in the public domain.

Andrew Mackinlay: To ask the Prime Minister whether he invited the Intelligence and Security Committee to visit the USA in February; whether he made proposals as to whom they should meet; and if he will make a statement. [220875]

The Prime Minister: No. Visits by the Intelligence and Security Committee are a matter for the Committee.

Andrew Mackinlay: To ask the Prime Minister for what purpose he will meet the Intelligence and Security Committee on 7 March; what is to be discussed; and if he will make a statement. [220876]

The Prime Minister: Such meetings are confidential and it would be inappropriate to disclose details of the discussions.

Royal Wedding

Mr. Amess: To ask the Prime Minister whether he will be attending the civil ceremony for the marriage of Prince Charles and Camilla Parker Bowles in his official capacity. [220497]

The Prime Minister: I refer the hon. Member to the press briefings given by my official spokesman on 23 February 2005. These are available on the Number 10 website.

TRADE AND INDUSTRY

Agency Workers Directive

Dr. Kumar: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of the Agency Workers Directive on the UK's labour market; and if she will make a statement. [220669]

Mr. Sutcliffe: Regulatory Impact Assessments were undertaken on the original and revised draft Agency Workers Directive, including an assessment of the potential labour market effects. A copy of the latest Regulatory Impact Assessment has been placed in the House of Commons Libraries.

The impact of the Directive on labour markets is clearly an important issue and we have sought to find a way forward on the Directive which all member states can accept, reflecting the diversity of labour markets across the EU and the need to protect workers without putting their jobs at risk.

Broadband

Malcolm Bruce: To ask the Secretary of State for Trade and Industry whether the final report on the independent rates review was presented by the Government to the Broadband Stakeholders Group in November 2004; and if she will make a statement. [218953]

Mr. Mike O'Brien: In practice the BSG and Government have taken this work forward together, in response to recommendations made by the Broadband Stakeholder Group (BSG). The Department appointed a contractor to carry out an independent review of the rating system as it applies to telecommunications.

An interim status report based on this work was published on the BSG website in December 2004.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry for what reasons the Government asked the Broadband Stakeholders Group to review apparent disparities between the Valuation Office Agency's calculation method of business rates for BT in comparison with other telecom companies rating system; and if she will make a statement on the powers of the Broadband Stakeholder Group to require the production of information relevant to the review. [219306]

Mr. Mike O'Brien: In its second Annual Report, the Broadband Stakeholders Group (BSG) recommended that Government should review the current regime for property taxes in respect of their application to cable/duct infrastructure.

In practice the BSG and Government have taken this work forward together. The terms of reference focused on the impact of business rating on investment rather than the method of calculation used for any individual company.

The BSG have the same powers to require information as anybody else. In practice the Government and the BSG have been working closely together.

Businesses

Mr. Hepburn: To ask the Secretary of State for Trade and Industry how many businesses ceased trading in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [219659]

Nigel Griffiths: Barclays Bank's latest survey of business creations and closures includes non-VAT registered firms and shows that there were 291,000 business closures in England and Wales in 2003, a 16 per cent. decrease on the year before. A further 249,000 businesses closed down in England and Wales in the first nine months of 2004. This represents an increase of

15 per cent. on the first nine months of 2003. Closure data are not available for the UK, regions, local authorities or parliamentary constituencies.

DTI figures based solely on VAT de-registrations for Jarrow constituency, South Tyneside, the North East and the UK are shown in the table for 1997 to 2003. Data for 2004 will be available in autumn 2005.

	Jarrow	*South Tyneside*	*North East*	*United Kingdom*
1997	95	165	3,885	148,230
1998	70	130	3,850	149,115
1999	90	150	3,870	153,400
2000	100	180	3,760	156,440
2001	90	160	4,035	152,840
2002	110	195	4,035	163,920
2003	95	180	4,010	174,355

Source:
(South Tyneside, North East, United Kingdom): VAT Registrations and De-registrations 1994–2003, Small Business Service, available from: www.sbs.gov.uk/statistics/analytical/vatstats.php
Source:
(Jarrow): Inter-Departmental Business Register, adjusted by Small Business Service to be consistent with published VAT Registrations and De-registrations

VAT registration and de-registration data do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 4 million enterprises were registered for VAT at the start of 2003.

Mr. Hepburn: To ask the Secretary of State for Trade and Industry how many new businesses have started up in *(a)* Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the UK in each year since 1997. [219660]

Nigel Griffiths: Barclays Bank's latest survey of business creation includes non-VAT registered firms and shows that there were 700 business start-ups in South Tyneside (which contains part of the constituency of Jarrow) in 2003 and a further. 600 in the first nine months of 2004. This represents an increase of 20 per cent. on the first nine months of 2003. Business start-up data for authorities and regions are not available for before 2003.

Barclays data show that there were 1,300 business start-ups in Gateshead (which also contains part of the constituency of Jarrow) in 2003 and a further 1,000 in the first nine months of 2004. This represents no change on the first nine months of 2003.

Barclays data show that there were 14,500 business start-ups in the North East in 2003 and a further 13,600 in the first nine months of 2004. This represents an increase of 20 per cent. on the first nine months of 2003.

Barclays data show that there were 445,000 (revised) business start-ups in England and Wales in 2003, a 16 per cent. increase on the year before. A further 396,000 businesses started up in England and Wales in the first nine months of 2004. This represents an increase of 14 per cent. on the first nine months of 2003.

DTI figures based solely on VAT registrations for Jarrow constituency, South Tyneside, the North East and the UK are shown as follows for 1997 to 2003. Data for 2004 will be available in autumn 2005.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Jarrow	105	100	95	100	100	125	95
South Tyneside	190	195	190	170	180	220	210
North East	4,155	4,175	4,235	4,280	4,090	4,310	4,640
United Kingdom	185,950	184,770	178,450	179,585	168,445	175,700	189,890

Source:
(South Tyneside, North East, United Kingdom): VAT Registrations and De-registrations 1994–2003, Small Business Service, available from the Library of the House and www.sbs.gov.uk/statistics/analytical/vatstats.php.
(Jarrow): Inter-Departmental Business Register, adjusted by Small Business Service to be consistent with published VAT Registrations and De-registrations.

VAT registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Only 1.8 million out of 4 million enterprises were registered for VAT at the start of 2003.

Credit Cards

Mr. Gill: To ask the Secretary of State for Trade and Industry what plans her Department has to impose a maximum interest rate for credit cards. [220779]

Mr. Sutcliffe: The Government have decided not to impose a maximum rate of interest for credit cards or indeed any other types of credit product. However we have committed to keeping the matter under review.

Direct Mail

Ms Walley: To ask the Secretary of State for Trade and Industry what representations she has received concerning companies using misleading claims of a sweepstake win in direct mail advertising; and what discussions she has had with *(a)* Ofcom and *(b)* the Advertising Standards Agency in respect of such promotions. [220524]

Mr. Sutcliffe: I regularly receive representations about unfair trading practices which the Department discusses with enforcers and regulators as appropriate. I am therefore aware of the problems caused by bogus sweepstakes and prize draws which give the false impression that all recipients have won a substantial prize. These scams, which are estimated to cost UK consumers around £150 million of detriment a year, are a matter of concern. The Government therefore welcomes the decision taken by the European Parliament on 24 February to outlaw such scams as part of wider EU rules on unfair commercial practices to be adopted later this year. Prohibiting these practices in all

25 member states will ensure that more effective action can be taken against those scammers who locate themselves outside the UK in the hope of avoiding enforcement action being taken against them, including that available under Advertising Standards Authority's code of practice of advertising, sales promotion and direct marketing.

Employment Appeals Tribunal

Simon Hughes: To ask the Secretary of State for Trade and Industry in how many *(a)* industrial tribunal cases and *(b)* appeals to the Employment Appeals Tribunal since 1997 the tribunal (i) decided and (ii) confirmed that a dismissal was unfair on the basis of the band of reasonable responses test. [220480]

Mr. Sutcliffe: The band of reasonable responses test is a fundamental test that is applied in cases of unfair dismissal that are brought before the Employment Tribunal and Employment Appeal Tribunal. However, the Employment Tribunals Service (ETS) does not keep statistics on the number of tribunal cases and subsequent appeals to the Employment Appeal Tribunal that have been decided or confirmed as an unfair dismissal, on the basis of this test.

The numbers of successful unfair dismissal employment tribunal cases are published each year in the ETS Annual Report which may be found on the ETS website at www.ets.gov.uk.

Inward Investment

Chris Ruane: To ask the Secretary of State for Trade and Industry how many jobs were created by inward investment in each region of the UK in each of the past 15 years. [219891]

Mr. Alexander *[holding answer 4 March 2004]:* The figures in the table are based on information provided by companies at the time of the announcement of the decision to invest in the UK. They are based on the companies best estimate of the number of new jobs associated with each investment.

There is no requirement on companies to notify inward investment decisions to UKTI and so these new jobs figures relate only to those projects where UKTI or its regional partners were involved or which have come to their notice.

Region	*1989–90*	*1990–91*	*1991–92*	*1992–93*	*1993–94*	*1994–95*	*1995–96*	*1996–97*

IIG Database

Prior to 1994–95 figures for London were included in the South East figures.

Milk Industry

Mr. Drew: To ask the Secretary of State for Trade and Industry what the reasons are for the continuing interest of the Office of Fair Trading in the milk industry. [219778]

Mr. Sutcliffe: Under UK competition law, it is the responsibility of the Office of Fair Trading to investigate allegations of anti-competitive behaviour or possible abuses of a dominant position. Decisions concerning investigations are a matter for the Office of Fair Trading.

Regional Development Agencies

Mr. Byrne: To ask the Secretary of State for Trade and Industry what powers regional development agencies have to invest in and support investment in *(a)* transport infrastructure and *(b)* transport services; what restrictions apply to their powers; and if she will make a statement. [219438]

Jacqui Smith: England's Regional Development Agencies (RDAs) may decide to invest in or support investment in regional transport initiatives, assuming such initiatives are consistent with the goals of the regional economic strategies for their regions. The Regional Development Agencies Act 1998 provides broad powers to RDAs to do anything which they consider expedient in pursuance of their statutory purposes, which include promoting economic development and regeneration in their regions and contributing to the achievement of sustainable development in the UK. In addition to their activities being subject to general requirements of the law, the Act places some specific restrictions on the use of such powers. RDAs may only give financial assistance to achieve their aims if the Secretary of State for Trade and Industry consents. Restrictions also apply to the disposal of land in certain circumstances and to the acquisition and use of housing by RDAs.

Solar Photovoltaics

Mr. Drew: To ask the Secretary of State for Trade and Industry what steps her Department is taking to ensure continuity of support to the UK solar PV industry when grant allocations under her Department's solar PV Major Demonstration Programme comes to an end later this year. [219804]

Mr. Mike O'Brien: The Major PV Demonstration Programme is due to end in March 2006. Grants are expected to be paid up to March 2007.

The Department will continue its support for PV through a "low carbon buildings" programme. The low carbon buildings programme is currently under development and there will be formal consultation on this later this year. The programme is expected to begin operating in 2006–07.

Alan Simpson: To ask the Secretary of State for Trade and Industry what her Department's estimate is of the amount of solar photovoltaics installed in the UK in 2004. [220204]

Mr. Mike O'Brien: 1,900 kWp of photovoltaics was installed in 2004 with grants from the Major PV Demonstration Programme.

Lynne Jones: To ask the Secretary of State for Trade and Industry what the average annual change since 2002 in solar photovoltaic prices has been under her Department's solar PV Demonstration Programme. [220256]

Mr. Mike O'Brien: For stream 1 projects (small scale and individual installations) under the Major PV Demonstration Programme, the average cost of PV is: £7,035 per kWp in 2002–03; £6,826 in 2003–04 and £6,296 in 2004–05. This represents a reduction of 6.6 per cent. between 2002–03 and 2003–04 and 7.8 per cent. between 2003–04 and 2004–05.

For stream 2 projects (medium and large installations) the averaged cost for PV is £6.871 per kWp in 2002–03 and £6,396 in 2003–04. This represents a reduction of 6.9 per cent. Data for 2004–05 is not yet available for stream 2 projects.

Sub-post Offices

Mr. Drew: To ask the Secretary of State for Trade and Industry if she will list the sub-post offices in each area that have been redefined from *(a)* urban to rural classification and *(b)* rural to urban classification. [220656]

Mr. Sutcliffe: The classification of a post office branch as urban or rural is an operational matter for Post Office Ltd. (POL). My officials have asked colleagues in POL to issue a direct reply to the hon. Member.

Mr. Drew: To ask the Secretary of State for Trade and Industry what consultations her Department has launched with the active involvement of Post Office Limited on its definitions of sub-post office branch classification; and whether this information has been published. [220657]

Mr. Sutcliffe: None. The classification of a post office branch as urban or rural is an operational matter for Post Office Ltd. (POL). My officials have asked colleagues in POL to issue a direct reply to the hon. Member.

INTERNATIONAL DEVELOPMENT

Congestion Charge

Mr. George Osborne: To ask the Secretary of State for International Development how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213817]

Hilary Benn: I refer the hon. Member to the answer given by my right hon. Friend the Chancellor of the Duchy of Lancaster (Mr. Milburn) on 28 February 2005, *Official Report*, column 957W.

Excluding Government Car and Despatch Agency (GCDA) services, DFID only has one additional vehicle. This vehicle is exempt from paying congestion charges as it is registered with the Public Carriage Office; a licensed private hire company.

Food Aid

Mr. Russell Brown: To ask the Secretary of State for International Development what the estimated amount of food aid required by the World Food Programme is; how much food aid has been distributed to *(a)* Zambia, *(b)* Zimbabwe, *(c)* Malawi, *(d)* Lesotho, *(e)* Mozambique, *(f)* Swaziland and *(g)* Angola during current food aid distribution programmes; and what further action his Department is taking to ensure the distribution of food aid. [219699]

Hilary Benn: Latest information from the World Food Programme (WFP) shows that from July 2004 until the end of January 2005, a total of 182,579 metric tonnes of food was distributed in Zambia, Zimbabwe, Malawi, Lesotho, Mozambique, Swaziland and Angola. From 2005 until the end of December 2007, WFP has appealed for 656,000 metric tonnes of food to be delivered through its Protracted Relief and Recovery Operation. Angola is not part of this programme.

DFID is currently providing funding for the WFP operations in Angola, Lesotho, Malawi, Swaziland and Zimbabwe. Improving the monitoring and evaluation of food aid distribution and strengthening information systems to provide better data on food insecurity are priorities for DFID in the region. DFID support for food aid programmes in southern Africa will continue to be based on a careful assessment of needs, combined with a review of the most effective and efficient responses to food insecurity, which might sometimes include other forms of support such as seeds or cash.

St. Helena

Mr. Nigel Jones: To ask the Secretary of State for International Development what assessment he has made of the length of runway required for an airport on St. Helena; and if he will make a statement. [220308]

Mr. Gareth Thomas: A report by Atkins Management Consultants, which I sent on 9 November 2004 to the hon. Member and other parliamentary colleagues, identified three possible options to maintain future access for St. Helena. Two of them would require providing an airport, while the third would replace the existing ship. The report indicated that the airport options would entail total runway lengths of either 2000m or 2250m, both inclusive of runway end safety areas. Decisions will be announced, in consultation with the St. Helena Government, as soon as it is possible to do so.

Mr. Nigel Jones: To ask the Secretary of State for International Development what discussions he has had with Shelco regarding its proposal to build *(a)* an airport and *(b)* other infrastructure requirements on St. Helena; and if he will make a statement. [220309]

Mr. Gareth Thomas: I met with Shelco representatives on 8 September 2004. There have also been discussions between Shelco and the St. Helena Government. All investor interest in St. Helena is welcome and will be considered on an equal footing.

Mr. Nigel Jones: To ask the Secretary of State for International Development (1) what estimate he has made of the level of public funding necessary to sustain St. Helena in the next 10 years *(a)* without an airport and *(b)* with an airport; and if he will make a statement; [220311]

(2) what assessment he has made of St. Helena's potential for earning income from tourism *(a)* without an airport and *(b)* with an airport; and if he will make a statement; [220313]

(3) what assessment he has made of the potential for St. Helena to attract tourists from *(a)* France, *(b)* the United States of America and *(c)* the United Kingdom if an airport is built on the Island; and what assessment he has made of the implications for UK support to St. Helena of an increase in tourism on the island. [220321]

Mr. Gareth Thomas: Data of the kind requested, but not necessarily in this exact form, has been compiled for an analysis of three shortlisted access options which is under consideration. The outcome will be announced, in consultation with the St. Helena Government, just as soon as it is possible to do so. At that stage, in keeping with our previous practice for material prepared to shortlist the options, we shall consider publication as appropriate.

Mr. Nigel Jones: To ask the Secretary of State for International Development how much public funding has been made available to St. Helena in each year since 1997. [220312]

Mr. Gareth Thomas: DFID bilateral disbursements for St. Helena in the financial years 1997–98 to 2003–04 were as follows:

Financial year	*£000*
1997–98	8,384
1998–99	8,594
1999–2000	9,185
2000–01	9,968
2001–02	9,833
2002–03	9,343
2003–04	10,419

St. Helena also receives some assistance from the FCO Good Governance Fund and FCO Economic Diversification Programme. Those disbursements were as follows:

£000

	Disbursements
1997–98	211
1998–99	163
1999–2000	231
2000–01	212
2001–02	321
2002–03	436
2003–04	260

In addition, over the same period, allocations totalling some €14.35 million (around £9.5 million) were made to St. Helena by the European Commission (EC), of which the UK share was about 13 per cent. Disbursement of the EC allocations is on going.

WORK AND PENSIONS

Child Poverty

Vera Baird: To ask the Secretary of State for Work and Pensions what steps his Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020 and *(b)* halving it by 2010; and if he will make a statement. [219346]

Mr. Pond *[holding answer 2 March 2005]:* Our first step towards eradicating child poverty as set out in our current Public Service Agreement target is to reduce the number of children in low-income households by a quarter by 2004–05.

The sixth annual "Opportunity for all" report (Cm 6239), published in September 2004 is available in the Library and sets out the Government's strategy for tackling poverty and social exclusion; the Government's child poverty strategy is clearly outlined in the Treasury's Child Poverty Review published with the 2004 Spending Review.

Child Support Agency (Mr. Lovelace)

Miss McIntosh: To ask the Secretary of State for Work and Pensions if he will personally take up with the Child Support Agency the case of Mr. Lovelace, a constituent of the hon. Member for Vale of York. [219741]

Mr. Pond: My noble Friend the Parliamentary under Secretary of State for Work and Pensions (Baroness Hollis) will meet the hon. member to discuss the case of Mr. Lovelace.

Council Tax Benefit

Mr. Webb: To ask the Secretary of State for Work and Pensions how many people *(a)* of working age and *(b)* over state pension age have been in receipt of council tax benefit since 1997, broken down by parliamentary constituency. [220575]

Mr. Pond: The information is not available. Information on the number of people in receipt of council tax benefit is not held by constituency.

Disability Rights Commission

Dr. Murrison: To ask the Secretary of State for Work and Pensions what the latest recommendations of the Disability Rights Commission with regard to employment are; and how his Department intends to implement them. [219870]

Maria Eagle: The Disability Rights Commission made a range of proposals and recommendations concerning employment in "Disability Equality: Making it happen—First Review of the Disability Discrimination Act". The majority of these were implemented through the Disability Discrimination Act 1995 (Amendment) Regulations 2003 which came into force on 1 October 2004 and we indicated in our response to the commission's review that the remaining recommendations were for possible future consideration.

The following table sets out the commission's proposals and recommendations concerning employment issues and the Government's position.

Disability equality: making it happen—first review of the Disability Discrimination Act

DRC proposal	*Government position*
Disability Rights Commission Proposals	
The DDA should apply to practical work experience and to examining bodies	Practical work experience and many types of examining bodies were covered in DDA Amendment Regulations 2003. Note: The Disability Discrimination Bill currently before Parliament will bring general qualifications bodies within the scope of the Disability Discrimination Act.
The DDA should apply to constructive dismissal and to post-employment discrimination.	Covered in DDA Amendment Regulations 2003.
It should be unlawful under the DDA for employers to instruct or pressurise other people to discriminate and DRC should be able to take action in such situations.	Covered in DDA Amendment Regulations 2003.
The DDA employment provisions, which allow justification for failure to make a reasonable adjustment, should be removed.	Covered in DDA Amendment Regulations 2003.
The definition of "victimisation" currently in the DDA should be broadened.	Covered in DDA Amendment Regulations 2003.
The Part 2 employment regulations in relation to reasonable adjustments to physical features should be amended.	The provisions in the Employment Regulations about Approved Document M were revoked from 1 October 2004.
Disability Rights Commission Recommendations	
Employers should make reasonable adjustments in anticipation of having disabled employees.	For possible future consideration.
Less favourable treatment should only be justifiable where there is a genuine occupational requirement.	For possible future consideration.
Employment Tribunals should be able to recommend employers change their practices generally.	For possible future consideration.
Disability-related inquiries before a job is offered should be permitted only in very limited circumstances.	For possible future consideration.
The DDA should apply to volunteers.	For possible future consideration. However, the Disability Rights Commission has been asked to produce a voluntary code of practice on volunteers.
The DDA should apply to all statutory office holders, political office holders (including councillors), magistrates and school governors.	Many office holders covered in DDA Amendment Regulations 2003. The draft Disability Discrimination Bill documents outline our commitment to include local councillors. Note: The Disability Discrimination Bill currently before Parliament includes proposals to cover local councillors and the public office holders not covered by the DDA Amendment Regulations 2003

Disability equality: making it happen—first review of the Disability Discrimination Act

DRC proposal *Disability Rights Commission Proposals*	*Government position*
The armed services should be covered by the DDA.	This recommendation is rejected. Provision for the exemption of the armed forces was recognised in the Article 13 Employment Directive adopted in November 2000. Ministry of Defence are working on voluntary guidance for service personnel who become disabled.
The reasonable adjustment duty should be extended to cover omissions to act.	Covered in DDA Amendment Regulations 2003.
Alter tribunal procedures so that tribunals order and fund a joint medical report.	For possible future consideration.

EU Committees

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Audit Board of the Administrative Commission on Social Security for Migrant Workers met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [217887]

Mr. Hutton: I have been asked to reply.

This body met once during each of these presidencies. Meetings were held on 11–12 November 2003 (Italian presidency), 7–8 June 2004 (Irish presidency), 17–18 November 2004 (Dutch presidency). Three officials from the Department attended the meeting during the Italian presidency and two officials attended the others. All meeting were in Brussels.

Pensions

Mr. Willetts: To ask the Secretary of State for Work and Pensions what his estimate is of the total value of the guaranteed minimum pension accumulated since 1978 in contracted-out occupational pensions. [219560]

Malcolm Wicks: The information is not available and could be obtained only at disproportionate cost.

Andrew Selous: To ask the Secretary of State for Work and Pensions what estimate he has made of the annual cost to the Department of not reducing state pensions of pensioners who are hospital in-patients. [220584]

Malcolm Wicks: The estimated cost of not reducing state pensions of pensioners who are hospital in-patients is £23 million per year.

Notes:

1. The cost is in 2004-05 prices and rounded to the nearest £1 million.

2. Estimates based on DWP 5 per cent. administrative data sample at 30 September 2003 and 31 March 2004.

3. This cost takes no account of any changes in expenditure on any other benefit.

Dr. Kumar: To ask the Secretary of State for Work and Pensions what plans he has to amend *(a)* sections 101B and 101C of the Pension Schemes Act 1985 and *(b)* section 37 of the Welfare Reform and Pensions Act 1999. [220343]

Malcolm Wicks: This legislation was introduced in December 2000 to enable couples to share the value of their pensions on divorce. It allows a former spouse to acquire a pension in her, or his, own right, providing security of income in retirement and a clean break settlement. Section 101C of the Pension Schemes Act 1993 in particular specifies that pension credit benefit paid under a pension sharing order in an occupational pension scheme must be paid from age 60 to 65. Each scheme sets its own normal benefit age within this range. We do not plan to change this.

Incapacity Benefit

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many new claimants left incapacity benefit at the *(a)* four month and *(b)* 12 month stage of their claim in each quarter since January 2003 in (i) pathways to work pilot areas and (ii) non-pathways areas. [215776]

Maria Eagle *[holding answer 10 February 2005]:* The information is in the table.

People move off incapacity benefit for a variety of reasons. These include failing the Personal Capability Assessment, death, retirement, and because their condition improves and they either return to work or claim a different benefit.

All incapacity benefit and severe disability allowance terminations in the quarters shown, by duration of claim and area

	All	*4 Months or less*	*From 4 to 12 months*	*More than 12 months*
Pathway to work areas				
February 2003	13,600	4,600	3,600	5,400
May 2003	12,400	4,400	3,300	4,700
August 2003	13,900	4,200	4,000	5,800
November 2003	13,800	4,400	3,800	5,600
February 2004	14,200	4,600	3,600	5,900
May 2004	15,200	5,000	3,900	6,300
August 2004	11,500	4,200	3,000	4,300
Non pathway areas				
February 2003	157,000	49,700	40,600	66,700
May 2003	153,800	50,800	44,200	58,900
August 2003	169,500	51,500	43,600	74,400
November 2003	173,700	53,700	44,300	75,700
February 2004	159,700	46,600	43,300	69,900
May 2004	162,900	45,900	43,500	73,400
August 2004	113,900	34,500	31,800	47,500

Notes:

1. Figures are rounded to the nearest hundred. Totals may not sum due to rounding.

2. Figures include all incapacity benefit, severe disability allowance and credits-only cases.

3. The figures have been updated to include late notified terminations, including terminations for retirement pension. Figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters. For illustration purposes, total terminations for August 2003 increased by 34 per cent. in the year following their initial release.

4. Pathways to Work programme commenced in three pilot areas in October 2003 and a further four in April 2004.

Source:

Information Directorate, 5 per cent. sample.

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many claimants of incapacity benefit were in receipt of *(a)* incapacity benefit only, *(b)* incapacity benefit in combination with each other benefit to which a claimant may also be entitled and *(c)* each other (i) benefit and (ii) combination of benefits to which a claimant may be entitled in each of the last five years; and what the average weekly level of benefit received by a claimant was in each case. [219392]

Maria Eagle: The available information is in the tables.

Incapacity benefit (IB) severe disability allowance (SDA) claimants[1] with income support (IS), disability living allowance (DLA), housing benefit (HB), and council tax benefit (CTB), in Great Britain

	1999		May 2000		2001	
Benefit combination	*Caseload*	*Average weekly amount (£ pw)*	*Caseload*	*Average weekly amount (£ pw)*	*Caseload*	*Average weekly amount (£ pw)*
IB/SDA[2] only	921,200	74.45	908,300	72.81	900,700	72.71
IB/SDA[2] with IS only	632,700	88.05	656,800	91.05	687,600	95.22
IB/SDA[2] with DLA only	518,800	127.26	511,200	128.01	519,400	130.79
IB/SDA[2] with IS and DLA	476,800	161.70	499,500	165.35	535,600	173.28
IB/SDA[3] with HB only	30,000	[4]	20,000	[4]	20,000	[4]
IB/SDA[3] with CTB only	50,000	[4]	50,000	[4]	40,000	[4]
IB/SDA[3] with HB and CTB	150,000	[4]	140,000	[4]	130,000	[4]

	2002		May 2003		2004	
Benefit combination	*Caseload*	*Average weekly amount (£ pw)*	*Caseload*	*Average weekly amount (£ pw)*	*Caseload*	*Average weekly amount (£ pw)*
IB/SDA[2] only	871,600	71.84	834,600	71.50	824,400	71.41
IB/SDA[2] with IS only	683,500	96.17	681,000	99.08	662,000	99.61
IB/SDA[2] with DLA only	538,800	131.94	552,600	132.78	563,500	134.39
IB/SDA[2] with IS and DLA	552,900	166.23	590,600	170.53	606,700	171.89
IB/SDA[3] with HB only	20,000	[4]	20,000	[4]	[4]	[4]
IB/SDA[3] with CTB only	40,000	[4]	40,000	[4]	[4]	[4]
IB/SDA[3] with HB and CTB	120,000	[4]	120,000	[4]	[4]	[4]

[1] Includes Credit only cases, except where stated (see [3]).
[2] Working age claimants are men aged 16–64 and women aged 16–59. Excludes a small number of claimants over State Pension Age (almost all SDA claimants).
[3] HB/CTB figures cover IB/SDA recipients only, i.e. do not include Credits only cases.
[4] Signifies information not available; (see notes)

Notes:

1. Figures refer to benefit units, which may be a single person or a couple.
2. Due to the estimation procedure to produce the figures for Housing Benefit and Council Tax Benefit and the collection procedures in Scotland, HB/CTB figures are rounded to the nearest 10,000. All other working age caseloads are rounded to the nearest 100.
3. Average weekly amounts are not available for HB/CTB recipients where overlaps are removed.
4. Council tax benefit cases exclude any Second Adult Rebate cases.
5. Housing benefit cases exclude Extended Payment cases.
6. Figures refer to where the claimant and/or partner are aged in receipt of the relevant benefit.
7. May 2003 is the most recent data available for HB/CTB.
8. Average amounts refer to the combined amount of the benefits listed and are rounded to the nearest penny.

Sources:

Information Directorate, 5 per cent. Working Age Client Group sample.
Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 1999 to 2003.

Pension Credit

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the effect on the number of pensioners in receipt of pension credit in 2009–10 of linking the basic state pension to earnings from 2006–07 onwards. [218691]

Malcolm Wicks *[holding answer 28 February 2005]:* If the basic state pension was uprated in line with earnings from 2006–07 onwards and the savings credit threshold was increased in line with prices as now, 150,000 fewer benefit units would be in receipt of pension credit by 2009–10. If the savings credit threshold was increased in line with the increase in the basic state pension about 250,000 fewer benefit units would be in receipt by 2009–10.

Notes:

1. The figure is rounded to the nearest 50,000 to account for the large potential margin for error in the estimate.

2. Overall pensioner incomes are assumed to rise in line with average earnings.

Source:

Figures are calculated using the department's policy simulation model and the family resources survey 2002–03 projected forward to 2009–10

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the largest possible entitlement for the savings credit element of pension credit has been in each year since its introduction; and what the projection is for each of the next five years on the assumption that the guarantee credit grows in line with earnings and the savings credit grows in line with prices. [219701]

Malcolm Wicks: The following table sets out the maximum entitlement to the savings element of pension credit payable for single people and couples for the financial years 2003–04 to 2009–10. The figures for the years 2003–04 to 2005–06 are the actual maximum entitlements to the savings element payable for those years. The figures for subsequent years are estimates based on the assumptions set out in the notes to the table.

Maximum amounts of the savings element of pension credit

Financial year	*Maximum savings element-single people*	*Maximum savings element-couples*
2003–04	14.79	19.20
2004–05	15.51	20.22
2005–06	16.44	21.51
2006–07	18.42	24.42
2007–08	20.34	27.27
2008–09	22.29	30.12
2009–10	24.33	33.15

Notes:

1. Figures are in line with current uprating policy. The Chancellor announced in the pre-Budget report that the guarantee element of pension credit would be uprated in line with earnings over the current spending round (to 2007–08). The savings credit threshold is currently equal to the maximum rate of basic state pension and is assumed to rise in line with prices.
2. The estimates for the financial years 2006–07 to 2009–10 are based on the 2004 pre-Budget report assumptions for average earnings growth and growth in the retail price index.

Social Security Payments (Pensioners)

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will make a statement on the interaction between pension credit and other social security payments for *(a)* those in residential care homes and *(b)* those not in residential care. [220573]

Malcolm Wicks: The policy on charging for residential care is the responsibility of health departments. The current financial assessment for residential care takes account of an individual's income, including benefit income, leaving each resident with a personal expense allowance. Pension credit, which may include an amount of savings credit, is taken into account in the council's financial assessment. For those individuals in receipt of the savings credit, they are left with the amount for personal expenses and in addition receive a savings credit disregard. For individuals living in their own homes and being financially assessed for home care and their non-residential care services, the savings credit is fully disregarded.

Payment of attendance allowance (AA) and disability living allowance (DLA) stops after four weeks residence in a care home, except where a resident can meet the full cost without help from a local authority or other source of public funding (other than payments for free nursing care), as this does not affect payability of AA/DLA for self funders. The mobility component of DLA can continue in payment because care home costs do not cover mobility needs. Pension credit recipients who have been in a care home for 13 weeks or more at the end of the specified qualifying week are not eligible for a winter fuel payment.

State Pension

Mr. Webb: To ask the Secretary of State for Work and Pensions how many *(a)* men and *(b)* women have had no (i) own-rights or (ii) own or spouse rights entitlement to the basic state pension because they did not have the minimum of 25 per cent. of qualifying years in each of the last 20 years. [219744]

Malcolm Wicks *[holding answer 4 March 2005]:* The information is not available in the format requested. However, the information in the table shows the number of men and women in receipt of either or both graduated retirement benefit and additional state pension who do not receive any basic state pension.

As at March:	*Men*	*Women*
1985	3,000	172,500
1986	2,800	164,200
1987 [1]	2,900	175,700
1988	3,100	176,000
1989	3,200	177,300
1990 [1]	3,600	180,000
1991	3,800	176,800
1992	4,100	157,200
1993	4,200	151,100
1994	4,500	144,600
1995	5,000	138,900
1996	5,800	128,600
1997	6,600	118,300
1998	7,300	112,200
1999	7,700	103,700
2000	8,300	98,100
2001	9,100	95,500
2002	10,100	91,000
2003	11,600	85,800
2004	13,300	83,000

[1] September

Notes:

1. Numbers are taken from a 10 per cent. sample prior to March 1995 and a five per cent. sample after March 1995 and are therefore subject to a degree of sampling variation.
2. Numbers are rounded to the nearest hundred.
3. Figures include overseas cases.
4. A basic state pension is paid to those who fully or partially satisfy the contribution conditions for a Category A or Category B basic state pension, either in their own right or, where applicable, on the basis of their spouse's or former spouse's National Insurance contributions.

Source:

IAD Information centre 10 per cent., sample prior to March 1995 and a five per cent., sample after March 1995. Figures are as at 31 March or 30 September for the years shown.

Mr. Webb: To ask the Secretary of State for Work and Pensions (1) what estimate he has made of the *(a)* number and *(b)* proportion of (i) men and (ii) women who will fail to meet the minimum of 25 per cent. of qualifying years for a basic state pension in (A) each of the next five years, (B) 2010, (C) 2030, (D) 2040 and (E) 2050; and what estimate he has made of the (1) net and (2) gross cost for each of these years of the requirement for a minimum of 25 per cent. of qualifying years entitlement; [219745]

(2) what estimate he has made of the cost of paying pensions under reciprocal agreements to people in other countries who would build up an entitlement to the basic state pension if the 25 per cent. rule on the number of

qualifying years were to be removed in *(a)* each of the next five years, *(b)* 2010, *(c)* 2030, *(d)* 2040 and *(e)* 2050. [219746]

Malcolm Wicks *[holding answer 4 March 2005]:* The information is not available in the format requested. However, as at March 2004, there were 13,300 men and 83,000 women in receipt of either or both graduated retirement pension and additional state pension who did not receive any basic state pension. This accounted for less than 1 per cent. of total recipients of state pension.

The additional gross cost would be around £95 million in 2004–05 if those people were treated as having at least nine qualifying years for entitlement to a basic state pension. On the same assumption, approximately £5 million of that sum relates to pensioners living overseas outside the European economic area in a country with which the UK has a reciprocal agreement to uprate state pensions.

Notes

1. This cost is provided by the Government Actuary's Department and assumes a full national insurance record for at least nine years.

2. The available data is an extract based on those in receipt of benefits in Great Britain and overseas. There is not sufficient information available on contribution records to provide a more comprehensive estimate, neither is sufficient information available to estimate the net costs.

3. It is also expected that large numbers of overseas cases with a small number of contribution years could become entitled to the basic state pension.

4. The estimate for pensioners living overseas does not include the additional costs of paying basic state pensions to those with less than 25 per cent. qualifying years who live in the European economic area.

Targets

Mr. Bercow: To ask the Secretary of State for Work and Pensions what recent assessment he has made of whether the Public Service Agreement target to reduce the inequalities between the level of development achieved by children in the 20 per cent. most disadvantaged areas and the rest of England by 2008 will be met. [220137]

Margaret Hodge: I have been asked to reply.

The target for 50 per cent. of children to reach a good level of development was set in July 2004. It is based on the 2003 Foundation Stage Profile (FSP) results and data from Sure Start local programmes. It is provisional as the 2003 FSP data were published as 'experimental statistics'. FSP data for 2004 will be published on 17 March , and for 2005 later this year. At this point we will be able to confirm the target and establish the baseline against which progress towards the target can be assessed.

Vibration White Finger

Mr. Todd: To ask the Secretary of State for Work and Pensions if he will make a statement on the implications for claims for *(a)* disablement benefit and *(b)* reduced earnings allowance from those suffering from vibration white finger of proposals for changes in the prescription of the disease made by the Industrial Injuries Advisory Council. [219282]

Jane Kennedy: The Industrial Injuries Advisory Council (IIAC) published its report on Hand Arm Vibration Syndrome in July 2004. The principal recommendation was that the terms of prescription for PD A11 (Vibration White Finger) be extended to include sensorineural symptoms, in addition to the existing vascular symptoms. The recommendations in that report were fully accepted. Revised regulations to implement the report should be introduced this summer.

It is hard to be accurate about how many claims will be made, or how many people will benefit, as a result of the changes. Provisional estimates are that over 60,000 new claims may be made, though the number who will actually receive benefit may be small in relation to the total number of claims.

People claiming as a result of this extension to prescription will not be entitled to reduced earnings allowance (REA). This is because a person cannot be entitled to REA where the prescription for that disease is extended on or after 10 October 1994. This is the effect of The Social Security Contributions and Benefits Act 1992, Schedule 7, paragraph 11(1).

Winter Fuel Payment

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate how many people became newly entitled for the 2004–05 winter fuel payment who would need to claim the payment; and how many claims have been received from such people. [220574]

Malcolm Wicks: We estimate that approximately 700,000 individuals in Great Britain reached age 60 in the qualifying period for the 2004–05 winter fuel payment. About half of these have been paid automatically but others, who are not in receipt of certain benefits, will need to make a claim. By 25 February, 351,894 claim forms had been received.

HEALTH

Asian Bird Influenza

Mr. Drew: To ask the Secretary of State for Health which streams of Asian bird influenza pose a threat to the UK; and which vaccines he is stockpiling to protect against possible outbreaks of flu. [219808]

Miss Melanie Johnson: Highly pathogenic forms of avian influenza type A viruses are of most concern as these are known to have caused infections in people. Of these, A/H5N1, A/H7N7 and A/H9N2 have caused outbreaks of infection in the past five years. Because of their potential to adapt to become more transmissable to humans, or to exchange genes with a human influenza virus to produce a completely novel virus capable of pandemic spread, all pose a threat.

There is as yet no vaccine available for the prevention of the disease. The National Institute for Biological Standards and Control has secured an isolate of the current avian influenza virus strain and has produced a

candidate vaccine virus using "reverse genetics" technology for use should this be required. We are working closely with other countries, the World Health Organisation, the European Commission and manufacturers to ensure that a vaccine can be developed as quickly as possible once a pandemic flu strain emerges.

Lynne Jones: To ask the Secretary of State for Health what measures he is taking to prepare for a possible outbreak of avian flu; and if he will make a statement. [218016]

Miss Melanie Johnson: On 1 March, we published the United Kingdom health departments' influenza pandemic contingency plan, together with an announcement of our plans for procurement of antivirals. This puts the UK in the forefront of international preparedness for a possible flu pandemic. The document is on the Department's website at www.dh.gov.uk/pandemicflu.

Paul Flynn: To ask the Secretary of State for Health what action is being taken by his Department to protect against possible mutations of the avian flu virus; and if he will make a statement. [218063]

Miss Melanie Johnson *[holding answer 28 February 2005]:* There is no confirmed evidence of person-to-person spread of avian influenza in South-East Asia. Guidance for the national health service on the detection, diagnosis and treatment of potential cases of avian flu has been prepared by the Health Protection Agency (HPA), in collaboration with the Department, and is published on the HPA's website at www.hpa.org.uk/infections/topics_az/avianinfluenza/menu.htm.

In response to outbreaks of avian influenza in South-East Asia, the European Commission has imposed a ban on the importation of birds of all species from affected areas until December 2005.

On 1 March, we published the United Kingdom health departments' influenza pandemic contingency plan, together with an announcement of our plans for procurement of antivirals. This puts the UK in the forefront of international preparedness for a possible flu pandemic. The document is on the Department's website at www.dh.gov.uk/pandemicflu.

Breast Cancer Screening

Mr. Burstow: To ask the Secretary of State for Health what percentage of women aged *(a)* 50 to 64 and *(b)* 65 to 70 years have been screened for breast cancer on the NHS in (i) England, (ii) each strategic health authority and (iii) each primary care trust in each year since 1997. [218174]

Miss Melanie Johnson: Information requested since strategic health authorities and primary care trusts were established in 2002 has been placed in Library.

Courses (Transport Costs)

Mr. Andrew Turner: To ask the Secretary of State for Health what his policy is on the provision of assistance with transport costs to mature students attending NHS sponsored courses at university; what other support is available to those who live outside areas identified for assistance with transport costs; and if he will list for each midwifery course sponsored by the NHS the areas within which assistance with transport costs is available. [216931]

Mr. Hutton *[holding answer 21 February 2005]:* The provision of travelling expenses for mature students attending courses at university is a matter for national health service employers locally. Information about travelling costs is not held centrally.

Defibrillators

Mr. Hammond: To ask the Secretary of State for Health what the estimated cost is per usage of NHS defibrillators located in non-NHS premises, including capital cost amortisation over the estimated useful lifetime of the equipment. [216531]

Miss Melanie Johnson: It is difficult to give an accurate estimated cost per usage, as the total life expectancy of the automated external defibrillators that are currently in use is not known.

The current cost, with 303 defibrillator deployments, works out at accrued cost of £4,950 per deployment, but this does not take account of the lifespan of the defibrillators.

Therefore:

For five years life expectancy, current data suggests there would be 440 deployments at a cost of £3,409 per deployment.

For seven years life expectancy, current data suggests there would be 616 deployments at a cost of £2,435 per deployment.

For 10 years life expectancy, current data suggests there would be 881 deployments at a cost of £1,702 per deployment.

Dentistry

Sir Paul Beresford: To ask the Secretary of State for Health if he will make a statement on the progress made towards implementing a dental NHS IT system. [219394]

Mr. Hutton *[holding answer 2 March 2005]:* Work is progressing to finalise definition of the functional requirements for clinical information technology (IT) systems in both primary and secondary care to link to the national programme for information technology in the national health service. The requirements for primary care dental IT will be informed by the new contractual arrangements for primary care dentistry, which will be implemented by April 2006.

Departmental Estate

Mr. Steen: To ask the Secretary of State for Health how many acres of vacant, dormant, unused and under-utilised land are owned by his Department; and if he will estimate the number of homes that could be built on the land if it was made available. [219683]

Mr. Hutton *[holding answer 3 March 2005]:* The majority of surplus land remaining in the ownership of the Secretary of State for Health is included in a transfer of land and property to English Partnerships (EP). This transfer, which was announced in April 2004, will assist the Government's sustainable communities plan. Around 1,650 hectares of land will transfer to EP and it is estimated that this has the capacity to provide around 15,000 homes.

Diagnostics

Mr. Burstow: To ask the Secretary of State for Health (1) what estimate he has made of excess unused capacity within the NHS for diagnostic services; [218194]

(2) whether primary care trusts will have the choice of whether to purchase services under the new purchasing contract for diagnostics services. [218195]

Mr. Hutton: *[holding answer 28 February 2005]:* Primary care trust's (PCT) capacity planning identified the need for significant increases in diagnostic capacity to meet the 18-week waiting time target. For example, the number of scans required will need to increase from 6.4 million in 2004–05 to 8.9 million in 2008.

This additional capacity is required quickly and I believe that the independent sector is well placed to provide some of this capacity. That is why we announced the procurement of £1 billion over five years, which includes one million scans annually. This still leaves significant growth for the national health service.

The Department has been working with strategic health authorities and PCTs to develop specific proposals for the procurement, choosing what they wish us to purchase for them. Since PCTs have identified these requirements, we expect all of them use the services that will be provided from the procurement.

Doctors (Training)

Mr. Burstow: To ask the Secretary of State for Health how many pre-registration training places there have been for doctors in England in each year since 1980. [219679]

Mr. Hutton: The number of medical pre-registration house officers in England in each year since 1980 is shown in the following table.

Hospital, public health medicine and community health services—medical pre-registration house officers: as at 30 September each year

	Number
1980	2,654
1981	2,716
1982	2,710
1983	2,826
1984	2,773
1985	2,838
1986	2,813
1987	2,790
1988	2,862
1989	2,944
1990	3,018
1991	3,056
1992	3,041
1993	3,086
1994	3,019
1995	3,224
1996	3,217
1997	3,356
1998	3,447
1999	3,543
2000	3,641
2001	3,685
2002	3,953
2003	3,969

Source:
Department of Health medical and dental workforce census.

Down's Syndrome

Mr. Lansley: To ask the Secretary of State for Health how much funding has been provided for research into Down's syndrome *(a)* in total and *(b)* with specific reference to brain development in each year since 1997–98; and what plans he has to support further such research. [216429]

Miss Melanie Johnson: The main agency through which the Government supports medical and clinical research is the Medical Research Council (MRC). The MRC is an independent body, funded by the Department of Trade and Industry via the Office of Science and Technology.

The Department funds research to support policy and to provide the evidence needed to underpin quality improvement and service development in the national health service.

Both the MRC and the Department are currently supporting research into Down's syndrome. Past expenditure on such research is shown in the table.

£000

	MRC	*Department of Health research programmes*[1]
1997–98	352	531
1998–99	143	611
1999–2000	164	522
2000–01	245	380
2001–02	470	67
2002–03	431	70
2003–04	[2]—	111

[1] Includes expenditure on projects partly but not wholly related to Down's syndrome.
[2] Not yet available.

An analysis of expenditure that separately identifies the part of Down's syndrome research costs attributable to work on brain development is not available.

Over 75 per cent. of the Department's total expenditure on health research is devolved to and managed by NHS organisations. Details of completed and ongoing projects, including a number concerned with Down's syndrome, can be found on the national research register at www.dh.gov.uk/research.

EU Committees

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee (i) for the implementation of the Community action programme for the prevention of AIDS and certain other communicable diseases and (ii) on the action programme on rare diseases in the framework of the action plan for public health met; when and where these meetings took place; which UK Government expert was present; and if he will make a statement. [218365]

Miss Melanie Johnson: The Committee for the implementation of the Community action programme for the prevention of AIDS and certain other communicable diseases and the committee on the action programme on rare diseases in the framework of the action plan for public health did not meet during the Italian, Irish or Dutch presidencies.

I refer the hon. Member to the series of Command Papers on prospects for the EU—Cm6174 laid in April 2004. Cm6310 laid in September 2004 and Cm6450 laid in February 2005, which cover the periods of the above presidencies and are available on the Foreign and Commonwealth Office's website at: www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Health how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee for the implementation of the Community action plan to combat cancer met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [215913]

Miss Melanie Johnson: This committee has been disbanded. It last met in 2002. It was set up to advise on the Europe Against Cancer programme which was completed in December 2002. It is not known where the committee met.

Gynaecology

Mr. Edwards: To ask the Secretary of State for Health (1) how many women were given hysterectomies in an NHS hospital in the latest year for which figures are available; [219704]

(2) what steps are being taken to ensure that women who, with clinical support, request a less invasive treatment as an alternative to hysterectomy receive their treatment of choice on the NHS; and if he will make a statement; [219705]

(3) how many NHS trusts offer access to a multidisciplinary team including gynaecologists and an interventional radiologist to diagnose and treat uterine fibroids as recommended by the National Institute for Clinical Excellence; [219706]

(4) what guidance is given to NHS trusts on the use of uterine artery embolisation for fibroids. [219707]

Miss Melanie Johnson: There were 49,600 hysterectomy operations (OPCS4 codes Q07, Q08) performed in national health service hospitals, England in 2003–04.

The National Institute for Clinical Excellence (NICE) issued revised full guidance on fibroid embolisation in October 2004; this is available on its website at www.nice.org.uk. NICE decided that the procedure is safe and that most patients have improved symptoms. However, NICE considers that more information is needed about how well it works, how long it works for and how it affects a woman's ability to become pregnant.

Once NICE guidance is published, health professionals are expected to take it fully into account when exercising their clinical judgement. However, NICE guidance does not override the individual responsibility of health professionals to make decisions appropriate to the circumstances of the individual patient, in consultation with the patient and/or guardian or carer.

Decisions about patterns of services delivery are a matter for individual health authorities and trusts to determine locally, taking into account local population needs, priorities and resources. We do not, therefore, collect information on this centrally.

Health Services (Burnley)

Mr. Pike: To ask the Secretary of State for Health how much funding has been made available for frontline health services in Burnley in each year since 1997; and if he will make a statement. [219493]

Miss Melanie Johnson: The tables show the revenue allocations made to East Lancashire Health Authority (HA) between 1996–97 and 2002–03 and Burnley, Pendle and Rossendale Primary Care Trust (PCT) between 2003–04 and 2007–08.

Revenue allocations to East Lancashire HA: 1996–97 to 2002–03

	£000
1996–97[1]	230,808
1997–98[1]	240,684
1998–99[1]	253,100
1999–2000[1]	349,892
2000–01[1]	384,249
2001–02[1]	416,738
2002–03[1]	461,132

Revenue allocations to Burnley, Pendle and Rossendale PCT: 2003–04 to 2007–08

	£000
2003–04[1]	241,264
2004–05[1]	264,963
2005–06[1]	289,574
2006–07[2]	339,612
2007–08[2]	371,238

[1] Between 1996–97 and 2002–03, revenue allocations were made to HAs. From 2003–04, revenue allocations were made to PCTs. Therefore, it is not possible to compare the allocations made prior to 2003–04 with those made from 2003–04 as they were made to different organisations. Unified allocations covering hospital and community health services (HCHS), prescribing and general medical services cash limited allocations were first made in 1999–2000. Therefore, the allocation figures from 1999–2000 are not comparable with previous years which cover HCHS only.

[2] Allocations for 2006–07 and 2007–08 are not directly comparable with previous years because there have been significant baseline changes since the last allocations round—for example, devolution of £5 billion funding for general practitioners—which inflate the increases.

Mr. Pike: To ask the Secretary of State for Health how much funding has been made available for improving buildings in Burnley for *(a)* general practitioner practices, *(b)* East Lancashire Acute Trust, *(c)* Burnley General Hospital and *(d)* other health services in each year since 1997; and if he will make a statement. [219494]

Miss Melanie Johnson: The information is not available in the format requested. The following table shows the net book value of purchased capital additions

(buildings, dwellings and transfers from assets under construction) for the East Lancashire hospitals national health service trust and its predecessor trusts.

£000

	Blackburn, Hyndburn and Ribble Valley health care NHS trust	Burnley health care NHS trust	East Lancashire hospitals NHS trust
1997–98	1,733	1,231	n/a
1998–99	9,074	7,341	n/a
1999–2000	1,460	6,838	n/a
2000–01	2,108	1,787	n/a
2001–02	7,432	2,430	n/a
2002–03	2,390	8,577	n/a
2003–04	n/a	n/a	4,350

Notes:
1. The figures in the table do not include private finance initiative (PFI) expenditure where PFI costs are revenue expenditure in the books of NHS bodies.
2. Capital investment will vary between years owing to the investment decisions at individual NHS bodies.

Sources:
Audited summarisation schedules of the East Lancashire hospitals NHS trust 2003–04.
Audited summarisation schedules of the Blackburn, Hyndburn and Ribble Valley health Care NHS trust and the Burnley health care NHS trust 1997–98.

Heat-related Illnesses

Mr. Weir: To ask the Secretary of State for Health what plans his Department has made for combating the health effects of increasing levels of UV radiation due to the decline in cloud cover and ozone depletion. [218812]

Miss Melanie Johnson: The National Radiological Protection Board (NRPB) has carried out ultra violet (UV) measurements of solar UV in the United Kingdom and these have shown a small upward trend. However, the data are still being analysed and may be within experimental uncertainties. The incidence of skin cancer, due to UV exposure is rising in most middle latitude countries. This is attributed to behavioural factors (sunbathing, holidays in the sun etc.) and not changes in the intensity of incident ultra violet radiation or other meteorological factors.

The "SunSmart" campaign is funded by the Department and run by Cancer Research UK and seeks to educate people about the dangers of excessive exposure to UV and gives simple steps to avoid the harm. The messages would be equally valid and useful and possibly even more necessary, should UV levels in the UK rise because of meteorological changes.

HIV/AIDS

Mr. Evans: To ask the Secretary of State for Health what the average annual cost of treating an AIDS patient in England was in the last year for which figures are available. [217474]

Miss Melanie Johnson: The Government do not routinely collect data on the cost of treating AIDS patients.

Hospices

Sir Nicholas Winterton: To ask the Secretary of State for Health pursuant to the oral answer by the Prime Minister on Wednesday 23 February 2005, *Official Report*, column 305, what proportion of the sum of £50 million has to date been allocated to hospices; and if he will list the hospices concerned. [219278]

Miss Melanie Johnson: Reports on the use of the £50 million central budget for specialist palliative care in 2003–04 have been received from 32 of the 34 cancer networks. The remaining two networks received their allocations later than the others and were not included in the 2003–04 data collection exercise. The 32 networks received a total of £45.83 million and £38.38 million of this amount was spent in-year on specialist palliative care. £24.74 million (53.98 per cent. of the allocation) was used to support voluntary sector services, mostly hospices.

Investment plans for the use of the £50 million were developed by cancer networks in consultation with local stakeholders, including those in the voluntary sector. Decisions on which voluntary sector organisations should be allocated funding were made locally and this information is held at cancer network level.

Hospital Infections

Mr. Lansley: To ask the Secretary of State for Health if he will state what powers NHS matrons have to withhold payment to cleaning service providers. [209006]

Mr. Hutton: Guidance issued to the national health service emphasises the importance of involving nurses in setting up cleaning contracts and monitoring standards. Matrons have the power to instigate a process whereby payment can be withheld if cleaning standards are not maintained.

Illegal Cigarettes

Keith Vaz: To ask the Secretary of State for Health what representations he has received on the health implications of trade in illegal cigarettes. [220208]

Miss Melanie Johnson: My right hon. Friend, the Secretary of State, has received representations from ASH and other health groups raising concerns that the availability of cheap illegal tobacco is undermining the Government's tobacco control strategy, particularly the use of high duty rates to discourage people from smoking. Smuggled tobacco has meant a continuing supply of cheap tobacco, often targeted on areas of deprivation.

This is why the Government, in "Tackling Tobacco Smuggling," published in March 2000, has set challenging targets for Her Majesty's Customs and Excise to reverse the growth in tobacco smuggling. As a result, in the first four years of the strategy, the total number of cigarettes smuggled into the United Kingdom each year has been reduced by over five billion, a reduction of over a third.

Infectious Diseases

Mr. Burstow: To ask the Secretary of State for Health what the reasons are for the delay in publishing guidance based on the recommendations of the Department's working group on healthcare workers and infectious diseases. [218192]

Miss Melanie Johnson *[holding answer 28 February 2005]:* In developing guidance on the health clearance of new health care workers for serious communicable diseases, it has been necessary to take into account the Cabinet Office review of imported infections and immigration, which has been considering the impact of immigration on public health and relevant issues, including health screening.

Guidelines will be published by the summer.

Leeds Community and Mental Health Trust

Mr. Best: To ask the Secretary of State for Health (1) whether the Leeds Community and Mental Health Trust has received the additional £5 million allocated after the external review of services in 1999; [214904]

(2) what assessment he has made of the Leeds Community and Mental Health Trust's financial position; and if he will make a statement; [214906]

(3) what assessment he has made of the impact on services at the Leeds Community and Mental Health Trust of its financial deficit. [215214]

Miss Melanie Johnson: I refer my hon. Friend to the reply I gave on 21 February 2005, *Official Report*, columns 161–62W.

Malnutrition

Sarah Teather: To ask the Secretary of State for Health how many elderly people were diagnosed as suffering from malnutrition in *(a)* Greater London, *(b)* each London borough and *(c)* England in each year since 2002–03. [220179]

Dr. Ladyman: In 2002–03, eight London residents aged 65 years or more were admitted to hospitals and diagnosed as suffering from malnutrition. In 2003–04, the number was 11. The corresponding figures for England are 112 and 116 respectively. Figures for individual London boroughs are not available.

Meat Hygiene

David Taylor: To ask the Secretary of State for Health what procedures the Meat Hygiene Service has put in place to ensure that trade union health and safety representatives can inspect all premises on which Meat Hygiene Service staff work. [219000]

Miss Melanie Johnson: I am advised that the Meat Hygiene Service (MHS) has no legal basis upon which to authorise its appointed Unison trade union safety representatives to enter or inspect licensed fresh meat premises which are owned by a third party, and in which MHS staff are deployed. In partnership with Unison, the MHS has pursued this matter with the Health and Safety Executive and legal advisers, including seeking voluntary access agreements with industry representative bodies. The MHS understands that some plants have agreed access on this basis. However, as it stands, and pending any future changes to the relevant health and safety legislation, there is no further action that the MHS can take. Unison representatives were advised accordingly in January 2003.

David Taylor: To ask the Secretary of State for Health (1) what facilities the Meat Hygiene Service makes available to its inspection staff at meat plants to ensure that staff can store foodstuffs and consume meals and other refreshments in a clean, safe and hygienic environment; [219001]

(2) what facilities the Meat Hygiene Service makes available to its inspection staff to *(a)* wash, *(b)* shower and *(c)* ensure personal hygiene and cleanliness, in line with the MHS zoonosis risk guidance, when undertaking their duties at meat plants. [219002]

Miss Melanie Johnson: I am advised that the Meat Hygiene Service (MHS) enforces the provisions of the Fresh Meat (Hygiene and Inspection) Regulations 1995 (as amended); the Poultry Meat, Farmed Game Bird Meat and Rabbit Meat (Hygiene and Inspection) Regulations 1995 (as amended); and the Wild Game Meat (Hygiene and Inspection) Regulations 1995; which require that "adequate facilities" are provided by plant operators to enable MHS inspection staff to carry out their duties. These facilities include those required to enable MHS staff to wash, shower and ensure their personal hygiene and cleanliness.

In ensuring that adequate facilities are provided, the MHS also has an obligation to ensure that premises, including plants in which its inspection staff work, comply with the Workplace (Health, Safety and Welfare) Regulations 1992 (as amended). Regulations 22 and 25 place a responsibility on all plant operators to provide facilities for rest and eating meals in the premises they control or own.

The plant operator is the primary duty holder under the Workplace (Health, Safety and Welfare) Regulations. Some plant operators provide canteen facilities which are available to be shared by MHS inspection staff. Where shared eating facilities are not available, the MHS has provided refrigerators in some plants exclusively for the storage of food by inspection staff, and has also provided items such as microwave cookers and electric kettles for their usage.

David Taylor: To ask the Secretary of State for Health (1) what assessment has been undertaken by the Meat Hygiene Service of the ergonomic and manual handling risks to its meat inspection staff; [219010]

(2) what measures the Meat Hygiene Service has put in place to remove the ergonomic risks to its inspection staff. [219011]

Miss Melanie Johnson: I am advised that an ergonomic aspects of work policy supported by guidance and an inspection/risk assessment checklist was agreed with UNISON and issued by the Meat Hygiene Service (MHS) in June 2002. In accordance with this policy, any individual who considers their health is at risk from ergonomic factors would be referred to BMI Services Ltd. for an assessment. In the light of their report, adjustments to the working conditions would be made where these were considered reasonable as required by statute. Where ergonomic

factors in a licensed meat plant are of general concern, a report from BMI Services Ltd. may be commissioned. This would be referred to the MHS regional office for consideration with the plant operator before being reviewed by the joint MHS/UNISON health and safety committee for any recommendations they wish to make. The MHS has also provided ergonomic/manual handling training at both instructor and risk assessor level to 20 employees who will be deployed to review potential risks in licensed premises as appropriate.

MRSA

Mr. Gill: To ask the Secretary of State for Health how many hospitals in *(a)* England and *(b)* Leicester South conduct regular checks to identify cases of MRSA. [217981]

Miss Melanie Johnson: All acute national health service trusts are required to report methicillin resistant Staphylococcus aureus (MRSA) bloodstream infections as part of the mandatory surveillance system introduced by this Government in April 2001.

National Electronic Library

Paul Flynn: To ask the Secretary of State for Health what the reasons are for the decision to terminate access to the Drug and Therapeutics bulletin database on the National Electronic Library for Health in May; and if he will make a statement. [216254]

Ms Rosie Winterton: There are no plans to terminate access to the electronic version of the Drug and Therapeutics bulletin available via the National Electronic Library for Health. This version of the bulletin will remain available to all national health service health professionals in England.

NHS Appointments

Mrs. Lait: To ask the Secretary of State for Health what role the NHS Appointments Board has in the approval of a foundation trust's chairman elected from within the Board of Governors; and if he will make a statement. [219519]

Mr. Hutton: None.

NHS Counter Fraud Compliance Unit

Mr. Cousins: To ask the Secretary of State for Health on what date the NHS Counter Fraud Compliance Unit was proposed for closure in the Arm's Length Body review; what recent transitional arrangements have been proposed; and if he will make a statement. [218034]

Ms Rosie Winterton *[holding answer 24 February 2005]:* The devolution of the work of the National Health Service Counter Fraud and Security Management Service (CFSMS) compliance unit was intended to be 31 March 2005, with closure of the unit at the same time.

Unfortunately, an error occurred at the time of publication of "An Implementation Framework for Reconfiguring the Department of Health's Arm's Length Bodies" and the date for closure was shown as 1 October 2005, not 31 March 2005 as previously indicated in communication to compliance unit staff. Staff in the compliance unit were contacted once it became clear that an error had been made.

The CFSMS is continuing to consult with UNISON regarding transitional arrangements. These include retaining a small number of staff to undertake work on decommissioning the compliance unit for a limited period of time. This is in addition to the nine members of staff who will be retained to form a patient fraud support unit.

NHS Estates

Mr. Pope: To ask the Secretary of State for Health (1) which functions of NHS Estates will remain with the Department of Health after 1 April; and which functions will transfer to other bodies; [218732]

(2) when he expects employees of NHS Estates to be informed of recent decisions on the organisation's future. [218803]

Mr. Hutton: The implementation framework for reconfiguring the Department's arm's length bodies, published on 30 November 2004, sets out the future arrangements for NHS Estates functions, post its dissolution.

A number of policy functions will be transferred to the Department, including "Procure 21" and decontamination. Responsibility for national health service advisory services will transfer to strategic health authorities. The National Patient Safety Agency will take on the implementation of programmes concerning food and cleaning, and certain design related projects.

Inventures trading services are likely to be disposed of through a managed closure.

Employees of NHS Estates are being updated on a regular basis on decisions made about the organisation's future.

NHS Spending

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the proportion of GDP spent on public healthcare in *(a)* 1996 and *(b)* 2005. [218172]

Mr. Hutton: The table shows the total public expenditure on health in the United Kingdom and expenditure as a percentage of gross domestic product (GDP).

	Total public health expenditure (£ billion)	*Total public health expenditure as a percentage of GDP*	
1996–97 Outturn	42.8	5.53	Cash
2005–06 Plan	88.6	7.13	Accruals

Note:
2005–06 data is consistent with the National Statistics release on 20 July 2004. 1996–97 data is on different basis and published in the Public Expenditure Statistical Analysis 2004. Data is available going back to 1998–99 that is on a consistent basis with the 2005–06 data.

NHS University

Mr. Tyrie: To ask the Secretary of State for Health (1) what the forecast total cost of the NHS University is from its establishment to its abolition; [219442]

(2) what the forecast cost is of abolishing the NHS University; [219443]

(3) what the average cost to his Department per student has been of providing a course at the NHS University. [219753]

Mr. Hutton: The audited accounts of the NHS University special health authority for the period 1 December 2003 to 31 March 2004 show expenditure of £13.3 million. The budget for the financial year 2004–05 is £44.6 million. Actual expenditure will only be determined once the financial year has been completed.

The NHSU remains scheduled for dissolution by July 2005. The part year cost of running the NHSU in 2005–06, and forecast transition costs, will be set as part of the 2005–06 budgets for the Department's arm's length bodies.

The Department does not hold information on the average cost per student of a course at the NHSU. Although the NHSU provides training direct to staff working in the national health service, it also provides training in partnership with a wide range of education and training providers.

The NHSU is not solely a provider of training. It undertakes other research and co-ordination activities on behalf of NHS learners.

Overseas Visitors

Mr. Gerrard: To ask the Secretary of State for Health when he will publish the Government's response to the replies received on the consultation paper "Proposal to Exclude Overseas Visitors from Eligibility to Free NHS Primary Medical Services". [218568]

Mr. Hutton: We plan to publish the results of the consultation at the same time as we announce our preferred way forward. However, these proposals have highlighted some complex issues which we are now considering and we will make the planned announcement when we have resolved these.

Shipman Inquiry

Mr. McNamara: To ask the Secretary of State for Health what the cost was of each stage of the Shipman Inquiry, broken down by main budget headings; and what the cost was of legal fees paid to each party represented. [215623]

Mr. Hutton *[pursuant to the reply, 24 February 2005, Official Report, c. 793W]:* I regret that there was an error in my previous answer. The table detailing the legal fees of the represented parties funded from the inquiry's budget should have read as follows:

Legal fees of represented parties funded by Shipman Inquiry (to 31 January 2005)	£000
Tameside Families Support Group	2,159
Detective Inspector David Smith	126.5
Mr. Alan Massey, funeral director	27
Mrs. Primrose Shipman	35
Market Street surgery staff	28.5
Dr. Alan Banks, Medical Adviser, West Pennine Health Authority	19.5
Tameside Register Office staff	15
Mrs. Christine Whitworth, executor of victim	0.4
Dr. Michael Overton, relative of victim	0.3
Mrs. Christine Schofield, housing manager at sheltered housing complex	1.4
Mayfair Chemists (Hyde) Ltd. and Co-op Health Care Ltd.	3.5
Total	2,416.1

Skin Cancer

Dr. Gibson: To ask the Secretary of State for Health how much the Government (1) have spent on promoting public health policies aimed at protecting against skin cancer in each of the last 10 years; and how much it plans to spend in *(a)* 2004–05 and *(b)* 2005–06; [212308]

(2) how much of the money spent by his Department aimed at protecting against skin cancer over the last 10 years has been spent through Cancer Research UK. [212309]

Miss Melanie Johnson: Annual figures on expenditure of sun awareness campaigns undertaken by the Health Education Authority are not available between 1996–97 and 1998–99.

Amounts invested in sun awareness campaigns are shown in the table.

	Amount (£)
1999–2000	543,000
2000–01	50,000
2001–02	126,000
2002–03	140,000
2003–04	150,000

Funding of approximately £400,000 over the next three years from March 2004 has been approved for the Cancer Research UK to run its "SunSmart" sun awareness campaign on behalf of the United Kingdom health departments, following the successful launch of "SunSmart" last year.

Student Midwives

Chris McCafferty: To ask the Secretary of State for Health how many student midwives were in receipt of non-means tested state financial support in *(a)* 2002–03 and *(b)* 2003–04. [218778]

Mr. Hutton: Non-means tested national health service bursaries have been awarded to 1,514 and 1,677 Diploma in Higher Education midwifery students in the academic years 2002–03 and 2003–04 respectively.

Sudan 1

Mr. Key: To ask the Secretary of State for Health (1) when the Food Standards Agency contacted the Health Protection Agency in connection with contamination of the food chain by Sudan 1 dye; and if he will make a statement; [218626]

(2) what discussions his Department has had with *(a)* the World Health Organisation and *(b)* the US Food and Drug Administration on contamination of UK food by Sudan 1 dye; and if he will make a statement; [218627]

(3) what discussions his Department has had with the Institute of Grocery Distribution Emergency Planning Liaison Group about Sudan 1 dye contamination of the food chain; and if he will make a statement; [218696]

(4) when the Food Standards Agency contacted the Central Science Laboratory in York in connection with contamination of the food chain by Sudan 1 dye; and if he will make a statement; [218698]

(5) what discussions officials from *(a)* his Department and *(b)* the Food Standards Agency have had with (i) the European Commission and (ii) the Global Food Safety Initiative about contamination of the food chain by Sudan 1 dye; and if he will make a statement; [218699]

(6) when *(a)* his Department and *(b)* the Food Standards Agency first informed (i) the British Retail Consortium, (ii) the Institute of Grocery Distribution Emergency Planning Liaison Group and (iii) individual food retailers about the risk of food contamination by Sudan 1 dye; and if he will make a statement. [218700]

Miss Melanie Johnson *[holding answer 1 March 2005]:* The Food Standards Agency (FSA) contacted a wide range of stakeholders on the issue of Sudan contamination of food. No discussions were held specifically with the Institute of Grocery Distribution Emergency Planning Liaison Group.

The FSA has not contacted the Central Science Laboratory in connection with this contamination. The FSA helped fund development of cheap tests for Sudan 1 dye, working with Public Analysts Laboratories.

Officials from the FSA were first in contact with the European Commission about contamination of foods with Sudan 1 in June 2003 when instances of contamination were initially identified. This contact has continued on a regular basis regarding this contamination. The FSA has had no direct contact with the Global Food Safety Initiative.

The FSA first informed the British Retail Consortium and other stakeholders of the risk of contamination of food with Sudan 1 in July 2003.

No formal contact was made between the FSA and the Health Protection Agency over this incident of contamination of food with Sudan 1. It is the FSA's responsibility to protect public health in relation to food.

No direct contact has been made with the World Health Organisation or Food and Drug Administration on the issue of contamination of United Kingdom foods with Sudan 1.

Mr. Rosindell: To ask the Secretary of State for Health if he will make a statement on the recall of food products known to contain the Sudan 1 dye. [219376]

Miss Melanie Johnson: A written statement on the recall of food products known to be contaminated with Sudan 1 was made to the House on 28 February 2005, *Official Report*, column 74WS.

Mr. Rosindell: To ask the Secretary of State for Health what forms of cancer may be caused by the Sudan 1 dye; what symptoms may be shown by those consuming the dye; and what degree of risk is associated with the dye. [219377]

Miss Melanie Johnson: Sudan 1 can cause liver cancer in laboratory rats. Although Sudan 1 could contribute to an increased risk of cancer in humans, at the levels present in food that risk is likely to be very small. It is not possible to further quantify the risk, but experts advise that exposure should be kept as low as possible. Since Sudan 1 is not permitted for food use, it should not be present in food at all.

Sun

Dr. Gibson: To ask the Secretary of State for Health how much the Government have spent on advising the public that vitamin D obtained from sunlight is essential for health. [212311]

Miss Melanie Johnson: The Government provide advice on vitamin D and sunlight as part of the "SunSmart" campaign, which is run by Cancer Research UK on behalf of United Kingdom health departments. The Government give advice to the public on the benefits for health of obtaining vitamin D from gentle sunlight in all relevant publications. There is no separately identified budget.

Killer Disease Targets

Mr. Bercow: To ask the Secretary of State for Health what progress has been made towards achieving the public service agreement target to reduce substantially mortality rates from the major killer diseases by 2010. [219231]

Miss Melanie Johnson: The latest information on cardiovascular disease and cancer mortality shows a 27.1 per cent. and 12.2 per cent. reduction respectively, compared with the baseline period of 1995–97. We are ahead of where we planned to be at this stage and are on track to deliver both a 40 per cent. reduction in cardiovascular disease mortality and a 20 per cent. reduction in cancer mortality by 2010.

Mr. Bercow: To ask the Secretary of State for Health (1) what recent assessment he has made of whether the public service agreement target to reduce mortality rates from heart disease by at least 40 per cent. in people under 75 years by 2010 will be met; [219232]

(2) what recent assessment he has made of whether the public service agreement target to reduce the inequality in mortality rates from heart disease and stroke between the fifth of areas with the worst health and deprivation indicators and the population as a whole by at least 40 per cent. by 2010 will be met. [219245]

Miss Melanie Johnson: The Department regularly assesses the likelihood of delivery of these targets and continues to be confident they will be met or exceeded. In 2004, a major risk assessment was conducted on the

cardiovascular mortality target and this concluded that the Department and the national health service are on track to meet or exceed these commitments.

Tuberculosis

Keith Vaz: To ask the Secretary of State for Health how many cases of tuberculosis were diagnosed in each of the last five years; and how many sufferers were born abroad. [217979]

Miss Melanie Johnson: The Health Protection Agency publishes this data on its website at:

www.hpa.org.uk/infections/topics_az/tb/epidemiology/table14.htm.

Variant CJD

Mr. Greenway: To ask the Secretary of State for Health if he will commission a research project into the effectiveness of pentosan in the treatment of variant CJD. [213864]

Miss Melanie Johnson: Following advice from the Spongiform Encephalopathy Advisory Committee, the Department commissioned two research programmes in 1999 to study the therapeutic benefit of pentosan polysulphate (PPS). The first study, lead by Dr. Christine Farquhar of the Institute for Animal Health's Neuropathogenesis Unit in Edinburgh, showed that PPS was effective in preventing the development of variant Creutzfeldt-Jakob Disease in mice, but only if given at the time of infection or shortly after. It was not effective if given after clinical disease had developed. The second study, lead by Dr. Harbans Sharma from Manchester University, studied the pharmacokinetics (uptake) of PPS in mice and in human volunteers. These studies showed that PPS was very poorly absorbed by the body when taken orally and did not enter the brain.

The Department is currently considering proposals for further research by Dr. Farquhar and Dr. Sharma.

Vitamins

Dr. Gibson: To ask the Secretary of State for Health how much the Government has spent on free vitamins for mothers and babies in each of the last 10 years. [212310]

Miss Melanie Johnson: Government spending on vitamins since 1995–96, the last year for which figures are available, is shown in the table.

Financial year	*Amount (£)*
1995–96	22,000
1996–97	31,000
1997–98	22,000
1998–99	21,000
1999–2000	17,000
2000–01	13,000
2001–02	13,500
2002–03	13,000
2003–04	12,500

Waiting Times

Mr. Lansley: To ask the Secretary of State for Health pursuant to the Answer of 27 January 2005, *Official Report*, column 564W, on waiting times, when he intends to begin *(a)* monitoring and *(b)* publishing waiting times from general practitioner referral to start of treatment. [218344]

Mr. Burstow: To ask the Secretary of State for Health (1) what procedures will be counted under the 18-week waiting time target for hospital treatment; [218193]

(2) what statistics he plans to collect on waiting times for diagnosis; what procedures will be covered; whether *(a)* average and *(b)* maximum waits will be collected; and what the timetable will be for publication of these statistics. [218702]

Mr. Hutton: *[holding answers 28 February 2005 and 1 March 2005]:* The 18-week target applies to waiting times for all patients referred by a general practitioner (GP) to a consultant and includes waits for any necessary diagnosis.

By the end of 2008, waiting times will be measured from GP referral to start of treatment. The Department is currently working with the national health service to develop proposals for monitoring diagnostic waiting times and delivery of the 18-week target. The further detailed information requested is therefore not yet available.

CONSTITUTIONAL AFFAIRS

Atomic Test Veterans

Llew Smith: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent assessment the Legal Services Commission has made of the application by British atomic test veterans for legal aid. [220643]

Mr. Lammy: The Legal Services Commission (LSC) granted limited funding in June 2002 to two firms of solicitors to undertake preliminary investigations.

The LSC made an assessment of the atomic veterans' Multi Party Action (MPA) in October 2004. This action includes British veterans among other nationalities. The LSC is currently awaiting further information from the solicitors to enable a decision to be made about whether further funding should be provided. Once the information is available the LSC will first consider the merits and then whether the action is affordable from the cash limited budget, having compared it with other major group actions that are being proposed. This is the standard procedure that the LSC currently applies to any major MPA.

Data Protection Act

Mr. Evans: To ask the Parliamentary Secretary, Department for Constitutional Affairs what provisions *(a)* within and *(b)* under the Data Protection Act 1998 are designed to ensure that designated data controllers dispose of information in an appropriate manner. [220209]

Mr. Leslie: There are no specific provisions in or under the Data Protection Act 1998 that identify approved methods for data controllers to carry out the deletion, erasure or destruction of personal data, or to effect the physical disposal or destruction of the data processing medium. However, under the terms of

the 7th Data Protection Principle, data controllers are required to take appropriate technical measures against unauthorised or unlawful processing of personal data, and against accidental loss of personal data.

Design

Alan Howarth: To ask the Parliamentary Secretary, Department for Constitutional Affairs who the ministerial design champion for his Department is. [215654]

Mr. Leslie: I am the Ministerial Design Champion for the Department for Constitutional Affairs.

Land Search Charges

Mrs. Spelman: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans the Government has to vary land search charges. [219916]

Mr. Lammy: I should first explain that in relation to land search charges the Department for Constitutional Affairs only has responsibility for local land charge fees, which include the fees for official and personal searches of the local land charges register, in England. However, I also have Ministerial responsibility for the fees payable to Land Registry under the Land Registration Act 2002, the Land Charges Act 1972 and the Agricultural Credits Act 1928. There are no plans to change the fees payable to Land Registry for searches of the land register, the land charges register or the register of agricultural charges.

Under the Local Land Charges Act 1975, the Lord Chancellor has responsibility, with the concurrence of HM Treasury, for setting local land charge fees in England.

On 1 March the Government successfully introduced an amendment to the Constitutional Reform Bill that will alter the Local Land Charges Act 1975 to give local authorities in England the power to set fees for local land charge services, with the exception of personal search fees, 1 March 2005, *Official Report*, column 849. If the amendment is enacted the new power will come into force on a date to be fixed.

The amendment will allow local authorities to set fees, which, taking one year with another, will enable them to recover an amount up to, but not in excess of, the costs they incur in providing local land charge services. In setting fees, local authorities will have to have regard to guidance issued by the Lord Chancellor. An illustrative version of the type of guidance the Lord Chancellor may issue has been placed in the House Library. Further consultation will be undertaken before any guidance is issued.

The amendment does not change the position in Wales, where the National Assembly for Wales has, since 31 December 2004, had responsibility for setting local land charge fees. Nor does it change the position in relation to fees for personal searches of the local land charges register, where a review is to be undertaken before any decision on changing the arrangements for setting these fees is made.

It is expected that the study into the market for property search information being conducted by the Office of Fair Trading (OFT) will include consideration of the issues relating to personal searches. The OFT aim to complete the study this summer. I will consider in the light of the OFT report whether any further work is necessary to complete the review before making any decisions on the way forward.

Legal Costs (Traveller Encampments)

Mr. Hammond: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what the total cost to public funds of providing legal advice, assistance and support in relation to planning applications and appeals in respect of Traveller encampments was in the last period for which figures are available; [216647]

(2) in how many legal cases no longer before the courts and involving a Traveller or a group of Travellers appealing against a decision by a local planning authority the Community Law Partnership has given advice. [219514]

Mrs. Spelman: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what the eligibility requirements for legal aid are for *(a)* Travellers and *(b)* home owners; [219917]

(2) what support the Legal Services Commission (LSC) provides to Travellers; and how much the LSC has spent on such support in each of the last five years; [219918]

(3) how many full-time equivalent staff in his Department deal with issues relating to Travellers; [219949]

(4) pursuant to the answer of 7 February 2005, *Official Report*, column 1296W, whether the Travellers' legal helpline provides advice in relation to *(a)* eviction actions and *(b)* planning enforcement actions; [220172]

(5) pursuant to the answer of 7 February 2005, *Official Report*, column 1296W, on Traveller sites, when the Government began funding the Community Law Partnership to provide legal support to Travellers; and how much funding was provided in each year. [220187]

Mr. Lammy: It is not possible to identify individual grants of legal aid to Gypsies and Travellers in some categories of law because we do not collect information to indicate whether clients are from these ethnic groups or follow any particular lifestyle.

The Community Law Partnership has held a contract with the LSC to provide publicly funded services since January 2000. It has held a contract with the LSC since April 2002 to provide telephone advice to Gypsies and Travellers on housing matters, including eviction and planning enforcement actions. Its grants have been as follows.

	£
April 2002-March 2003	131,675
April 2003-March 2004	131,675
April 2004-March 2005	50,000

In addition, Legal Help, which provides for basic advice and assistance on questions of English law including, planning applications and appeals, is available subject to satisfying the statutory tests of the

applicant's means and the merits of the case. The LSC does not hold data on how much Legal Help is awarded to Gypsies and Travellers.

Legal Representation at planning applications and appeals is generally outside the scope of legal aid. However, since April 2000, funding can be made available in exceptional cases under section 6(8)*(b)* of the Access to Justice Act 1999, when the relevant criteria are satisfied, for example, where the case concerns the applicant's home. This protects the applicant's fundamental rights and ensures a fair hearing. It is not possible to give a precise figure for total costs but, since April 2000, a maximum of £45,000 plus VAT (excluding Legal Help costs) has been spent on planning applications in relation to Traveller encampments. The costs over the last five years break down as follows.

	£
April 2001-March 2002	14,600 plus VAT
April 2002-March 2003	7,000 plus VAT
April 2003-March 2004	0
April 2004-March 2005	23,644 plus VAT

According to our records, legal aid has been granted to the Community Law Partnership for representation in 16 such cases. We do not know whether all these cases have concluded.

The Ormiston Children and Families Trust and the Fenland Citizens Advice Bureau has received a Partnership Initiative Budget grant to pilot the provision of information and advice services on social welfare law specifically to Gypsies and Travellers in Cambridgeshire. LSC funding amounted to £5,050 in 2003–04 and £17,200 so far in 2004–05.

The eligibility criteria for legal aid for Gypsies and Travellers are the same as for other individuals in England and Wales.

Allowances are given within the financial eligibility tests for civil legal aid to disregard equity held in a homeowner's principal home up to a limit of £100,000, in addition to payments for a mortgage of up to £100,000.

No member of staff at the Department for Constitutional Affairs deals solely with issues relating to Travellers.

Population Censuses

Mr. John Taylor: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the Registrar General was permitted to retain the 1921 to 1971 decennial population censuses for England and Wales during the period 1997 to 2004 in his Department for renewable periods of 10 years. [220594]

Mr. Leslie: Decennial population censuses for the period from 1921 to 1971 are approved for retention in the responsible department under section 3(4) of the Public Records Act 1958. The Lord Chancellor's Retention Instrument number 38 (signed in 1996) approves retention of the 1921 and 1951 censuses. The Lord Chancellor's Retention Instrument number 63 (signed in 2001) approves retention of the 1961 and 1971 censuses. There are no surviving decennial population census records for 1931 and no census was taken in 1941.

Court Disputes Targets

Mr. Bercow: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what recent progress has been made towards the public service agreement target to reduce the proportion of disputes that are resolved by the courts; [219144]

(2) what recent progress has been made towards the public service agreement target to reduce unnecessary delay and cost in the legal system; [219145]

(3) what recent progress has been made towards the public service agreement target to increase year on year the level of satisfaction of users by taking speedy, high quality decisions in the legal system and ensuring that outcomes are enforced effectively; [219146]

(4) what recent progress has been made towards the public service agreement target to increase year on year the number of people who receive suitable assistance in priority areas of law involving fundamental rights or social exclusion; [219151]

(5) what recent progress has been made towards the public service agreement target to modernise the constitution and ensure proper access to information by citizens; [219152]

(6) what recent progress has been made towards the public service agreement target to deliver justice in partnership with the independent judiciary; [219153]

(7) whether the public service agreement target to increase value for money from the criminal justice system by 3 per cent. per year was met in 2004; [219154]

(8) whether the public service agreement target to increase efficiency in the criminal justice system by at least 2 per cent. a year, including the delivery of legal aid, was met in 2004. [219155]

Mr. Leslie: Progress against these targets is set out in the Department for Constitutional Affairs' autumn performance report (Cm 6391) which was presented to Parliament in December 2004.

Mr. Bercow: To ask the Parliamentary Secretary, Department for Constitutional Affairs what recent progress has been made towards the Public Service Agreement target to reduce public fear of crime and antisocial behaviour. [219156]

Mr. Leslie: Plans to deliver this Public Service Agreement target, which was announced as part of the 2004 Spending Review and come into effect on 1 April 2005, are currently being developed. Progress will be covered in the Departmental Report 2005 and the Autumn Performance Report 2005 both of which will be laid before Parliament later this year.

Mr. Bercow: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what recent assessment he has made of whether the Public Service Agreement target to increase the proportion of care cases being completed in the courts within 40 weeks by 10 per cent. by 2009–10 will be met; [219159]

(2) what recent progress has been made towards the Public Service Agreement target to achieve earlier and more proportionate resolution of legal problems and disputes; [219160]

(3) what recent progress has been made towards the Public Service Agreement target to increase advice and assistance to help people resolve their legal disputes earlier and more effectively; [219161]

(4) what recent progress has been made towards the Public Service Agreement target to increase the opportunities for people involved in court cases to settle their disputes out of court; [219162]

(5) what recent progress has been made towards the Public Service Agreement target to reduce delays in resolving those disputes that need to be decided by the courts; [219163]

(6) what recent progress has been made towards the Public Service Agreement target to enable the development of democratic institutions of Government that command public confidence; [219164]

(7) what recent progress has been made towards the Public Service Agreement target to create a modern, efficient and effective Department that has the capacity and capability to deliver excellent public services. [219165]

Mr. Leslie: Plans to deliver these Public Service Agreement targets and Strategic Objectives, which were announced as part of the 2004 Spending Review and come into effect on 1 April 2005, are currently being developed. Progress will be covered in the Departmental Report 2005 and the Autumn Performance Report 2005 both of which will be laid before Parliament later this year.

CULTURE, MEDIA AND SPORT

Gambling

Mr. Cummings: To ask the Secretary of State for Culture, Media and Sport how many meetings *(a)* officials and *(b)* Ministers in her Department have held with foreign based casino operators in the last 18 months; what the date of each meeting was; and who the attendees were. [219805]

Mr. Caborn: Since the publication of the report of the Gambling Review Body (Cm 5206) in July 2001, the Department has undertaken a very extensive programme of consultations with interested bodies about options and proposals for changes to gambling law in Great Britain. There have been two formal public consultations, the first on the Review Body's report and the second on the draft clauses published for pre-legislative scrutiny in November 2003.

In addition to these consultations the relevant Government Departments have corresponded with and met individual companies (including those who have expressed an interest in trading in Great Britain as well as those already doing so), trade associations, charities and other bodies concerned with problem gambling or who benefit from lotteries, local authorities, trade unions, law enforcement agencies, academics and many other bodies and individuals, including members of the public, with an interest. These contacts, designed to ensure that the Government's policy proposals are sound and take full account of all relevant benefits, costs and risks, have involved both Ministers and officials. All such contacts are conducted in accordance with the Ministerial Code and the Civil Service Code.

Departmental Policies

Geraint Davies: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical evidence relating as closely as possible to Croydon, Central, the effects of the Department's policies and actions on Croydon, Central constituency since 1997. [220384]

Mr. Caborn: The Department's aim is to improve the quality of life for everyone through cultural and sporting activities, to support the pursuit of excellence and to champion the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on Croydon, Central since 2 May 1997.

In order to achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. In 2002 we launched the first ever comprehensive national physical education, school sport and club links strategy with an investment of £459 million. Two school sport partnerships involving eight School Sport Co-ordinators and 36 Primary Link teachers is based in Croydon, Central. They have received two Sport England grants totalling £678,454. To achieve our challenging targets for increased participation in sport and physical activity, we have invested in thousands of new and refurbished public sports facilities. Sports facilities in Croydon, Central have benefited from three Sport England Lottery grants totalling £3,018,850.

We have increased our national funding to the arts in real terms by 60 per cent. from £199 million in 1998–99 to £367 million in 2004–05. Between 1998–99 and 2003–04 Arts Council England, London grants increased from £13.6 million to £133.8 million, including from 1 April 2003 funding to major national arts organisations in London. In 2005–06 the total Arts Council England investment in London will be £151.6 million. Croydon, Central has benefited from grants to arts projects, organisations and individuals, including the Croydon Clocktower.

Young people in Croydon, Central benefit from the London Youth Music Action Zone, known as Sound Connections. Since 2000, the Action Zone has been awarded three grants totalling £1,245,000, and so far it has successfully engaged over 2,000 young people in music-making opportunities.

Culture Online was launched in 2002 to increase access to, and participation in, arts and culture. Many of its projects are aimed at children of school age and at audiences that might not otherwise participate in arts and culture, including those who do not easily have access to arts and culture, people from deprived communities and people with particular educational or physical needs. People in Croydon, Central will be

among those who benefit from Culture Online. Between 2002 and 2004, £13 million was allocated to fund 20 Culture Online projects.

Croydon, Central also benefits from the Renaissance in the regions museums initiative. The London Museums Hub in partnership with several museums, including Croydon Museum, is working with local refugee groups on an exhibition to be displayed in the museum or a local community centre.

Through our commitment to public service broadcasting we have helped to foster an environment in which a creative, commercially successful broadcasting industry provides a wide range of UK-made, high quality original programmes catering for all viewers and listeners. We have ensured a secure funding base for the BBC and Channel 4, while giving them the freedom to develop commercial operations which complement and support their public service remit. The Communications Act 2003 includes provisions to ensure that public service broadcasting will continue to have a key role to play in the digital future.

Our support for, and promotion of, the film and broadcasting industries have contributed to the general success of film-making and television activity in the Croydon area. FilmLondon have funded a number of film related activities in the Croydon, Central constituency including £1,000 towards the Croydon Film Festival in 2001–02 and £7,000 to the Croydon Film Fund between 2001–03.

In November 2000 we introduced free television licences for people aged 75 or over. Information on the number of beneficiaries by constituency is not available. However, according to Department for Work and Pensions records, the number of households in Croydon, Central with at least one person aged 75 or over claiming the winter fuel payment in 2003–04 was 5,715.

We have changed the licensing laws to allow people to hold and attend commercial dances on Sunday, to make it easier for restaurants to open an hour later, and to relax the alcohol licensing hours from 11 pm on New Year's Eve to 11 am on New Year's Day in all future years; and we have given the police greater powers to take action against under-age drinking and disorderly and noisy licensed premises. The Licensing Act 2003, when fully implemented, will introduce a streamlined, consistent and fair licensing regime for the provision of alcohol, public entertainment and late night refreshment. It will provide greater choice for consumers, bring regeneration and increased employment opportunities and protect local residents whose lives have been blighted by disturbance and antisocial behaviour.

The Gambling Bill will, when implemented, transfer responsibility for licensing gambling premises to local authorities. Local people and businesses will be able to make representations about applications for licenses and local authorities will be able to decide not to issue licenses for casino premises. These changes will give local communities, including those in Croydon, Central, a greater say in the regulation of gambling in their area.

Tourism in Croydon, Central has benefited from Government-funded marketing activity. In April 2003 we established VisitBritain with a new domestic marketing remit for England, and we gave strategic responsibility for tourism development to the Regional Development Agencies, including the London Development Agency. These changes, together with VisitBritain's successful marketing activities in promoting Britain abroad as an attractive tourist destination, benefit all parts of the country, including Croydon, Central.

English Heritage has awarded grants worth £217,367 to Croydon, Central since 2 May 1997, including £100,637 to the Church of St John the Baptist from 2002 to 2004 and £81,000 to St Peter's Church from 2003 to 2004.

In common with all those in the United Kingdom, the public library branches in Croydon, Central constituency are connected to the internet through the People's Network which was funded through a £120 million Lottery grant and which has put all the United Kingdom's public libraries on-line. In addition, the Department is funding the Museums, Libraries and Archives Council with £5 million over three years to implement the Framework for the Future Action Plan and Library Improvement Programme, which is designed to encourage improvement across the public libraries sector in England.

The Department has been an energetic advocate of the community and informal learning value of public libraries. Croydon Council has recognised this value and took part in an initiative called the Croydon Online Community Network. This enabled some libraries—two of them in Croydon, Central—to be connected to the Croydon Online Network and the creation of a Croydon Job Mart website and a Croydon Health Information Network. Housebound users were also enabled to connect to the internet. The project received a total award of £128,000 from the DCMS/Wolfson Public Libraries Challenge Fund in 1998–99. A proportion of this was of benefit to libraries in the Croydon, Central constituency.

In 2003 the London Borough of Croydon were successful at stage one of the application process for PFI credits, and were allocated £4.6 million on a provisional basis for the Ashburton Learning Village project, which incorporated a new branch library, support for an improved household library service, and music service. This will be of direct benefit to residents within the Croydon, Central Constituency.

Information from the National Lottery distributors indicates that since 2 May 1997 Croydon, Central has benefited from 221 awards totalling just under £13 million. Of these, 47 awards worth over £5.6 million were made by the New Opportunities Fund which was established by the Government in 1999. The New Opportunities Fund merged with the Community Fund in June 2004 to form the Big Lottery Fund.

Digital Broadcasting

Mr. John Taylor: To ask the Secretary of State for Culture, Media and Sport pursuant to the answer of 21 February 2005, *Official Report*, columns 237–38W,

on Digital Broadcasting, what the technical restraints on DTT transmissions from the Sutton Coldfield transmitter are. [219657]

Estelle Morris: Viewers in Solihull will be receiving their conventional television signals from the main Sutton Coldfield transmitter. Sutton Coldfield does broadcast the full range of digital services, but congestion of the spectrum means that their coverage currently has to be limited to avoid causing interference to viewers of analogue television services.

Although many viewers in the West Midlands are able to receive digital services from Sutton Coldfield, the coverage restrictions result in patchy digital coverage in and around Solihull.

At switchover, these restrictions will be removed and enable the coverage of the digital services to be increased to ensure that everyone who can currently get the main public service broadcasting channels in analogue form (BBC 1 and 2, ITV, Channel 4/S4C and Channel 5) can receive them on digital systems.

Growth Areas (Funding)

Phil Sawford: To ask the Secretary of State for Culture, Media and Sport what funding her Department has earmarked for growth areas to ensure that they have the resources required to meet the demands of a growing population. [218334]

Mr. Caborn: The majority of the Department's funding is delegated to its non-departmental public bodies. We have not, therefore, earmarked any direct funding for the growth areas although we do recognise that culture has a vital contribution to make to them and are working closely with the Office of the Deputy Prime Minister. We have also encouraged our NDPBs to engage with local delivery vehicles and local regeneration partnerships within the growth areas and they are actively involved in a number of pieces of work including:

the joint funding of a Cultural Coordinator for the North Kent section of the Thames Gateway by Culture South East, Arts Council England South East, Sport England South East, South East England Museum and Library Archive and Tourism South East. The Coordinator will work with these agencies and other partners to ensure a strategic and coordinated approach to the development of cultural provision with Thames Gateway North Kent;

the development of cultural guidance for development bodies within the Milton Keynes South Midlands Growth Area. This work, due to be published on 15 March, has been coordinated by Culture South East, Living East and Culture East Midlands working with English Heritage, Sport England, Arts Council England, Tourist Boards, the Museums, Libraries and Archives Council, regional bodies advising on architecture and the built environment, and screen and media agencies from within the three regions as well as Government offices and local authorities.

Libraries

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how much was spent on library *(a)* buildings and *(b)* books in Greater London in each year since 2001–02. [220180]

Estelle Morris: The following information shows the funds spent on library premises and books in Greater London.

This information derives from the Annual Public Library Statistics published by the Chartered Institute of Public Finance and Accountancy (CIPFA). 2002–03 is the latest data available. Because of the way the statistics are calculated and presented, the books figure also includes the purchase of pamphlets.

Funds spent on library premises in Greater London

	£
2001–02	17,818,383
2002–03	20,183,505

Funds spent on books in Greater London

	£
2001–02	13,222,992
2002–03	13,196,648

Licensing Act

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport (1) what recent representations she has had from amateur sports clubs regarding the implementation of the Licensing Act 2003; [220099]

(2) what recent representations she has had from the police regarding the implementation of the Licensing Act 2003; [220100]

(3) what recent representations she has received from alcohol abuse charities regarding the implementation of the Licensing Act 2003; [220162]

(4) what recent representations she has had from religious groups regarding the implementation of the Licensing Act 2003; [220165]

(5) what recent representations she has received regarding the implementation of the Licensing Act 2003. [220279]

Mr. Caborn: There have been two recent public consultations on *(a)* draft Regulations and an Order under the Licensing Act 2003 which took place between 15 September and 10 November 2004, and *(b)* draft fee regulations under the 2003 Act which took place between 4 November and 23 December 2004.

In respect of *(a)* we received 269 responses from 230 public bodies, organisations and individuals, some of which responded more than once. These included two from amateur sports clubs; 10 from police forces including one from their representative body (the Association of Chief Police Officers); 0 from alcohol abuse charities; and 0 from religious groups. We also received a response from a Member of Parliament on behalf of The National United Temperance Council.

In respect of *(b)* we received 427 responses, including 97 from amateur sports clubs and their representative bodies; one from a police force and one from ACPO; 0 from alcohol abuse charities; and 0 from religious groups.

Since these consultations ended we have received correspondence from a wide range of groups and individuals including from sports clubs and their representative bodies, individual police officers, individuals from the field of alcohol abuse charities, and from those representing religious groups. This correspondence has primarily concerned the level at which fees have been set and the potential impact of 24 hour opening.

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport how many extended licences have been issued since the implementation of the Licensing Act 2003; and if she will make a statement. [220164]

Mr. Caborn: 7 February marked the start of the transition from the old licensing regimes to the arrangements under the Licensing Act 2003. However, the 2003 Act will not be fully implemented until November 2005. It is therefore too soon to say how many licences have been issued varying the hours of operation.

Lottery Funding (Travellers)

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport if she will list the Traveller community groups and organisations that have received Lottery funding since May 1997. [219951]

Estelle Morris: The following lists all successful Lottery awards that have been granted to groups that feature the words 'Traveller' or 'Gypsy' in their name, or in project description. This does not mean that all the groups listed are Traveller groups or organisations.

Ackworth Concert Society
Action Group For Irish Youth
Advisory Council—Education of Romany and Other Travellers
An Tearmann Playgroup
An Tearmann Project
BIAS Brent Irish Advisory Service
Bagworth Forward Group
Belfast Public Libraries

Wrexham Catholic Forum for Traveller Children

Wroughton Infant School

York Travellers Trust

Young Travellers Education Project

This information is available from the Department's searchable Lottery award database at www.lottery.culture.gsi.gov.uk, which uses information supplied by the Lottery distributors.

MadforArts Project

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport on what occasions the MadforArts Advisory Panel has met since its formation; who attended the meetings; if she will publish the *(a)* minutes and *(b)* accounts of expenses claimed for each meeting; and if she will make a statement. [219419]

Estelle Morris: The MadforArts Advisory Panel has met only once, on 6 September 2004. Eight members of the panel attended, plus one support person and four staff from the MadforArts team. The Advisory Panel has an informal advisory role and no minutes were taken, nor are there any published expense accounts. The costs involved for the meeting were £1,011.23. The next meeting is due to be held on 10 March 2005.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how much public funding the MadforArts Advisory Panel *(a)* received and *(b)* allocated in the last year for which figures are available; and if she will make a statement. [219420]

Estelle Morris: The MadforArts Advisory Panel does not receive or allocate any public funding. Its only costs are expenses for panel meetings.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what mechanisms have been put in place to invite feedback about the MadforArts project; and if she will make a statement. [219421]

Estelle Morris: There are a large number of ways in which users of the MadforArts website are encouraged to provide feedback. These include:

opportunities throughout the site for users to contact managers of the project;

a discussion forum for all users, which includes several threads requesting feedback and future ideas, set up by the project team and three threads set up by the project's users;

opportunities for users to suggest events, articles or features that they would like the website to cover;

regular opportunities for those attending related events to provide feedback and thoughts on the project;

opportunities for users to give their own ideas on the future of the project, and the direction they would like it to take;

a weekly e-mail bulletin to all users which asks for feedback; and

evaluation forms distributed to active users of the project which ask for feedback and suggested improvements.

In addition, all suggestions for improvement that have arisen in the more general debates on the discussion board have also been logged and noted by the project team.

Motorsport

Mr. Paice: To ask the Secretary of State for Culture, Media and Sport what resources are available to assist in the development of karting facilities for young people. [220251]

Mr. Caborn: The Motor Sports Association (MSA)—the UK's governing body for motor sports—is active in supporting the development of karting for young people. In partnership with the National Schools Karting Association, the MSA provides opportunities for young people to experience the sport at events held at karting facilities, which can themselves apply to the Club Development Fund for support on safety infrastructure and equipment.

Furthermore, the development of three international-standard karting tracks in the UK was one of the recommendations to emerge from the Department for Trade and Industry's Motorsport Competitiveness Panel in July 2003. The industry-led Motorsport Development Board, formed to advise on implementing these recommendations, is currently addressing them as part of a "whole sport" approach to widening participation.

Mr. Paice: To ask the Secretary of State for Culture, Media and Sport what resources have been made available to fund motorsport development in each of the last three years; and to which projects it has been allocated. [220252]

Mr. Caborn: Between April 2000 to March 2004, £8,330,644 was made available by the Department for Trade and Industry, Department for Culture, Media and Sport and the regional development agencies for the east of England, East Midlands, south east of England and West Midlands to fund motorsport development.

Using the programme headings subsequently devised by the Motorsport Competitiveness Panel, this funding was allocated to projects for:

Project	£ *Funding allocated*
Motorsport Academy	1,747,000
Motorsport Learning Grid	331,000
Business Development	2,439,144
Widening Sporting Participation	414,000
Energy Efficient Motorsport	94,500
Development of Volunteer Officials	0
Other regional revenue projects	435,000
Other regional capital projects	2,870,000

The same Departments and agencies have also committed £16 million to implement the recommendations of the Motorsport Competitiveness Panel. Between April 2004 to March 2009 a total of £1,751,478 has been provided to first-year development projects for:

Project	£ *Funding allocated*
Motorsport Academy	291,511
Motorsport Learning Grid	300,000
Business development	245,250
Widening sporting participation	350,325
Energy efficient motorsport	326,500
Development of volunteer officials	37,100

Additional funding will be allocated to the delivery of these projects in the following years, subject to the approval of the Motorsport Development Board.

Mr. Paice: To ask the Secretary of State for Culture, Media and Sport when the Department for Trade and Industry Motorsport Competitiveness Panel reported; and what steps have been taken by her Department to implement its conclusion. [220253]

Mr. Caborn: The Motorsport Competitiveness Panel report was published in July 2003. The Motorsport Development Board was subsequently appointed to provide industry and sporting leadership on the five year programme to implement the Competitiveness Panel's recommendations, meeting for the first time in November 2003.

The Board is in the process of producing delivery plans for each of the areas of the Competitiveness Panel's recommendations and to-date it has supported projects under the six broad recommendations: Motorsport Academy, Motorsport Learning Grid, Business Development, Widening Sporting Participation, Energy Efficient Motorsport (EEMS), and Development of Volunteer Officials.

National Lottery

Mr. Whittingdale: To ask the Secretary of State for Culture, Media and Sport if she will list the total amount *(a)* allocated and *(b)* distributed by each of the lottery distribution bodies in each year since 1994. [218569]

Estelle Morris: The figures appear in the following table by calendar years. Those for 1995 incorporate the last few months of 1994, before which the lottery did not operate.

The figures in the 'allocated' columns are available from the Department's searchable lottery award database at www.lottery.culture.gsi.gov.uk, which uses information supplied by the lottery distributors. The figures for 2004 are not yet final due to lags in the reporting process.

The figures in the "distributed" column represent draw-down by the distributors from the National Lottery Distribution Fund (NLDF), and include administrative costs.

Note:

"Allocated" and "distributed" columns naturally differ because many awards are not distributed in the year in which the money is allocated.

"Awards for All" is a joint scheme and not a distributor, so it does not draw down money itself from the NLDF.

The table excludes the lottery proceeds used to fund NESTA (£200 million in 1998 and further £95 million in 2003).

Nightclubs

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport (1) what plans she has to review the procedures for the licensing of nightclubs; [220499]

(2) if she will bring forward proposals to require local authorities to publicise more widely applications for licensing of nightclubs. [220558]

Mr. Caborn: There is no legal definition of "nightclub". The procedures for the licensing of all premises selling alcohol or providing regulated entertainment or late night refreshment were reviewed during the White Paper consultation on licensing and the subject of detailed scrutiny during the Licensing Bill's passage through Parliament. The Licensing Act 2003 and Guidance to Licensing Authorities explain the new procedures and can be read on the Department's website (www.culture.gov.uk). The requirements for advertising applications for the grant or variation or review of premises licences are contained in regulations that are also available on our website. These include the need to display for 28 consecutive days, a legible notice prominently at or on the premises to which the application relates where it can be conveniently read from the exterior of the premises and, in the case of a premises covering an area of more than 50 sq m, a further notice in the same form and subject to the same requirements every 50 m along the external perimeter of the premises abutting any highway; and also to publish a notice in a local newspaper or, if there is none, a local newsletter or similar document at least once during the 10 working days after the application is given to the licensing authority. We do not think that there is a case for further extending the publicising of applications for licences for nightclubs.

Public Service Agreements

Mr. Bercow: To ask the Secretary of State for Culture, Media and Sport (1) what recent assessment she has made of whether the Public Service Agreement target to enhance the take-up of sporting opportunities by five to 16-year-olds so that the percentage of school children in England who spend a minimum of two hours each week on high quality physical education and school sport within and beyond the curriculum increases to 85 per cent. by 2008 will be met; [219959]

(2) what recent assessment she has made of whether the Public Service Agreement target to enhance the take-up of sporting opportunities by five to 16 year olds so that the percentage of school children in England who spend a minimum of two hours each week on high quality physical education and school sport within and beyond the curriculum increases to at least 75 per cent. in each School Sport Partnership by 2008 will be met; [219961]

(3) what recent assessment she has made of whether the Public Service Agreement target to increase the number of adults and young people from priority groups visiting designated historic environment sites by three per cent. by 2008 will be met; [219963]

(4) what recent assessment she has made of whether the Public Service Agreement target to increase the number of adults and young people from priority groups accessing museum and galleries by two per cent. by 2008 will be met; [219964]

(5) what recent assessment she has made of whether the Public Service Agreement target to increase the number of adults and young people from priority groups who attend an arts event at least twice a year by three per cent. by 2008 will be met; [219965]

(6) what recent assessment she has made of whether the Public Service Agreement target to increase the number of adults and young people from priority groups who participate in an arts activity at least twice a year by two per cent. by 2008 will be met; [219966]

(7) what recent assessment she has made of whether the Public Service Agreement target to increase the number of adults and young people from priority groups who engage in at least 30 minutes of moderate intensity level of sport at least three times a week by three per cent. by 2008 will be met; [219967]

(8) what recent assessment she has made of whether the Public Service Agreement target to increase the number of adults and young people from priority groups who participate in active sports at least 12 times a year by three per cent. by 2008 will be met; [219968]

(9) what recent progress has been made towards the Public Service Agreement target to increase the productivity of the tourism, creative and leisure industries by 2008; [219974]

(10) what recent progress has been made towards the Public Service Agreement target to increase participation in culture and sport. [219977]

Mr. Caborn: Public Service Agreement (PSA) targets will replace the Department's existing PSA targets and will run from April 2005–08. Delivery plans are under development for each of the PSA targets and the projects that will support the delivery of the targets.

Mr. Bercow: To ask the Secretary of State for Culture, Media and Sport (1) what recent assessment she has made of whether the Public Service Agreement target to enhance the take-up of sporting opportunities by five to 16-year-olds so that the percentage of school children in England who spend a minimum of two hours each week on high quality physical education and school sport within and beyond the curriculum increases from 25 per cent. in 2002 to 75 per cent. by 2006 will be met; [219960]

(2) what recent progress has been made towards the Public Service Agreement target to increase the take-up of cultural and sporting opportunities by adults and young people from priority groups; [219969]

(3) what recent progress has been made towards the Public Service Agreement target to improve significantly the value for money of her Department's sponsored bodies; [219973]

(4) what recent progress has been made towards the Public Service Agreement target to increase significantly the take-up of cultural and sporting opportunities by new users aged 20 and above from priority groups. [219976]

Mr. Caborn: Information on the Department's performance against its Public Service Agreement targets 2002 was published on 22 December 2004 in the DCMS Autumn Performance Report (Cm 6435). Copies of the report are available in the House Library.

Mr. Bercow: To ask the Secretary of State for Culture, Media and Sport what recent progress has been made towards the Public Service Agreement target to modernise delivery to the customer by ensuring that her Department and its sponsored bodies improve performance and pursue institutional excellence. [219972]

Mr. Caborn: The Department does not have a Public Service Agreement "to modernise delivery to the customer by ensuring that her Department and its sponsored bodies improve performance and pursue institutional excellence." We do however have a PSA target "to improve significantly the value for money of the Department's sponsored bodies, measured by a matrix of NDPB indicators".

Information on the Department's performance against this Public Service Agreement target was published on 22 December 2004 in the DCMS Autumn Performance Report (Cm 6435). Copies of the report are available in the House Library.

Mr. Bercow: To ask the Secretary of State for Culture, Media and Sport what recent progress has been made towards the Public Service Agreement target to develop appropriate regulatory frameworks that protect consumers' interests and improve productivity. [219975]

Mr. Caborn: The Department does not have a Public Service Agreement 'to develop appropriate regulatory frameworks that protect consumers' interests and improve productivity'. We do however have a PSA target 'to improve the productivity of the tourism, creative and leisure industries'.

Information on the Department's performance against this Public Service Agreement target was published on 22 December 2004 in the DCMS Autumn Performance Report (Cm 6435). Copies of the report are available in the House Library.

Southend-on-Sea (Cultural Heritage)

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with English Heritage regarding the cultural and architectural heritage of Southend-on-Sea; and if she will make a statement. [220163]

Mr. Caborn: There have been no discussions between the Department and English Heritage regarding the cultural and architectural heritage of Southend-on-Sea.

Ticket Sales

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of the merits of introducing legislation to control or limit the sale of tickets for *(a)* music concerts, *(b)* music festivals, *(c)* other sporting events and *(d)* the theatre by (i) street based and (ii) online ticket touts. [220314]

Estelle Morris: None in respect of *(a)* , *(b)* or *(d)* . The Criminal Justice and Public Order Act 1994 already prohibits ticket touting at football matches as these raise special public order issues. My right hon. Friend is currently considering what steps she would need to take in respect of ticket touting to meet the requirements of the International Olympics Committee, should we win our bid to host the Olympics in London.

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what representations she has received from the music industry on proposals to introduce legislation to control the sale of tickets for music concerts or festivals *(a)* by street based ticket touts and *(b)* on online auction website. [220315]

Estelle Morris: None.

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport what advice her Department gives to people considering buying tickets for music events from individuals offering such tickets on online auction websites. [220316]

Estelle Morris: We have not been asked to give advice on this issue. Individuals need to decide whether or not in their view the cost is reasonable and represents value for money.

Pete Wishart: To ask the Secretary of State for Culture, Media and Sport if she will meet representatives of the music industry to discuss the operation of the law as it affects the sale of tickets for music events *(a)* by ticket touts and *(b)* on online auction websites. [220317]

Estelle Morris: I understand that following concerns raised by the promoters of the T in the Park Festival, a broader discussion of music industry stakeholders is planned to agree a common position on ticket re-sales by touts. I will of course be happy to consider holding a meeting with representatives of the industry once this has been agreed.

EDUCATION AND SKILLS

Departmental Advertising

Michael Fabricant: To ask the Secretary of State for Education and Skills how many advertising contracts were signed by her Department in the period *(a)* 1 September 2004 to 1 March 2005 and *(b)* 1 September 2003 to 1 March 2004, broken down by (i) television, (ii) radio, (iii) press, (iv) direct mail and (v) other advertising; and what the value was in each case. [218972]

Derek Twigg: All advertising undertaken by my Department is contracted through Central Office for Information (COI).

The information requested is outlined in the following table.

	(a) 1 September 2004 to1 March 2005	*(b) 1 September 2003 to1 March 2004*
(i) TV	747,781	—
(ii) Radio	994,658	853,921
(iii) Press	1,072,916	2,096,936
(iv) Direct mail	—	—
(v) Other	575,984	385,441

All financial information is exclusive of VAT.

Departmental Catering

Mr. George Osborne: To ask the Secretary of State for Education and Skills how many departmental *(a)* canteens and *(b)* bars there are; and how much has been spent on the (i) running, (ii) staffing and (iii) supply costs of each in each year since 1997. [213623]

Derek Twigg: The Department for Education and Skills has a total of five staff restaurants and one bar in its five headquarter buildings. The staff restaurants are operated by catering contractors whilst the bar is run by its members as a private club. The cost of providing these canteen facilities since 1997 is as follows:

	£
1997–98	n/a
1998–99	111,766
1999–2000	130,437
2000–01	119,541
2001–02	99,794
2002–03	13,500
2003–04	35,000

n/a = Not available

A breakdown by (i) running, (ii) staffing, (iii) supply costs of each year could be provided only at disproportionate cost.

Disabled Facilities Grant

Mr. McNamara: To ask the Secretary of State for Education and Skills (1) what input she has had to the review of the disabled facilities grant; [218843]

(2) how much her Department contributed towards vital housing adaptations for disabled children in each of the past three years. [218844]

Margaret Hodge: DfES is working with ODPM and DH as one of the three government departments undertaking the review of the disabled facilities grant. ODPM is the lead department in the review.

Information is not collected centrally on contributions towards housing adaptations. The Chartered Institute of Public Finance Accountants holds information on expenditure by personal social services. CIPFA makes no distinction between children and adults when collecting information on adaptations which it lists together with information on equipment expenditure.

"Actual expenditure" for 2001–02 and 2002–03 for 'Equipment and Adaptations' was £62,716,000 and £57,063,000 respectively, across 'Physical Disability or Sensory Impairment' and 'Learning Disabilities'. "Estimated expenditure" for 2003–04 is £63,924,000. DfES contributes to these funds but exact figures for children and adaptations are indeterminable due to the way information is collected.

Child Care (Easington)

Mr. Cummings: To ask the Secretary of State for Education and Skills how many child care places there were in the Easington constituency in each of the last three years; and what the occupancy rates were in each year. [214928]

Margaret Hodge: The information is not available in the form requested. The available information on child care places and nursery education places is shown in the tables.

The available information on child care places, for Durham local authority area, is shown in table 1.

Table 1: Number[1,2] of registered child care places for children under eight years of age by type of care—Durham local education authority area—position at 31 March each year—2003 and 2004

Type of care	2003	2004
Full day care	2,300	2,800
Sessional day care	1,400	1,400
Child minders	3,100	3,400
Out of school day care	4,700	1,900
Crèche day care	500	500

[1] Rounded to the nearest 100 places.
[2] Data Source: Ofsted

The figures for 2003 and 2004 were derived from the Ofsted database of registered child care providers. There are no figures for 2002.

Figures for the ratio of enrolments to places were published in the overview report on the "2002/03 Childcare and Early Years Workforce survey", which is available on the sure start website, www.surestart.gov.uk. The figures for full day care, sessional day care (playgroups), out of school clubs and child minders were 1.47, 1.43, 0.97 and 0.87 respectively.

With the introduction of the National Day Care Standards and the transfer of responsibilities for registration and inspection of childcare providers from Local Authority Social Service Departments to Ofsted in September 2001, child care places were classified according to the type of day care provided: full day care, sessional day care, child minder, out of school day care or crèche day care. Ofsted have produced figures based on this classification on a quarterly basis from March 2003. Their latest figures were published on 19 January 2005 in their report "Registered Childcare Providers and Places, 31 December 2004", which is available on their website, www.ofsted.gov.uk/publications.

The available information on nursery education places, for Durham local authority area, is shown in tables 2 and 3.

Table 2: Number of free nursery education places[1] taken up three and four-year-olds Durham local education authority area—position in January each year

	2002	2003	2004
3-year-olds			
Maintained nursery and primary schools[2]	3,800	3,500	3,400
Other maintained and private, voluntary and independent providers	[3]940	[3]980	[4]1,000
Total 3-year-olds	4,700	4,500	4,400
4-year-olds			
Maintained nursery and primary schools[5]	5,200	5,100	4,800
Other maintained and private, voluntary and independent providers	[6]300	[7]380	[8]400
Total 4-year-olds	5,500	5,500	5,200

[1] Figures are rounded to the nearest 10 or 100 as appropriate.
[2] Headcount of children aged three at 31 December in the previous calendar year from the Annual Schools' Census.
[3] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the nursery education grant data collection exercise.
[4] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.
[5] Headcount of children aged four at 31 December in the previous calendar year from the Annual Schools' Census.
[6] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the nursery education grant data collection exercise.

[7] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census supplementary data collection exercise and the Annual Schools' Census.
[8] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.

Table 3: Number of free nursery education places[1] taken up three and four-year-olds by parliamentary constituency—Durham local education authority area—position in January 2004

Constituency	3-year-olds: Maintained nursery and primary schools[2]	3-year-olds: Other maintained and private, voluntary and independent providers[3]	Total 3-year-olds
Bishop Auckland	580	220	800
City of Durham	460	280	740

LEA total	4,800	400	5,200

[1] Figures are rounded to the nearest 10 or 100 as appropriate.
[2] Headcount of children aged three at 31 December in the previous calendar year from the Annual Schools' Census.
[3] Part-time equivalent number of children aged three at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.
[4] Headcount of children aged four at 31 December in the previous calendar year from the Annual Schools' Census.
[5] Part-time equivalent number of children aged four at 31 December in the previous calendar year from the Early Years Census and the Annual Schools' Census.
[6] Constituency does not include figures from providers within Darlington LEA

Fire Safety (Schools)

Ms Walley: To ask the Secretary of State for Education and Skills what precautions for fire safety are required in the design of new school buildings; what plans she has for mandatory fire sprinklers; and if she will make a statement. [218607]

Derek Twigg: Since April 2001, all new building work at schools has been subject to the Building Regulations. With regard to fire safety, the design of new school buildings must comply with Part B of the Regulations.

The Building Regulations do not require the installation of sprinkler systems in schools, but this does not prohibit local education authorities from specifying their use. Currently the Office of the Deputy Prime Minister is carrying out a review of the fire safety aspects of the Building Regulations and its accompanying guidance Approved Document B. The review will include schools and it should be completed early in 2006. The decision on whether or not to install sprinklers in new schools needs to be taken locally. For example, in the Department's Managing School Facilities Guide 6, "Fire Safety", we give the example of a school in an area of high arson risk as being a suitable candidate for their installation see www.teachernet.gov.uk/fire. However, we are mindful of the need to provide more detailed advice than before and have produced new draft guidance—"Designing and Managing Against the Risk of Fire in Schools". This stresses the value of using risk assessments to determine what sort of fire detection and alarm systems should be used in a new school, and whether or not sprinklers should be installed. This advice will be subject to public consultation, which will commence shortly, and we expect to publish it in the early autumn.

GCSEs

Mr. Amess: To ask the Secretary of State for Education and Skills if she will make a statement on the quality of the GCSE exam. [220277]

Mr. Stephen Twigg: The GCSE is an internationally known and respected qualification. The White Paper, 14–19 Education and Skills makes clear that we will preserve and strengthen it in the future.

Revealweb

Mr. Hoban: To ask the Secretary of State for Education and Skills what support the Department plans to provide for Revealweb: the National Database of Accessible Resources after March 2006. [218477]

Margaret Hodge *[holding answer 28 February 2005]:* The Department of Culture Media and Sport, through the Museums Libraries and Archives Council, supported the establishment of Revealweb with a grant of £100,000 per year for three years (2003/04;2004/05;2005/06). It was made clear that funding was to cease after 2005/06 and that it would become the responsibility of the managers of Revealweb, to sustain the project thereafter.

The Department for Education and Skills (DfES) has set up a link between the Reveal website and the DfES special educational needs (SEN) inclusion site. We have also publicised Reveal in our regular SEN update, which is available free on subscription.

The DfES is not planning to provide any financial support for Revealweb. We are already providing substantial funding—over £600 million—to schools, colleges and universities to improve access to education, including access to the curriculum.

Special Educational Needs

Mr. Berry: To ask the Secretary of State for Education and Skills (1) what steps her Department is taking to publicise the options available to parents who do not believe their child's school is compliant with the Special Educational Needs and Disability Act 2001; [217658]

(2) when the Government plans to review the implementation of the Special Educational Needs and Disability Act 2001 in schools; [217659]

(3) what steps the Government is taking to ensure that all schools become compliant with the Special Educational Needs and Disability Act 2001; [217660]

(4) what measures are in place to assess whether the accessibility plans produced by schools under the Special Educational Needs and Disability Act 2001 are meeting the needs of all disabled children; [217661]

(5) how many schools are complying with the duty under the Special Educational Needs and Disability Act 2001 to produce accessibility plans. [217662]

Margaret Hodge: The Special Educational Needs and Disability Act 2001 amended both the Education Act 1996 and the Disability Discrimination Act 1995. To help schools, local education authorities and others meet their amended special educational needs (SEN) duties under the Education Act 1996 the Department published the Special Educational Needs Code of Practice (2001). To help schools meet their duties under part 4 of the amended Disability Discrimination Act, the Disability Rights Commission produced a Code of Practice in 2002. The Code of Practice explains, and provides guidance on, the duties schools have not to discriminate, without justification, against children for a reason related to their disabilities and to make reasonable adjustments to prevent discrimination. In June 2002 the Department for Education and Skills issued separate guidance to schools on carrying out their duty to draw up and publish plans for improving access to disabled pupils.

The Department for Education and Skills has made widely available a guide for parents and carers on the Special Educational Needs Code of Practice. The Disability Rights Commission provides advice to parents and schools on disability discrimination and runs a dedicated telephone help line. Parents have the right to appeal to the SEN and Disability Tribunal and admissions appeal panels if they think their children have suffered discrimination or if they disagree with the decisions of their local education authority about their child's special educational needs. The Tribunal has made available to parents publications explaining their rights of appeal, how they can make an appeal, and what this entails.

The Office for Standards in Education (OfSTED) consider how well schools are meeting the needs of children with special educational needs as part of their inspections; they consider how schools are complying with their duty to produce accessibility plans and the quality of those plans. OfSTED's recent survey reviewing the implementation of the revised inclusion framework introduced as a result of the Special Educational Needs and Disability Act 2001, "Special Educational Needs and Disability—towards inclusive schools," found that schools had a growing awareness of the benefits of inclusion and that there had been some improvements in practice. It also identified the need for further progress, for example, of the schools surveyed around 50 per cent. had produced a disability access plan. OfSTED recognised that the broad and sustained programme of action under the SEN strategy "Removing Barriers to Achievement" (February 2004) is designed to bring about improvements to the provision for children with learning difficulties and disabilities. The programme includes the development of practical resources for schools that should help them to comply fully with their duties under part 4 of the Disability Discrimination Act.

Miss McIntosh: To ask the Secretary of State for Education and Skills if she will make a statement on delivering special needs education in North Yorkshire. [218053]

Margaret Hodge: Delivery of special needs education within North Yorkshire is a matter for determination by the local education authority (LEA) within the framework of law and guidance issued by Government. It is an essential function of every LEA to make effective arrangements for special educational needs (SEN) by ensuring that the needs of pupils are identified and assessed quickly and matched by appropriate provision. Under section 315 of the Education Act 1996, LEA arrangements for SEN must be kept under review.

Monitoring of standards in schools and LEAs including SEN provision, is the responsibility of Ofsted, who undertake regular inspections within a framework agreed between the Secretary of State and Her Majesty's Chief Inspector.

Specialist Schools

Dr. Tonge: To ask the Secretary of State for Education and Skills what proportion of the Specialist Schools grant-in-aid from her Department was spent on developing overseas networks in the last period for which figures are available. [218956]

Mr. Stephen Twigg: 1.5 per cent. of the grant-in-aid made available to the Youth Sport Trust in 2004–05 covered opportunities for designated specialist schools to engage in international professional development. None of the grant-in-aid made available to the Specialist Schools Trust is used for this purpose.

Student Loans

Mr. Challen: To ask the Secretary of State for Education and Skills in how many cases the Student Loans Company has accepted mitigating circumstances when reassessing unreturned annual review forms in each of the last five years; and in how many cases appeals were rejected in each year. [219863]

Dr. Howells: The Repayment of Teachers' Loans scheme was created in 2002 on a three-year pilot basis. It is administered on my right hon. Friend's behalf by the Student Loans Company in accordance with the Education (Teacher Student Loans) (Repayments etc.) Regulations 2003.

In 2002/03, a total of 88 appeals against exclusion from the scheme were considered but rejected by the Student Loans Company. In 2003/04, 91 appeals were rejected. The company is unable to provide information on how many rejections involved cases of unreturned annual review forms.

Sure Start

Jim Knight: To ask the Secretary of State for Education and Skills if she will make a statement on the effects of the Sure Start programme in Weymouth and Portland. [215523]

Margaret Hodge: The Weymouth and Portland Sure Start local programme was approved in 2002 and supports around 800 children and their families living in Littlemoor, Melcome Regis, Westham and Underhill

vards. The programme has been allocated a total of 2,306,719 revenue funding and £1,000,000 capital unding from its inception up to the end of 2005/06.

The programme delivers a wide range of services to upport local families including: occupational therapy, ounselling services; health and social services, respite are for parents, individual support for children dentified as needing developmental help and training in oth parenting skills and basic education.

Since opening, Sure Start Weymouth and Portland as helped improve the quality of life for local families. All new parents are contacted within the first two nonths of the birth of their baby by a qualified Sure tart project worker. The percentage of children dentified with speech and language development delay as been found to be much higher than the national verage (37 per cent. as opposed to the national 20 per ent.) and these children and their parents are now rovided with one-to-one help both at home and hrough support when they attend pre-school. Local chools and parents are beginning to report much better evels of overall development, including speech and anguage development, when children go on to full ime education.

Local health visitors advise the local programme of all vomen identified with post natal depression. These vomen are offered a range of help, depending on their eeds, either from local health services or from the Sure tart Local Programme which can include one-to-one upport.

Recent Sure Start Unit monitoring reports show that he programme is in contact with 544 of the 794 children n their area. The programme has strong parental articipation both in the management board, which has 0 parent representatives (up from three since 2000); nd in activities where parents act as volunteers, ncluding two parents who are involved in local valuation of the programme with Bournemouth Jniversity.

Mr. Stinchcombe: To ask the Secretary of State for Education and Skills if she will make a statement on the ffects of the Sure Start programme in the constituency f Wellingborough. [216684]

Margaret Hodge: There is one Sure Start Local rogramme (SSLP), one Neighbourhood Nursery (NN) nd one children's centre (CC) in it's planning stages n Wellingborough.

The Wellingborough Sure Start local programme was pproved in 2003 and supports around 730 young local hildren and their families living in the catchment area. t has an indicative allocation of £1,075,000 capital rant, all of which has been approved and has received evenue of £700,000 in 2004/05, and will receive 768,752 in 2005/06 and £768,752 in 2006/07. The atchment area comprises three separate estates which ach form part of three wards—Queensway, Croyland Kingsway) and Hemmingwell. The programme elivers a wide range of services to support local amilies including:

continuity of care and midwifery support

health advice and parenting support for child development and behaviour issues

joint working at clinics e.g. a parent support group running at a health visitor clinic

Children's Information Service to provide information about Sure Start area

Mobile Toy library linking up with existing Parent and Toddler groups

Playgroup activities, continuous throughout holidays

Flexible childminders

Speech and language therapy

Since opening, Sure Start Wellingborough has helped improve the quality of life for local families. Local health visitors report back to the local programme on all women identified with post natal depression—including specific referral to the Sure Start programme to provide support. The programme funds a HomeStart worker to train and support an increased number of volunteers. There are four support groups currently running weekly where there are quality play activities and support for parents. A new group is starting in 2004/05 specifically for teenage parents. Groups which will run for specific periods of time are: Speakeasy (helping parents to talk about sex appropriately with their children), Parentzone (parenting course), EarlyStart (adult literacy and numeracy with activities with their children).

Health visitors aim to visit all children within two months of birth and give parents information about Sure Start services. Visit or contact is offered to all parents/carers not seen in the preceding three months. "Roadshows" taken round to all three estates on a rolling programme provide information on aspects of parenting and respond to requests from parents for information. This five week programme deals with a theme each week which corresponds to one of the Sure Start objectives . The SSLP health visitor and midwife also provide outreach services.

As a recently approved round 5 Sure Start Programme, Wellingborough have only recently been required to submit reach data, however recent Sure Start Unit monitoring reports show that the programme is seeing 122 of their 729 children (17 per cent.) each month, and saw 11 per cent. new children in September 2004 as well as visiting 89 per cent. of new babies in the catchment area within the first two months of their lives.

The programme has recognised the need to broaden parental consultation to all .families. They have employed community development workers to work with parents in setting up the forum and continuing consultation.

The Croyland Neighbourhood Nursery is the only one in the constituency and opened as a 42 place nursery in March 2004. The nursery was awarded £202,851 revenue funding up until 2007, and also received a one off capital grant of £175,000 from the Big Lottery Fund. It is part of the planned children's centre and based on a school site.

The children's centre will bring together the SSLP and the NN and also includes a maintained nursery school and a pre school. The centre has an indicative allocation of £80,000 revenue from 2004–06 with a total indicative capital allocation of £350,000. The Croyland Centre will be situated in Croyland Ward and will work closely with the SSLP to provide integrated daycare and education. Centre managers are currently negotiating provision at

both sites with the Primary Care Trust and Lifelong Learning. The Sure Start midwife is already working with a community midwife to provide ante-natal care on all three Sure Start estates. Family support will also be available on both sites, with the exact nature of this dependent on the expressed needs of the families. A pre-school in the town will be extended to provide a further 24 daycare places.

Dr. Starkey: To ask the Secretary of State for Education and Skills what assessment she has made of the effects of the Sure Start programme in Milton Keynes. [216694]

Margaret Hodge: The Milton Keynes Sure Start local programme was approved on 8 August 2001 and supports around 800 children under 4 and their families living in Stony Stratford, Wolverton and Bradwell Abbey. The programme delivers a wide range of services to support local families including: outreach and home visiting; home start; training courses for parents e.g., assertiveness training, book start and a food co-op.; Asian Women's Group; and Urdu help line.

Since opening, Sure Start Milton Keynes has helped improve the quality of life for local families. For example the programme report that: the percentage of women breastfeeding at birth has risen from 45 per cent. in 2002–03 to 67 per cent. in 2003–04. Recent Sure Start Unit monitoring reports show that the programme saw an average of 42 per cent. of children in the Sure Start area each month between September 2003 and September 2004. The programme visits all new babies in the first two months of life. The programme has strong parental participation; the management board has five parent representatives.

Furthermore the programme will be designated as a children's centre in March 2006 and will form one of the three children's centres planned for Milton Keynes. The Neighbourhood Children's Centre, Fishermead has been designated and the Water Eaton centre has been given approval to proceed. Milton Keynes received capital allocation of £512,167 and a total of £325,112 revenue to support the delivery of these children's centres for the period 2004–06.

Geraldine Smith: To ask the Secretary of State for Education and Skills if she will make a statement on Sure Start funding in Morecambe and Lunesdale. [216779]

Margaret Hodge: Like many other areas of the country, young children and their families in Morecambe and Lunesdale have benefited from significant Sure Start funding since 2001. There is one Sure Start local programme in Morecambe and Lunesdale (Sure Start North Lancaster). This programme received a revenue grant of £794,303 in 2004–05. It has an indicative revenue allocation of £814,161 for 2005–06 and for 2006–07. The programme has had £960,000 of its £1,000,000 capital allocation approved for specific projects in the area.

Evidence from local evaluation shows that a six-week breastfeeding peer supporters training programme was put in place for women living in the Sure Start area. five of eight women initially participating completed the course and were presented with a certificate of achievement. A second training programme held in October 2003, with women from a wider geographical area, resulted in 10 women successfully completing the course. The Baby Club started in March 2002 as a means to identifying clients with, or at risk o developing post natal illness. Between 1 January 2002 and 1 August 2004, over 3,000 visits to the Baby Club were made by parents and 3,200 by babies. In 2004 weekly attendance averaged at 18 parents and their babies.

The programme has also put together a comprehensive volunteer policy and developed an induction and training programme to help volunteers develop their skills and build awareness of community issues such as cultural diversity and child protection. Once basic training is completed (and CRB clearance has been gained) volunteers can move into work experience placements within any area of Sure Start's work. Volunteers have work shadowed midwifery, health and childcare colleagues and others have completed individual community based projects. 13 volunteers have completed the in-house programme, as well as parents on the management and partnership boards. Many have moved on to FE such as Pre-School Diploma and Access to Higher Education, while others have pursued training in job search techniques or employment.

Lancashire county council has a planned children's centre reach of 16,629 children under the age of five by March 2006. It is developing two children's centres in the Morecambe and Lunesdale area, creating 82 new integrated early education and care places. Sure Start North Lancaster is one of the two children's centres and has been allocated indicative revenue funding of £175,496 for 2005–06. It will deliver 71 integrated early education and care places by March 2006; 41 of which will be new children's centre funded places. The centre will reach children and families in the wards of Skerton East, Skerton Central, Skerton West and part of Bulk. An indicative children's centre capital allocation of £400,000 has been made available to the Ridge Primary School which will link to the North Lancaster children's centre and deliver further outreach services and integrated early education and care as part of the core offer. The centre is expected to be designated by April 2005.

The other children's centre is being developed in the Poulton ward based on a former Social Services Family Centre site. Lancashire county council have allocated indicative children's centre revenue of £317,134 and indicative children's centre capital of £1,000,000 to this centre which is expected to be designated by March 2006. This centre will create 41 new integrated early education and care children's centre funded places.

Lancashire county council has also developed two neighbourhood nursery projects in the Morecambe and Lunesdale area delivering a total of 57 new early education and childcare places. Sure Start has made available revenue funding of £284,215 and £23,505 capital grant in total to Lancashire County Council for these two projects.

Mr. Prosser: To ask the Secretary of State for Education and Skills what assessment she has made of the effect of the Sure Start programme in Dover. [216822]

Margaret Hodge: The Dover Sure Start local programme has been performing very well since it started in September 2000, providing support to around

817 children and their families. It was reviewed in October 2004 where it was evidenced that the programme was well established in the community. It is demonstrating excellent engagement with the children's centres agenda and is currently working towards developing children's centre status for St. Radigunds. It is also contributing to the development of children's centres at The Ark Centre, Tower Hamlets; Buckland; and Sunshine Corner, Aylesham.

The programme provides services for communities within St. Radigunds, Buckland and parts of Barton and Pineham. It sees all babies within two months of their birth and offers a wide range of services including: Sure Start befrienders; speech and language services; community health visiting; community midwifes; toy and equipment library; community shop; community psychiatric nursing; social worker; Playlink; Homestart; breakfast club; and daycare. The management board is chaired by a parent and there is strong parental involvement in the programme.

The total amount of Sure Start revenue funding the programme will receive from 2000–06 will be £4,353,948. It has also received £1,288,517 capital grant. The programme has invested £715,000 of this money towards the creation of a multi-purpose building in St. Radigunds.

Mr. Reed: To ask the Secretary of State for Education and Skills what assessment she has made of the effects of the Sure Start programme in Loughborough. [217082]

Margaret Hodge: Sure Start Charnwood local programme was approved in April 2003 and provides services to a diverse community. The amount of revenue grant approved for 2003–07 is £2,694,849. The programme also has £1,000,000 capital grant available.

The Sure Start programme provides services to 679 children and their families in the area. The programme has provided us with the following information about the services that it provides.

Services include English language classes, crèche, IT classes, home visits and clinics run by health visitors, support for children with special needs, library outreach, child care classes, mother and toddler groups, and activity outings. Support is offered to families in crisis and with ongoing needs through family support workers and through volunteers.

There are seven parents on the management board and parents take an active role in interviewing and appointing all new staff members. Bookstart plus provides books for babies at seven months old to encourage parents to read to, and look at books with, babies, 99.7 per cent. of babies received a Bookstart bag during 2003–04.

Sure Start services will be extended in Loughborough through the two planned children's centres. One will serve the community in the Cobden area; this has already been designated. The other will serve families in the Shelthorpe area. Leicestershire's children's centre allocation for 2004–06 is £203,740 revenue and £368,890 capital.

Mrs. Fitzsimons: To ask the Secretary of State for Education and Skills (1) if she will make a statement on the effects of each Sure Start programme in Rochdale; [217106]

(2) what research she has conducted on the effects of Sure Start programmes in Rochdale on *(a)* literacy, *(b)* speech and language development, *(c)* levels of breast feeding, *(d)* smoking cessation and *(e)* post-natal depression; [217107]

(3) what assessment she has made of levels of satisfaction of parents in Rochdale with the services provided by Sure Start programmes. [217108]

Margaret Hodge: There are three Sure Start local programmes in Rochdale constituency; Castlemere, Deeplish and Newbold approved in 2000; Belfield, Hamer and Waddleworth approved in 2001; and Kirkholt, Turfhill and Wellfield approved in 2003. Between them the three programmes provide services to 2,300 young children living within their respective catchment areas. The programmes deliver a wide range of services to support local families including training in parenting skills, access to health services at the centres and outreach support to children and families in their home.

The programmes' funding for the current and future years is as follows:

Programme name	*Capital Approved*	*Revenue 2004–05*	*2005–06*	*2006–07*
Castle mere Deplish and Newbold	982,206	769,660	788,902	788,902
Belfield, Hamer and Waddleworth	684,417	753,375	772,209	772,209
Kirkholt, Turfhill and Wellfield	256,760	645,000	661,125	661,125

These programmes are developing into children's centres and will contribute towards achieving our goal of a children's centre in every community by 2010.

The Department does not conduct research on the impact of individual Sure Start programmes. Instead, a comprehensive national level evaluation system is in place that looks at programmes across the board and will examine the effectiveness of Sure Start for children, families and communities over time.

Programmes carry out their own local evaluation. The available data from these show that since opening, the Castlemere Deeplish and Newbold and Belfield Hamer and Waddleworth local programmes achieved a 20 per cent. increase in the number of children scoring above average levels in the speech and language measure assessment on children aged 2 years, and a reduction of 6 per cent. in the number of children scoring below the average levels.

Since these two programmes were approved there has been on average an increase of 60 per cent. in the number of mothers breastfeeding.

A user satisfaction survey is conducted by each programme after its opening and thereafter on a three-year cycle. Within the Castlemere, Deeplish and Newbold local programme area 95 per cent. of families responded that they were "satisfied" or "very satisfied"

with the programme's services in April 2003. In September 2003 the corresponding survey in the Belfield, Hamer and Waddleworth local programme area showed that 98 per cent. of families were "satisfied" or "very satisfied". The Kirkholt, Turfhill and Wellfield programme is due to report in September 2005.

Mrs. May: To ask the Secretary of State for Education and Skills how many Sure Start centres in each region have parental support and relationship support services. [217153]

Margaret Hodge: There are 524 Sure Start local programmes across England.

All 524 Sure Start local programmes deliver parenting support services to families in their areas. These services range from general advice on parenting skills to more specialised help and support for families in times of crisis. This work includes support to parents undergoing relationship problems and can include respite care. In delivering family support services local programmes work in partnership with a wide range of partners from the mainstream to the voluntary sector.

We expect all local programmes to develop into children centres to help us meet our target of a children's centre in every community by 2010. All these centres will offer family support services.

Phil Sawford: To ask the Secretary of State for Education and Skills how much money has been allocated to Sure Start provision in Kettering in each year since it was first introduced; and if she will make a statement on the programme. [217285]

Margaret Hodge: Kettering has one Sure Start local programme (SSLP), one Neighbourhood Nursery (NN) and one planned children's centre (CC) receiving funding from the Sure Start Unit. Money has been allocated as indicated in the following table.

£

	2002/03	2003/04	2004/05	2005/06	2006/07
SSLP Revenue	358,501	525,500	750,002	768,752	768,752
Capital	1,000,000	—			
NN Revenue	—	30,075	108,271	60,150	18,045
CC Revenue	—	—	[1]40,000	[1]40,000	[2]—
Capital	—	—	[1]135,000	—	—

[1] Indicative.
[2] Not yet allocated.

"Sure Start 4 Wards", the Sure Start local programme which supports families and young children across Kettering, was approved in September 2002. The programme works closely with a number of providers to improve support for young children and their families, delivering a variety of services including: reading groups; parent support; fathers' group; parenting skills; baby massage; breastfeeding support; and outreach services through Citizen's Advice Bureau.

The Sure Start programme undertook a local evaluation of their services in 2003/04 and as part of this they recruited and trained eight parents to take a questionnaire out to a range of local toddler groups. The survey also included the opportunity for parents to feedback their suggestions for improvements. 75 per cent. of respondents said the quality of the Sure Start services they received was "very good" and that their child had done new things as a result of involvement with the programme.

The programme has invested £938,000 of their capital grant in a new building which will provide a family centre, 26 full day care places and accommodation for up to 20 multi-disciplinary workers under one roof.

The Grange Neighbourhood Nursery opened in January 2004 and provides 62 full daycare places, 54 of which are funded through Neighbourhood Nurseries Initiative. This nursery is based on a school site which also incorporates a Healthy Living Centre and a community sports and arts facility.

A children's centre is planned for the Grange school which is approximately half a mile from the Sure Start local programme building. Both sites will provide integrated full daycare places and early learning in due course and an additional 24 places will be created by extending another setting. The children's centre will build on the existing provision already available in Kettering.

Mrs. Dean: To ask the Secretary of State for Education and Skills if she will make a statement on the effects of the Sure Start programme in Inner Burton in East Staffordshire. [218383]

Margaret Hodge: Sure Start Inner Burton was established in 2001. 687 families with a total of 717 children are currently registered with the programme. It has received a capital allocation of £1 million and a revenue allocation of £746,000 in 2003–04 and £764,650 in 2004–05. We have just written to the programme announcing its future revenue allocations of £783,766 in 2005–06 and the same amount in 2006–07.

The programme has achieved a number of successes, including raising the proportion of mothers with children breastfeeding from 40 per cent. in 2002–03 to 50 per cent. in 2003–04. In 2002–03 the programme made 21,000 face to face contacts with children and families.

East Staffordshire children's centre is located in the north of the programme's area and provides integrated education and day care on a full day, part day, or casual crèche basis, combined with health, family support and a range of services including JobCentre Plus drop-in sessions and Children's Information Service signposting. Other services and facilities planned or provided include a toy library, training room and access to computer facilities for parents.

Families in the programme's area will also have access to outreach services provided at Queen Street Community Centre, to be opened in March 2005, which will consist of a child minder support group, volunteer

training, speech and language therapy sessions, antenatal activities, English as a second language classes, a Saturday group and evening dads' group.

Iain Wright: To ask the Secretary of State for Education and Skills (1) what estimate she has made of the number of families who have participated in the Sure Start programme in Hartlepool since the programme began; [218505]

(2) what plans she has to roll out the Sure Start programme to cover all of Hartlepool; [218506]

(3) what estimate she has made of the effects of Sure Start on the educational attainment of children in Hartlepool since the programme began. [218507]

Margaret Hodge: There are three Sure Start local programmes in Hartlepool, which are all at different stages of development. Sure Start South is a round two programme and began to develop its services from 2000. It has received £2,972,982 revenue and £1 million capital grant to date. Sure Start North is round three and services began to be delivered in 2000. It has received £2,349,675 revenue and £1 million capital grant to date. Sure Start Central began to deliver services in 2003. It has received £1,425,000 revenue and £1 million capital grant to date.

The three programmes have provided services to approximately 2,673 families since they began to deliver services. This is broken down as follows: Sure Start South 533; Sure Start North 1,014; and Sure Start Central 1,136.

There are seven neighbourhood nurseries in Hartlepool providing a total of 291 places. Two of these are linked to the local programmes (Sure Start Central and Sure Start South). The total funding for these nurseries is £1,143,201 capital and £938,063 revenue. There were a total of 1,050 three-year-olds in free nursery education places across Hartlepool in 2004. The figure for four-year-olds was 1,100.

Each of the local programmes has implemented a number of initiatives within their respective catchment areas to help improve children's ability to learn.

Such initiatives include:

Bookstart Plus project has been developed in conjunction with Hartlepool libraries. The initiative provides a free book for all children living in the Sure Start area when they are 12-months-old and library membership.

Chattersacks scheme in local primary schools nurseries aimed to encourage families to be involved in children's learning, language development and early reading skills.

Delivery of full day care and regular playgroup sessions using Birth to Three Matters and the Foundation Stage framework, to ensure that all children are offered a well structured routine that will enhance their all round development.

Various play sessions/groups to promote speech and language development, in particular all children in the Sure Start area are involved in the speech and language measure and implemented as part of the Sure Start Pathway of care.

The impact of these services are demonstrated by the following.

Library membership of children aged 0–3 in Sure Start South catchment area has increased from a baseline 5 per cent. in 2000/01 to 12.7 per cent. in 2003/04.

Language development—the Sure Start South programme also reports that there has been a small increase in local word count scores (56 to 59) which are higher than national figures from Sure Start Unit (46 to 47). The proportion of children with higher word count scores has also increased slightly and there are no parental concerns about language.

Sure Start Central has linked closely with all schools in the programme's catchment area and operates a joint health, social and education methodology. Each school has a COOL project offering sporting and educational opportunities for the 5–11 age range and they see 80+ children per session in the areas.

Sure Start will be expanded in Hartlepool through the roll out of children's centres. There is already one designated children's centre based on the site of Rossmere primary school, St. Teresa's RC primary school and Sure Start Hartlepool South. Four more children's centres will be designated by March 2006. Both the central and north programmes will be included in this.

Hartlepool local authority is planning to open a further five children's centres by March 2008 with a town wide approach to create a children's centre in every community by 2010.

Mrs. Humble: To ask the Secretary of State for Education and Skills if she will make a statement on the effects of the Sure Start programme in Fleetwood. [218775]

Margaret Hodge: The Sure Start Fleetwood local programme was approved in 2001 and supports around 667 children and their families living in the Pharos and Mount wards, part of Bailey ward and Park ward. The programme has been allocated a total of £2,721,463 revenue funding and £1,000,000 capital funding from its inception up to the end of 2005/06.

The programme delivers a wide range of child, family health and parental support services to local families. As Fleetwood has one of the highest incidences of teenage pregnancy in England, the programme offers a well attended weekly Young Parents group to support and advise teenage mothers and fathers. The programme has also been successful at encouraging mothers to breast feed their babies. Six out of eight mothers attending the Baby Group now breast feed compared with two out of eight last year. Five mothers are also undertaking a twelve week accredited training course run by the Breast Feeding Network, which will be followed by a breast feeding home visiting support service to help mothers continue breast feeding.

The Start Now! Project run by programme brings together a number of organisations (Jobcentre Plus, Wyre Primary Care Trust, Connexions, Blackpool and the Fyde College, NHS recruitment, Wyre borough council) who offer co-ordinated advice and support for parents wishing to move into employment and training. These agencies have found that this group has enabled them to reach parents who would otherwise not use their main service. This one stop shop approach allows parents with complex needs to receive a joined up collaborative service and has been very successful in encouraging parents into training and employment.

The local new deal for lone parent advisors are working full time from the Sure Start main centre which has to be proved mutually beneficial with the NDLP advisors reporting an improved uptake of their services. In the last three months, six parents have moved into

training and 24 parents have moved off income support into employment. This is a significant increase compared to the previous five month period where only ten parents had been placed into employment.

The Sure Start Fleetwood local programme has a high level of parental involvement and participation. Parents are taking an active role within the programme with 11 of the 18 volunteers being local parents who initially used Sure Start services. The Partnership Board also includes seven parent representatives, one of which is the Vice Chair of the Board.

Fleetwood has one neighbourhood nursery called Y tots which is attached to the Sure Start Fleetwood local programme. The nursery has received a total of £302,400 in revenue funding and provides 56 full day care places. Both the Sure Start local programme and the neighbourhood nursery are located within one building and form Fleetwood children's centre. All the core services will be delivered from the centre and to a further three wards on an outreach basis in community buildings and a primary school. The implementation plan for the centre received approval to proceed from the Unit in July 2004.

In addition, there were 800 free nursery education places taken up by 3-year-olds in maintained schools and other maintained private, voluntary and independent providers within the Blackpool, North and Fleetwood parliamentary constituency area in 2004. The equivalent figure for 4-year-olds was 860.

Mrs. May: To ask the Secretary of State for Education and Skills how many awards of the Sure Start strengthening families grant were made in each region in each of the last three years. [219802]

Margaret Hodge: No such awards have been made in the last three years as this is a new grant programme. Proposals for funding from this programme are currently being assessed and successful applicants will be announced shortly.

Ms Stuart: To ask the Secretary of State for Education and Skills if she will make a statement on the effects of the Sure Start programme in Birmingham, South West. [217584]

Margaret Hodge: The Birmingham, South West Sure Start local programme was approved in February 2003 and supports 867 children under four and their families living in the Bartley Green Ward and Welsh House Farm Housing Estate in Birmingham. To date the programme has had access to £1,402,122 in revenue funding and £960,000 in capital funding. A further £1,112,400 in revenue funding over the next two years (2005/06—2006/07) has been allocated.

The programme has helped improve the quality of life for local families through the delivery of a wide range of services including: the development of a Teenage Pregnancy/Parent Group to support pregnant teenagers and young mums under 21; the provision of a Child Psychologist and Speech and Language Therapist; the availability of nutrition and dietetics services; access to the Relate Counselling Service and Money Advice Service for families; working with the charity KIDS in the West Midlands to provide support to children with additional needs/disabilities; working in partnership with Barnardos' "Community Plus Project" to provide family support and advice; outreach workers who provide flexible one to one support and advice for parents; group sessions for parents on parenting; provision of safety equipment for families and advice on home safety formulated with the West Midlands Fire Service; and links with Fircroft College enabling parents to access training courses. Several parents are undertaking South Birmingham PCT's short course Introduction to Community Family Work' which leads on to the OCN Certificate in Family Work.

The development of a children's centre on the programme's Doddington Grove site will extend Sure Start services to children under five and their families. The new children's centre will act as a base for high quality child care integrated with early learning as well as deliver other services like health, family support and advice and training to help parents take up work opportunities. Designation is expected later this year.

PSA Targets

Mr. Bercow: To ask the Secretary of State for Education and Skills (1) what recent assessment she has made of whether the public service agreement target to ensure that 50 per cent. of children reach a good level of development at the end of the Foundation Stage will be met by 2008; [219214]

(2) what recent progress has been made towards the Public Service Agreement target to improve children's communication, social and emotional development.[219216]

Margaret Hodge: The target for 50 per cent. of children to reach a good level of development was set in July 2004. It is based on the 2003 foundation stage profile (FSP) results and data from Sure Start local programmes. It is provisional as the 2003 FSP data were published as 'experimental statistics'. FSP data for 2004 will be published on 17 March, and for 2005 later this year. At this point we will be able to confirm the target and establish the baseline against which progress towards the target can be assessed.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the public service agreement target to reduce the proportion of young people not in education, employment or training by two percentage points by 2010 will be met. [219218]

Margaret Hodge: We set this target to be challenging, but achievable. The Social Exclusion Unit's 1999 "Bridging the Gap" report identified three important elements in reducing the number of young people not in education, employment or training: an improved curriculum offer, appropriate financial support and high quality advice guidance and support focused on the needs of young people.

The strategies set out in the recent 14–19 Education and Skills White Paper, alongside the earlier "Supporting Young People to Achieve" and "Every Child Matters" publications, build on the good practice and progress that has been made since Bridging the Gap. This includes the success that Connexions has had in achieving its own target to reduce the proportion of young people not in education, employment or training between 2002 and 2004. They will make sure we give the

right tools and support to the statutory and voluntary services that work to prevent young people becoming disengaged and reengage them if necessary, giving a sound basis for meeting the target.

Mr. Bercow: To ask the Secretary of State for Education and Skills whether the public service agreement target for the level of education, training and employment outcomes of care leavers aged 19 to be at least 75 per cent. of those achieved by all young people in the same area by 2004 was met. [219263]

Margaret Hodge: The Department publishes progress against all its outstanding PSA targets in its annual departmental report and autumn performance report. Progress against our last spending review targets, including the one referred to in this question, was reported most recently in the 2004 autumn report, published last November, together with commentary where appropriate. A copy of the report is available from the House of Commons Library.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of progress towards the public service agreement target to narrow the gap between the proportions of children in care and their peers who are cautioned or convicted. [219265]

Margaret Hodge: The Department publishes progress against all its outstanding PSA targets in its annual departmental report and autumn performance report. Progress against our SR02 targets, including the one you refer to, was reported most recently in the 2004 autumn report, published in November, together with commentary where appropriate. Copies of the reports are available from the House of Commons Library.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the public service agreement target to reduce the under-18 conception rate by 50 per cent. by 2010 will be met. [219266]

Margaret Hodge: Since 1998—the baseline year for the strategy—the England under-18 conception rate has fallen by 9.8 per cent. The 2010 PSA target is very challenging and achieving it will require sustained and strengthened implementation of the strategy at national and local level, involving a wide range of services, professionals, parents and young people. That is why we have written to local authority chief executives, asking them to strengthen delivery of local strategies in high rate neighbourhoods and on teenagers most at risk—50 per cent. of conceptions occur in the 20 per cent. of wards with the highest rates. Local areas have been given new data and analysis to help them to effectively target local strategies.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the public service agreement target to increase the stock of Ofsted-registered childcare by 10 per cent. by 2008 will be met. [219269]

Margaret Hodge: In order to monitor performance against this public service agreement target, the number of childcare places registered by Ofsted is monitored quarterly. The latest quarterly data ending December 2004 shows we have created over 64,000 registered childcare places since March 2004. We are therefore well on track to meet the target of increasing number, by 10 per cent. by April 2008.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the public service agreement target to increase the take-up of formal childcare by lower income working families by 50 per cent. by 2008 will be met. [219270]

Margaret Hodge: My Department made an initial assessment in July 2004, when the public service agreement targets for April 2005 to March 2008 were set. This was based on evidence from the Department for Work and Pension's family resources survey. The target level of 50 per cent. will be confirmed once baseline data is confirmed in spring 2006.

Mr. Bercow: To ask the Secretary of State for Education and Skills what recent assessment she has made of whether the public service agreement target to introduce a successful light-touch childcare approval scheme by April 2005 will be met. [219271]

Margaret Hodge: The childcare approval scheme (CAS) was launched on 8 December 2004 and from 4 January 2005 carers have been able to apply for approval using application forms downloaded from the dedicated website or obtained via the CAS helpline. CAS has successfully met every milestone during implementation and will be fully operational from the target date of 6 April 2005. Any applications processed prior to 6 April 2005 will be valid from this date.

The first applicant to be approved was notified on 22 February 2005.

Teacher Salaries

Mr. Rosindell: To ask the Secretary of State for Education and Skills what the average salary for a secondary school teacher is in *(a)* England and *(b)* the Romford and Havering constituencies. [219375]

Mr. Stephen Twigg: In March 2003 the average salary for full time teachers in maintained secondary schools in England was £31,340. Salary information is not available at constituency level, however for Havering local education authority the figure was £34,560. This information is for all grades and includes all allowances.

FOREIGN AND COMMONWEALTH AFFAIRS

China (Arms Embargo)

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he held with Ministers in EU member states about the lifting of the arms embargo with China; and if he will make a statement. [220360]

Mr. Rammell *[holding answer 7 March 2005]:* The Government supported the decision of the European Council in December 2003 to review the EU Arms Embargo on China.

Member states discussed the embargo at the European Council in December 2004 and invited the Luxembourg Presidency to take forward work on the review. The Council underlined that

> "the result of any decision should not be an increase of arms exports from EU Member States to China, neither in quantitative nor in qualitative terms".

EU leaders also recalled the importance of the criteria of the Code of Conduct on arms exports, in particular criteria regarding human rights, stability and security in the region and the national security of friendly and allied countries. Subject to satisfaction on these issues as laid out in the conclusions of the European Council, the Government could envisage embargo lift.

Until the review process is complete, the Government continue to implement the Arms Embargo as set out by the then Minister of State at the Foreign and Commonwealth Office, the late Derek Fatchett, in his reply to my hon. Friend the Member for Gedling (Vernon Coaker) on 3 June 1998, *Official Report*, columns 240–41.

Mr. Laurence Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions the Government held with representatives of the aerospace industry before the agreement by the EU to lift the arms embargo on China, with particular reference to the impact of the lifting of the embargo on the potential of the industry to do business with companies in the United States; and if he will make a statement. [220362]

Mr. Rammell *[holding answer 7 March 2005]:* Government officials have informed representatives of the UK aerospace and defence industry of the EU's review of its arms embargo on China and of US attitudes towards this review. Officials informed industry of the resolution of the House of Representatives of 1 February on this arms embargo, and discussed with them the possible meaning of references to "limitations and constraints" to transatlantic defence co-operation as mentioned in that resolution.

The US has a legitimate and understandable interest both in the effectiveness of the EU's system of arms control and in the stability of the East Asian region. We have to do our very best to address US concerns and reassure them on the effectiveness of the EU Code of Conduct. The latter, and not the embargo, is the key to controlling EU arms exports to China.

Egypt

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with President Mubarak on human rights in Egypt, with particular reference to the imprisonment of Ayman Nur. [217188]

Mr. Mullin: We have regular discussions with Egypt on a wide range of issues, including human rights. Where there is evidence of human rights abuse we make representations to the Egyptian authorities.

The United Kingdom, together with other European Union partners, raised the case of Ayman Nour with the Egyptian Ministry of Foreign Affairs on 15 February 2005. My right hon. Friend the Foreign Secretary discussed the case with the Egyptian Foreign Minister on 28 February 2005. We recognise that Egypt regards Mr. Nour's arrest and subsequent detention as an internal matter. However, as well as our concerns about human rights, this case raises broader issues about Egypt's commitment to political reform.

Tony Baldry: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to the Government of Egypt concerning the arrest of Dr. Ayman Nour MP. [218417]

Mr. Rammell: The UK, together with other EU partners, raised the arrest of Ayman Nour with the Egyptian Ministry of Foreign Affairs on 15 February. While we are aware that Egypt regards Mr. Nour's arrest and detention as an internal matter, we are concerned that the circumstances of his arrest and detention risk sending negative signals about Egypt's commitment to political reform, especially in election year. My right hon. Friend the Foreign Secretary also discussed the issue with the Egyptian Foreign Minister on 28 February.

European Constitution

Mr. Llwyd: To ask the Secretary of State for Foreign and Commonwealth Affairs when the Welsh translation of the European Constitution will be published. [220336]

Mr. Rammell *[holding answer 7 March 2005]:* My right hon. Friend the Foreign Secretary has agreed to translate the EU Constitutional Treaty into Welsh on a "without prejudice" basis. No decision has yet been made on the date of publication.

Honours

Dr. Julian Lewis: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the awarding of an honorary knighthood to the American former head of IBM. [220565]

Mr. Straw: Mr. Louis Gerstner, Chairman and Chief Executive Officer of IBM, and an American citizen, was made an honorary Knight Commander of the Order of the British Empire in September 2001. He received the award in recognition of his services and commitment to e-commerce and education in the United Kingdom.

Iraq

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs how many women were elected to the Iraqi National Assembly; which political parties or ethnic groups they represent; how many women have been appointed to posts in the Iraqi Government; and which posts they occupy. [220077]

Mr. Mullin *[holding answer 4 March 2005]:* Figures obtained so far from the Independent Electoral Commission of Iraq indicate that at least 86 women were elected to Iraq's Transitional National Assembly (TNA). This represents 31 per cent. of the total TNA seats and falls within the requirements of the Transitional Administrative Law, which calls for at least 25 per cent. representation of women in the TNA. The

elected women include Shia Arabs, Sunni Arabs, Sunni Turcomans, Christians (including Assyrian), Sunni Kurds and Shia (Fayli) Kurds.

The TNA is in the process of forming the Iraqi Transitional Government and has not yet announced ministerial appointments.

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs how many women have been elected to local government in Iraq; and what percentage of total elected representatives this represents. [220078]

Mr. Mullin *[holding answer 4 March 2005]:* The Independent Electoral Commission of Iraq has not yet announced final figures of how many women elected to provincial councils in Iraq. However, results obtained so far show that women elected in the southern provinces include Basra (13), Dhi Qar (8), Maysan (10) and Muthanna (10), a total of 41 women equating to around 30 Per cent. In Kirkuk, around 25 per cent. of those elected are women.

Israel

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Israeli Government concerning the withdrawal of forces from Jericho. [218726]

Mr. Rammell: We have not made specific representations to the Israeli Government concerning the withdrawal of forces from Jericho. We welcome the announcement following the Sharm el Sheikh summit on 8 February that Israel will transfer control of a number of West Bank cities to Palestinian Authority control. We call upon both sides to continue to make progress on commitments made at Sharm el Sheikh.

Lebanon

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with his counterparts in the US Administration concerning the assassination of Rafik Hariri. [218628]

Mr. Rammell: Although my right hon. Friend the Foreign Secretary has not discussed the death of Mr. Hariri directly with the US Secretary of State, our Embassy in Washington, and officials in London, have had high level contact with the US Administration on the issue. My noble Friend the Baroness Symons of Vernham Dean visited Lebanon on 24–25 February, and inter alia, met members of Mr. Hariri's family to express the condolences of the United Kingdom. We will continue to work closely with the US Administration and others as the UN investigation into Mr. Hariri's assassination progresses.

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the *(a)* Israeli, *(b)* Syrian and *(c)* Lebanese Government regarding the assassination of Rafik Hariri. [218629]

Mr. Rammell: Our embassies in Tel Aviv, Damascus and Beirut have been in contact with their host Governments on this issue. My noble Friend the Baroness Symons of Vernham Dean raised our concerns about the death of Mr. Hariri with Lebanese Foreign Minister Hammoud during her visit to Lebanon on 24–25 February. She also met members of Mr. Hariri's family to express the condolences of the United Kingdom.

North Korea

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on North Korea. [218575]

Mr. Rammell: Her Majesty's Government is deeply concerned by the announcement that North Korea has suspended its participation in 6 Party Talks (6PT). The world is looking for early progress in the discussions. We deplore North Korea's refusal to negotiate on the issue, the resolution of which would bring so much benefit to the people of that country. We call on the government of North Korea to review its decision, to reconfirm its commitment to the denuclearisation of the Korean peninsula, and to re-engage in discussions with the other participants of the 6PT process to achieve their objective peacefully through negotiation. We also continue to be gravely concerned about the human rights situation in North Korea and raise this regularly with the North Korean authorities at Ministerial and official level.

Official Secrets Act

Sarah Teather: To ask the Secretary of State for Foreign and Commonwealth Affairs how many civil servants were suspended or sacked from employment by his Department under suspicion of breaching the Official Secrets Act 1989 in each year since 2001. [220240]

Mr. Mullin *[holding answer 7 March 2005]:* None.

Palestinian Authority

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs how many women have been appointed to posts within the Palestinian Authority; and what their responsibilities are. [220076]

Mr. Mullin *[holding answer 4 March 2005]:* There are two women in the new Palestinian Authority cabinet, which was announced on 24 February. Zahira Kamal is Minister for Women's Affairs, and held the same position in the previous cabinet. Hind Khoury is a newly-appointed Minister without portfolio.

Public Services Agreements

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent progress has been made towards the Public Service Agreement target to reduce people trafficking affecting the UK; [219569]

(2) what recent progress has been made towards the Public Service Agreement target to promote security and good governance of the UK's overseas territories; [219586]

(3) what recent assessment he has made of whether the Public Service Agreement target to improve value for money across the full range of FCO, BBC World Service and British Council activities by achieving year-on-year efficiency gains of 2.5 per cent. will be met; [219614]

(4) what recent progress has been made towards the Public Service Agreement target to improve perceptions of the UK; [219615]

(5) what recent progress has been made towards the Public Service Agreement target to increase the UK's influence overseas; [219616]

(6) what recent progress has been made towards the Public Service Agreement target to progress the UK policy priorities in the EU, including economic liberalisation and Common Agricultural Policy reform; [219617]

(7) what recent progress has been made towards the Public Service Agreement target to develop a modern and reformed EU; [219618]

(8) what recent assessment he has made of whether the Public Service Agreement target to *(a)* secure agreement to a significant reduction in trade barriers and *(b)* improve trading opportunities for the UK and developing countries by 2005 will be met; [219619]

(9) what recent progress has been made towards the Public Service Agreement target to deliver increased prosperity and a better quality of life in the UK and worldwide through effective economic and political governance globally; [219620]

(10) what recent progress has been made towards the Public Service Agreement target to enhance the competitiveness of companies in the UK through overseas sales and investments; [219621]

(11) what recent progress has been made towards the Public Service Agreement target to demonstrate a reduction in the number of people whose lives are affected by violent conflict; [219622]

(12) what recent progress has been made towards the Public Service Agreement target to reduce the potential sources for future conflict; [219623]

(13) what recent progress has been made towards the Public Service Agreement target to develop enhanced European defence capabilities' [219624]

(14) what recent progress has been made towards the Public Service Agreement target to develop an effective EU crisis management capacity; [219625]

(15) what recent progress has been made towards the Public Service Agreement target to construct an enlarged and modernised NATO; [219626]

(16) what recent progress has been made towards the Public Service Agreement target to reduce the risk of nuclear confrontation; [219627]

(17) what recent progress has been made towards the Public Service Agreement target to reduce tension in the Balkans; [219628]

(18) what recent progress has been made towards the Public Service Agreement target to reduce tension in the Middle East; [219629]

(19) what recent progress has been made towards the Public Service Agreement target to reduce tension in South Asia; [219630]

(20) what recent progress has been made towards the Public Service Agreement target to regulate effectively entry to, and settlement in, the UK in the interests of sustainable growth and social inclusion; [219631]

(21) what recent progress has been made towards the Public Service Agreement target to provide effective and efficient consular and entry clearance services; [219632]

(22) what recent progress has been made towards the Public Service Agreement target to enhance the security of UK and global energy supplies; [219633]

(23) what recent progress has been made towards the Public Service Agreement target to deliver effective programmes to promote democracy, good governance and human rights; [219634]

(24) what recent progress has been made towards the Public Service Agreement target to promote sustainable development; [219635]

(25) what recent progress has been made towards the Public Service Agreement target to promote peaceful political, economic and social reform in Islamic countries and communities; [219636]

(26) what recent progress has been made towards the Public Service Agreement target to increase understanding and engagement with Islamic countries and communities; [219637]

(27) what recent progress has been made towards the Public Service Agreement target to maintain the UK as the prime location in the EU for foreign direct investment; [219638]

(28) what recent progress has been made towards the Public Service Agreement target to deliver a measurable improvement in the business performance of UK Trade and Investment's international trade customers by 2008; [219639]

(29) what recent progress has been made towards the Public Service Agreement target to play a leading role in the development of the European Security Agenda; [219640]

(30) what recent assessment he has made of whether the Public Service Agreement target to deliver improved effectiveness of UK and international support for conflict prevention by addressing long-term structural causes of conflict, managing regional and national tension and violence, and supporting post-conflict reconstruction, where the UK can make a significant contribution, in particular Africa, Asia, Balkans and the Middle East, by 2008 will be met; [219641]

(31) what recent progress has been made towards the Public Service Agreement target to contribute to an international system based on the rule of law, which is better able to resolve disputes and prevent conflicts; [219642]

(32) what recent progress has been made towards the Public Service Agreement target to protect the UK from international crime; [219643]

(33) what recent progress has been made towards the Public Service Agreement target to reduce international crime affecting the UK; [219644]

(34) what recent progress has been made towards the Public Service Agreement target to contribute to the reduction of opium production in Afghanistan, with poppy cultivation reduced by 70 per cent. within five years and elimination within 10 years; [219645]

(35) what recent progress has been made towards the Public Service Agreement target to reduce drug trafficking affecting the UK; [219646]

(36) what recent progress has been made towards the Public Service Agreement target to protect the UK from drug trafficking; [219647]

(37) what recent progress has been made towards the Public Service Agreement target to protect the UK from illegal immigration; [219648]

(38) what recent progress has been made towards the Public Service Agreement target to reduce the risk from international terrorism; [219649]

(39) what recent progress has been made towards the Public Service Agreement target to reduce the supply of, and demand for, weapons of mass destruction worldwide. [219650]

Mr. Rammell: The Foreign and Commonwealth Office (FCO) publishes an assessment of progress towards its Public Service Agreement targets twice a year. The most recently published assessment can be found in the Department's Autumn Performance Report 2004 available on the FCO website: www.fco.gov.uk, copies of which are also available in the Library of the House. The next assessment of progress will be contained in the FCO's Departmental Report which we expect to publish by the end of April 2005. This will also be made available in the Library of the House and on the FCO website.

Student Visas

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs how many student visa applications there were in *(a)* 2002, *(b)* 2003 and *(c)* 2004 from (i) China, (ii) India, (iii) Pakistan and (iv) Bangladesh; and how many of each were refused. [220760]

Mr. Mullin: The information on student visa applications, which were received and refused for the specified areas during the stated periods, is as follows:

Student visa applications

	April 2001 to March 2002		*April 2002 to March 2003*		*April 2003 to March 2004*	
	Received	*Refused*	*Received*	*Refused*	*Received*	*Refused*
China	29,338	7,986	34,477	9,095	35,508	11,554
India	10,813	2,683	20,569	7,952	26,552	11,333
Pakistan	7,366	3,137	7,232	1,655	22,686	9,454
Bangladesh	2,682	1,289	5,035	2,447	5,334	3,155

Figures for April 2004-March 2005 are not yet available. When they are, they can be found, along with further entry clearance statistics, on the UKvisas website at www.ukvisas.gov.uk —"Entry Clearance: Facts and Figures".

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what UKvisas' *(a)* policy is and *(b)* guidelines are in relation to student visa applications from China; what plans his Department has to extend the policy to applications from other countries; and if he will make a statement. [220761]

Mr. Mullin: All applications for entry to the UK as students are considered under the immigration rules. The requirements for entry are therefore the same, irrespective of where the application is made. Local conditions, including the prevalence of forged documentation, mean that different procedures may apply in respect of the application process. However, differences in local processes serve only to facilitate the consideration of the application in accordance with the immigration rules.

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what the expected total cost of the student visa scheme was in *(a)* 2002, *(b)* 2003 and *(c)* 2004; and what the estimated amount of revenue expected to be accrued from the new student visa charges is for 2005. [220762]

Mr. Mullin: The overseas entry clearance operation is required to function on a full cost recovery basis and is therefore non-profitable. The student visa fee is calculated to ensure that it covers the cost of the work involved in processing the application. The charge for a student visa application is currently £36 irrespective of factors such as the duration of the course, where the student applied for entry clearance overseas or where they intend to study in the UK. The fee was last raised in 2002 and the level of visa fees is currently under review.

As UKvisas operates on a cost recovery rather than a profit basis, there is no estimate for revenue accrued for 2005.

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs how many applications for student visas there were in *(a)* 2002, *(b)* 2003 and *(c)* 2004 from overseas students intending to study at (i) universities and (ii) other institutions. [220763]

Mr. Mullin: The number of applications for student visas from overseas students intending to study in the UK, over the last three financial years, is as follows:

	Number
2001–02	151,524
2002–03	181,905
2003–04	225,239

UKvisas does not break these figures down to the type of educational establishment where the applicant wishes to pursue a course of study.

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department has made of whether UKvisas' guidelines

for the issuing of student visas are in line with those set out in British Council guidance; and if he will make a statement. [220764]

Mr. Mullin: UKvisas' guidance leaflets for all categories of visa applicant are based on the immigration rules and the most up to date student leaflet is available on UKvisas' website, www.ukvisas.gov.uk.

The relevant British Council guidance is entitled "First Steps" and is based on the information provided in the UKvisas student information leaflet and the students paragraph of the immigration rules. It includes detailed guidance and information on student related rather than immigration related matters.

Mr. Malins: To ask the Secretary of State for Foreign and Commonwealth Affairs what the most common grounds for the refusal of student visa applications were in *(a)* 2002, *(b)* 2003 and *(c)* 2004. [220765]

Mr. Mullin: UKvisas holds statistics on the numbers of refusals of student visa applications at entry clearance posts worldwide, as each refusal relates to paragraph 57 of the immigration rules. The recording of refusal data is not further subdivided into reasons for refusal.

An application by a student will be refused if they have failed to meet the requirements of the immigration rules for a person seeking to enter the UK for studies. Among the common reasons for the refusal of an application is the failure of the applicant to show an intention or an ability to undertake a proposed course of study. In addition, students who fall for refusal will often have failed to show that they can meet the cost of the proposed course or that they can be adequately maintained and accommodated in the UK without recourse to public funds.

Swaziland

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the UK has taken to promote democratic governance in Swaziland. [218179]

Mr. Mullin: The UK Government have worked with the Government of Swaziland over many years to promote democracy and good governance. Since March 2003, as acting local Presidency of the EU, our High Commissioner in Mbabane has also engaged in a formal political dialogue with the Government of Swaziland, as mandated by Article 8 of the Cotonou Agreement. Meetings are held three times a year with senior members of the Swazi Government to encourage further efforts to implement democratic reforms, to promote adherence to UN human rights accords, to restore the rule of law and to move the constitutional process forward. I discussed progress in the constitution and rule of law with the Prime Minister of Swaziland on 3 February during his visit to the UK.

The Government have also provided practical assistance in areas such as capacity building for NGOs, supporting a civic education programme on the draft constitution, and support for new women MP's in the Swazi National Assembly at the start of their tenure.

Uganda

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the transparency of the process towards multi-party democracy in Uganda. [218264]

Mr. Mullin: A fair multi-party system needs to be established sufficiently in advance of the 2006 elections. We are concerned by delays in implementing the government's roadmap on transition published last July, and the short time remaining to debate such a wide-ranging and complicated Constitutional Amendment Bill. We have urged the Government of Uganda to ensure that the process is constitutional, respects press freedom, the rule of law and institutions of governance, and is free from physical intimidation or manipulation.

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the ability of the Ugandan Forum for Democratic Change to operate freely. [218283]

Mr. Mullin: Early activities of the Forum for Democratic Change suffered some physical restrictions and violence, although there have not been recent recurrences. We have stressed to the Ugandan government that registered parties must be allowed to operate freely at district level in accordance with the law and have received assurances that they will be.

Zimbabwe

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment has been made of the registration of voters in the advance of Zimbabwe's parliamentary elections; [218977]

(2) what assessment has been made of Zimbabwe's adherence to the South African Development Community protocols for free and fair elections. [218979]

Mr. Mullin: We will make a full assessment of the conduct of the election once they have taken place taking into account our own observations as well as those of the various election observer missions.

However, we are not convinced that Zimbabwe has taken the steps required to ensure a free and fair election. As I said in the House on 1 March, we are concerned about reports of serious irregularities in the electoral roll. We continue to urge the Government of Zimbabwe to honour in full its commitment to the South African Development Community (SADC) electoral principles. We also urge the SADC to ensure that its guidelines are adhered to. The elections in Zimbabwe will be a test of the credibility of the SADC as well as of the Zimbabwean Government.

Written Answers to Questions

Wednesday 9 March 2005

CABINET OFFICE

Child Poverty

Vera Baird: To ask the Minister for the Cabinet Office what steps his Department is taking to achieve the Government's targets of ending child poverty by 2020, and halving it by 2010; and if he will make a statement. [220884]

Mr. Miliband: The Government set out the steps that Departments across Government are taking to achieve the targets of ending child poverty by 2020 and halving it by 2010 in the Child Poverty Review, published alongside the 2004 Spending Review and available at http://www.hmtreasury.gov.uk/spending_review/spend_sr04/associated_documents/spending_sr04_childpoverty.cfm

PRIME MINISTER

Iraq

Q11. Mr. Bellingham: To ask the Prime Minister what recent representations he has received requesting publication of the advice he was given by the Attorney-General in respect of the legality of the Iraq war. [220732]

The Prime Minister: I have received representations regarding the publication of the Attorney-General's advice on the legality of the Iraq war in the form of parliamentary questions, letters and Freedom of Information requests to my office.

Adam Price: To ask the Prime Minister whether he sought advice on what standard he should apply in determining on 14 March 2003 that Iraq was in material breach of UN Security Council Resolution 1441. [212324]

The Prime Minister: As Lord Butler noted in his report, in coming to the view that Iraq was in further material breach under Operative paragraph 4 of UNSCR 1441:

> "the Prime Minister took account both of the overall intelligence picture and of information from a wide range of other sources, including especially UNMOVIC information." (paragraph 385, HC 898)

I also refer the hon. Member to the answers I gave to the hon. Member for Gainsborough (Mr. Leigh) during my evidence to the Liaison Committee on 8 February 2005.

Arctic Convoy Veterans

Q12. Mr. Allen: To ask the Prime Minister what recent discussions his officials have had with the Ministry of Defence regarding recognition for the Arctic Convoy veterans. [220733]

The Prime Minister: There has been an ongoing consultation with the Ministry of Defence on the recognition of the Arctic Convoy veterans. I held a reception at Downing street on Monday evening for Arctic Convoy veterans and announced that their service is to be recognised by the institution of a new official Emblem, to be worn as a recognised addition to medals.

Freedom of Information

Llew Smith: To ask the Prime Minister if he will list the *(a)* documents and *(b)* other written material he has released to date in response to Freedom of Information requests; and what categories of information requested his Office has refused to release. [220638]

The Prime Minister: For these purposes my office forms part of the Cabinet Office. Requests for information are considered on a case by case basis in accordance with the requirements of the Freedom of Information Act 2000. There are no categories of information which the Cabinet Office has refused to release.

I refer my hon. Friend to the answer given on 21 February 2005, Official Report, column 37W, by my hon. Friend the Minister for the Cabinet Office to the hon. Member for New Forest, East (Dr. Lewis).

Global Political Challenges

Mr. Jim Cunningham: To ask the Prime Minister what assessment he has made of what the most pressing global political challenges are. [220372]

The Prime Minister: In 2005, the most pressing challenges are dealing with the threat from international terrorism and the spread of weapons of mass destruction. This year presents an opportunity to make significant progress towards a lasting peace settlement in the Middle East. Last week's London meeting on Supporting the Palestinian Authority was an important step forward. We need to build on the successful elections in Iraq and Afghanistan to secure a peaceful future for the people of both countries. We will also use our twin presidencies of the G8 and EU to tackle climate change and address the challenge of development in Africa.

Syria

Mr. Dalyell: To ask the Prime Minister what undertakings he gave to President Assad of Syria in December 2002 about future co-operation between the Government and Syria; and what subsequent discussions he has had on *(a)* alleged Syrian involvement in Iraq, *(b)* the presence of Syrian forces in the Lebanon and *(c)* relations between Syria and Israel. [220880]

The Prime Minister: I made no undertakings to President Assad about future co-operation between the British and Syrian Governments, and have had no subsequent discussions on the issues raised.

INTERNATIONAL DEVELOPMENT

HIV/AIDS

8. **Mr. Evans:** To ask the Secretary of State for International Development what discussions he has had with ministers in India and Africa on targeting aid more effectively towards areas suffering from high levels of HIV/AIDS. [220744]

Mr. Gareth Thomas: My right hon. Friend the Secretary of State and I have recently discussed HIV/AIDS with Ministers in India, Malawi, Kenya, Uganda and Mozambique to help target aid for greatest impact. Following my meeting with the Indian Health Minister in October, we agreed to increase UK support to two highly vulnerable states.

We will have further discussions later today with a number of ministers from countries with high rates of HIV/AIDS.

UN Aid Target

9. **Kevin Brennan:** To ask the Secretary of State for International Development what discussions he has had with the Chancellor of the Exchequer regarding the timetable for the UK to meet the UN target for aid of 0.7 per cent. of gross domestic product. [220745]

Hilary Benn: I held discussions with the Chancellor of the Exchequer during the last Spending Review in which it was agreed that total UK official development assistance (oda) will increase from £4 billion this year to almost £6.5 billion by 2007–08, and oda as a proportion of national income will increase from 0.34 per cent. in 2003 to 0.47 per cent. in 2007. The Government wishes to maintain those rates of growth in the overseas aid ratio which on this timetable would rise beyond 0.5 per cent. after 2008 and to 0.7 per cent. by 2013.

New Partnership for African Development

10. **Mr. Amess:** To ask the Secretary of State for International Development if he will make a statement on the New Partnership for African Development. [220746]

Hilary Benn: The African Union—New Partnership for Africa's Development (AU-NEPAD), promotes African-led development and mutual accountability with donors. We support the AU-NEPAD politically through our commitments to the G8 Africa Action Plan and Africa Partners' Forum and financially through the UNDP Trust Fund, to which we have contributed £500,000 to date.

One of its key aspects is the African Peer Review Mechanism (APRM), which reviews country performance in economic, political and corporate governance, and socio-economic development. Peer reviews are currently taking place in Ghana, Kenya, Rwanda and Mauritius to which DFID has so far contributed over £400,000. DFID is ready to support the central costs of the APRM through the APRM Trust Fund when it is up and running.

St. Helena

11. **Bob Russell:** To ask the Secretary of State for International Development what measures he is taking to boost the economy of the island of St. Helena. [220747]

Mr. Gareth Thomas: Measures are on-going, and will feature in talks between the St. Helena Government and a visiting DFID mission this week. Recent steps include a wide-ranging fiscal review, expanding the St. Helena Development Agency and a scheme to attract St. Helenians from overseas back to key island jobs. We are currently considering how best to provide for the island's future access needs. Decisions on this, in consultation with the St. Helena Government, will be announced as soon as it is possible to do so.

Palestinian Territories

12. **Mr. Simon:** To ask the Secretary of State for International Development what assistance the Department is providing to encourage economic growth in the Palestinian territories. [220748]

Hilary Benn: In order to create an internal environment more attractive to private investors the UK is working closely with international partners to provide support to invigorate the Palestinian Authority's (PA) programmes of governance reforms. Specific UK assistance includes support for the PA's budget, a wide-ranging programme of public administration and civil service reform, and support for the civil police. But these developments, in order to be effective, must go hand in hand with the Government of Israel easing the restrictions on the movement of Palestinian people and goods.

Fairtrade

13. **David Cairns:** To ask the Secretary of State for International Development what steps his Department is taking to promote Fairtrade awareness. [220749]

Mr. Gareth Thomas: The UK Government has been a major supporter of Fairtrade. Fairtrade sales in the UK are growing each year, reaching £140 million in 2004. By buying Fairtrade products such as coffee, tea, fruit and chocolate shoppers are helping farmers and other producers to earn a decent living and obtain good healthcare and education. Between 2002 and 2005 DFID gave £300,000 to the Fairtrade Foundation to help develop its product range. DFID have just announced a further £750,000 over three years. DFID also gives £164,000 to the Foundation through its Development Awareness programme to raise awareness in the UK of Fairtrade.

Zimbabwe

14. **Mr. Mackay:** To ask the Secretary of State for International Development if he will make a statement on aid to Zimbabwe. [220750]

Hilary Benn: In view of the poor governance in Zimbabwe and the intransigence of her Government towards constructive dialogue with the international community, most donors, including the UK, have suspended conventional development programmes and now focus on humanitarian and HIV/AIDS programmes. In 2003–04 DFID spent £34 million on such programmes and expect to spend £25 million in the current financial year. The main areas of our support include HIV/AIDS prevention, treatment and mitigation and direct support to some 1.5 million of the poorest households in the country, in the form of food,

seeds and fertilisers. Funds are channelled through NGOs and United Nations agencies, not through the Government of Zimbabwe.

Vaccinations (Developing World)

15. **Mr. McWalter:** To ask the Secretary of State for International Development if he will make a statement on his Department's work with others to promote vaccination in the developing world. [220751]

Mr. Gareth Thomas: DFID works with the Global Alliance for Vaccines and Immunisation (GAVI) and the Vaccine Fund, and has contributed £35 million. DFID provides support to UNICEF and WHO contributing £64 million and £50.2 million respectively in 2003–04. We promote immunisation to the poorest through direct support to country health programmes.

UK is working alongside the French and Swedish Governments to raise $4 billion through an International Finance Facility for Immunisation (IFFIm) and is seeking support of other OECD Governments. My right hon. Friend the Secretary of State pledged $1.8 billion over 15 years to the IFFIm. DFID works with research and development organisations (such as the International AIDS Vaccine Initiative (IAVI) and Malaria Vaccine Initiative (MVI)) to promote new vaccines.

Afghanistan

Mr. Gill: To ask the Secretary of State for International Development whether his Department has funded *(a)* alternative employment for workers in the poppy industry and *(b)* the purchase of poppy crops in Afghanistan since 1997. [220783]

Hilary Benn: As a counterbalance to the elimination of the illicit opium economy in Afghanistan, opportunities to pursue alternative licit livelihoods for existing and potential poppy growers must be developed. DFID works through the National Priority Programmes of the Afghan Government and with a range of NGOs to provide both agricultural and non-agricultural inputs and technical support to give farmers alternative livelihood opportunities in poor rural areas.

DFID funds targeted alternative livelihood programmes in Badakhshan and Eastern Hazarajat. In Badakhshan, DFID is also funding a "Cash for Work" programme in order to generate increased minimum wage employment through labour-intensive public works. This is designed to provide up to 500,000 person days of employment for those previously generating income from growing poppy crops. We are in discussion with the Government of Afghanistan and others to identify opportunities to provide similar support in other key poppy growing provinces.

DFID has not, as part of its programme, purchased any poppy crops in Afghanistan.

Avian Influenza

Mr. Dalyell: To ask the Secretary of State for International Development to which countries he is giving resources devoted to the prevention of avian influenza. [220881]

Hilary Benn: As part of a DFID/World Bank funded programme, the UK Health Protection Agency (HPA) is providing technical support to the Chinese authorities on a range of health risks including avian flu.

No specific support to deal with avian flu is being provided to countries in South East Asia. DFID is in close contact with the World Health Organisation in affected countries and country offices are considering specific support for expanded public education and surveillance activities on a country-by-country basis. To date, only Cambodia has submitted a request for DFID support and this is under consideration.

DFID officials are to meet staff of the HPA next week to discuss potential gaps in the international response.

Guyana

Mr. Drew: To ask the Secretary of State for International Development if he will make a further statement on UK assistance to Guyana following the floods on 26 December 2004, with specific regard to *(a)* food relief, *(b)* replacing accommodation and *(c)* restarting public services. [220699]

Mr. Gareth Thomas *[holding answer 8 March 2005]:* As reported in my statement of 10 February 2005, DFID has provided £287,000 to the immediate flood response in Guyana. Since that statement we have provided an additional £30,000 in materials. Through the UK's contribution to the European Commission (EC), we have provided £185,000 out of the €1.7 million provided by the EC as immediate relief.

The UK has tried to ensure that our support goes to areas not otherwise covered by other members of the international community. The World Food Programme and the Red Cross met immediate food needs, and were funded by others from the international community.

The UN, through the Economic Commission for Latin America and the Caribbean (ECLAC), is currently undertaking an assessment of the impact of the floods on Guyana's economy and on people's livelihoods. These assessments have been tried and tested in many regional disasters. The assessment will indicate longer term food security needs, as well as reconstruction needs. To date there has not been an identified need to replace accommodation. The priority has been to clean flood affected accommodation, as well as schools and health centres, to make all such places useable again. The Government's cleaning programme is being supported by the UN.

Some schools are still unable to operate as normal. Those affected were used as shelters for displaced people, and they are currently waiting to be reached by the Government cleaning programme. Of the public utilities only the provision of piped water was affected. Pumping stations and distribution networks were severely affected in many areas. This service is now getting back to normal. The management improvements at "Guyana Water Incorporated" provided through the water reform programme ensured an effective response to the flood situation. This programme was funded by DFID and others to improve the supply of potable water. There are sufficient resources in place, and sufficient capacity, to undertake the necessary ongoing

repairs. Oxfam have been working very closely with the water utility to ensure the supply of potable water during and after the crisis.

The Guyanese Drainage and Irrigation Board, supported by UN sourced experts, have identified a set of emergency works to be undertaken on the water management system damaged by the floods. This work is urgent as there are fears that this system was compromised by the floods, and might fail in the main May/June rains. DFID are now in the process of finalising assistance to support implementation of these emergency restoration works. In conjunction with United Nations Development Programme we are funding the cost of a Dutch expert to assist the Government of Guyana in overseeing the emergency rehabilitation of the water management system.

Jammu Kashmir

Tom Cox: To ask the Secretary of State for International Development (1) what discussions he has had with the Jammu Kashmir Government concerning what financial or material assistance is needed following the recent severe weather there; [219762]

(2) what assistance his Department has offered to the Jammu Kashmir Government following the recent severe weather there. [219764]

Mr. Gareth Thomas: We have not received, nor do we expect to receive, a request from the Government of India (GoI) for assistance in responding to the recent severe weather in Jammu and Kashmir. All external assistance to India is co-ordinated by the GoI. The GoI has considerable experience and capacity in responding to natural disasters, and adheres to a clear policy not to request external humanitarian assistance in such circumstances.

Malawi

Mr. Lyons: To ask the Secretary of State for International Development how much aid Malawi will be given by his Department in 2005; and how much was given in 2004. [220345]

Hilary Benn: In the financial year 2005–06, DFID plans to provide £60 million of aid to Malawi through its bilateral country programme. The equivalent figure for the financial year 2004–05 is expected to be £55 million. In addition, Malawi will benefit from aid from multilateral and international organisations including the European Union, the World Bank and the United Nations, which are in part financed by DFID, but for which figures are not yet available.

Middle East

Mr. David Atkinson: To ask the Secretary of State for International Development if he will make a statement on the proposed Middle East donors conference in June; and whether he plans to establish an international fund under the aegis of the UN to finance the cost of resettlement and compensation for Palestinian refugees, as proposed by the Parliamentary Assembly of the Council of Europe in Resolution 1156 [1998]. [220354]

Hilary Benn: At the March 1 London Meeting on Supporting the Palestinian Authority (PA), the international community committed to holding a Consultative Group of international donors by the end of June. The UK looks forward to participating fully and pledging further support to the PA. As the prospects increase for a return to the Roadmap and a move towards final status negotiations, the international community will need to look afresh at plans to meet the costs of resettlement and compensation for refugees. A review of Resolution 1156 may be a good starting point.

Overseas Aid

Mr. Sarwar: To ask the Secretary of State for International Development what steps he takes to ensure that all aid from the UK, including that distributed via multilateral donors, is fully aligned with the priorities of recipient countries. [220772]

Hilary Benn: International commitments made at Monterrey (2002), Rome (2003) and the recent High Level Forum on Aid Effectiveness in Paris require both bilateral and multilateral donors to use their assistance in support of countries' own priorities. DFID's country programmes are governed by Country Assistance Plans, which are agreed with partners and demonstrate how DFID will support their own poverty reduction plans. On 2 March, I published a new policy paper "Partnerships for Poverty Reduction: Rethinking Conditionality", which emphasises our commitment to partner country leadership in setting their developing policies, and states that we will not seek to influence policy choices by use of aid conditions. DFID works closely with multilateral agencies, at both headquarters and country level, to ensure their procedures and practice promote alignment.

TREASURY

Census

Mr. Amess: To ask the Chancellor of the Exchequer (1) what assessment he has made of the number of individuals in Southend who did not complete 2001 Census returns; [220586]

(2) how many prosecutions there have been of individuals in Southend for non-completion of the 2001 Census. [220587]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. David Amess, dated 9 March 2005:

As National Statistician I have been asked to reply to your recent Parliamentary Questions on non-completion of the 2001 Census in Southend. (220586 & 220587)

In answer to your first question; in Southend, 10,230 persons were added to the Census in order to account for the individuals who did not complete 2001 Census returns.

With regard to your second question, no individuals in Southend have been prosecuted for non-completion of the 2001 Census. The total number of prosecutions for non-completion of the 2001 Census in England and Wales was 39.

Mr. John Taylor: To ask the Chancellor of the Exchequer (1) what the statutory penalties are for refusing to complete a decennial population census form for England and Wales; and how many successful prosecutions there were for that offence in connection with the censuses for *(a)* 1981, *(b)* 1991 and *(c)* 2001; [220592]

(2) what the statutory penalties are for unlawfully disclosing personal information from closed decennial population censuses for England and Wales; and how many successful prosecutions there have been for that offence since 1990. [220593]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Mr. John Taylor, dated 9 March 2005:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent questions asking (i) what the statutory penalties are for refusing to complete a decennial population census form for England and Wales; and how many successful prosecutions there were for that offence in connection with the censuses for *(a)* 1981, *(b)* 1991 and *(c)* 2001 and (ii) what the statutory penalties are for unlawfully disclosing personal information from closed decennial population censuses for England and Wales, and how many successful prosecutions there have been for that offence since 1990. (220592, 220593)

The penalty for failing to complete a census form is prescribed by Section 8(1) of the Census Act 1920 which states that on summary conviction a person shall be liable for a fine not exceeding level 3 on the standard scale.

The maximum fine of level 3 on the standard scale under the Criminal Justice Act 1982 was £1,000 at the time of the 2001 Census.

The numbers of successful prosecutions for failing to complete a census form in England and Wales were 692 in 1981, 342 in 1991 and 38 in 2001.

The statutory penalty for unlawfully disclosing personal census information is prescribed by Section 8 (5) of the Census Act 1920 as amended by the Census (Confidentiality) Act 1991 which states that *(a)* on summary conviction a person shall be liable to imprisonment for a term not exceeding six months or to a fine not exceeding the statutory maximum or to both; *(b)* on conviction on indictment, to imprisonment for a term not exceeding two years or to a fine or to both.

Since 1990 there has been one prosecution for unlawful disclosure of personal census information.

Centenarians

Mr. Amess: To ask the Chancellor of the Exchequer how many people aged 100 years and over live in the UK. [220496]

Mr. Timms: Based on the latest estimates prepared for the interim 2003-based national population projections, there were approximately 8,400 people aged 100 years and over living in the United Kingdom in the middle of 2003.

Emigration

Dr. Kumar: To ask the Chancellor of the Exchequer what estimate he has made of the number of people who emigrated from the UK in each year since 1990; what percentage of those people he estimates were between the ages of 18 and 30; and if he will make a statement. [220670]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Dr. Ashok Kumar, dated 9 March 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question regarding the number of people emigrating from the United Kingdom since 1990, and the percentage of these who were aged between 18 and 30. (220670)

Estimates of emigration from the UK are shown in the attached table. The figures are based on the most comprehensive estimate of migration produced by the Office for National Statistics, *Total International Migration* (TIM).

TIM estimates are based on data from a number of sources. Some of the source data are grouped into the following broad age groups: under 15; 15–24; 25–44; 45–59/64; and 60/65 and over. As a result, we are only able to provide TIM estimates of emigration for the aforementioned age groups. Furthermore, TIM estimates produced using the current methodology are only available from 1991 onwards.

Total International Migration (TIM)[1] estimates of emigration for all ages and for specific age groups—Time series 1991 to 2002—United Kingdom

Thousand

	All ages		*15–24*		*25–44*		*15–44*	
	Outflow	*Percentage[2]*	*Outflow*	*Percentage[2]*	*Outflow*	*Percentage[2]*	*Outflow*	*Percentage[2]*
1991	285.0	100.0	76.1	26.7	131.5	46.1	207.5	72.8
1992	281.1	100.0	75.7	26.9	133.5	47.5	209.2	74.4
1993	266.3	100.0	67.5	25.3	127.3	47.8	194.8	73.1
1994	237.6	100.0	62.4	26.3	116.6	49.1	179.1	75.4
1995	236.5	100.0	69.1	29.2	106.5	45.0	175.6	74.2
1996	263.7	100.0	62.8	23.8	139.5	52.9	202.4	76.7
1997	279.2	100.0	85.7	30.7	138.3	49.5	224.0	80.2
1998	251.5	100.0	69.8	27.8	130.3	51.8	200.1	79.6
1999	290.8	100.0	87.1	30.0	143.1	49.2	230.2	79.1
2000	320.7	100.0	83.6	26.1	174.9	54.5	258.5	80.6
2001	307.7	100.0	83.8	27.2	154.6	50.2	238.3	77.4
2002	359.4	100.0	91.9	25.6	186.4	51.9	278.3	77.4

[1] Total International Migration (TIM) estimates for 1991–2002 are based mainly on data from the International Passenger Survey (IPS). These include adjustments for (1) those whose intended length of stay changes so that their migrant status changes; (2) asylum seekers and their dependants not identified by the IPS; and (3) flows between the UK and the Republic of Ireland.

[2] The percentage column expresses the TIM emigration estimate for the specified age range as a proportion of the TIM emigration estimate for all ages.

ONS, Home Office, Irish Central Statistics Office

Inland Revenue

Mr. Key: To ask the Chancellor of the Exchequer how many *(a)* telephone calls, *(b)* e-mails, *(c)* letters and *(d)* personal visits were recorded on an average working day at the Inland Revenue office in Alexandra House, Salisbury in the last period for which figures are available, broken down by subject; and if he will make a statement. [219777]

Dawn Primarolo: 1,100 telephone calls were received by Inland Revenue in Alexander House, Salisbury, in January 2005 (approx 55 calls per working day).

There is no facility for e-mails to be received from customers at this location.

3,440 letters from customers were received in Dorset Area, in which Salisbury office is included, in January 2005 (approx 172 per working day). It is not possible to provide a breakdown by subject.

There were 10,305 personal callers (approx 48 per working day) at the Inquiry Centre for the 12 months to 31 December 2004 as follows:

Salisbury IREC callers 12 months to 31 December 2004

Licensing Act

Mr. Don Foster: To ask the Chancellor of the Exchequer pursuant to the answer of 23 February 2005, *Official Report*, column 724W, on the Licensing Act, if he will list the grounds on which a justice's licence may be revoked by licensing justices; and if he will make a statement. [220513]

Mr. Caborn: I have been asked to reply.

Under the Licensing Act 1964 any person or the police may ask the licensing justices to revoke a licence at any time. The licensing justices may revoke a justices' licence at any licensing sessions (other than at sessions at which an application for renewal of the licence falls). The power is exercisable on any ground on which the justices might refuse to renew a justices' licence, namely that the licensee is disqualified under the Act or is not a fit and proper person to hold a licence.

Ministerial Stationery

Mr. George Osborne: To ask the Chancellor of the Exchequer how much has been spent on official Ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214957]

Mr. Timms: The information requested is not available. Expenditure on these items is not accounted for separately.

Personal Debt

Dr. Kumar: To ask the Chancellor of the Exchequer what estimate he has made of the number of individuals in each region of the UK that were more than £10,000 in debt in each month since January 1990; and if he will make a statement. [220677]

Mr. Timms: The information requested falls within the responsibility of the National Statistician. I have asked him to reply.

Letter from Len Cook to Dr. Ashok Kumar, dated 9 March 2005:

As National Statistician, I have been asked to reply to your recent Parliamentary Question on the number of individuals in each region of the UK that were more than £10,000 in debt. (220677)

The information requested is not available.

The only information available is national data on debt per person. Annual data from 1997 was recently given in a reply to a Parliamentary Question from Dr Vincent Cable MP (214789, Hansard of 7 February 2005, Column 1241W).

Public Spending

Mr. Byrne: To ask the Chancellor of the Exchequer what *(a)* the gross domestic product (GDP), *(b)* his estimate of the output gap, *(c)* total public spending, *(d)* public spending per capita and *(e)* public spending as a proportion of regional GDP were for each English region, in each of the last five years. [220075]

Mr. Boateng: The information is as follows:

(a) Gross value added (GVA), a measure closely related to GDP (which is not available on a regional basis), for each English region for the calendar years 1999 to 2003 is published on the ONS website (www.statistics.gov.uk/downloads/theme_economy/regionalGVA.pdf).

(b) The output gap is currently only available on a national basis so regional figures do not exist.

(c) Total public spending by region that can be identified as benefiting a particular region for 1998–99 to 2002–03 is published in table 8.1 of Public Expenditure Statistical Analyses (PESA) 2004 (Cm6201). Public spending can be split into that which

can be identified as benefiting a particular region and that which is for the benefit of the UK as a whole, for example defence spending. Therefore, the figures in PESA 2004 do not represent total England public spending, which is not available by region.

(d) Total identifiable public spending by region, for the same years, on a per capita basis is shown in table 8.2 of PESA 2004 (Cm6201).

(e) Public spending as a proportion of GVA (GDP) is not available as GVA is produced on a calendar year basis whereas identifiable public spending is produced according to financial years.

Staff Transfers

Mr. Cousins: To ask the Chancellor of the Exchequer how many tax policy staff were transferred from Inland Revenue and Customs and Excise to the Treasury in each of the last three years; and what their *(a)* general areas of work, *(b)* grades and *(c)* work programmes were in each case. [220380]

Dawn Primarolo: Fifteen staff in 2002–03, and 13 in 2003–04, came to HM Treasury on loan or secondment from the Inland Revenue and HM Customs and Excise, entering a variety of Treasury teams, primarily those related to tax or Ministerial support.

During 2004–05, following the O'Donnell review of the Revenue Departments, HM Treasury has taken lead responsibility and accountability for tax policy development, with support from Revenue and Customs who lead on policy maintenance. So far in 2004–05, 81 staff have come in on loan from Revenue and Customs to the Treasury's Budget and Public Finances Directorate as a result of this change, to ensure the right balance of skills and expertise within the new tax teams. Details of numbers and grades are set out in the table as follows:

HM Treasury inward loans and secondments

	2002–03	*2003–04*	*[1]2004–05*
Senior civil service			
Revenue	—	1	7
Customs	—	—	1
Grades 6 and 7 (Treasury range E)			
Revenue	5	3	23
Customs	1	2	7
SEO/HEO (Treasury range D)			
Revenue	3	1	20
Customs	4	6	23
EO (Treasury range C)			
Revenue	1	—	—
Customs	—	—	—
AO (Treasury range B)			
Revenue	1	—	—
Customs	—	—	—
Total	15	13	81

[1] new tax teams

Student Loans

Mr. Blizzard: To ask the Chancellor of the Exchequer what estimate he has made of the annual cost of making student loan repayments for graduates tax-deductible. [220919]

Mr. Timms: No such estimate has been made.

Tax Credits (Overpayment)

Mr. Chope: To ask the Chancellor of the Exchequer to which Department of the Inland Revenue hon. Members should write in respect of representations relating to the desirability of remitting overpayments of tax credit caused by incorrect award notices. [220870]

Dawn Primarolo *[holding answer 8 March 2005]:* For constituents in Great Britain, hon. Members should write to the Overpayments Team, Tax Credit Office, Preston, PR1 OSB. For constituents in Northern Ireland, hon. Members should write to the Overpayments Team, Tax Credit Office, Dorchester House, 52–58 Great Victoria Street, Belfast BT2 7WF.

The Inland Revenue's approach to tax credits overpayments is explained in their Code of Practice 26, "What happens if we have paid you too much tax credit?". The Department also provides form TC846, "Request to reconsider recovery of tax credits", which claimants can use to explain why they think they should not be expected to pay back their overpayment. Both the Code of Practice and the form are available on the Department's website at www.inlandrevenue.gov.uk.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bovine TB

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the findings from the collection of evidence from road traffic accidents affecting badgers in relation to the study of bovine TB. [219781]

Mr. Bradshaw: The Independent Scientific Group on Cattle TB (ISG) advises that the findings of the Road Traffic Accident (RTA) study should not be disclosed at present to avoid either encouraging illegal action against badgers or deterring participation in the Randomised Badger Culling Trial (RBCT). However, information on the location of badgers where TB is diagnosed is released to divisional veterinary managers to inform the measures they take with respect to disease control in cattle in the vicinity.

The ISG has been analysing the data from the RTA study in conjunction with data from badgers culled in the RBCT and will soon be advising Defra on the results and their interpretation.

Carbon Allowances

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects the UK National Allocation Plan for allocating carbon allowances to be approved by the European Commission. [219890]

Mr. Morley: We recognise that UK operators wish to begin full participation in the scheme as soon as possible. The Government are continuing their dialogue with the Commission with a view to finding a solution which addresses the concerns of both sides and which will enable allocation as soon as possible.

Cormorants

Mrs. Anne Campbell: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the breeding population of cormorants *(a)* in England and *(b)* on inland waters in England. [214689]

Mr. Bradshaw: The latest estimate of breeding cormorants in the UK and Ireland is provided by the Seabird 2000 survey. These data indicate that there are 3,145 breeding pairs of cormorants in England (including the Channel Islands and the Isle of Man). This includes the majority of the estimated 1,646 breeding pairs of cormorants at inland colonies in the UK.

UK coastal colonies are dispersed more widely, with many birds breeding in Wales and Scotland. However, many of the coastal breeding birds from all parts of the UK, and their progeny, move onto inland fisheries in England and Wales in the winter and these, together with significant immigration of wintering birds from the continent, give rise to elevated numbers inland during winter. The winter cormorant population in the UK has increased four fold in the last 25 years.

Emissions Trading Scheme

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will place in the Library the correspondence she has had with the EU Commission regarding the European Union Emissions Trading Scheme. [219889]

Mr. Morley: The Government do not intend to publish correspondence we have had with the European Commission on the UK National Allocation Plan, as discussions with the Commission on the total number of allowances to be allocated are continuing, with a view to finding a solution which addresses the concerns of both sides as soon as possible.

EU Subsidies

Mr. Alan Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the level of common agricultural policy production subsidies in the EU, including those retained under the national envelope system; and what assessment she has made of the impact that they have on the agricultural markets of developing nations. [217418]

Alun Michael: The Organisation for Economic Co-operation and Development produce an estimate of the level of subsidy provided to agricultural producers in OECD countries, the Producer Support Estimate (PSE). The latest estimate, in "Agricultural Policies in OECD Countries: At a Glance, 2004", puts the EU's PSE at €108 billion or approximately 37 per cent. of output. This estimate covers all direct payments to producers under the common agricultural policy (and national schemes) including those under agri-environment measures. It also covers gross transfers to producers as a result of market price support.

Defra has not made an assessment of the impact of the CAP on developing countries' agricultural markets. However there are a number of published studies which consider the effects of developed countries' agricultural policy on developing countries. One such estimate is presented in the World Bank report "Global Economic Prospects and the Developing Countries, 2002". This puts the annual benefits to developing countries (in 2015) from liberalisation of agriculture and food policies in high income countries at $99 billion (when dynamic productivity gains are included). It is important to note that developing countries are not all affected in the same way: for example the effect depends on whether the country is a net exporter or net importer of highly protected agricultural products. In addition, the magnitude of an estimate will depend, in part, on the modelling methodology used to generate it.

GM Foods

Mr. Dhanda: To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received since May 2003 in response to the challenge by the US in the World Trade Organisation to the EU's precautionary approach to GM foods and farming; what steps the Government is taking in response to the challenge; and if she will make a statement. [220262]

Mr. Morley: In May 2003, the USA, Argentina and Canada filed a complaint with the World Trade Organisation against the procedures regulating the import and marketing of GMOs in the European Union. The focus of the complaints is that the EU has allegedly not been operating its own approvals system for GM products since 1998. It is alleged that this is more trade restrictive than is required to achieve the desired level of public health protection, that it is not based on proper scientific criteria, and that it unfairly discriminates between GMO and non-GMO products. The case is made against the European Commission, not individual member states, but it specifically cites Austria, France, Luxembourg, Germany, Italy and Greece.

The Department has received correspondence from stakeholders and the public in relation to this WTO case, in the main supporting the EU regulatory position. The UK Government has also raised this issue in meetings with the US administration.

The UK Government has expressed its disappointment that this action has been taken by the USA and we are working with our EU partners to defend the case and find a solution. As with any WTO dispute we will be bound by the ruling, which will be reached after due consideration of the evidence. The UK agrees with the European Commission that existing EU legislation on GMOs is compatible with trade rules and that significant progress has recently been made in dealing with applications under the legislation for placing GM products on the market.

GM Maize

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the recent approval given by the European Commission for the marketing of two GM maize varieties. [220820]

Mr. Morley: There has been no recent approval given by the EU for the marketing of GM maize. The last approval under the Deliberate Release Directive was issued in October last year for Monsanto's GM maize NK603.

Greenhouse Gases

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what action is being taken to limit the increase of greenhouse gases other than carbon dioxide in the atmosphere. [220647]

Mr. Morley: The Government set out its policy on reducing emissions of the six greenhouse gases covered under the Kyoto Protocol in its publication "Climate Change: The UK Programme" (CM 4913) in 2000. This publication contains a set of flexible measures covering a range of different sectors—including transport, agriculture, business and households.

Details of the reductions in greenhouse gas levels achieved so far, the main measures already in place and future options under consideration to achieve further reductions in greenhouse gas levels are contained in the 2004 "Review of the UK Climate Change Programme Consultation Paper" (PB 10372). A revised Climate Change Programme will be published later this year.

Horses

Mr. Sayeed: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will estimate the cost of setting up a border inspection post for the entry of horses to the UK by sea; [218711]

(2) whether there is a border inspection post for the entry of horses by sea into the UK; and if she will make a statement. [218716]

Alun Michael: There are no border inspection posts at seaports approved to inspect horses imported from countries outside the European Union.

Port operators, carriers or agents are free to provide such facilities based on commercial need: facilities are not provided by Government. Defra does not have access to figures relating to the costs of setting up a border inspection post for imports of live horses.

National Bee Unit

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the Answer of 19 January 2005, *Official Report*, column 933W, on agriculture, on what basis the decision was made that 20 per cent. of the budget of the National Bee Unit should be reduced from 2008; and what assessment she has made of the potential effect of the proposed reduction on the UK beekeeping industry. [220455]

Alun Michael: I would refer my hon. Friend to the answer given on 19 January 2005, *Official Report*, column 944W, which cited the Department's Activity Baseline Review as the basis for the decision to reduce expenditure with the National Bee Unit from 2008. The review considered all of the Department's activities and the resources allocated to them.

As we have always made clear, the changes we propose depend on satisfactory progress with our evaluation of the shook swarm technique for the control of European foul brood. We are in continuing discussions with the beekeeping associations about encouraging the wider use of this technique and managing the risks involved.

Official Residences

Chris Grayling: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the official residences for which her Department is responsible; who occupies each one; what the annual cost is of running each property; what contribution the occupants of each make towards running costs; what the total capital and refurbishment expenditure has been on those properties in each of the past five years; how much money was spent in each property on *(a)* flowers and plants, *(b)* wine and entertaining, *(c)* food, *(d)* telephone bills and *(e)* electricity and gas in 2003–04; how many (i) domestic and (ii) maintenance staff are employed at each property, broken down by post; and what the total cost of staff employment was in 2003–04. [213560]

Alun Michael: The Department is responsible for one official residence, an apartment at Admiralty House, London, which is occupied by the Secretary of State.

Since Admiralty House is Government owned, running costs are paid by the Department to the Cabinet Office. Current annual running costs of £195,000 are paid in respect of rent and a service charge, which covers costs for utilities (including electricity and gas) security, facilities management and general maintenance. The Secretary of State does not contribute directly towards these costs but does pay a related personal 'tax' charge. The telephone charges are included within the Department's general telephone expenditure.

Since the Department was created in June 2001, we have not been advised of any capital or refurbishment expenditure. Any such expenditure is the responsibility of the Cabinet Office who would re-charge the Department through the service charge.

The Department incurs no expenditure on flowers and plants, wine and entertaining or food.

There are no domestic or maintenance staff employed by the Department.

Rigby House Farm Waste Tip

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs what powers are available to her Department to close Rigby House Farm waste tip on the grounds of *(a)* emission of smells and *(b)* rodent problems; and what powers (i) her Department and (ii) the Environment Agency has to require the operators to compensate people living in the area for nuisance caused by the tip. [219757]

Mr. Morley: Rigby House Farm landfill site currently operates under a waste management licence issued by the Environment Agency under the provisions of part II of the Environmental Protection Act 1990 (the 1990 Act).

Section 38 of the 1990 Act provides the Environment Agency with the power to suspend a licence or revoke a licence in part, or in its entirety. This power is exercisable where it appears to the agency that the continuation of the activities authorised by the licence would cause pollution of the environment, or harm to human health, or would be seriously detrimental to the amenities of the locality. There are no powers under the 1990 Act to compensate people living in the area for any nuisance caused.

Sewerage

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with *(a)* water companies and *(b)* Water UK on the potential for greater use being made of reed beds to try to overcome sewerage problems; and if she will make a statement. [220696]

Mr. Morley: Defra supports the appropriate use of sustainable drainage systems (SUDS) such as reed beds, but recognises that, at present, barriers to the implementation, adoption and maintenance of SUDS exist. In order to address these problems, Defra is a member of the "The National SUDS Working Group" (NSWG), of which representatives of water companies and Water UK are also members. Regular meetings of this group are held facilitating discussion between all parties interested in the implementation of SUDS. In July 2004 the NSWG published an Interim Code of Practice (ICOP) for SUDS. The aim of the ICOP is to provide a strategic approach to the allocation of responsibilities for the maintenance of sustainable drainage systems.

The new strategy for flood and coastal erosion risk management that Defra has just finished consulting on, looks at ways of better coordinating the various responsibilities for urban drainage, including SUDS. A technical annex to this consultation explores in more depth, the specific options and proposals that have been made to government by stakeholders (such as water companies and Water UK) to encourage and facilitate implementation of more sustainable surface water drainage systems in the future.

Further information can be found at:

http://www.ciria.org/suds/icop.htm

www.defra.gov.uk/environ/fcd/policy/strategy.htm

http://www.defra.gov.uk/environ/fcd/policy/strategy/suds.htm

Single Farm Payments

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has in respect of single farm payments for those who had historic commoners' rights on the basis of the number of animals grazed over recent years, with particular reference to those who are classed as commoners, but who have chosen not to graze animals for a considerable period of time. [219819]

Alun Michael: The Single Payment Scheme (SPS) is open to applications from farmers who meet the scheme conditions. A farmer is someone who carries out an 'agricultural activity' as defined in the EC legislation. A commoner who is a farmer, may seek to establish SPS entitlements on a notional share of the eligible area of the common where he or she has rights to graze. On most commons in England, the notional share will be calculated in proportion to the commoner's right to graze the land, as registered under the Commons Registration Act 1965. It will be up to an individual to decide whether or not he or she will apply for the scheme. All applications will be included in the normal inspection arrangements, including checks to determine whether the applicant is a farmer.

Full details concerning the operation of the scheme on common land were published in our February update available on our website.

Warm Front

Mr. Chope: To ask the Secretary of State for Environment, Food and Rural Affairs how many heating installations have been carried out in each constituency in England under the Warm Front Scheme in each of the last three years. [218686]

Mr. Morley *[holding answer 28 February 2005]:* Between April 2002 and January 2005 approximately 174,000 heating installations have been carried out in England under the Warm Front Scheme.

A table showing a breakdown of the number of heating installations in each financial year, by constituency, will be made available in the Library of the House.

Waste Incineration Directive

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what installation and plant will be *(a)* exempted and *(b)* derogated from the requirements of the waste incineration directive regulations; and if she will make a statement. [219537]

Mr. Morley: Articles 3(4) and 3(5) of the waste incineration directive provide definition respectively of the "incineration plant" and "co-incineration plant" covered by that directive. However, Article 2(2) of that directive excludes from the directive's scope (i) plants treating only certain wastes listed there, and (ii) experimental plants.

Article 6(4) of the directive enables competent authorities to set, for plant subject to the directive's requirements, operating conditions different to those set out in Articles 6(1), 6(2) and 6(3) provided the directive's requirements are met. These provisions are relatively complex, but are explained in draft Guidance on Directive 2000/76/EC on the Incineration of Waste prepared by the Department and the Welsh Assembly Government and available on the Defra website. This publication also incorporates the text of the directive itself.

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what category of installations and plant that burn waste will not be covered by the waste incineration directive when it comes into force. [219538]

Mr. Morley: Article 2(2) of the waste incineration directive excludes from that directive's scope:

(a) plants treating only the following wastes:

(i) vegetable waste from agriculture and forestry;

(ii) vegetable waste from the food processing industry, if the heat generated is recovered;

(iii) fibrous vegetable waste from virgin pulp production and from production of paper from pulp, if it is co-incinerated at the place of production and the heat generated is recovered;

(iv) wood waste with the exception of wood waste which may contain halogenated organic compounds or heavy metals as a result of treatment with wood-preservatives or coating, and which includes in particular such wood waste originating from construction and demolition waste;

(v) cork waste;

(vi) radioactive waste;

(vii) animal carcasses as regulated by Council Directive 90/667/EEC without prejudice to its future amendments;

(viii) waste resulting from the exploration for, and the exploitation of, oil and gas resources from off-shore installations and incinerated on board the installation;

(b) experimental plants used for research, development and testing in order to improve the incineration process and which treat less than 50 tonnes of waste per year.

Mr. Bill O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs whether incineration by *(a)* asphalting companies, *(b)* cement manufacturers, *(c)* chemical firms, *(d)* merchant incinerators, *(e)* power generators and *(f)* steel industries will be subject to regulation under the waste incineration directive. [219539]

Mr. Morley: If these activities incorporate (i) plant dedicated to the thermal treatment of wastes, with or without recovery of the combustion heat generated, or (ii) plant which uses wastes as a regular or additional fuel or in which waste is thermally treated for the purpose of disposal, that plant will be subject to the requirements of the waste incineration directive unless any of the exclusions in Article 2(2) of that directive applies. The text of the directive is incorporated in draft Guidance on Directive 2000/76/EC on the Incineration of Waste prepared by my Department and the Welsh Assembly Government and available on the Defra website.

Waste Recycling

Mr. George Howarth: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list for each of the Merseyside local authorities the proportion of household waste re-cycled in the last three years for which figures are available. [220540]

Mr. Morley: The proportion (percentage)[1] of household waste sent for recycling or composting for each of the Merseyside local authorities in the last three years is presented in the following table:

LA name	*LA type*	*2001-02*	*2002-03*	*2003-04*
Warrington borough council	Unitary	12	13	13
Halton borough council	Unitary	14	17	18
Wirral metropolitan borough council	Collection	6	7	7
St. Helens metropolitan borough council	Collection	5	6	11

Best Value Performance Indicator Data (BVPI 82a and b)

CULTURE, MEDIA AND SPORT

2012 Olympics

Kate Hoey: To ask the Secretary of State for Culture, Media and Sport what public funding has been allocated to facilitating the visit of the International Olympic Committee evaluation team to London in February. [216080]

Tessa Jowell: The bid company London 2012 oversaw all the arrangements for the Evaluation Commission's visit to London in February. The majority of the London 2012's funding comes from my Department and the London Development Agency, with a substantial element coming from private sponsorship and fundraising activities. I understand from London 2012 that £530,000 of costs are directly attributable to the visit. This figure is largely associated with the production cost of the three days of presentations, plus hiring hotel venue space and providing technical support. A further £150,000 was spent on preparations ahead of the visit.

Mr. Edward Davey: To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the total cost of *(a)* promoting and *(b)* hosting the 2012 Olympics in London. [216003]

Tessa Jowell: The information requested is as follows:

(a) The bid company London 2012 is responsible for the majority of the promotional work for the Bid. The budget for Marketing and Communications within London 2012's budget is £7.45 million. The Government and the London Development Agency also jointly fund and manage a budget of £10 million to finance activities that support the Bid.

(b) The cost of hosting the 2012 Olympics is £1.5 billion, which covers the operational and organisational costs of staging the Games for the period from 2005 until 2014. This will be met almost entirely from broadcast rights, sponsorship and ticket sales.

The costs were reported to Parliament in the usual way, and were reported in the Culture, Media and Sport report "A London Olympic Bid for 2012", which was published on 23 January 2003.

British Art Market

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what her Department's estimate is of

the cost to the British art market of the European Union's Directive 2001/84/EC, Artist's Resale Right Directive, if *(a)* royalty collection is made compulsory and *(b)* the royalty rate is set at five per cent. [217663]

Ms Hewitt: I have been asked to reply.

(a) Based on figures provided by the art market it is estimated that the cost of transactions would be reduced from approximately £38 per artwork if the right is managed by individual artists to approximately £28 per artwork if the right is administered by a single collecting agency. The Patent Office has asked in its present consultation for views on whether collective management of resale royalties should be made compulsory.

(b) The directive provides an option for increasing the royalty rate paid on the first €50,000 of the sales price from 4 per cent. to 5 per cent. The UK is not currently proposing to use this option and therefore no estimate of costs based on this rate has been made.

Mr. Swire: To ask the Secretary of State for Culture, Media and Sport what her Department's estimate is of the proportion of art sales that may be diverted from the United Kingdom following implementation of European Union Directive 2001/84/EC, Artist's Resale Right Directive. [217665]

Ms Hewitt: I have been asked to reply.

A number of factors influence the choice of location of a sale, including the location at which the highest price will be achieved and seller's fees. It seems likely that for many sales the cost of relocating would exceed any saving on royalty and would prevent diversion. In addition, based on figures provided by the art market for the 2001–02 season, the total value of the market was £4,227 million and of this £442 million (approximately 10 per cent.) worth of these sales would attract a royalty payment if the right was applied to works by living and deceased artists. If the right was applied only to works by living artists £64.8 million (less than 2 per cent.) worth of the total value of sales would attract a royalty payment. The Patent Office has asked interested parties during the present consultation for any information which would help complete the partial impact assessment, and will be commissioning further economic analysis during the consultation process.

Lottery Funding

Sarah Teather: To ask the Secretary of State for Culture, Media and Sport how much Heritage Lottery funding was awarded in *(a)* Greater London and *(b)* each London borough in 2004–05; and how many projects were awarded funding. [220184]

Mr. Caborn: The total amount of Heritage Lottery funding that was awarded in *(a)* Greater London and *(b)* each London borough in 2004–05 was £35,765,038 and the number of projects was 117.

Heritage Lottery Fund—London April 2004 to February 2005

Local authority	Number of projects	Amount awarded (£)
Barnet	2	87,200
Bexley	1	153,000
Camden	10	497,499
City of London	3	1,100,000
Croydon	3	100,900
Ealing	4	198,220
Enfield	4	150,800
Greenwich	4	13,163,600
Hackney	4	295,700
Hammersmith and Fulham	5	2,664,805
Haringey	2	59,200
Harrow	2	19,600
Havering	1	39,000
Hillingdon	1	247,500
Hounslow	3	380,000
Islington	10	589,621
Kensington and Chelsea	3	5,086,023
Lambeth	9	1,567,500
Lewisham	7	87,200
Newham	3	144,100
Redbridge	2	50,000
Richmond upon Thames	7	1,850,300
Southwark	7	254,200
Sutton	1	24,900
Tower Hamlets	8	3,671,870
Waltham Forest	1	25,000
Wandsworth	2	685,000
Westminster	13	2,572,300
Total	117	35,765,038

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport what priorities she has set for lottery funding. [220835]

Estelle Morris: Priorities for lottery funding are as set out in lottery legislation and policy directions. These include the need to ensure that all parts of the UK have access to lottery funding. Each distributor has been given appropriate directions which they are required to publish in their annual reports and accounts (copies are available in the Library of the House).

Mr. Amess: To ask the Secretary of State for Culture, Media and Sport if she will take steps to amend the criteria for lottery awards to ensure that poorer areas receive a higher level of award. [220836]

Estelle Morris: Individual lottery distributors set their own criteria on awards independently of Government, taking into account national lottery legislation and policy and financial directions to them. These policy directions require them to ensure that all parts of the UK have access to lottery funding. The arts, sports and heritage distributors have also been directed to take account of the scope for reducing economic and social deprivation at the same time as ensuring benefits for the arts, sport and heritage.

Public Service Agreements

Mr. Bercow: To ask the Secretary of State for Culture, Media and Sport what recent progress has been made towards the Public Service Agreement target to increase and broaden the impact of culture and sport to *(a)* enrich individual lives, *(b)* strengthen communities and *(c)* improve the places where people live, now and for future generations. [219970]

Estelle Morris: The Public Service Agreement target that underpins the Department's communities Strategic Priority is 'to increase significantly the take-up of cultural and sporting opportunities by new users aged 20 and above from priority groups'.

Information on the Department's performance against this Public Service Agreement target was published on 22 December 2004 in the DCMS autumn Performance Report (Cm 6435). Copies of the report are available in the House Library.

Regional Offices

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport which *(a)* non-departmental public bodies and *(b)* Executive agencies within the remit of her Department have regional offices based on the Government offices for the regions' regional structure; and when the regional offices were established in each case. [219902]

Mr. Caborn: DCMS non-departmental public bodies which have regional offices based on the Government offices for the regions and the years in which those offices were established are:

Sport England (1996)

Arts Council England (2002)

English Heritage (1999)

Museums, Libraries and Archives Council (2001–04)

Big Lottery Fund (1995)[1]

Heritage Lottery Fund (2002–03)

The Department does not have any Executive agencies with regional offices.

[1] The Big Lottery Fund has been the operating name of the administratively merged New Opportunities Fund and Community Fund since June 2004. The Community Fund was the operating name of the National Lottery Charities Board which established regional offices in 1995.

The UK Film Council does not have regional offices though it does invest in a network of partner agencies called Regional Screen Agencies which were established between 2002 and 2004. These are independent companies with their own boards and management structures entirely independent of the UK Film Council. They derive only part of their income from UK Film Council investment (in some cases less than half) and their remits are broader than that of the UK Film Council, including for example engagement with computer games and/or radio as well as film.

Mrs. Spelman: To ask the Secretary of State for Culture, Media and Sport what regional *(a)* bodies, *(b)* institutions, *(c)* taskforces, *(d)* panels, *(e)* offices and *(f)* organisations the Government have established since May 1997 which are the responsibility of her Department. [219912]

Mr. Caborn: The only regional bodies for which DCMS is responsible which the Government have established since May 1997 are the Regional Cultural Consortiums for the eight regions outside Greater London.

The Department is not responsible for any other regional institutions, taskforces, panels, offices or organisations that the Government have established since May 1997.

UK Sport

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport how many candidates applied for the post of Chair of UK Sport; how many were interviewed; and what criteria were used to select the appointee. [220560]

Tessa Jowell *[holding answer 7 March 2005]:* 47 applications were received for the post of Chair of UK Sport and 10 candidates were interviewed. The selection panel assessed candidates against the criteria given in the role specification, which stated:

"UK Sport is looking for someone with a passion for success at high performance sport, who can establish a position of leadership in the search for that success at national level;"

and that the successful candidate would:

Have experience of business, financial and resource management.

Be able to win the respect of, negotiate with, and influence senior members of the Government and other key external stakeholders.

Have a proven track record of building and growing partnerships together with partnership working at the highest level.

Be able to promote the organisation and possess highly developed communication and representational skills and be skilled at chairing meetings.

Have strong interpersonal relations skills and be able to demonstrate a track record of leading and motivating people and building effective teams.

Be able to demonstrate strategic thinking, creativity and political awareness.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport who interviewed the candidates for Chair of UK Sport; and what role she played in the appointment. [220561]

Tessa Jowell *[holding answer 7 March 2005]:* Candidates were interviewed by Nicola Roche, Director of Sport at the Department for Culture, Media and Sport; Professor Eric Saunders, Chair of the Sports Council for Northern Ireland; Nigel Walker, a former international athlete and Head of Sport at BBC Wales; and David Chesterton CB, an independent assessor as required by the Office of the Commissioner for Public Appointments.

I was involved at three key stages. I approved the role specification and project plan; I approved the shortlist for interview; and I made a decision on whom to recommend to the Prime Minister for appointment from those candidates considered by the selection panel to be 'above the line'.

Hugh Robertson: To ask the Secretary of State for Culture, Media and Sport whether the Chair of UK Sport is allowed to hold other public appointments; and what rules govern her conduct. [220562]

Tessa Jowell *[holding answer 7 March 2005]:* There is no barrier to prevent individuals from holding more than one public appointment. An individual is also permitted to act as an adviser to Government Departments while holding a public appointment, provided there is no conflict of interest. The Chair's conduct in office is governed by the Cabinet Office publication Guidance on Codes of Practice for Board Members of Public Bodies and by UK Sport's own publication Chair: Competency Framework.

DEFENCE

Cancer

Dr. Gibson: To ask the Secretary of State for Defence what policies his Department has in place for supporting employees with cancer. [218587]

Mr. Caplin: The Ministry of Defence has a comprehensive range of policies to support civilian employees with serious long-term illnesses, including cancer, these include:

Confidential advice from a member of the Occupational Welfare Service;

Time off for medical appointments and treatment;

Reasonable adjustments to hours of work and the nature of their duties;

Early involvement and support from our Occupational Health experts;

Sick absence at six months at full pay, six months at half pay, and sick pay at pension rate;

Gradual rehabilitation including reduced hours and duties;

A comprehensive suite of Work/Life policies;

Additional sick absence provision to cover absences not related to the original illness;

Support of applications for medical retirement and access to early payments under the Civil Service Compensation Scheme;

Line managers and colleagues are encouraged to keep in touch with those who are unwell.

We will also look sympathetically on any request received on an individual basis.

Forces Recruitment (Scotland)

Mr. Carmichael: To ask the Secretary of State for Defence how many people have been recruited by Scottish Infantry regiments in each of the last 10 years from *(a)* Scotland, *(b)* the rest of the UK and *(c)* outside the UK. [220169]

Mr. Caplin: The information requested is shown in the table:

Nationality (at birth)

	Scottish	*British (excluding Scottish)*	*Other*	*Unspecified*	*Total*
1994	—	—	—	600	600
1995	—	—	—	420	420
1996	240	55	[1]—	185	480
1997	405	95	[1]—	—	505
1998	430	70	10	—	510
1999	550	85	15	—	650
2000	465	85	80	—	630
2001	375	95	40	—	510
2002	335	75	40	—	455
2003	290	85	30	—	400
2004	375	135	40	—	550
Total	3,460	780	265	1,200	5,705

[1] non-zero value, less than 5.

Note:

Figures have been rounded to the nearest 5.

Totals and sub-totals have been rounded separately and so may not appear to be the sum of their parts.

Figures do not include Full-Time Reserve Service (FTRS), Gurkhas or mobilised reservists. The information relates to the flows of UK Trained Regular Army personnel in the Scottish Regiments, regardless of whether they serve away from the main body of the Regiment.

Nationality data are not available before 1996 so totals are given for 1994 and 1995 with part data available for 1996.

Soldiers joining the infantry are not allocated to a particular regiment until completion of training at the Infantry Training Centre (Catterick). Therefore the table includes those soldiers who joined the Scottish Regiments on completion of training.

Officers join their Arm/Service at the beginning of the third term of their military training at the Royal Military Academy at Sandhurst and therefore the table shows those who joined the Scottish Regiments on completion of training.

Mr. Carmichael: To ask the Secretary of State for Defence how many domiciled Scots have joined the *(a)* Army, *(b)* RAF and *(c)* Royal Navy in each of the last 10 years. [220170]

Mr. Caplin: Data on the number of "domiciled" Scots for the three Services are not available centrally.

Military Abuse (Iraq)

Tom Cox: To ask the Secretary of State for Defence what pension rights the three men recently convicted of abuse of Iraqi civilians will have; and if he will make a statement. [219795]

Mr. Caplin: The Armed Forces Pension Scheme has a provision to reduce the award of pension benefits in exceptional cases of severe misconduct. However, in common with other contracted out occupational pension schemes within the public sector, the Scheme will be obliged to award pensions at least equivalent to the minimum amount they would be entitled to if they had contributed to, and subsequently received benefits under the State Earnings Related Pension Scheme.

Personal data such as an individual's pension entitlement is a matter between employer and employee.

Parachutists

Mr. Hoyle: To ask the Secretary of State for Defence what the *(a)* trained strength and *(b)* establishment is of each of the parachute regiments. [219050]

Mr. Caplin: The information requested is shown in the table.

Strength and establishment of the Three Battalions of the Parachute Regiment as at 1 January 2005

Battalion	*Strength*	*Establishments*
1st Battalion the Parachute Regiment	570	580
2nd Battalion the Parachute Regiment	540	580
3rd Battalion the Parachute Regiment	530	580

Notes:
1. The figures quoted are as at 1 January 2005 and are for UK Regular Trained Army Officers and Soldiers only and therefore exclude TA, Mobilised Reserves, Full-Time Reserve Service, Gurkhas and Home Service Battalions of the Royal Irish Regiment.
2. The Establishment figures include only the infantry posts and exclude attached personnel of other Arms and Services such as chefs, clerks etc.
3. The strength figures do not include officers and soldiers in the Parachute Regiment serving outside the battalion, or personnel from other cap badges attached to the battalion. The officer element excludes personnel with the rank of colonel and above.
4. We cannot be precise about the strength in each battalion as the means by which these data are collected does not allow for separate attribution. The split is derived from an estimate based on the strength by Unit Identity Number.
5. All figures have been rounded to the nearest 5.

RAF

Mr. Rosindell: To ask the Secretary of State for Defence what the male to female ratio is in the Royal Air Force. [212361]

Mr. Caplin: At 1 January 2005, the ratio of male to female personnel was 7.3:1, as 12 per cent. of the total strength was female.

Figures on strength by gender are published monthly in Tri-Service Publication (TSP) 1 "Strength, Intake and Outflow of UK Regular Forces".

Mr. Rosindell: To ask the Secretary of State for Defence how many new recruits to the Royal Air Force there have been per year on average over the past five years. [212362]

Mr. Caplin: The intake from civil life to the regular RAF for the past five years is as follows:

	Recruits
2000	3,730
2001	3,790
2002	4,040
2003	4,440
2004	2,770
Annual average	3,750

Notes:
1. Figures show all intake to UK Regular Forces including re-enlistments and rejoined Reservists.
2. Figures are for UK Regular Forces (including both trained and untrained personnel) and therefore exclude Full-Time Reserve Service personnel and mobilised Reservists.
3. All figures are rounded to the nearest 10.

Mr. Rosindell: To ask the Secretary of State for Defence whether the Royal Air Force's recruitment targets were met in the financial year 2003–04. [212366]

Mr. Caplin: No. The table shows that against the set targets, 93 per cent. of officers and non-commissioned aircrew and 89 per cent. of other ranks were recruited and entered training.

	Target	*Numbers entering training*
Officers and non-commissioned aircrew	564	524
Other ranks	4,025	3,581

Mr. Rosindell: To ask the Secretary of State for Defence what plans he has for recruitment to the Royal Air Force. [212380]

Mr. Caplin: Recruiting will continue to ensure the future Royal Air Force has the correct balance of skills and experience. However, the Service is reducing its recruitment targets by some 4,000 (to around 6,000 in total) over the next three financial years as part of the RAF manpower drawdown, announced by my right hon. Friend, the Minister for the Armed Forces on 9 December 2004, *Official Report*, column 103WS, in order to minimise redundancies.

RAF Menwith Hill

Mr. Drew: To ask the Secretary of State for Defence what the policing arrangements are at RAF Menwith Hill; how many people have been arrested there; and what discussions the local police have had with demonstrators on peaceful protest. [220211]

Mr. Caplin: The Ministry of Defence Police (MDP) exercise full constabulary powers, in an armed and unarmed capacity, at RAF Menwith Hill. MDP also contribute to the effective safety and security of the station, its residents, employees, and passing members of the public, by carrying out external patrols and joint Counter Terrorist Unit armed patrols with North Yorkshire police, to prevent unauthorised entry and interference with the station and its mission, reducing the potential for unlawful activity.

In the last three years (March to February) the MDP have made the following arrests:

2002–03 10 arrests involving 7 people

2003–04 3 arrests involving 2 people

2004–05 29 arrests involving 5 people

Larger organised demonstrations involve communication between the police, the demonstration organisers and other interested parties in the community; with North Yorkshire police taking the lead outside the establishment. Close liaison with the organisers is maintained and meetings based on intelligence led strategies are held to ensure effective co-operation and enable peaceful protest.

MDP liaise with the organisers of the smaller more regular demonstrations, when those demonstrations take place. A supervisory officer in charge of the police officers present at the demonstration, conducts a briefing to protesters, detailing the intentions of the police to allow a lawful and safe demonstration, while ensuring that others in the area are permitted to go about their lawful activities without interference. The briefing also advises that where unlawful activity takes place appropriate police action will be taken. Any concerns raised by the protesters are, wherever possible examined and resolved.

Service Accommodation

Mr. Wilkinson: To ask the Secretary of State for Defence how many additional hirings from private sector landlords his Department expects to take on in the first year of his policy to house Armed Forces personnel of the same sex living together in partnerships in service accommodation. [218021]

Mr. Caplin: I refer the hon. Gentleman to the answer I gave him on 24 February 2005, *Official Report*, column 806W.

CONSTITUTIONAL AFFAIRS

Attorney-General (Iraq)

Annabelle Ewing: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether Lord Irvine was involved in *(a)* framing, *(b)* drafting and *(c)* drawing up the parliamentary answer given by the Attorney-General on 17 March 2003 on Iraq. [220626]

Mr. Leslie: I refer the hon. Member to the answer given by my right hon. and learned Friend the Solicitor-General, to the hon. Gentleman for Stone (Mr. Cash), on 1 March 2005, *Official Report*, column 1074W.

EU Constitution

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs when he expects to announce what public monies will be made available to assist promotion of the forthcoming referendum vote on the EU constitution; and whether expenditure will be granted to both sides of the debate. [220654]

Mr. Leslie: Under the terms of the European Union Bill the Electoral Commission is given powers to encourage voting at the referendum. It will be for the Electoral Commission in due course to present an estimate for the cost of that activity to the Speaker's Committee.

The Political Parties, Elections and Referendums Act 2000 provides for the Electoral Commission to designate one permitted participant to represent those campaigning for each outcome of the question. Where the Electoral Commission have made such designations, each designated organisation will be eligible for the following forms of assistance:

a grant of up to £600,000 determined by the Electoral Commission;

the sending of referendum addresses free of charge;

the use of public rooms free of charge for holding public meetings;

referendum campaign broadcasts.

The same level of financial and non-cash assistance will be available to each designated organisation.

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will undertake research to assess what the implications would be of the introduction of a minimum turn-out threshold for the referendum on the Constitutional Treaty for the European Union. [220715]

Mr. Leslie: The Government have no plans to undertake research on this issue.

EDUCATION AND SKILLS

Further Education

Mr. Chaytor: To ask the Secretary of State for Education and Skills what research her Department has commissioned into the differences of performance levels between further education colleges in the North and in the South noted in the Ofsted reports, Why colleges succeed, and Why colleges fail, published in November 2004; and if she will make a statement. [218483]

Dr. Howells: My Department has not commissioned any further research into the differing performance levels of further education colleges in the North and those in the South beyond the analysis provided in the recent Ofsted reports. The Government's strategy is designed to raise standards across the sector and to address poor performance wherever it is found. The strategy includes leadership and workforce development, improved approaches to learning and teaching, and recruitment of lecturers in shortage areas. These were areas pointed out by Ofsted in their report.

Mr. Chaytor: To ask the Secretary of State for Education and Skills what research her Department has commissioned into the relationship between the quality of individual schools and further education colleges and the level of diversity in local education provision for 16 to 19-year-olds; and if she will make a statement. [218484]

Mr. Ivan Lewis: The Department for Education and Skills has not commissioned any research specifically on this issue. The Department uses Ofsted inspection reports for individual colleges and schools, and we also look at data from 14–19 Area Inspections when we review policy. The Department also collects statistical data relating to levels of attainment and participation and value added at 16–19 in individual areas.

Ofsted

Mr. Chaytor: To ask the Secretary of State for Education and Skills by what processes Ofsted interprets and utilises performance data for the purposes of inspection judgments; and if she will make a statement. [218485]

Mr. Stephen Twigg: That is a matter for Ofsted. HM inspector, David Bell, will write to the hon. Member and place a copy of his letter in the Library.

Sixth Forms

Mr. Chaytor: To ask the Secretary of State for Education and Skills when she plans to issue further guidance on the relationship between the provisions in the five-year strategy on new school sixth forms and the Strategic Area Review process; and if she will make a statement. [218486]

Mr. Ivan Lewis: We set out in our five-year strategy our plans to allow more schools to engage in post-16 provision. The LSC will consult on guidance for competitions for new 16–19 provision and on the new joint 16–19 capital budget. This will be twinned with

Departmental guidance on how these policies fit in with the aims for 14–19, and the StAR process. We will be consulting on all three sets of guidance shortly.

Teachers (Leicester)

Mr. Gill: To ask the Secretary of State for Education and Skills how many full-time equivalent teachers there were in *(a)* secondary schools and *(b)* primary schools in Leicester local education authority in 2004. [220782]

Mr. Stephen Twigg: In January 2004 there were 1,340 full-time equivalent regular teachers in maintained primary schools and a further 1,200 teachers in maintained secondary schools in Leicester local education authority.

ADVOCATE-GENERAL

King's Own Scottish Borderers

Mr. Dalyell: To ask the Advocate-General if she will make a statement on the writ served on her by the Edinburgh branch of the King's Own Scottish Borderers concerning the amalgamation of the regiment. [219806]

The Advocate-General: This action was formally directed against me in accordance with section 1 of the Crown Suits (Scotland) Act 1857. As section 2 of that Act makes clear, responsibility for defending the action lies with my right hon. Friend the Secretary of State for Defence. I am advised that the action is being defended on behalf of the Secretary of State for Defence.

SCOTLAND

Cancer

Dr. Gibson: To ask the Secretary of State for Scotland what policies his Department has in place for supporting employees with cancer. [218671]

Mrs. McGuire: Scotland Office staff are on loan from either the Scottish Executive or the Department for Constitutional Affairs and the Office adheres to the policies of each Department regarding ill health matters.

The Office is fully committed to employing, supporting and retaining all disabled staff, including those with cancer. This includes making any reasonable adjustments necessary in the workplace, such as the opportunity to return on a part-time medical basis for up to three months and to work a flexible pattern, either permanently or for a shorter period.

Following a return to work, the Office has discretion to authorise up to a further 60 days sick absence at full pay for future absences where entitlement to sick pay has been exhausted. Staff may also apply for a career break to allow them a longer period away from the office.

Staff may, if they wish, receive assistance and guidance from the Occupational Health Service or Counselling and Welfare Services in each Department. In addition, staff on loan from the Executive may use its Employee Assistance Programme which is staffed by qualified counsellors.

HOME DEPARTMENT

Asylum Seekers

Mr. Amess: To ask the Secretary of State for the Home Department how many removal notices for failed asylum seekers have been issued in each year since 1997. [220288]

Mr. Browne: Information on the number of removal notices issued to failed asylum seekers is not available.

Information on the number of principal asylum applicants against whom enforcement action was initiated in each year for which data are available is shown in the table.

Principal asylum applicants against whom enforcement action was initiated—1997 to 2004[1, 2]

	Principal asylum applicants
1997	13,760
1998	14,730
1999	—
2000	43,465
2001	67,150
2002	46,200
2003[3]	—
2004[4]	—

[1] Figures rounded to the nearest 5.

[2] Illegal entrants detected and persons issued with a notice of intention to deport, recommended for deportation by a court or proceeded against under Section 10.

[3] Data were not of sufficient quality for publication in 2003, however it is estimated that 18,130 principal asylum applicants had enforcement action initiated against them in this year. Due to poor data quality this is not an official statistic.

[4] Data for 2004 are not yet available. These will be published in the Home Office Statistical Bulletin "Control of Immigration Statistics: United Kingdom, 2004" in summer 2005.

Statistics on the number of asylum applicants removed from the UK are available from the Home Office website at www.homeoffice.gov.uk/rds/immigration1.html.

Mr. Amess: To ask the Secretary of State for the Home Department how many failed asylum seekers have been removed in each year since 1997. [220289]

Mr. Browne: Information on the number of failed asylum seekers who have been removed from the UK in each year since 1997 is shown in the following table.

Removals, voluntary departures[1]*, assisted returns, of asylum applicants, 1997 to 2004*

	1997	*1998*	*1999*[2]	*2000*[2]	*2001*[2]	*2002*	*2003*[3]	*2004*[3]
							Number of persons	
Principal asylum applicants removed	7,160	6,990	7,665	8,980	9,285	10,740	13,005	12,430
Dependants removed[4]	—	—	—	—	1,495	3,170	4,890	290
Total removed[4]	—	—	—	—	10,780	13,910	17,895	14,715

[1] Includes enforced removals, persons departing 'voluntarily' following enforcement action being initiated against them, persons leaving under Assisted Voluntary Return Programmes run by the International Organisation for Migration.

[2] Figures may include a small number of dependents leaving under Assisted Voluntary Return Programmes.
[3] Provisional figures.
[4] Data on dependants removed not available before April 2001.
Note:
Figures rounded to the nearest 5, and may not sum due to rounding.

Statistics on the number of asylum applicants removed from the UK are available from the Home Office website at w\AAA/.homeoffice.gov.uk/rds/immigration1.html.

Mr. Amess: To ask the Secretary of State for the Home Department what steps he has taken since March 2004 to increase the rate of removal of failed asylum seekers. [220290]

Mr. Browne: The Government has introduced a series of initiatives since March 2004 to increase the rate of removals of failed asylum seekers. These include: signing new, improved memoranda of understanding with other countries, strengthened legislation, greater use of reporting centres to maintain contact with asylum seekers at all stages of the asylum process, faster processing of asylum claims, increased detention space, and increasing the number of voluntary returns. We will continue to review our strategy and pursue new initiatives in order to improve the removal process, our aim being to accomplish a monthly rate of removals that exceeds the number of unfounded applications.

Correspondence

Paul Farrelly: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will reply to the letter dated 31 January from Stoke-on-Trent Citizens Advice Bureau regarding Mr Andrey Lazaro. [220400]

Mr. Browne *[holding answer 8 March 2005]:* The Department replied to the Citizens Advice Bureau on 4 March.

Custody Officers

Mr. Hancock: To ask the Secretary of State for the Home Department what assessment he has made of the recommendations of the Runciman Royal Commission on Criminal Justice in relation to custody officers; and if he will make a statement. [210410]

Ms Blears: The Final Government Response published in June 1996, to the Report of the Royal Commission on Criminal Justice, accepted recommendations 43–52 of the Report that dealt with, among other things, the role of the custody officer and the use of civilians under the control of the custody officer.

The Report recommended that the latter should be explored further as the opportunity offers. That opportunity has been taken through the Workforce Modernisation Programme introduced following enactment of the Police Reform Act 2002. The Thematic Report on Workforce Modernisation published in July 2004 by Her Majesty's Inspectorate of Constabulary recognised the benefits forces were achieving in this area. The Report proposed that police staff could perform the role of custody officer provided appropriate training and co-ordination was in place. That is why we are looking to carry out a pilot programme in a number of force areas for staff custody officers. This will look at processes around selection, training and practical application at the police station.

Deportations

Keith Vaz: To ask the Secretary of State for the Home Department how many people were deported from the UK in 2004. [220281]

Mr. Browne: Information on the number of people who were deported from the UK is published on an annual basis in the Home Office Statistical Bulletin, "Control of Immigration: Statistics United Kingdom".

64,390 persons were removed from the UK in 2003. This includes people who departed voluntarily after enforcement action had been initiated, and those who departed under Assisted Voluntary Return programmes run by the International Organization for Migration. Provisional management information estimates that 480 of these people were removed as a result of deportation action.

Information on the total number of persons removed (and of those how many were deported) in 2004 will be published in the 2004 edition of this publication. This will be available in August from the Home Office website at www.homeoffice.gov.uk/rds/immigration1.html

Detention Rates (Young Men)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment his Department has made of the Audit Commission's findings relating to detention rates of young black and young white men. [219542]

Paul Goggins: The Home Office and the Youth Justice Board have studied the Audit Commission's report Youth Justice 2004. The Government responded to the Commission's main recommendations on 16 December.

The Youth Justice Board is putting in place a new performance indicator for Youth Offending Teams (Yots) from April 2005. Yots have been required to develop action plans by April 2005 to achieve equal treatment at the local level for comparable offences by different ethnic groups, including engaging sentencers in reviewing data.

Domestic Violence

Mr. Jim Cunningham: To ask the Secretary of State for Health if he will make a statement on links between drug and alcohol abuse and domestic violence. [216333]

Ms Blears *[holding answer 21 February 2005]:* We recognise that there are clear links between alcohol use and domestic violence. Studies have shown that there are strong correlations between perpetrators of domestic violence and alcohol use. The British Crime Survey indicated that 32 per cent. of incidents of intimate partner violence were committed when the

perpetrator was under the influence of alcohol (Mirlees-Black, 1999). However, it must be stated very strongly that alcohol is a trigger for domestic violence and not a cause.

In relation to drug use and domestic violence, research from other countries has highlighted that there are clear links. In the UK, research into the links between substance abuse and domestic violence was commissioned and then undertaken by the School of Health and Social Studies at the University of Warwick. The research is now complete and we expect the findings to be published in April.

EU Committees

Angus Robertson: To ask the Secretary of State for the Home Department how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on the (i) system for comparison of fingerprints for the effective application of the Dublin Convention (Eurodac) and (ii) jurisdiction and the recognition and enforcement of judgments in matrimonial matters and in matters of paternal responsibility for children of both spouses and on the jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (Brussels I and II) met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [218262]

Mr. Browne: The Committee established by Article 23 of the Eurodac Regulation 2725/2000 has not met, and there are no immediate plans for it to do so. Meetings of a Eurodac User Group took place in Brussels on 5 September 2003,17 February 2004 and 5 and 6 October 2004 to discuss operational and technical issues. Home Office officials represented the UK at these meetings.

There have been no meetings of either of the Committees relating to the Regulation on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters (Brussels I) or the Regulation on jurisdiction and the recognition and enforcement of judgments in matrimonial matters and in matters of parental responsibility for children of both spouses (Brussels II) in the period requested.

Fresh Talent Initiative

Pete Wishart: To ask the Secretary of State for the Home Department if he will make it his policy to devolve responsibility for the aspects of immigration policy relating to the Fresh Talent initiative to the Scottish Parliament; and if he will make a statement. [219772]

Mr. Browne *[holding answer 3 March 2005]:* No. The Fresh Talent: Working in Scotland scheme will be delivered by my Department, through a change to the Immigration Rules, and administered by the Immigration and Nationality Directorate. The Scottish Executive will monitor the impact of the scheme, which will be reviewed.

Identity Theft

Mr. Evans: To ask the Secretary of State for the Home Department how many people have been the victim of identity theft in the latest three years for which figures are available. [220263]

Mr. Browne: It is not a criminal offence for a person simply to use another identity. However, false identities are often used to facilitate other offences such as deception and money laundering.

The police do not generally record incidents of identity theft because prosecutions are recorded for the offences facilitated by false identities.

However, the 240 members of CIFAS, the UK's Fraud Prevention Service for the private sector (mainly financial services companies), identified 74,000 cases of identity and impersonation fraud in 2002, 101,000 in 2003 and 124,000 in 2004.

Illegal Immigrants (Albanians)

Tom Cox: To ask the Secretary of State for the Home Department what discussions he has had with the Albanian Government on illegal immigrants from that country who have entered the United Kingdom in each of the last three years. [219759]

Mr. Browne: Illegal immigration has been discussed at meetings between Home Office and Albanian Ministers on several occasions over the last three years.

My hon. Friend the Member for Don Valley (Caroline Flint), the Parliamentary Under Secretary of State at the Home Office met the Minister of Public Order, Igli Toska, in May 2004 to discuss organised immigration crime including human trafficking, and the Minster of Foreign Affairs Kastriot Islami in February 2004.

Immigrant Testing

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what progress has been made in the introduction of language and knowledge tests for immigrants. [216800]

Mr. Browne: Regulations on the level of English language required for naturalisation purposes were introduced on 28 July 2004. I hope to make a statement shortly on the introduction of the requirement that applicants should know something of life in the UK.

Irish Republic (Extraditions)

Mr. Beggs: To ask the Secretary of State for the Home Department how many extradition requests from the United Kingdom Government to the Government of the Irish Republic have resulted in the extradition of the person or persons concerned in the last 10 years for which records are available; what representations have been made to the Government of the Irish Republic in respect of non-executed requests; and if he will list those requests not yet executed. [212058]

Caroline Flint: Prior to 1 January 2004, extradition between the United Kingdom and the Republic of Ireland was carried out under a backing of warrants system. This was carried out on a police-to-police basis,

under the close supervision and assistance of the Crown Prosecution Service with, in cases where the person was an accused rather than a convicted person, the involvement of the UK and Irish Law Officers. The Home Office had minimal involvement in the process and statistics were not kept centrally.

From 1 January 2004, the extradition process between the UK and Ireland has taken place under the Framework Decision on the European Arrest Warrant (EAW). So far, no one has been returned to the UK from Ireland under this process.

Her Majesty's Government will not list unexecuted requests, as for good and obvious reasons, we cannot confirm or deny the existence of any arrest warrant before an arrest is made. It follows therefore that information on representations, if any, also cannot be disclosed.

A similar question was answered on 28 June 2000, *Official Report*, columns 495–96W, and can be found as follows for ease of reference:

Mr. William Ross: To ask the Secretary of State for Northern Ireland how many persons sought by the *(a)* RUC and *(b)* other UK police forces were extradited from the Irish Republic to the UK in (i) each of the previous three years and (ii) the current year. [125543]

Mr. Mandelson: The table provides details of the numbers of persons sought by the RUC and other UK police forces who have been extradited from the Irish Republic to the UK in the last three years and current year. The figures include both terrorist and non-terrorist cases. It should be noted that the figures for England and Wales are not necessarily complete, as the information is not collated centrally.

Given the complex nature of extradition proceedings, it is not possible to compare directly the number of extradition requests with the number of individuals extradited in any given year. With appeal proceedings the process may take a number of years to be completed.

	Applications made	*Extradited*
Great Britain		
1997	22	10
1998	29	16
1999	17	11
2000	4	1
Northern Ireland		
1997	8	3
1998	6	6
1999	6	3
2000	1	1

At the time the CPS manually reviewed their records to answer the question. The CPS no longer has the resources to review their records between June 2000 and December 2003.

Jamaican Prisoners

Mrs. Gillan: To ask the Secretary of State for the Home Department what discussions his Department has had with the Government of Jamaica about repatriating Jamaican nationals serving prison sentences in the United Kingdom. [220472]

Paul Goggins: The Government fully support the humanitarian principles underpinning prisoner transfer agreements and is keen to conclude such an agreement with Jamaica. However, in May 2004, the Jamaican Government reiterated its position that it did not wish to pursue prisoner transfers with the United Kingdom or any other country. The Government have had no further contact with the Jamaican authorities on this issue.

Migrant Workers

Dr. Pugh: To ask the Secretary of State for the Home Department what percentage of visas issued to migrant workers relate to *(a)* agricultural employment, *(b)* catering and *(c)* the care system. [219955]

Mr. Mullin: I have been asked to reply.

UKvisas does not keep a record of visas issued in the categories requested by the hon. Member.

For the financial year 2003–04, visas issued to work permits as a percentage of total applications received for entry clearance to the UK was 2.29 per cent., au pairs 0.19 per cent. and working holiday makers 2.67 per cent.

Dr. Pugh: To ask the Secretary of State for the Home Department whether the Department keeps records of the companies who offer work to migrant workers. [219956]

Mr. Browne: The Home Office holds records of all employers who make work permit applications to employ workers from outside the European Economic Area. Records are also held of farmers and growers who employ people under the Seasonal Agricultural Workers Scheme. In addition, information is available about the employers who have recruited nationals from the new EU accession states from 1 May 2004 under the Worker Registration Scheme. Students from overseas and those entering the UK under the Working Holidaymaker Scheme may also take employment, subject to restrictions, but no records are held of the employers involved.

National Probation Service

John McDonnell: To ask the Secretary of State for the Home Department what the budget change for the National Probation Service will be for 2005–06, broken down by area. [218437]

Paul Goggins: The percentage increases for the 42 local probation boards are shown in the following table. In addition, the Home Office has provided £13 million, equivalent to 2.3 per cent., to fund the increase in the cost of the Probation Estate in 2005–06. The Home Office has also set aside a reserve fund of up to £25 million, equivalent to 4.5 per cent., to fund the increase in local employer pension contribution rates following the tri-ennial actuarial review of pension funds.

Local probation boards—Increase in main resource grant

	Percentage increase in main resource grant
South West	10.2
Avon and Somerset	7.7
Devon and Cornwall	12.3
Dorset	7.8
Gloucestershire	7.8
Wiltshire	16.0

Total	10.8

Newspapers/Periodicals

Mr. George Osborne: To ask the Secretary of State for the Home Department if he will list the *(a)* newspapers and *(b)* periodicals taken by his Department in each year since 1997; and how much the Department spent on each in each year. [207650]

Fiona Mactaggart: The information contained in annex A, is the list of purchases for the year 2003–04 and is those purchases of Newspapers and periodicals made through the two central contracts with Jones-Yarrell & Swets. This does not include any purchases made locally or by non-departmental public bodies (NDPB's) as this data could be provided only at disproportionate cost.

The following are the total costs for the specified years through the Jones-Yarrell & Swets UK contracts for the Home Office and agencies, these costs could be broken down only to the required level at disproportionate cost:

	£
1997–98[1]	—
1998–99	161,108
1999–2000	187,685
2000–01	151,865
2001–02	138,527
2002–03	132,632
2003–04	155,058

[1] The costs for 1997–1998 are unavailable.

This does not include expenditure by NDPB's or items purchased locally. This information is not held centrally and collection of this data could be achieved only at disproportionate cost.

Annex A

The list of newspapers and periodicals purchased through Jones-Yarrell for this financial year is:

List of Newspapers

Financial Times
Times
Telegraph
Guardian
Independent
Mail
Express
Mirror
Sun
Star
Sunday Times
Observer
Sunday Telegraph
Chronicle
Independent on Sunday
Mail on Sunday
Sunday Express

Economist
Press Gazette
Voice Weekly
Spectator
Private Eye
Auto Express
New Nation
MJ
Local Government
Caribbean Times
Eastern Eye
Computer Weekly

Community Care
Big Issue
What Car
QAG Railway Guide
Campaign
Marketing
Marketing Week
Police Review
Tribune

An accurate list for previous years could be achieved only at disproportionate cost.

The titles subscribed to by the Home Office and Agencies, using the Swets UK contract are available in the Library.

Police Custody

Dr. Kumar: To ask the Secretary of State for the Home Department how many mentally ill people have died in police custody since 2001 in *(a)* the UK, *(b)* Middlesbrough, South and East Cleveland and *(c)* the North East. [215874]

Ms Blears: Information collated by the Home Office on deaths during or following police contact in England and Wales does not specify the mental condition of the person.

We are aware of those people who have been detained under section 136 of the Mental Health Act and who have died during or following police contact. The number of deaths in this category in England and Wales since 2001 by force area is as follows:

Force area	*Total*
2000–01	
None	0
2001–02	
Staffordshire	
Lancashire	2
2002–03	
West Midlands	1
2003–04	
Dorset	
Metropolitan police	
Essex	
Cleveland	4

Both the Scottish Executive and the Northern Ireland Office advise that figures are not held centrally to enable the breakdown into the requested category.

Dr. Kumar: To ask the Secretary of State for the Home Department what plans he has to improve training of police officers to enable them to deal more effectively with mentally ill people. [215875]

Ms Blears: Justice and Offenders Service, Health, Education and Development (JOSHED) was established in December 2003 to develop cross-agency National Occupational Standards and accredited training on health awareness issues, including mental health awareness. A scoping study was commissioned by the group in January 2004 to identify common training needs across the criminal justice and correctional services agencies, including the police. It identified and made recommendations for the improvement of training which are under consideration by the Association of Chief Police Officers (ACPO).

The "Strategy for Improving Performance in Race and Diversity 2004–09" aims to improve police performance in race and diversity, including dealing more effectively with mentally ill people. As part of the Strategy, which was launched in November 2004 and developed jointly between the Home Office, ACPO and the Association of Police Authorities (APA), learning materials about the interaction between police officers and mentally ill people are being prepared for police officers and staff. ACPO is also undertaking a review of the National Learning Requirement for mental health awareness training in the light of a report on 'Mental Health and Social Exclusion' published by the Social Exclusion Unit in June 2004.

DEPUTY PRIME MINISTER

Business Rates

Mr. Drew: To ask the Deputy Prime Minister how many appeals there have been against the recent re-valuations of business properties, broken down by local authority area. [220664]

Mr. Raynsford: None. The new rating lists take effect from 1 April 2005 and ratepayers will be able to appeal against their new rateable value from that date.

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister what the outturn Band D council tax precepts are for 2005–06 for each fire authority in England and Wales. [219853]

Mr. Raynsford: Information on Band D council taxes for fire authorities 2005–06 is currently being collected by the Office of the Deputy Prime Minister. Figures will be published on 23 March as part of the statistical release on council taxes for 2005–06.

Once it has been set as part of the budget-setting process, an authority's council tax for a particular financial year remains unchanged at outturn, unless an alternative, and lower, figure is set as a result of the authority setting a substitute budget. The results of any such calculations for 2005–06 that take place before its budget return for 2006–07 is submitted would be reported as part of the previous year's information collected on the 2006–07 return.

Mr. Drew: To ask the Deputy Prime Minister what the average Band D council tax in England was in 2004–05; and what percentage of national annual average earnings this represented. [220689]

Mr. Raynsford: The average Band D council tax in England in 2004–05 is £1,167, including amounts funded from council tax benefit.

This represents 5.1 per cent. of the mean gross annual pay in England in 2004, which was £22,893, according to the 2004 Office for National Statistics Annual Survey of Hours and Earnings.

It should be noted, however, that the figures are not directly comparable, because there are many properties for which the council tax is payable by more than one wage-earner.

Mr. Lidington: To ask the Deputy Prime Minister what Band D council tax equivalent figure his Department uses in respect of each new property in *(a)* Aylesbury Vale district, *(b)* Chiltern district, *(c)* Wycombe district and *(d)* Milton Keynes unitary authority to be set against the formula spending share when calculating grant distribution; and if he will make a statement. [220912]

Mr. Raynsford: The figures are £181.93 for Aylesbury Vale district council, Chiltern district council, and Wycombe district council: and £967.38 for Milton Keynes unitary authority. The figures are different because Aylesbury Vale district, Chiltern district and Wycombe district councils only provide district-level services whereas Milton Keynes unitary authority provides both district and county level services.

Disabled Facilities Grant

Mr. Lidington: To ask the Deputy Prime Minister how much *(a)* was made available in 2004–05 and *(b)* will be made available in 2005–06 to (i) local authorities in south-east England, (ii) Aylesbury Vale district council, (iii) Chiltern district council, (iv) Wycombe district council and (v) Milton Keynes unitary authority through disabled facilities grant. [220913]

Yvette Cooper: The Government pay a specified capital grant to local authorities each year which covers 60 per cent. of total local authority expenditure on disabled facilities grants (DFG). This is subject to an annual allocation limit for each authority announced prior to the beginning of the relevant financial year.

The allocation of Government grant for DFG for years 2004–05 and 2005–06 to (i) local authorities in south-east England, (ii) Aylesbury Vale district council, (iii) Chiltern district council, (iv) Wycombe district council and (v) Milton Keynes unitary authority are tabled as follows:

£000

Region/authority	2004–05	2005–06
Total for the south-east	17,211	17,070
Aylesbury Vale district council	286	286
Chiltern district council	135	132
Wycombe district council	270	270
Milton Keynes unitary authority	300	300

Electrical Regulations

Chris Grayling: To ask the Deputy Prime Minister what estimate he has made of the number of training places available for electricians wishing to obtain qualifications under the part P electrical regulations. [221225]

Phil Hope: Training places for those wishing to obtain the qualifications necessary for registration with a part P authorised competent person scheme are provided mainly by technical colleges in England and Wales and in some cases by the operators of the competent person schemes.

Officials met representatives of the training providers to advise them that there was likely to be a significant increase in those wishing to attend the relevant courses and most providers have increased the number of places available.

Chris Grayling: To ask the Deputy Prime Minister what assessment he has made of whether local authorities will need to employ additional staff to monitor part P electrical regulations. [221228]

Phil Hope: It is for each local authority in England and Wales to decide where it needs to employ additional resources to carry out its building control functions in relation to part P of the Building Regulations. Local authorities are likely to make such decisions on the basis of the number of additional submissions of building notices or full plans.

Homelessness

Mr. Gill: To ask the Deputy Prime Minister what percentage of the population of Leicester were homeless in each year since 1997. [220780]

Yvette Cooper: Information about local authorities' actions under homelessness legislation is collected quarterly and is in respect of households rather than people. The number of households accepted as eligible for assistance, unintentionally homeless and in priority need and the number of households in temporary accommodation arranged by local authorities under homelessness legislation as at 31 March of each year in Leicester, since 1997, is tabled. Also shown is the number of acceptances and in temporary accommodation as a percentage of all households in Leicester.

After being accepted as homeless, a household will be placed in some form of accommodation. They may be placed in temporary accommodation, until a settled solution becomes available, or they may be given a settled solution straight away depending on the accommodation available to the local authority. As an alternative to temporary accommodation an authority may arrange for a household to remain in their current accommodation (homeless at home), until a settled solution becomes available.

Leicester unitary council

	Mid-year household estimates[5] (thousand)	Acceptances[1, 2]		Households in temporary accommodation[2, 3] (as at 31 March)		Rough sleepers[4]
		Total	As a percentage of all households	Total	As a percentage of all households	Total (number of persons)
1997	114	[6]266	0.2	[7]—	[7]—	20
1998	114	[6]551	0.5	380	0.3	9
1999	114	669	0.6	[7]—	[7]—	10
2000	114	680	0.6	8	0	7

Leicester unitary council

	Mid-year household estimates[5] (thousand)	Acceptances[1, 2] Total	Acceptances[1, 2] As a percentage of all households	Households in temporary accommodation[2, 3] (as at 31 March) Total	Households in temporary accommodation[2, 3] (as at 31 March) As a percentage of all households	Rough sleepers[4] Total (number of persons)
2001	112	901	0.8	240	0.2	5
2002	113	1,090	1	[7]—	[7]—	6
2003	114	684	0.6	76	0.1	3

[1] Households eligible under homelessness legislation and found to be unintentionally homeless and in a priority need category. Figures provided are for the financial year (i.e. April to March).
[2] The Office of the Deputy Prime Minister PIE homelessness returns (quarterly).
[3] Households in accommodation either pending a decision on their homelessness application or awaiting re-allocation of a settled home following acceptance. Excludes those households designated as "homeless at home" that have remained in their existing accommodation and have the same rights to suitable alternative accommodation as those in accommodation arranged by the authority.
[4] The Office of the Deputy Prime Minister Housing Strategy Statistical Appendix (annual).
[5] Estimated as at 30 of June each year. The Office of the Deputy Prime Minister.
[6] Data received for three quarters only. Annual figure includes ODPM estimates for the missing quarter.
[7] Indicates that data were not reported by Leicester on the PIE return.

Information is also collected, since 1998, on the number of people who sleep rough, that is, those who are literally roofless on a single night. The above table shows number of persons sleeping rough in Leicester district, on a single night.

Quarterly Statistical Releases on statutory homelessness published by the Office of the Deputy Prime Minister include information on decisions, and households in temporary accommodation, at local authority level in an associated Supplementary Table. The latest Release of, 13 December, and previous editions are available both in the Library of the House and via the Office of the Deputy Prime Minister's website.

Housing

Mr. Drew: To ask the Deputy Prime Minister which sites have been transferred from the Department of Health to his Department for affordable housing for key workers. [220666]

Keith Hill: No sites have transferred to the Office of the Deputy Prime Minister or English Partnerships to date. It is expected that the first vacant sites will transfer shortly. A list of those sites transferring will be made available at that time. The future use of each site will be determined by reference to local planning policies and strategies and in consultation with the relevant local authorities. The Office of the Deputy Prime Minister expects many of the sites to be suitable for the provision of affordable housing.

Local Government Finance/Services

Mrs. Spelman: To ask the Deputy Prime Minister when he expects the Lyons Review into the balance of funding to report. [219858]

Mr. Raynsford: The Lyons Inquiry into local government funding is due to report to my right hon. Friends the Deputy Prime Minister and the Chancellor of the Exchequer by the end of 2005.

Mr. Drew: To ask the Deputy Prime Minister (1) what research his Department *(a)* has (i) conducted and (ii) commissioned and *(b)* plans to commission into the costs of providing services in rural areas; [220672]

(2) what assessment he *(a)* has made and *(b)* plans to make of the impact of population dispersal in a local authority area on the cost of providing local government services; and if he will make a statement; [220673]

(3) what assessment he *(a)* has made and *(b)* plans to make of the impact of settlement patterns in a local authority area on the cost of providing local government services; and if he will make a statement; [220674]

(4) what plans his Department has for improving the funding of public services in rural areas; and if he will make a statement. [220690]

Mr. Raynsford: I announced on 2 February 2005, *Official Report*, column 912, that the Local Government Finance formula freeze had come to an end, and that the Office of the Deputy Prime Minister would aim to introduce revised funding formulae in 2006–07. In general in 2006–07, our priority is to review and replace funding formula which no longer reflect the pattern of service provision on the ground, or which are calculated using very out of date data.

Several funding formulae currently contain a sparsity top-up which is calculated using information from the 1991 Census. This top-up recognises the higher costs of service delivery that are likely to occur in sparsely populated areas.

The Office of the Deputy Prime Minister is not currently planning to undertake any research into the extra costs of providing services in rural areas. However as part of the current formula review the Office of the Deputy Prime Minister will re-assess how best to take account of sparsity in these funding formulae. This work will need to consider which data best reflect differences in the cost of providing services in rural areas, be it data on population density, settlement patterns or population dispersal.

Neighbourhood Renewal

Mrs. Curtis-Thomas: To ask the Deputy Prime Minister how much money the Government have given to neighbourhood renewal programmes in each year since 1997; and which neighbourhoods have been included in such programmes. [219362]

Yvette Cooper: The Neighbourhood Renewal Unit (NRU) was set up in April 2001. The funding for neighbourhood renewal programmes in each year since the establishment of the NRU is tabled as follows:

	£ million
2001–02	304
2002–03	546
2003–04	756
2004–05 (Forecast spend)	817

Most NRU funding is targeted at the 88 most deprived local authority areas in England which are listed. In addition 18 areas also listed separately receive funding for Neighbourhood Management partnerships and Norwich received funding for its new deal for communities partnership.

List of eligible areas for NRU funding

Allerdale
Ashfield
Barking and Dagenham
Barnsley
Barrow-in-Furness

NHS Estate Transfers

Mr. Cousins: To ask the Deputy Prime Minister if he will list the *(a)* sites and *(b)* assets transferred to (i) his Department and (ii) English Partnerships by NHS estates as land surplus to the NHS in each of the last five years. [220381]

Keith Hill: No sites have yet been transferred from the NHS estates to either the Office of the Deputy Prime Minister or English Partnerships. My right hon. Friends the Deputy Prime Minister and Secretary of State for Health announced in April 2004 that a portfolio of around 100 surplus NHS sites would be transferred to help deliver the objectives of the sustainable communities plan. It is expected that the first of these will be transferred to English Partnerships shortly. A list of those sites transferring will be made availabie at that time.

Rural Services

Mr. Drew: To ask the Deputy Prime Minister what representations he has received regarding the costs of providing services in rural areas; and if he will make a statement. [220675]

Mr. Raynsford: The Office of the Deputy Prime Minister received 233 representations on the 2005–06 financial settlement. Of these, five representations were made in support of a review of either the sparsity indicator currently used in funding formulae; or of the needs of sparsely populated areas.

Staff Surveys

Mr. George Osborne: To ask the Deputy Prime Minister how much was paid to consultants carrying out staff surveys in the Department and its predecessors in each year since 1997. [213661]

Yvette Cooper: The Office of the Deputy Prime Minister was created in May 2002. One staff survey has been conducted since that date, in January 2003. The amount paid to consultants to undertake this survey was £51,820 excluding VAT.

The staff survey collects data about staff demographics and attitudes which informs the development of corporate strategies. Through regular staff surveys, the Office of the Deputy Prime Minister is also able to measure progress against the delivery of corporate objectives and benchmark itself against similar organisations.

Travellers

Mr. Jenkin: To ask the Deputy Prime Minister what the total cost to public funds of providing legal advice, assistance and support in relation to planning applications and appeals in respect of Traveller encampments in North Essex has been in each year since 1997. [216261]

Mr. Lammy: I have been asked to reply.

The Legal Services Commission (LSC) provides funding for a national helpline for Gypsies and Travellers at a cost of around £50,000 a year. It is not possible to say how much of this money was spent in relation to North Essex.

In addition, legal help, which provides for basic advice and assistance, is available subject to satisfying the statutory tests of the applicant's means and the merits of the case. The LSC does not hold data on how much legal help is awarded to Gypsies and Travellers.

Legal representation at planning applications and appeals is generally outside the scope of legal aid. However, since April 2000, funding can be made available in exceptional cases under section 6(8)*(b)* of the Access to Justice Act 1999, when the relevant criteria are satisfied, for example, where the case concerns the applicant's home. This protects the applicant's fundamental rights and ensures a fair hearing. It is not possible to give a precise figure for total costs, but since April 2000, a maximum of £45,000 plus VAT (excluding legal help costs) has been spent on planning applications in relation to Gypsy and Traveller encampments. None of these applications related to planning applications or appeals in North Essex.

TRADE AND INDUSTRY

Cancer

Dr. Gibson: To ask the Secretary of State for Trade and Industry what policies her Department has in place for supporting employees with cancer. [218588]

Ms Hewitt: My Department's external counselling service is available to all DTI HQ staff (and their family members) through EAR Accor Services. Their Employee Assistance Programme offers both a Counselling and an Information service.

If Accor is contacted by an employee with cancer, they will undertake an initial assessment and if appropriate, arrange face to face counselling session. They can also provide information and literature on cancer through specialist organisations such as Cancer Bacup as well as information on benefits, home support, and hospital discharge plans among others which is tailored to the individual employee.

My Department's Equal Opportunities Policy seeks to ensure there is no discrimination against people who have declared progressive conditions such as cancer which could reduce physical capacity. Staff may also receive help and advice on adjustments from the Departmental Disabled Persons Officer as well as the Department's Medical Adviser, to provide appropriate support for that employee in the workplace.

Child Poverty

Vera Baird: To ask the Secretary of State for Trade and Industry what steps her Department is taking to achieve the Government's targets of *(a)* ending child poverty by 2020 and *(b)* halving it by 2010; and if she will make a statement. [219347]

Ms Hewitt *[holding answer 2 March 2005]*: Making work pay and supporting parents in balancing their work and family responsibilities helps enable parents to participate in the labour market, which in turn is critical to tackling child poverty.

Since October 2004, the minimum wage (adult rate), in conjunction with the working families tax credit and other benefits have provided a guaranteed minimum income of at least £252 a week for families with one child and one earner in full-time work (35 hours per week). On 25 February we announced that the minimum wage will be increased to £5.05 from October 2005.

In 2003 we introduced a new right for parents to request a flexible working pattern. In the first year 800,000 requests were either wholly or partly accepted. In addition to this new entitlement, we extended maternity leave so most mothers can choose to take up to one year. We also introduced new rights to two weeks' paid paternity leave and introduced paid adoption leave.

On 28 February my Department published a consultation document, "Work and Families: Choice and Flexibility". Through the consultation we are seeking views on the details of commitments and proposals set out in the 2004 pre-Budget report which build on the our successful package of family friendly working rights. These include extending Statutory Maternity Pay, Maternity Allowance and Statutory Adoption Pay to nine months from April 2007 towards a goal of a year's paid leave by the end of the next Parliament, introducing a right for mothers to transfer a proportion of their maternity leave and pay to fathers, and looking at options for extending the right to request flexible working to carers of adults and to parents of older children. These measures would give families more choice about how to balance their work and caring responsibilities, supporting parents who may otherwise have been forced to drop out of the labour market to stay in work.

Copies of the consultation document have been placed in the Libraries of the House and are available on the DTI website at www.dti.gov.uk/workandfamilies.

Congestion Charge

Mr. George Osborne: To ask the Secretary of State for Trade and Industry how much has been spent on congestion *(a)* charges and *(b)* penalty charge notices by the Department since the commencement of the congestion charging scheme. [213814]

Ms Hewitt: None.

Departmental Advertising

Keith Vaz: To ask the Secretary of State for Trade and Industry in which Muslim newspapers the Department advertises; and what kinds of advertising the Department places in Muslim newspapers. [201692]

Ms Hewitt: My Department has conducted campaign advertising on the national minimum wage in the following newspapers with a substantial Muslim readership:

The Nation
Bangla Mirror
Bangla Express
Janomot
Notun Din
Surma
Eastern Eye.

My Department also advertised in several ethnic language publications that have a smaller Muslim readership. These are:

Des Pardes
Gujurat Samachar
Punjab Times.

Departmental Consultants

Pete Wishart: To ask the Secretary of State for Trade and Industry how much expenditure her Department has incurred in each year since 2002 on employing external consultants to deal with the press and public relations of her Department; and if she will make a statement. [199904]

Ms Hewitt: Most of my Department's press and public relations activity is undertaken by its own professional communications staff. However, in instances where additional resources or niche skills are required, programme budget holders are from time to time authorised to engage external press and public relations consultants to undertake work in relation to specific ring-fenced and time-limited projects. Details of such expenditure are not held centrally and could be provided only at disproportionate cost.

Departmental Expenditure

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how much her Department has spent in each year since 2000 providing printed information for the public. [217456]

Ms Hewitt: The information requested is not held centrally and could be provided only at disproportionate cost.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the Committee of experts on the transit of natural gas through grids met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [214300]

Ms Hewitt: The conciliation body established by Article 3(4) of Directive 91/296/EEC of 31 May 1991 on the transit of natural gas through grids never met. Directive 91/296/EEC was repealed by the 2003 Gas Directive—2003/55/EC—with effect from 1 July 2004.

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch Presidency of the EU the EC-Canada Joint Committee on scientific and technological co-operation met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215905]

Ms Hewitt: The EU Canada Steering Committee met in Brussels on 9 March 2004 during the Irish Presidency. Meetings are convened by the Commission and the member states are not invited; therefore no UK officials attended.

EU Legislation

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what proportion of all the *(a)* primary and *(b)* secondary legislation sponsored by her Department in the 2003–04 parliamentary session was consequent on EU legislation. [213225]

Ms Hewitt: During the 2003–04 session my Department sponsored the following five Bills:

Civil Partnership

Companies (Audit, Investigations and Community Enterprise)

Employment Relations

Energy

Patents

Two—Employment Relations and Energy—contained elements implementing requirements arising from EU Directives or Regulations.

Of the 133 Statutory Instruments introduced by my Department in the 2003–04 Session, 25 contained elements implementing requirements arising from EU Directives or Regulations.

Iraq

Mr. Soames: To ask the Secretary of State for Trade and Industry if she will list the British companies being assisted by her Department who have won contracts in Iraq. [216104]

Ms Hewitt: My Department has provided information and assistance to a number of British companies who have won contracts in Iraq. However, British companies are not required to report details to the Government of contracts they have won or work they are doing in Iraq. Nor is there a central organisation that collects and publishes such information. There is therefore no definitive list of such firms.

Miners' Compensation

John Mann: To ask the Secretary of State for Trade and Industry how many complaints about claims handling companies were made to her Department in 2004; and how many of these were referred to the Law Society. [208878]

Nigel Griffiths: The Department receives a substantial level of correspondence regarding the administration of the coal health schemes. However, we do not keep a breakdown of the subject matters covered and are not therefore able to provide details of how many complaints have been received.

The Law Society is not responsible for the overseeing of claims handlers.

Ministerial Stationery

Mr. George Osborne: To ask the Secretary of State for Trade and Industry how much has been spent on official ministerial *(a)* business cards, *(b)* headed paper and *(c)* compliment slips in each year since 1997. [214946]

Ms Hewitt: The Departments' accounting systems cannot provide information broken down to the level of detail requested. Information on spend at this level of detail could be obtainable only at disproportionate cost.

Parliamentary Questions

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry when she will reply to question reference 213225, tabled for answer on 31 January. [221140]

Ms Hewitt: I have answered the question today.

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry when she will reply to question reference 214200, tabled on 1 February. [221141]

Nigel Griffiths: I answered the question on 21 February.

Small Firms

Mr. Ancram: To ask the Secretary of State for Trade and Industry when her Department intends to adjudicate on the application lodged on 19 January by Green Amp Ltd. concerning compliance approval under the Small Firms Loan Guarantee scheme. [212347]

Nigel Griffiths *[holding answer 4 March 2005]:* The Small Business Service received a Small Firm Loan Guarantee application from Green Amp Ltd.'s bank on 1 March 2005. It was processed within the usual time scale of five working days.

Special Advisers

Mr. Tyrie: To ask the Secretary of State for Trade and Industry if she will list the occasions between 31 March 2003 and 31 March 2004 when special advisers attended meetings with external representatives at which Ministers were not present. [210536]

Ms Hewitt: Special advisers hold meetings with a wide range of external representatives in their official capacity. All meetings held by special advisers and all speeches given by special advisers are conducted in accordance with the requirements of the Code of Conduct for Special Advisers.

Targets

Mr. Bercow: To ask the Secretary of State for Trade and Industry (1) what recent assessment she has made of whether the Public Service Agreement target to ensure that successful competitions have been completed for the management of at least 50 per cent. of UK nuclear sites by the end of 2008 will be met; [220020]

(2) what recent progress has been made towards the Public Service Agreement target to demonstrate progress by 2006 on raising the rate of UK productivity growth over the economic cycle; [220032]

(3) what recent progress has been made towards the Public Service Agreement target to promote ethnic diversity in the workplace; [220026]

(4) what recent progress has been made towards the Public Service Agreement target to narrow the productivity gap with the US, France and Germany; [220034]

(5) what recent progress has been made towards the Public Service Agreement target to improve the UK's competitiveness; [220033]

(6) what recent progress has been made towards the Public Service Agreement target to promote co-operative employment relations; [220025]

(7) what recent progress has been made towards the Public Service Agreement target to establish a safe, innovative and dynamic market for nuclear clean-up; [220022]

(8) what recent assessment she has made of whether the Public Service Agreement target to deliver annual 2 per cent. efficiency gains in nuclear clean up from 2006–07 will be met; [220021]

(9) what recent progress has been made towards the Public Service Agreement target to promote greater choice and commitment in the workplace; [220024]

(10) what recent assessment she has made of whether the Public Service Agreement target to reduce the civil nuclear liability by 10 per cent. by 2010 will be met; [220023]

(11) what recent progress has been made towards the Public Service Agreement target to improve the international performance of the UK's science and engineering base; [220035]

(12) what recent progress has been made towards the Public Service Agreement target to maintain energy security; [220044]

(13) what recent assessment she has made of whether the Public Service Agreement target to ensure that the UK ranks in the top three most competitive energy markets in the EU and G7 in each year will be met in 2005; [220042]

(14) what recent assessment she has made of whether the Public Service Agreement target to bring the UK levels of consumer protection up to the level of the best by 2006 will be met; [220041]

(15) what recent progress has been made towards the Public Service Agreement target to achieve fuel poverty objectives; [220045]

(16) whether the Public Service Agreement target to ensure that the UK ranks in the top three most competitive energy markets in the EU and G7 in each year was met in 2004; [220043]

(17) what recent assessment she has made of whether the Public Service Agreement target to bring the UK levels of consumer empowerment up to the level of the best by 2006 will be met; [220040]

(18) what recent progress has been made towards the Public Service Agreement target to improve the exploitation of the UK science base; [220037]

(19) what recent progress has been made towards the Public Service Agreement target to improve the overall innovation performance of the UK economy; [220036]

(20) what recent assessment she has made of whether the Public Service Agreement target to bring the UK levels of competition up to the level of the best by 2006 will be met; [220039]

(21) what recent progress has been made towards the Public Service Agreement target to place empowered consumers at the heart of an effective competition regime; [220038]

(22) what recent progress has been made towards the Public Service Agreement target to improve the environment; [220046]

(23) what recent progress has been made towards the Public Service Agreement target to improve the sustainable use of natural resources; [220047]

(24) what recent progress has been made towards the Public Service Agreement target to increase the number of people considering going into business; [220053]

(25) what recent progress has been made towards the Public Service Agreement target to increase enterprise in disadvantaged communities; [220055]

(26) what recent progress has been made towards the Public Service Agreement target to improve the overall productivity of small firms; [220054]

(27) what recent progress has been made towards achieving the Public Service Agreement target to reduce the persistent gap in growth rates between the English regions over the long-term; [220057]

(28) what recent progress has been made towards achieving the Public Service Agreement target to make sustainable improvements in the economic performance of all English regions by 2008; [220056]

(29) what recent progress has been made towards the Public Service Agreement target to build an enterprise society in which small firms thrive; [220052]

(30) what recent assessment she has made of whether the Public Service Agreement target to reduce greenhouse gas emissions to 12.5 per cent. below 1990 levels by 2010 will be met; [220049]

(31) what recent progress has been made towards the Public Service Agreement target to increase the use of energy saving technologies; [220048]

(32) what recent assessment she has made of whether the Public Service Agreement target to *(a)* secure agreement to a significant reduction in trade barriers and *(b)* improve trading opportunities for the UK and developing countries by 2005 will be met; [220051]

(33) what recent progress has been made towards achieving the Public Service Agreement target of moving towards a 20 per cent. reduction in carbon dioxide emissions below 1990 levels by 2010; [220050]

(34) what recent progress has been made towards achieving the Public Service Agreement target to create an extensive and competitive broadband market; [220059]

(35) whether the Public Service Agreement target to achieve value for money improvements of 2.5 per cent. a year across her Department was met in 2004; [220065]

(36) what recent progress has been made towards the Public Service Agreement target to maintain the reliability of energy supplies; [220067]

(37) what recent progress has been made towards the Public Service Agreement target to promote fair, competitive markets; [220066]

(38) what recent progress has been made towards the Public Service Agreement target to maintain the UK as the prime location in the EU for foreign direct investment; [220069]

(39) what recent assessment she has made of whether the Public Service Agreement target to eliminate fuel poverty in vulnerable households in England by 2010 will be met; [220068]

(40) what recent assessment she has made of whether the Public Service Agreement target to achieve value for money improvements of 2.5 per cent. a year across her Department will be met in 2005; [220064]

(41) what recent assessment she has made of whether the Public Service Agreement target to increase the employment rate by 2006 will be met; [220061]

(42) what recent assessment she has made of whether the Public Service Agreement target to bring about measurable improvements in gender equality by 2006 will be met; [220060]

(43) what recent progress has been made towards the Public Service Agreement target to deliver a measurable improvement in the business performance of UK Trade and Investment's international trade customers by 2008; [220063]

(44) what recent assessment she has made of whether the Public Service Agreement target to reduce significantly the difference between the overall employment rate and the employment rate of ethnic minorities by 2006 will be met; [220062]

(45) what recent progress has been made towards the Public Service Agreement target to maintain a flexible labour market. [220070]

Ms Hewitt: The Department reports on progress towards its Public Service Agreement (PSA) targets in its Departmental Reports and Autumn Performance Reports. The most recent of these assessments is contained in the Autumn Performance Report 2004 (Cm 6422 www.dti.gov.uk/pdfs/DTI_Autumn_Performance_Report_2004.pdf) which was laid before Parliament on 7 December 2004. This report gives the most recent assessment of progress towards all of the Department's PSA targets from the 2002 and earlier Spending Review.

The Department's first assessment of progress towards its PSA targets from the 2004 Spending Review will be in the Autumn Performance Report 2005.

VAT Registrations

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many businesses were *(a)* registered and *(b)* de-registered for VAT in each year since 2001 in each (i) constituency and (ii) region. [210135]

Nigel Griffiths: DTI figures based solely on VAT registrations and de-registrations are not available at constituency level, however local authority level data are available and are published on the Small Business Service website, VAT registrations and de-registrations for the UK regions and countries are shown as follows for 2001 to 2003. Data for 2004 will be available in autumn 2005.

Barclays have also revised the methodology for calculating the number of start-ups and have not published revised start or closure figures for the regions before 2003. Barclays bank's start-up data for each region and Wales for 2003 and for the first half of 2004 are given as follows.

Region	*2003*	*First half 2004*
East	47,500	28,600
East Midlands	34,700	21,300
London	84,300	57,200
North East	15,100	9,800
North West	57,400	34,200
South East	76,300	46,300
South West	52,400	30,600
West Midlands	38,000	23,200
Yorkshire and the Humber	37,700	23,300
Wales	21,500	13,700

Northern Ireland	2,940	2,870	3,950
Scotland	10,415	10,635	11,380

	De-registrations		
Wales	5,325	6,435	6,925

Source:
Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2003, Small Business Service, available from: www.sbs.gov.uk/analytical/statistics/vatstats.php

VAT registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 4 million enterprises were registered for VAT at the start of 2003.

Iain Wright: To ask the Secretary of State for Trade and Industry how many VAT registrations there have been in Hartlepool in each year since 1997. [210616]

Nigel Griffiths: DTI figures based solely on VAT registrations for Hartlepool unitary authority are shown as follows for the period 1997 to 2003. Data on VAT registrations are also available in the Library of the House. Data for 2004 will be available in autumn 2005.

VAT registrations 1997–2003—Hartlepool

	Number
1997	110
1998	130
1999	110
2000	110
2001	115
2002	105
2003	135

Business Start-ups and Closures: VAT Registrations and De-registrations 1994–2003, Small Business Service, available from: www.sbs.gov.uk/analytical/statistics/vatstats.php

VAT registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 4 million enterprises were registered for VAT at the start of 2003.

TRANSPORT

Agency Staff

Mr. George Osborne: To ask the Secretary of State for Transport how many people are employed by *(a)* the Driver Standards Agency, *(b)* Driver Vehicle Licensing Authority, *(c)* Vehicle Certification Authority and *(d)* Vehicle and Operator Service Agency; what the running costs of each body was in the last year for which figures are available; and if he will make a statement on the future of each body. [203826]

Mr. Jamieson: The information is as follows.

DVLA

1. At 1 April, the Driver and Vehicle Licensing Agency (DVLA) employed 6,250 staff on a full-time equivalent basis.

2. The most recent published accounts for the DVLA are for the 2003–04 financial year, in which the operating costs of the agency were £381.2 million.

3. As part of its realisation of efficiency gains, the DVLA has plans to reduce the number of staff employed by at least 500 by 2007–08.

DSA

1. At 1 April 2004, the Driving Standards Agency (DSA) employed 2,263 staff on a full-time equivalent basis.

2. The most recent published accounts for DSA are for the 2003–04 financial year, in which the running costs of the agency were £113.8 million.

3. Demand for driving tests has continued to increase significantly leading to a major recruitment and training exercise for driving examiners and supporting call centre, deployment and customer service staff. The DSA plans to increase staff by around 350 by 2005–06. Of these over 230 will be driving examiners.

VCA

1. At 1 April 2004, the Vehicle Certification Agency (VCA) employed 110 staff on a full-time equivalent basis.

2. The most recent published accounts for VCA are for the 2003–04 financial year, in which the running costs of the agency were £7.5 million.

3. There are currently no plans to change the number of staff employed by the VCA.

VOSA

1. At 1 April 2004, the Vehicle and Operator Services Agency (VOSA) employed 2,650 staff on a full-time equivalent basis.

2. The most recent published accounts for VOSA are for the 2003–04 financial year, in which the operating costs of the agency were £127 million.

3. There are currently no plans to change the number of staff employed by VOSA.

Ongoing review

We keep all four agencies under review, in accordance with Government guidelines, to ensure that their function is still required and that they continue to provide the most effective means of carrying out those functions.

Airport Security

Mr. Jim Cunningham: To ask the Secretary of State for Transport what recent discussions his Department has had with *(a)* the Home Office, *(b)* the Security Services, *(c)* the National Criminal Intelligence Service, *(d)* the National Crime Squad, *(e)* the Immigration Service, *(f)* Her Majesty's Customs and Excise and *(g)* the Association of Chief Police Officers, regarding the level of security at UK airports. [220370]

Charlotte Atkins: Department for Transport Ministers and Officials keep the threat to civil aviation in the UK, and the security measures in place at UK airports, under constant review in conjunction with the organisations listed and the aviation industry. In addition to regular bilateral discussions on specific issues, these bodies are represented on relevant cross-departmental ministerial and Cabinet Office committees; the National Aviation Security Committee (NASC) and its various sub-committees; and the Multi-Agency Threat and Risk Assessment (MATRA) groups that have been established at all UK airports.

Departmental Policies

Mr. Jim Cunningham: To ask the Secretary of State for Transport if he will set out, with statistical evidence

relating as closely as possible to Coventry, South constituency, the effects on Coventry, South of changes to his Department's policy since 1997. [220369]

Charlotte Atkins: The Department has put in place a considerable programme of improvements across a wide range of transport policy areas since 1997. I am confident that the Coventry, South constituency benefited from these. For example, the injury totals for all road casualties in Great Britain fell from 32 7,803 in 1997 to 290,607 in 2003, and the numbers of children aged under 16 years killed or seriously injured on our roads fell from 6,452 in 1997 to 4,100 in 2003. On our railways, passenger kilometres have increased from 32.1 billion in 1996–67 to 40.9 billion in 2003–04, a rise of 27 per cent. In terms of improvements to air quality emissions of the UK's two main pollutants—nitrous oxides and particles—fell by 31 per cent. and 27 per cent. respectively between 1997 and 2002.

The funding provided directly to West Midlands metropolitan authorities since 1997 is shown in the following table[1]. It has been for West Midlands metropolitan authorities to determine how that allocation is spent, in line with its local transport plan and its priorities.

[1] Funding allocations for 1997–98 not included since they cover a period proceeding May 1997 and announcements concerning the 1997–98 allocation were made in 1996.

£ million

West Midlands metropolitan authorities nature of funding	1998–99	1999	2000–01	2001–02	2002–03	2003–04	2004–05
Capital maintenance	7.557	11.516	13.331	22.361	26.246	21.942	24.723
Integrated block	19.857	21.491	22.300	46.600	49.380	51.000	55.012
Major schemes	21.987	10.700	6.902	4.805	13.875	13.325	24.4
Targeted bus grants[1]	0.090	0.090	0.500	0.960	1.260	0.850	0.140
Total	49.491	43.797	43.033	74.726	90.761	87.117	104.275

[1] Includes Rural Bus Subsidy Grant and Rural Bus Challenge funding.

In addition, the Coventry, South constituency is benefiting from major improvements to strategic infrastructure. For example in December 2004 the Government fully approved the Quality Coventry Bus Network and has agreed to contribute £28 million to the costs of the scheme, which will make a real difference to current bus users as well as encouraging greater bus use in the city.

The Highways Agency has a programme of work that includes the M40 junction 15 (Longbridge Roundabout) scheme. This work is due to commence in 2006–07. The objective of this scheme is to relieve congestion in the Coventry, South constituency area.

The Coventry, South constituency has benefited from the £7 billion investment in the West Coast Railway Line. Also £4.2 million has been spent on railway related park and ride schemes.

Finally, the Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from 2001 Census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/. In addition, the Department for Transport's website also contains data on transport trends over the past 20 years at http://www.dft.gov.uk

Geraint Davies: To ask the Secretary of State for Transport if he will set out, with statistical evidence relating as closely as possible to Croydon, Central, the effects of the Department's policies and actions on Croydon, Central constituency since 1997. [220387]

Charlotte Atkins: The Department has put in place a considerable programme of improvements across a wide range of transport policy areas since 1997. I am confident that the Croydon, Central constituency will have benefited from these. For example, the injury totals for all road casualties in Great Britain fell from 327,803 in 1997 to 290,607 in 2003, and the numbers of children aged under 16 years killed or seriously injured on our roads fell from 6,452 in 1997 to 4,100 in 2003. On our railways, passenger kilometres have increased from 32.1 billion in 1996–97 to 40.9 billion in 2003–04, a rise of 27 per cent. In terms of improvements to air quality, emissions of the UK's two main pollutants—nitrous oxides and particles—fell by 31 per cent. and 27 per cent. respectively between 1997 and 2002.

Responsibility for a number of transport functions has been devolved to the Greater London Assembly and Transport for London. For example, the Mayor sets a transport strategy and provides capital funding to London boroughs to implement parts of it. Since 1997, the Croydon, Central constituency has benefited from the investment being made in new rail rolling stock, the completion of the Croydon Tramlink and will benefit from the Coulsdon Relief Road, now under construction.

Finally, the Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/. In addition, the Department for Transport's website also contains data on transport trends over the past 20 years at http://www.dft.gov.uk.

Emissions

Mrs. Anne Campbell: To ask the Secretary of State for Transport what the most recent data are for levels of emissions, expressed *(a)* per person/km and *(b)* per vehicle/km, of (i) carbon monoxide, (ii) benzene, (iii) methane, (iv) other volatile organic compounds, (v) 1.3 butadiene and (vi) particulates from (A) cars and (B) powered two-wheeled vehicles in the UK. [220868]

Mr. Jamieson: The data for 2002, the last full year for which the data are available, are given in the following table. These have been derived by taking the estimated total fleet emissions of each pollutant in tonnes per year for each vehicle class and dividing by the total passenger-kilometres and vehicle-kilometres respectively.

	Grammes per passenger km		Grammes per vehicle km	
	Cars and taxis	Powered two-wheeled vehicles	Cars and taxis	Powered two-wheeled vehicles
Carbon monoxide	2.57	16.27	4.02	17.58
Benzene	0.0062	0.0451	0.0097	0.0488
Methane	0.012	0.136	0.019	0.147
Other volatile organic compounds	0.248	2.222	0.387	2.403
1.3 butadiene	0.0024	0.0289	0.0037	0.0313
Particulates	0.012	0.098	0.019	0.106

Source:
Defra/Netcen and DfT Transport Statistics.

Highway Schemes

Mr. Chope: To ask the Secretary of State for Transport which highway schemes provisionally approved by his Department in the Local Transport Capital Settlements announced in *(a)* December 2000, *(b)* December 2001, *(c)* December 2002 and *(d)* December 2003 have received final approval; and what capital allocation has been provided in respect of each. [212303]

Charlotte Atkins: The following table sets out major highway schemes provisionally approved between December 2000 and December 2003. These scheme have now had final approval The table also includes capital allocation that has been provided in respect of each.

LTP highway scheme	Allocation (£ million)
Barnsley Coalfields Link Road Phases 2 and 3	6.206
Sheffield Northern Inner Relief Road Stages 2 and 3	55.989
East Leeds Link	9.500
Leeds Inner Relief Road Stage 7	50.358
South Bradford Integrated Transport Scheme	11.364
Carlisle Northern Development Route	[1]78.812
A57 Cadishead Way (Brinell Drive to City Boundary)	19.905
Salford Manchester Inner Relief Road (Regent Road to Gore Street)	34.314
Scotswood Road	13.200
Sunderland Southern Radial Route	21.348
A689 Sedgefield to Wynyard Improvement	9.349
A1687 Chilton Bypass	8.364
Nar Ouse Regeneration Route	7.752
South Lowestoft Relief Road	29.621
West Thurrock Regeneration Ring Road	5.07
A13/A127-A1159 Corridors	14.5
A228 Main Road to Ropers Lane Phase 1	11.860
Northfield Relief Road	15.282
Cradley Heath Bypass	6.769
Barford Bypass	9.050
Biddulph Inner Bypass	8.851
Rugeley Eastern Bypass Stage 2	17.810
Barnstaple Western Bypass	37.954
Semington to Melksham	10.82
Plymouth Northern Corridor	11.250
Partney Bypass	6.305
Rearsby Bypass	7.003
Mansfield and Ashfield Regeneration Route	28.083

[1] PFI

London Underground

Mrs. Dunwoody: To ask the Secretary of State for Transport how much central Government funding was provided to London Underground in each financial year between 1997–98 and 2004–05 *(a)* at current prices and *(b)* at constant prices, separately identifying amounts provided for the Jubilee Line Extension. [220698]

Mr. McNulty *[holding answer 7 March 2005]:* The following tables set out:

(a) For the period up to July 2003, the amounts London Underground (LU) received from the London Regional Transport (LRT) grant. (Up to July 2000, when Transport for London was established, a single grant was paid to LRT to support LU, buses, river services, Croydon Tramlink, etc, and the Department's estimates do not record a separate element for LU. Between July 2000 and July 2003, the grant provided to LRT was only for LU.)

(b) For the period since July 2003, the element of GLA transport grant the Government have identified as being for London Underground. (The GLA transport grant is paid as a single block, and it is for the Mayor to determine LU's budget).

£ million (cash)

	London Regional Transport	London Underground[2]	Of which Jubilee Line extension construction
1997–98	630	544	506
1998–99	411	313	267
1999–2000	816	640	478
2000–01	315	267	—
2001–02[2]	484	460	—
2002–03	767	767	—
2003–04[3]	867	1,218	—
2004–05[4]	—	1,070	—

[1] Source: London Underground accounts for 1997–98 to 2003–04.
[2] In 2001–02, LRT spent £24 million on re-structuring and re-organising LT Group.
[3] In 2003–04, the grant for LU was paid to LRT until July 2003 with the balance of £346 million being paid as part of the GLA Transport Grant from August 2003.
[4] The element of the GLA transport grant identified by Government for London Underground.

£ million[1]

	London Regional Transport	London Underground	Of which Jubilee Line extension construction
1997–98	730.9	631.1	587.0
1998–99	463.4	352.9	301.0
1999–2000	900.7	706.4	527.6
2000–01	343.5	291.2	—
2001–02	514.9	489.4	—
2002–03	789.1	789.1	—
2003–04	867	1,218	—
2004–05	—	1,048.0	—

[1] Constant 2003–04 prices—HMT GDP Deflator

Motorcycling Strategy

Mrs. Anne Campbell: To ask the Secretary of State for Transport what consultation the Government conducted with organisations or interests other than motorcycle users and manufacturers prior to publishing its recent motor cycling strategy; and what responses it received. [220846]

Mr. Jamieson: When developing the National Motorcycling Strategy, the Government took account of the views of the Advisory Group on Motorcycling. This Group represented motorcycling interests, motoring organisations, local government and the police.

The Strategy is a framework for motorcycling to become fully recognised as a mode of transport. It embraces a whole range of actions both for government and non-government organisations to pursue in order for this "mainstreaming" of motorcycling to be successfully achieved. Consultation with both motorcycling interests and other affected parties will take place, where necessary, as these specific actions are taken forwards.

Motorway Speed Limits

Mr. Greg Knight: To ask the Secretary of State for Transport under whose authority temporary speed limits on motorways are imposed when roadworks are taking place; and what criteria are used to decide the level of the speed limit. [220457]

Mr. Jamieson *[holding answer 8 March 2005]:* Temporary speed limits are imposed by means of an Order made, or a Notice issued, by the Secretary of State under the provisions of the Road Traffic Regulation Act 1984 as amended by the Road Traffic (Temporary Restrictions) Act 1991.

The criteria for deciding the level of the speed limit are set out in the Highways Agency's Interim Advice Note 57/04, a copy of which has been placed in the House Library.

Mr. Greg Knight: To ask the Secretary of State for Transport for what reasons a temporary speed limit of 40 mph was in place on the M1 motorway on the northbound carriageway south of junction 5 on 24 February; for what reasons the speed limit was set at 40 mph; and if he will make a statement. [220458]

Mr. Jamieson *[holding answer 8 March 2005]:* On 24 February, a mandatory 40 mph speed limit was in place on the M1 Motorway between Junctions 4 and 5 on both the north and southbound carriageways to protect both drivers and the workforce during road works. This had been agreed with the police.

The police set an advisory 40 mph speed limit, using the signals in the central reserve, north of the works, following a minor road traffic accident in lane 3 at 1745 hours. This was for the safety of drivers and those dealing with the incident.

Pilots (Security Clearance)

Mr. Lyons: To ask the Secretary of State for Transport when he expects to have an appeals system in place to review the removal of pilots' security clearance. [220347]

Charlotte Atkins: I expect the new procedure to be in place in the next few weeks.

School Buses

John Thurso: To ask the Secretary of State for Transport what plans he has to provide capital funding to local authorities for school bus schemes using accessible low floor buses fitted with satellite tracking equipment to provide services to primary schools. [220599]

Charlotte Atkins: We know that well-designed school bus schemes have the potential to reduce car dependency for journeys to school and the traffic congestion that results from this.

The Department does, from time-to-time, receive applications from local authorities for the funding of school buses as a "major schemes" under the Local Transport Plan process. Each of these is considered on its merits, taking account of value for money, regional priorities and affordability. It is for the authorities to determine the precise nature of the bid based on local needs, but the Department would insist that for future schemes vehicles must be DDA compliant.

Snow Ploughs

Mr. Greg Knight: To ask the Secretary of State for Transport how many snow ploughs and other snow-moving vehicles are operated by each local authority in England. [220464]

Charlotte Atkins *[holding answer 8 March 2005]:* This information is not collated centrally by the Department for Transport.

The Department strongly recommends that local authorities provide a winter service, including snow ploughing, in accordance with the Code of Practice for Maintenance Management "Delivering Best Value in Highway Maintenance" published in 2001 by the Institution of Highways and Transportation. This recommends that local highway authorities consult road users on a winter operational plan on an annual basis, and publish and implement it. This plan will inform deliberations on the numbers of specialised winter maintenance vehicles required.

Targets

Mr. Bercow: To ask the Secretary of State for Transport (1) what recent assessment he has made of whether the public service agreement target to reduce congestion on the inter-urban trunk road network below 2000 levels will be met by 2010; [219083]

(2) what recent assessment he has made of whether the public service agreement target to reduce congestion in large urban areas in England below 2000 levels will be met by 2010. [219084]

Mr. Jamieson: The Commission for Integrated Transport and the Select Committee on Transport, Local Government and the Regions criticised the congestion PSA targets set in 2000 on the grounds that they did not relate to specific roads and were not meaningful to road users, since they did not capture important aspects of road users experience such as journey time reliability. In the light of these concerns the Government announced in the White Paper "The Future of Transport" (July 2004) that it was replacing the previous targets with new ones, to be published in July 2005. In the "Transport 10-Year Plan 2000: Delivering better transport—progress report" (December 2002) the Government said that congestion forecasts were higher than previously, largely due to

higher economic growth. The report went on to say that although the measures set out in the 10-Year Plan will deliver significant reductions in projected levels of congestion, these may not be sufficient to secure a return to 2000 levels.

Mr. Bercow: To ask the Secretary of State for Transport what recent assessment he has made of whether the public service agreement target to secure improvements in rail punctuality will be met by 2010. [219085]

Mr. McNulty: An assessment of progress for all the Department's current public service agreement targets was published in December 2004 in our "Autumn Performance Report"—copies of which were placed in the House of Commons Library.

Mr. Bercow: To ask the Secretary of State for Transport what recent assessment he has made of whether the public service agreement target to improve the punctuality and reliability of rail services to at least 85 per cent. by 2006 will be met. [219087]

Mr. McNulty: This new public service agreement (PSA) target comes into effect in April 2005.

Mr. Bercow: To ask the Secretary of State for Transport what recent assessment he has made of whether the public service agreement target to increase rail use in Great Britain by 50 per cent. from 2000 levels will be met by 2010. [219088]

Mr. McNulty: An assessment of progress for all the Department's current public service agreement targets was published in December 2004 in our "Annual Performance Report"—copies of which were placed in the House of Commons Library.

Mr. Bercow: To ask the Secretary of State for Transport what recent assessment he has made of whether the public service agreement target to reduce the number of people killed or seriously injured in road accidents by 40 per cent. compared with the average for 1994 to 1998 will be met by 2010. [219091]

Mr. Jamieson: We are making good progress. Provisional data for the third quarter of 2004 (to end September 2004) has been published and shows continuing overall progress and trends with killed and seriously injured casualties showing a 26 per cent. reduction against the 1994–98 baseline.

Mr. Bercow: To ask the Secretary of State for Transport what recent assessment he has made of whether the public service agreement target to reduce the number of children killed or seriously injured in road accidents by 50 per cent. compared with the average for 1994 to 1998 will be met by 2010. [219092]

Mr. Jamieson: Provisional data for the second quarter of 2004 (to end June 2004) shows that we are making excellent progress. By the end of June 2004, child deaths or serious injuries were down 40 per cent. from their baseline; over three-quarters of the way towards our 50 per cent. target.

Mr. Bercow: To ask the Secretary of State for Transport what recent progress has been made towards achieving the public service agreement target to reduce the significantly higher incidence within disadvantaged communities of people killed or seriously injured in road accidents. [219093]

Mr. Jamieson: The target is to secure a greater reduction in the overall number of road casualties in the 88 Neighbourhood Renewal Fund Areas in England designated by the Office of the Deputy Prime Minister, than for England as a whole, comparing the figure for 2005 with the baseline for 1999 to 2001. Latest data for 2003 show there has been a greater reduction, since the baseline, in the number of road accident casualties in disadvantaged districts than in England as a whole (10.6 per cent. reduction in deprived districts compared with 9.0 per cent. nationwide).

Mr. Bercow: To ask the Secretary of State for Transport what recent progress has been made towards achieving the public service agreement target to improve air quality by meeting the National Air Quality strategy objectives for carbon monoxide, lead, nitrogen dioxide, particles, sulphur dioxide, benzene and 1,3-butadiene. [219094]

Mr. Jamieson: Preliminary results show that, last year, we met the four Air Quality Strategy objectives in the public service agreement target for carbon monoxide, benzene, 1.3-butadiene and lead. Objectives for particles and sulphur dioxide, due to be met last year, have not yet been achieved in every part of the country.

Modelling shows that more work will be needed if we are to meet future objectives for nitrogen dioxide and particles in all parts of the country. We are reviewing the Air Quality Strategy and the Climate Change Programme to see what more can be done to make faster progress. At the same time, we are taking forward initiatives announced in the Future of Transport White Paper. These include working with our European partners to develop tighter standards for both vehicles and fuels, and ensuring that local authorities' Air Quality Action Plans are integrated into their Local Transport Plans in areas where transport has a significant impact on local air quality.

Mr. Bercow: To ask the Secretary of State for Transport what recent assessment he has made of whether the public service agreement target to reduce greenhouse gas emissions to 12.5 per cent. below 1990 levels by 2010 will be met. [219095]

Mr. Jamieson: Recent assessments are that the Government will meet their target to reduce greenhouse gas emissions by 12.5 per cent. on base year levels by 2010. Indeed, they expect to do considerably better. The UK is currently on track to achieve a 21 per cent. reduction in greenhouse gas emissions by 2010, thereby achieving more the target by 17 MtC.

Mr. Bercow: To ask the Secretary of State for Transport what recent progress has been made towards achieving the public service agreement target of moving towards a 20 per cent. reduction in carbon dioxide emissions below 1990 levels by 2010. [219096]

Mr. Jamieson: Recent progress on policies and other programmes to reduce emissions from carbon dioxide and other greenhouse gases from the transport sector

and other sectors was published in "Review of the UK Climate Change Programme: consultation paper" on 8 December 2004.

Examples of measures which have led to reductions in carbon emissions from the transport sector include the Government's support for low carbon vehicles and fuels through fiscal and other incentives and support for research, development and demonstration programmes such as the New Vehicle Technology Fund. Policy measures in the transport sector alone are forecast to reduce carbon dioxide emissions by some 4.4 million tonnes of carbon a year by 2010.

The Government expect that, as a result of their policies, carbon dioxide emissions will fall. In 2003, they are estimated to have been about 7 per cent. below 1990 levels. By 2010, they are forecast to be 14 per cent. below 1990 levels based on current projections. This figure includes only the estimated emission reductions gained from measures that are firm and funded. It does not include, for example, measures that may happen but are not yet finalised, such as a possible further round of voluntary agreements on average new car fuel efficiency between the European Commission and the automotive industry after the current agreements expire in 2008.

Thameslink

Mr. Dismore: To ask the Secretary of State for Transport when he will make a decision on whether to reopen the inquiry into Thameslink 2000; and if he will make a statement. [220523]

Mr. McNulty: The Planning Inspectorate announced in letters sent to interested parties on 6 January 2005 that the inquiry into the Thameslink 2000 scheme is to be re-opened. The re-opened inquiry will consider all the applications relating to the scheme that are now before the Deputy Prime Minister and the Secretary of State for Transport for determination. I understand that no date has yet been fixed for the inquiry to re-open, but that this is unlikely to be until late summer. I will ensure that my hon. Friend is notified once a date has been settled.

Traffic Wardens

Mr. Greg Knight: To ask the Secretary of State for Transport what the present position is concerning the new code of conduct for traffic wardens; at what intervals he plans to revise the code; what provisions are in place to allow members of the public to make representations concerning the code; if he will re-publish the code each time it is revised; and if he will make a statement. [218966]

Charlotte Atkins *[holding answer 2 March 2005]:* We are working on the statutory guidance for local authorities, in connection with their enforcement of traffic contraventions, as authorised by the Traffic Management Act 2004. This will include public consultation on the provisions of the guidance.

Trip Survey

John Thurso: To ask the Secretary of State for Transport what the average *(a)* number and *(b)* distance of trips as calculated by the National Travel Survey was by (i) car driver, (ii) car passenger, (iii) bus, (iv) walking and (v) other modes of transport broken down by (A) commuting, (B) business, (C) education, (D) escort education, (E) shopping and (F) other reasons, broken down by (1) sex and (2) those (v) under 17-years, *(w)* 17 to 29 years, (x) 30 to 49 years, *(y)* 50 to 59 years and *(z)* over 60-years in the latest three-year period for which survey results are available. [218209]

Charlotte Atkins: The information for 2002–03 has been placed in the Libraries of the House. The two year aggregate for 2002–03 provides a larger sample size than the previous three year aggregates because of an increase in sample size from 2002.

WORK AND PENSIONS

Child Poverty

Sarah Teather: To ask the Secretary of State for Work and Pensions how many children in each London borough have been reported to be living in poverty in each year since 1995. [212378]

Mr. Pond: Our first step towards eradicating child poverty as set out in our current Public Service Agreement target is to reduce the number of children in low-income households by a quarter by 2004–05. This is measured using the proportion of children in relative low income households. Specific information regarding low income for the United Kingdom is available in "Households Below Average Income 1994–95 to 2002–03". Data are not available below the regional level and are only available as proportions at the regional level. It should be noted that the reporting of year-on-year changes in the regional low-income rates are not reliable. 'Measuring child poverty', published in December 2003, outlines the Government's measure of UK child poverty for the long term. The measure will consist of three tiers; absolute low income, relative low income and material deprivation and low income combined. The Government will set a target as part of the 2006 SR06 Spending Review to halve by 2010–11 the numbers of children suffering a combination of material deprivation and relative low income. Data will not be available below the regional level.

"Households below average income 1997–98 to 2002–03" and "Measuring Child Poverty" are available in the Library.

Child Support Agency

Ms Walley: To ask the Secretary of State for Work and Pensions what provision is available to support a claimant whilst a re-evaluation of Child Support Agency payments is taking place. [218606]

Mr. Pond: Within the Child Support legislation, there is no provision available to a claimant while a re-evaluation of Child Support payments is being made.

Non-resident parents are responsible for continuing regular payments while their liability is being re-calculated. If the non resident parent does not pay whilst their liability is being re-calculated, any moneys not paid will be added to the arrears balance.

Council Tax Benefit

Mrs. Spelman: To ask the Secretary of State for Work and Pensions how many *(a)* people, *(b)* pensioners and *(c)* people aged 65 years or over in England receive 100 per cent. council tax benefit. [219880]

Mr. Pond: The available information is in the table.

Council tax benefit beneficiaries with full benefit, by age, in England: May 2003

	[1]Council tax benefit beneficiaries
All	3,629,000
60 and over	1,623,000
65 and over	1,319,000

[1] Figures are rounded to the nearest thousand.

Notes:

The figures are subject to a degree of sampling variation.

2. Beneficiaries are all claimants and partners in the relevant category.

3. Council tax benefit cases exclude any second adult rebate cases.

Source:

Housing Benefit and Council Tax Benefit Management Information System, Annual 1 per cent. sample, taken in May 2003.

Departmental Expenditure

Mr. Frank Field: To ask the Secretary of State for Work and Pensions (1) how much of his Department's annual expenditure was spent on *(a)* pensioners, *(b)* the sick and disabled, *(c)* the unemployed, *(d)* lone parents and *(e)* other types of claimants in (i) 1997 and (ii) the latest year for which figures are available; [219396]

(2) what percentage of total benefit expenditure went to those whose primary income was from *(a)* pensions, *(b)* sick and disabled persons' benefits, *(c)* unemployment benefits, *(d)* lone parent benefits and *(e)* benefits in (i) 1997 and (ii) the latest period for which figures are available. [219534]

Mr. Pond *[holding answer 4 March 2005]:* The available information is in the table. It is not possible to allocate expenditure according to whether the benefit income represented the recipient's primary source of income, so expenditure has been assigned according to the principal benefits received.

	Benefit expenditure[1]			
	Cash terms	*Real terms 2004–05 prices*	*Percentage of benefit expenditure*	*Percentage of gross domestic product*
1997–98				
Pensioner benefits	43,426	51,391	46.5	5.3
Sick and disabled benefits	23,868	28,246	25.6	2.9
Unemployment benefits	5,927	7,014	6.3	0.7
Lone parent benefits	8,247	9,760	8.8	1.0
All other benefits	11,874	14,051	12.7	1.4
Total benefits	93,342	110,464	100.0	11.3
2003–04				
Pensioner benefits	60,354	61,644	57.2	5.4
Sick and disabled benefits	29,751	30,387	28.2	2.7
Unemployment benefits	3,781	3,862	3.6	0.3
Lone parent benefits	7,998	8,169	7.6	0.7
All other benefits	3,676	3,754	3.5	0.3
Total benefits	105,559	107,816	100.0	9.5

[1] All figures have been rounded to the nearest £ million.

Notes:

1. Figures may not sum due to rounding

2. Expenditure figures quoted for 1997–98 are outturn and those quoted for 2003–04 are estimated outturn.

3. The following benefits are split between more than one client group:

Bereavement benefits; incapacity benefit; severe disablement allowance; income support; housing benefit; council tax benefit; family credit.

4. Pensioner benefits include retirement pension (contributory and non contributory), bereavement benefits, Christmas bonus (contributory), incapacity benefit, severe disablement allowance, winter fuel payment, over 70s payment, over 80s payment, over 75 TV licence, pensions compensation board, income support, pension credit, housing benefit and council tax benefit.

5. Sick and disabled benefits include attendance allowance, disability living allowance, industrial injuries benefits, invalid care allowance/ carer's allowance, motability/specialised vehicles fund, vaccine damage payments, war disablement pensions, incapacity benefit, statutory sick pay, severe disablement allowance, disability working allowance, income support, housing benefit and council tax benefit.

6. Unemployment benefits include unemployment benefit/jobseeker's allowance (contributory and income based), housing benefit and council tax benefit.

7. Lone parent benefits include family credit, income support, housing benefit and council tax benefit.

8. All others benefits include child benefit, guardian's allowance, child's special allowance, bereavement benefits, maternity allowance, statutory maternity pay, non contributory Christmas bonus, new deal allowances and credits, job grant, war widows pensions, earnings top up, social fund, family credit, income support, housing benefit and council tax benefit.

9. Comparisons between years are affected by transfers of responsibilities between Departments, in particular family credit being replaced by working families tax credit in 1999, war pensions transferring to the Veterans Agency in 2002 and child benefit being transferred to the Inland Revenue in 2003.

DWP expenditure tables (1 and 7) published on the internet at http://www.dwp.gov.uk/asd/asd4/expenditure.asp. All figures are consistent with the pre-Budget report (2 December 2004).

Job Centres

Mr. Chope: To ask the Secretary of State for Work and Pensions what the cost has been of refurbishing jobcentres at *(a)* Blandford, *(b)* Bridport, *(c)* Christchurch, *(d)* Poole and *(e)* Wareham in the last three years. [212300]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Christopher Chope, dated 9 March 2005:

The Secretary of State has asked me to reply to your question about the cost of refurbishing the Jobcentres in Blandford, Bridport, Christchurch, Poole and Wareham in the last three years. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

During this time, Blandford, Bridport, Christchurch and Wareham were refurbished to meet the corporate Jobcentre Plus vision. As Poole was relocated to a new site, new build costs were incurred.

Information on costs incurred is in the table.

£

Jobcentre plus office	*Cost*
Blandford	287,000
Bridport	300,000
Christchurch	320,000
Poole	343,000
Wareham	242,000

Notes:
1. Information is for the period October 2002 to July 2004 when costs were incurred.
2. Figures are rounded to the nearest thousand.

Source:
Jobcentre Plus South West Regional Office

I hope this information is helpful.

Mr. Chope: To ask the Secretary of State for Work and Pensions how many work-focused benefit interviews were carried out at jobcentres in *(a)* Blandford, *(b)* Bridport, *(c)* Christchurch, *(d)* Poole and *(e)* Wareham in the last month for which figures are available. [212301]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of the Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Christopher Chope, dated 9 March 2005:

The Secretary of State has asked me to reply to your question about the number of work-focused benefit interviews carried out at Jobcentres in Blandford, Bridport, Christchurch, Poole and Wareham in the last month for which figures are available. This is something which falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus.

The information is in the table.

Jobcentre plus office	*Number of interviews*
Blandford	90
Bridport	100
Christchurch	140
Poole	540
Wareham	90

Notes:
1. Figures are for January 2005.
2. Figures are rounded to the nearest 10.

Source:
Jobcentre Plus Customer Management System

I hope this information is helpful.

Jobseekers

Mr. Boswell: To ask the Secretary of State for Work and Pensions what restrictions his Department places on the jobs which may be offered to jobseekers which raise issues of conscience for those taking them up. [219713]

Jane Kennedy: The administration of Jobcentre Plus is a matter for the Chief Executive of Jobcentre Plus, David Anderson. He will write to the hon. Member.

Letter from David Anderson to Mr. Tim Boswell, dated 9 March 2005:

The Secretary of State has asked me to reply to your question regarding the restrictions this Department places on jobs which may be offered to jobseekers which raise issues of conscience for those taking them up. This is something that falls within the responsibilities delegated to me as Chief Executive of Jobcentre Plus

It is our policy to accept vacancies across a wide range of occupations, on the understanding that they are fully compliant with UK employment legislation and civil law. We do not seek to restrict the advertising of vacancies where the work involved may raise an issue of conscience, but where the employment is lawful.

Under the Employment and Training Act 1973 we have to provide a service to both employers and to people seeking employment. We must, therefore, have strong reasons for refusing an employer access to our services.

Some vacancies advertised by Jobcentre Plus include statements which, due to the nature of work or the employer's circumstances, jobseekers are not obliged to apply for. These include vacancies in the adult entertainment, sex and related industries and/or involving nudity, and vacancies from employers where industrial action is taking place.

Whilst the payment of Jobseekers Allowance is intended to provide a safety net of a minimum level of income for those between jobs, unemployment must not be voluntary. Sanctions therefore underpin the benefit system.

Safeguards in the Jobseeker's Allowance regulations mean that individuals who display good cause for refusing employment would not be sanctioned and lose benefit. Jobseeker's Allowance regulations specify that a person is considered to have good cause where, amongst other reasons, they have a sincerely held religious or conscientious objection.

I hope this information is helpful.

Maternity Provision

Mr. Willis: To ask the Secretary of State for Work and Pensions what plans the Government has to increase the rate of *(a)* statutory maternity pay and *(b)* maternity allowance. [219801]

Mr. Pond: The standard rate of Statutory Maternity Pay and Maternity Allowance will be increased from £102.80 to £106 a week from April 2005 as part of the annual uprating process.

The Government's aim is to give all children the best start in life and to give parents more choice about how to balance their work and family life. As part of this the Government have undertaken to extend the payment period of Statutory Maternity Pay and Maternity Allowance from 26 weeks to 39 weeks from April 2007.

The Government recognise that whether parents can afford to take time off is crucial to their decisions about how much leave from work they can take. Therefore we

are asking in our consultation document "Work and Families, Choice and Flexibility", issued by the Secretary of State for Trade and Industry on 28 February, what the guiding principles should be for setting the level of flat rate payments.

New Deal for Disabled People

Dr. Murrison: To ask the Secretary of State for Work and Pensions what steps his Department has taken to inform employers about the new deal for disabled people; and how it assesses the success of measures to publicise the programme to employers. [219871]

Jane Kennedy: As part of its range of new deal promotional materials, the Department provides a leaflet for employers about the new deal for disabled people (NDDP), which is used by Jobcentre Plus in working locally with employers. It includes case studies of and for employers and can also be used by NDDP Job Brokers as a marketing tool. The NDDP News Magazine, which is published on a quarterly basis and has a circulation of 10,000 to 15,000, also includes positive features on employers' experiences of employing people who have found a job through NDDP and is frequently requested by Job Brokers for use in their promotional activities.

The main emphasis in promoting NDDP to employers lies with individual Job Brokers. Job Broker services vary and are focused on customers' requirements and the needs of the local labour market. Their marketing activities are also tailored to need, and are most likely to be primarily directed towards potential customers. Job Brokers can work directly with an employer but will only do so with the agreement of the customer concerned.

A key indicator of success is in the programme's achievement of job entries. Up to September 2004, over 46,000 people had gained a job through NDDP since the programme began in 2001. The Department has in place a comprehensive research programme for NDDP, designed to establish the experiences and views of the range of stakeholders, including Job Brokers, customers and employers, among others. This does not directly assess the success of Job Brokers' measures to publicise the programme, but emerging findings show that employers are broadly aware of the new deal and, although less so of NDDP specifically, they are aware of Job Broker organisations in their area, where Job Brokers often advertise under their own name for their NDDP service.

Social Security Advisory Committee

Mr. Willetts: To ask the Secretary of State for Work and Pensions if he will place in the Library copies of past advice on tax that he has received from the Social Security Advisory Committee. [219558]

Mr. Pond: The Social Security Advisory Committee do not give advice on tax to my right hon. Friend the Secretary of State.

NORTHERN IRELAND

Diabetes (Public Service Recruits)

Mr. Beggs: To ask the Secretary of State for Northern Ireland what measures have been put in place by the Northern Ireland Ambulance Service to medically assess people with diabetes who apply to become paramedics. [220533]

Angela Smith: All applicants to join the Northern Ireland Ambulance Service Health and Social Services Trust who have been successful at interview must undergo a pre-employment medical check by Belfast City Hospital's Occupational Health Unit, which advises the Trust about applicants' fitness for the work.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what measures have been put in place by the Fire Service of Northern Ireland to medically assess people with diabetes who apply to become firefighters. [220534]

Angela Smith: All applicants who apply to join the Northern Ireland Fire Brigade as firefighters undergo the same medical assessment, regardless of any underlying medical condition. An occupational health doctor and nurse conduct the assessment, an accredited specialist in occupational medicine reviews the results and, if necessary, further information is requested from the applicant's general practitioner or specialist in the applicant's particular medical condition.

Alzheimer's Disease

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment has been made of the effectiveness of *(a)* donepezil, *(b)* rivastigmine and *(c)* galantamine in treating Alzheimer's sufferers in Northern Ireland. [220460]

Angela Smith: No departmental assessment has been undertaken on the effectiveness of *(a)* donepezil *(b)* rivastigmine *(c)* galantamine in treating Alzheimer's sufferers in Northern Ireland. At present, clinicians prescribe these medicines, taking into account evidence of best practice and the clinical circumstances of the individual patient.

The National Institute for Clinical Excellence (NICE) is currently undergoing a consultation on recommendations for the prescribing of the medicines. While NICE guidance only applies to England and Wales, following publication of the final appraisal determination on use of these medicines, the Department may consider its relevance to Northern Ireland.

Ards Borough (Planning)

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will make a statement on the impact that the number of site meetings being requested by Ards borough council is having on the planning process in the Ards borough area. [208978]

Angela Smith: Managing and attending site meetings involves a significant proportion of a senior planning officer's time and inevitably has an effect on the time taken to process all planning applications. It appears that the meetings are often requested as a matter of

routine and the Planning Service questions the value of many of these site meetings. Furthermore, I am advised that when an opinion is revised, it is usually due to receipt of additional information or amendments to the proposal to meet the Planning Service's requirements.

Belfast Regeneration Office

Mr. Dodds: To ask the Secretary of State for Northern Ireland how much has been spent by the Belfast Regeneration Office in each year since it was set up; and how much has been spent by each team set up by the Belfast Regeneration Office in each year since its formation. [220627]

Mr. Spellar: Belfast Regeneration Office (BRO) was set up in 1998. Table 1 details the amount of money spent by BRO, through its three main funding streams, namely: Action Plan, Making Belfast Work (Area Teams); and Physical, since its formation. Table 2 provides information on that money spent by each of the four BRO Area Teams.

Table 1

	Amount (£)
1998–99	9,058,855.70
1999–2000	11,853,374.00
2000–01	11,659,640.70
2001–02	9,400,302.85
2002–03	6,380,416.67
2003–04	4,628,157.86
2004–05 (to date)	2,876,351.88

Table 2: Amount spent by Belfast regeneration office area teams since the formation of BRO in 1998

Team	*Inner West*	*Outer West*	*North*	*South*	£ *East*
1998–99	1,725,653.00	635,682.50	1,541,860.00	834,786.10	461,385.20
1999–2000	2,693,795.00	699,131.10	1,515,760.00	898,035.80	1,073,967.00
2000–01	2,814,153.00	190,457.60	1,768,866.00	1,040,845.00	635,338.50
2001–02	1,852,426.19	934,390.85	1,457,436.49	986,869.42	[1]—
2002–03	933,695.36	622,890.38	278,485.81	392,773.17	[1]—
2003–04	1,053,151.79	437,007.33	927,244.38	646,865.46	[1]—
2004–05 (to date)	607,218.57	508,231.47	412,553.94	461,464.75	[1]—

[1] BRO South Team amalgamated with BRO East Team on 2002.

Contaminated Land (Carrickfergus)

Mr. Dodds: To ask the Secretary of State for Northern Ireland what his policy is on underwriting the value of residents' property if contamination is found on lands in the Brackenridge area of Carrickfergus. [220625]

Angela Smith: Where land is found to be contaminated and this results in harm or the possibility of harm arising from the condition of that land, steps will be taken to determine the responsibility for its remediation. It is too early to say what the investigation in relation to the Brackenridge area may show, or what action, if any, may be required.

Cookstown Police Station

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what criteria were used to determine the siting of the new police station in Cookstown, Co. Tyrone. [220623]

Mr. Pearson: The proposed new build station at Cookstown will be located adjacent to the existing PSNI station at Molesworth Street, Cookstown. The choice of this location was determined by Local Police Command at Cookstown taking into account a range of operational policing factors, including the ability to provide a centralised reporting centre for the Cookstown public, location of the station relative to commercial and residential developments, transport infrastructure considerations, security considerations and the ability to deliver community policing within the Cookstown DCU. The existing station has occupied that site for many years and the creation of the new establishment will maintain continuity.

Domestic Rates

Mrs. Spelman: To ask the Secretary of State for Northern Ireland what plans he has to change the system of domestic rates in Northern Ireland; and if he will make a statement. [219908]

Mr. Pearson: The Government are planning to introduce a discrete capital value domestic rating system from 1 April 2007. A policy paper was published in July 2004 seeking views on this and other key reforms, including the proposal for a rate relief scheme, transitional arrangements, an independent valuation tribunal and revaluations at least every five years. Consultation concluded on 12 November 2004. A report outlining the views expressed and the Government's final policy position will be issued shortly.

Fishing

Mr. Beggs: To ask the Secretary of State for Northern Ireland what plans the Government have to reintroduce social security payments to fishermen who are unable to go to sea in Northern Ireland; how many fishermen benefited from these benefits in the last three years; and if he will make a statement. [220754]

Mr. Spellar: Social security payments are available to share fishermen who satisfy the conditions of entitlement. Fishermen who are paid employees are treated in the same way as other paid employees who claim benefits.

Share fishermen pay a special higher rate of Class 2 National Insurance contributions which gives them access to contribution-based jobseeker's allowance.

Contribution-based jobseeker's allowance has special rules which are specifically designed to provide share fishermen with the necessary financial support for those periods when they are unable to fish because of factors such as bad weather or because their boat is undergoing repairs.

Share fishermen are also eligible to claim income-based jobseeker's allowance. In common with other self employed people their average earnings will be taken into account in assessing their entitlement.

The Government have no plans to change these rules.

Separate statistics are not collected on claims to social security benefits by fishermen. Therefore, it is not possible to say how many fishermen have received benefits in the last three years.

Housing Association Accounts

Mr. McNamara: To ask the Secretary of State for Northern Ireland if he will list for each financial year since 2001–02 the dates on which each housing association in Belfast was required to submit annual accounts for inspection; on what dates these accounts were received in each case; and what reason was given in each case where the delay was in excess of three months. [220212]

Mr. Spellar: Only those housing associations registered with the Department for Social Development in Northern Ireland are required to submit their annual accounts for inspection by the Department.

Article 19 of the Housing (NI) Order 1992 requires a registered housing association to furnish to the Department a copy of its accounts within six months of the end of the period to which they relate. The information requested is attached in respect of the 39 associations registered with the Department.

Medical Negligence

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* deaths and *(b)* disabilities resulted from medical negligence in the Province in each of the last 10 years. [220693]

Angela Smith: The information requested is not collected centrally.

Provisional IRA

David Burnside: To ask the Secretary of State for Northern Ireland what his most recent estimate is of the total value of proceeds received by the Provisional IRA from robberies in the Province since 1998. [219666]

Mr. Pearson: The Independent Monitoring Commission's fourth report provided a clear assessment of the Provisional IRA's involvement in several major robberies in Northern Ireland recently. Estimates of the value of proceeds received by PIRA from robberies since 1998 however is available only from intelligence sources and it would be inappropriate for the Government to comment.

David Burnside: To ask the Secretary of State for Northern Ireland what his most recent estimate is of the scale of intellectual property crime in the Province by the Provisional IRA concerning *(a)* pirate DVDs, CDs and software, *(b)* counterfeit branded goods, *(c)* washing powder, toiletries, perfumes and clothing and *(d)* veterinary drugs and medicines. [219671]

Mr. Pearson: The Organised Crime Task Force has carried out detailed analysis of the scale of paramilitary involvement in counterfeiting and piracy and its assessment is that paramilitary gangs carry out 80 per cent. of organised intellectual property crime in Northern Ireland, with loyalist and republican gangs equally heavily involved. The Independent Monitoring Commission's report of 4 November 2004 also highlights paramilitary involvement in this form of criminality.

In 2004 the Police Service of Northern Ireland seized over £6 million of counterfeit goods across Northern Ireland. I pay tribute to the PSNI for their on-going efforts to combat organised criminals who seek to line their pockets from the sale of illicit goods. In addition, since 2003 joint operations between the PSNI and An Garda Síochána have resulted in seizures worth €12 million.

David Burnside: To ask the Secretary of State for Northern Ireland what assessment he has made of connections between the Provisional IRA and criminal syndicates in *(a)* the British Isles and *(b)* Eastern Europe; and what estimate he has made of the scale of financial benefit the organisation has received from such activities. [219672]

Mr. Pearson: This year's Organised Crime Task Force Threat Assessment, launched in May 2004, clearly indicated that 85 Northern Ireland based organised crime gangs have international links.

The Independent Monitoring Commission's report of November 2004 also highlighted the links between organised criminals in Northern Ireland and criminal syndicates in Asia, North America, Africa and European countries.

Our assessment is that the Provisional IRA is engaged in serious and organised crime including large-scale smuggling and counterfeiting operations.

An estimate of the scale of financial benefit to PIRA from such links and activities is a matter of intelligence and it would be inappropriate for the Government to comment.

David Burnside: To ask the Secretary of State for Northern Ireland what his most recent assessment is of the scale of ownership and influence over pubs, clubs and hotels by the Provisional IRA in the Province. [219675]

Mr. Pearson: Information concerning PIRA's ownership and influence over pubs, clubs and hotels in Northern Ireland is available only from intelligence sources and it would be inappropriate for the Government to comment.

David Burnside: To ask the Secretary of State for Northern Ireland what his most recent assessment is of the scale of investment in property and business by the Provisional IRA in the Province. [219676]

Mr. Pearson: Information concerning the scale of investment in property and business in Northern Ireland by the Provisional IRA is available only from intelligence sources and it would be inappropriate for the Government to comment.

David Burnside: To ask the Secretary of State for Northern Ireland what his most recent assessment is of the scale of mortgage application fraud by the Provisional IRA in the Province. [219677]

Mr. Pearson: Information concerning the scale of mortgage application fraud by the Provisional IRA in Northern Ireland is available only from intelligence sources and it would be inappropriate for the Government to comment.

Social Workers

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what percentage of individuals commencing work as social workers in each of the last five years in Northern Ireland graduated with *(a)* social work and *(b)* other degrees. [220659]

Angela Smith: The information requested is as follows.

(a) The degree in social work, which replaced the Diploma in Social Work (DipSW) as the professional social work qualification, had its first intake of students in Northern Ireland in September 2004. There are, therefore no social workers in the Northern Ireland social work work force holding this qualification as yet.

(b) Information on other degrees held by social workers is not collected centrally as this is not a requirement for employment as a social worker.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many social workers within the Province have completed degree courses; and how many individuals commence training in social work in the Province in each of the last five years. [220661]

Angela Smith: The Degree in Social Work, which recently replaced the Diploma in Social Work (DipSW) as the professional social work qualification, had its first intake of students in Northern Ireland in September 2004. There are, therefore, no social workers in the Northern Ireland social work workforce holding this qualification as yet.

No information is held centrally on other degrees held by social workers. This is not a requirement for employment as a social worker.

The Northern Ireland Social Care Council has advised that over the last five years the numbers of new students commencing training for social work in Northern Ireland are as shown in the following tables.

Diploma in Social Work (DipSW): Student intake

Academic year	*Postgraduate route*[1]	*Undergraduate route*[2]	*Non-graduate route*[3]	*Employment based route*[4]	*Total*
2000–01	87	25	40	78	230
2001–02	87	24	36	125	272
2002–03	88	29	31	99	247
2003–04 (Final intake)	82	29	40	115	266

[1] Postgraduate route leading to the award of DipSW (and a Master's Degree).
[2] Undergraduate route leading to the award of DipSW (and a Bachelor's Degree).
[3] Non-graduate route leading to the award of DipSW (and a Diploma in Higher Education).
[4] These are students seconded from employment, including from 2001, new trainee schemes.

Degree in Social Work: Student intake

	Academic year 2004–05 (First intake)
Relevant Graduate Route[1]	102
Undergraduate Route	172
Total[2]	274

[1] Those students who have a previous relevant degree can complete the degree in 2 years.
[2] Total includes students employed as Regional Social Work Degree Trainees by HSS Trusts and Voluntary Sector employers.

FOREIGN AND COMMONWEALTH AFFAIRS

Abdelbaset Megrahi

Mr. Dalyell: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions his Department has had with the Libyan Government regarding the transfer of Mr. Abdelbaset Megrahi from Barlinnie Prison to Greenock Prison. [212317]

Mr. Mullin: My right hon. Friend the Foreign Secretary wrote to the Libyan Foreign Minister, Mr. Abdul Rahman Shalgam, on 14 January informing him of our intention to transfer Mr. Al Megrahi from HM Prison Barlinnie to HM Prison Greenock. This decision was taken by the Scottish Prison Service on humanitarian grounds. United Nations monitors agreed that Mr. Al Megrahi's continued solitary confinement at Barlinnie was harmful to his health and well-being. Mr. Al Megrahi was transferred to Greenock on 24 February. Libyan consular officials saw Mr. Al Megrahi on the same day. We understand a follow-up visit will be made shortly.

Africa (Departmental Groups)

Hugh Bayley: To ask the Secretary of State for Foreign and Commonwealth Affairs what funding has been allocated to support his Department's Africa research team in each of the last 10 years; and how many members of staff were employed in it in each year. [219414]

Mr. Straw: Records are only available for the last nine financial years including the current year. Allocations for and numbers of staff in the Africa Research Group for these periods were as follows:

	Number of staff	*Total running costs (£)*
1996–97	8	24,409.88
1997–98	8	19,576.77
1998–99	8	31,528.98
1999–2000	8	35,751.57
2000–01	9	79,197.63
2001–02	9	58,640.25
2002–03	9	65,556.48
2003–04	9	52,057.32
2004–05	9	21,604.87

Financial information for the current year is incomplete at this stage.

Running costs exclude salaries and related costs but include official travel, office equipment and stationery, library expenditure, IT maintenance and official entertainment. Travel costs for research visits were the largest element in each year. The increase from 2000–01 reflected the arrival of additional analytical staff to cover French speaking West Africa (in the context of Franco-British co-operation on Africa). Additional funding was allocated in 2000 for IT upgrades and a major look ahead seminar "Africa 2020".

Brazil

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to the Government of Brazil regarding *(a)* extrajudicial killings of Brazilian street children and *(b)* commercial sexual exploitation of Brazilian children. [219720]

Mr. Rammell: We have made clear to the Government of Brazil, bilaterally and with our European Union partners, the importance we attach to human rights, including those of children. We closely monitor developments on this issue and, in particular, on bringing those responsible for the murders of street children to justice.

The chronic and well-documented situation faced by street children in Brazil is a matter for concern and forms a regular part of our human rights dialogue with the Brazilian Government. The UK supports a number of practical projects in Brazil including human rights training for the Brazilian police and prison services; a small arms project in the slum areas of Rio de Janeiro, and work in Rio on giving people alternatives to involvement in violent and organised crime. While not exclusively focused on street children, these projects are relevant to many of the problems they face.

Burma

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government have made to the Government of Burma regarding *(a)* persecution of the Chin people and *(b)* the destruction of crosses and churches in Chin state. [219719]

Mr. Alexander: I met the Burmese ambassador on 29 November 2004 and pressed for political reform, full respect for human rights and the need for all groups in Burma, including ethnic groups, to play a full part in national reconciliation.

Discrimination and persecution on the basis of religious or ethnic background has been condemned in successive highly critical UK co-sponsored UN Resolutions on Burma, most recently at the UN General Assembly on 23 December 2004. The EU statement issued before the National Convention to draw up a new constitution reconvened on 17 February emphasised the need for the regime to enter into a constructive dialogue with ethnic groups to achieve lasting national reconciliation.

Our ambassador in Rangoon has drawn to the attention of the Burmese Foreign Minister the serious concerns expressed by hon. Members and peers of both houses about the question of religious freedom in Burma.

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent discussions he has had with the Government of Burma regarding the detention and treatment of NLD member U Soe Han; [220215]

(2) what recent discussions he has had with the Government of Burma regarding the detention and treatment of NLD member U Saw Naing Naing. [220216]

Mr. Alexander: We have not made representations about these particular cases.

I met the Burmese ambassador on 29 November and called for the release of all political prisoners in Burma. My statement on 30 November also called for the release of all political prisoners. A copy of the statement is available on the Foreign and Commonwealth website: www.fco.gov.uk/policy/news/press-releases.

We hold the Burmese regime responsible for the health of all political prisoners in Burma.

Cambodia

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Cambodian Government regarding *(a)* the forced repatriation of Montagnard refugees in Cambodia to Vietnam and *(b)* the payment of bribes by the Vietnamese authorities to Cambodian officials to conduct such repatriations. [219723]

Mr. Alexander: We regularly raise with the Cambodian authorities the importance of fulfilling their obligations under the 1951 Convention relating to the Status of Refugees and its related 1967 Protocol. We also continue to reiterate to the Cambodian authorities the need for close co-operation with the Office of the United Nations High Commissioner for Refugees (UNHCR).

Our embassies in Phnom Penh and Hanoi have been in regular contact with the Cambodian and Vietnamese Governments, the local UNHCR representatives, and resident EU partners about this issue. The issue has also been discussed at official level in Brussels.

We welcome the signing of a Memorandum of Understanding on resolving the Montagnards presence in Cambodia by the Cambodian and Vietnamese Governments and the UNHCR on 25 January.

We believe such a tripartite agreement is the best way of resolving this issue.

Democratic Republic of the Congo

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* he, *(b)* members of his Department and *(c)* representatives of the UK Government abroad have had with (i) members and (ii) representatives of the governments of the Democratic Republic of the Congo and (A) Angola, (B) Zambia, (C) Tanzania, (D) Burundi, (E) Uganda, (F) Sudan, (G) Central African Republic and (H) the People's Republic of the Congo regarding the (1) possibility, (2) viability and (3) desirability of the implementation of Joint Border Verification Mechanisms between the Democratic Republic of the Congo and each of the above mentioned countries along the model of the Joint Border Verification Mechanism between the Democratic Republic of the Congo and Rwanda for the amelioration and stabilisation of the (x) security and *(y)* humanitarian situation of the border regions of the Democratic Republic of the Congo; and if he will make a statement. [220291]

Mr. Mullin: A Joint Verification Mechanism (JVM) is already in operation between the Democratic Republic of the Congo (DRC) and Uganda. We have discussed with the DRC government the possible extension of the JVM to include Burundi. We supported international efforts which brought Burundi into the Tripartite Agreement on Regional Security in the Great Lakes.

We have not discussed the further extension of the JVM but we support the Great Lakes Conference process. At its summit in Dar Es Salaam in November 2004 the heads of state of Angola, Burundi, Central African Republic, Congo-Brazzaville, DRC, Kenya, Rwanda, Sudan, Tanzania, Uganda and Zambia made a declaration containing guarantees on security and good neighbourliness. Senior UK officials were involved at the summit, and the Department for International Development has contributed over £250,000 to the costs of the Conference so far.

Departmental Budget

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs what budget was allocated to his Department's *(a)* Europe Directorate and *(b)* Public Diplomacy Unit in (i) each of the last three years and (ii) the current year. [218785]

Mr. Straw: The Europe Directorate General of the Foreign and Commonwealth Office (FCO) has evolved over the period in line with developments in Europe and as more countries join the EU. The budgets allocated cover operational running costs at home and overseas (i.e. in British embassies and other Missions and including locally engaged staff salaries), capital investment and programme expenditure.

In financial year 2001–02 it was responsible for the UK's engagement with the EU institutions and our bilateral relations with the other 14 EU member states. The budget allocated was £65,633,886.

In financial year 2002–03, the responsibilities remained the same. The budget allocated was £64,673,659.

In financial year 2003–04 it additionally took on responsibility for Gibraltar and our bilateral relations with Turkey, Romania, Bulgaria, Norway, Iceland, Switzerland and the 10 Accession countries. The budget allocated was £113,012,445.

In the current financial year it has additionally taken on responsibility for our bilateral relations with the Western Balkan countries, Ukraine, Moldova and Belarus. The budget allocation is £127,473,000.

The budgets for the Public Diplomacy Group of the Foreign and Commonwealth Office over the four years ending in the current financial year have been as follows:

	£
2001–02	21,665,053
2002–03	13,960,641
2003–04	15,534,494
2004–05	15,768,100

The structure of the Group and the ambit of its work have changed during the period.

Not included in the amounts in the table are the BBC World Service and British Council grants in aid, and the programme allocation for BBC Monitoring. Also not included are the FCO's total allocations for Chevening Scholarships.

Election Observers

Mrs. Spelman: To ask the Secretary of State for Foreign and Commonwealth Affairs what role the United Kingdom plays in providing international election observers. [219914]

Mr. Rammell: The UK's main contributions to election observation missions are made through the Organisation for Security and Co-operation in Europe (OSCE), where we regularly provide 10 per cent. of the total number of observers; the European Union, where we are consistently the largest contributor; and the Commonwealth Secretariat.

Also, hon. Members of UK parliamentary bodies regularly serve as election observers. In addition to the UK Parliament, observers are drawn from the OSCE Parliamentary Assembly, the Parliamentary Assembly of the Council of Europe, and the European Parliament.

The Government are also heavily involved in the development of election observation policy and methodology, either through the organisations above, or in discussions with other regional organisations such as the Organisation of American States and the Southern Africa Development Community.

Entry Visas

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs how many entry visas have been granted by the British embassy in Albania to *(a)* male and *(b)* female who were Albanian nationals in each of the last three years, broken down by category of visa; and what the average length of stay in the United Kingdom granted by the British entry certificate office in Albania (i) was in each year and (ii) has been over the last three years. [219758]Date answered

Mr. Mullin: The number of successful entry clearance applications from Albanian nationals broken down by sex and category of visa, over the last three calendar years, is as follows:

Visas issued by the British embassy in Albania to Albanian Nationals

(a) and (b)

January to December

	2002		*2003*		*2004*	
Endorsement	*Men*	*Women*	*Men*	*Women*	*Men*	*Women*
Settlement	204	97	493	199	775	231

Exempt	8	9	1	1	0	1
EEA	3	0	12	2	34	7
Total	1,382	1,022	2,099	1,552	3,390	2,663

(i) and (ii)

Visa duration	*2002*	*2003*	*2004*	*Total*
1 Month	154	252	620	1,026
1 Year	207	566	163	936
2 Years	20	96	607	723
3 Months	351	223	79	653
4 Years	4	0	0	4
5 Years	7	6	9	22
6 Months	1,436	2,172	4,201	7,809
Other	225	336	381	942

Note:
The modal group, in each case, shows that the average length of stay in the UK in each year and over the three years is six months.

These statistics are taken from the Central Reference System of UKvisas, the department responsible for entry clearance matters arising overseas, and are subject to change. UKvisas makes every effort to ensure that statistics from our Central Reference System are accurate.

Eritrea

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will propose

(a) sanctions and *(b)* alternative measures to be brought against the Eritrean authorities to prevent the action being taken against Christians in the country. [219722]

Mr. Mullin: We do not believe that sanctions are the right way forward. The international community would not support them, and our only direct assistance to Eritrea is humanitarian, which is not subject to conditionality. Reducing humanitarian assistance as a means of addressing religious persecution would only harm the people of Eritrea. We will continue to raise the issue of religious freedom with the Government of Eritrea, both bilaterally and in concert with our EU partners.

Estonia

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) if he will make a statement on the establishment of Scotland House in Estonia; [220299]

(2) whether he has discussed the establishment of Scotland House in Estonia with the Scottish Executive; [220300]

(3) what assessment he has made of the impact on Scottish-Estonian relations of the opening of Scotland House in Estonia; [220301]

(4) what assessment he has made of the services provided to Scottish businesses by Scotland House in Estonia; [220302]

(5) what assessment he has made of the potential economic benefit to Scotland and the UK of improved trade links arising from the opening of Scotland House in Estonia. [220304]

Mr. Mullin: We welcome the fact that a group of UK businesspeople have set up a business consultancy in Estonia to help develop commercial links with Scottish companies. Our embassy in Tallinn stands ready to offer them the full range of UK Trade and Investment (UKTI) services.

Neither the embassy in Tallinn nor the wider Foreign and Commonwealth Office were asked for assistance on the establishment of Scotland House and no assessment of the services provided has been carried out. However, both we and the Scottish Executive were aware of the establishment of the consultancy.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will provide financial and logistical support to business consortia looking to establish Scottish trade offices, similar to Scotland House in Estonia, in other European capitals. [220305]

Mr. MacShane: UK Trade and Investment (UKTI) has a varying range of services available to all UK companies at UK missions in European capitals. Scottish Development International (SDI), a joint venture between the Scottish Executive and its economic development agency Scottish Enterprise, also provides additional support to Scottish companies wishing to develop their international business.

Mr. Salmond: To ask the Secretary of State for Foreign and Commonwealth Affairs how many requests for assistance were received by the British embassy in Estonia from Scottish businesses looking to invest in or trade with Estonia in the last year for which information is available; how many requests for information relating to investment in or trading with Scotland have been received by the UK embassy in Tallinn from Estonian businesses; and how many staff in the UK embassy in Tallinn are engaged solely or mainly in the development of trading links between *(a)* Scotland and Estonia and *(b)* the UK and Estonia. [220306]

Mr. Mullin: In the year to 3 March 2005, the UK embassy in Tallinn received 85 queries from Scottish businesses looking to invest in or trade with Estonia. In the same time period, no queries have been received from Estonian companies specifically interested in trading with or investing in Scotland. The UK embassy in Tallinn has four members of staff engaged solely or mainly in the development of trading links between the UK, including Scotland and Estonia.

Freedom of Information Requests

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the *(a)* documents and *(b)* other information released to date by his Department following Freedom of Information Act requests; and what categories of information requested his Department has refused to release. [220639]

Mr. Straw: The Foreign and Commonwealth Office (FCO) does not hold centrally a list of all information released or categories of information refused. All disclosures of wider public interest are published on the FCO website (www.fco.gov.uk). The FCO's central monitoring system records requests and statistics for disclosures, partial disclosures or refusals. Full details of disclosures and refusals are kept in individual case files opened for each request.

All FCO information is potentially disclosable under the Freedom of Information Act 2000 and will be released if it is in the public interest to do so.

India

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what reports have been received from the British high commission in India regarding the effects in Jammu and Kashmir of the recent severe weather. [219763]

Mr. Alexander: The British high commission in New Delhi has been monitoring the situation in Jammu and Kashmir following the recent heavy snowfalls. On 28 February, the Government of India reported that 278 people had died as a result of the severe weather. Our high commissioner has written to the Chief Minister of Jammu and Kashmir to express our condolences at this loss of life.

Iraq

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs on which dates during December 2003 the UK special representative in Iraq was acting Coalition Provisional Authority administrator. [212313]

Mr. Rammell: Whenever ambassador Bremer, Coalition Provisional Authority (CPA) Administrator, was absent from Iraq, his US deputy took charge and made decisions on his behalf. In May 2003, the UK Government appointed a UK Special Representative for Iraq to work alongside ambassador Bremer, but as an independent presence with no formal role within the CPA's hierarchy and with no formal legal decision-making power. However, from 23 to 30 December 2003, when both ambassador Bremer and his deputy were absent from Iraq, the UK Special Representative looked after CPA affairs. There were neither policy decisions made about Iraq, nor orders signed during this period.

Adam Price: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his written ministerial statement of 22 February 2005, *Official Report*, column 13WS, on British Detainees (Iraq), what the *(a)* name, *(b)* age and *(c)* date of arrest is of the British national held at the Shaibah detention centre in Iraq. [218573]

Mr. Mullin: The British national held at Shaibah detention centre in Iraq was detained on 9 October 2004.

It would not be appropriate to release the details requested without the consent of the detainee.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made regarding the Kurdistan Democratic Party's blocking of the delivery of ballot boxes to Chaldo Assyrian towns and villages in northern Iraq, during the 30 January national elections; what assessment he has made of the number of electors prevented from voting; and if he will make a statement. [219721]

Mr. Mullin: We are aware of this allegation. A complaint was submitted to the Independent Electoral Commission of Iraq (IECI), the body responsible for investigating alleged irregularities in the 30 January elections in Iraq. The IECI is investigating all official complaints it has received. Once its investigations are completed, the IECI will write to each complainant with its findings, and will publish a report detailing all the complaints they received and its response to them.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent attacks by Kurdistan Democratic Party militiamen against Chaldo-Assyrians in northern Iraq. [219730]

Mr. Mullin: We are aware of allegations of attacks by members of the Kurdistan Democratic Party against Chaldo-Assyrians in northern Iraq. Our Consul General in Kirkuk raised the issue with the Kurdistan Regional Government (KRG) last week. All denied that such acts have taken place. The KRG currently have a number of resettlement projects in Iraqi Kurdistan, which includes bringing Christians from places like Baghdad and Basra to settle in the safer areas of Iraqi Kurdistan.

Chris Grayling: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the impact on the UK Muslim community of his policy in relation to Iraq. [220606]

Mr. Mullin *[holding answer 7 March 2005]:* My right hon. Friend the Foreign Secretary is aware of the concerns of some of the British Muslim community about the decision to take military action in Iraq. The Government have a continuing and extensive dialogue with a wide range of Muslim organisations in the UK on a number of issues, including Iraq.

Mr. Dalyell: To ask the Secretary of State for Foreign and Commonwealth Affairs what the position of the Government is on the acceptance by the Government of Canada of the principle that the issue of the legality of the Iraq war should be brought before the International Court of Justice. [220614]

Mr. Alexander: Our understanding is that the Canadian Government have not advocated seeking a ruling from the International Court of Justice on the legality of the war in Iraq.

Northern Cyprus

Tom Cox: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with the Turkish administration in Northern Cyprus on the number of people from Turkey moving to live in Northern Cyprus; and if he will make a statement. [219513]

Mr. Rammell: My right hon. Friend the Foreign Secretary has had no discussions recently, either with Turkey or representatives of the Turkish Cypriot Community, about the number of people moving from Turkey to north Cyprus. However our senior officials maintain an open dialogue with the leadership of the Turkish Cypriots on all aspects of the situation in Cyprus.

The Government maintain their long-standing position of non-recognition of the self-declared "Turkish Republic of Northern Cyprus".

Occupational Health Contract

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs which external consultant advised his Department on the preferred bidder for the contract for occupational health formerly held by Guy's and St. Thomas' Hospital Trust. [219417]

Mr. Alexander: Mercer HR Consulting were engaged by the Foreign and Commonwealth Office (FCO) to help in reviewing the FCO's healthcare needs and to assist in the development of a specification for a contract to meet these needs in the most cost effective way. Evaluation of tender bids was carried out by a tender panel consisting of FCO officers and Mercer HR Consulting.

Pakistan

Keith Vaz: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to improve the visa operation in Pakistan. [220097]

Mr. Mullin: We have worked hard to improve the visa service in Pakistan since it was closed due to security concerns in May 2002. There are now 49 visa officers in Islamabad and an additional ten officers will be posted to Islamabad in April 2005. In Karachi we have

reopened the visa office with 3.5 staff and will shortly be posting a further two officers there. We have also outsourced the application procedure to Gerry's Fedex (a local joint venture with Federal Express) to remove the need for every application to be lodged at the high commission in person. We now accept visa applications from all categories except working holidaymakers and first time visitors under 25. We are in discussions with the Pakistani authorities about putting in place the necessary conditions to restore a full service as soon as possible.

People's Redemption Army

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of recent activities of the People's Redemption Army. [219548]

Mr. Mullin: The Ugandan Government have alleged that the People's Redemption Army (PRA) is an armed group which has been attempting to establish a network in north-western Uganda. We have seen no evidence of this or that the PRA represents any significant threat to Uganda's stability.

Peru

Andy King: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Peruvian authorities concerning the imprisonment of the trade union activist Walter Cubas Baltazar. [219710]

Mr. Rammell: Our embassy in Lima has been regularly monitoring the case of Walter Cubas Baltazar. Mr. Baltazar has made the decision not to appeal against the sentence made by the National Terrorism Court on 29 December 2004.

Andy King: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Peruvian authorities concerning the death threats made against Christina Olazabal, the Special Prosecutor for Human Rights in the Province of Ayacucho, Peru. [219711]

Mr. Rammell: On 2 March, officials at our embassy in Lima spoke to the Peruvian authorities in Ayacucho about reports of alleged threats made against the Special Prosecutor for Human Rights in Ayacucho. The Human Rights Ombudsman in Ayacucho is aware of these reports. The Special Prosecutor has not raised this matter with the Human Rights Ombudsman in Ayacucho.

Research and Development

Mr. Byrne: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment his Department's international science network of support has made of industrial research and development in *(a)* the US, *(b)* EU accession states, *(c)* India and *(d)* China. [219872]

Mr. Alexander: The Science and Innovation Network was set up in key selected countries, including the US, China and India, to work on issues of science policy, science collaboration, wealth creation and public diplomacy. Among the EU accession countries there are officers only in Poland and the Czech Republic. The Network reports on industrial research and development, among other scientific issues, to help inform UK policy and practice on science and innovation. For example, the Network made a significant input to inform the Department for Trade and Industry's Innovation Report in December 2003. It also provides reports on request to a range of UK stakeholders. The Global Watch Online website http://www.globalwatchonline.com/countries/ciner.aspx includes reports from the Network sorted according to country and sector. This site is being updated and will be relaunched in April.

Russian Federation

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment has been made of the Russian Federation's progress in moving towards a market based democracy with economic transparency; and if he will make a statement. [219502]

Mr. Rammell: Russia has made important progress along the path of economic and democratic reforms since the break-up of the Soviet Union. President Putin's first term saw an impressive programme of economic reforms launched, designed to liberalise the economy. Further progress was made on issues such as land law and tax reform, deregulation, and helping to create better conditions for small and medium sized businesses.

Russia was recognised by the EU and US as having attained market economy status in 2002. We support Russia's objective of joining the World Trade Organisation (WTO) and welcome the stimulus this has given to further market reforms. A bilateral agreement on WTO accession terms and conditions was concluded with the EU in May 2004.

We are, through bilateral Foreign and Commonwealth Office and Department for International Development programmes, supporting Russia's process of economic reform, and we are working on programmes connected to issues such as corporate social governance and media oversight, designed to improve economic transparency.

It is clear that the handling of the Yukos affair has raised concerns in the minds of investors in Russia about the Government's commitment to transparency and the rule of law. We have raised these concerns with the Russian Government. We have also underlined the need to reaffirm commitment to open markets and democratic processes. In that respect, we welcome President Putin's recent statements in Bratislava on Russia's commitment to democracy and want to see this and the rule of law firmly entrenched in the reform process, as well as human rights protected.

Student Visas

Mrs. Anne Campbell: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of changes in the numbers of student visa applications from China in recent years. [218579]

Mr. Mullin: The information requested is in the table.

Student visa applications received	As at 1 April to 31 March: 2001–02	2002–03	2003–04
Guangzhou	4,829	6,554	6,193
Beijing	19,581	22,161	22,828
Shanghai	4,928	5,762	6,487
Total	29,338	34,477	35,508

The table shows the number of visa applications received from students at our visa issuing posts in China over the three most recent years has increased. Statistics for the period April 2004 to March 2005 are not yet available. When they are, they can be found, along with further entry clearance statistics, on the UKvisas website at www.ukvisas.gov.uk—"Entry Clearance: Facts and Figures".

Terrorism

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs by what means UK security authorities are able to monitor the activities abroad of foreign nationals who accept voluntary deportation, having been held in detention under Part 4 of the Anti-Terrorism, Crime and Security Act 2001; and what co-operation agreements are in place between United Kingdom security and intelligence services and those of other states to combat terrorism. [219449]

Mr. Straw: Our security and intelligence services co-operate closely with their counterparts in many countries on counter terrorism. It is not in the public interest to provide details of such cooperation in particular cases.

Tsunami

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with countries affected by the Asian tsunami regarding the sexual exploitation of children left *(a)* orphaned and *(b)* otherwise vulnerable by the disaster; and what assistance the Government have given to help combat sexual exploitation. [219718]

Mr. Rammell: The response to the tsunami is an agenda item for discussion between EU and Association of South East Asian Nations (ASEAN) Ministers on 9 March in Jakarta.

We take the opportunity to discuss these issues in our meetings with ASEAN counterparts. Discussions continue between UK government officials, including law enforcement officers, and the authorities of the countries affected on UK support for the protection of vulnerable children in the region. A regional law enforcement training course funded by the UK and held in February in Bangkok on dealing with sex offenders included a specific element on the response to the tsunami.

Tyrannies

Angus Robertson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the countries classified as tyrannies by his Department; what discussions *(a)* he, *(b)* members of his Department and *(c)* other members of the UK Government have had with (i) members and (ii) representatives of the US Administration with regard to a common definition of tyranny; and if he will make a statement. [220292]

Mr. Rammell: It is not our practice to classify countries as tyrannies. There are, however, countries where poor adherence to international human rights standards, and a lack of commitment to democracy, good governance and the rule of law, cause us particular concern. The Government work to improve the human rights performance of such countries both bilaterally with the countries concerned; in partnership with others, such as the US; and multilaterally, through the EU, UN and other organisations. A full record of the Foreign and Commonwealth Office's (FCO) work in this area is published in our annual report on human rights, copies of which are placed in the Library of the House, and which is also available on the FCO website: www.fco.gov.uk.

Uganda

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the implications of the recent appointment of Sam Kutessa as Uganda's Foreign Minister. [219549]

Mr. Mullin: We have normal diplomatic relations with Uganda. Ministerial appointments are a matter for the Ugandan authorities.

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Ugandan authorities regarding the kidnapping in Kenya of Mr. George Tumwesigye Owakukiroru. [219550]

Mr. Mullin: We understand that George Tumwesigye was arrested on the Uganda/Kenya border on a charge of treason. He is now being held in Kigo Prison in Kampala, and we understand that his case is due to be heard on 9 March. We are in touch with the Uganda Human Rights Commission, which is monitoring the conditions under which he is being held.

United States

Miss McIntosh: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the recent visit of President Bush to the EU headquarters in Brussels. [220203]

Mr. Mullin: The timing of President Bush's visit to Europe, so early in his second term, shows the importance he attaches to the transatlantic relationship. As President Bush highlighted in his speech on 22 February,

"America and Europe face a moment of consequence and opportunity".

Leaders on both sides recognise the continued importance of the EU and US continuing to work in partnership on the challenges that face us in the 21st century.

Zimbabwe

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what recent discussions

he has had with the Government of Zimbabwe regarding the legal case against the MDC Deputy Chief Whip, Thoko Khupe; [220224]

(2) what recent discussions he has had with the Government of Zimbabwe about the responsible use of powers under the Public Order and Security Act. [220225]

Mr. Mullin: A meeting attended by Thoko Khupe was broken up by the Zimbabwean authorities. Opposition MPs and candidates are frequently arrested for holding meetings deemed to be illegal under the Public Order and Security Act (POSA). We are clear that selective application by the Government of Zimbabwe of restrictive legislation is intolerable. I made these points firmly when I met the Zimbabwean ambassador on 22 February.

HEALTH

A and E Waiting Times

Dr. Kumar: To ask the Secretary of State for Health (1) what assessment he has made of the success of implementing a four hour target for waiting time in accident and emergency departments; [220685]

(2) what plans he has to review the four hour waiting target in accident and emergency departments. [220686]

Ms Rosie Winterton: The Department's autumn performance report, published in December 2004, sets out the latest assessment for delivery of targets agreed as part of the Department's spending review 2002 public service agreement. This report is available in the Library. Latest published figures show that, by October to December, 96.8 per cent. of patients were admitted, transferred or discharged from accident and emergency within four hours. This compares with just 78 per cent. between October and December 2002. Over 19 out of 20 patients are now in and out of A&E within four hours.

From 1 January 2005, 98 per cent. became the ongoing minimum operational standard for total time in A&E. Data on performance for the first period following this, January to March 2005, will be available in mid May.

Asthma

Ms Walley: To ask the Secretary of State for Health if he will re-examine the level of NHS prescriptions charges in respect of asthma medication. [220622]

Ms Rosie Winterton: We have no plans to add asthma to the existing list of medical conditions that give exemption from prescription charges. The list has been reviewed on a number of occasions, but no clear-cut case for extending it has emerged. There is no consensus on what additional conditions might be included in any revised list of medical exemptions, or how distinctions could be drawn between one condition and another.

Body Mass Index

Chris Grayling: To ask the Secretary of State for Health what the average body mass index in *(a)* England, *(b)* each strategic health authority and *(c)* each primary care trust was in each year since 1997. [217058]

Miss Melanie Johnson *[holding answer 23 March 2005]:* The information requested has been placed in the Library.

Mr. Burstow: To ask the Secretary of State for Health what the average body mass index was in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each year since 1997. [216390]

Miss Melanie Johnson: Figures available from the Health Survey for England have been placed in the Library.

Botox

Mr. Hancock: To ask the Secretary of State for Health (1) what steps have been taken to ensure that the botox which is used for cosmetic purposes in the UK has been safety-tested; and if he will make a statement; [216114]

(2) if he will ban the *(a)* prescribing and *(b)* use of botulinum toxin for cosmetic purposes. [216464]

Ms Rosie Winterton: The uses approved for licensed botulinum products are limited to the treatment of certain kinds of muscular spasms and disabling spasticities. For those uses we are satisfied that the products meet all of the safety requirements laid down in European legislation and guidance and these together with standards for quality and efficacy are a prerequisite for the licensing of medicinal products.

If these products are being used for cosmetic purposes then they are being used outside the terms of the product licenses the Medicines and Healthcare products Regulatory Agency (MHRA) has granted. However, doctors may prescribe and use a licensed medicine for unlicensed purposes to meet the need of an individual patient, on their own responsibility, where they judge the benefit to the patient is justified.

The Chief Medical Officer established the Expert Group on the Regulation of Cosmetic Surgery to provide advice on whether the current regulation of cosmetic surgery was sufficient to ensure patient safety. The expert group published its report on 28 January 2005. It recommended that the current law relating to the prescription of botulinum toxin—which allows for its prescription by a doctor and its administration by a doctor or nurses—should be more consistently adhered to, and that facilities where botulinum toxin is injected should be licensed by the Healthcare Commission and subject to its regulations. The Government accept these recommendations, and will work with the Healthcare Commission, professional bodies and other key stakeholders to formulate an implementation programme.

Community Pharmaceutical Services

Gregory Barker: To ask the Secretary of State for Health (1) what assessment he has made of the effect of the new contract for NHS community pharmaceutical services on primary care trusts; [220509]

(2) what assessment he has made of the effect of the new contract for NHS community pharmaceutical services on general practitioners; [220510]

(3) what assessment he has made of the effect of the new contract for NHS community pharmaceutical services on rural general practitioner surgeries; [220511]

(4) what recent progress has been made regarding control of entry regulations for primary care trusts; [220701]

(5) what recent progress has been made regarding the publication of regulations for primary care trusts involved with the new contract for NHS community pharmaceutical services; and if he will make a statement on the regulatory frameworks for the new NHS contract for community pharmaceutical services. [220702]

Ms Rosie Winterton: The new contractual framework for community pharmacy gives primary care trusts (PCTs) the opportunity to work with local pharmacists to develop a range of high quality community pharmacy services. This will make them an integral part of local primary care provision. PCTs should be able to exploit fully the opportunities in order to maximise the benefits to patients.

The framework offers considerable benefits for general practitioners (GPs) and the opportunity to work closer with community pharmacists whether in rural or non-rural areas. This includes support for self-care, the management of common ailments and helping patients get the best from their medicines. The introduction of repeat dispensing in every pharmacy will mean that patients will be able to get a prescription from their GP to be dispensed in instalments by their pharmacy for up to a year without patients having to make repeat visits to the surgery for their prescriptions. This will help reduce GP workloads, offer opportunities for pharmacists to review patient medication and minimise waste by not dispensing medicines that patients no longer require. Repeat dispensing is especially of benefit to people with long-term conditions.

We have recently finished consulting representative organisations on the regulatory changes needed to bring in the new framework and the reforms to the control of entry system. We will shortly lay these before Parliament together with the final regulatory impact assessment. We will also publish directions to PCTs, concerning how they are to implement some of the aspects of the new framework and a determination regarding the remuneration to be paid to national health service community pharmacy contractors.

The regulations will ensure the new framework and the balanced package of control of entry reform measures broaden the range and quality of services for patients, encouraging innovation and excellence in service provision.

Counselling and Psychotherapy Profession

Pete Wishart: To ask the Secretary of State for Health if he will make a statement on current and planned future regulation of the counselling and psychotherapy profession in England; and what discussions he has held with *(a)* the Health Minister in the Scottish Executive, *(b)* the National Assembly for Wales Secretary for Health and *(c)* the Northern Ireland Office on current and future regulation of the counselling and psychotherapy profession across the UK. [220307]

Mr. Hutton: Counsellors and psychotherapists are not currently subject to statutory regulation. Some are subject to partial voluntary regulation through membership of professional organisations.

Departmental officials in England are working towards the statutory regulation of counsellors and psychotherapists via the Health Professions Council (HPC). The HPC is a United Kingdom-wide regulator. However, since regulation of currently unregulated professions is a devolved matter it is for the health department of the Scottish Executive (SEHD), the National Assembly of Wales (NAW) and the Northern Ireland Office (NOI) to decide whether or not they wish to regulate counsellors and psychotherapists in this way. Departmental officials keep their counterparts in the SEHD, NAW and NIO informed regularly about progress in this area.

Counter Fraud and Security Management Service

Mr. Lansley: To ask the Secretary of State for Health what training the staff of the Counter Fraud and Security Management Service who are directly involved in investigation receive; and what plans he has to change their training. [216138]

Ms Rosie Winterton: The national health service counter fraud and security management service (CFSMS) provides training for all staff who counter fraud and corruption within the NHS.

It is mandatory for all NHS counter fraud specialists to complete successfully a counter fraud foundation level course. This high quality professional training has been accredited by the universities of Portsmouth, East London and Wolverhampton and is worth 40 higher education credits.

Successful completion of the foundation level leads to the nationally recognised professional qualification of accredited counter fraud specialist (ACFS). The NHS is one of a number of organisations where staff are trained to this standard. At the end of 2004, there were 8,274 qualified ACFSs from hundreds of organisations in both the public and private sectors including six Government Departments, such as the Office of the Deputy Prime Minister, Government agencies such as the Audit Commission, several police forces, banks, investment companies and over 300 local authorities.

Further training includes an intermediate level course, which focuses on prevention and deterrence of fraud. Additionally, the CFSMS provides refresher training on issues such as interviewing skills and regularly updates training where there are changes in law or procedures that have an impact on work to counter fraud.

Throughout the year, the CFSMS ensures ongoing support and training for staff through quarterly forums and an annual conference. There is also assistance through a training centre helpline and a regional network.

Because the training attracts higher education credits, it can lead on to further academic study and the CFSMS supports staff who want to continue to develop and work towards a BSc. (Hons) in counter fraud and criminal justice studies.

At present there are no plans to change the training. It is regularly reviewed to ensure that it is relevant and meets the requirements of staff.

Mr. Lansley: To ask the Secretary of State for Health how many investigations by the Counter Fraud and Security Management Service are ongoing with respect to *(a)* GPs, *(b)* nurses, *(c)* hospital doctors and consultants, *(d)* pharmacists, *(e)* dentists, *(f)* external contractors and *(g)* others. [216139]

Ms Rosie Winterton: There are currently 462 investigations being undertaken by the national health service counter fraud and security management service. A breakdown of staff groups involved is shown in the following table.

Category	*Number under investigation*
General practitioners	60
Hospital doctors and consultants	23
Nurses	35
Pharmacists	68
Dentists	86
External contractors	28
Others	191

The breakdown shows a greater number than the total of 462 as there can be more than one person involved in any particular investigation 77 patients are also being investigated.

Mr. Lansley: To ask the Secretary of State for Health what the financial benefit has been to the NHS of the Counter Fraud and Security Management Service and its predecessor the NHS Counter Fraud Service in each year since September 1998; and if he will list successful recoveries of assets worth over £500,000 in each year since September 1998. [216141]

Ms Rosie Winterton: The national health service counter fraud and security management service has published its performance statistics annually since 1999–2000.

The financial benefit to the NHS per year is shown in the following table.

	Amount (£)
1999–2000	52,477,000
2000–01	71,993,000
2001–02	84,716,000
2002–03	135,269,000
2003–04	134,017,000

Single recoveries of over £500,000 in each year are shown in the following table.

	Recoveries	
		£
2000–01	1x	1,337,610
	1x	650,000
2001–02	1x	799,087
2002–03	1x	1,750,000
2003–04	1x	1,400,000
2004–05	1x	1,128,000
	1x	799,087

Mr. Lansley: To ask the Secretary of State for Health what the budget of the Counter Fraud and Security Management Service and its predecessor the NHS Counter Fraud Service has been in each year since September 1998. [216142]

Ms Rosie Winterton: The budgetary allocation for national health service counter fraud service is shown in the following table.

£ million

	Budgetary allocation resource from the Department[1]
1999–2000	4.15
2000–01	4.25
2001–02	5.44
2002–03	6.10

[1] This was increased in 2003–04 to £14.71 million when responsibility was assumed for the security management service.

Mr. Lansley: To ask the Secretary of State for Health (1) whether the proposals to strengthen the powers of the Counter Fraud and Security Management Service announced by the Parliamentary Under-Secretary of State on 21 October 2004 will require primary legislation; and when he expects to publish the outcome of the consultation process on the proposals; [216183]

(2) what powers the Counter Fraud and Security Management Service has to access personal information; and what powers he expects the service will have following the proposed changes announced by the Parliamentary Under-Secretary of State on 21 October 2004. [216184]

Ms Rosie Winterton: Responses to the consultation document Access to Relevant Documents, Records and Data to Counter Fraud are currently being analysed. In accordance with the Cabinet Office Code of Practice on Consultations a summary of responses will be published within three months of the consultation closing date of 21 January 2005. At this stage, it is too early to say what shape any future measures may take but they will be informed by the outcome of the consultation exercise.

The NHS Counter Fraud and Security Management Service (CFSMS) do not currently have any specific powers to require access to personal information. Under the National Health Service Act 1977 the Secretary of State for Health has directed national health service bodies to co-operate with the CFSMS to enable it to efficiently and effectively carry out its counter fraud functions. This includes the supply of information to the CFSMS unless the supply of such information is prohibited by law.

Dentistry

Sir Paul Beresford: To ask the Secretary of State for Health how many Polish dentists *(a)* have registered and *(b)* are waiting to register with the General Dental Council to practise consequent on his Department's contract with Methods Consulting; and how many have commenced practising in England; and what support his Department is providing to these dentists. [218300]

Ms Rosie Winterton *[holding answer 25 February 2005]:* As a result of the Department's recruitment activity in Poland, 69 dentists have registered with the General Dental Council and no dentists are currently waiting to register with the General Dental Council. 28

dentists have started in practice and a further 41 will begin practice in England during March and early April. Pastoral support and induction are provided by local primary care trusts and the Post Graduate Dental Deanery.

Sir Paul Beresford: To ask the Secretary of State for Health what mechanisms are in place to co-ordinate the different government groups working on the Personal Dental Service (PDS) contract; what the running costs of *(a)* the Modernisation Agency and *(b)* Options for Change field sites to administer the PDS conversion process were in the latest year for which figures are available; and what steps he is taking to reduce administration costs in the PDS conversion process. [218598]

Ms Rosie Winterton *[holding answer 28 February 2005]:* The NHS Modernisation Agency set up the Modernising Dentistry Programme in 2002 following the publication of Options for Change report to look at new ways of working in dentistry. The total budget for the programme, which includes field sites, was £1 million in 2004–05. The 48 field sites involve around 250 dental practices, which are widely distributed across England. They range from practices looking at remuneration and commissioning, electronic booking, the patient experience, clinical governance and customer care, through to primary care trust wide and strategic health authority wide remuneration sites. Field sites have been supported to develop, and monitor their Option for Change projects, some of which have required conversion to personal dental service (PDS) schemes. Building upon these foundations, PDS is now providing dentists with the opportunity to take advanced benefit of the new contractual arrangements, which we are to introduce by April 2006. We now have some 4,400 dentists in over 1,500 dental practices working under PDS arrangements and, by April 2005, we expect 25 per cent. of all dental practices to have moved to PDS.

Sir Paul Beresford: To ask the Secretary of State for Health (1) which primary care trusts have not applied to the £59 million fund to help with access to dentistry in 2004–05; [218599]

(2) how many applications made by primary care trusts to the £59 million fund to help with access to dentistry in 2004–05 have been *(a)* granted and *(b)* rejected; and in how many cases decisions are pending. [218600]

Ms Rosie Winterton *[holding answer 28 February 2005]:* Of these funds, £50 million have been delegated for strategic health authorities to manage. The remaining £9 million is being used by the national health service dentistry support team, to work with the primary care trusts (PCTs), shown in the table. The team selected the PCTs on the basis of demonstrable, severe access problems rather than by application.

Sir Paul Beresford: To ask the Secretary of State for Health what the percentage Personal Dental Service conversion rates are in each *(a)* primary care trust and *(b)* strategic health authority. [219073]

Ms Rosie Winterton *[holding answer 1 March 2005]:* Information on the number of personal dental service (PDS) surgery addresses at 31 January 2005 as a percentage of the total general and personal dental surgery addresses for each primary care trust and strategic health authority has been placed in the Library.

Mr. Kidney: To ask the Secretary of State for Health how many dentists have been recruited overseas to work in NHS dentistry in England since 1 January 2004. [216507]

Ms Rosie Winterton: The Department is gathering information on recruitment activity since April 2004. This will include local national health service international recruitment activity and departmental central recruitment initiatives. The latter will include 28 Polish dentists who began work in England in January and the further 41 starting work between mid March and mid April.

Digital Hearing Aids

Mr. Clifton-Brown: To ask the Secretary of State for Health (1) what the Government's policy is on supplying digital hearing aids to those who have been diagnosed to be in need of them; [220636]

(2) what the Government's timetable is for providing digital hearing aids to those diagnosed to be in need of them. [220708]

Dr. Ladyman: The Department has invested £125 million into the modernising hearing aid services (MHAS) project since it started in September 2000. MHAS has been retaining audiologists and modernising national health service services in a phased way to enable them to offer digital hearing aids to people who would benefit from them.

95 per cent., of all NHS audiology departments in England are fitting digital hearing aids routinely to those people they have diagnosed as suitable and the few remaining departments will be offering the service by the end of March 2005.

We have recently announced new waiting time targets for NHS diagnostic services so that, by 2008, nobody will have to wait longer than 18 weeks from referral to receiving their digital hearing aid if that is what they require.

GP (Registration)

Mr. Burstow: To ask the Secretary of State for Health what estimate he has made of the number of people in England who are not registered with a GP; and what his most recent estimate is of the average length of time a person waits to be registered with a GP. [218165]

Chris Grayling: To ask the Secretary of State for Health what estimate he has made of the number of people in England who are not registered with a general practitioner; and what his most recent estimate is of the average length of time a person has to wait before being registered with a general practitioner. [219401]

Mr. Hutton: *[holding answer 4 March 2005]:* The Department does not collect data on the number of people who are not registered with a general practice. It is also not possible to estimate their number with any accuracy because of inherent differences between practice registration data and the demographic data collected by the Office for National Statistics.

There is no waiting time to register with a general practice beyond the actual time it takes to complete the administrative process of registration. Where a patient cannot register because his or her preferred practice is not accepting new patients there may be a delay while the primary care trust helps the patient find an alternative practice but no data are collected centrally on this.

Health Care Workers (Immunisation)

Mr. Burstow: To ask the Secretary of State for Health when he expects to publish new guidance on testing and immunisation of healthcare workers for HIV and hepatitis. [217428]

Miss Melanie Johnson *[holding answer 23 February 2005]:* Guidance on the health clearance of new health care workers for serious communicable diseases, including HIV, hepatitis B and hepatitis C is due to be published by the summer.

Health Services (Burnley)

Mr. Pike: To ask the Secretary of State for Health how much was being spent in *(a)* 1997 and *(b)* the last year for which figures are available in (i) East Lancashire Acute Trust and (ii) Burnley General Hospital; and if he will make a statement. [219497]

Miss Melanie Johnson: Trust operating expenses for East Lancashire hospitals national health service trust and its predecessor trusts is shown in the table.

	Trust	*Amount (£ thousand)*
1997–98	Burnley Health Care NHS Trust	88,898
1997–98	Blackburn, Hyndburn and Ribble Valley Health Care NHS Trust	79,313
2003–04	East Lancashire Hospitals NHS Trust	231,430

Sources:
1. Audited summarisation schedules of the East Lancashire Hospitals NHS Trust 2003–04.
2. Audited summarisation schedules of the Blackburn, Hyndburn and Ribble Valley Health Care NHS Trust and the Burnley Health Care NHS Trust 1997–98.

Hospital Acquired Infections

Mr. Lansley: To ask the Secretary of State for Health what information he plans to publish on *(a) Clostridium difficile*, *(b)* vancomycin-resistant enterococci and *(c)* post-surgical infection in orthopaedics; and when he expects to begin publishing this information. [218118]

Miss Melanie Johnson: Information on *Clostridium difficile* disease, vancomycin resistant enterococci and surgical site infections is already available from the Health Protection Agency's voluntary reporting scheme and published routinely on its website at www.hpa.org.uk.

Insulin

Mr. Andrew Smith: To ask the Secretary of State for Health what action he is taking to ensure the continued availability of a reliable supply of animal insulin. [217123]

Ms Rosie Winterton: There are two companies who supply animal insulin to the United Kingdom market, Wockhardt UK and Novo Nordisk. Neither has informed the Department of any intention to cease supply.

Lancashire Teaching Hospital Trust

Mr. Hoyle: To ask the Secretary of State for Health what the procedure is for informing hon. Members of the appointment of a new chairman for Lancashire Teaching Hospital Trust. [212306]

Miss Melanie Johnson: The Secretary of State has delegated functions relating to the appointments to national health service trusts to the NHS Appointments Commission. I have asked the chair of the Appointments Commission, Sir William Wells, to write directly to my hon. Friend with the information he has requested.

Mental Health

Mr. Boswell: To ask the Secretary of State for Health (1) what evaluation he has made of the Appleby Report on the National Service Framework for Mental Health—five years on, with particular reference to variations in access to atypical anti-psychotic drugs; [220469]

(2) what action is being taken by his Department to encourage implementation of the National Institute for Clinical Excellence guidelines on the use of atypical anti-psychotics in schizophrenia; when full implementation will be achieved; and how implementation will be measured. [220470]

Ms Rosie Winterton *[holding answer 7 March 2005]:* The National Director for Mental Health's review of the national service framework for mental health states that the use of atypical antipsychotics had been increasing prior to the publication of the National Institute for Clinical Excellence (NICE) technology appraisal and that the appraisal may have its greatest benefit in parts of the country that have been slow to use such drugs. No evaluation has been made of the report's reference to variations in access to atypical antipsychotic drugs. However, the Department will continue to monitor antipsychotics accounted for 60 per-cent. of all prescription items of antipsychotics dispensed in the community in England, compared to 48 per cent. of all antipsychotics for the year ending June 2002, when the relevant NICE appraisal guidance was published.

Since January 2002, the national health service has had three months from the date of publication of each technology appraisal guidance to provide funding so that clinical decisions made by doctors involving NICE recommended treatments or drugs can be funded.

Mesothelioma

Mr. Clapham: To ask the Secretary of State for Health if he will introduce a national strategy for the diagnosis and treatment of mesothelioma; and if he will make a statement. [219770]

Miss Melanie Johnson *[holding answer 7 March 2005]:* A lung cancer advisory group has been established to support the development and delivery of high quality services for lung cancer patients. One of key areas that this group will address is the management of the increasing incidence of mesothelioma.

Mr. Clapham: To ask the Secretary of State for Health what guidelines are available to NHS staff on the treatment of mesothelioma. [219771]

Miss Melanie Johnson *[holding answer 7 March 2005]:* We continue to keep a close eye on clinical trials to determine when the development of clinical guidelines on mesothelioma might be appropriate.

The National Institute for Clinical Excellence (NICE) is currently appraising pemetrexed disodium (Alimta), for the treatment of mesothelioma. NICE is currently consulting on the draft scope for this appraisal and final guidance is expected to be issued in the summer of 2006.

MRI Scans

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 7 February 2005, *Official Report*, columns 1337W, on MRI scans, what aspects of the contract are monitored; how the information is collected; and if he will publish *(a)* the data collected to date and *(b)* an evaluation of the effectiveness of the contract to date. [217203]

Mr. Hutton *[holding answer 23 February 2005]:* The contract is monitored using key performance indicators (KPI) and management information regarding patient referrals by the national health service. KPI data are submitted monthly under the terms of the contract and is reviewed by the Department. The KPI data contains information on numbers of scans delivered, timeliness, quality and customer satisfaction.

Alliance Medical provide a full report of activity and rejections (including reasons for this) to the referring bodies and NHS leads in the local health economy. This information is commercially sensitive and may include information on patients, which is confidential.

The contract has delivered scans to in excess of 25,000 patients to date. Evidence suggests that this programme has already proved effective in driving down waiting times.

Mr. Burstow: To ask the Secretary of State for Health what proportion of NHS MRI scans will be delivered under the Alliance Medical contract during the term of the contract. [218701]

Mr. Hutton *[holding answer 1 March 2005]:* The Department does not have information on national health service diagnostic activity levels for every year of the five-year contract period. The information requested is therefore not available.

MRSA

Gregory Barker: To ask the Secretary of State for Health how many incidents of MRSA there have been at Conquest hospital in Hastings, East Sussex, in each year since 1997. [220576]

Ms Rosie Winterton *[holding answer 8 March 2005]:* The number of reports of methicillin resistant "Staphylococcus aureus" (MRSA) bacteraemia is not available centrally by individual hospital. All acute national health service trusts are required to report MRSA bloodstream infections as part of the mandatory surveillance system introduced in April 2001.

NHS (Treatment Contracts)

Mr. Dobson: To ask the Secretary of State for Health how many NHS contracts with private diagnostic and treatment centres require the NHS to pay for all contracted operations whether they are carried out or not. [213757]

Mr. Hutton *[holding answer 3 February 2005]:* I refer my right hon. Friend to the reply I gave on 4 March 2005, *Official Report*, column 1470W.

NHS Spending

Mr. Lansley: To ask the Secretary of State for Health how much was spent on hospital and community services in the NHS in each year since 1991. [218123]

Mr. Hutton: Information on the expenditure on hospital and community services in England is shown in the table. Expenditure figures provided include the commissioning of secondary healthcare, which is the closest to the information requested. It is not possible to provide comparable figures prior to 1996–97.

	Amount (£000)
1996–97	21,740,132
1997–98	22,823,715
1998–99	24,464,341
1999–2000	26,390,562
2000–01	29,091,286

	Amount (£000)
2001–02	30,432,239
2002–03	32,941,536
2003–04	36,305,199

Notes:

1. Expenditure is taken from audited health authority summarisation forms and primary care trust summarisation schedules which are prepared on a resource basis and therefore differ from cash allocations in the year. Figures are given in cash terms.

2. Figures for 1996–1997 to 2000–01 have been prepared using gross expenditure figures.

3. Figures for 2001–02 to 2003–04 have been adjusted to eliminate expenditure which would be double counted where an authority acts as a lead in commissioning healthcare or other services.

Sources:

1. Health authority audited accounts 1996–97 and 1997–98.

2. Health authority audited summarisation forms 1998–99 to 2001–02.

3. Strategic health authority audited summarisation forms 2002–03 and 2003–04.

4. Primary care trust audited summarisation schedules 2000–01 to 2003–04.

NHS University

Mr. Tyrie: To ask the Secretary of State for Health how many courses have been completed at the NHS University since its establishment. [219441]

Mr. Hutton: For the period 16 July 2003 to 11 January 2005, there have been 41,008 staff enrolments onto NHSU programmes. From these 41,008, NHSU has advised that 36,855 have completed the course on which they enrolled.

Keith Vaz: To ask the Secretary of State for Health (1) how many persons will be made redundant as a result of the decision to close the NHS University; [220092]

(2) how many persons will be transferred to other NHS posts as a result of the closure of the NHS University. [220093]

Mr. Hutton: Decisions about the future of each of the functions and programmes of the NHS University will be taken in light of the wider programme of work, being led by Sir Ian Carruthers QBE, Chief Executive of Dorset and Somerset strategic health authority, to establish the new NHS Institute for Learning Skills and *Innovation. The number of any associated* redundancies will be minimised.

Physiotherapists (North-east)

Mr. Cummings: To ask the Secretary of State for Health how many physiotherapists are employed at each hospital primary care trust within County Durham and Tees Valley, and Tyne and Wear Strategic Health Authority; and how many vacancies exist. [219307]

Miss Melanie Johnson: The information requested is shown in the table.

Department of Health vacancies survey, March 2004. National health service three month vacancies in the North East Government office region, by strategic health authority (SHA) area and organisation for qualified physiotherapy staff three month vacancy rates, numbers and staff in post

		March 2004 Three month vacancy rate		September 2003 Staff in post

Three month vacancy notes:
1. Three month vacancy information is as at 31 March 2004
2. Three month vacancies are vacancies which trusts are actively trying to fill, which had lasted for three months or more (whole-time equivalents).
3. Three month vacancy rates are three month vacancies expressed as a percentage of three month vacancies plus staff in post.
4. Three month vacancy rates are calculated using staff in post from the Vacancy Survey, March 2004.
5. Percentages are rounded to one decimal place.
6. * figures where sum of staff in post (as at 31 March 2004) and vacancies is less than 10.
7. '—' Figures where sum of staff in post (as at 31 March 2004) and vacancies is zero.

Staff in post notes:
1. Staff in post data are from the non-medical workforce census, September 2003.

General notes:
1. Vacancy and staff in post numbers are rounded to the nearest whole number.
2. Calculating the vacancy rates using the above data may not equal the actual vacancy rates.
3. Due to rounding, totals may not equal the sum of component parts.
4. SHA figures are based on trusts and do not necessarily reflect the geographical provision of healthcare.

Sources:
1. Department of Health vacancies survey, March 2004.
2. Department of Health non-medical workforce census, September 2003.

Practice Closures

Mr. Burstow: To ask the Secretary of State for Health how many patients in *(a)* England and *(b)* each primary care trust have had to be allocated to a GP list in each year since 1996. [218164]

Mr. Hutton: The Department does not collect this information.

Prescription Costs

Peter Bradley: To ask the Secretary of State for Health what the average costs *(a)* per patient and *(b)* per unit were of prescriptions issued by (i) dispensing and (ii) non-dispensing general practitioners for each year since 1997; and if he will make a statement. [220474]

Ms Rosie Winterton: The average cost per patient and per general medical practitioner (GMP) of prescriptions issued by dispensing and non-dispensing doctors in each year since 1998, is shown in the table.

	Average cost per patient (£)		Average cost per GMP (£)	
	Dispensing doctors	Non-dispensing doctors	Dispensing doctors	Non-dispensing doctors
1998	100	90	79,500	181,900
1999	110	100	83,800	205,100
2000	130	100	86,700	214,900
2001	130	110	93,100	234,300
2002	140	130	102,000	261,000
2003	150	140	108,300	281,100

Note:
Data for 1997 is not available.

Queen's Flight

Chris Grayling: To ask the Secretary of State for Health on how many occasions his Department's Ministers used the Queen's Flight in each of the past five years. [213700]

Ms Rosie Winterton: None.

Radiation Risks

Norman Baker: To ask the Secretary of State for Health what changes his Department plans to make to its *(a)* policies and *(b)* regulatory practices following the recommendations of the Report of the Committee Examining Radiation Risks of Internal Emitters, with particular reference to risk estimates. [220590]

Miss Melanie Johnson: I have considered the report from the Committee on Medical Aspects of Radiation in the Environment (COMARE) about the final report from Committee Examining Radiation Risks of Internal Emitters (CERRIE). I accept COMARE's view that:

> "In the field of radiological protection in general, the precautionary approach has been standard practice and models have been refined as new information has become available."

I therefore do not consider that there needs to be a change in the Department's policies. Similarly, I consider that current regulatory practices, in particular the environmental regulatory framework regulated by the Department for Environment, Food and Rural Affairs, are sound.

SSRI Review Group

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* membership and *(b)* attendance record of

each member of the Medicine and Healthcare Products Regulatory Agency selective serotonin reuptake inhibitor review group is. [213094]

Ms Rosie Winterton: The Committee on Safety of Medicines' (CSM) expert working group on the safety of selective serotonin reuptake inhibitors was established in May 2003. The membership included experts in psychiatry, child and adolescent psychiatry/ epidemiology, statistics and general practice, and lay membership. A total of 17 meetings have been held.

The membership of the group and the number of meetings each member attended is shown in the table.

Member	*Number of meetings attended*
Professor Ian V. D. Weller (Chair)	[1]16
Professor Deborah Ashby	17
Mr. Richard Brook[2]	9
Professor Mary G. A. Chambers	7
Dr. Jonathan D. Chick	15
Professor Colin Drummond	8
Professor David J. Gunnell	12
Professor Klaus Ebmeier	16
Ms Hilary Hawking[3]	3
Dr. Elizabeta Mukaetova-Ladinska	11
Mr. Eamonn O'Tierney[4]	3
Dr. Ross J. Taylor	14
Dr. Ann York	13
Dr. Morris Zwi	10

[1] Professor Gordon Duff, chairman of the CSM, chaired the first meeting of the group.

[2] Resigned in March 2004.

[3] Appointed in September 2004.

[4] Mr. O'Tierney was unable to continue as an active member of the group from July 2003 for personal reasons.

Staff Costs

Mr. Lansley: To ask the Secretary of State for Health what the cost of *(a)* medical and dental staff and *(b)* administration and estates staff was (i) in cash terms and (ii) as a proportion of total NHS expenditure in each year since 1991. [218121]

Mr. Hutton: The information requested is shown in the tables.

Hospital and community health services (HCHS) expenditure on medical and dental staff in England: 1991–92 to 2003–04

	Total expenditure (£ billion)	*Total NHS expenditure (£ billion)*	*Percentage of total expenditure asa proportion of total NHS expenditure*
1991–92	1.926	25.353	7.60
1992–93	2.220	27.968	7.94
1993–94	2.295	28.942	7.93
1994–95	2.419	30.590	7.91
1995–96	2.614	31.985	8.17
1996–97	2.838	32.997	8.60
1997–98	3.022	34.664	8.72
1998–99	3.301	36.608	9.02
1999–2000	3.665	40.201	9.19
2000–01	4.138	43.932	9.42
2001–02	4.791	49.021	9.72
2002–03	5.445	54.042	10.02
2003–04	6.491	63.667	10.20

HCHS expenditure on administration and estates staff in England: 1991–92 to 2003–04

	Total expenditure (£ billion)	*Total NHS expenditure (£ billion)*	*Percentage of total expenditure as a proportion of total NHS expenditure*
1991–92	2.035	25.353	8.03
1992–93	2.125	27.968	7.60
1993–94	2.432	28.942	8.40
1994–95	2.555	30.590	8.35
1995–96	2.747	31.985	8.59
1996–97	2.899	32.997	8.79
1997–98	2.962	34.664	8.54
1998–99	3.122	36.608	8.53
1999–2000	3.369	40.201	8.45
2000–01	3.706	43.932	8.43
2001–02	4.175	49.021	8.47
2002–03	4.711	54.042	8.67
2003–04	5.211	63.667	8.18

Notes:

Administration and estates staff includes:

Administration and clerical staff.

Maintenance and works staff.

Senior managers and managers.

Total NHS expenditure:

1. Expenditure pre 1999–2000 is on a cash basis.

2. Expenditure figures from 1999–2000 to 2002–03 are on a stage 1 resource budgeting basis (and consistent with figures published in tables 3.4a of the Departmental report 2004).

3. Expenditure for 2003–04 is on a stage 2 resource budgeting basis (and consistent with table 3.4b of the Departmental report 2004).

Source of expenditure on medical and dental staff and administration and estates staff:

1. Annual financial returns of NHS trusts 1991- to 2003–04.

2. Annual financial returns of the regional and district health authorities and special health authorities for the London postgraduate teaching hospitals 1991–92 to 1995–96.

3. Annual financial returns of health authorities 1996–97 to 2001–02.

Annual financial returns of strategic health authorities 2002–03 to 2003–04.

Annual financial returns of primary care trusts 2000–01 to 2003–04.

Targets

Mr. Bercow: To ask the Secretary of State for Health (1) what recent assessment he has made of whether the public service agreement target to reduce emergency bed days by 5 per cent. by 2008, through improved care in primary care and community settings for people with long-term conditions will be met; [219079]

(2) what recent assessment he has made of whether the public service agreement target to ensure that no-one waits more than 18 weeks from general practitioner referral to hospital treatment by 2008 will be met; [219080]

(3) whether the public service agreement target to guarantee access to a primary care doctor within 48 hours from 2004 has been met; [219226]

(4) whether the public service agreement target to guarantee access to a primary care professional within 24 hours from 2004 has been met; [219225]

(5) what recent assessment he has made of whether the public service agreement target to make it easier for patients and their general practitioners to choose the hospital and consultant which best meets their needs will be met by the end of 2005; [219228]

(6) what recent assessment he has made of whether the public service agreement target to ensure that every hospital appointment will be booked for the convenience of the patient will be met by the end of 2005; [219227]

(7) whether the public service agreement target of reducing the proportion of those waiting for over one hour in accident and emergency was met; [219224]

(8) what recent assessment he has made of whether the public service agreement target to reduce the maximum wait for an in-patient appointment to six months will be achieved by the end of 2005; [219221]

(9) what recent assessment he has made of whether the public service agreement target to reduce the maximum wait for an out-patient appointment to three months will be achieved by the end of 2005; [219220]

(10) whether the public service agreement target to reduce the maximum waiting in accident and emergency from arrival to admission, transfer or discharge to four hours by the end of 2004 was met; [219223]

(11) what recent assessment he has made of whether the public service agreement target to reduce the maximum in-patient and day case waiting time to three months will be achieved by 2008; [219222]

(12) what recent progress has been made towards the public service agreement target to improve health outcomes for people with long-term conditions by offering a personalised care plan for vulnerable people most at risk. [219250]

Mr. Hutton: The Department's autumn performance report, published in December 2004, sets out the latest assessment for delivery of targets agreed as part of the Department's spending review 2002 public service agreement. This report is available in the Library.

The March 2005 data due for publication in mid May will be the first opportunity to assess sustained delivery of those targets due at the end of 2004.

Plans for delivery of targets agreed as part of the spending review 2004 are now being developed in discussion with the national health service as part of the process for agreeing local delivery plans for 2005–08.

Mr. Bercow: To ask the Secretary of State for Health (1) what recent assessment he has made of whether the public service agreement target to increase the number of older people being supported to live in their own homes by 1 per cent. annually in 2007 and 2008 will be met; [219081]

(2) what recent assessment he has made of whether the public service agreement target to increase the number of older people supported intensively to live at home to 34 per cent. of the total being supported by social services at home or residential by 2008 will be met; [219082]

(3) what recent assessment he has made of whether the public service agreement target to increase the number of older people supported intensively to live at home to 30 per cent. of the total being supported by social services at home or in residential accommodation will be met by March 2006. [219237]

Dr. Ladyman: The public service agreement (PSA) target to increase, by March 2006, the number of those supported intensively to live at home to 30 per cent. of all those being supported by social services at home or in residential care, rose from 29 per cent. to 30 per cent. in 2003–04; this means the target was met two years ahead of the target date. This PSA target was changed to 34 per cent. by March 2008, following the 2004 spending review. Information for 2004–05 showing progress towards this target will be available in autumn 2005. The final position on this target will be assessed in the autumn of 2008, when the data for 2007–08 is available.

Data are not yet available to assess progress against the PSA target to increase the number of older people being supported to live in their own homes by 1 per cent. annually in 2007 and 2008. The baseline for the target will be calculated for the year 2005–06 by the end of 2006, when the data are published. We will be able to measure the final position at the end of 2008.

Mr. Bercow: To ask the Secretary of State for Health what recent assessment he has made of whether the public service agreement target to reduce the mortality rate from suicide and undetermined injury by at least 20 per cent. by 2010 will be met. [219235]

Ms Rosie Winterton: The national suicide prevention strategy for England annual report on progress 2004, published on 21 January 2005, stated that the overall death rate from suicide in the most recent period (2001–03) has fallen to 8.6 deaths per 100,000 population. This marks a reduction of 6 per cent. from the baseline rate in 1995–97 of 9.2 deaths per 100,000. The rate has been steadily falling for the past five years and if this trend were to continue, the target would be met. The strategy is a co-ordinated set of activities, which will take place over several years and is subject to regular annual review and evaluation. A copy of the annual report has been placed in the Library.

Written Answers to Questions

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Bridleways (Bolton)

Dr. Iddon: To ask the Secretary of State for Environment, Food and Rural Affairs what action she is taking to resolve the PROW claim regarding bridleways linking the villages of Darcy Lever, Little Lever, Kearsley and Prestolee and the township of Farnworth in the constituency of Bolton, South-East in the Croal-Irwell Valley. [217088]

Alun Michael: Bolton metropolitan borough council was directed by the Secretary of State to determine the claim within a specified period which ended in November 2004. The council did not do so; instead it has sought to resolve the claim, and a second one in respect of a linked path, by persuading landowners to dedicate the routes as bridleways. At my request Defra officials have written to the council requesting details of how the council proposes to resolve the matter and its timetable for doing so. I shall review the issue in light of this response.

Air Pollution

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs how many days of *(a)* moderate, *(b)* high and *(c)* very high air pollution have been recorded by each automatic monitoring station in London in each year since 1997. [212369]

Alun Michael: There are currently 113 automatic air monitoring stations in London incorporated in the Automatic Urban and Rural Network (AURN) and the London Air Quality Network (LAQN). The following table summarises the average number of days of *(a)* moderate, *(b)* high and *(c)* very high air pollution recorded by all automatic monitoring stations in London in each year since 1997.

Average number of days in each band across London by year and pollutant (1997 to 2004)

Pollutant/Band	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*	*2004*
Carbon monoxide								
2. Moderate	4	0	0	1	0	0	0	0
3. High	0	0	0	0	0	0	0	0
4.Very High	0	0	0	0	0	0	0	0
Nitrogen dioxide								
2. Moderate	4	2	2	6	4	4	6	9
3.High	0	0	0	0	0	0	0	0
4.Very High	0	0	0	0	0	0	0	0
Ozone								
2. Moderate	54	48	72	60	61	68	85	73
3. High	1	0	1	0	0	0	3	0
4.Very High	0	0	0	0	0	0	0	0
Participate Matter (PM10)								
2. Moderate	34	30	43	54	55	64	77	59
3. High	3	0	2	2	3	2	4	3
4.Very High	0	0	1	1	1	1	2	1
Sulphur dioxide								
2. Moderate	3	1	0	1	1	0	1	0
3. High	0	0	0	0	0	0	0	0
4.Very High	0	0	0	0	0	0	0	0

The detailed information for each automatic monitoring station is published

on the National Air Quality Information Archive at:

http://www.airquality.co.uk/archive/reports/reports.php?report_id=309

Historic and current data from the AURN and LAQN networks can be found at the following locations:

AURN: http://www.airquality.co.uk/archive/index.php

LAQN: http://www.londonair.org.uk/london/asp/home.asp

Sarah Teather: To ask the Secretary of State for Environment, Food and Rural Affairs what the concentration was of *(a)* nitrogen dioxide, *(b)* sulphur dioxide and *(c)* benzene in each (i) London borough and (ii) London ward in each of the last five years. [212379]

Alun Michael: There are extensive networks of automatic and non-automatic air monitors in London. Air quality is not measured for these pollutants in each London borough and ward.

Table 1 summarises the minimum (min) and maximum (max) annual mean concentrations of nitrogen dioxide, sulphur dioxide and benzene across London in each of the last five years. The information is collected by Automatic Urban and Rural Network (AURN), the London Air Quality Network (LAQN). Historic and current data from the AURN and LAQN networks can be found at:

AURN: http://www.airquality.co.uk/archive/index.php

LAQN: http://www.londonair.org.uk/london/asp/home.asp

Table 1: Range of annual mean concentrations in micrograms per metre cubed across London by year and pollutant (1997–2004)

	Pollutant					
	Benzene		Nitrogen dioxide		Sulphur dioxide	
	Minimum	Maximum	Minimum	Maximum	Minimum	Maximum
1997	3.38	5.67	35	74	9	20
1998	2.68	12.79	32	92	7	19
1999	2.52	10.77	32	93	4	13
2000	1.58	6.29	28	121	4	15
2001	4.55	4.55	29	119	4	14
2002	—	—	25	122	3	13
2003	3.33	3.33	28	107	24	183
2004	2.48	2.48	24	183	3	21

Note:
Data for 2004 are provisional. No data are available for benzene for 2002. The number of sites used in the analysis varies each year as networks change. The minimum and maximum annual mean benzene figures presented in the table are the same for 2001, 2003 and 2004 because only a single site was operational for that pollutant in London during those years.

Table 2 summarises nitrogen dioxide concentrations measured by the UK nitrogen dioxide diffusion tube network in London since 1999. Average minimum and average maximum concentrations are presented for all roadside and background locations. A detailed table showing information for the London boroughs in which the diffusion tubes are located is available from the Air Quality Archive at:

http://www.airquality.co.uk/archive/reports/reports.php?report id = 309 .

Table 2: Minimum and maximum annual mean nitrogen dioxide concentrations are in micrograms per metre cubed over London by year at both roadside and background locations

	Minimum roadside annual mean	Maximum roadside annual mean	Minimum background annual mean	Maximum background annual mean
1999	34	80	21	64
2000	29	66	22	47
2001	31	87	20	42
2002	28	77	16	43
2003	38	101	23	67
2004	31	97	19	71

Note:
Data for 2004 are provisional. Data for December 2004 are not yet available.

Animal By-Products Regulation

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons the processing of slaughter house waste is designated by her Department as a major hazard operation; and whether this designation was required under Animal By-Products Regulation (EC) No. 1774/2002. [220249]

Mr. Bradshaw: The regulation does not define a major hazard operation. However, in order to ensure that the controls are applied evenly across the country, Defra has issued guidance on how we intend to apply the regulation in relation to intermediate plants. The guidance is the result of our interpretation of the legislation and our assessment of the risks to human and animal health associated with handling animal by-products at intermediate plants.

In the guidance we differentiate between loading operations that we regard as a major hazard (e.g. tipping of slaughterhouse waste). and operations that we consider to be a lesser hazard.

A major consideration is the physical characteristics of the material to be handled. The handling of slaughterhouse waste (containing viscera, bones, specified risk material etc.) is more likely to result in environmental contamination due to spillage of material or associated fluids than the handling of entire carcases.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs for how long temporary licences will be granted to businesses that need to make changes to their operations to comply with Animal By-Products Regulation (EC) No. 1774/2002; and whether temporary licences to businesses will take into account the time required to obtain planning consent. [220250]

Mr. Bradshaw: The Animal By-Products Regulation has applied in member states since 1 May 2003, and operators have therefore had over 18 months to achieve compliance with its requirements. Continued extension of temporary approvals for non-compliant premises would disadvantage those operators who have invested to meet the required standards, and as a general rule we are not granting such extensions. However, we recognise that in a very small number of cases, short-term approval may be appropriate to allow for specified remedial works to be carried out to an agreed deadline. A temporary approval will only be issued in these circumstances. If the operator cannot provide us with a clear deliverable schedule of works, for example because he has not obtained planning consent, we will not issue a temporary approval.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what the other ways are in which Intermediary Plants can demonstrate compliance with the Animal By-Products Regulation (EC) No. 1774/2002 referred to in the answer to the hon. Member for North Wiltshire of 12 February 2004, *Official Report*, column 1558W; and how many intermediary plants in England have been licensed which demonstrate compliance with the Animals By-Products Regulation (EC) No. 1774/2002 in other ways. [220264]

Mr. Bradshaw: The Animal By-Products Regulation (EC) No. 1774/2002 requires Intermediate Plants to have a "covered space" to receive animal by-products. It also requires the plant to be constructed in such a way that it is easy to clean and disinfect, and that floors must be laid down in such a way as to facilitate the draining

of liquids. The plant must also have appropriate arrangements for protection against pests, such as insects, rodents and birds.

As stated in the answer of 12 February 2004, in our view, the combination of these requirements is such that it would be necessary for the plant to have a roof, walls and a floor before we can approve it. I am not aware of any operator who has been able to demonstrate that their plant complies in another way. However, it is open to them to propose alternative ways of complying with all of the above requirements.

Bovine Artificial Insemination

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs whether test samples from bulls for artificial insemination purposes may be sent to approved laboratories in other member states of the EU. [219504]

Mr. Bradshaw: Tests to support the official approval of a bull for use in artificial insemination may only be carried out in the member state where the bull resides. Where additional private testing is carried out by the industry to help it monitor the health status of animals, such testing may be carried out in another member state, but the results would not carry official recognition.

David Maclean: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost of testing a bull for the purpose of artificial insemination is *(a)* in Great Britain and *(b)* in Northern Ireland. [219505]

Mr. Bradshaw: The information requested is as follows:

(a) The cost of testing a bull for artificial insemination in Great Britain is governed by the Artificial Insemination (Cattle and Pigs) (Fees) (Amendment) Regulations 1992.

£

Category	*First animal*	*Each additional animal*
Approval of a bull for semen collection for domestic purposes at a domestic centre/on-farm	207	144
Approval of a bull in accordance with the tests specified in Directive 88/407/EEC for semen collection at an EU centre	152	95

(b) The cost of testing a bull for artificial insemination in Northern Ireland is charged under the powers laid down in the Artificial Reproduction of Animals (Northern Ireland) Order 1975 (as amended). Domestic centres/on-farm collections are not permitted. Bulls are sampled by private veterinary practitioners with financial arrangements agreed between the bull owner and the veterinary practice concerned.

Category	£
Approval of a bull in accordance with the tests specified in Directive 88/407/EEC for semen collection at an EU centre	
Fee for certificate of approval	41
Charge for laboratory tests	28.82

All fees are currently under review as part of the exercise to update controls on the production of bovine semen.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment her Department has made of whether biosecurity measures applied by farmers to their cattle herds to prevent contact between cattle and badgers reduce significantly the incidence of endemic infection in badgers. [214166]

Mr. Bradshaw: No such assessment has been made.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the implications of *(a)* the length of the period in cattle affected by bovine tuberculosis before overt lung lesions develop and *(b)* annual or six-monthly tuberculosis testing and removal of infected animals for the threat of cattle-to-cattle transmission from infected animals. [214705]

Mr. Bradshaw: The information requested is as follows:

(a) The development of disease in individual cattle is variable with no consistent timeframe for those that may go on to develop lung lesions. The period before lung lesions develop depends on factors such as the number of bacilli infecting the lung and the strength of the immune response of the animal.

(b) The sooner infected animals are detected the less likely they are to transmit disease to direct contacts or other herds. Local prevalence of bovine TB is reviewed annually, and this is used to determine parish TB testing frequencies. Areas where disease is more established are tested more regularly and yearly testing is carried out in herds at higher risk of infection. In addition, divisional veterinary managers can increase the level of testing in their areas to reflect changes in the local TB situation.

Testing every six months would detect some infections sooner but there would be resource restraints on such a policy. In order to target resources most effectively, only cattle herds which have recently suffered a TB breakdown are tested after a six-monthly interval.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what her most recent estimate of the badger population in England and Wales is; and what estimates have been made of the population during the last 30 years. [214707]

Mr. Bradshaw: Surveys of badger populations in Great Britain were undertaken in the mid-1980's and mid-1990's. In the mid-1980's the badger population was estimated to be 250,000 badgers[1] and in the mid-1990's in the region of 300,000 to 400,000 badgers[2].

We are not aware of other national surveys and do not have figures for England and Wales or estimates of the population before the mid-1980s.

The history, distribution, status and habitat requirements of the badger in Britain. Nature Conservancy Council, Peterborough.

The National Badger Survey.

[1] Cresswell, P. Harris, S. and Jefferies, D. J. (1990).

[2] Wilson, Harris and Mclaren (1997).

Mr. Luff: To ask the Secretary of State for Environment, Food and Rural Affairs what her most recent estimate is of the incidence of bovine tuberculosis in the West Midlands region. [217128]

Mr. Bradshaw: The estimated incidence of bovine tuberculosis in the West Midlands and surrounding counties for the period 1 January-31 December 2004 is detailed in the following table:

County	*Cattle herds*	*Tests on unrestricted herds*	*Confirmed new herd incidents (CNIs)*	*Estimated TB herd incidence[1] (percentage)*
West Midlands	175	35	0	0.0
Herefordshire and Worcestershire	2,931	2,127	194	9.1
Shropshire	2,846	1,726	62	3.6
Staffordshire	2,702	1,798	63	3.5
Warwickshire	903	332	5	1.5

[1] Confirmed new herd incidents as a percentage of tests on unrestricted herds (used as a way of estimating the herd incidence of confirmed TB).

Note:

Provisional data downloaded from the State Veterinary Service database on 15 February 2005. Subject to change as more data become available.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to announce the outcome of the gamma interferon test to identify cases of bovine TB in cattle. [218766]

Mr. Bradshaw: The gamma-interferon policy pilot is designed to evaluate the cost-effectiveness of this test as an ancillary diagnostic tool to identify additional cases of bovine tuberculosis (TB) in cattle herds affected by confirmed TB breakdowns with multiple reactors.

The outcome of the pilot will be announced once the required sample size of herds (approximately 600) has been achieved, or statistically significant differences between the trial and control groups are observed.

As of the end of January 2005, 141 herds had been recruited into the pilot. Herd owners' participation in this study is voluntary. The Veterinary Laboratories Agency will be conducting an interim analysis of the pilot's preliminary results once 150 herds have been recruited and sufficient time has elapsed for a preliminary estimate of the effects of treatments to be calculated.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects a vaccine against bovine TB in *(a)* badgers and *(b)* cattle to become available. [219782]

Mr. Bradshaw: The research programme for producing an effective vaccine against tuberculosis in *(a)* badgers and *(b)* cattle remains broadly in line with the timetable outlined in the Krebs report (1997). This estimated:

Years 1–5: Identification of candidate vaccines and development of differential diagnostic tests;

Years 5–10: Experimental investigations of vaccination protocols;

Years 10–15: Field trials.

The first stage started in 1999 and is on-going. My department is now planning how to take forward the second stage, taking advice from independent experts on this complex issue.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the conclusions of the Irish four counties bovine TB study regarding the relative methods of badger removal and vaccination as strategies for the elimination of bovine TB. [219784]

Mr. Bradshaw: Advice from the Independent Scientific Group on Cattle TB (ISO) and Professor Charles Godfray and his group on the report of the Irish Four Area Culling Trial, together with a statement from Defra's Chief Scientific Adviser, was published on Defra's website: (http://www.defra.gov.uk/animalh/tb/index.htm) on 1 March.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the merits of reintroduction of reactive culling of badgers to eradicate bovine TB. [220271]

Mr. Bradshaw *[holding answer 7 March 2005]:* There is no evidence to suggest that the resumption of reactive culling would reduce the incidence of bovine TB in cattle. The Independent Scientific Group on Cattle TB (ISG) has continued to collect data from the reactive areas of the Randomised Badger Culling Trial and recent analyses are consistent with results presented in late 2003, with the confidence limits providing no evidence for a beneficial effect of the reactive strategy over the time scale under study. Further detailed investigations based on the distribution of TB breakdowns in space and time are underway to investigate whether the observed increased incidence was linked to proximity to reactive culling. In addition, as further TB incidence data are obtained, the ISG will continue to analyse data from reactive areas. If the TB incidence rates in reactive and survey areas become more similar over time, this finding would indicate that the observed increase in TB breakdowns in reactive areas, compared with survey-only areas, was associated with reactive culling.

Correspondence

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs when she will reply to the letter from the hon. Member for Totnes dated 9 December 2004 with regard to Mr. and Mrs. K. Carding of Kingsbridge. [219813]

Alun Michael: The Department has no record of receiving any letter dated 9 December 2004 from the hon. Member. If he will send me a copy, I will ensure that he receives a speedy response.

EU Committees

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-New Zealand Joint Committee met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [214314]

Mr. Bradshaw: The EC-New Zealand Joint Management Committee met on 1–2 June 2004 in Brussels, during the Irish presidency. The UK was represented by a senior veterinarian from Defra.

The UK supports veterinary equivalence agreements with third countries as a way of strengthening relationships, exchanging information on animal health issues and developing trade opportunities between the EU and the country concerned.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Canada Joint Committee met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [214315]

Mr. Bradshaw: The EC-Canada Joint Management Committee met on 15–17 July 2003 in Apeldoora, Netherlands, during the Italian presidency, and on 17–18 February 2004 in Quebec, Canada, during the Irish presidency. On each occasion the UK was represented by a senior veterinarian from Defra.

The UK supports veterinary equivalence agreements with third countries as a way of strengthening relationships, exchanging information on animal health issues and developing trade opportunities between the EU and the country concerned.

Angus Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the Committee on the Conservation of Natural Habitats and of Wild Fauna and Flora (Habitat) met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [217817]

Mr. Bradshaw: The Committee on the Conservation of Natural Habitats and of Wild Fauna and Flora (the Habitats Committee) met a total of three times during the Italian, Irish and Dutch presidencies, on 14 October 2003, 24 March 2004 and 19 October 2004. Each meeting took place in Brussels.

UK representation at the October 2003 meeting consisted of two officials from my Department, one official from the Scottish Executive and a scientific expert from the Joint Nature Conservation Committee (JNCC). At the March 2004 meeting representation was one official from my Department, a scientific expert from the JNCC, plus one official from each of the devolved administrations. At the October 2004 meeting the UK Representation was two officials from the Department, a scientific expert from the JNCC and one official from the Department of Environment (Northern Ireland).

Farm Subsidies

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs what the 20 largest farms or farm companies were in each county in England in each of the last three years; and how much subsidy was received by each in each of the last three years. [218487]

Alun Michael: The release of Common Agricultural Policy scheme payments details is currently under discussion and is also the subject of a number of requests under the Freedom of Information Act and Environmental Information Regulations. A decision on how to respond to questions of this nature will be made shortly. I will write to the hon. Member to inform him of our decision.

Fisheries

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs what recent evidence she has found of pair trawlers fishing in the offshore sea bass fishery. [203879]

Mr. Bradshaw: Prior to the recent introduction of UK legislation to prohibit pelagic pair trawling for bass within the 12 nautical mile zone of the south-west coast of England, UK vessels had been involved in this fishery early in the current season, both inside and outside the 12 mile zone.

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans she has to monitor the pair trawl sea bass fishery in the south west; [219807]

(2) what recent reports she has received from observers in the south-west approaches monitoring the pair trawl sea bass fishery. [219866]

Mr. Bradshaw: As in previous years, Defra-funded observers have been placed on UK vessels pair trawling for bass in the south-west. This work is now undertaken to comply with the EU bycatch regulation, Council Regulation (EC) No. 812/2004,and so is now a requirement for other member states with vessels in this fishery. The pair trawl fishery for bass usually takes place between November/December and April. Results from the observations will be made available after the fishing season has closed, allowing time for collation and analysis of the data.

Ms Atherton: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with the European Commission regarding the pair trawl sea bass fishery. [219867]

Mr. Bradshaw: On 27 January the UK made a request to the European Commission for the UK prohibition on pair trawling within 12 miles of the south-west coast to be extended to vessels from other member states with historic rights of access to the six to 12 mile zone. On 21 February the Commission rejected the UK request. I am currently considering the Commission's response and our next steps, building on the Commission's commitment to find an effective solution to the bycatch problem in the south-west.

Mr. Austin Mitchell: To ask the Secretary of State for Environment, Food and Rural Affairs how much *(a)* Government and *(b)* EU aid was paid to the UK fishing industry in each of the last eight years for which figures are available. [218108]

Mr. Bradshaw: The total amount of Government aid and EU aid paid by Fisheries Departments in the UK to the fishing industry in each of the last eight years is as follows:

£ million

	UK aid	*EU aid*
1997–98	17.1	14.3
1998–99	5.9	9.8
1999–2000	3.5	11.0
2000–01	2.1	5.6
2001–02	4.3	7.6
2002–03	24.2	20.7
2003–04	42.5	15.0
2004–05	10.7	8.7
Total	110.6	92.9

In addition to this the Government supports the fishing industry and its communities through other schemes.

Flood Defences

Mr. Yeo: To ask the Secretary of State for Environment, Food and Rural Affairs (1) how much has been spent by the Government on flood management and defence in each year since 1997; and how much was spent on *(a)* preventative measures and *(b)* repairs and restoration for damage caused by flooding incidents in each year; [218637]

(2) how much has been spent by the Government on coastal protection in each year since 1997. [218639]

Margaret Beckett: Defra has overall policy responsibility for flood and coastal erosion risk management in England. Prior to April 2004 Government funding of flood risk management took the form of capital grants from Defra for improvement projects and support from the Office of the Deputy Prime Minister to local authorities towards the levies they paid to the Environment Agency and Internal Drainage Boards. Since April 2004 Defra has funded the great majority of the flood defence work of the Environment Agency.

Grant aid was not available from Defra for repairs and restoration for damage caused by flooding incidents. However, following the severe flooding in 2000, exceptional funding of £9 million in 2000–01 and £7 million in 2001–02 was paid to the Environment Agency in support of emergency response and repairs to defence infrastructure following flood damage.

Total funding and grant to the operating authorities is set out in the following table. The latter includes Supplementary Credit Approval (SCA) (replaced by Supported Capital Expenditure (Revenue) from April 2004) for local authorities to fund the balance of their costs after grant.

£ million

	Total Government funding[1]	*Defra grant and SCA for flood risk management improvement projects*[2]	*Defra grant and SCA for coastal erosion risk management improvement projects*[3]
1997–98	312	[4]48.5	33.0
1998–99	315	34.5	35.9
1999–2000	326	34.1	33.9
2000–01	328	33.6	20.4
2001–02	363	57.9	20.2
2002–03	407	80.0	35.0
2003–04	430	80.0	40.4

[1] Total figure across Government, including significant support from the Office of the Deputy Prime Minister to local authorities to support their levies to the Environment Agency and internal drainage boards and their own spend on flood and coastal erosion risk management. Also Defra contributions to Environment Agency national initiatives such as for the National Flood and Coastal Defence Database, public awareness campaigns, development of catchment flood management plans etc.

[2] Flood risk improvement projects (including flood warning) and related studies, tidal and coastal as well as inland. Actual investment would have been significantly higher as Defra grant formed only about 60 per cent. of the investment, the balance being made up from local authority levy funding for the Environment Agency.

[3] Coastal erosion improvement projects and related studies; many of these provide protection against flooding from the sea as well as erosion.

[4] Figures for grant reflect outturn of demand by operating authorities within allocation, not necessarily original provision. The original grant allocation for 1997–98 was increased significantly in year by redistribution of funds from elsewhere in the Department.

Food Safety (Imports)

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs from which countries known to be experiencing outbreaks of *(a)* foot and mouth disease, *(b)* avian influenza, *(c)* bovine spongiform encephalopathy and *(d)* bovine tuberculosis food may be imported; what safeguards are in place to protect UK consumers; and if she will make a statement. [219023]

Mr. Bradshaw: Defra does not hold a list of countries that are recorded as having endemic diseases such as foot and mouth disease (FMD), highly pathogenic avian influenza (HPAI), bovine spongiform encephalopathy (BSE) and bovine tuberculosis (TB). The internationally recognised central source for official

information on the distribution of animal diseases is the Office International des Epizooties (OIE). Also known as the World Organisation for Animal Health, the OIE is the world organisation responsible for the collection and dissemination of information on international animal health—it has a role analogous to the World Health Organisation (WHO).

Information on countries with FMD, HPAI, BSE and TB can be found on their website, at the following address:

http://www.oie.int/eng/en index.htm

Community rules establish lists of countries from which food of animal origin can be imported. These lists are complex and can vary depending on the type of product eg fresh meat, cooked meat and milk. In addition to this, most food of animal origin has to be accompanied by appropriate animal and public health certification and has to come from approved establishments.

Defra provides information on import requirements in the form of Trader Information Notes (TINs) which set out the conditions under which food products of animal origin should be imported. The TINs are available on our website:

http://www.defra.gov.uk/animalh/int-trde/misc/tins/index.htm

Safeguards

If there is an outbreak of disease in an exporting country, community legislation allows member states to take appropriate emergency safeguard action, which may include a ban on imports of animal products from all, or parts, of that country, pending emergency action at community level. Once community measures are put in place the safeguard measures will reflect them.

All meat and milk imported into the EU from third countries must enter at designated border inspection posts where they are subject to veterinary inspections. All consignments are subject to documentary and identity checks. At least 20 per cent. of consignments of animal products undergo physical checks. These checks ensure import conditions are met.

Foodstuff Importation

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will make a statement on the measures in place to control the importation of foodstuffs; [218462]

(2) what the budget is in 2004–05 for the inspection and monitoring of food imports; and if she will make a statement; [218463]

(3) what inspection facilities are in place at *(a)* ports and *(b)* airports to control the importation of foodstuffs; and if she will make a statement. [218464]

Alun Michael: The information is as follows:

Illegal imports

£25 million of new money has been made available over three years 2003–04, 2004–05 and 2005–06 to tackle illegal imports of products of animal origin (POAO) and plants and plant based goods (PBG) from third countries.

HM Customs and Excise have enforcement responsibility at the frontier for illegal imports of products of animal origin (POAO) and plant based goods (PBG) from countries outside the European Union.

Customs have over 3,500 Detection staff who have anti-smuggling responsibilities for POAO and PBG. Within this Customs has dedicated around additional 100 officers specifically to POAO and PBG; 10 POAO detector dogs are also deployed.

Food of animal origin

All products of animal origin imported from third countries must enter at designated border inspection posts (BIPs) where they are subject to veterinary inspections to make sure they comply with EU import rules. BIPs are approved by the Standing Committee on the Food Chain and Animal Health. There are currently BIPs at 11 ports and five airports in England that are approved to check imports of products of animal origin for human consumption. The inspection services at the BIP are the responsibility of the local authority. Officers from the State Veterinary Service regularly visit BIPs to offer advice and check on compliance with EU requirements. FVO inspectors inspect BIPs to ensure that they are operating correctly. EU law requires the local authority to recover the costs of the import checks from importers: details of budgets are not held centrally.

If there is an outbreak of disease likely to present a risk to human or animal health, Community legislation allows us to take appropriate safeguard action, which may include a ban on imports of meat from all, or parts, of that country.

For non-animal food

Food imports from countries outside the European Union must meet food safety and food standards requirements equivalent to those for UK produced food, and can be subject to checks by local food authorities at UK ports and inland to ensure they comply.

The Office of the Deputy Prime Minister is responsible for allocating local authority budgets, and funding for imported food controls would form part of the Revenue Support Grant arrangements. The Food Standards Agency has made further specific funding available through grants for local authority sampling and surveillance of imported food. In 2003–04, a total of £600 000 was allocated to 110 authorities and, in 2004–05, £840 000 to 140 authorities.

Under the Imported Food Regulations 1997, the person importing food not of animal origin shall provide all such facilities as may be reasonably required for the examination of the food. In practice, facilities are provided by the port operators and vary according to the type of port and the nature and size of the foods imported. We have been discussing with the European Commission the possibility of sharing BIP facilities with authorities checking non-animal food goods.

Foot and Mouth

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what conclusions were drawn from Operation Hornbeam regarding the role of local knowledge in combating future outbreaks of foot and mouth disease. [219783]

Mr. Bradshaw: Exercise Hornbeam did not set out to test those aspects of disease control in which local knowledge would have been important. Its principle objectives were to validate and confirm the Government's foot and mouth disease contingency plan and to focus on the strategic and tactical decision-making process. However, local operational partners were engaged in the exercise in five Animal Health Divisional Offices in England, Scotland and Wales and their knowledge and expertise was important to its success.

The Government recognise the importance of a collaborative response to a disease outbreak and local operational partners will continue to be involved in future exercises testing animal disease contingency plans.

Paul Flynn: To ask the Secretary of State for Environment, Food and Rural Affairs what the 10 largest amounts paid in the UK to valuers during the foot and mouth epidemic were; and to whom they were paid. [220609]

Mr. Bradshaw: The 10 largest amounts paid in the UK to organisations that undertook valuations during the 2001 foot and mouth disease outbreak were:

	£
Penrith Farmers and Kidds	2,319,242
Harrison and Hetherington Limited	1,396,810
Cumberland and Dumfrieshire Farmers	540,243
Kivells	442,684
Hopes Auction Company Limited	409,660
Hexham and Northern Markets	336,696
KVN Stockdale Limited	325,434
Richard Turner and Son	321,902
Craven Cattle Marts	207,192
Mitchells Auction Company Limited	205,712

Footpaths

Mr. Steen: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 24 February 2005, *Official Report*, column 773W, on footpaths, for how many footpaths the Secretary of State has issued a direction authorising continued closure in each of the last five years; for what reasons in each case; and when she expects each to be re-opened. [221202]

Alun Michael: It will take some time to assemble this information from Government regional offices as files are having to be called back from depositories. I will write to the hon. Member as soon as it is available. The reasons for authorising extended temporary closure fall into two categories: either to protect public safety or to allow for completion of works. It is not possible to say when each footpath under a temporary closure will be re-opened as this is a matter for the local highway authority. Government offices are required to take care to ensure that no temporary order (or subsequent extensions) will allow, in effect, the permanent closure of a public right of way.

Harmful Cargoes

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what monitoring of *(a)* fish stocks and *(b)* other marine wildlife occurs in parts of UK waters where harmful cargoes are known to have been lost overboard. [220600]

Mr. Bradshaw *[holding answer 7 March 2005]:* The need for monitoring in relation to incidents where harmful cargoes are lost overboard is determined on a case-by-case basis taking into account the physical and chemical characteristics of the cargoes, and the characteristics of the local environment and resources that are under threat. This may involve monitoring of fish stocks and other marine wildlife. Such monitoring is usually focused on the substances contained in the cargoes and is limited to the duration of the incidents and shortly thereafter, although periodic monitoring over a longer period is done when it is justified.

CEFAS, FRS, EA, SEPA and the statutory nature conservation agencies conduct general monitoring of the marine environment. CEFAS and FRS are involved in monitoring fish stocks while the statutory nature conservation agencies are involved in monitoring the condition of a range of habitats and species.

Horse Exports

Mr. Edward Davey: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the effect of the introduction of horse passports on the number of equines exported live from the UK; and if she will make a statement. [220688]

Alun Michael: We can see no reason for the introduction of horse passports to have any effect on the number of equines exported live from the UK.

Mr. David Blunkett

Dr. Julian Lewis: To ask the Secretary of State for Environment, Food and Rural Affairs what enquiries she has made into payments made to the right hon. Member for Sheffield, Brightside (Mr. Blunkett) by a company involved in major commercial dealings with her Department; and if she will make a statement. [220520]

Alun Michael: The Register of Members' Interests records that the right hon. Member for Sheffield, Brightside (Mr. Blunkett) is an adviser to Indepen Consulting Ltd. From information held centrally, the Department has no record of commercial dealings with this company.

Peat-free Soil Improvers

Mr. Kidney: To ask the Secretary of State for Environment, Food and Rural Affairs what market data her Department *(a)* collects and *(b)* plans to collect on progress towards the Government's targets for peat-free materials. [211221]

Mr. Bradshaw: The Office of the Deputy Prime Minister (and previously those Government Departments responsible) collected data on the use of peat and alternative products for growing media and soil improvers in the UK between 1993 and 2001 at various intervals. The use of peat and alternative products by all market sectors was not monitored by this survey until 1999. The results of the last survey were published in 2003. A more recent Defra report studying the use of peat and peat alternatives by the commercial horticulture sector in 2003 was published in 2004.

A new survey will monitor the use of peat and alternative products between 2005 and 2010. This will measure the use of these products by all market sectors. Further surveys may be commissioned as part of the work of a growing media forum that we plan to convene shortly to inform the development of an action plan to reduce the use of peat in the UK.

Regional Bodies

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs what regional *(a)* bodies, *(b)* institutions, *(c)* taskforces, *(d)* panels, *(e)* offices and *(f)* organisations the Government has established since May 1997 which are the responsibility of her Department. [220191]

Alun Michael: The following is from internal sources only. A full Defra wide canvass was not undertaken due to the disproportionate cost of doing so. This is correct as at 8 March 2005.

The following regional "bodies" have been established since 1997:

The Regional Rural Affairs Forums were set up in 2001. Members give their time voluntarily and they are asked to be objective and independent in their work. They are asked to advise both Defra and the Government Office in the region, of her views.

Regional steering groups, were established in 2003 to provide input into the development of regional delivery plans for the Government's Farming and Food Strategy.

The following regional "body" has been established since 1997, then disbanded:

Regional Dialogue Panels were established and then disbanded in 2004. They were established in each English region as part of consultations on preparing the new UK Sustainable Development Strategy.

Regional Offices

Mrs. Spelman: To ask the Secretary of State for Environment, Food and Rural Affairs which *(a)* non-departmental public bodies and *(b)* executive agencies within the remit of her Department have regional offices based on the Government Offices for the Regions' regional structure; and when the regional offices were established in each case. [219884]

Alun Michael: The information is as follows:

Executive Agencies

There are no executive agencies which have any regional offices based on the Government Offices regional structure.

NDPBs

Two NDPBs have regional offices or Regional Directors based on the Government Offices regional structure, as follows:

1. The Countryside Agency currently has regional offices based on the Government Office regional structure. These offices were established when the Agency was created in April 1999.

2. English Nature has a sub-regional structure. It does not have regional offices as such but does have Regional Directors who have an overview of the local teams in areas which appear to be based on the GO Regions. There is no internal information as to when these Directors were established.

Sewerage

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what progress is being made in adopting private sewers; and when a framework will be available to explain how this will occur. [220706]

Mr. Morley: The Government published a response to its consultation—Review of Existing Private Sewers and Drains in England and Wales—in October 2004. Eighty one per cent. of respondents favoured a change of ownership, and of these, 90 per cent. held the view that sewerage undertakers should take over responsibility. The Government acknowledged the strength of support for this solution and undertook to look into it in more depth.

The Department chairs a Steering Group, of which WaterVoice, Ofwat and Water UK are members, which is currently considering sustainable options for the way forward on private sewers and lateral drains. The Department also recently held a seminar with stakeholders to examine these options. Further information on the seminar is available on the Department's website at www.Defra.gov.uk

The Government intends to publish a decision paper this summer, but does not rule out the need to consult further on the scope and form of transferring ownership.

Sudan 1

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has had with officials in *(a)* the Department of Health and *(b)* the Food Standards Agency regarding the addition of Sudan 1 to food for human consumption. [218455]

Alun Michael: Defra officials have participated in a number of recent FSA-led meetings with the food industry and other stakeholders on Sudan I. This was also discussed when my noble Friend, the Lord Whitty, met Sir John Krebs, Chair of the Food Standards Agency, on 23 February.

Wind Farms

Mr. Stringer: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the number of birds which have been killed by wind farms in the UK in each of the last three years; and what estimate she has made of likely future numbers. [211627]

Mr. Bradshaw: No systematic collection of bird mortality caused by wind farms has been undertaken in the UK in the last three years or is planned in the immediate future. Collision mortality is very difficult to assess comprehensively due to the problems experienced in carcase recovery at inaccessible sites i.e. at sea offshore or over hilly terrain.

In the UK ornithological assessments are conducted for proposed wind farm sites as part of the Environmental Impact Assessments (EIA). The EIA forms part of the environmental statement submitted by wind farm developers in support of a planning application.

Defra is producing guidance for off shore areas that will help developers to consider how to minimise any impacts on bird numbers to ensure that any that do occur are below significant levels.

The Government's renewable energy initiatives form part of it's response to the threat of climate change, including the acknowledged likelihood that climate change is likely to lead to irreversible and accelerated losses of biodiversity.

Bird Control

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what notice she gave of her intention to alter the terms of general Licence WLF18 to include an obligation to consider appropriate non-lethal methods. [220443]

Mr. Bradshaw: Between 31 March and 14 July 2004 a pre-consultation exercise was undertaken by Defra on the review of general licences to kill or take so-called "pest species" of birds. This pre-consultation, on a number of proposed changes to general licences, included reference to other satisfactory solutions, involved key interests and was also published on the Defra website. The pre-consultation document can be accessed via the following link: http://www.defra.gov.uk/corporate/consult/bird-licence/index.htm.

The responses to the pre-consultation were carefully considered and further discussions took place between Defra officials and organisations representing shooting and conservation interests.

On 10 February 2005 I announced the removal of the house sparrow and starling from general licences. This was supplemented at the time by a press release and a table of proposed changes to be made to general licences. This included reference to a condition regarding the use of non-lethal alternatives.

The press release and table can be accessed via the following link: http://www.defra.gov.uk/news/2005/050210a.htm.

On 9 March 2005 in order to clear up misunderstanding in relation to the obligation to consider appropriate non-lethal methods Defra altered the wording of the general licence condition to read,

"This licence can only be relied on in circumstances where the authorised person is satisfied that appropriate non-lethal methods of control such as scaring are either ineffective or impracticable."

A press notice was issued and the revised licences were immediately published on the Defra website. A copy of the press notice can be accessed via the following link: http://www.defra.gov.uk/news/2005/050309c.htm.

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what consultation she undertook before adding to the General Licence WLF18 the obligation for the authorised person to demonstrate that appropriate non-lethal methods are ineffective or impracticable. [220444]

Mr. Bradshaw: A pre-consultation exercise on the review of general licences to kill or take so-called "pest species" of birds was undertaken in the summer of 2004. This pre-consultation, on a number of proposed changes to general licences, involved key interests and was also published on the Defra website.

The pre-consultation document can be accessed via the following link: http://www.defra.gov.uk/corporate/consult/bird-licence/index.htm.

The responses to the pre-consultation were carefully considered and further discussions took place between Defra officials and organisations representing shooting and conservation interests.

On 9 March 2005 in order to clear up misunderstanding in relation to the obligation to consider appropriate non-lethal methods Defra amended the wording of the general licence condition to read,

"This licence can only be relied on in circumstances where the authorised person is satisfied that appropriate non-lethal methods of control such as scaring are either ineffective or impracticable."

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs what guidance she intends to issue to authorised persons under General Licence WLF18 on how they should assess whether non-lethal methods are ineffective or impracticable. [220445]

Mr. Bradshaw: On 9 March 2005 in order to clear up misunderstanding in relation to the obligation regarding appropriate non-lethal methods Defra altered the wording of the general licence condition to read,

"This licence can only be relied on in circumstances where the authorised person is satisfied that appropriate non-lethal methods of control such as scaring are either ineffective or impracticable."

A press notice was issued and the revised licences were immediately published on the Defra website. A copy of the press notice can be accessed via the following link: http://www.defra.gov.uk/news/2005/050309c.htm.

Cross-compliance

Mr. Laurence Robertson: To ask the Secretary of State for Environment, Food and Rural Affairs from what date cross-compliance will take effect; when the first payments will be made under the Single Farm Payment Scheme; if she will make interim payments; what other relief will be available to farmers who receive delayed payments; and if she will make a statement. [218468]

Alun Michael: Cross-compliance requirements for the Single Payments Scheme (SPS) apply from 1 January 2005.

The payment window for SPS runs from 1 December 2005 to 30 June 2006. The Rural Payments Agency's objective is to maximise the number of payments made early within that window or to help farmers affected by the timing this year. It must be borne in mind that this is a year of major change in the payments regime, that we are dependant on confirmation of points of detail and that the IT arrangements to underpin the new system are also new. It is important to make sure that our systems are robust.

It should also be noted that farmers are likely to benefit from early payment in full, in future years. I am considering with my officials, what action can be taken to speed up payments this year or to help in other ways.

EU Emissions Trading Scheme

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs for what reasons negotiations on the application to opt out of phase one of the EU Emissions Trading Scheme have been linked with those on the National Allocation Plan. [220718]

Mr. Morley: The EU Commission has made clear that they will not consider an application for temporary exclusion without a complete list of installations to which the application applies. It was therefore necessary that each operator made a final decision on whether to be included in the list before the application is put to the Commission. In order to make this decision, the operators needed as complete information as possible as to the extent of their installations' allocations. These allocations were announced on 14 February. This is the link between the national Allocation Plan and the application for temporary exclusion for Climate Change Agreement holders.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what action she has taken to ensure that a complete and definitive list of those installations wishing to opt out of phase one of the EU Emissions Trading Scheme is available; who she has consulted in compiling such a list; and when she expects the list to be available. [220721]

Mr. Morley: Installation level allocations under the National Allocation Plan were announced on 14 February. Operators who are covered by the EU ETS and a Climate Change Agreement were asked to decide whether they wished to be included in the UK's application for temporary exclusion from EU ETS by 4 March. The resulting list is now being compiled and checked through sector associations and will form part of the UK's application. We expect the application to be made before Easter and the list will be published at that time. A list of operators, whose installations are included in the UK ETS as Direct Participants and for whom temporary exclusion has already been approved by the Commission, is available on the UK ETS website.

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment has been made of the impact on the UK of the EU Emissions Trading Scheme. [219544]

Mr. Morley: Regulatory Impact Assessments (RIA) have been carried out throughout the implementation of the EU Emissions Trading Scheme. These are available on the Defra website (see link below). A full, final RIA is currently being drawn up and will be published alongside the final allocation decision.

http://www.defra.gov.uk/environment/climatechanqe/trading/eu/index.htm

Mr. Wyatt: To ask the Secretary of State for Environment, Food and Rural Affairs if she will press for the abolition of climate change agreements in Phase 1 of the EU Emissions Trading Scheme. [220503]

Mr. Morley *[holding answer 8 March 2005]:* Climate Change Agreements are an important part of the UK's Climate Change Programme to reduce emissions of greenhouse gases. They have proved very successful in improving energy efficiency in energy intensive industry, saving industry an estimated £450 million pa in energy costs. At the first target period, in 2002, the 44 sectors covered reduced their emissions of carbon dioxide by 16.4Mt. I have no plans to abolish them.

EU Export Refunds

Mr. Paice: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her Answer to Question 217200 tabled by the honourable Member for Rutland and Melton, if she will list the EU export refunds for each year from 1999 to 2003, broken down by commodity; and what assessment she has made of the reasons for the reduction between 2000 and 2001. [220335]

Alun Michael: The following table sets out EU export refunds for the budget years 1999 to 2003, broken down by commodity:

Expenditure (€ million)

	1999	*2000*	*2001*	*2002*	*[2]2003*
Arable crops[1]	883.1	823.6	259.8	99.3	104.0
Sugar	1,592.6	1,438.8	1,008.2	1,151.6	1,257.0
Olive oil	2.5	0.2	0.2	0.1	—
Dried fodder and dried vegetables	0.0	0.0	0.0	0.0	0.0
Textile plants	0.0	0.0	0.0	0.0	0.0
Fruit and vegetables	40.4	46.1	50.8	46.4	38.0
Wine	27.4	21.5	22.5	23.8	25.0
Tobacco	0.0	0.0	0.0	0.0	0.0
Other sectors	30.5	38.4	38.7	41.1	—
Milk and milk products	1,439.4	1,671.0	1,106.5	1,159.6	1,568.0
Beef/veal	594.9	661.3	362.6	386.7	534.0
Sheepmeat and goatmeat	0.0	0.0	0.0	0.0	0.0
Pigmeat, eggs and poultrymeat	385.6	348.2	115.7	104.4	177.0

	1999	*2000*	*2001*	*2002*	[2]*2003*
Non-annex 1 products	576.4	572.2	435.6	413.8	—
Food programmes	0.0	24.9	0.0	5.6	—
Total	5,572.8	5,646.2	3,400.6	3,432.4	3,703.0

[1] Cereals and rice.
[2] Data for 2003 refers to appropriations for commitments entered in the budget for 2003.
Sources:
"Agriculture in the European Union" for 2000–03 and "The Agricultural Situation in the European Union" for 1999.

For most commodities both the unit value of export refunds and the volume of subsidised exports declined between marketing years 1999–2000 and 2000–01.

Export refunds bridge the gap, for subsidised exports, between the high EU domestic prices and the lower world price. Expenditure on export refunds may vary for a number of reasons including, principally, conditions on world and domestic markets, changes in the €/$ rate of exchange and changes in the level of domestic institutional prices.

Changes in domestic and world market conditions are specific to individual commodities and it is therefore difficult to generalise. However, the EU-world price gap narrowed for a number of important commodities around 2001, primarily due to an increase in world prices (thus reducing the unit rate of export refund required for subsidised exports). Changes in the exchange rate have an impact across commodities: the value of the euro against the dollar declined between 1999 and 2001 thereby reinforcing the affects of the trends in world prices, in euro terms. In addition, domestic institutional prices for cereals and beef were subject to a stepped reduction, starting from 2000, under the Agenda 2000 CAP reforms.

It is significant to note that expenditure on export refunds remains highest in the sugar and dairy sectors where the UK is pressing for further reforms.

EU LIFE Directive

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs which applications to her Department for funding under the EU LIFE Directive have been *(a)* successful, *(b)* unsuccessful and *(c)* received but are yet to be determined; and what grants were awarded to each successful project. [220739]

Mr. Morley: The LIFE Regulation was set up by Council Regulation 1973/92/EEC in July 1992, with effect until 31 December 1995. The regulation was continued into a second phase by the adoption on 15 July 1996 of Council Regulation (EC) No. 1404/96, amending the previous regulation, with effect until 31 December 1999. A third phase, up to 31 December 2004, was begun on 17 July 2000 with the adoption of Regulation (EC) No. 1655/2000 of the European Parliament and of the Council. On 14 September 2004 this regulation was extended until 31 December 2006.

The current LIFE Programme has three strands: Environment, Nature and Third Countries. LIFE Environment supports demonstration and pilot projects on methods for the protection and enhancement of the environment with particular emphasis on innovative technologies and new approaches. LIFE Nature supports the implementation of EU nature conservation policy, particularly Natura 2000. Applications from the UK are submitted through Defra to the European Commission for competitive evaluation against those from other member states. LIFE Third Countries funds technical assistance activities for capacity building in non-EU countries bordering the Mediterranean and Baltic Seas which have signed association agreements with the European Union and, therefore, the UK does not submit applications to this strand.

Since 1992, in the UK, LIFE has contributed over €100 million towards 122 innovative demonstration projects through LIFE Environment and 38 nature conservation projects through LIFE Nature.

Co-financing varies from around 30 per cent., where income is generated, to 50 per cent. for LIFE Environment and up to 75 per cent. for some LIFE Nature projects. On average around 50 per cent. of project costs are co-financed, meaning that the programme has generated around €200 million worth of investment in environment actions.

The current phase of LIFE (LIFE III) has, to date, supported 36 projects in the UK with €47 million of co-financing. Fourteen LIFE Nature projects secured €26.6 million and 22 LIFE Environment projects secured €20.4 million. Annexes 1 and 2, available in the Library of the House, list the projects supported under LIFE Environment and LIFE Nature respectively.

The following table shows, for the UK, the number of applications, number co-financed and amount of co-financing by year for both LIFE Environment and LIFE Nature under the current LIFE III programme.

	LIFE Environment			*LIFE Nature*		
	Number of applications	*Number Co-financed*	*Total € million of co-financing*	*Number of applications*	*Number Co-financed*	*Total € million of co-financing*
2000	No projects funded as regulation adopted too late in the year					
2001	34	3	1.8	10	6	10.5
2002	16	6	5.6	11	4	10.2
2003	18	[1]7	7.7	3	2	2.1
2004	24	6	5.3	6	2	3.8
Total	92	22	20.4	30	14	26.6

[1] Originally nine projects were selected but two projects withdrew before funding commenced.

In the most recent call for projects to commence in 2005, the UK submitted 26 applications to LIFE Environment and three to LIFE Nature. The list of projects to be co-financed will be known in the summer.

Greenhouse Gases

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the increase in the concentration of carbon dioxide in the atmosphere relative to the increase in the concentration of other greenhouse gases has been over the last 30 years; what proportion of radioactive forcing is estimated to have been due to increases in *(a)* carbon dioxide and *(b)* other greenhouse gases over the last 30 years; and what the estimated temperature rises are from each of these increases. [220646]

Mr. Morley: The increase in the concentration of carbon dioxide in the atmosphere, during the period 1970 to 2000 was approximately 13.5 per cent. During the same period methane increased by approximately 26 per cent. and nitrous oxide by 7 per cent.

Of the radiative forcing due to man-made greenhouse gases experienced in the year 1970, about 65 per cent. was due to carbon dioxide, about 25 per cent. to methane, and about 5 per cent. to both nitrous oxide and the halocarbons. In 2000, about 60 per cent. of the radiative forcing from man-made gases was due to carbon dioxide, about 20 per cent. was due to methane, about 5 per cent. due to nitrous oxide, and the remainder due to halocarbons.

Due to complexities in the climate response to greenhouse gases, there is no simple link between radiative forcing and temperature change. There has been a global temperature rise of 0.5^{C} between pre-industrial times (1860) and 1990, and a further temperature rise of approximately 0.2^{C} since 1990.

Milk Forum

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the membership is of *(a)* the Milk Forum and *(b)* its sub-committees. [219779]

Alun Michael: The Dairy Supply Chain Forum, established by my noble Friend, the Lord Whitty, in July 2002 to encourage supply chain co-operation, increase efficiency and promote the sustainable development of industry is represented by the following organisations:

(a) Forum:

Aria Foods UK, British Retail Consortium, Country Land and Business Association, Dairy Crest Ltd., Dairy Farmers of Britain, Dairy UK, Defra, First Milk, Food and Drink Federation, Forgefirst Ltd., Milk Development Council, Milk Link, National Farmers' Union, Provision Trade Federation, Robert Wiseman Dairies, Royal Association of British Dairy Farmers, and the Tenant Farmers Association.

The Scottish Executive Environment and Rural Affairs Department, Scottish Milk Forum and Welsh Assembly Government attend as observers.

The Forum is chaired by my noble Friend Lord Whitty, with the secretariat provided by Defra.

(b) Sub groups:

Industry development sub group:

Aria Foods UK, Dairy Crest Ltd., Dairy Farmers of Britain, Dairy UK, Defra, First Milk, Forgefirst Ltd., HSBC, Milk Development Council, Milk Link, National Farmers' Union, Nestle, Robert Wiseman Dairies, Royal Association of British Dairy Farmers, Tesco.

The Sub-Group is chaired by Aria Foods with the secretariat provided by the National Farmers Union.

CAP reform sub group:

British Retail Consortium, Dairy Farmers of Britain, Dairy UK, Defra, First Milk, Milk Development Council, Milk Link, National Farmers' Union. Defra chair and provides the secretariat for the Sub-Group.

Market innovations sub group:

Steering group:

British Cheese Board, Defra, Hindsight, Imperial College, Wye, Milk Development Council, OMSCo, Royal Association of British Dairy Farmers.

Workshop:

Alvis Brothers Limited, Aria Foods UK, Associated Creameries Co-operative, British Cheese Board, Cricketer Farms, Dairy Crest Ltd., Dairy UK, Defra, Delaval, Deloitte Consulting and Technology Ltd., Dohler UK, Food From Britain, Highgrove Foods, Imperial College London, International Food Network Ltd., Lynher Dairies, Midlands Co-Op, Milk Development Council, Milk Link, Reaseheath College, Royal Association of British Dairy Farmers, Safeway Stores plc, J Sainsbury plc, The Cheese Company, The Fifield Organisation, The Society of Dairy Technology, Waitrose, Welsh Development Agency, Yoplait Dairy Crest.

The Milk Development Council chair and provide the secretariat for the Sub-Group and Workshop.

Departmental Costs

Simon Hughes: To ask the Secretary of State for Environment, Food and Rural Affairs how much was paid by her Department to external companies for *(a)* flowers and *(b)* plants in each of the last five years. [216399]

Alun Michael: In the Department's regional offices, costs of plants and flowers are included under the general umbrella of "grounds maintenance" on the various facility management contracts that are in place, and are not separately identifiable. There has not been any specific planting schemes undertaken in the last five-years beyond simple replacement of dead stock under contract. In London headquarters offices there has been a trend towards the provision of artificial plants to save on ongoing maintenance costs. There are now only two locations where live plants remain with ongoing maintenance charges of £2,566 per annum since the contract commenced in April 2004.

Rendering

Mr. George Osborne: To ask the Secretary of State for Environment, Food and Rural Affairs under what circumstances A2 permits under the Pollution Prevention and Control Act 1999 can be granted to rendering plants that have not obtained planning permission for their activities. [221333]

Mr. Morley: In accordance with regulation 10(4) of the Pollution Prevention and Control (England and Wales) Regulations 2000, as amended, the requirement

for planning permission before an A2 permit is issued applies to specified waste management activities defined in regulation 2(1). Animal rendering plants as defined in Section 6.8 of Part I of Schedule 1 to these Regulations do not constitute a specified waste management activity within the terms of regulation 2(1).

Shooting Licences

Sir Michael Spicer: To ask the Secretary of State for Environment, Food and Rural Affairs who was consulted by her Department prior to the publication of the orders varying the terms of a general shooting licence with respect to the shooting of pests. [220456]

Mr. Bradshaw *[holding answer 7 March 2005]:* A pre-consultation exercise on the review of general licences to kill or take so-called "pest species" of birds was undertaken in the summer of 2004. This pre-consultation, on a number of proposed changes to general licences, involved key interests and was also published on the Defra website.

The pre-consultation document can be accessed via the following link:

http://www.defra.gov.uk/corporate/consult/bird-licence/index.htm.

The responses to the pre-consultation were carefully considered and further discussions took place between Defra officials and organisations representing shooting and conservation interests. On 9 March 2005 in order to clear up misunderstanding in relation to the obligation regarding appropriate non-lethal methods Defra amended the wording of the general licence condition to read, "This licence can only be relied on in circumstances where the authorised person is satisfied that appropriate non-lethal methods of control such as scaring are either ineffective or impracticable."

Mr. Hoyle: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the amendments made to the open general licence for shooting of pest species. [220905]

Mr. Bradshaw: Between 31 March and 14 July 2004 a pre-consultation exercise was undertaken by Defra on the review of general licences to kill or take so-called "pest species' of birds. This pre-consultation, on a number of proposed changes to general licences, included reference to other satisfactory solutions, involved key interests and was also published on the Defra website. The pre-consultation document can be accessed via the following link: http://www.defra.gov.uk/corporate/consult/bird-licence/index.htm.

The responses to the pre-consultation were carefully considered and further discussions took place between Defra officials and organisations representing shooting and conservation interests.

On 10 February 2005 I announced the removal of the house sparrow and starling from general licences. This was supplemented at the time by a press release and a table of proposed changes to be made to general licences. This included reference to a condition regarding the use of non-lethal alternatives. The press release and table can be accessed via the following link: http://www.defra.gov.uk/news/2005/050210a.htm.

On 1 March 2005 the revised licences came into force.

On 2 March 2005 Defra issued guidance to clarify the requirements regarding appropriate non-lethal methods. The information bulletin can be accessed via the following link: http://www.defra.gov.uk/news/2005/050302d.htm.

On 9 March 2005 in order to clear up misunderstanding in relation to the obligation regarding appropriate non-lethal methods Defra amended the wording of the general licence condition to read,

"This licence can only be relied on in circumstances where the authorised person is satisfied that appropriate non-lethal methods of control such as scaring are either ineffective or impracticable."

A press notice was issued, which can be accessed via the following link: http://www.defra.gov.uk/news/2005/050309c.htm.

The revised licences can be accessed via the following link: http://www.defra.gov.uk/wildlife-countryside/vertebrates/gen-licence.htm.

TREASURY

Tax Credits

17. **Helen Jones**: To ask the Chancellor of the Exchequer what assessment he has made of the effect of tax credits on family incomes in Warrington, North. [221082]

Dawn Primarolo: 8,600 in-work families in the Warrington, North constituency are benefiting from tax credits including 8,100 in-work families with children. Tax credits provide the most support to families on the lowest incomes and there are 4,000 in-work families with children in Warrington, north receiving more than the family element of child tax credit.

For example for a family in full-time work with one child tax credits and child benefit would mean an extra £103 a week, which together with the national minimum wage would mean that that family is guaranteed an income of £252 a week.

Unemployment

19. **Mr. Ben Chapman:** To ask the Chancellor of the Exchequer if he will make a statement on levels of unemployment in Wirral, South since 1997. [221084]

Mr. Boateng: The Government have put in place a broad range of policy reform since our election in 1997 designed to reduce unemployment in all parts of the UK. Since these policies were implemented, claimant unemployment has fallen by 62 per cent. while long-term and long-term youth unemployment have fallen by over 90 per cent. in the Wirral, South constituency.

Education

20. **Mr. Plaskitt**: To ask the Chancellor of the Exchequer what representations he has received on spending plans for education. [221085]

Mr. Boateng: The Government regularly receives representations on spending plans for education.

This Government are taking forward a programme of high investment in education and skills. From being £36 billion in 1996–07, the education and skills budget for the UK stands at £63 billion in 2004–05, and is set to rise to £76 billion by 2007–08.

Government Staffing

21. **Mr. Amess**: To ask the Chancellor of the Exchequer what assessment he has made of the effect of central government staffing levels on the level of taxation. [221086]

Mr. Boateng: No assessment has been made on the effect of central government staffing levels on levels of taxation. The Government have delivered sustained increases in public spending in order to deliver significant improvements in public services. As part of this, we expect to see an increase in the size of the front-line service delivery workforce—in particular for key public services like health, education and criminal justice.

Administration cost limits set for Departments at the 2004 spending review will reduce central Government running costs as a proportion of total spending to a record low.

G7 Presidency

22. **Mr. Lazarowicz**: To ask the Chancellor of the Exchequer if he will make a statement on how he intends to further the millennium development goals at the G7 meetings to be held in April. [221087]

Mr. Timms: The conclusions on development, issued by G7 Finance Ministers following their February meeting, set out the G7 agenda of work on ways to accelerate progress towards the millennium development goals. We agreed that more needs to be done on debt relief based on our willingness to provide as much as 100 per cent. multilateral debt relief and that a substantial increase in oda is needed to meet the MDGs. We also agreed a work programme on the IFF, revenue proposals and other financing measures. Finally, we agreed that we must ensure that the Doha round of trade negotiations delivers substantial benefits to developing countries. We will discuss these issues again when we meet in April.

24. **Mr. Savidge** To ask the Chancellor of the Exchequer if he will make a statement on the UK's presidency of the G7 and progress towards the millennium development goals. [221089]

Mr. Timms: We know already that in September of this year, the UN millennium declaration review summit will find that progress towards the internationally agreed millennium development goals is too slow. During our G7 presidency, the UK Government will seek agreement on increased aid volume through an international finance facility, the provision of 100 per cent. multilateral debt relief and progress towards a freer and fairer global trade system to accelerate progress towards the goals. The Government will also press for progress on developing vaccines for Malaria and HIV/AIDS.

Borrowing

23. **Mr. Boswell**: To ask the Chancellor of the Exchequer what assessment he has made of the relationship between the level of taxation and levels of Government net borrowing. [221088]

Mr. Boateng: The 2004 pre-Budget report set out the Treasury's latest projections for net borrowing and tax receipts.

Projections will be updated in the Budget in the usual way.

Tax Compliance

25. **Mr. Leigh** To ask the Chancellor of the Exchequer when the Inland Revenue's revised compliance strategy and supporting performance measures, will be published; and what assessment he has made of consequent improvements in taxpayer compliance and tax yield. [221090]

Dawn Primarolo: Work on the Inland Revenue compliance strategy has been subsumed into work on a strategy for HM Revenue and Customs the new organisation that will integrate direct and indirect taxes. Public Sector Agreement targets for HMRC are available on the Inland Revenue website at http://www.inlandrevenue.gov.uk/psa/ind05_08.htm.

Pre-owned Assets

Sandra Gidley: To ask the Chancellor of the Exchequer when he will issue final regulations and guidance notes on implementation of legislation on pre-owned assets. [220827]

Dawn Primarolo: I refer the hon. Member to the written statements which I made on 7 and 8 March 2005, *Official Report*, columns 99–100WS and 103–04WS respectively.

DEPUTY PRIME MINISTER

Capping Criteria

Mrs. Spelman: To ask the Deputy Prime Minister (1) when he will make a statement on the Government's criteria for capping for 2005–06; [220768]

(2) what the expected time scale and procedure for capping local authorities will be in 2005–06; and when he expects that any revised bills would be issued. [220887]

Mr. Raynsford: No decisions on capping have been taken for 2005–06. My right hon. Friend the Deputy Prime Minister will take decisions on capping after authorities have set their budgets for 2005–06.

Car Parking

Mr. Chope: To ask the Deputy Prime Minister if he will set out the terms of reference of the research study being carried out by his Department into car parking provision consistent with policies on sustainable residential environments; when the research project began; and when he expects it to be concluded. [220847]

Keith Hill: Consultants were commissioned in October 2003 to carry out this research study. The terms of reference are contained within the "Specification of Requirements: Car Parking Standards and Sustainable Residential Environments", which has been made available in the Library of the House. The Office of the Deputy Prime Minister plans to publish the research study in the summer.

Council Tax

Mrs. Spelman: To ask the Deputy Prime Minister what the average parish council precept in areas with parish councils in England is on band D bills for 2004–05. [220539]

Mr. Raynsford: I refer the hon. Member to the answer given to her on 21 February 2005, *Official Report*, column 324W.

English Partnerships

Ms Oona King: To ask the Deputy Prime Minister if he will require English Partnerships to ensure that social rented housing is included on the long-term derelict site chosen as part of its pilot hardcore brownfield programme. [220994]

Keith Hill: The purpose of the National Brownfield Strategy is to engage with local communities and businesses in the 14 local authorities taking part in the pilot programme to identify sites that are of greatest concern in those areas. All sites brought forward in this way will be assessed to understand the barriers to re-use of the sites and to identify development opportunities for both "hard" (e.g. housing, employment) and "soft" (e.g. public space, leisure) end uses.

Once a shortlist of sites has been identified in each pilot project area, they will be evaluated and feasibility studies undertaken. In each case work will be led by a "local brownfield partnership" with representatives from the local authority, English Partnerships, the Regional Development Agency, development industry and local business and community groups.

The aims will be to develop at least one long-term brownfield site in each area with funding being acquired through private sector investment. It will be for the local brownfield partnership, in consultation, to agree the objectives for the sites within their areas which may or may not include an housing element.

English Partnerships takes account of local strategies and consults the local authority and local community with regard to its projects including local housing need.

Ms Oona King: To ask the Deputy Prime Minister how many social rented homes will be built on the East India Dock Road site acquired by English Partnerships under its London-wide initiative. [220997]

Keith Hill: The number of social rented homes built on the East India Dock site will be determined through the normal planning process. In addition, the site will provide affordable homes for sale to key workers and other first time buyers. The number of these will be the subject of discussions with the London borough of Tower Hamlets and other stakeholders. As part of this process, full account will be taken of local housing need.

Ms Oona King: To ask the Deputy Prime Minister which development and management partnership has been chosen for the East India Dock Road site acquired by English Partnerships under its London-wide initiative. [220998]

Keith Hill: No final decision has been made on which Development and Management Partner will work with the various stakeholders to take forward this site. Once a decision is made, all stakeholders, including the London borough of Tower Hamlets, will be informed to allow proposals to be worked up collaboratively.

Ms Oona King: To ask the Deputy Prime Minister whether the London borough of Tower Hamlets can require planning gain as a condition in relation to the properties for market sale to be built on the East India Dock Road site acquired by English Partnerships under its London-wide initiative. [220999]

Keith Hill: It is for the local planning authority to decide whether or not it would be appropriate to negotiate a planning obligation as part of this proposed development. Current policy guidance on the appropriate use of agreements made under section 106 of the Town and Country Planning Act 1990 (as amended by the Planning and Compensation Act 1991) is set out in DOE Circular 1/97. Revised draft guidance was issued for consultation in November 2004.

Ms Oona King: To ask the Deputy Prime Minister which three long-term derelict sites have been identified in Tower Hamlets for consideration under English Partnerships hardcore brownfield programme. [221000]

Keith Hill: At the present time, 7 March 2005, no sites have been identified for consideration under the National Brownfield Strategy. Tower Hamlets has been included along with 13 other local authorities to take part in a pilot programme aiming to tackle England's brownfield legacy.

From the National Land Use Database 87 hectares of brownfield land has been identified (including nine hectares of hardcore land) within Tower Hamlets and the pilot study is expected to reveal additional sites.

These will be taken forward as part of the pilot study as described in the answer given to my hon. Friend today UIN 220994.

Growth Areas

Phil Sawford: To ask the Deputy Prime Minister what funding his Department has earmarked for growth areas to ensure that they have the resources required to meet the demands of a growing population. [218335]

Keith Hill: Through the growth areas fund, in the period 2003–08 the Office of the Deputy Prime Minister is making £840 million available in the Thames Gateway and £425 million for the newer growth areas. This funding will support a range of projects which will unlock development sites and ensure that new and expanding communities have the facilities that they need.

The Office of the Deputy Prime Minister is currently consulting on three-year financial settlements for local government. As part of this process we are considering whether forward looking population data should be used to take account of planned housing growth.

The Office of the Deputy Prime Minister is also providing more help to local authorities who are facing financial pressures as a result of rapid growth by abolishing the 'ceilings' from the financial year 2005–06.

A number of other Office of the Deputy Prime Minister's funding streams are benefiting the growth agenda by providing funding for individual services and programmes in these areas. For example, between 2003–04 and 2005–06 local authorities in the four growth areas are estimated to receive a combined total of around £1.3 billion of housing investment. This includes the major repairs allowance, part of local authorities' housing revenue account subsidy entitlement for the capital costs of maintaining their housing stock in its present condition and to repay the capital element of housing debt. It excludes Gypsy sites funding. The Housing Corporation, sponsored by the Office of the Deputy Prime Minister, has allocated around £396 million to schemes within the growth areas as part of their approved development programme for 2004–05 to 2005–06.

The local authorities in the growth areas have been allocated a combined total of over £8.6 million between 2003–04 and 2004–05 as part of the planning delivery grant (PDG) for their contributions to housing delivery. Provisional figures indicate that these LAs will receive a combined PDG allocation total of around £9.5 million for 2005–06.

10 growth area local authorities are also benefiting from the neighbourhood renewal fund, with a combined allocation total of around £278 million from 2001–06. In addition six growth area local authorities have been allocated a combined total of around £314 million between 2000–01 and 2010–11 from the new deal for communities fund. Three local authorities within the growth areas are also receiving a combined total of over £10 million in funding allocated by the Department's liveability fund, from 2003–04 to 2005–06.

Between 2004–05 to 2007–08 English Partnerships will be allocating around £600 million to a variety of schemes in the growth areas, including London.

The Office of the Deputy Prime Minister provides the majority of funding to the regional development agencies' (RDAs) single programme which is coordinated by the Department of Trade and Industry. The RDAs undertake activities that will contribute to delivering Government and regional economic priorities, including in the growth areas. The Office of the Deputy Prime Minister's contribution for the four RDAs whose regions include the growth areas, is estimated as £462.2 million 2004–05; £454.2 million 2005–06; £467.9 million 2006–07; and £478.6 million 2007–08.

London Safety Plan

John McDonnell: To ask the Deputy Prime Minister how many responses were received to the public consultation exercise by the London Fire and Civil Defence Authority on the Draft London Safety Plan *(a)* supporting and *(b)* opposing the proposals in the Draft Plan. [220467]

Mr. Raynsford: I refer my hon. Friend to the answer given on 7 March 2005, *Official Report*, column 1550W, to my hon. Friend the Member for Hendon (Mr. Dismore).

RAF Aston Down

Mr. Drew: To ask the Deputy Prime Minister if he will list representations he has received in the last 12 months regarding future *(a)* planning and *(b)* business uses of the former RAF Aston Down site. [220665]

Keith Hill: Due to the application of the Data Protection Act it is generally not possible for my right hon. Friend the Deputy Prime Minister to disclose the names and addresses of those who have written to him in connection with any matter. An exception to this is where the correspondence received is such that it would, in the ordinary course of events, be likely to be made publicly available. Representations submitted in connection with the merits of a registered planning application fall into this category. However, such representations are generally made direct to the Local Planning Authority (LPA) which is dealing with the application, and not to my right hon. Friend the Deputy Prime Minister.

In this case, there are currently two planning applications registered with Stroud DC and Cotswolds DC, being the relevant LPAs for the site. My right hon. Friend the Deputy Prime Minister has not received any representations from third parties on the merits of those applications. The Government office for the south-west has received other correspondence in connection with the current use of the site and the need for an Environmental Impact Assessment (EIA) in connection with the current planning applications. However, given the nature of this correspondence, it would be in breach of the Data Protection Act for us to supply the information requested by my hon. Friend.

ELECTORAL COMMISSION COMMITTEE

Service Personnel

Mr. Evans: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission what action the Electoral Commission is taking to ensure that all members of the armed services are able to vote in the forthcoming general election. [221096]

Mr. Viggers: The Electoral Commission informs me that it has undertaken a considerable amount of work in partnership with the Ministry of Defence to make those in the armed forces aware of the need to register to vote and how to do so, that the deadline for registration can be up to two months before an election, and in particular that the deadline for registration in time to vote in any election taking place on 5 May is 11 March. This work includes a publicity leaflet, of which over 110,000 copies have so far been ordered by the Ministry and other organisations. In addition, the Commission is providing information on its websites, and has been working with the British Forces Broadcasting Service and several services publications to generate coverage about this issue.

INTERNATIONAL DEVELOPMENT

CAMFED Projects

Mr. Sarwar: To ask the Secretary of State for International Development what funding he has provided for CAMFED International projects in the last five years; and what funding he plans to provide for those projects. [220717]

Mr. Gareth Thomas: CAMFED is currently receiving DFID funding for two ongoing projects. Both projects were approved within the last five years, and are due for completion this year. These are:

a project to address the widespread exclusion of rural girls from education in Ghana, which began in 2001 at a cost of £149,000.

a project to promote a safe environment for girls in Zimbabwe, which also began in 2001 at a cost of £398,000.

Drug Treatments

Mr. Sarwar: To ask the Secretary of State for International Development what steps his Department is taking to expand the use of proven effective drug combinations for AIDS, tuberculosis and malaria treatment in developing countries. [220771]

Mr. Gareth Thomas: The UK Government are committed to increasing access to medicines in developing countries, including drug treatment programmes for HIV and AIDS, Tuberculosis (TB) and Malaria. In recent years, there has been considerable progress in making medicines for the treatment of HIV and AIDS, TB and Malaria more affordable.

The UK has worked with the pharmaceutical industry to encourage differential pricing that provides affordable medicines for developing country use. This includes recommendations agreed with industry on differential pricing from the UK Working Group on Increasing Access to Essential Medicines in Developing Countries in November 2002.

The UK supports developing countries to make use of internationally agreed flexibilities in the Trade Related Aspects of Intellectual Property (TRIPs) agreement, that allow recourse to the use of generic versions of proprietary medicines where there is a public health need.

The UK has pledged £259 million to the Global Fund for AIDS, TB and Malaria (GFATM). 49 per cent. of GFATM grants go towards the procurement of drugs and commodities for AIDS, TB and malaria resulting in 130,00 people on HIV treatment, 385,000 treated for TB and 300,000 people treated with effective artemisinin containing treatments (ACTs) for malaria. Additional commitments for each of the three diseases are set out as follows:

The HIV and AIDS Treatment and Care Policy, published in June 2004, sets out the UK's commitment to increasing access to HIV treatment in developing countries. The UK has provided £3 million to support the work of the World Health Organisation on HIV and AIDS, with a strong focus on its role supporting the target of 3 million people on treatment by 2005 (3 by 5). In total, the UK has committed to spend £1.5 billion on HIV and AIDS from 2005–07, a significant part of which will support increased access to treatment.

The UK has provided £2 million to the Stop TB Partnership since 2002. The Partnership has established mechanisms, which support countries to access stable supplies of effective anti-TB medicines.

DFID is the largest funder of the Roll Back Malaria (RBM) partnership, having contributed £48 million to date. The UK is working with RBM and other partners to secure greater international commitment for affordable pricing of ACTs. DFID Kenya has also recently awarded a start up grant of £35,000 to support increased cultivation of artemisia annua in Kenya. This is the key raw material for ACT production and is currently in short supply.

Effective health systems are equally important if all medicines are to be delivered safely. The UK has committed over £1.5 billion since 1997 to help developing countries strengthen the health and supply systems. Increasing Access to Essential Medicines in Developing Countries: UK Policy and Plans', published in June 2004, gives further information on UK positions and activities in this crucial area.

Iraq

Glenda Jackson: To ask the Secretary of State for International Development what assistance is being provided to the Iraqi Health Ministry for the provision of prosthetic limbs to Iraqi children injured in the conflict and subsequent insurgency. [219873]

Hilary Benn: Assistance to the Basra Prosthetics Centre has been provided by the Coalition Provisional Authority and by the UK military. They have funded the purchase, repair and delivery of prosthetic equipment. Repairs to the Centre's facilities are currently under consideration by the UK military under their Quick Impact Projects (QIPs). The Basra Prosthetics Centre provides a number of services including assessment, treatment and provision of lower limb prosthetics to Iraqis throughout Southern Iraq. It treats accident victims, disabled people, amputees including mine victims, and patients with cerebral palsy, polio and rheumatic conditions. It also provides physiotherapy to post-operative patients.

The International Committee of the Red Cross (ICRC) works to support amputees in Iraq, although their activities have been constrained by the security situation. The ICRC is supporting five orthopaedic centres in central and southern Iraq with components, spare parts, local purchases and maintenance machinery. DFID has committed a total of £16.5 million to the ICRC since March 2003 in support of their activities in Iraq. UNICEF is also involved in assisting Iraqi children in particularly vulnerable situations. This includes help for disabled children.

DFID's broader support to the Iraqi health sector includes technical advice to the Ministry of Health, £5 million in assistance via the World Health Organisation (WHO) and part of our £70 million contribution to the multi-donor trust funds managed in line with Iraqi priorities by the United Nations and the World Bank. Additionally, DFID's Civil Society Fund for Iraq works to strengthen the capacity of Iraqi civil society organisations to better address the needs of poor and vulnerable groups, and includes support specifically focused on the needs of children.

Mr. Hancock: To ask the Secretary of State for International Development what steps his Department is taking to provide assistance to disabled children in Iraq, with particular reference to children disabled by recent military action. [220807]

Hilary Benn: DFID's support to the Iraqi health sector includes technical advice to the Ministry of Health, £5 million in assistance via the World Health Organisation (WHO) and part of our £70 million contribution to the multi-donor trust funds managed in line with Iraqi priorities by the United Nations and the World Bank. Additionally, DFID's Civil Society Fund for Iraq works to strengthen the capacity of Iraqi civil society organisations to better address the needs of poor and vulnerable groups, and includes support specifically focused on the needs of children.

The International Committee of the Red Cross (ICRC) has been working to support amputees in Iraq, although their activities have been constrained by the security situation. The ICRC is supporting five orthopaedic centres in central and southern Iraq with components, spare parts, local purchases and maintenance machinery. DFID has committed a total of £16.5 million to the ICRC since March 2003 in support of their activities in Iraq.

UNICEF is also working to assist Iraqi children in particularly vulnerable situations. This includes help for disabled children.

Palestine

Mr. Lyons: To ask the Secretary of State for International Development if he will take steps to bring together representatives of countries prepared to help a new Palestinian state to discuss a co-ordinated aid programme. [220346]

Hilary Benn: One of the outcomes of the recent London Meeting on Supporting the Palestinian Authority (PA) was a commitment by the international community to more streamlined donor co-ordination and support. DFID will play a full part in strengthening donor co-ordination, including the Ad Hoc Liaison Committee. Follow up to the Meeting includes the establishment of a new Working Group on security, and it is anticipated that the World Bank and the PA will jointly convene a donor Consultative Group in the summer.

Relief Initiatives (HIPC)

Mr. Patrick Hall: To ask the Secretary of State for International Development what measures he is taking to address poverty in heavily indebted poor countries in conflict. [221001]

Hilary Benn: There are seven countries affected by conflict that could potentially qualify for debt relief under the Heavily Indebted Poor Countries (HIPC) Initiative. Last year, the UK was at the forefront of efforts to extend the Sunset Clause of the HIPC Initiative beyond December 2004, thus extending the initiative for a further two years. This could allow these remaining conflict affected HIPC countries to benefit from HIPC debt relief, once they have met the criteria required to qualify. In addition, the UK has announced that it will hold in trust any debt service payments received from these countries and this money will be returned for spending on poverty reduction once they qualify for the initiative.

In January 2005, DFID set out in its publication "Why we need to work more effectively in fragile states," how it will tackle the challenges of poverty in difficult environments. This included reviewing the way aid is allocated to fragile states; joining with other Government Departments to ensure our policies are coherent; doing more regional programming; getting the balance right between humanitarian and development aid and staying engaged over a longer timeframe (five to 10 years). Copies of this publication have been placed in the Libraries of both Houses. It can also be accessed at http://www.dfid.gov.uk/pubs.

DFID is actively involved in supporting conflict resolution initiatives, through among other things the Global and Africa Conflict Prevention Pools, as well as delivering humanitarian aid in conflict situations. DFID is funding operations as well as building the capacity of organisations working on reducing conflict in conflict affected countries, including the United Nations, the European Union, the World Bank and the African Union and several Non-Governmental Organisations (NGOs). DFID is directly supporting programmes that address insecurity—a barrier to poverty reduction—through our Security Sector Reforms and Small Arms Strategies, and support to Disarming, Demobilisation and Reintegration (DDR) programmes in conflict affected countries.

Mr. Patrick Hall: To ask the Secretary of State for International Development whether he plans to use the UK's presidency of the EU to press for 70 per cent. of the EU's aid budget to be given to low income countries. [221002]

Hilary Benn: DFID has a Public Service Agreement target of increasing the proportion of EC Overseas Development Assistance (ODA) to low-income countries from its 2000 baseline of 38 per cent., to 70 per cent. by 2008. By 2003, the figure had reached 56 per cent.

It is not clear if any major decisions related to allocation of EC ODA will need to be taken during the UK Presidency. But we will work with our partners, this year and beyond, to ensure that the EU provides the leadership and the quantity and quality of aid needed to tackle global poverty. This includes increasing the amount of EC aid committed to and spent in low-income countries.

HOME DEPARTMENT

Antisocial Behaviour

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions the dispersal powers under section 30 of the Anti-social Behaviour Act 2003 have been used. [219329]

Ms Blears: I refer the hon. Member to the reply I gave on 31 January 2005, *Official Report*, column 690W.

Asylum Seekers

Mr. Chope: To ask the Secretary of State for the Home Department how many Iranian citizens are in the UK after having been refused asylum. [220871]

Mr. Browne *[holding answer 8 March 2005]:* Information on numbers of Iranian citizens in the UK after having been refused asylum is not currently available and could be produced only at disproportionate cost. Some individuals refused asylum may have been granted humanitarian protection or discretionary leave following initial decision or appeal outcomes. Some of those refused asylum are awaiting appeal outcomes and may subsequently be granted asylum or other temporary leave to remain, while some may have departed voluntarily without notifying the authorities.

E-borders and ID cards will enable us to monitor this more precisely in the future.

Correspondence

Sir Michael Spicer: To ask the Secretary of State for the Home Department when he expects to respond to the letter from the hon. Member for West Worcestershire of 20 December 2004, reference M130/5. [217685]

Mr. Browne *[holding answer 24 February 2005]:* I wrote to the hon. Member on 9 March.

Hunting

Mr. Drew: To ask the Secretary of State for the Home Department what reports he has received of actions by hunt supporters against those who support the ban; and what guidance he has issued to police forces on enforcement of the ban. [218645]

Ms Blears: There have been several incidents reported to the police involving both hunt supporters and those who support the ban on hunting with dogs since the Hunting Act came into force on 18 February but most events have passed off peacefully. The Home Office has not issued guidance to police forces on enforcement of the Hunting Act. However, the Association of Chief Police Officers have published strategic and tactical guidance.

Burglary (Hartlepool)

Iain Wright: To ask the Secretary of State for the Home Department how many burglaries were committed in Hartlepool in each year since 1997. [218512]

Ms Blears: The available information relates to the Hartlepool Crime and Disorder Reduction Partnership (CDRP) area and is given in the tables. Statistics at CDRP level are only available from 1999–2000 onwards and only burglary in a dwelling figures are available for 1999–2000 to 2001–02.

Table 1: Offences of burglary recorded by the police in the Hartlepool Crime and Disorder Reduction Partnership area, 1999–2000 to 2001–02

Number of offences

	Burglary in a dwelling	*Burglary other*	*Total burglary*
1999–2000	1,484	n/a	n/a
2000–01	1,409	n/a	n/a
2001–02	1,294	n/a	n/a

Note:

The data in this table are prior to the introduction of the National Crime Recording Standard. These figures are not directly comparable with those for later years.

Table 2: Offences of burglary recorded by the police in the Hartlepool Crime and Disorder Reduction Partnership area, 2002–03 and 2003–04

Number of offences

	Burglary in a dwelling	*Burglary other*	*Total burglary*
2002/03	1,488	1,230	2,718
2003/04	1,276	1,195	2,471

Note:

The data in this table takes account of the introduction of the National Crime Recording Standard in April 2002. These figures are not directly comparable with those for earlier years.

Mental Health (Lancashire)

Mr. Hoyle: To ask the Secretary of State for the Home Department what procedures Lancashire police follow for dealing with people in custody who have mental health problems. [216831]

Ms Blears: The question relates to operational issues for the Lancashire constabulary which are matters for the chief officer. I have asked the chief officer to respond directly to my hon. Friend. I have also asked the chief officer to forward a copy of the response to my Department and I will arrange to place a copy in the Library.

Overseas Students

Mr. Lazarowicz: To ask the Secretary of State for the Home Department when the proposal to abolish the right of appeal against refusal of leave to enter the UK to study will be put into practice. [218897]

Mr. Browne: On 7 February, we published our five year strategy for asylum and immigration, Controlling our borders: Making migration work for Britain (Cm6472). The strategy states (paragraph 33) that we will legislate to abolish appeals for work and study routes for those refused an entry clearance overseas and

those refused entry at a UK port or airport. This will require primary legislation. As my hon. Friend will be aware, the Government sets out their legislative programme each year in the Queen's Speech.

Police/Crime Statistics (Durham)

Mr. Kevan Jones: To ask the Secretary of State for the Home Department how many police there were in North Durham in *(a)* 2001 and *(b)* on the latest date for which figures are available [214459]

Ms Blears: Police strength by basic command unit has only been collected centrally since 31 March 2002. The North Durham area is made up of three basic command units. The available information for North Durham is given in the following table.

	As at 31 March:		
North Durham Basic Command Units	*2002*	*2003*	*2004*
Derwentside	173	181	172
Chester-le Street/Durham	244	249	242
Easington	201	209	200
Total North Durham	618	639	614

Police

Tom Cox: To ask the Secretary of State for the Home Department which police stations within the Greater London area have been *(a)* opened and *(b)* closed in each of the last three years. [214389]

Ms Blears: Decisions about police station openings and closure are operational matters and are made locally.

Prisons (Drug Testing)

Mr. Oaten: To ask the Secretary of State for the Home Department (1) how many and what proportion of prisoners have tested positive under the mandatory drug testing programme for *(a)* an illegal substance, *(b)* heroin, *(c)* cocaine, *(d)* ecstasy, *(e)* LSD and *(f)* cannabis in each of the last five years; and if he will make a statement; [218857]

(2) how many prison inmates have been subject to mandatory drug testing in each of the last five years; and if he will make a statement. [218860]

Paul Goggins: The total number of samples tested under the mandatory drug testing programme in the last five years and the numbers and proportions that have tested positive for all drugs, opiates, cocaine, amphetamines, Lysergic acid diethylamide (LSD) and cannabis are given in the following table.

	1999–2000	*2000–01*	*2001–02*	*2002–03*	*2003–04*
Number tested[1]	87,660	88,478	83,407	78,967	83,640
Number positive	17,892	16,802	14,370	12,882	14,644
Percentage positive	20.4	19.0	17.2	16.3	17.5
Opiates2					
Number positive	6,904	7,941	6,962	4,704	4,406
Percentage positive	7.9	9.0	8.4	6.0	5.3
Cocaine					
Number positive	407	472	440	386	382
Percentage positive	0.5	0.5	0.5	0.5	0.5
Amphetamines3					
Number positive	121	88	83	63	106
Percentage positive	0.1	0.1	0.1	0.1	0.1
LSD					
Number positive	1	0	0	0	0
Percentage positive	0.0	0.0	0.0	0.0	0.0
Cannabis					
Number positive	12,009	9,452	7,644	8,195	10,157
Percentage positive	13.7	10.7	9.2	10.4	12.1

[1] Some prisoners may have been tested more than once in any financial year.
[2] Opiates include heroin
[3] Amphetamines include ecstasy

Special Constables

Ann Winterton: To ask the Secretary of State for the Home Department if he will make it his Department's policy to pay special constables; and if he will make a statement. [220550]

Ms Blears: Allowance schemes for Special Constables are in operation in four forces. These schemes are subject to evaluation to assess the impact of paying an allowance on the recruitment and retention of Specials and also the number of hours specials are prepared to offer for police duties. We have no plan to change the voluntary status of the Special Constabulary.

West Mercia Police

Mr. Paul Marsden: To ask the Secretary of State for the Home Department (1) what the length of employment of each Chief Superintendent in the West Mercia Police Constabulary is; [213314]

(2) what the salary is of *(a)* the West Mercia Police Chief Constable and *(b)* each West Mercia Police Chief Superintendent. [213317]

Ms Blears: There are ten chief superintendents in West Mercia Constabulary. As of 1 February 2004, their lengths of employment are as follows.

19 years and 1 month;
19 years and 3 months;
21 years and 4 months;
23 years and 5 months;
24 years and 9 months;
25 years and 4 months;
26 years and 4 months;
27 years and 5 months;
28 years and 5 months;
29 years and 1 month.

Three officers are on the first point of the chief superintendents' salary scale at £63,345, one officer is at the second point of the scale at £65,145 and six officers are at the third point of the scale and receive a salary of £66,951.

The chief constable of West Mercia receives a salary of £121,071.

CULTURE, MEDIA AND SPORT

Arts Council England

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport how many full-time equivalent staff were employed by the Arts Council England in each year between 1997–98 and 2003–04; and if she will make a statement. [221011]

Estelle Morris: The following figures supplied by Arts Council England provide a breakdown of the average number of staff employed, 1997–98—2003–04.

	Average number of staff	Average number of staff (including creative partnerships programme)
1997–98	654	654
1998–99	673	673
1999–2000	644	644
2000–01	665	665
2001–02	690	690
2002–03	679	698
2003–04	642	707

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport if she will list the *(a)* technical and financial contracts, *(b)* technical consultants used on a call-off basis and *(c)* financial consultants used on a call-off basis by the Arts Council England for each year from 1997–98 to 2003–04; what the nature of the assignment for each consultant was; and what the value of work done by each consultant was. [221012]

Estelle Morris: The information requested could be provided only at disproportionate cost.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what the administration costs of the Arts Council England were in each year between 1997–98 and 2003–04, broken down by *(a)* staff costs and *(b)* non-staff costs; and if she will make a statement. [221013]

Estelle Morris: The following figures provided by Arts Council England provide a breakdown of the information requested.

£

	Staff costs	Staff costs (including creative partnerships programme)	Non staff costs[1]
1997–98	15,774,030	15,774,030	21,310,051
1998–99	16,646,015	16,646,015	20,155,506
1999–2000	17,472,477	17,472,477	20,263,578
2000–01	20,273,618	20,273,618	20,328,583
2001–02	21,517,000	21,517,000	21,140,000
2002–03	23,418,000	24,578,000	21,974,000
2003–04	22,356,000	25,061,000	19,909,000

£

	Non staff costs[1] (including creative partnerships programme)	Total administration costs	Total administration costs (including creative partnerships programme)
1997–98	21,310,051	37,084,081	37,084,081
1998–99	20,155,506	36,801,521	36,801,521
1999–2000	20,263,578	37,736,055	37,736,055
2000–01	20,328,583	40,602,201	40,602,201
2001–02	21,140,000	42,657,000	42,657,000
2002–03	22,818,000	45,392,000	47,396,000
2003–04	21,725,000	42,265,000	46,786,000

[1] Note that 1997–98 to 2000–01 figures have been adjusted to remove inter-company transactions with the Regional Arts Boards to prevent double counting of costs. Exceptional items have been excluded.

Surplus Assets Sales

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport whether her Department sold surplus stock on the e-Bay auction website in each year since 2000–01. [220950]

Mr. Caborn: DCMS has not used the e-Bay auction website.

Mr. Evans: To ask the Secretary of State for Culture, Media and Sport what the value of sales of surplus assets from her Department was in each year since 2000–01. [220975]

Mr. Caborn: The value of sales of assets are as follows:

	£
2001–02	5,000,000
2002–03	0
2003–04	232,000
2004–05	2,643,000

TRADE AND INDUSTRY

Alcohol

Ross Cranston: To ask the Secretary of State for Trade and Industry what recent discussions she has had with the Office of Fair Trading on minimum pricing as a means of tackling alcohol misuse. [220388]

Mr. Sutcliffe: In the context of considering the options for tackling problems associated with excessive consumption of alcohol, both the Office of Fair Trading (OFT) and my Department have provided advice to the

Home Office on relevant aspects of domestic and European competition law. OFT and DTI officials have been involved in a number of relevant discussions, including on the particular issue of minimum pricing schemes. The Home Office's proposals on these matters were also raised briefly during a regular meeting between the Secretary of State for Trade and Industry and the Board of the OFT that took place in mid-January The Home Office launched its public consultation document "Drinking Responsibly" on 25 January 2005

Call Centres

David Winnick: To ask the Secretary of State for Trade and Industry what the estimated number of people employed in call centres in the UK is; and what percentage of the work force that figure represents. [220358]

Mr. Mike O'Brien *[holding answer 7 March 2005]:* The Office for National Statistics (ONS) has recently begun to publish statistics for the number of jobs in enterprises whose main activity falls within Standard Industrial Classification (SIC) 74.86 (call centre activities). The number of jobs in SIC 74.86 is estimated as 20,000, averaged over 2003, approximately 0.07 per cent. of total work force jobs. Some call centre activity takes place within enterprises whose main activity is classified to other sectors e.g. financial services. The DTI study on the UK Call Centre Industry, published in May 2004, quoted an unofficial estimate of 790,000 jobs based on this wider definition.

Economic Partnership Agreements

Mr. Challen: To ask the Secretary of State for Trade and Industrywhat steps she is taking to ensure that economic partnership agreement are being negotiated in such a way as to benefit developing countries. [218982]

Mr. Mike O'Brien: The Government warmly welcome the recent statements by the EU Trade Commissioner on the importance that he places on ensuring that the development needs of ACP countries are put at the heart of negotiations on economic partnership agreements. Ministers and officials are in regular contact with their counterparts in the European Commission and ACP Governments to discuss how the EPA negotiations are being taken forward to benefit developing countries. The Government are undertaking research on key issues to inform these negotiations and will share the outcome of this research with the European Commission and ACP Governments.

Mr. Wills: To ask the Secretary of State for Trade and Industry what action she is taking to ensure the economic partnership agreements between the EU and African, Caribbean and Pacific countries give appropriate priority to development in those countries; and what representations she has made to the European Commission on the subject. [220898]

Mr. Alexander: As set out in the White Paper "Making Globalisation a force for good", the Government are clear that the focus of the economic partnership agreements must broad-based, focusing not just on trade but also on political co-operation, technical assistance and trade-related capacity building, and be truly development-focused. The EU has stated that it has no offensive market access interests in negotiating economic partnership agreements, and the UK will seek to hold our EU partners to this. Ministers and officials are in regular contact with the Commission to discuss various aspects of the agreements and we are commissioning research into aspects of the negotiations to inform the policies of the European Commission and ACP countries.

Mr. Wills: To ask the Secretary of State for Trade and Industry what assessment she has made of the appropriate level of regional integration which African, Caribbean and Pacific countries should reach before committing to economic partnership agreements with the EU; and what representations she has made to the European Commission on the subject. [220899]

Mr. Alexander: The Government warmly welcome the recent statements by the EU Trade Commissioner on the importance that he places on ensuring that the development needs of ACP countries are put at the heart of negotiations on economic partnership agreements. This includes enhancing existing regional integration initiatives, by building regional markets among developing countries, and strengthening regional producers. Before economic partnership agreements come into force, each region will need to have agreed a common external tariff, a timetable for removing the tariff barriers between members of the regional economic grouping and a process for harmonising regional trade-related rules. Negotiations are at an early stage; however, Ministers and officials are in regular contact with the European Commission on a number of issues.

EU Emissions Trading Scheme

Miss McIntosh: To ask the Secretary of State for Trade and Industry what assessment she has made of the impact of the EU Emissions Trading Scheme on the competitiveness of British industry in comparison to its European competitors. [220719]

Mr. Mike O'Brien: The Department published in 2004 an assessment of the implications of the EU Emissions Trading Scheme (ETS) for the competitiveness of British industry. The paper is available at: www.dti.gov.uk/energy/sepn/euetsimplications.pdf.

The Department also commissioned Ilex Energy Consulting in 2004 to produce a report on the impact on electricity prices across EU countries as a result of the ETS. This report is a available at: www.dti.gov.uk/energy/sepn/ilexetsfinal.pdf.

Miss McIntosh: To ask the Secretary of State for Trade and Industry when the Department expects to reach an agreement with the European Commission on first phase exemption from EU Emissions Trading Scheme. [209323]

Mr. Morley: I have been asked to reply.

We expect the UK's application for temporary exclusion from the EU ETS for installations covered by Climate Change Agreements to be made before Easter. We will then await the Commission's response and consideration by the Comitology Committee.

Energy Policy

Sue Doughty: To ask the Secretary of State for Trade and Industry how much funding, and in what form, is being provided by the Government to assist trade associations and other industry representative bodies in addressing barriers to distributed generation, in pursuit of the goal to achieve 10 per cent. of electricity and 10gW of combined heat and power to be supplied by renewable sources. [220822]

Mr. Mike O'Brien: During 2004–05 the DTI expects to provide some £280,000 of direct support to trade associations and similar bodies to help in providing representation on various industry forums dealing with distributed generation-related issues, including renewables and combined heat and power. In addition the DTI expects to expend some £1.7 million during 2004–05 on specific projects aimed at the removal of barriers to the development of distributed generation or its impact on the electricity networks.

EU Committees

Angus Robertson: To ask the Secretary of State for Trade and Industry how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the EC-Argentina RTD Co-operation Steering Committee met; when and where these meetings took place; what UK Government expert was present; and if she will make a statement. [215422]

Mr. Alexander: The last Joint S and T Committee meeting with Argentina was held in Brussels on 15 November 2002. The next meeting is planned for the second half of 2005. These meetings are convened by the Commission and member states are not invited to participate—UK officials will not therefore attend.

Fuel Poverty

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what recent progress has been made towards reducing fuel poverty in the west midlands. [220934]

Mr. Mike O'Brien: The number of fuel poor households in the west midlands fell from over 500,000 in 1996 to around 200,000 in 2001. This mirrors the overall fall in the number of fuel poor households in the UK, a figure which has fallen from about 5½ million in 1996 to about 2¼ million in 2002. Regional breakdowns are not available for 2002.

Minimum Wage

Mr. Lyons: To ask the Secretary of State for Trade and Industry what plans she has for *(a)* amendments to and *(b)* elimination of the development rate of the minimum wage. [220349]

Mr. Sutcliffe: The Government continues to believe that the development rate of the minimum wage is necessary to help protect the employment prospects of young workers. As the Secretary of State for Trade and Industry (Ms Hewitt) said in her written statement to Parliament on 25 February 2005, *Official Report*, column 71WS, the Government have accepted the Low Pay Commission's recommendation in their 2005 Report that the development rate should be increased to £4.25 an hour in October 2005.

However we have not accepted the Commission's recommendation that 21 year-old workers should be moved onto the adult rate, because the economic evidence on this point remains mixed. We therefore intend to make no change in 2005 but to look carefully at this issue in the future.

Mr. Gordon Prentice: To ask the Secretary of State for Trade and Industry if she will require the prevailing rate of the national minimum wage to be printed on pay slips. [220377]

Mr. Sutcliffe: The question has been considered but rejected because it would add considerable costs for business.

Mr. Jim Cunningham: To ask the Secretary of State for Trade and Industry what action her Department is taking to reduce the number of employers who consistently refuse to pay the minimum wage. [220935]

Mr. Sutcliffe: In their latest report, the Low Pay Commission said that the vast majority of employers support and comply with the minimum wage. However we recognise that a small minority of employers are not paying their workers the minimum wage. We are presently considering a number of options for improving enforcement and intend to make a statement on this in early summer.

National Radiological Protection Board Report

Dr. Stoate: To ask the Secretary of State for Trade and Industry (1) what assessment she has made of the National Radiological Protection Board Report W62; [217696]

(2) if she will instigate a formal measurement audit of the 2,000 base stations omitted from National Radiological Protection Board Report W62. [217697]

Mr. Mike O'Brien: The project "Exposure of the General Public to Radio Waves near Microcell and Picocell Base Stations . . . " was carried out under the auspices of the LINK Mobile Telecommunications and Health Research Programme (MTHR) Programme (see www.mthr.org.uk). The project was designed to establish the best methodology for undertaking such measurements and was not a part of a national measurement audit. The project considered those sites with the accepted characteristics of microcell and picocell base stations. Of the 3,000 sites that fall into this category, 20 sites were randomly selected for survey. The study found that exposures at all sites surveyed were well below the International Commission for Non-Ionising Radiation Protection (ICNIRP) levels (the highest level recorded was 8.6 per cent. of the ICNIRP public reference level). The study demonstrated a viable measurement protocol.

The DTI have no plans to instigate a formal measurement audit of micro and picocell base stations. Microcell and picocell installations may be measured under the Ofcom measurement audit programme see: http://www.ofcom.org.uk/consumer_guides/mob_phone_base_stat/audit_info?a=87101.

Parliamentary Questions

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry when she will reply to question reference 214199, tabled for answer on 3 February 2005. [221139]

Ms Hewitt: Question 214199 has been transferred to my right hon. Friend the Chancellor of the Exchequer.

Post Offices

Mr. Drew: To ask the Secretary of State for Trade and Industry what criteria have been used to define *(a)* urban and *(b)* rural sub-post offices. [220716]

Mr. Sutcliffe: The classification of a post office branch as urban or rural is an operational matter for Post Office Ltd. (POL). My officials have asked POL to issue a direct reply to the hon. Member.

Michael Fabricant: To ask the Secretary of State for Trade and Industry (1) if she will ask Post Office Ltd. to reconsider its decision to close the sub-post offices in *(a)* Hurcott road, Kidderminster, Wyre Forest, *(b)* Sutton road, Kidderminster, Wyre Forest, *(c)* Calder Road, Stourport, Wyre Forest, *(d)* Lister road, Kidderminster, Wyre Forest, *(e)* Belmont, Stonecot Hill, Oldfields road, Ewell road, Angel Hill and Church Hill road in Sutton and Cheam and *(f)* Furnace Fields in Pine Tree road, Bedworth; [220774]

(2) if she will ask Post Office Ltd. to reconsider its decision to close *(a)* five post offices in north-west Leeds, *(b)* seven post offices in Harrow, *(c)* the sub-post office at (i) Aldershot road and (ii) Madrid road, Guildford, *(d)* six post offices in Weymouth, *(e)* Tildesley road post office on the Ashburton estate in Putney, *(f)* three post offices in Pudsey and *(g)* five post offices in Worcester; [220775]

(3) if she will ask Post Office Ltd. to reconsider its decision to close the sub-post offices at *(a)* Clifton road, Maida Vale, London, *(b)* Formosa street, London, *(c)* Sutherland avenue, London, *(d)* Furnace Fields, Bedworth, *(e)* Clifton street, South Swindon, *(f)* Oxford road, North Swindon, *(g)* Ferndale, North Swindon, *(h)* Duffield Road, Derby, *(i)* Duffield road, Darley, Abbey, Derby, *(j)* Nottingham Road, Spondon, Derby, *(k)* Rooseveldt avenue, Chaddesden, Derby, *(l)* St. Barnabas, Stables street, Mackworth, Derby, *(m)* Scarborough Rise, Derwent Heights, Derby, *(n)* Uttoxter Old road, Mackworth, Derby, *(o)* Fulham Palace road, London, *(p)* Brackenbury road, London and *(q)* Dukes Avenue, Richmond, London. [220776]

Mr. Sutcliffe: Decisions on post office closures and relocations are an operational matter for Post Office Ltd. In accordance with the Code of Practice on Post Office Closures and Relocations—agreed between Post Office Ltd. and Postwatch, the consumer watchdog for postal services—the company enters into consultation on all proposed closures. Postwatch are consulted on every post office closure before a decision is made and there is every opportunity for those affected by a proposal, and the local MP, to make representations to the company or to Postwatch.

Vehicle Pricing

Mr. Ben Chapman: To ask the Secretary of State for Trade and Industry pursuant to her answer of 10 February 2005, *Official Report*, columns 1801–02W, on vehicle pricing, what steps she is taking to encourage competition in the car industry as a means of bringing prices of new cars in line with the EU. [220918]

Mr. Sutcliffe: I am not aware of any pressing need to take further steps to encourage more competition in the car industry at present.

It is too soon for the competition authorities to be able to assess the full effects of the recent changes to competition rules as they apply specifically to this sector. The "location clause" of the revised block exemption regulation which will permit car retailers to open additional sales outlets in any part of the EU does not come into force until 1 October this year. It is for car manufacturers to ensure that their agreements with franchised dealers do not contain restrictions of the type outlawed under competition law, and for the competition authorities to enforce the regime.

EDUCATION AND SKILLS

A2-levels

Mr. Hoban: To ask the Secretary of State for Education and Skills how many entrants graded A and B at A2 level in *(a)* mathematics, *(b)* chemistry and *(c)* physics were from (i) independent, (ii) grammar and (iii) maintained schools in (A) 2003 and (B) 2004; and what percentage of each cohort this was in each case. [221217]

Mr. Stephen Twigg: The information requested on the number of 16–18 year old students achieving As or Bs in mathematics, chemistry and physics by school type is given in the following table:

	2003			2004		
	Independent	*Grammar*	*Comprehensive*	*Independent*	*Grammar*	*Comprehensive*
Number achieving A/B in chemistry	5,688	2,666	5,211	6,030	2,872	5,475
As a percentage of:						
Chemistry candidates	73.1	62.8	42.7	73.7	65.2	43.7
Total candidates	16.0	14.0	5.0	16.6	14.7	5.1
Number achieving A/B in physics	4,179	2,079	4,278	4,095	2,040	3,936
As a percentage of:						
Physics candidates	68.0	58.8	38.3	67.7	61.7	38.5
Total candidates	11.8	10.9	4.1	11.3	10.4	3.7

	2003			2004		
	Independent	*Grammar*	*Comprehensive*	*Independent*	*Grammar*	*Comprehensive*
Number achieving A/B in mathematics	8,054	3,725	8,608	8,527	3,979	9,084
As a percentage of:						
Mathematics candidates	76.6	67.6	48.9	78.3	69.7	50.2
Total candidates	22.7	19.6	8.3	23.5	20.3	8.5

Mr. Hoban: To ask the Secretary of State for Education and Skills how many entrants graded A and B at A2 level in *(a)* French, *(b)* German and *(c)* Spanish were from (i) independent, (ii) grammar and (iii) maintained schools in (A) 2003 and (B) 2004; and what percentage of each cohort this was in each case. [221219]

Mr. Stephen Twigg: The information requested on the number of 16–18 year old students achieving As or Bs in French, German and Spanish by school type is given in the following table.

	2003			2004		
	Independent	*Grammar*	*Comprehensive*	*Independent*	*Grammar*	*Comprehensive*
Number achieving A/B in French	*3,060*	*1,043*	*2,127*	*2,989*	*1,075*	*2,145*
As a percentage of:	*73.7*	*63.2*	*46.3*	*74.9*	*67.6*	*47.9*
French candidates

Total candidates	3.9	1.3	0.6	3.8	1.7	0.6

Capital Funding

Dr. Stoate: To ask the Secretary of State for Education and Skills what capital funding has been made available to *(a)* Dartford primary and secondary schools and *(b)* schools in the Kent local education authority area in each of the last five years; and if she will make a statement on the Government's capital funding plans for Kent schools in the next five to 10 years. [221101]

Mr. Stephen Twigg: The table sets out the total capital resources allocated to Kent local education authority and schools in area in each of the last five years. Information on how capital funding was made to primary and secondary schools in the Dartford area in this period is not held centrally. Decisions on how resources should be invested in schools are taken by the local education authority in accordance with locally prepared asset management plans.

Government's capital funding plans for Kent schools in the next five to 10 years will depend on the outcome of future spending reviews. Kent LEA is in wave three of the Building Schools for the Future programme, with an estimated commencement date of 2007–08.

	Allocation (£000)
2000–01	63,044
2001–02	48,222
2002–03	72,951
2003–04	92,848
2004–05	181,101

Correspondence

Mr. Wyatt: To ask the Secretary of State for Education and Skills when she expects to reply to the letters from the constituent of the hon. Member for Sittingbourne and Sheppey, Richard Carter, dated 29 January and earlier. [220882]

Derek Twigg *[holding answer 9 March 2005]:* A full response was sent yesterday to my hon. Friend's constituent.

Regional Bodies

Mrs. Spelman: To ask the Secretary of State for Education and Skills what regional *(a)* bodies, *(b)* institutions, *(c)* taskforces, *(d)* panels, *(e)* offices and *(f)* organisations the Government have established since May 1997 which are the responsibility of her Department. [219913]

Mr. Ivan Lewis: Since May 1997 the Government have established the following regional bodies which are the responsibility of the Department for Education and Skills:

Nine Sure Start/Children's Fund Regional Teams introduced into existing Government Offices to support, monitor and challenge local authorities and their partners to deliver the Sure Start agenda, in particular the 10-Year Childcare Strategy; and nine Standards Unit Regional Directors co-located within the Learning and Skills Development Agency. They work in collaboration with partner organisations and colleagues to ensure that the work of the Standards Unit supports all learning organisations to overcome barriers to effective teaching and learning and raise standards, develop their workforce and achieve excellence and improve success for all post 16 year old learners.

Mrs. Spelman: To ask the Secretary of State for Education and Skills which *(a)* non-departmental public bodies and *(b)* executive agencies within the

remit of her Department have regional offices based on the Government Offices for the Regions' regional structure; and when the regional offices were established in each case. [219920]

Mr. Ivan Lewis: On 7 January 2004 the Learning and Skills Council (LSC) announced a new regional management structure to help drive forward its work in the regions and develop relationships at a regional level. This has allowed for a more streamlined and effective management structure that avoids additional bureaucracy, and delivers the LSC's agenda with fewer staff overall. Except in London, each LSC Regional Director also has responsibility for a specific local LSC within their region, and the region itself maps on to the same geographical areas as those covered by the relevant Government Office for the Region.

Replacement Secondary Schools

Mr. Willis: To ask the Secretary of State for Education and Skills what assessment she has made of the time that local education authorities and promoters will need to plan and implement proposals for replacement secondary schools resulting from the proposal in the Education Bill to include replacement secondary schools in the secondary school competition arrangements; and what assessment she has made of whether there will be an increase in pressures on staff, parents and pupils subject to the competition procedures while undergoing school reorganisation. [220890]

Derek Twigg: Competitions for replacement secondary schools will take place only where the local authority decides that statutory proposals for a new secondary school are necessary. The time scale will therefore be the same as for any other reorganisation, with the addition of four months for prospective promoters to prepare their bids. We would expect the local authority to take this into account in planning future reorganisations and discussing them with schools.

Since competitions will take place only where proposals for new schools would be required in any case, there should be no increased pressure on staff, parents and pupils. The competition requirement, and increased time for preparation of possible alternative options and provision for people to comment on those proposals, will together give greater opportunities for staff, pupils and parents to have a say about the type of school that they believe will best meet local needs.

Retirement Awards

Mr. Webb: To ask the Secretary of State for Education and Skills what *(a)* award schemes and *(b)* other forms of official recognition are available in respect of retiring teachers who have completed exceptionally long periods of service to the teaching profession; and if she will make a statement. [220879]

Mr. Stephen Twigg *[holding answer 9 March 2005]:* There are no specific award schemes for retiring teachers who have completed exceptionally long periods of service. However, all teachers are sent a letter of thanks and recognition from the Secretary of State at the time of their retirement.

In addition, the televised Teaching Awards ceremony, which celebrates excellence in teaching, and the Honours system provide opportunities for individual achievement to receive formal recognition. At a local level, employers and school communities do regularly recognise long and dedicated service of teachers at retirement functions.

Teachers (Student Loans)

Mr. Keith Bradley: To ask the Secretary of State for Education and Skills what plans she has to continue the pilot scheme to repay the students loans for teachers under the Secondary Shortage Subject Scheme. [221197]

Mr. Stephen Twigg: We are currently considering whether or not to extend the pilot Repayment of Teachers' Loans Scheme and expect to announce a decision in the coming weeks. The Secondary Shortage Subject Scheme is an entirely separate scheme which is essentially a hardship fund for undergraduate trainee teachers.

Teaching and Administrative Staff

Mr. Webb: To ask the Secretary of State for Education and Skills if she will estimate how many full-time equivalent staff are employed in *(a)* schools and other institutions of non-advanced further education and *(b)* the administration of education by local authorities and further education colleges; and if she will make a statement. [220878]

Mr. Stephen Twigg *[holding answer 9 March 2005]:* In January 2004, the latest information available, there were 670,800 full-time equivalent staff employed in maintained schools in England consisting of 427,700 full-time equivalent regular teachers and 243,100 teaching assistants and other support staff. In 2002/03 there were 74,500 full-time equivalent teaching staff employed in further education sector colleges. In the same year there were 56,400 full time equivalent support staff employed by further education sector colleges. This figure includes administrative staff as well those involved in other non-teaching roles such as building maintenance, cleaning and security. It is not possible to separate the administration staff from the overall total.

Information on the number of non-school based administration staff employed by local education authorities is not collected centrally.

Tuition Fees

Charles Hendry: To ask the Secretary of State for Education and Skills what her latest estimate is of the total amount that has been paid by students in tuition fees since their introduction. [220810]

Dr. Howells: Students on full-time undergraduate courses and their families are expected to make a contribution towards the cost of their tuition only if they can afford to do so.

The amount of private contributions to tuition fees by students from England, Wales, and the European Union from 1999/2000 to 2004/05 is given in the table.

Private contributions to tuition fees by students domiciled in England, Wales, or the European Union for academic years 1999/2000[1] to 2004/05

Academic year	*£ million*
1999/2000	199.2
2000/01	309.2
2001/02	373.3
2002/03	403.1
2003/04	420.1
2004/05[2]	427.0

[1] Tuition fees were introduced in academic year 1998/99, however as that year was treated as a transitional year, data are not available on the same basis as subsequent years.
[2] Provisional (as at 7 March 2005).

Student Loans Company

HEALTH

Alcohol-related Deaths

Mr. Amess: To ask the Secretary of State for Health what action the Government are taking to reduce the number of deaths for which alcohol is the primary cause. [221246]

Miss Melanie Johnson: The policies set out in the alcohol harm reduction strategy for England seek to reduce harm caused by alcohol, thus, contributing to a reduction in the number of deaths for which alcohol is the primary cause.

In addition, the White Paper, "Choosing Health", published on 16 November 2004 highlighted that the Government will build on commitments within the alcohol harm reduction strategy for England through:

Guidance and training to ensure all health professionals are able to identify alcohol problems early.

Piloting approaches to targeted screening and brief interventions in both primary care and hospital settings, including accident and emergency departments.

Developing a programme for improvement for alcohol treatment services based on the findings of an audit of demand for and provision of alcohol treatment in England and the models of care framework for alcohol treatment.

Avian Influenza

Keith Vaz: To ask the Secretary of State for Health what assessment he has made of the World Health Organisation's estimates of numbers of people likely to be affected by an avian influenza pandemic. [220286]

Miss Melanie Johnson: We are aware of the assessments made by the World Health Organization (WHO) and others, of the estimates of the number of people likely to be affected by an influenza pandemic whatever the origins may be of a novel influenza virus. Until a pandemic arrives, we will not know how many people will be affected, but have used WHO's estimate as a working assumption for planning purposes. We will continue to update our assumptions as more information becomes available.

Bone Marrow Donors

John McDonnell: To ask the Secretary of State for Health (1) what funding was made available to *(a)* the NHS and *(b)* charitable bodies to recruit bone marrow donors in (i) 2002–03 and (ii) 2003–04; [216286]

(2) what action the Government have taken to encourage the staff of Government Departments and public sector bodies to join bone marrow registers by arranging clinics and circulating literature. [216294]

Miss Melanie Johnson: The Department provided the National Blood Service (NBS) with £3.3 million in 2002–03 and £3.3 million 2003–04 to recruit additional bone marrow donors.

The NBS recruits potential bone marrow donors at blood donation sessions using a range of methods. These include approaching potential donors on session, making available bone marrow literature on session and sending out bone marrow literature with blood donor session invitations.

Government and other public service employees can find out about bone marrow donation and are recruited as potential bone marrow donors through invitation to or attendance at public blood donation sessions. The NBS organises blood donation sessions within Government Departments and other public sector bodies primarily aimed at staff within these bodies. Information on bone marrow donation is available at these sessions.

Breast Cancer

Chris Grayling: To ask the Secretary of State for Health what proportion of women aged *(a)* 50 to 64 and *(b)* 65 to 70 have been screened for breast cancer by the NHS in (i) England, (ii) each strategic health authority area and (iii) each primary care trust area in each year since 1997. [219400]

Miss Melanie Johnson *[holding answer 4 March 2005]:* I refer the hon. Member to the reply I gave to the hon. Member for Sutton and Cheam (Mr. Burstow) on 8 March 2005, *Official Report*, column 1727W.

Dentistry

Sir Paul Beresford: To ask the Secretary of State for Health what tendering process was completed by Methods Consulting prior to the award of the contract for the recruitment of dentists from Poland; and what expertise they have in this field. [218299]

Ms Rosie Winterton *[holding answer 25 February 2005]:* Methods Consulting was awarded the contract to manage International Recruitment Services for the national health service in England as the result of a competitive tendering process, in accordance with the Department's procurement policy and takes into account expertise gained through previous recruitment services to the NHS.

Methods Consulting have extensive experience of working with the NHS, Modernisation Agency and the Department, including management of NHS Jobs electronic recruitment service.

Sir Paul Beresford: To ask the Secretary of State for Health pursuant to the answer of 9 February 2005, *Official Report*, column 1616W, on dentistry, if he will list in value order the number of bursaries awarded to dentists as a result of the Returning to Dentistry scheme. [219381]

Ms Rosie Winterton *[holding answer 1 March 2005]*: The total number of bursaries awarded so far in 2004–05 from the Returning to Dentistry scheme is 137, at a combined total of £113,178. The number of bursaries awarded, by cohorts of value, is:

	Number
£0-£500	31
£501-£999	70
£1,000-£1,999	23
£2,000-£3,000	0
£3,000-£4,000	13
Total	137

Mr. Gale: To ask the Secretary of State for Health pursuant to the answers to questions of 23 February 2005, *Official Report*, column 682W, how many dentists in Kent have closed their lists to NHS patients during the last 12 months; and how many dentists have opened their lists to NHS patients during the same period. [219384]

Ms Rosie Winterton *[holding answer 1 March 2005]*: The great majority of dental practices treat both private and national health service patients. The Office of Fair Trading report, "The private dentistry market in the UK", published in March 2003, estimated that out of 11,000 dental practices about 210 are totally private, treating no NHS patients. The information available relates to the general dental service practices in Kent that, at 15 February, were accepting at least one category of NHS patient for registration:

50 practices are registering charge exempt adults for NHS treatment,

31 practices that are registering charge paying adults for NHS treatment,

91 practices that are registering children aged 0–18 years for NHS treatment.

In addition, in the last 12 months, eight practices in Kent have moved to the personal dental services scheme, whereby they contract with their primary care trusts to undertake a specific amount of NHS treatment.

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of providing free annual dental checks for adults. [217493]

Ms Rosie Winterton: The cost of providing free annual dental checks for adults depends on the number of checks carried out and the payment to the dentist for each check. Patient charges for dental examinations are about £90 million a year. Some patients have more than one examination each year.

Doctor Retention

Mr. Evans: To ask the Secretary of State for Health what percentage of doctors who trained in England continued to work in the national health service for five years in the last period for which figures are available. [220485]

Mr. Hutton: The latest information available is shown in the table. It relates to doctors who graduated in 1996 and who were working in the national health service five years later, in 2001.

United Kingdom medical graduates working in the NHS five years after graduation[1,2]

	Number percentage
Respondents working in NHS	2,349
Respondents not working in NHS	337
Total	2,686
Percentage working in NHS	87.5

[1] Year of graduation 1996.
[2] Five year period ending 2001.

UK medical careers research group, Oxford University.

Healthy Eating

Mr. Amess: To ask the Secretary of State for Health what assessment he has made of the merits of including the calorific content on the labelling of alcoholic products. [220799]

Miss Melanie Johnson: No assessment has been made of the merits of including the calorific content on the labelling of alcoholic products.

Insect-borne Diseases

Mr. Hancock: To ask the Secretary of State for Health what recent research he has *(a)* commissioned and *(b)* evaluated on (i) insect-borne diseases and (ii) Lyme disease; and if he will make a statement. [220808]

Miss Melanie Johnson: Following the completion of eight research projects investigating aspects of Lyme disease, the latest in 1999, the Department is not currently undertaking research into Lyme disease. Details of the research projects completed can be obtained from the national research register. The Department is currently providing support funding for one on-going project relating to insect borne disease being undertaken by Epsom and St. Helier University Hospitals National Health Service Trust. Further information can be found at www.nrr.nhs.uk/ViewDocument.asp?ID=NO112072861.

Mr. Hancock: To ask the Secretary of State for Health what treatment protocols are available to NHS patients suffering from *(a)* insect-borne diseases and *(b)* Lyme disease; and if he will make a statement. [220809]

Miss Melanie Johnson: Advice to doctors about the diagnosis and treatment of Lyme disease is readily available on the Health Protection Agency (HPA) website at www.hpa.org.uk/infections/topics_az/zoonoses/lyme_borreliosis/fag.htm.

Guidance on treatment and prevention of other insect borne infections such as malaria and West Nile virus can be found on a number of websites, including the HPA's at http://www.hpa.org.uk/infections/topics_az/list.htm.

Mental Health

Mr. Hoyle: To ask the Secretary of State for Health if he will make a statement on links between drug abuse and mental health. [215491]

Miss Melanie Johnson: The Department recognises that there is a wide range of links and associations between substance abuse and mental health disorders. In order to improve the evidence within England, we commissioned a review of research literature, and the development of an information manual for practitioners from the Royal College of Psychiatrists, which were published in 2001.

As part of the Department's drug misuse policy research initiative, which funded £2.4 million research between 2000 and 2003, we funded five studies to improve the evidence within England that related to substance abuse and mental health problems.

Guidance commissioned by the Department, "Dangerousness of Drugs—a Guide to the Risks and Harms associated with Substance Misuse", published in September 2003, describes the various health consequences of abusing drugs, including the mental health implications.

Although we have not commissioned any further specific research into the links between substance abuse and mental health, the Department continues to monitor research in this area, and has a range of expert advisors to inform policy.

MRSA

Chris Grayling: To ask the Secretary of State for Health how frequently doctors are swab-tested for MRSA in the NHS. [219409]

Miss Melanie Johnson: Data on testing healthcare workers for methicillin resistant *Staphylococcus aureus* are not collected centrally. Policy on testing is determined by local national health service trusts.

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 9 February 2005, *Official Report*, column 1623W, on MRSA, what assessment has been made by the National Health Service Litigation Authority of the risk to the NHS of civil litigation cases from patients who have contracted MRSA in hospital through a hospital's negligence. [219690]

Ms Rosie Winterton *[holding answer 4 March 2005]:* The NHS Litigation Authority assesses future claims provisions on an aggregate basis for the whole of the national health service. Risks associated with specific conditions are not assessed or identified separately.

Obesity

Mr. Amess: To ask the Secretary of State for Health what representations he has received on the Health Select Committee's report on obesity. [216362]

Miss Melanie Johnson: We have not received any representations specifically related to the Health Select Committee report on obesity.

Patients' Information

Mr. Lansley: To ask the Secretary of State for Health what steps he is taking to ensure that there is good communication between healthcare professionals and their patients, with particular reference to the information patients receive on *(a)* tests, *(b)* medication and *(c)* advice on the matters they should be aware of following discharge from an out-patient or accident and emergency department. [218122]

Ms Rosie Winterton: In December 2004, the Department published "Better Information, better choices, better health". This is a three year programme of action, at both national and local level, designed to improve equitable access to the quality information people need and want about their personal health and healthcare. The strategy places an emphasis on enhancing the relationship between healthcare professionals and patients through supporting the dialogues within consultations. It also sets out to build further national resources and ensure that patients receive good quality information at all stages of treatment, from diagnosis to discharge.

Copies of the document have been placed in the Library.

Pharmacy Contracts

Dr. Murrison: To ask the Secretary of State for Health (1) what financial support is available to pharmacists dispensing fewer than 2,000 items a month from *(a)* primary care trusts and *(b)* central Government; [214169]

(2) what annual savings his Department expects to make as a result of the withdrawal in 2008 of the Establishment Fee for smaller pharmacies; [214201]

(3) what estimate his Department has made of the number of pharmacies that will close as a result of the withdrawal in 2008 of the Establishment Fee for smaller pharmacies; [214202]

(4) what financial support will become available to pharmacists dispensing fewer than 2,000 items a month *(a)* from primary care trusts and *(b)* from central Government after the withdrawal of the Establishment Fee in 2008. [214203]

Mr. Lansley: To ask the Secretary of State for Health (1) what progress is being made in developing a standard form for local pharmaceutical services under the new pharmacy contract; [216148]

(2) what the reasons are for restricting the exit payment under the new pharmacy contract to the first year of the contract's operation; [216149]

(3) what support will be given to pharmacies dispensing less than 2,000 items per month under the new pharmacy contract. [216150]

Ms Rosie Winterton: The current essential small pharmacies scheme (ESPS) enables pharmacies dispensing fewer than 26,100 prescriptions per year and located more than 1 km from the next nearest pharmacy to receive financial support. This is currently £43,150 per year. There were 223 ESPS pharmacies in England as at 31 March 2004. National health service primary care trusts (PCTs) can in addition support, or commission services from, other pharmacies with lower dispensing volumes in their area that do not meet the ESPS criteria if they wish to do so.

The new community pharmacy contractual framework, due to go live from 1 April, will include special measures for pharmacies with lower dispensing

volumes. The ESPS will continue and in 2006–07, we plan that these pharmacies will be able to choose whether to convert to being a local pharmaceutical services (IPS) pharmacy and retain their current ESPS entitlements or to transfer to the new contractual framework. In addition, a standard form of IPS for other pharmacies, with lower dispensing volumes, is being developed. This may help increase income for such pharmacies where they provide services which meet local health care needs.

We expect these support arrangements to continue to be in place in 2008. We also expect NHS PCTs will, in reviewing their assessment of pharmaceutical needs, continue to consider what support can be offered to pharmacies with lower dispensing volumes which contribute effectively to meeting such needs.

Pharmacies dispensing between 1,100 and 2,000 items a month will continue to receive the professional allowance until 31 March 2008. This ranges from £9,300 to £18,000 per year, depending on prescription volume. Pharmacies dispensing fewer than 2,000 prescriptions per year will also receive the new practice payment. Pharmacies dispensing under 1,100 prescriptions per month will receive a payment of £500 per annum as part of the practice payment. Additionally, pharmacies will have the option, during the first year of implementation, to decide whether they wish to relinquish their right to provide NHS services and to receive compensation.

We discussed and agreed as part of our negotiations with the pharmaceutical services negotiating committee that pharmacies would be entitled during the first year of the new contractual framework to claim an exit payment. That framework will enhance the range and quality of pharmaceutical services contractors offer—and which patients will come to expect—in future. None the less, we recognised that some contractors may not wish to continue to provide services though we hope this number will be very few. We believe we have allowed a reasonable time limit within which contractors should come to a decision. To prolong the period for deliberation risks depriving all patients of the benefits the new arrangements will bring.

We estimate that some 650 community pharmacies in England—or approximately 7 per cent. of the total—will be eligible for these special support arrangements in 2005–06. We have not estimated the number of such pharmacies that will close when these arrangements come to an end in 2008. That is a commercial decision for the contractor concerned. Consequently, we have not estimated any savings that may accrue. We do however fully expect all contractors to take advantage of the significant opportunities the new framework offers to expand the range and quality of services they offer and to be remunerated accordingly.

Residential Care (London)

Sarah Teather: To ask the Secretary of State for Health how many *(a)* residential, *(b)* nursing and *(c)* elderly mentally infirm (i) homes and (ii) places were available in London in each of the last 10 years, broken down by (A) local authority, (B) private sector and (C) charity and voluntary providers; and what percentage of capacity in each sector was used in each year. [212368]

Dr. Ladyman: Tables 1 and 2 show the number of residential and nursing homes and places in London at 31 March for the years 1993 to 2001 by sector. Tables 3 and 4 show the number of homes and places in care homes for elderly mentally infirm people. Data is not available for the percentage of capacity used each year.

I understand from the Chair of the Commission for Social Care Inspection (CSCI) that figures for later years were collected by the National Care Standards Commission, and now CSCI, but comparable details are not available.

Table 1: Number of care homes in London, by type of accommodation: 31 March 1993–2001

	Residential homes				Nursing homes[1]
	Local authority	Voluntary	Private	Small[2]	Independent
1993	390	580	490	n/a	330
1994	360	580	510	370	400
1995	350	610	530	490	400
1996	350	640	540	570	350
1997	300	730	590	600	370
1998	300	710	610	640	520
1999	270	740	600	630	550
2000	270	740	590	630	550
2001	240	750	560	690	550

n/a = Not available.

[1] Includes dual registered homes.

[2] Independent registered care homes with less than four places; required to register from 1 April 1993.

Saneline

Sir Nicholas Winterton: To ask the Secretary of State for Health, what assessment he has made of the contribution of Saneline to the provision of support and advice to mentally ill people and their families; what assessment he has made of the impact of any reduction in Saneline's activities as a result of funding shortfall; and if he will make a statement. [208493]

Ms Rosie Winterton *[pursuant to the reply, 7 February 2005, Official Report, c.1340–41W]*: I regret my previous reply was incorrect.

The third sentence in the first paragraph should read as follows:

"At present, Saneline is operating two of its three call centres without a reduction in service level."

Staff Abuse (Lancashire Teaching Hospitals)

Mr. Hoyle: To ask the Secretary of State for Health how many staff have suffered *(a)* physical and *(b)* verbal abuse at Lancashire teaching hospitals in each of the last three years. [220977]

Miss Melanie Johnson: The information requested is not collected centrally.

Sudan 1

Andrew George: To ask the Secretary of State for Health (1) what steps *(a)* his Department and *(b)* the Food Standards Agency has made to ensure that concerns about food which may contain Sudan 1 have been adequately disseminated to (i) local authority trading standards departments, (ii) environmental health departments, (iii) food retailers and (iv) caterers; [218327]

(2) what assessment his Department has made of whether all food products containing Sudan 1 have been identified; [218457]

(3) what action his Department has taken *(a)* to inform the public of the risks involved in consumption of products known to contain Sudan 1 dye and *(b)* to ensure that products are withdrawn from retail and catering outlets promptly; [218756]

(4) what estimate his Department has made of the amount of food containing Sudan 1 dye which has not been withdrawn from retail and catering outlets. [218757]

(5) what assessment he has made of the longer term consequences of the Sudan 1 incident, in relation to his Department's responsibilities for the overseeing of food production and processing. [218753]

Miss Melanie Johnson: The Food Standards Agency (FSA) has advised me that full information has been made available on its website of foods known to be contaminated with Sudan 1, and that this was provided to a number of stakeholder organisations to distribute to their members. In addition, the FSA has asked all local authorities to contact food businesses in their area to ensure the recall has been effective.

In addition the FSA has held a number of meetings with stakeholders, including retailers, caterers and other trade associations.

The FSA is working with manufacturers and local authorities to ensure that all foods known to be contaminated with Sudan 1 are removed from sale and information has been provided to consumers on these products. Since 1 January 2005 all food businesses are legally required to have in place systems to allow full traceability of ingredients and products.

The FSA estimates that the majority of foods known to be contaminated with Sudan 1 have been withdrawn. The FSA is working with food companies and local authorities to verify that the recall has been fully effective.

The FSA has responsibility for overseeing the safety of food in the United Kingdom. The FSA will be conducting a thorough and robust review of the incident which will be published.

Andrew George: To ask the Secretary of State for Health when *(a)* his Department and *(b)* the Food Standards Agency first became aware that Sudan 1 was being used as an additive to food for human consumption in the UK. [218474]

Miss Melanie Johnson *[holding answer 25 February 2005]*: The Food Standards Agency first became aware of the first instance of contamination of a food with Sudan 1 was present in foods in the United Kingdom on 11 June 2003. Shortly afterwards, controls on the import of chilli powder into the European Union were introduced in all member states which require prior testing of these products to show they are free of Sudan dyes. Regulations introducing the above measures were signed on 28 July 2003.

Surplus Assets Sales

Mr. Evans: To ask the Secretary of State for Health what the value of sales of surplus assets from his Department was in each year since 2000–01. [220967]

Mr. Hutton: The value of sales of fixed assets for each year since 2000–01 are shown in the table.

	Value of sales (£ thousand)
2000–01	84,363
2001–02	214,068
2002–03	180,806
2003–04	67,506

Targets

Mr. Bercow: To ask the Secretary of State for Health what recent assessment he has made of whether the public service agreement target to reduce mortality rates from cancer by at least 20 per cent. in people under 75 years by 2010 will be met. [219234]

Miss Melanie Johnson: The latest information on cancer mortality shows a 12.2 per cent. reduction compared with the baseline period of 1995–97. We are ahead of where we planned to be at this stage and are therefore well on track to deliver a 20 per cent. reduction in cancer mortality by 2010.

Transsexuals

Chris McCafferty: To ask the Secretary of State for Health whether transsexualism is classed as a mental disorder for the purposes of sections 1 and 3 of the National Health Service Act 1977. [218733]

Ms Rosie Winterton: Sections 1 and 3 of the NHS Act 1977 do not refer directly to "mental disorder", but do require the Secretary of State to provide a health service to secure improvement in physical and mental health and to prevent, diagnose and treat "illness". "Illness" is defined by section 128 of the Act as including "mental disorder within the meaning of the Mental Health Act 1983".

Transsexualism is defined in the International Classification of Diseases—tenth edition (ICD-10)—as a mental disorder and it is therefore likely that it would be regarded as a mental disorder for the purposes of the 1983 Act.

The ICD-10 classification reads as follows:

"F64.0 Transsexualism

A desire to live and be accepted as a member of the opposite sex, usually accompanied by a sense of discomfort with, or inappropriateness of, one's anatomic sex, and a wish to have surgery and hormonal treatment to make one's body as congruent as possible with one's preferred sex."

Guidance on gender dysphoria was included in the national definitions set for specialised services, which suggests that primary care trusts should commission such services collectively. Specialised services for mental health, including services for people with gender dysphoria, are being reviewed by the national director for mental health, Professor Louis Appleby, and a report is due in May.

Trumpington House

Mr. Flook: To ask the Secretary of State for Health pursuant to the statement made by the Parliamentary Under-Secretary of State for Health on 11 January 2005, *Official Report*, column 63WH, if he will clarify the position regarding the funding given by Somerset Coast Primary Care Trust to Trumpington House surgery. [220644]

Dr. Ladyman: I regret that my previous statement, given on 11 January 2005, *Official Report*, column 63WH, was incorrect. I am advised that, following acceptance of the new general medical service contract, the primary care trust (PCT) has an ongoing investment of £450,991 in the Trumpington House surgery.

The Somerset Coast PCT has been allocated an additional £250,000 capital funding for 2005–06 to assist with the development of this modernisation project. I also understand that additional recurrent revenue, in the form of notional rent payments, will be allocated to the surgery to fund this development.

DEFENCE

Air Tanker Programme

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the air tanker programme; and from where the proposed air tanker will be *(a)* serviced and *(b)* operated. [219756]

Mr. Ingram: The Future Strategic Tanker Aircraft (FSTA) project is aimed at providing the Royal Air Force's Air Refuelling capability through the private finance initiative.

I refer my hon. Friend to the announcement made by my right hon. Friend the Secretary of State for Defence on 28 February 2005, *Official Report*, column 73WS, in which he announced to the House that AirTanker has been selected as the preferred bidder for the FSTA project. The PFI contract currently under negotiation with AirTanker is based on the firm assumption that the FSTA aircraft are both operated from, and maintained at, RAF Brize Norton in Oxfordshire. We shall of course ensure that the House is kept fully informed of significant developments.

Atomic Weapons Establishment

Alan Simpson: To ask the Secretary of State for Defence how many of his Department's personnel are assigned to the Atomic Weapons Establishment. [220105]

Mr. Ingram: There are currently 95 Ministry of Defence Personnel whose duties relate predominantly to activities at the Atomic Weapons Establishment.

Camp Cropper

Mr. Tyrie: To ask the Secretary of State for Defence what steps he has taken to ensure that the UK meets its obligations under the Geneva Convention with regard to prisoners held at Camp Cropper for whom the UK is responsible. [219752]

Mr. Ingram: The United Kingdom is not responsible for any internees or detainees at Camp Cropper.

Chinook Crash

Mr. Arbuthnot: To ask the Secretary of State for Defence if he will place in the Library *(a)* the Boscombe Down CA Release Recommendations as they applied to the HC2 Chinook standard embodied in ZD576 at the time the HC2 Chinook entered service and *(b)* changes in those recommendations that were made up to and including 2 June 1994. [219459]

Mr. Ingram: I will write to the right hon. Member, and place a copy of my letter in the Library of the House.

Mr. Arbuthnot: To ask the Secretary of State for Defence pursuant to the answer of 23 February 2005, *Official Report*, column 651W, on Air Crash (Board of Inquiry), whether the Chief of the Air Staff, the Air Officer Commanding No. 1 Group, the Air Officer Commanding in Chief and members of the RAF Directorate of Legal Services met prior to 2001 to discuss the Board of Inquiry into the crash of ZD576 on the Mull of Kintyre. [219460]

Mr. Ingram: A search of available records has provided no evidence that a meeting involving all the named officials took place.

Mr. Arbuthnot: To ask the Secretary of State for Defence pursuant to the answer of 23 February 2005, *Official Report*, column 651W, on Air Crash (Board of Inquiry), if he will place in the Library the memoranda, minutes and other documents which were circulated *(a)* in preparation for and *(b)* as a result of the meetings that took place in 2001 at which the Chief of Air Staff, Air Marshals Wratten and Day, and the Director of Legal Services RAF were present. [219461]

Mr. Ingram: Three meetings took place in 2001 at which the Chief of Air Staff, Air Marshals Wratten and Day, and the Director of Legal Services (RAF) were present. The documents concerned are being recalled from archives and their suitability for release will be considered. I will write to the right hon. Member when this has been completed and a copy of my letter will be placed in the Library of the House.

Mr. Arbuthnot: To ask the Secretary of State for Defence what assessment other than by Racal he has examined of the findings of Racal regarding the SuperTANS on Chinook ZD576. [218418]

Mr. Ingram: Data was extracted from the RS252 SuperTANS unit by the equipment manufacturer, Racal Avionics Ltd. The extracted data was subsequently examined by the Board of Inquiry with the assistance of the Aircraft Accident Investigations Branch.

Civil Servants (Gibraltar)

Mr. Hoyle: To ask the Secretary of State for Defence whether TUPE rules will apply to the transfer of his Department's jobs in Gibraltar to the private sector. [218933]

Mr. Ingram: The Gibraltar Employment Ordinance provides the equivalent legislation in Gibraltar. MOD staff transferred to a contractor will have their terms and conditions of service, including pay, protected as part of a transfer of undertakings.

Cluster Munitions

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 31 January 2005, *Official Report*, column 729W, on cluster munitions, whether any foreign-owned company has *(a)* manufactured cluster munitions in and *(b)* exported cluster munitions from the UK since 1998. [220806]

Mr. Ingram: No foreign-owned company has manufactured cluster munitions in the UK or exported cluster munitions from the UK since 1998.

Death in Service

Mrs. Humble: To ask the Secretary of State for Defence what arrangements are made for parents of service personnel who have died *(a)* while on active service abroad and *(b)* while stationed at overseas barracks to visit the sites of the deaths. [220802]

Mr. Caplin: When a service person dies overseas the body will be repatriated or, if the next of kin request it, interred locally. In the latter case the service will bear the cost, including travel expenses of close relatives. Where the body has been interred overseas without the attendance of the relatives, or was not recovered, funding may be provided for two close relatives to visit the site within two years of the death.

Defence Information Infrastructure Project

Mr. Gerald Howarth: To ask the Secretary of State for Defence when he expects to award the contract for the Defence Information Infrastructure project. [220257]

Mr. Ingram: I refer the hon. Member to the statement I made on 2 March 2005, *Official Report*, column 88WS.

Defence Service Agencies (Scotland)

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year since 1997–98 the Duke of York's Royal Military School spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each case; and if he will make a statement. [215437]

Mr. Caplin: All the information requested is published in our annual Accounts, which are available in the Library of the House.

Angus Robertson: To ask the Secretary of State for Defence how much of its personnel budget for each financial year since 1997–98 the Defence Medical Services Department spent in Scotland *(a)* in monetary terms and *(b)* as a percentage of the total personnel budget for that year; how many personnel were employed in Scotland in each case; and if he will make a statement. [215457]

Mr. Caplin: In the current financial year 2004–05, specifically the Defence Medical Services Department (DMSD) is spending £56,424 of its personnel budget in Scotland which forms approximately 0.5 per cent. of the total DMSD personnel budget for this year. This covers less than five members of staff.

In previous years the DMSD has not employed any personnel in Scotland as they have been employed by other agencies and thus the figure is zero for all other years requested.

Devonport

Mr. Streeter: To ask the Secretary of State for Defence what departmental reviews currently under way affect the future of Devonport Dockyard and Devonport Naval Base. [219715]

Mr. Ingram: The Ministry of Defence is carrying out a number of studies as part of a wider strategy intended to optimise UK industry's warship and submarine sector. All have a similar headline aim of improving programme and cost performance, and ensuring sustainable capacity and capability. The main studies are:

Maritime Coherence Study

UK Naval Shipbuilding Industrial Strategy

Surface Ship Support Study

Submarine Acquisition Modernisation

Future Defence Supply Chain Initiative

The aim is to create an overall 'road map' that will identify how and when the outcomes of these studies might converge to improve overall efficiency. However, it is too early to say what impact, if any, these studies will have on Devonport, or any other, Dockyard or Naval Base.

Equipment Programmes

Mr. Robathan: To ask the Secretary of State for Defence when he will begin Equipment Programme 06. [220546]

Mr. Ingram: To align the Ministry of Defence's planning cycle with the Government's biennial planning cycle based on Spending Reviews in alternate years, and to improve further the effectiveness of our planning, we have decided to conduct future planning rounds every two years, rather than annually. Equipment Plan 2007 will therefore be the next equipment planning round; the main work will commence early in 2006.

Gibraltar

Mr. Hoyle: To ask the Secretary of State for Defence how many service quarters are available for the armed forces in Gibraltar; how many are *(a)* being and *(b)* planned to be improved; which are planned to be (i) sold and (ii) gutted; and if he will make a statement. [218619]

Mr. Ingram: British Forces Gibraltar currently owns 515 houses. None are being sold or gutted. However, under the Lands Agreement, 123 quarters will be passed to GOG, 392 quarters in total will then be available for use by MOD, including 96 which will be leased from Royal Gibraltar Regiment Trust. A total of 47 properties are currently being improved and it is planned to improve 114 in the future.

Iraq

Mrs. Browning: To ask the Secretary of State for Defence how many personnel have been deployed in

private security companies on behalf of coalition forces during the course of the Iraq war; and how many personnel are currently deployed in private military companies in Iraq. [216041]

Mr. Ingram *[holding answer 21 February 2005]*: The Ministry of Defence does not employ private military companies or private security companies in Iraq. Use of private military companies by other coalition partners is a matter for them.

Annabelle Ewing: To ask the Secretary of State for Defence what estimate he has made of the number of Iraqi casualties in the UK sector since the end of the war; and what percentage this represents of the total estimated number of Iraqi casualties since the conflict began. [218551]

Mr. Ingram: None. The United Kingdom armed forces do not maintain records which would enable a definitive estimate of the total number of civilian casualties arising from the Iraq conflict to be calculated.

UK military reporting is limited to the UK area of operations. But even within the UK area of operations reporting is limited to what troops see on the ground. So military reporting is incomplete and cannot provide the basis of civilian casualty estimates. This is why we do not publish figures.

Mrs. Gillan: To ask the Secretary of State for Defence (1) how much was spent by the Government on military operations between the outbreak of hostilities in Iraq on 19 March 2003 and 1 May 2003; and how much has been spent by the Government on military operations in Iraq since 1 May 2003; [219503]

(2) how much money was spent by the Government on preparations for the war in Iraq before the outbreak of war on 19 March 2003. [220350]

Mr. Ingram: Figures for the net additional costs of operations, in Iraq and elsewhere, are calculated and audited on an annual basis. The total cost of operations in Iraq in 2002–03, including the costs of preparations and the war fighting phase beginning in March 2003, was £847 million. Total costs in 2003–04 including the remainder of the war fighting phase, were £1,311 million.

Military Police

Mr. Tyrie: To ask the Secretary of State for Defence what plans there are to move Royal Military Police training from Chichester to HMS Dryad in Portsmouth; and if he will make a statement. [219280]

Mr. Ingram: The future of Royal Military Police training at Chichester, which forms part of the Defence College of Police and Personnel Administration, is under consideration. As yet, no decisions have been made. Should any proposals materialise, they will be subject to normal consultation processes and the hon. Member will be advised.

Military Tanker Capacity

Mr. Robathan: To ask the Secretary of State for Defence what steps he is taking to match military tanker capacity to defence requirements. [220828]

Mr. Ingram: The military afloat reach and sustainability project is planned to provide new maritime tankers. Land and air requirements will be met respectively by the wheeled tanker, which has just entered service, and the future strategic air tanker for which the preferred bidder has just been announced.

Naval Refit Contracts

Rachel Squire: To ask the Secretary of State for Defence if he will make a statement on the competition process for the contract for the repair of HMS Nottingham. [219455]

Mr. Ingram *[holding answer 8 March 2005]*: The contract for the repairs to HMS Nottingham was awarded to Fleet Support Ltd. (FSL) in 2002 following a three-way competition between FSL Portsmouth, Devonport Management Ltd. (DML) Devonport, and Babcock Support Services Ltd. (BSSL) Rosyth, the outcome having been judged on overall value for money.

Naval Shipbuilding Implementation Study

Mr. Robathan: To ask the Secretary of State for Defence who the members are of the UK naval shipbuilding implementation study; what its terms of reference are; and when it will report. [220572]

Mr. Ingram *[holding answer 7 March 2005]*: A team has been established within the Ministry of Defence to investigate the potential for a United Kingdom naval shipbuilding industrial strategy that best meets the needs of the forward naval equipment programme. The strategy will be developed in consultation with key members of the UK naval shipbuilding industry, other Government Departments (OGDs) and the trades unions. Formal terms of reference are under consideration, but in broad terms the study will investigate the potential for sustaining sufficient industrial capability and capacity, at the requisite level of performance and quality, to deliver an affordable UK naval ship programme in the longer term.

Time scales for delivery and implementation of the strategy are currently under review in consultation with industry.

RAF

Mr. Rosindell: To ask the Secretary of State for Defence which squadrons will be affected by planned changes to the Royal Air Force. [212364]

Mr. Ingram: My right hon. Friend the Secretary of State for Defence announced on 21 July 2004, *Official Report*, column 343, a number of changes to the Royal Air Force which affected squadrons. These included a reduction in the number of Tornado F3 squadrons by one (XI (F) Squadron in October 2005), bringing forward the disbandment of Jaguar Squadrons (54(F) to 2005 and 41(F) to 2006 and the disbandment of the final Jaguar squadron in 2007 (6 Squadron)), and a reduction in the Nimrod MR2 fleet to 16 aircraft. As a result of the latter, I announced in December that 206 squadron would be disbanded.

Mr. Lidington: To ask the Secretary of State for Defence if he will make a statement on the Government's plans for the future of RAF High Wycombe. [220401]

Mr. Ingram *[holding answer 8 March 2005]:* As I advised the hon. Member in my letter to him of 27 February last year, the use of RAF High Wycombe, along with all of the defence estate, is kept under constant review. RAF High Wycombe is the headquarters of RAF Strike Command and it is currently being considered as part of the process and organisation review into the collocation of the two RAF headquarters. I will announce the outcome of this review when the work is complete.

RAF Flights (Ascension Island)

Mr. Nigel Jones: To ask the Secretary of State for Defence how many civilian passengers have flown on RAF flights to Ascension Island in each year since 1997; and if he will make a statement. [220322]

Mr. Ingram: The Ministry of Defence has no requirement to retain information specifically relating to the numbers of civilians flown on RAF or chartered aircraft utilized on the South Atlantic schedule. Furthermore, the MOD does not retain air travel booking information longer than the current and previous financial years. No figures are, therefore, available for the period 1997 to March 2003. Booking information for the financial year April 2003 to March 2004 is not all held centrally and detail of civilians is not in a form which could be extracted without disproportionate cost.

While information for the current financial year is not all held centrally, it has been possible to establish the number of fare-paying civilian passengers who have been booked through the Defence Passenger Reservations Centre in the UK and who have flown to/from Ascension Island during the period April 2004 to February 2005: 1,481.

Mr. Nigel Jones: To ask the Secretary of State for Defence what assessment he has made of the effects on UK military operations on Ascension Island of civilian aircraft using Wideawake Airport. [220323]

Mr. Ingram: Wideawake is a United States military facility operated under the terms of the 1950 Bahamas Agreement as modified by subsequent Exchange of Notes. The use of Wideawake by civil aircraft was established under an Exchange of Notes in October 2003. Up to four movements (two arrivals, two departures) are allowed a week. Under the terms of agreement, military movements, both UK and US, have priority over civil movements at all times. In times of crisis, civil flights would be allowed only if there is no operational impact.

Regiments

Mr. Hoyle: To ask the Secretary of State for Defence (1) what plans he has for regimental headquarters which will not be used following the formation of the Kings, Lancashire and Border Regiment; [219058]

(2) what estimate has been made of the value of regimental properties and establishments of each of the three regiments to be merged into the King's, Lancashire and Border Regiment; and what estimate he has made of potential savings from the merger? [219044]

Mr. Ingram: Work on potential changes to the Army's estate resulting from the formation of the King's, Lancashire and Border Regiment is still at an early stage. Announcements on this issue will be made once details have been finalised.

Mr. Hoyle: To ask the Secretary of State for Defence under what circumstances an Army Board decision on a regimental name could be changed. [219059]

Mr. Ingram: The only circumstances under which a decision on a regimental name could be changed would be when there is an organisational requirement to do so.

Mr. Hoyle: To ask the Secretary of State for Defence (1) where the regimental headquarters for the King's Lancashire and Border Regiment will be located; and when he expects relocation to take place. [219065]

Mr. Ingram: It is anticipated that a study into the future of the Army's Corps and Regimental Headquarters, which would likely contemplate issues such as locations in the light of the restructuring of the Army and the Infantry, will be commissioned in the near future. At the present time I can provide no details as to what conclusions such a study might draw and no timescale as to when it may report.

RFA Argus

Mr. Hancock: To ask the Secretary of State for Defence what the *(a)* capital and *(b)* revenue costs were of maintaining RFA Argus for the last year for which records are available; and what the forecast is for each of the next three years. [219724]

Mr. Ingram: In financial year 2003-04, the last year for which records are available, £14.78 million was spent on maintaining RFA Argus. Of this, £14.7 million were resource costs and £0.087 million were capital costs.

To release details of maintenance budgets for the next three financial years could prejudice future competitions for RFA refit and maintenance work and this information is therefore being withheld on commercial grounds.

Rosyth Dockyard

Mr. Streeter: To ask the Secretary of State for Defence (1) what discussions *(a)* he and *(b)* other Ministers in his Department had with the right hon. Member for Dunfermline, East (Mr. Brown) prior to the decision to award the contracts to refit HMS Edinburgh and HMS Ark Royal to Rosyth Dockyard; [219732]

(2) what representations were received by Ministers in his Department from hon. Members representing constituencies in and around Rosyth, Scotland, in relation to the contracts to refit HMS Edinburgh and HMS Ark Royal. [219731]

Mr. Ingram *[holding answer 3 March 2005]:* There were no discussions between Defence Ministers and the right hon. Member for Dunfermline, East prior to the

decision to award the contracts to refit HMS Edinburgh and HMS Ark Royal to Rosyth Dockyard. Defence Ministers have received representatives from hon. Members representing constituencies in and around Rosyth, Scotland on a range of issues, including in relation to these contracts.

Mr. Streeter: To ask the Secretary of State for Defence (1) on what basis the contracts to refit HMS Edinburgh and HMS Ark Royal were awarded to Rosyth Dockyard; and what the cost to public funds is of each contract; [219714]

(2) whether his Department always accepts the most competitive tender for the refitting of surface ships. [219716]

Mr. Ingram: Contracts for the refitting of surface ships, including those for HMS Edinburgh and HMS Ark Royal, are awarded following open competitions. Royal Navy surface ship work is competed fairly and all tenders within the same competition are assessed against identical criteria, such as technical and commercial compliance, partnering proposals and price. The outcome is judged on overall value for money against these criteria.

The estimated cost for the refits of HMS Edinburgh and HMS Ark Royal, including the Ministry of Defence supplied materials, are around £20 million and £55 million respectively.

Submarine Acquisition Study

Mr. Robathan: To ask the Secretary of State for Defence who the members are of the submarine acquisition study; what its terms of reference are; and when it will report. [220570]

Mr. Ingram *[holding answer 7 March 2005]*: I refer the hon. Member to the answer I gave on 21 February 2005, *Official Report*, column 127W, to the hon. Member for Mid-Sussex (Mr. Soames).

Surface Combatants

Mr. Robathan: To ask the Secretary of State for Defence who the members are of the surface ship support study; what its terms of reference are; and when it will report. [220569]

Mr. Ingram *[holding answer 7 March 2005]*: The surface ship support study (SSSS) is looking at the ways in which the Ministry of Defence might engage with the United Kingdom naval surface ship refit and repair contractors to make best use of the industrial base, taking account of the future size of the Royal Navy surface fleet. The study includes consultations with industry (BAE Systems, Devonport Management Ltd., Babcock International Group, Fleet Support Ltd. and A and P) and aims to deliver recommendations for the way ahead and an outline implementation plan to defence Ministers during spring 2005.

SSSS forms part of a wider strategy intended to optimise UK industry's warship and submarine sector; other elements include the maritime coherence study, the UK naval shipbuilding industrial strategy, the submarine acquisition modernisation project and the future defence supply chain initiative. The aim is to create an overall 'road map' that will identify how and when the outcomes of these studies might converge to improve overall efficiency.

Surface Ship Refits

Mr. Hancock: To ask the Secretary of State for Defence how much his Department has spent, in each of HM Dockyards on repairs and refits of warships and auxiliaries in each year since 1997. [219725]

Mr. Ingram: The data required to answer the question are not held centrally nor in a standard format. I will therefore write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Targets

Mr. Bercow: To ask the Secretary of State for Defence (1) what recent progress has been made towards the Public Service Agreement target to achieve the objectives established by Ministers for operations and military tasks in which the United Kingdom's armed forces are involved, including those providing support to our civil communities; [219166]

(2) what recent progress has been made towards the Public Service Agreement target to improve effectiveness of the UK contribution to conflict prevention and management as demonstrated by a reduction in the number of people whose lives are affected by violent conflict and a reduction in potential sources of future conflict; [219167]

(3) what recent assessment he has made of whether the Public Service Agreement target to deliver improved effectiveness of UK and international support for conflict prevention by 2008, will be met; [219168]

(4) what recent assessment he has made of whether the Public Service Agreement target to ensure that a minimum of 90 per cent. of high readiness forces are at their required states of readiness with no critical weakness by 2006, will be met; [219169]

(5) whether the Public Service Agreement target for the Royal Navy and the RAF to achieve manning balance by 2004, was met; [219170]

(6) what recent assessment he has made of whether the Public Service Agreement target for the Army to achieve manning balance by 2005, will be met; [219171]

(7) what recent progress has been made towards the Public Service Agreement target to strengthen European security through an enlarged and modernised NATO, an effective EU military crisis management capacity and enhanced European defence capabilities; [219172]

(8) what recent progress has been made towards the Public Service Agreement target to develop and deliver to time and cost targets military capability for the future, including battle-winning technology, equipment and systems, matched to the changing strategic environment; [219173]

(9) what recent progress has been made towards the Public Service Agreement target to play a leading role in the development of the European Security Agenda; [219174]

(10) what recent progress has been made towards the Public Service Agreement target to increase value for money by making improvements in the efficiency and effectiveness of the key processes for delivering military capability; [219175]

(11) whether the Public Service Agreement target to make year-on-year output efficiency gains of 2.5 per cent., was met in 2003–04; [219176]

(12) what recent assessment he has made of whether the Public Service Agreement target to make year-on-year output efficiency gains of 2.5 per cent., will be met in *(a)* 2004–05 and *(b)* 2005–06; [219177]

(13) what recent progress has been made towards the Public Service Agreement target to make a 20 per cent. output efficiency gain in the Defence Logistics Organisation. [219178]

Mr. Ingram: Details of the MOD's performance against its Public Service Agreement targets are published every quarter on the Treasury and MOD websites. The MOD's most recent report, covering performance against PSA targets for the third quarter of 2004–05 (October to December 2004), was published on www.mod.uk on 1 March 2005. Further information on the MOD's performance against SR2002 PSA targets can be found in the "Ministry of Defence Annual Report and Accounts 2003–04," available in the Library of the House and on www.mod.uk.

Tornado Aircraft

Mr. John Smith: To ask the Secretary of State for Defence what proportion of the depth support maintenance will be undertaken by *(a)* RAF personnel and *(b)* BAE Systems personnel at RAF Marham when Tornado GR4s are rolled forward. [220839]

Mr. Ingram: The precise number of RAF and BAE Systems personnel to be employed on Depth Support maintenance for the Tornado GR4 at RAF Marham has yet to be determined.

Trident

Pete Wishart: To ask the Secretary of State for Defence whether arrangements are in place for the transfer of command and control functions for the Trident nuclear system to *(a)* the Australian Government and *(b)* the US Administration in the event of a nuclear attack on the UK which leads to (i) loss of communication with and (ii) the destruction of the UK Government. [221030]

Mr. Hoon: As my right hon. Friend the Prime Minister made clear in the answer he gave on 28 January 2003, *Official Report*, column 774W, to the hon. Member for Shrewsbury and Atcham (Mr. Marsden), the use of the United Kingdom's nuclear weapons may be ordered only by the Prime Minister. It would not be in the interests of national security to comment further on command and control arrangements for the nuclear deterrent.

Mr. Salmond: To ask the Secretary of State for Defence whether he has assessed the merits of converting Trident nuclear submarines to carry Tomahawk cruise missiles; and if he will make a statement. [221035]

Mr. Hoon: No.

Mr. Salmond: To ask the Secretary of State for Defence what alterations would be required to enable the UK to mount current Trident nuclear warheads on cruise missiles. [221037]

Mr. Hoon: The nuclear warhead mounted on the United Kingdom's Trident submarine-launched ballistic missiles was designed for use only on such missiles.

Fundamental design changes would be required to enable it to function safely and effectively when mounted on a cruise missile, but no detailed assessment of such changes, or their feasibility, has been made.

Mr. Salmond: To ask the Secretary of State for Defence whether research is being undertaken in the UK on miniaturisation of current Trident nuclear warheads. [221038]

Mr. Hoon: No.

Jeremy Corbyn: To ask the Secretary of State for Defence how many nuclear warheads are deployed on Trident submarines. [221432]

Mr. Hoon: As announced in the 1998 Strategic Defence Review (paragraph 67), we have only one Trident submarine on deterrent patrol at a time, carrying 48 warheads.

UK Nuclear Capability

Mr. Salmond: To ask the Secretary of State for Defence whether he has assessed the merits of mounting nuclear warheads on cruise missiles as part of the UK's current or future nuclear deterrent. [221036]

Mr. Hoon: For details of an assessment made in 1980, I refer the hon. Member to Defence Open Government Document 80/23, published by the then Defence Secretary in July 1980, particularly paragraphs 35–43. Subsequently, as noted by the then Defence Secretary on 18 October 1993, *Official Report*, column 34, an air-to-surface missile was considered as a possible delivery system to replace the RAF's freefall nuclear bomb. No assessment of the possibility of cruise missiles forming a part of the United Kingdom's current nuclear deterrent capability has been made under the present Administration. Paragraph 3.11 of the 2003 Defence White Paper made clear that we would keep open the range of options for maintaining a nuclear deterrent capability in future until decisions are required.

Union Flag (Gibraltar)

Mr. Hoyle: To ask the Secretary of State for Defence for what reason the size of the Union flag flown on his Department's site on top of the Rock of Gibraltar has been reduced; and if he will ensure that the flag flown there is of the size flown previously. [220978]

Mr. Ingram: A smaller than usual sized flag has been flown from the top of the Department's site on the Rock of Gibraltar since Christmas 2001, after the previous flag blew away. British Forces Gibraltar have recently ordered, and are awaiting the delivery of, a larger flag.

US National Ignition Facility

Alan Simpson: To ask the Secretary of State for Defence how much has been invested to date by his Department in the US National Ignition Facility. [220103]

Mr. Hoon: The United Kingdom has spent $43.34 million to date against a total commitment of $46 million.

Vice Chief of Defence Staff

Mr. Robathan: To ask the Secretary of State for Defence what work is being undertaken in Vice Chief of Defence Staff Medium Workstrands; and if he will make a statement. [220832]

Mr. Ingram: In July 2004 the Ministry of Defence published 'Delivering Security in a Changing World (Future Capabilities)' (Cm 6269), which described the changes to the planned structure of the armed forces and the forward equipment plan flowing from the policy adjustments set out in the Defence White Paper of December 2003 (Cm 6041). The Vice Chief of Defence Staff is leading action to implement these changes and ensure the resultant benefits are delivered.

FOREIGN AND COMMONWEALTH OFFICE

Cocaine (South America)

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs what his estimate is of the level of production of cocaine in each of the past 10 years in *(a)* Colombia, *(b)* Peru, *(c)* Bolivia and *(d)* the rest of South America. [220703]

Mr. Rammell: In its 2004 World Drug Report, the United Nations office on drugs and crime listed the following figures for potential cocaine manufacture.

Metric tonnes

	Bolivia	*Columbia*	*Peru*
1993	240	119	410
1994	255	201	435
1995	240	230	460
1996	215	300	435
1997	200	350	325
1998	150	435	240
1999	70	680	175
2000	43	69	141
2001	60	617	150
2002	60	580	160
2003	60	440	155

These figures are based on the amount of cocaine that can be produced from coca leaf grown in the country concerned.

Some coca cultivation has also been reported in Brazil, Panama and Venezuela, but it is thought to be relatively insignificant in comparison with the volumes produced in the Andean countries.

European Constitution

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions *(a)* officials and *(b)* Ministers in his Department had with the organisation Britain in Europe regarding the question for the referendum on the European constitution. [217448]

Mr. MacShane: None.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department received *(a)* briefing, *(b)* research and *(c)* other submissions from the organisation Britain in Europe regarding the question in the referendum on the European constitution. [217449]

Mr. MacShane: No.

Kate Hoey: To ask the Secretary of State for Foreign and Commonwealth Affairs from what non-governmental *(a)* organisations and *(b)* individuals his Department received advice, market research or the results of opinion polling regarding the wording of the question in the referendum on the European constitution. [217450]

Mr. MacShane: None.

Chris Grayling: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will provide a copy of the proposed European constitution for each household in the UK. [217677]

Mr. MacShane: There are no current plans for such a distribution, but the treaty, and the Foreign and Commonwealth Office's commentary upon it, are available free at www.europe.gov.uk. The full text and commentary have also been made available to central libraries, and are available to members of the public on request from the Foreign and Commonwealth Office.

Oil for Food Programme

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the Governments of *(a)* France, *(b)* Russia and *(c)* China on (i) the Volcker investigation into the UN Oil for Food programme and (ii) the illegal movements of oil from Iraq prior to the invasion. [220824]

Mr. Rammell: The Government has had regular bilateral and multilateral discussions with France, Russia, China and other Security Council members about the establishment and ongoing work of the Independent Inquiry Committee (IIC) investigating the Oil for Food Programme, including its endorsement under resolution 1538 (21 April 2004).

Prior to the military action of 19 March 2003, the Government also regularly raised its concerns in the Security Council and bilaterally with other countries about illegal activities under the UN's Iraq sanctions regime, including the illicit smuggling of oil.

Poppy Cultivation

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps he is taking to ensure that any reduction in poppy cultivation in Afghanistan is not replaced by increased cultivation in other countries, with particular reference to Myanmar, Pakistan, Kazhakstan, Iran, Tajikistan, Uzbekistan, Turkemenistan and China. [220704]

Mr. Rammell: In addition to the UK's lead nation status on counter narcotics in Afghanistan, we are active around the world to increase international capacity to combat the production and illicit trade in drugs which pose a threat to the UK. Pakistan and Iran are two of the highest priority countries for UK assistance. The UK is also providing £1.3 million to build counter narcotics capacity in Tajikistan.

We take forward this work in full cooperation with international partners, in particular engagement with the European Commission and the United Nations Office on Drugs and Crime.

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has made to the Sudanese authorities concerning their seizure of the Anglican Church headquarters in Khartoum; and what discussions he has had with *(a)* Bishops of Khartoum and *(b)* their representatives on the matter. [220911]

Mr. Mullin *[holding answer 9 March 2005]*: On 20 May 2004, police entered the Episcopal Church of Sudan's (ECS) guesthouse in Khartoum (which also served as the provincial office) and ordered the eviction of ECS personnel and properties from the building. This followed a court order on an ownership dispute, in which it is alleged the serving Archbishop had sold the premises to a private businessman. The sale was challenged by the Church. The case is currently before the courts, with the next hearing due to be held on 15 March 2005. The noble Lord, Lord Carey of Clifton raised this matter with Sudanese Vice President Taha during a visit in January 2005. We will continue to follow this case and keep in regular contact with the ECS and representatives of all religious groups in Sudan.

Surplus Assets Sales

Mr. Evans: To ask the Secretary of State for Foreign and Commonwealth Affairs what the value of sales of surplus assets from his Department was in each year since 2000–01. [220963]

Mr. Rammell: Sales of fixed assets per the resource accounts were as follows:

£

	Proceeds
2000–01	19,236,000
2001–02	40,015,000
2002–03	13,437,000
2003–04	26,875,000

Suspected Terrorists

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the Government have received requests from a Department or Agency of the United States Administration to use United Kingdom *(a)* airports and *(b)* airspace to deliver suspected terrorists from one foreign country to another via the United Kingdom. [217487]

Mr. MacShane: No.

UK Nuclear Weapons

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list each multilateral negotiating forum in which United Kingdom nuclear weapons are under discussion pursuant to British obligations under Article 6 of the nuclear non proliferation treaty. [220640]

Mr. MacShane: None.

CABINET OFFICE

Butler Committee

Mr. Gordon Prentice: To ask the Minister for the Cabinet Office whether all the Butler Committee recommendations concerning the proper recording and minuting of committee meetings have been implemented. [220375]

Mr. Miliband: Yes. The Cabinet Secretariat serves the Prime Minister and Ministers collectively, in particular by servicing Cabinet and Cabinet Committees. The Cabinet Secretariat's role is to put in place appropriate handling of committee business, such as the preparation of papers and minutes to ensure the effective functioning of the committee structure.

EU Rapid Reaction Civil Emergency Force

Sir Menzies Campbell: To ask the Minister for the Cabinet Office what discussions *(a)* he and *(b)* his officials have had with EU Governments regarding (A) the provision of a rapid reaction civil emergency force within the EU and (B) co-ordination measures needed to facilitate civil emergency planning; and if he will make a statement. [218890]

Mr. Miliband: Preliminary discussions on better co-ordination of resources within the EU to deal with emergencies and the outline of an Action Plan were discussed at an extra-ordinary meeting of the Council on 7 January. A detailed Action Plan was adopted at the meeting of the Council on 31 January. The Action Plan asks the Institutions of the European Union and the member states to discuss improvements to existing instruments for providing assistance in emergencies, including better co-ordination, and to discuss the setting up of a European rapid response capability including its relationship with the existing civil protection mechanism and EU humanitarian aid. The UK has, along with other member states, contributed ideas on how the EU might further improve its co-ordination of disaster response. These ideas have been discussed at various levels in the Council and its working groups, and between Capitals. The European Commission and Javier Solana are considering the ideas put forward and producing options papers for consideration and discussion by member states.

Parking

Mr. George Osborne: To ask the Minister for the Cabinet Office how much has been spent on *(a)* provision

of parking spaces for civil servants and *(b)* parking tickets and penalties incurred by civil servants in the Department in each year since 1997. [213806]

Mr. Miliband: The Cabinet Office does not specifically incur any costs for the purpose of providing parking spaces for its employees. Some parking spaces are provided as part of rent paid for some leased office space.

Employees are personally responsible for meeting the cost of parking tickets and penalties. The only parking tickets and penalties incurred were by staff of the Government Car and Despatch Agency (and more specifically the Government Car Service) while undertaking their official duties within Government and the public sector. A sum of £3,610 was incurred in 2003–04. Figures for earlier years cannot be readily retrieved without incurring disproportionate cost.

Regional bodies

Mrs. Spelman: To ask the Minister for the Cabinet Office what regional *(a)* bodies, *(b)* institutions, *(c)* taskforces, *(d)* panels, *(e)* offices and *(f)* organisations the Government has established since May 1997 which are the responsibility of the Cabinet Office. [219945]

Mr. Miliband: The Cabinet Office has not established any regional bodies, institutions, taskforces, panels, offices or organisations since 1997. This reflects the nature of the Department's work.

NORTHERN IRELAND

Asbestos (Trains)

Mr. Hume: To ask the Secretary of State for Northern Ireland what part was played by the Department in the processing of train carriages containing asbestos in the Crosshill Quarry Site between November 2003 and June 2004; what method of processing was used; on what dates; and whether the Department has assessed the extent to which statutory obligations were adhered to by the asbestos processing company. [219540]

Angela Smith: The Department of the Environment played no part in the repositioning of the carriages at Crosshill. I understand that this work commenced before 19 December 2003 when the regulatory powers for waste management transferred from district councils to the Department's Environment and Heritage Service (EHS).

I understand that the original method of moving the carriages was modified as they were too heavy to be removed in one piece. The carriages were removed by cutting them into three sections using large mechanical shears. The work was undertaken by an operator trained in asbestos removal, who did not observe any asbestos when the work was being carried out.

The site was inspected by my waste management officials on 13 February 2004 and they saw no evidence of railway carriages or asbestos waste, findings reinforced by photographic and documentary evidence on file. The site is also subject to regulation by EHS under the terms of the Water (NI) Order 1999. In the course of a regulatory site visit on 24 February 2004, EHS Water Management officials noted "that no carriages were visible".

In addition, EHS has undertaken independent water quality and soil sampling tests at the site and concluded that there has been no breach of the water order consent nor evidence of contravention of waste licensing controls. The Department therefore has no grounds to take action against the company.

EHS will continue to monitor the Crosshill site for the presence of asbestos to ensure full compliance with the water order consent. Independent air quality monitoring will be a condition of any subsequent waste licence or permit application.

Cabra Towers

Mr. Beggs: To ask the Secretary of State for Northern Ireland what assessment has been made of the impact of the closure of the South Eastern education and library board's Cabra Towers outdoors facility on the local economy; what plans the Department of Education has for the facility; and if he will make a statement. [220535]

Mr. Gardiner: Provision of outdoor education facilities such as Cabra Towers is a matter for individual education and library boards. I understand that the South Eastern education and library board has not made an assessment on the impact of the closure of Cabra Towers on the local economy and that the board's considerations are based on the costs of maintaining and refurbishing the building and on the board's ability to offer the services delivered through Cabra in a more efficient manner. I also understand that a decision has not yet been taken to close the facility and that the board is currently considering a number of options which will ensure that there are no compulsory redundancies if a subsequent decision to close is taken.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what services are provided by the Cabra Towers outdoor facility; which of these services are classed by his Department as front-line services delivered for children; and what plans the Department of Education has for the provision of services to children in the event of the closure of Cabra Towers. [220536]

Mr. Gardiner: Cabra Towers is an outdoor education centre which focuses on the delivery of outdoor and environmental education to the primary sector. The Department recognises that outdoor activity centres such as Cabra Towers are a valuable educational resource and they enhance both curriculum delivery and the learning experience. However, the relevant aspects for the statutory curriculum can be delivered successfully without availing of the services of such centres and ultimately it is the responsibility of individual schools to decide which educational resources they use. The South Eastern education and library board is currently exploring a range of options which will ensure continued provision of these services

in the board's other outdoor education centres, should a decision be taken by them to close Cabra Towers.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many of the schools that have made use of the Cabra Towers outdoor facility in each of the last five years were from the *(a)* controlled sector and *(b)* maintained sector. [220537]

Mr. Gardiner: The relevant details are set out in the following table:

Statistics for usage of Cabra Towers by maintained and controlled schools for the period 1999–2004

	Controlled	*Maintained*	*Total*	*Controlled (percentage)*	*Maintained (percentage)*
September 1999 to June 2000	25	11	36	69	31
September 2000 to June 2001	24	8	32	75	25
September 2001 to June 2002	31	10	41	76	24
September 02—June 03	27	6	33	82	18
September 2003 to June 2004	29	9	38	76	24
September 2004 to June 2005 (TBC)	27	10	37	73	27

The figures for September 2004 to June 2005 are based on bookings for the period after 4 March

Domestic Violence

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many *(a)* male and *(b)* female victims of domestic violence in Northern Ireland have been recorded in each year since 1997. [220633]

Mr. Pearson: The figures requested are set out in the following table.

The Police Service of Northern Ireland currently record statistics in respect of the number of domestic violence incidents attended and the number of incidents where offences have been disclosed.

The Police Service introduced Domestic Violence Officers in September 1997 and it is after this point that consistent and reliable data became available. The recording systems were developed between 1997 and 2000 and it is after this time that further reliable information became available in respect of victim gender.

Previously the Police Service recorded all domestic violence incidents manually with only crimes being electronically recorded. This has recently changed and all incidents, crimes and non-crimes are now recorded on the Integrated Crime Information System.

Table of domestic violence incidents/offence 1997–2004

	Domestic violence		*Victims*	
	Incidents	*Offences*	*Females*	*Males*
1997–98	10,367	n/a	n/a	n/a
1998–99	14,889	6,761	n/a	n/a
1999–2000	15,269	7,558	n/a	n/a
2000–01	14,325	7,254	6,300	908
2001–02	14,937	7,814	6,659	1,041
2002–03	15,512	7,961	7,627	1,414
2003–04	16,926	8,565	7,103	1,273

n/a = not available

Inward Investment (Strangford)

Mr. Beggs: To ask the Secretary of State for Northern Ireland how much inward investment there has been in Strangford during the last four years; how many new businesses have opened in this period; and what plans Invest Northern Ireland have to promote further investment in the area. [220752]

Mr. Gardiner: During the four year period 2000–01 to 2003–04 there were four offers of assistance to inward investment projects within Strangford parliamentary constituency area. The total amount offered to these was £1.3 million, contributing towards a total planned investment of £5.5 million. This assistance is generally drawn down over a number of years.

In addition, there were 350 offers of assistance made to new start-up businesses within the constituency. The value of assistance offered to these start-ups was just over £1 million, contributing towards an estimated total planned investment of £6.7 million.

Since being established in April 2002, Invest NI has been actively working with over 25 client companies in the constituency, providing them with access to a full range of support programmes, a number of projects in these companies are currently at differing stages of development. Invest NI owns 10.6 acres of land in the constituency which is available for industrial development use and its local office network also continues to actively promote enterprise and business start-up in the area through partnerships with local business development bodies and the district councils.

Mobile Phones

Mr. George Osborne: To ask the Secretary of State for Northern Ireland what the cost of staff mobile phone bills was in each year since 1997. [214894]

Mr. Paul Murphy: The cost of staff mobile phone bills to the Northern Ireland Office (excluding its agencies and NDPBs) since 1997 were as follows:

£

	Cost of staff mobile phone bills
1997–98	74,791
1998–99	102,673
1999–2000	100,245
2000–01	100,087
2001–02	90,538
2002–03	113,697
2003–04	129,203

Provisional IRA

David Burnside: To ask the Secretary of State for Northern Ireland what estimate he has made of the amount of money earned by the Provisional IRA in advising *(a)* FARC terrorists in Colombia and *(b)* ETA terrorists in Spain on their activities. [219673]

Mr. Pearson: Information about the links between the Provisional IRA and *(a)* FARC and *(b)* ETA is only available from intelligence sources and it would be inappropriate for the Government to comment.

Sea Trout Fishing

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what assessment the Department of Environment, Food and Rural Affairs and the Environment and Heritage Service has made of the viability of *(a)* a free-for-all approach to sea trout fishing and *(b)* the introduction of a permit system for sea trout fishing for Strangford Lough; and if he will make a statement. [202946]

Angela Smith: The Department of Culture, Arts and Leisure is responsible for inland fisheries matters, including sea trout in Northern Ireland. The other Departments referred to in the question have no responsibility for such matters.

There has been no assessment of the viability of a free-for-all approach to sea trout fishing in Strangford Lough. Any person fishing in the Lough for sea trout requires an angling licence issued by the Fisheries Conservancy Board. The licence is required to ensure the regulation of fishing and preservation of good order among those fishing. An assessment of the viability of a permit system has been carried out, which indicates that:

1. Fishing in the sea is a public right and is free of charge.
2. There is no legislative provision to allow the issue of permits for sea trout angling in Strangford Lough.
3. The Fisheries Act (Northern Ireland) 1966 would need to be amended to allow the introduction of a permit system.
4. Persons currently fishing for sea trout in the Lough could challenge the introduction of a permit system under the European Convention on Human Rights with regard to their right to the peaceful enjoyment of possessions and the deprivation of those possessions.
5. A precedent would be created which could impact on the public right to fish in other sea areas around the coast of Northern Ireland.

The Department has no plans to amend the Fisheries Act (Northern Ireland) 1966 to introduce a permit system in Strangford Lough. There are ongoing discussions regarding the sea trout permit issue and the development of Strangford Lough as a sea trout fishery.

Student Support

Mr. Beggs: To ask the Secretary of State for Northern Ireland what recent change there has been in the provision of financial support through the education and library boards to students undertaking postgraduate diplomas at universities in Northern Ireland; and if he will make a statement. [218311]

Mr. Gardiner: The Department for Employment and Learning has announced that funding for discretionary awards for postgraduate diplomas will be discontinued from the 2005–06 academic year. At the same time, however, stipends for students on higher level postgraduate courses, masters and PhDs have increased from £9,000 pa in 2003–04 to £12,000 proposed for 2005–06, in line with the recommendations of the Government's Science, Engineering and Technology Strategy, "Investing in Innovation".

Alzheimer's Disease

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will meet local representatives of the Alzheimer's Society to discuss the implications of the recent National Institute for Clinical Excellence recommendation that certain Alzheimer's drugs be withdrawn from the NHS. [220461]

Angela Smith: National Institute for Clinical Excellence guidance only applies to England and Wales. At present there is a consultation process under way on use of medicines for Alzheimer's disease in the NHS. In such circumstances, it would be better to defer a meeting with local representatives of the Alzheimer's Society.

Bereavement Care

Lady Hermon: To ask the Secretary of State for Northern Ireland what funding was made available by his Department to Cruse Bereavement Care in each of the past five years for which figures are available; and what plans he has to increase the funding. [219767]

Angela Smith: Departmental funding to Cruse Bereavement Care in each of the last five years was:

	Amount (£)
2004–05	45,924
2003–04	44,804
2002–03	43,076
2001–02	42,025
2000–01	41,000

There are no plans to increase the funding allocation to Cruse Bereavement Care other than a possible uplift to reflect cost of living.

Children's Fund

Mr. McGrady: To ask the Secretary of State for Northern Ireland whether all projects already established through the Children's Fund will be sustained following the withdrawal of the fund. [217770]

Angela Smith: The Department does not have the resources available to sustain the projects currently under the Children Fund once the funding cycle is completed. All organisations in receipt of this funding were aware of the fixed term nature of the funding and it was a criterion of the funding arrangements that there needed to be an exit strategy to identify alternative sources of money if the projects were to be sustained once the funding cycle was completed. It is not known how many of the projects have secured alternative funding.

Corporate Manslaughter

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will bring forward legislation to create an offence of corporate manslaughter in Northern Ireland. [211722]

Mr. Spellar: The Government are firmly committed to reforming the law on corporate manslaughter and when proposals are published for England and Wales we intend to consult on the proposal that a Bill's provisions should extend to Northern Ireland.

Crohn's Disease

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many children in Northern Ireland are diagnosed as suffering from Crohn's disease; what treatment provision is available to them; what the average cost of treatment is per child; and what provision is available for the counselling of parents of children suffering from the disease. [216927]

Angela Smith: Information on the prevalence of Crohn's disease in children is not available. Some children with Crohn's disease receive treatment from clinicians at the Royal Belfast Hospital for Sick Children; with support from the adult service. Children with conditions requiring access to a paediatric gastroenterology service are being referred to hospitals in Great Britain. In the 2003–04 financial year the average cost per inpatient episode with a primary diagnosis of Crohn's disease was £1,692 and the average cost per day-case attendance was £355. No special provision is made for counselling parents of Crohn's sufferers, other than the normal access that they have to their child's paediatrician.

Planning (Strangford)

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many staff in his Department work on the Belfast Metropolitan Area Plan and the Newtownards area plans; and what progress has been made in reducing time taken to consider planning applications in Strangford. [220753]

Angela Smith: The Belfast Metropolitan Area Plan team comprises 31 staff in total. There are currently 13 staff working on the draft Ards and Down Area Plan 2015. It is not possible to provide processing times for planning applications within the Strangford Area as processing times are collated on a district council basis. Nevertheless, the Planning Service is committed in its Modernising Planning Processes (MPP) change programme, through a wide variety of projects and initiatives, to improving the processing times for all planning applications.

Psychiatry

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many *(a)* admissions and *(b)* bed days resulting from admissions of young people under the age of 18 years who were admitted to adult psychiatric wards there have been in the Province in each of the last five years. [206179]

Angela Smith *[pursuant to the reply, 13 January 2005, Official Report, c. 657W]:* The figure given for *(b)* number of bed days in 2003–04 was incorrect. The correct information is as follows:

The number of *(a)* admissions and *(b)* bed days resulting from those admissions of young people under the age of 18 years who were admitted to adult psychiatric wards in the Province in each of the last five years is detailed in the following table.

	(a) Admissions	*(b) Number of bed days*
2003–04	173	5,097
2002–03	194	5,401
2001–02	183	6,346
2000–01	198	6,551
1999–2000	196	7,522

Notes:

1. Figures relate to financial years except for one trust who provided figures for calendar years and for 2004 to 30 November.
2. If a patient was admitted in one year and their episode carried into the next year the number of bed days are attributed to the year in which the admission took place and the admission is only counted once in the year it occurred.
3. If a patient is admitted when aged less than 18 years and the patient turns 18 years of age during their episode, bed days after the patient turns 18 years of age are included in total length of stay.
4. Where possible the number of bed days was calculated excluding days on leave, however one trust was unable to exclude days on leave from their figures.
5. Figures include patients admitted to psychiatric wards in Muckamore Abbey hospital, which normally caters for learning disabled patients.

HSS trusts

Sewerage

Mr. Trimble: To ask the Secretary of State for Northern Ireland what methodology was used to form the equality impact assessment's view that *(a)* Protestants and *(b)* Unionists are likely to bear a disproportionately greater burden of the domestic and sewerage bill under the Government Reform of Water and Sewerage Services; by what percentage he estimates they will be disproportionately affected; and by how much he estimates this would affect the income of the average family in the course of a year, based on each broad policy option. [221339]

Mr. Spellar: A spatial analysis methodology was used in the recently published draft Integrated Impact Assessment to assess the equality impact of proposals for domestic charging under the reform of water and sewerage services in Northern Ireland. Analysis of impacts in respect of religious belief was performed at electoral ward level using "community background" data from the 2001 census. Analysis of impacts in respect of political opinion was performed at district council level using Electoral Office data based on first preference votes at the 2001 local elections. These data were combined with information regarding recent house sales from the Valuation and Lands Agency. The conclusion that Protestants and Unionists are likely to bear a disproportionately greater burden of domestic water and sewerage charges reflects the fact that there is a markedly higher representation of these groups in those areas of Northern Ireland with higher domestic property prices.

This methodology allows broad assessments to be made, however data are not available on individual properties to enable calculations to be made of the likely average water and sewerage charge for Protestant and Unionist households. Accordingly, it is not possible to estimate the percentage by which Protestant and Unionist households may be disproportionately affected, nor by how much in relation to the average family income for each broad policy option.

Social Workers

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many social workers are employed in Northern Ireland; and how many vacancies for social workers there are in each health trust within the Province. [220660]

Angela Smith: Information is only available in respect of Social Work staff working within the Northern Ireland Health and Personal Social Services.

The information requested is provided in the tables as follows.

Social work staff employed by the NI Health and Personal Social Services as at 28 February 2005

Grade	*Headcount*	*WTE*
Qualified staff in social work posts	2,656	2,375.49
Unqualified staff in social work posts [1]	427	346.31
Total	3,083	2,721.80

[1] Homefirst Community Health and Social Services Trust were unable to provide the number of unqualified staff in social work posts in the specified timescale.

Social work staff vacancies in the NI Health and Personal Social Services by Trust as at 28 February 2005

HPSS Organisation	*Headcount*	*WTE*
Armagh and Dungannon HSS Trust	7	7.00
Causeway HSS Trust	5	5.00
Craigavon and Banbridge Community HSS Trust [1]	4	4.00
Craigavon Area Hospital Group HSS Trust	0	0.00
Down Lisburn HSS Trust [2]	n/a	9.10
Foyle Community HSS Trust	6	5.50
Homefirst Community HSS Trust [3]	n/a	n/a
Newry and Mourne HSS Trust	2	2.00
North and West Belfast HSS Trust	8	7.50
South and East Belfast HSS Trust	11	11.00
Sperrin Lakeland HSS Trust	11	11.00
Ulster Community and Hospitals Group HSS Trust	3	2.80
Total	57	64.90

[1] Craigavon Area Hospital Group HSS Trust is the only Acute Hospital Trust who directly employs Social Services staff.
[2] Down Lisburn Trust could only provide a whole-time equivalent number of vacancies.
[3] Homefirst Community HSS Trust was unable to provide the number of Social Work vacancies in the specified timescale.
Note:
Temporary vacancies have been excluded from the table. There were a total of 13 temporary vacancies (13 WTE); Armagh and Dungannon HSS Trust have 10 temporary posts, Causeway HSS Trust have two and Craigavon Area Hospital Group HSS Trust have one.

CONSTITUTIONAL AFFAIRS

European Constitution

Mr. Brady: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list *(a)* individuals and *(b)* organisations that were consulted on the drafting of the question to be asked in the proposed referendum on the EU constitution. [216134]

Mr. Leslie: The question was drafted bearing in mind the Electoral Commission's published guidelines, which are designed to ensure that a question is intelligible, and there was some discussion with the Electoral Commission about the application of those guidelines. The Electoral Commission's published views on Lord Blackwell's Private Member's Bill of July 2004 were also taken into account. No other non-governmental organisations or other public bodies were consulted. The wording of the question was agreed collectively at ministerial level.

Mr. Drew: To ask the Parliamentary Secretary, Department for Constitutional Affairs what advice was received from the Electoral Commission on the referendum question on the EU constitution; and if he will publish the advice. [217185]

Mr. Leslie: The Electoral Commission published their comments on the intelligibility of the question on 3 February 2005.

The question was drafted bearing in mind the Electoral Commission's published guidelines, which are designed to ensure that a question is intelligible, and there was some discussion with the Electoral Commission about the application of those guidelines. The Electoral Commission's published views on Lord Blackwell's Private Member's Bill of July 2004 were also taken into account.

We have no plans to publish material relating to the formulation of the Government's policy on the terms of the question.

Magistrates Courts

Mr. Hoyle: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how many courts were held each week at Chorley magistrates court in each month in 2004; [220891]

(2) how many cases were transferred from Chorley magistrates court to other courts in 2004; and for what reasons; [220892]

(3) how many court cases have been heard outside Chorley since 1 January where the defendant resided in the Chorley constituency; [220893]

(4) what guidance he issues on the appropriate number of clerks to run a fully operational magistrates court; [220894]

(5) how many clerks are working in magistrates courts in South Lancashire. [220895]

Mr. Leslie: The information is as follows:

(1) Actual figures are not available, however, a typical weekly pattern for Chorley magistrates court in 2004 was as follows:

Court	*Number of sittings per week*
Adult	14
Youth	1-2
Licensing	1
Family	[1]1
Local authority	1
Private prosecutions	[1]1

[1] Per month.

(2) Actual figures for cases transferred from Chorley magistrates are not available. I am advised that trial cases may be sent following consultation with both parties to either Ormskirk magistrates court or Leyland magistrates court if a trial can be listed earlier.

(3) Actual figures for court cases heard outside Chorley are not available. I am advised that most cases when the defendant resides in Chorley are heard in Chorley.

(4) There is no guidance issued centrally and this is a matter for the Lancashire magistrates courts committee (MCC) to determine, as it is with each of the other 41 MCCs in England and Wales.

(5) There are seven full time legal advisers, two-part time legal advisers, a deputy clerk and a countywide justices' clerk in South Lancashire.

WORK AND PENSIONS

Dementia Benefits

Mr. Laurence Robertson: To ask the Secretary of State for Work and Pensions what benefits are payable for people suffering from dementia; and if he will make a statement. [221364]

Maria Eagle: We do not pay benefits based on medical diagnosis.

Incapacity benefit is intended to provide a source of income for sick and disabled people of working age who are unable to work.

Entitlement to disability living allowance is based on walking difficulties and/or the need for personal care which results from severe disability. The customer's medical condition is not, necessarily, the key factor. Rather it is the disablement that results from it and the effects of that disablement.

For those over 65 years of age, attendance allowance is available for anyone who needs frequent attention or continual supervision in order to avoid substantial danger to themselves or others. As with disability living allowance, the customer's medical condition is not, necessarily, the key factor.

For those of working age, we are ensuring that the benefit system encourages and promotes work where possible. However, we recognise that those with the most severe conditions may never be able to work, and benefits provide security for those for whom work is not an option.

EU Committees

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Committee for the Implementation of the Action Programme to Tackle Discrimination and (ii) Restricted Committee of the Safety and Health Commission for the Mining and Other Extractive Industries met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [218314]

Jane Kennedy: The EU Committee for Implementation of the Action Programme to Promote Gender Equality meets twice a year in Brussels. The last three meetings were held on 11 November 2003 (during the Italian presidency), 20 July 2004 and 15 October 2004 (both of which were in the Dutch presidency). There was no meeting during the Irish presidency. An official from DTI attended the last two meetings in 2004.

The Restricted Committee of the Safety and Health Commission for the Mining and Other Extractive Industries met once, in Luxembourg on 3 December 2003, during the Italian presidency of the EU. The Committee did not meet during the Irish and Dutch presidencies. A member of the Health and Safety Executive represented the UK Government at the 3 December 2003 meeting.

There have been three Command Papers produced on prospects for the European Union which include highlights from the presidencies in question—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005. They are available in the Library and on the FCO website at www.fco.gov.uk/commandpapers.

Angus Robertson: To ask the Secretary of State for Work and Pensions how many times during the *(a)* Italian, *(b)* Irish and *(c)* Dutch presidency of the EU the (i) Committee of the European Social Fund and (ii) Technical Adaption Committee on the Introduction of Measures to Encourage Improvements in the Safety and Health of Workers at Work met; when and where these meetings took place; what UK Government expert was present; and if he will make a statement. [218456]

Jane Kennedy: An official from the Department for Work and Pensions represented the UK at the European Social Fund Advisory Committee on 26 September 2003 and 5 December 2003 during the Italian presidency; on 16 March 2004, 13 May 2004 and 18 June 2004 during the Irish presidency; and on 24 September 2004 and 23 November 2004 during the Dutch presidency. All of these meetings were held in Brussels.

During the Italian, Irish and Dutch presidencies the Technical Adaption Committee on the Introduction of Measures to Encourage Improvements in the Safety and Health of Workers at Work did not meet. At meetings of the Technical Adaption Committee on the Introduction of Measures to Encourage Improvements in the Safety and Health of Workers at Work, the UK representatives would be drawn from staff with the relevant technical and policy responsibilities within the Health and Safety Executive.

There have been three Command Papers produced on prospects for the European Union which include highlights from the presidencies in question—Cm6174 laid in April 2004, Cm6310 laid in September 2004 and Cm6450 laid in February 2005. They are available in the Library and on the FCO website at www.fco.gov.uk/commandpapers.

European Agency for Health and Safety at Work

Mr. Hayes: To ask the Secretary of State for Work and Pensions if he will make a statement on the activity of the European Agency for Health and Safety at Work in the UK in the last 12 months; and if he will list its publications and newsletters published over that period. [215203]

Jane Kennedy: The activities of European Agency for Safety and Health at Work in the UK are carried out by the Health and Safety Executive, acting as the Agency's Focal Point.

The HSE maintains the UK Focal Point website, which provides information on health and safety topics and links to other relevant organisations.

In the last 12 months, the UK Focal Point coordinated the national activities for the European Week for Safety and Health at Work 2004. This included, for example, distributing the Agency's Euro Week publications and selecting a UK nominee for the Agency's Good Practice Awards.

List of European Agency publications over the period:

2003 annual report: "Providing the insights for a safer and more productive working environment in Europe"

A summary of the 2003 annual report

CD ROM: "Agency information 2002/2003"

European Agency Magazine, issue 7: "Actions to improve safety and health in construction"

European Agency Work Programme for 2005

Rolling Work Programme for 2005–2008

Information reports:

Issue 107: "SME Funding Scheme 2002–2003"

Issue 108: "Prevention of risks in construction in practice"

Issue 210: "Corporate social responsibility and safety and health at work"

Issue 211: "Quality of the working environment and productivity"

Issue 313: "Mainstreaming occupational safety and health into education"

Issue 314: "Achieving better safety and health in construction"

Forums:

Issue 11: "Monitoring occupational safety and health in the European Union"

Issue 12: "Working with dangerous substances: The European policy challenge"

Factsheets:

No. 48: "Health and safety on small construction sites"

No. 49: "Safe roofwork"

No. 50: "Management of noise in construction"

No. 51: "Asbestos in construction"

No. 52: "Mainstreaming occupational safety and health into education"

No. 53: "Ensuring the health and safety of workers with disabilities"

No. 54: "Corporate social responsibility and occupational safety and health"

No. 55: "Achieving better safety and health in construction"

Bilbao Declaration—'Building in Safety'

European Week poster: "Building in Safety"

European Week leaflet: "Counting down to the European Week for Safety and Health at Work"

European Week Flier: "Good Practice Awards 2004—call for nominations"

There were no newsletters published by the Agency during this period.

Social Fund Applications

Ms Oona King: To ask the Secretary of State for Work and Pensions how many Social Fund *(a)* Community Care Grant, *(b)* Crisis Loan and *(c)* Budgeting Loan applications were received in each of the social fund districts and Jobcentre Plus districts covering Tower Hamlets in each of the last five years; how many were successful in each case; and what the total expenditure was in each case. [221045]

Mr. Pond: The borough of Tower Hamlets was previously in City East Social Fund District and is now in City and East London Jobcentre Plus District. The information is in the tables.

Community Care Grants award

	Applications	*Initial awards*	*Total expenditure (£)*
City East Social Fund District			
1999–2000	2,400	Not available	440,000
2000–01	2,310	670	443,000
2001–02	2,360	900	492,000
2002–03	2,700	1,020	558,000
2003–04 to August	1,150	540	344,000
Area covered by interim City and East London Jobcentre Plus District			
2003–04 September to November	2,880	1,100	725,000
Area covered by City and East London Jobcentre Plus District			
2003–04 December to March	3,650	1,460	930,000

Crisis Loans award

	Applications	*Initial awards*	*Total expenditure (£)*
City East Social Fund District			
1999–2000	5,530	Not available	400,000
2000–01	8,570	5,360	524,000
2001–02	7,320	3,880	407,000
2002–03	7,580	4,740	522,000
2003–04 to August	3,100	2,150	241,000
Area covered by interim City and East London Jobcentre Plus District			
2003–04 September to November	4,770	3,200	349,000
Area covered by City and East London Jobcentre Plus District			
2003–04 December to March	6,330	4,330	453,000

Budgeting Loans award

	Applications	*Initial awards*	*Total expenditure (£)*
1999–2000	7,250	Not available	2,275,000
2000–01	7,730	5,530	2,658,000
2001–02	7,880	5,790	2,825,000
2002–03	8,450	6,030	2,822,000
2003–04 to August	3,450	2,530	1,230,000
Area covered by interim City and East London Jobcentre Plus District			
2003–04 September to November	8,820	5,990	3,011,000
Area covered by City and East London Jobcentre Plus District			
2003–04 December to March	10,370	7,740	3,836,000

Notes:
1. Interim City and East London Jobcentre Plus District was formed in September 2003 by merging City East and Newham Social Fund Districts, together with most of Hackney and Islington Social Fund District and part of Euston Social Fund District. This District was enlarged in December 2003 by the addition of a small area previously in Hackney and Islington Social Fund District to form City and East London Jobcentre Plus District.
2. For each type of award, the tables refer to three different areas, as such data is not comparable.
3. Initial awards do not include awards made after review.
4. Total expenditure does include awards made after review.
5. Numbers of applications and awards are rounded to the nearest 10. Total expenditure is rounded to the nearest £1,000.

DWP Social Fund Policy, Budget and Management Information System.

Targets

Mr. Bercow: To ask the Secretary of State for Work and Pensions whether the public service agreement target to reduce the number of children in low-income households by at least 25 per cent. by 2004 was met. [220027]

Jane Kennedy: 2004 figures are not yet available. The most recent assessment of this PSA target was published in December 2004 in the Department's autumn performance report, a copy of which is available in the Library.

Mr. Bercow: To ask the Secretary of State for Work and Pensions (1) what recent assessment he has made of whether the Public Service Agreement target to end child poverty by 2020 will be met; [220112]

(2) what recent progress has been made towards the Public Service Agreement target to modernise welfare delivery so as to improve the accessibility, accuracy and value for money of services to customers, including employers; [220123]

(3) what recent progress has been made towards the Public Service Agreement target to promote work as the best form of welfare for people of working age, while protecting the position of those in greatest need; [220141]

(4) what recent progress has been made towards the Public Service Agreement target to combat poverty for today's and tomorrow's pensioners; [220145]

(5) what recent progress has been made towards the Public Service Agreement target to promote security and independence for today's and tomorrow's pensioners. [220146]

Jane Kennedy: These are Objectives; progress towards their underpinning PSA targets was published in December 2004 in the Department's Autumn Performance Report, a copy of which is in the Library.

Mr. Bercow: To ask the Secretary of State for Work and Pensions (1) what recent assessment he has made of whether the Public Service Agreement target to halve the number of children in low-income households between 1998–99 and 2010–11 will be met; [220113]

(2) what recent assessment he has made of whether the Public Service Agreement target to increase the proportion of parents with care on income support and income based job-seekers' allowance who receive maintenance for their children to 65 per cent. by March 2008 will be met; [220115]

(3) what recent assessment he has made of whether the Public Service Agreement target to reduce the proportion of children living in workless households by 5 per cent. between spring 2006 and spring 2008 will be met; [220120]

(4) what recent assessment he has made of whether the Public Service Agreement target to be paying pension credit to at least 3.2 million pensioner households by 2008 will be met; [220122]

(5) what recent progress has been made towards the Public Service Agreement target to ensure that customers receive a high quality service, including high levels of accuracy; [220124]

(6) what recent progress has been made towards the Public Service Agreement target to improve housing benefit administration; [220126]

(7) what recent assessment he has made of whether the Public Service Agreement target to reduce the average time taken to process a housing benefit claim to no more than 48 days nationally by March 2008 will be met; [220127]

(8) what recent assessment he has made of whether the Public Service Agreement target to reduce the average time taken to process a housing benefit claim to no more than 55 days across the bottom 15 per cent. of local authorities by March 2008 will be met; [220128]

(9) what recent assessment he has made of whether the Public Service Agreement target to increase the number of cases in the deregulated private rented sector in receipt of local housing allowance to 740,000 by 2008 will be met; [220129]

(10) what recent assessment he has made of whether the Public Service Agreement target to increase the number of cases in receipt of local housing allowance where the rent is paid directly to the claimant to 470,000 by 2008 will be met; [220130]

(11) what recent assessment he has made of whether the Public Service Agreement target to improve health and safety outcomes in Great Britain by 2008 will be met; [220143]

(12) what recent progress has been made towards the Public Service Agreement target to improve the control of risks in the workplace; [220144]

(13) what recent assessment he has made of whether the Public Service Agreement target to improve working age individuals' awareness of their retirement provision such that by 2007–08 15.4 million individuals are regularly issued a pension forecast will be met; [220147]

(14) what recent assessment he has made of whether the Public Service Agreement target to improve working age individuals' awareness of their retirement provision such that by 2007–08 60,000 successful pension traces are undertaken a year will be met; [220148]

Jane Kennedy: These targets were agreed as part of the 2004 Spending Review which covers the period 2005–08. It is too early to assess whether these targets will be achieved. Progress will be reported in future in the annual Departmental Report and Autumn Performance Report.

Mr. Bercow: To ask the Secretary of State for Work and Pensions (1) what recent assessment he has made of whether the Public Service Agreement target to double the proportion of parents with care on income support and income based jobseekers's allowance who receive maintenance for their children to 60 per cent. by March 2006 will be met; [220114]

(2) what recent progress has been made towards the Public Service Agreement target to increase the employment rate and decrease the unemployment rate by Spring 2006; [220116]

(3) what recent progress has made towards the Public Service Agreement target to increase the employment rate among disadvantaged areas and groups by spring 2006; [220117]

(4) what recent progress has made towards the Public Service Agreement target to reduce significantly the difference between the employment rate of disadvantaged groups and the overall rate; [220118]

(5) what recent assessment he has made of whether the Public Service Agreement target to reduce the proportion of children in households with no one in work by 6.5 per cent. by spring 2006 will be met; [220119]

(6) what recent assessment he has made of whether the Public Service Agreement target to be paying pension credit to at least three million pensioner households by 2006 will be met; [220121]

(7) what recent progress has been made towards the Public Service Agreement target to improve delivery of his Department's services; [220131]

(8) what recent assessment has been made of whether the Public Service Agreement target to reduce losses from fraud and error for people of working age in income support and jobseeker's allowance by 50 per cent. by 2006 will be met; [220132]

(9) what recent assessment he has made of whether the Public Service Agreement target to reduce losses from fraud and error in housing benefit by 25 per cent. by 2006 will be met. [220134]

Jane Kennedy: The most recent assessment of these PSA targets was published in December 2004 in the department's Autumn Performance Report, a copy of which is in the Library.

Mr. Bercow: To ask the Secretary of State for Work and Pensions what recent assessment he has made of whether the public service agreement target to deliver welfare payments into the bank accounts of 85 per cent. of customers by 2005 will be met. [220125]

Jane Kennedy: This PSA target has been met.

I refer the hon. Member to the oral answers given on 24 January 2005, to the hon. Member for South-West Bedfordshire (Andrew Selous), *Official Report*, column 7, and to the hon. Member for Newark (Patrick Mercer), *Official Report*, column 20.

Mr. Bercow: To ask the Secretary of State for Work and Pensions (1) what recent progress has been made towards the public service agreement target to improve rights and opportunities for disabled people in a fair and inclusive society; [220149]

(2) what recent progress has been made towards the public service agreement target to improve the rights of disabled people and remove barriers to their participation in society by March 2008; [220150]

(3) what recent progress has been made towards the public service agreement target to increase awareness of the rights of disabled people by March 2008; [220151]

(4) what recent progress has been made towards the public service agreement target to increase the employment rate of disabled people by March 2008; [220152]

(5) what recent progress has been made towards the public service agreement target to reduce significantly the difference between the employment rate of disabled people and the overall rate by March 2008. [220153]

Jane Kennedy: These targets were agreed as part of the 2004 spending review which covers the period 2005–08. No assessment of progress against these targets has yet been made. However, progress against the similar SR2002 targets was published in December 2004 in the Department's autumn performance report, a copy of which is available in the Library.

Unemployment Programme

Annabelle Ewing: To ask the Secretary of State for Work and Pensions how much his Department has spent on programmes to help the unemployed move back to work in each year since 1997; if he will list the programmes involved, specifying the amounts spent on each

programme in each year since 1997; and what percentage of each amount was spent in Scotland. [211989]

Jane Kennedy: The available information is in the tables.

Expenditure on labour market programmes for the unemployed

[1] Includes expenditure incurred by Employment Service's Jobcentre Plus' "Office for Scotland" region. Figures exclude expenditure controlled centrally within the Employment Service Jobcentre Plus and DWP DfEE, and expenditure that has been devolved to the Scottish Executive.

[2] The programmes exclude initiatives not primarily aimed at the unemployed.

[3] Figures rounded to nearest million; figures may not sum due to rounding.

[4] Figures comprise DEL programme expenditure only.

[5] Called Training for Work in Scotland. Figures for Scotland excluded as this is a devolved responsibility.

[6] Jobsearch provision includes expenditure on Jobclubs, Jobplan and Jobsearch.

[7] Includes expenditure on Jobfinders Grant, Travel to Interview Scheme, Advisers Discretionary Fund, Worktrials, Job Transition Service/Rapid Response Service, Workwise/Worklink, Jobmatch, Restart, Employment Retention and Advancement Demonstration, and associated programme expenditure (e.g. marketing and research).
